HOME EDITION

IF IT WILL HELP PETERBOROUGH AND DISTRICT, THE EXAMINER IS FOR IT.

VOL. LXV., No. 33 — PETERBOROUGH, ONTARIO, CANADA, SATURDAY, AUGUST 9, 1930 — PRICE THREE CENTS

R-100 EXPECTED OVER CITY 4 A.M. MONDAY

SOMERVILLE IS 3 UP ON PLATT AT END OF 9TH

Londoner and Philadelphia Opponent Playing Fast Game.

CANADIAN FAVORED.

Platt Goes Down One on Third and Two at Fifth Hole.

LONDON HUNT CLUB, LONDON, Ont., Aug. 9. (CP)—C. Ross Somerville, London was 3 up on J. Wood Platt Philadelphia at the end of nine holes of 6 in the finals of the Canadian Amateur Golf tournament this morning. Somerville, twice champion and Platt of Philadelphia teed off at 11:30 a.m. E. D. S. T. this morning in the finals of the Canadian Amateur Golf Tournament. Somerville won the title in 1926 and .928 and is the favorite today.

Nice Drives on First Hole

Both players had nice drives on the first hole. They were both on in two. They were down in two for a half.

First hole 330 yards, par 4. Perfect drives from the first left both players with short second shots to the green, about equal distance from the pin. Two putts was the order, the result being a half in fours. Platt 4, Somerville 4.

(Second hole 150 yards, par 3)

Somerville went one up at the short second hole, Platt's tee shot was down the bank at the left of the green, while Sandy played a beautiful iron shot from the tee to within 2 feet of the pin, after looking over the lie of his ball, Platt conceded the hole. A birdie two for Somerville. Somerville 2, Platt X.

(3rd hole, 420 yards, par 4)

The third was halved in par fours, both having good drives and fine second shots to the green and each needed two putts. Somerville 4, Platt 4.

Somerville nearly sank his tee shot on the short second. Platt was in the river with his first and conceded the hole, to put the Londoner one up.

On the 420-yard, par 3, they were both nicely on in a drive and a niblick. Sandy's first putt was dead for a 4 and so was Woodie, and they halved it. Somerville one up.

Hole 4, 430 Yards, Par 4

Both were shot with their seconds after the Philadelphian had outdriven the Londoner. Platt had to shoot over a trap to get on but he negotiated it. Sandy chipped up to leave himself a good put, but Woodie had a longer one. Somerville putted one to go two up.

Hole No. 5, 185 Yards, Par 3

Sandy was well on with his tee shot, but Platt was over. The Quaker City man made a beautiful chip on to the elevated green. Sandy rimmed the cup to miss a two. Platt took a four to lose the hole. Somerville three up.

Hole No. 6, 500 Yards, Par 5

Platt outdrove Somerville, who sliced his tee shot, but hooked his second to be 3 on. Somerville was short to take three to reach the green and be inside. They were not conceding any putts this morning and they halved it in par fives. Somerville 3 up.

Hole No. 7, 370 Yards, Par 4

Somerville's drive found the rough to the right while Platt split the centre with a pretty tee shot. Platt sliced his second to be 300. Sandy was on in 2, Woodie took 5, strokes and Sandy 4 to go four up.

Hole No. 8, 370 Yards, Par

Somerville was on in 2, but Platt was off to the right. He made a nice chip. They were both playing a fast game. They halved it in fours. Somerville 4 up.

Hole No. 9, 435 Yards, Par 4

Sandy's first sliced out of bounds while Platt was down the centre of the narrow fairway. Platt was on and Sandy 5 on green. Platt on 5 to 6, to leave Somerville 3 up.

7 MINERS KILLED IN MINE.

PITTSVILLE, Penn., Aug. 9 (C.P.).—Seven miners were killed and 16 injured yesterday by a fall of top earth at the Gilberton Colliery of the Philadelphia and Reading Coal and Iron Company. Three of the injured men were in a serious condition at a hospital.

Try Transmitting 2 Ways with R-100

OTTAWA, Ont., Aug. 9 (C.P.).—What is thought to be the first two-way voice transmission from ground to air in Canada is planned from Station CNRO to-morrow evening, when the British dirigible R-100 is expected to be over Ottawa. While the ship is in the air in this district it is planned, on the regular 500-meter wave length of CNRO to hold a series of short conservations with the officers of the ship. It is also possible that local authorities will take advantage of the opportunity to broadcast to the flyers some form of special welcome, although this feature of the programme has not yet been settled.

New State Deputy.

D. A. COSTELLO,

Past Grand Knight of the Peterborough Council of the Knights of Columbus, who has been appointed by State Deputy T. E. Brown of Ottawa as District Deputy, with jurisdiction over the Councils at Toronto, Oshawa, Peterborough, Lindsay and Cobourg.

INQUIRY IS HELD INTO THE ACTIONS OF GALT'S CHIEF

Defense in Its Evidence Before Police Commission Alleges a Frame-up.

CHIEF TAKES STAND.

Two More Witnesses Testify as the Girl Being Seen in the Police Car.

GALT, Ont., Aug. 9.—Police Chief Boyd of this city who was recently relieved of office on charge by aldermen J. M. Willard and J. H. Brewer, of conduct unbecoming a police officer, which involved a serious offence, will not know his fate until Monday. The defense yesterday submitted its evidence before the Police Commission and alleged a frame up.

Chief Boyd served on the Peterborough force some years ago and on resigning there he went to Belleville, where he was awarded his stripes. From Belleville he went to Hamilton and later to Galt.

When the case opened yesterday V. L. Hattin of Kitchener was associated with C. G. Robertson in the prosecution and conducted the examination. Two more witnesses for the plaintiff, J. A. Ferguson and Mrs. Mary Gale, testified as to the girl being in the police car.

The defense contended that the meeting of Chief Boyd with Miss Margaret Love on Sunday night, July 27, was a frame-up" Aldermen Willard and Brewer, in the course of J. A. Dufferin Slemin's summing up the defense case, were branded as the "arch conspirators."

Tells of Telephone Call

David Johnston, who tipped the police off about two cars being down the River Road, was the first witness. He said it was 12.40 when the Chief and Sergeant drove away, and this was confirmed by Constable F. Cronin, who also told of hearing the Chief call up on the telephone Sunday afternoon and ask for Miss Love. Mrs. Boyd told of her husband calling up Miss Love on the Sunday evening, and of making an appointment for 9.30, informing witness that he was going to meet the girl to get some information.

Sergeant Carson who on Wednesday was acquitted on a charge of conspiracy, told of the trip down the River Road, and of finding Miss Love and John Marriott in a car. He denied that he had taken Marriott away from the car, said he never was further than six feet away, heard nothing improper said by the Chief, and of no arrangements for a Sunday meeting. He declared the charges were absolutely unfounded. The Chief had told him Saturday the girl had telephoned him that she had some information for him. He was with the Chief on the Sunday night prior to his meeting the Love girl, and had been away only 15 minutes. When he returned, he said he had been "framed" and that he had met 'Mel" Williard on a crossroad.

Chief Takes Stand.

Chief Boyd, in his defence, corroborated the evidence of the sergeant on what happened on the Friday evening. He said the girl looked like a respectable girl, and told her he would give her the benefit of the doubt, at the same time reprimanding her.

He denied saying anything out of the way or of any arrangement for Sunday night. The Chief said the girl appeared grateful at not being locked up, but Marriott said as they were leaving: "I'm going to find out

NEW NEWSPAPER INVENTION TRIED IN SIX U. S. CITIES

Teletypesetter Automatically Operates Linotypes in Six Plants.

ONLY ONE OPERATOR.

Electrical Impulses Sent Over Wire to Various Receiving Sets.

WHITE PLAINS, N. Y., Aug. 9.—(CP)—From a single keyboard in White Plains, linotype machines were operated in six cities of Westchester county last night.

On a teletypesetter an operator punched a keyboard and the copy was automatically set up in lines and molded by Linotype machines in six other plants of the Westchester County Publishers Inc., which publishes seven newspapers in the County.

The teletypesetter is a combination of the linotype and machines now used by Press Associations in sending their news from city to city.

Electrical Impulses

Combinations of holes, each combination representing a letter or figure are punched in a heavy composition tape at the master keyboard. This tape, running through a distributor sends electrical impulses over telegraph wires to a receiving set in another city which repunches the water combinations in tape. This tape then is run through the electric keyboard of the linotype, causing the keys to be depressed, and releasing the matrices from which the slug line of lead is molded exactly as it goes into the forms.

It had been used on short hookups before, but last night was the first time it had been used in actual composition for papers in widely separated cities.

MINISTERS LEAVE FOR THEIR HOMES

Liberal Cabinet Ministers Hold Conference to Decide on Future Course.

BENNETT IN TALKIES.

OTTAWA, Ont., Aug. 9.—(C.P.)—A period of tranquility has descended upon the political life of the capital and nothing of an outstanding character is expected to develop over the week-end. A large number of the new Cabinet Ministers left Ottawa for their homes following yesterday's meeting of the Privy Council. They will return early next week.

Two important conferences were held on Friday, additional to the Cabinet meeting there being one of the late Government. The attiture of the Liberal opposition to the by-elections of the new Ministers was discussed. No announcement was made as to whether the individual members of the government would be opposed or given acclamations. Some uncertainty surrounds the future of Hon. C. A. Dunning, former Finance Minister, and the question is being asked if Mr. Dunning will remain in politics. He himself has not yet made any decision on the matter, nor is he likely to for several days yet. It is unlikely that any difficulty would be experienced in finding him a seat should he desire to re-enter the House of Commons.

The three Prairie Premiers who have been in Ottawa for several days, Hon. John Bracken of Manitoba, Hon. J. T. M. Anderson of Saskatchewan, and Hon. J. E. Brownlee of Alberta will spend the week-end with friends and return to Ottawa at the beginning of next week in order to continue their discussions with Premier Bennett. The Prime Minister conferred with them yesterday when, it is understood various angles of the unemployment situation were dealt with and co-operative remedies suggested. The question of marketing the wheat crop was also taken up. All of these major issues will, however, be further explored at subsequent meetings.

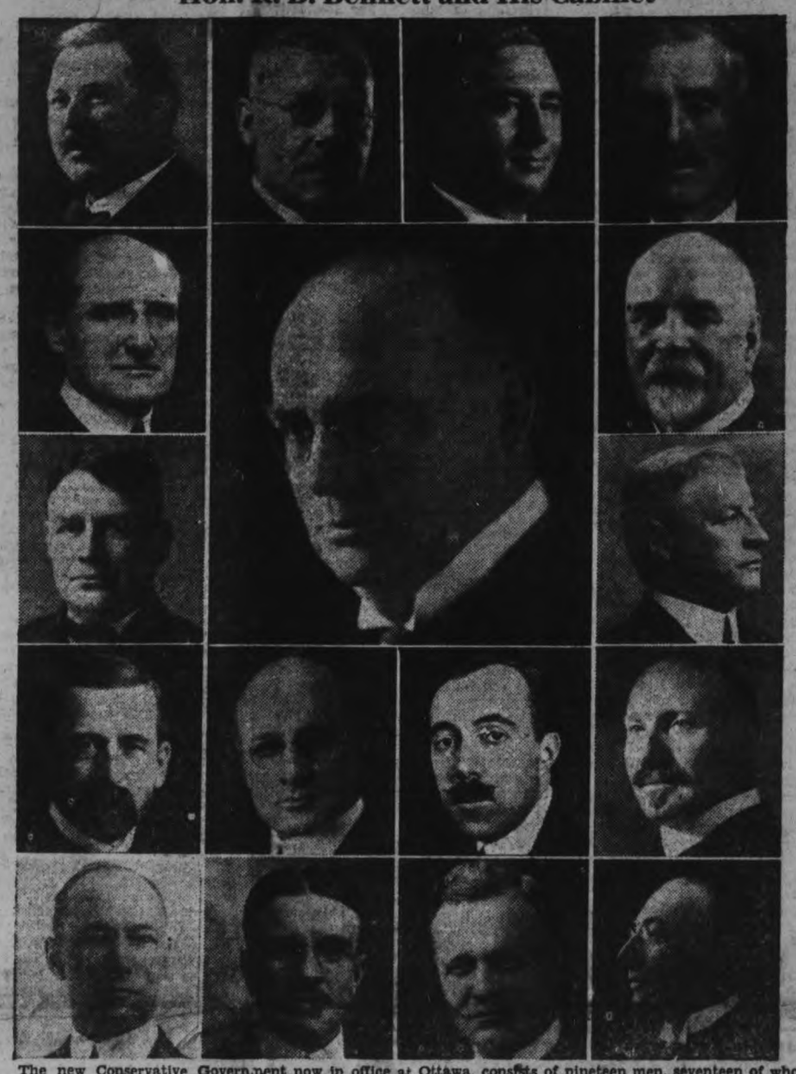
The Prime Minister broke into the talking pictures yesterday, delivering a brief address, his first public speech since assuming office.

The Weather

The rainfall of yesterday afternoon was not only a generous one but heavy as rainfalls go. It totalled .71 of an inch, almost three-quarters of an inch. It did not come down in one heavy deluge, but continued for some time, allowing the parched and thirsty land to absorb the much-needed moisture. Yesterday's highest temperature, 90 degrees; lowest, 62 degrees.—W.P.

Building and construction activity in Denmark is at the highest record in years.

Hon. R. B. Bennett and His Cabinet



The new Conservative Government now in office at Ottawa, consists of nineteen men, seventeen of whom are shown in this group: CENTRE—Hon. R. B. Bennett, Prime Minister, President of the Privy Council, Secretary of State for External Affairs, and Minister of Finance.

TOP ROW, left to right—Hon. Arthur Sauve, Postmaster-General; Hon. Murray MacLaren, Pensions and National Health; Hon. Gideon Robertson, Labor; Hon. J. A. MacDonald, without portfolio.

SECOND ROW, left to right—Hon. E. B. Ryckman, National Revenue; Hon. C. H. Cahan, Secretary of State.

THIRD ROW, left to right—Hon. D. M. Sutherland, National Defence; Hon. Hugh Guthrie, Minister of Justice and Attorney-General.

FOURTH ROW, left to right—Hon. Sir George H. Perley, without portfolio; Hon. H. H. Stevens, Trade and Commerce; Hon. Maurice Dupre, Solicitor-General; Hon. Alfred Duranleau, Marine.

FIFTH ROW, left to right—Hon. T. G. Murphy, Interior; Hon. H. A. Stewart, Public Works; Hon. R. J. Manion, Railways and Canals; Hon. E. N. Rhodes, Fisheries.

Hon. W. A. Gordon, Immigration and Colonization, and Hon. Robert Weir, Agriculture, are missing from the group.

50 MEN WORKING ON NEW BRIDGE

Two Coffer Dams Have Already Been Built to Hold Back Water.

TRAFFIC AS USUAL.

Employing close to fifty local men, the work on the new C.N.R.-Bethune Street railway and motor traffic bridge is proceeding rapidly, and is expected to reach completion on scheduled time about the first week of September. John Carroll of this city, the contractor, has made every attempt to help the unemployment situation here by offering full pay to local labor. His foreman, it is understood, was formerly a foreman on the construction of the big Colorado Dam.

Since the present contractor took over the work from the C.N.R. engineers two weeks ago, a coffer-dam has been constructed above the bridge and a second coffer-dam below the bridge is now being built. The water is being pumped from the improvised "lake" between the dams, and the task of pouring the concrete for the dikes on the banks of the creek commenced yesterday.

The dikes, when they are completed, will eliminate the annual spring flooding of cellars in the vicinity due to the swelling of the creek, and will provide the foundation upon which will rest the steel beams of the bridge.

The new bridge, which represents a considerable outlay of money on the part of the city and the C.N.R., will be of steel and concrete construction. Its completion will mark the conclusion of a long-discussed project and will come as a decided boon to citizens.

Two prominent officials of the C.N.R., it is reported, recently viewed the work and expressed themselves as being more than satisfied with the progress to date and the quality of the construction.

Sixty-eight members of the English Parliament have petitioned Prime Minister MacDonald to place on the agenda of the League of Nations in September a proposal to investigate the working of the Minorities treaties.

Old Spanish Wreck Found Treasureless

FORT LAUDERDALE, Fla., Aug. 9 (C.P.).—The lure of Spanish treasure has led Captain Tom Newman on an unsuccessful salvage attempt off the coast at Pompano. Legend says a Spanish galleon was driven on shore by a British ship and that the Spaniard was wrecked.

Captain Newman located the wreck three-quarters of a mile off Hillsborough light, and spent several days pumping sand out of her hold; divers went down and found the wreck empty.

MARMORA MAN STRUCK BY CAR

Hugh Jones Suffers Fractured Skull as He Attempts to Stop Friend.

IN NICHOLLS HOSPITAL.

MARMORA, Aug. 9 (Examiner Correspondent). — A shocking accident befell Hugh Jones of Marmora Township early Friday morning on Forsyth street, Marmora. The young man had returned from the excursion to Orillia and was waiting for a friend, William Moffatt to convey him home in his car after Moffatt had taken another excursionist home. As Moffatt drove up the street about 3 a.m., Jones stepped out with outstretched arms to halt the car. Moffatt did not recognize his friend in the suddenness of the action and slackened up, at the same time endeavoring to avoid him. Somehow or other Jones was struck down by the right front fender of the car. Dr. H. Crawford and Dr. D. Thomson were soon in attendance and the injured man was later removed to Peterborough where, at Nicholls Hospital, examination revealed a fracture of the skull above the right ear. Expectations are held of his recovery. As soon as medical attention was being given to his friend, Moffatt notified the police.

FIRE DESTROYS FARMER'S BARN

Charles Rutherford Loses Season's Hay Crop and 200 Bushels of Grain.

STRUCK BY LIGHTNING.

OMEMEE, Aug. 9 (Examiner Correspondence).—A large barn, a driving shed and a pig pen on the farm of Charles Rutherford, four miles south and east of Omemee, were destroyed by fire caused by a bolt of lightning during the severe electrical storm which passed over the district yesterday afternoon. The season's hay crop, a large quantity of alfalfa and 200 bushels of grain were lost.

Fire-fighting efforts were futile as it was but a few minutes after the lightning struck that the barn was a mass of flames. With difficulty a number of horses and pigs were saved but a set of scales, a buggy and other implements were destroyed.

The loss is partially covered by insurance.

Second Barn Destroyed.

KING'S WHARF, Aug. 9 (Examiner Correspondence).—A barn belonging to Morris Dorgan was destroyed here last night at half-past eleven o'clock, with the entire stock of farm implements and 15 tons of hay. Damage is estimated at $1,000.

Mr. Dorgan was absent from home at the time, and neighbors noticed the fire after it had a good start. It is thought that lightning ignited the barn yesterday afternoon during the severe storm, and smoldered until the late hour at night.

Radio Is Destroyed.

DOWNEYVILLE, August 9 (Examiner Correspondence). — Lightning which struck Patrick Harrington's house here yesterday afternoon, completely destroyed his newly-installed up-to-date radio equipment, and tore some boards off the outside of the building. No other damage was done.

Airplanes are being used in South America to scatter insecticides over orchards.

BIG AIRLINER TO LEAVE MONTREAL ON SUNDAY EVENING FOR OTTAWA THEN WILL CONTINUE TO TORONTO

Every Effort Possible Has Been Made to Have Ship Fly Over City.

WHISTLES TO BLOW.

Airship Should Fly Over Peterborough Between 3.00 and 4.00 O'clock.

Every effort possible has been made by F. G. Stinson manager of the Chamber of Commerce and Lieut-Col. Charles H. Ackerman to have the R-100 pass over Peterborough on its way from Ottawa to Montreal and from information available it is expected that the big airship will be seen by the citizens of this city early Monday morning. The ship is scheduled to leave Montreal around six o'clock from where it will go to Ottawa cruising over the Capital city for some time and then leave for Toronto where it is expected early Monday morning. The official report says the ship will cruise leisurely towards Toronto after leaving Ottawa. Air officials have promised that if it is at all possible the citizens of Peterborough will be given a chance to see the ship.

To Follow Flight

The Examiner will do its best on Sunday night to keep in touch with the position of the airship and when it nears Peterborough the managements of the Canadian General, Dominion Woolens and Worsteds and the Quaker Oats have promised that their whistles will blow to waken the slumbering citizens. The first whistles will probably blow about one hour before the ship arrives in order to let every one get prepared to see the giant of the air. The ship will be well lighted and it has been suggested that the best position to see the airliner will be from the top of Armour Hill or the hill at Queen Mary school grounds.

The following telegram in reply to one sent by Chamber of Commerce was received this morning from the Hon. R. B. Bennett who was asked to do his best to have the ship pass over Peterborough.

"Replying to your telegram, August 5th regret unable to say definitely whether R-100 will pass over Peterborough. Should this be possible however it would probably be at night.

Col. Ackerman wired J. A. Wilson, Director of Civil Aviation this morning and following reply was received:—

"Your wire received. Course taken by ship depends largely on weather. Your telegram and request are being transferred to Squadron Leader Booth who will endeavor to meet it if possible."

Repairs Completed.

MONTREAL, Que., Aug. 9.—(C.P.)—Her torn fin patched, her gas bags replenished and her gasoline tanks filled, the giant dirigible R-100 awaits favorable weather to-morrow for the start of her sole Canadian flight, from Montreal to the capital, down

(Turn to page 15, please.)

MINISTERS DENY THEY MAY RESIGN

Martin, Godfry and Goldie State Story of Shake-up Unfounded.

ALL INTERVIEWED.

TORONTO, Ont., Aug. 9.—(CP)—An article in to-day's Mail and Empire predicting that Hon. Dr. Forbes Godfrey, Hon. Lincoln Goldie and Hon. John Martin would resign their positions in the Ontario Cabinet was denied by the Ministers concerned in interview with the Daily Star today.

"First time I have heard of it," said Mr. Goldie.

"Then there's no truth in the story that you are resigning?" he was asked.

"No, not as far as I know, I never said at any time I was going to resign, what I did say at the last election was that I would not be running again."

Hon. Dr. Godfrey added his denial. "Nothing to it It's just the dog days, that's all", he said.

Hon. Mr. Martin who is ill at his home in Port Dover answered through his wife over the telephone. "Mr. Martin does not know anything about it. We think there cannot be anything to the story", said Mrs. Martin.

New Premier Gets Query from Massey

OTTAWA, Ont., August 9 (C.P.). — The Canadian Press understands the Hon. Vincent Massey has communicated with Premier R. B. Bennett with a view to ascertaining his wishes.

PETERBORO MEN INSPECT R-100 AT ST. HUBERT'S

Ross Dobbin and A. L. Killaly Return From Trip to Montreal.

SEEN FROM MONTREAL.

Major Scott Hopes to be Able to Fly Over Peterborough on Way to Toronto.

"You can't get those fellows to admit that it was anything but a stroll across the street," said Ross Dobbin, manager of the Peterborough Utilities Commission, telling an Examiner reporter about his visit to the St. Hubert Airport and an inspection of the giant dirigible R-100 Thursday afternoon at Montreal. "They don't seem to think anything of the fact that they flew across the Atlantic and claim that the trip was uneventful with the exception of the bump they got coming up the St. Lawrence. One member of the crew told me that he only saw the ocean once all the way over, and that all there was to see most of the time was a floor of fleecy, white clouds below."

Mr. Dobbin got his opportunity to inspect the dirigible through an invitation extended to the Engineering Institute of Canada by the ship officials. He was accompanied by A. L. Killaly, superintendent of the Trent Valley Canal. Earlier in the week, C. H. Ackerman and Gerald A. Wood of this city visited the ship.

Talked to Major Scott

Mr. Dobbin had an opportunity to talk with Major Scott, the official observer on the ship, and some of the officers at a dinner to the officers tendered by the Engineering Institute. "Major Scott said they were going to try to give as many Ontario people as possible a chance to see the ship in the air. I asked him if they were going to pass over Peterborough, and he said they probably would when I told him that Peterborough is on a direct line between Ottawa and Toronto and has a population of 25,000."

Telling the reporter of his inspection of the R-100, Mr. Dobbin said the airport is eight miles from Montreal. However, the airship can be seen floating at its mast from any high building in the city. Shortly after his arrival at the airport the sun came out once from behind the rain clouds and immediately the craft started to rise on account of the expansion of gas in its gas bags. The tendency had to be corrected immediately by the used of water ballast.

About ten are taken through at a time, Mr. Dobbin related. Visitors are required to present tickets of invitation and are then conducted past the sentries and up to the top of the mooring mast by means of an elevator. Before entering the ship they are required to deposit all matches and cigarette lighters in a rack outside and don rubber-soled shoes in place of their leather-soled footwear as a precaution against fire from sparks.

Smoke on the R-101

"Major Scott explained at the dinner that on the R-101 it would be permissible to smoke because it is powered with Deisel motors. The fear of fire seems to be on account of the gasoline used as fuel for the motors rather than the hydrogen in the gas bags."

Visitors walk down a long "catwalk" about four feet wide for half the length of the ship. The inside of the ship and the bottoms of the gas bags can be seen from the walk. The structure of the ship seems to be very frail to the eye of the casual

(Turn to Page 5, Please)

Son Drowns on Eve Of Family Holiday

TORONTO, Ont., Aug. 9 (C.P.)—As he was preparing to join his family at Sturgeon Lake, near Penelon Falls, last night, G. A. Carl, this city, was informed of the drowning there of his eight-year-old son, Gordon Carl, Jr. Mr. Carl left at once to bring the body back for burial.

BRUTAL ATTACK IS MADE UPON TORONTO GIRL

Staggers Home After Lying Unconscious on Roadside 10 Hours.

NOW IN HOSPITAL.

Forced to Drink Wine—Remembers License Number Arrests Made.

TORONTO, Ont., Aug. 9 (C.P.) — Staggering into her home, muttering incoherently of being attacked by four men a sixteen-year-old girl was rushed to a hospital where it was found she was in a serious condition, bruised and part of her clothing was missing. Three men were arrested for questioning.

Given Ride With Four Men

The youngster told police she had been given a ride in a motor-car with four men while waiting for the bus at Mimico, a Toronto suburb. She said she had drunk some wine with the men and could remember nothing more until awakening ten hours later near her home.

She remembered the car's license number and police rounded up Harold Ackroyd, 21; George Gardiner, 21, and Roy Leadbetter, 22, married. Another man, whose identity was not disclosed, was being sought.

The girl, although only 16 years of age, is well developed and very pretty, police state.

As she approached the corner, police state, she was accosted by four men in an automobile who asked where she was going and offered to drive her to her destination. She hesitated, she stated, but on recognizing one of the men as an employe of the Royal York Golf Club, she accepted the offer.

Instead of the car proceeding in the direction of Toronto, however, after she entered it, it turned and drove west, she stated. When she remonstrated, one of the men produced a bottle of wine and forced her to drink some of it. Despite her efforts to struggle, she told police, she lost consciousness.

At 5 o'clock yesterday morning she found herself in a dazed condition by the roadside about three-quarters of a mile from her home, part of her clothing missing. She staggered to her home, where she collapsed. Her parents, well known in Lambton Mills, rushed her to the hospital and notified Chief Suggett.

When seen at the hospital, police state, the girl said she remembered one of the men and the license number of the car. The latter she had repeated over and over, but could give no reason for having noticed it, unless when she was left by the car at dawn she had subconsciously noted the license marker.

Remembers Nothing.

The girl told police that she recalls nothing after being offered the drink of wine until she awoke on the side of Church street north of Lambton Mills. There was no sign of the car, she stated, nor of any of the men, all of whom, however, she was certain she could identify.

Facing one of the most serious crimes on the statutes, the three men will appear before Magistrate Davidson to-day. The arrest of the fourth man, police stated, was expected at any hour.

All Parades to Be Led by Union Jack

FORT WILLIAM, Aug. 9 (C.P.).—All public parades and processions through the streets must in future be headed by the Union Jack, according to a resolution passed at a meeting of the Police Commissioners yesterday. This decision was arrived at as a result of the May Day parades in the city, when some of the parading Communists created disturbances which ended in police action being taken.

MURDER CHARGE FOLLOWS FIGHT

Two Detroit Men Held in Windsor Jail After Stabbing Youth.

GIRL INVOLVED

WINDSOR, Ont., Aug. 9 (C.P.).—Charges of murder have been laid against Joseph Martin and Edward Holdaway of Amherstburg, following the death of Clarence Bullman of Windsor. The men were remanded for one week by Deputy Magistrate Arthur Hanrahan without being asked to plead. They are being represented by Stephen Smith of Amherstburg and are now in the county jail awaiting their preliminary hearing. The charge against the two men is the outcome of a melee in Amherstburg early on Sunday morning, and a girl, Rhea Martin, is the central figure. According to police reports, a Detroit man, Fred Roland, was in company with Rhea on Sunday night when they met John Martin, brother of Rhea, and Holdaway, her former sweetheart.

The two men pounced on the Detroiter and administered a beating. The girl fled but was caught after a chase of a few blocks. The men are alleged to have been beating her when Bullman and some companions came along in a motor car.

They interrupted the proceedings, and during the altercation Bullman was stabbed in the abdomen. He died on Wednesday night.

Martin and Holdaway were arrested on Sunday morning on charges of doing bodily harm, and this has been changed to murder on action of Provincial Police and the Crown Attorney, James S. Allan.

ONTARIO CABINET LIKELY REVISED INSIDE OF MONTH

Rumor Godfrey, Martin and Goldie About to Resign.

TWO IN ILL HEALTH.

Mention Homuth, Schofield, Dunlop and Kennedy For Vacancies.

TORONTO, Aug. 9.—A measure of more or less immediate reorganization of the Ontario Cabinet is said to be planned by Premier G. Howard Ferguson. This will be effected, according to all reports, prior to the Premier's departure for London in September to attend the opening of the new Ontario Government building.

It has been known for many months that the Cabinet would be reorganized, and, with the Dominion election over, the provincial Premier is expected to move toward replacement of several Cabinet Ministers.

Three members are slated to resign their portfolios, according to information going the rounds at Queen's Park. They are:

Hon. Dr. Forbes Godfrey, Minister of Health and Labor.

Hon. John S. Martin, Minister of Agriculture.

Hon. Lincoln Goldie, Provincial Secretary.

Resignation of Hon. Dr. Forbes Godfrey, who is in ill-health, is not unexpected. Towards the close of the last session of the Legislature, the Minister of Health was reprimanded from the floor of the House by Premier Ferguson.

Dr. Godfrey has been in ill-health for some months. He has been unable to attend to his duties at Queen's Park with any regularity and it is believed he will welcome an opportunity to withdraw.

J. S. Martin Ill

Ill-health is also the reason for Hon. John S. Martin's impending resignation. Although still a comparatively young man, the Minister of Agriculture has been in exceedingly poor health and has recently returned from a trip to the West Indies, where he went to recuperate.

Hon. Lincoln Goldie has rendered yeoman service to the province during his period in the cabinet. He is 66 years old and during the past provincial election campaign he made the statement that the present term would be his last.

These three portfolios are considered certain to have new holders before the Legislative Assembly meets again. That other changes will be made is not considered unlikely.

At present there are four vacant seats in the Legislature. Karl Homuth of South Waterloo resigned his seat to contest a Federal riding in the Dominion election and was defeated. Harry Morel, veteran member from Nipissing, did the same thing. David Bonis of South Perth and Dr. J. A. Anderson of Lanark South died recently.

With these seats open, it will be possible for Premier Ferguson to bring into the Cabinet men who are not at present in politics, if he so desires.

New Portfolio Likely

One report which has gained considerable ground in well-informed political circles is that the portfolio of health and labor will be split. Dr. J. D. Monteith, now Provincial Treasurer, is mentioned as a possibility for the portfolio of health, and Karl Homuth, at present without a seat in the Legislature, for the new portfolio of labor. For the latter position Rev. W. G. Martin of Brantford is also mentioned.

Should Hon. Lincoln Goldie withdraw from the Cabinet, H. C. Scholfield member for Toronto-St. George's is considered in the running for the office. Mr. Scholfield is a veteran member of the assembly.

Hon. E. A. Dunlop, Minister without portfolio, may be chosen Provincial Treasurer should Dr. Monteith take over the portfolio of health.

Col. T. L. Kennedy of Peel may become Minister of Agriculture in the reorganised Cabinet. Col. Kennedy is a practical farmer and represents an agricultural constituency.

Further changes are said to be likely at a later stage.

ONE BURNED 6 OVERCOME IN BUFFALO EXPLOSION

BUFFALO, N.Y., Aug. 8 (C.P.).—One man was burned, probably fatally, and four women and two men were overcome by smoke and fumes in a fire which swept through the pickle and vinegar plant of the J. P. Fister Company here to-day. Early estimates placed the damage at $100,000.

The fire was preceded by an explosion of a tank on the third floor of the plant.

TORONTO MINUS MAYOR

TORONTO, Ont., Aug. 9.—Toronto to-day is without a Mayor, or even an official Acting Mayor. Yesterday Mayor Bert S. Wemp left for Green Bay, Wisconsin, to attend the Great Lakes Harbor Association Convention and neglected to formally name Controller William Summerville to act as Chief Magistrate during his absence. Things went all right, however, with the exception that for a time it appeared as if the civic employees' pay list would not be signed.

POLICE CLEARED

TORONTO, Ont., Aug. 9 — Police officers were exonerated by a coroner's jury of any blame in connection with the death of Mrs. Mary Ball, 25, who was said by her husband to have died from ill-treatment of officers who searched the home for liquor.

GREAT LAKES ASSOCIATIONS ARE UNANIMOUS IN ASKING IMMEDIATE STEPS BY GOVTS OF BOTH COUNTRIES

Would Be Temporary But Important in Unemployment Situation.

STIMULATE COMMERCE.

Route Reached Stage Where Doubts of Completion Are Dispelled.

GREEN BAY, Wis., August 9 (C.P.). — The Great Lakes Harbor Association, in session here, was on record to-day as favoring immediate diplomatic action between Canada and the United States leading toward early construction of the St. Lawrence Deep Waterways.

Urging, in a resolution adopted yesterday, upon the Governments of Canada and the United States a hastening of the "realization of the proposed outlet to the sea," the association believes agricultural interests and employment conditions in both countries would benefit by an early beginning of the project.

Leaders of the association, composed of Canadian and United States harbor representatives, declared that development of water package freight would be the next project undertaken by their organization.

The Resolution.

The resolution adopted was as follows:—

"We respectfully press upon the President of the United States and Secretary of State and the Prime Minister and Secretary of State of Canada the urgency of initiating at once the diplomatic negotiations leading toward the promotion of a treaty providing for the early construction of the St. Lawrence deep waterways.

"The realization of the proposed outlet to the sea not only is earnestly sought by the agricultural interests of the two countries, but at the same time the early beginning of the project promises a temporary but important relief in the unemployment situation.

The decision of the United States Supreme Court in the Chicago Diversion case, whereby withdrawal of lake water was lessened, was accepted with a spirit of gratitude.

The preamble of the resolution on waterways said:

All Doubts Dispelled

"The progress of the proposed St. Lawrence route to the sea has reached a stage where all doubts as to its ultimate realization are dispelled.

'With the completion of the new Welland Canal and the operation now under consideration in the Canadian section of the St. Lawrence, two thirds of the entire project is well in hand.

"The remaining third, the interna-

FOUR DROWNED IN ARIZONA FLOOD

Thirteen Missing, 500 Homeless as Deluge Sweeps Nogales Twin Cities.

HEAVY PROPERTY LOSS.

NOGALES, Ariz., Aug. 8. (C.P.)—Soldiers, citizens and police searched the ruined sections of Nogales, Sonora, to-day for victims of the flood which swept through these border cities leaving four known dead, 13 missing and 500 homeless.

As the skies cleared the frightened populace, driven from homes by the flood and then terrified by a downpour which for a time threatened a recurrence of the deluge, ventured back to the houses remaining undamaged. A preliminary survey by Mayor Villasenor of the Mexican city indicated a property loss of $175,000. The damage on the United States side was estimated at $25,000.

The damage on the Sonora side was the more severe because of the number of adobe buildings. Stocks of merchandise in the tourist stores on International Street suffered heavily.

Train is Wrecked

A Santa Fe passenger train number 8 from Los Angeles to Chicago broke through a rain weakened bridge 10 miles west of Joseph City, Ariz., last night killing the engineer, R. E. Bixby, and probably killing the fireman, Morris E. Burney. No passengers were reported hurt.

Bixby's body was recovered early to-day but that of Burney had not been located.

The engine, tender and two baggage cars went through the bridge, a small structure.

STOP HARMFUL PUBLICITY

WINNIPEG, Man., Aug. 9 (C.P.)—To protect the industrial interests of Winnipeg from harmful publicity, Mayor Ralph H. Webb is planning a news censorship. He will seek the co-operation of local newspapers and press associations in running down the source of unreliable and "scare-head" news items which have been dispatched to the United States and overseas by unknown correspondents.

WOOD DEFEATS SHIELDS.

SOUTHAMPTON, N.Y., Aug. 8.—(C.P.).—Frank Shields, conqueror of Bill Tilden yesterday, was beaten in the semi-finals of the Southampton Invitation Tennis Tournament to-day by Sidney B. Wood, 18 year old New York sensation, by scores of 1-6, 1-6, 10-8, 7-5, 6-4.

Hon. R. Weir Once Taught in Marmora

MARMORA, Aug. 9—(Examiner Correspondence)—Local residents are delighted to hear of the appointment of the Hon. Robert Weir as Minister of Agriculture in the new Conservative Cabinet. Major Weir as he is also described left Marmora twenty-three years ago after being principal of the Public School here for two years. While in Marmora the new Cabinet Minister was held in highest esteem. Among other good works for which he is fondly remembered was the night school which he held without renumeration.

GOV'T WILL AID APPLE SHIPPERS ACROSS ONTARIO

Ferguson States Gov't Will Guarantee Banks Money For Financing.

ORGANIZE EXPORT TRADE.

Scheme Will Give Independence and Wider Marketing Distribution.

TORONTO, Ont., Aug. 9 (C.P.)—Announcement was made from Premier G. Howard Ferguson to-day that in order to ensure "intelligent marketing of Ontario's surplus fruit, the Government is prepared to come to the aid of the Fruit Growers' Association by guaranteeing sufficient money to the banks as will allow for the proper financing of shippers.

It was also announced that Kenneth Crews of Trenton has been appointed to assist P. W. Hodgett's Director of the Fruit Branch of the Government and Secretary of the Association, in further organizing the Province's export fruit trade.

Experiments Made

A series of commercial experiments will be undertaken by the Government with a view to controlling the "apple scald" disease, which annually causes tremendous loss to Ontario shippers.

All three undertakings are based on the advice of Andrew Fulton, who was appointed last year by the Government as their representative in Great Britain.

"The financing of shippers," said Mr. Ferguson, "has been a long felt need, as it will allow absolute independence in marketing besides a wider distribution for their product. In the past, exporters, through lack of finance, have been compelled to sell through foreign brokers, who made liberal advances at time of shipment."

SCOUTS INVITED TO OSHAWA MEET

Peterborough Troops Asked to Attend Great Rally on September 6.

DISTRICT REPRESENTED.

OSHAWA, Aug. 9.—A huge rally of Boy Scouts of this district will be held in Oshawa on September 6.

Invitations have been sent by the local Boy Scout Association to the troops in Peterborough, Cobourg, Lindsay, Port Hope, Port Perry, Pickering, Bowmanville and Brooklin. The program will be held at Alexandra Park with contests in fire lighting, message-carrying relays, a novel pillow fight on a greased pole above a tank of water, and other events. The Lindsay scouts are expected to give a display of the war dance, for which they have become famous. Scout handicrafts will be displayed, and humorous pantomimes will be given. In the evening motion pictures will be given of the international jamboree in England.

Previous to the afternoon's program, a parade will be held through the principal part of the city, with Chief of Police Owen D. Friend of this city as marshal. On the following day, Sunday, September 7, the scouts will parade to St. Andrew's church for the morning service.

FOUR WITNESSES TELL OF MURDER

Domestic in Home of Slain Fredericton Woman is Detained.

INQUEST CONTINUES.

FREDERICTON, N.B., Aug. 9 (C.P.)—Four witnesses gave details of the discovery of the horribly mutilated body of Mrs. Charles W. Clarke, ninety-year-old victim of an axe murder during broad daylight Thursday afternoon, before Dr. C. F. Morehouse, coroner, and jury in the local police court last evening.

The coroner's inquiry into the death of the aged Fredericton woman the outcome of robbery, was not complete. The four witnesses remaining to be called will testify to-night.

On the instruction of the coroner, the police returned Isabel Carr, of Geary, domestic in the Clarke home, to her cell for holding as a material witness. Her male companion, Barry McHatton, of Carleton County, another material witness, who was detained by the police following the crime, was allowed to go after testifying. The couple were the persons who first reported discovery of the body.

HUDSON

World's Largest Selling EIGHT *is a Proved Eight*

In France

With a perfect score — Hudson's Great Eight won the celebrated 9-day Tour de France, against 87 cars from every country.

In Poland

With perfect scores — three Hudson Great Eights finished equal first in the important annual International 8-Day Reliability Trial sponsored by the Polish Automobile Club — a victory over the largest field ever entered.

In California

With nearly all makes submitting bids, Hudson's Great Eight with 100% score overwhelmed all competition in tests conducted in the purchase of cars for the Department of Highway Control for the State of California.

And Throughout the United States

In a 7-day non-stop motor run in a nation-wide test, 25 stock cars ran a total of 124,750 miles with an average gasoline consumption of 14.585 miles per gallon. The top speed exceeded 80 miles per hour.

***Sales Prove It**

Registrations officially recorded for the United States and all available figures for the Dominion of Canada show that for this year more Hudson Eights have been delivered to consumers than any other Eight in the world.

Thus, by official tests, by tests of individual owners and by public acceptance, Hudson is a proved Eight. Come ride in it, even though you have no idea of buying.

THE TIME HAS COME

A Causerie by "Auditor"

The time has come, the Walrus said,
To talk of many things—
Of shoes—and—ships—and sealing wax—
Of cabbages—and kings.
—Lewis Carroll.

Rt. Hon. Mackenzie King recently said a few pertinent words about church advertising. "I frequently view with cynicism, contempt and even grief, the advertisements I see outside churches, trying to compete with the movies," he remarked, "because I feel that the people who are drawn by that sort of thing go away with as little permanent profit as those attending some other forms of amusement."

Yet the attention of ministers, of laymen and laywomen interested in religion, is forced, with ever-increasing emphasis, upon the need of advertising. Amid the attractions of modern civilization, the church must make its presence known.

With some churches every Sabbath is a special Sunday. Last week it was automobile Sunday, to-morrow it will be unity Sunday, a week from to-morrow it will be electricity Sunday, and so on. Every Sunday a propaganda Sunday: that is the enterprising idea.

But does it get the church very far? I doubt it. Those people who join a congregation where publicity dominates everything else are soon likely to be drawn away by a novelty elsewhere. Unwise publicity defeats its aim.

A Widespread Tragedy.

We realize that we have to make an effort to learn to make a living; we do not begrudge the time spent in learning a game; but how much time and effort do we give to learning how to come into personal contact with Christ? And which of these three, let us ask ourselves, is the hardest?

The effort to contact spiritual reality, that reality which shall endure when the physical world shall have dissolved like a dream into a nebulous dust, can be made by all. There is, in fact, in all men a hunger, definite or vague, for spiritual things. The tragedy is that many do not know how to satisfy it.

In Japan there is a man who has tried to tread in the footprints of Jesus. He has suffered stripes and imprisonment for Christ's sake. He writes popular novels to earn money and gives all he earns to the poor. He is partially blind with a disease of the eyes which he got from a beggar with whom he once shared his blanket. He is Toyohiko Kagawa, a true disciple of the Master.

Is the School to Blame?

I have wondered how Kagawa of Japan would try to solve the problem, and have imagined that if he came to Canada he, looking at things from the vantage point of the man outside might say something like this:

"The roots of the trouble lie in the children and the adolescents. You do not educate them rightly."

I can hear the reply of many ministers, "Yes, that is true. They do not get enough Bible teaching in the school." And I fancy Kagawa saying, "No, I do not mean that. The problem will not be solved merely by increasing the number of Scripture lessons, but by changing the general motive in education.

"In public and high schools to-day and on the playground, children are encouraged to compete with one another. This competition breeds envy and jealousy, deadly enemies of the Christian life. How can you expect the spiritual nature of the child to unfold when the development of its lower nature os fostered?

"Encourage them to work and play by all means, but base your commendation not upon achievement but upon effort. Teach them it is better to play the game than to win it. That is the Christian spirit.

Why Not Greek?

"Then I notice," he might say, "your collegiates teach your children Latin. Why not teach them Greek instead, so that they may learn to read the New Testament in the original language? That would make a link between the high schools and the church. The Greek necessary to read the Scriptures is not harder to learn than Latin. And how many use Latin once they have left school?

"In the few instances where Greek is taught in your schools the reading lessons are not taken from the Scriptures. No, in White's First Greek Book, for instance, eight chapters of Xenophon's Anabasis are used, a story of war and treachery. Would it not be better to replace it by some of the parables of the New Testament.

"When your children left high school and their minds were developing an appreciation of the abstract things of the spirit, could they not continue reading in Greek, for instance, the wonderful religious philosophy of St. Paul in classes held in the Sunday School?"

I fancy Kagawa might say something like that, or, again, he might find other reasons for the difficuty with which every earnest minister is faced, the difficulty of getting people sufficiently interested in their spiritual welfare to seek—and seeking means effort—spiritual things.

Getting people to go to church is only a step towards solving the problem, and every honest minister will admit that often people cease going to church because they cannot find religion there. They complain that the fault lies in the church, but does it? Do not some of the causes of the trouble lie in the development of a system of education which has allowed spiritual things to be divorced from secular ones?

Rev. JAMES CATTANACH

Baltimore, will preach at both services

HANNAH (A GODLY MOTHER)

NDAY SCHOOL LESSON FOR DEVOTIONAL STUDY OF SU AUGUST 10

Scripture: 1 Sam. 1: 9-18, 24-28; 2:19. Golden Text: Prov. 1:8
(By Arthur W. Brown)

It was this piece of Scripture that that young monk of scholarly temperament rummaging in a dark room of a university library found when he opened up a Latin copy he had discovered there. Martin Luther, for it was he, was astonished to find that there was so much more of the Bible, and so interesting and instructive, than the fragments of the Gospels and Epistles which were ready every Sunday at the Mass. "Beginning with this story of Hannah and Samuel he read on," D'Aubigne says, and "the reformation lay in that Bible."

Israel was never hopeless or bankrupt while it had such women in its homes as Ruth, Naomi and Hannah, the godly women whose names are preserved to us in that particular century. And such splendid life and character they reveal amid their varying fortunes that they set a standard for women of every generation! Their story may not start a reformation as big as Martin Luther is associated with, but let their godliness be copied, there would be a grand transformation in the homes of the nations. Every country with modern Naomis, Ruths and Hannahs would have enormously increased spiritual assets.

Sacred and happy homes are the surest guarantees of the moral progress of a nation, and these can hardly be without saintly motherhood. Given that, things can be as bad in influential quarters and high places of the land as they may be—yes, as bad as they were in Israel at the time of Samuel's birth—but that parental piety, prayerful mothering, conserving pious and spiritual standards of domestic life, rearing children for the Lord, are going to turn for sure the lean years of religious life and progress into those of plenty. Our lesson asks us to turn our eyes for a little while from the sad facts of those times—no staple government, a weakling as judge and high priest, libertines, the ruling, acting priests of Shiloh, years so lean spiritually that it was said, "There was no open vision," the sewers of the land flowed through the precincts of the temple. When treated to Hannah's story we mark:

That she used diligently and regularly the ordinances of God's house. She evidently found there a solace for her woes, an outlet for her pent-up heart. She had troubles of her own that often caused her provocation and weeping. Childless she was very unhappy. Frankly there are to me some verses in the Psalm that Hannah, in the second chapter, is represented as singing, that I can't see were born of her experience. But that verse where it says, "He will keep the feet of his saints, and the wicked shall be silent in darkness," she had doubtless found the truth of it and the worth of it by her comings and goings at the temple services. She had kept her head and heart and lips in her very trying experiences as Elkanah's wife amid her provocations undoubtedly by use of the means of grace. Let mothers try that and reap a precious harvest.

That she took her concerns to God definitely in prayer. For this child I prayed. How true it was and how we can venture to believe she prayed him up to manhood! Thank God for the mothers we have known who have prayed their children into the world and through it as far as they could. Samuel had a rare faculty for praying. So much so that in a great crisis when the people felt that their case must be definitely presented to God they called upon Samuel to pray for them. "Pray for us," was their demand. While we will not lose sight of fine traits that he would inherit from his fine father, Elkanah, we dare think he got this praying habit and unction through his mother. Conceived born, cradled, nursed, trained in prayer and finally relegated to the great place of prayer, no wonder he could lift holy hands to heaven prevailingly!

These praying mothers are the gracious background of many a life. Their prayers and prayer life will always be to the children who were blessed by them, "like a voice summoning them to the honorable way of life."

We note, too, how this mother was patient and respectful when under provocation. How terrible was the mistake of Eli in his misinterpretation of her moving lips! How cruel his, "Put away thy wine from thee!" How some of us would have marched out of church if we had been so misjudged and spoken to! We could draw out of this lesson a great warning on making misjudgments. How easy it is to wound, or to rudely open up afresh an old wound, to say the harsh instead of the gentle thing, to believe the worst instead of the best! But our duty here is to hold up before our easily irritated and vexed selves the meekness and patience of this woman. She might have made capital out of this foolish mistake of Eli, to add to all that was being said of the dolty, old, incapable High Priest throughout Israel. But, no, this woman, drunk with sorrow, does not flame up in anger or bounce out mad. She put a grace of sweetness and correction on the incident that to all eternity will give her credit.

We shall linger over the words how she lent her boy to the Lord. She was as good as her word to God. Though the temptation must have come at times to keep him for herself. To part with a boy so young and tender, the very pride of her life, would, measured by things in those days, be as sacrificial as surrendering to God's will on the part of a mother her only son to the mission field of China or Africa, or some other distant field. It means that she would not shelve her religious responsibility either in training or giving what was hers to the Lord. She had doubtless practised what we all must admit, that the home and the parent are the arena and agency for the child's acquaintance with God. The most powerful and persuasive lips for declaring the awful sanctities of regilion are the priestly lips of the Christian parent. Hail to these godly mothers! England and the English-speaking world has not yet realized all she owes to Susannah Wesley for the loan of her sons, John and Charles, to the Lord. In lowly homes and quiet unknown places there are Hannahs of this godly type of whom can be said what the father said to his boy in that fine story, "The Old Lieutenant and His Son": "She was a wonderful woman, a blessed woman—that mother of yours. She knew the whole chart and all the stars—all the stars; things above as well as below."

INSTITUTE HEARS GOOD PROGRAM

Roseneath Members Are Well Entertained at Sandercock Home.

ROSENEATH, August 9 (Examiner Correspondence). — Mrs. Eliza Sandercock, Mrs. Charles Sandercock, and Misses Elva and Beatrice Sandrecock were home to the ladies of the Woman's Institute on Thursday afternoon when a large number of members and friends gathered together to enjoy a very interesting and profitable meeting. The president, Miss Elva Sandercock, conducted the meeting. On motion, it was decided to get up a play for November 5. The committee in charge is Mrs. Davey, Misses Mary Braithwaite, Jessie Johnston, Elva Sandercock, and Mrs. Lily Turner.

Mrs. Reginald Crego generously offered to make the layette to be given to the General Hospital at Cobourg. Mrs. Crego gave an excellent paper on "Teaching Children the Origin of Life." Her paper was most instructive to everybody, and especially to mothers. Another splendid paper was given by Mrs Joe Braithwaite, "A Woman's Duty to Herself." This contained many good points and an advice to women who so often forget themselves in many ways, such as in dress, rest, food, etc., for the sake of making others in the home mbre comfortable. In general the housewife does not pay herself the attention she should.

Other items on the program were: Readings by Mrs. Lottie Nichol in the absence of Mrs. Leslie Sherwin, Mrs. Mary Brown and Mrs. George Mouncey; a contest of questions and answers by Jessie Johnston.

For the September meeting it was agreed upon to hold a picnic meeting in Mr. Halstead's grove. Miss Annie Brown, Mrs. Davey, Miss Elva Sandercock, Mrs. Delbert Brisbin, and Mrs. Lily Turner were appointed a committee for the sports, and Misses Mary Braithwaite and Jessie Johnston the program committee.

A hearty vote of thanks was given to Mrs. Sandercock and family, after which the meeting closed by singing the National Anthem. Refreshments were served, when all enjoyed a social chat over the teacups. Snaps of the group were taken, which ended the proceedings, each one returning home feeling the better of the afternoon outing.

BETHANY GARDEN PARTY

Splendid Supper and Concert Staged by St. Paul's Church

BETHANY, Aug. 9 (Examiner Correspondence)—The garden party under the auspices of St. Paul's Church on Wednesday evening was well patronized.

The tables, which were set on the lawn, were served from the interior kitchen at the end of the shed.

A stage had been erected in the shed furnished for the presentation of, "The Arrival of Kitty," presented by Springville Dramatic Club. The different parts were well acted and held the large audience in happy expectation from the first to the last act.

Between acts numbers were given by the members of the cast. Fred Bowen was also present and spoke for a short while.

In the early evening a game of softball was played by Lifford girls vs. Bethany resulting in favor of Bethany.

OBITUARY

SOPHIA MAINS.

QUEENSBORO, August 9 (Examiner Correspondence). — The funeral of the late Sophia Mains, of Eldorado, who passed away suddenly at her home on Tuesday night, was held in the United Church on Thursday afternoon, and in the absence of her pastor, Rev. I. N. Beckstead, who was away on his vacation, the service was conducted by Rev. J. F. Everson of Queensboro.

The deceased, who was a lifelong church member and active in church circles, was the eldest daughter of the late Robert Mains. She was in her 79th year, and had lived all her lifetime at home. Since the death of her only brother eighteen years ago she and her only sister Margaret had lived alone on the homestead. Miss Margaret is the only member of the family left to mourn. The late Miss Mains had retired in her usual health, and when her sister went to her in the morning it was found that she had passed away several hours before. The service was largely attended. Interment took place at Eldorado.

LADIES' AID MEETS AT THE SAGER HOME

Members Decide to Pay Queensboro's Share of Decorating the Parsonage.

QUEENSBORO, August 9 (Examiner Correspondence). — The August meeting of the Ladies' Aid of the United Church was held at the home of Mrs. Robert Sager on Thursday afternoon. There were thirteen members and twelve visitors present. Mrs. Fred Rollins, the president, was in the chair. The meeting opened with singing "There shall be showers of blessing." The Lord's Prayer was said in unison and Psalm 105 was read.

It was decided that the Aid would pay Queensboro's share of the repairs done on the parsonage, of the moving expenses, and of the cost of reinsuring the parsonage. Mr. Everson, Fred Rollins, and Harry Tokley were appointed to see about some little repairs at the church for which the Aid would be financially responsible.

The following donations were made to the bazaar which will be held in December: Mrs. Glover, Sr., an apron; Mrs. Bruce Leslie, flowers; Miss Hazel Thompson, a pitcher, and Mrs. C. B. Hamm, a dollar. The September meeting is to be held at the home of Mrs. Harry Tokley. The closing hymn was "Faith of our Fathers." A delicious lunch was served by Mrs. Sager.

The Pine View Ladies' Aid held its August meeting at the home of Mrs. Joseph Holmes on Tuesday afternoon. Six members and a number of visitors were present. The president, Mrs. Daniel Holmes, was in the chair. The hymn, "There is a work to do for Jesus," was sung. The 8th chapter of St. Matthew was read and prayer offered by the pastor, Rev. J. F. Everson. The ladies spent the afternoon in quilting a quilt for Mrs. Holmes, the hostess, who at the close served a delicious supper for all present. The meeting closed with singing "Blest be the tie that binds."

Lakehurst Ladies' Aid Visit Hall's Bridge

HALL'S BRIDGE, Aug. 9 (Examiner Correspondence) — Mrs. Harry Shearer was hostess to the members of the Ladies Aid for the regular meeting when they entertained the members of the Lakehurst branch at her home on Thursday afternoon.

The scriptural reading during the meeting was read by Mrs. William Shearer. A reading was given by Mrs. Hunt and was followed by a duet by Mrs. William Shearer and Miss Stella Shearer accompanied by Mrs. Gale Elliott. Miss Stella Shearer gave a short reading accompanied by Miss Iris Willis.

After a recherche tea had been enjoyed, Mrs. J. Gillespie closed the meeting with prayer.

Conducted by MESSRS. GARNER AND O'NEILL
Of the Faith Mission of Great Britain and Ireland
Will Commence on SUNDAY, AUGUST 10TH, at 8 p.m.

in the Victoria United Church

Week Night Meetings 8 p.m. (Saturdays Excepted)
Hearty Singing Hymn Books provided All Welcome

The Faith Mission is an Interdenominational Mission, whose one aim is the advancement of the Kingdom of God, and for this purpose we are willing to work along with all true-hearted followers of Jesus Christ. We therefore invite members of all Evangelical Denominations to assist in this special effort to help the Spiritual life of the community with their prayers and presence.

ADVERTISE IN THE DAILY EXAMINER.

The Question ? ? Box ? ?

In this corner the enquiries of readers on Biblical and religious problems are answered. Address "The Q. B. Editor c-o The Examiner.

Q.—I was greatly interested in your helpful comments upon Behaviorism, and would very much like to have your remarks upon Psychoanalysis. Your Question Box is read with great interest by myself and many of my friends.—H. V. R.

A.—Psychoanalysis is like Behaviorism, one of the passing fads of the day, yet both have in them a little grain of truth upon which their devotees build a temple of error.

The attractiveness of psychoanalysis lies in its presentation in a scientific way of a fact well known to observers of human life since man appeared on the earth. This is that man is a great self-deceiver. It is interesting to probe into the hidden motives of man's actions.

This self-analysis is a thing we all should do, but that we should try to probe the secret thoughts of others is most undesirable. We have no right for mere curiosity or self-interest to try to unveil the hidden motives of those around us.

Only in its method of presentation is Psychoanalysis new. Its method is based upon something which has been known for a long time: that is, the association of ideas.

People who conduct memory courses tell us to link up something hard to remember with something easy to remember. You want to remember, for instance, that a man named Hull has gone to live on King street, so you link the words Hull to King in somewhat the following way: Hull reminds you of the hull of a ship, a ship reminds you of the ocean, an ocean reminds you of the song, "My Bonnie Lies Over the Ocean," this again reminds you of Bonnie Prince Charlie who hoped to become King of England, so you arrive at the word King, and when you think of Hull again these ideas bring back to mind his address. Each individual will have different association links.

Psychoanalysis adapts this process of association ideas. You write a letter say, which you forget to post. You forgot on purpose, says the Psychoanalysist. So he bids you try and find out what that hidden purpose was. Supposing you did forget on purpose. You think of the letter that brings to your mind, say, the idea of a stamp, that again a memory of a man stamping a foot at you, angrily, that is succeeded by the thought of the reason for his anger, and this brings to your attention the motive which was hidden when you forgot to post the letter, which is that you had written something which would get you into trouble.

But, unfortunately, you cannot apply this process of Psychoanalysis to yourself unless you have some powers of concentration, for you have to hold your mind calm and wait for the associated ideas to come into it naturally, and without conscious effort on your part.

It is very important that we should come to appreciate the fact that we are great "kidders" of ourselves, and that if we want to do something wrong we seek, as Dostovesky says, for a "moral sanction for crime," for this Russian novelist knew the fact upon which Psychoanalysis is built long before Freud gave the system to the world. "If we have no sin, we deceive ourselves and the truth is not in us," says a prayer in the Anglican prayerbook, and the composer of that prayer had an insight into human nature.

Psychoanalysis is a method whereby we can peer behind the veil of self-deception, but Freud made a great mistake when he attributed the hidden motives to sex. It is quite true that if we psychoanalyse ourselves we will frequently find a thought of sex in the links of association, but if we carry the process a little further, and not stop at sex, as Freud did, we will arrive at other motives and at last at conscience, which is the voice of God.

It is not essential that we should use the method of Psychoanalysis to seek out the hidden motives of the heart. If we are honest with ourselves we can find them without tracing the association of ideas, but few of us are honest enough to do that and so Psychoanalysis helps.

THE DIVINE WHISPER

(A passage from a great religious classic)

I will hear what the Lord God will speak in me.

Blessed is that soul which heareth the Lord speaking within her, and from His mouth receiveth the word of comfort.

Blessed are the ears which catch the throbbings of the divine whisper, and take no heed of the whisperings of the world.

Blessed indeed are those ears that hearken not to the voice which soundeth without, but unto the truth which teacheth within.

Blessed are they who can penetrate into the things within, and endeavor to prepare themselves more and more by daily exercise to receive heavenly mysteries.

Blessed are they who delight to be at leisure to devote themselves wholly to God, and who rid themselves of every worldly hindrance.

Attend to these things, O my soul, and shut to the doors of thy senses, that thou mayest hear what the Lord thy God will speak within thee. —Thomas A. Kempis' Imitation of Christ.

SATURDAY, AUGUST 9, 1930

SUDBURY BECOMES A CITY.

Although Sudbury has shown for some years all the signs of cityhood, size and smartness and wealth, its status was not formally recognized until this week.

The "Nickel City" of the North becomes the infant city of Ontario, with its roots set soundly in the mineral resources upon which it has flourished. To the visitor Sudbury presents an imposing front of fine hotels and theatres, schools and churches, wide streets and a mercantile section that has every appearance of prosperity. There is a palpable spirit of confidence in Sudbury's business, and the city's atmosphere seems more alert and expectant, more driving, than that of many of the older cities of its size in Ontario, where the tempo has settled down to a staid and steady beat.

The great nickel companies loom up in the background of Sudbury with impressive height and expansiveness, guarantees for many years to come of the progress of our "Nickel City."

And not the least factor in Sudbury's growth has been its newspaper, "The Sudbury Star," which, under the management of Mr. Mason, has grown in influence and service throughout the North Country.

AGRICULTURAL.

Civic holiday motorists returning home in the evening along the Peterborough-Port Hope highway complained that a steam threshing outfit impeded traffic and held up long queues of cars. They suggested that such cumbersome machines should be prohibited from using the paved road.

It may be true that some of the impatient drivers who cut in and out of the line of traffic had more serious business ahead of them than that threshing outfit, but it might be hard to convince the average farmer on that point. This may be a holiday season for motorists, but it is also the harvest season in the country, and the harvest means wealth.

If the threshers find that they have to use a paved highway to move from one farm to another, even in the evening of a holiday, the Government of the Province will think several times before passing a law that would exclude their plodding engine and mill.

Friday's rain was a providential gift to the farmers. A year ago pasturage was dried up by a long hot spell, the worst effects of which were not felt until late in the winter when dairy farmers had to buy fodder for their stock. Yesterday's downpour should freshen the meadows and give new life to the late crops. In short, it means money for many a farmer, and to that extent it is most welcome to the people in the city whose fortunes invariably rise and fall with those of our rural producers.

MR. MASSEY'S POSITION.

Above the numerous demands in the Government press for the rescinding of the appointment of Hon. Vincent Massey as Canada's representative in London, the Hamilton Spectator (Conservative) sounds a note of moderation that is an agreeable contrast with the bitterness of the head-hunting editors who are urging Premier Bennett to make short work of dispensing with Mr. Massey.

The Spectator says:

"Speculation is rife as to whether the Hon. Vincent Massey will be confirmed in his appointment to London or go back to Washington. It is generally admitted that the civil and diplomatic services should be kept out of party politics. Civil servants and diplomats conscientiously serve the state regardless of which party is in power, and if people of ability and integrity are to be attracted to and held in the service of the state the public must ensure their complete freedom from disturbance in the security of their positions by changes of government. This is a good old British tradition with which we believe the Prime Minister-elect and the Conservative party at large are in hearty accord. Although Vincent Massey entered the diplomatic service under a Liberal Government, and although this paper, with its Conservative tendencies, rejoiced in his defeat as a Liberal candidate in the 1926 election, nevertheless we pay tribute to his remarkable success as Canadian Minister at Washington and sincerely trust that the recent change of government will not in any way adversely affect his promotion to the high commissionership in London. He has every qualification for the job. A graduate of Oxford University, he is well known and persona grata among the people with whom he would come in contact. He is the only Canadian of independent means who has withdrawn from commercial life and has made a special study of the diplomatic service. Canada should make the fullest use of his services."

COMPLETE THE CANAL.

The announcement that the Hon. Robt. J. Manion has been appointed Minister of Railways and Canals in the Bennett Government may encourage the hope of the early completion of the Trent Canal.

Dr. Manion has been a comparatively frequent visitor to Peterborough and has made many friends here. He has always received a hearty welcome, and there have been evidences that he made a deep impression.

The new Minister probably knows already that some $18,000,000 have been spent on the Trent Canal, and that only $3,000,000 more would be required to complete it.

A year ago the Hon. Chas. A. Dunning made a trip over the Trent, and was so impressed with its charm and potential use that he promised virtually the early completion of the waterway.

The completion of the canal would provide employment and would benefit the whole Province of Ontario, and especially the municipalities from Georgian Bay to Trenton. It represents a large national investment which cannot yield its full returns until the final link is built.

Peterborough is only one of the municipalities that have been waiting years for the completion of the Trent. Lakefield, Lindsay, Bobcaygeon, Orillia and other towns are equally hopeful for the effectuation by Dr. Manion of the promises which Mr. Dunning gave a year ago.

The original expectations that the canal would be of great commercial value to manufacturing concerns along its course may yet be realized. And there is the further consideration that in its present incomplete stage it does not offer the facilities and other inducements to cruising tourists who would be attracted to these waters if the lockage arrangements were built according to the first plans. These features need a new presentation in the light of business and tourist conditions that have developed during recent years.

LAST OF THE WAGNERS.

With a sigh of resignation to the brevity of life and the evanescence of dreams and glory, and the transitoriness of genius and beauty, the world of music read this week of the death of Siegfried Wagner, only son of Richard Wagner, one of the immortals.

Himself a composer and conductor of more than ordinary talent, Siegfried Wagner was overshadowed and handicapped by the fame of his immediate progenitors, his father and his grandfather, Franz Liszt, whose daughter, Cosima, died last spring after a long and eventful life as the wife and widow of Richard Wagner.

Siegfried Wagner died last Monday in his 61st year in the midst of the great Wagnerian festival at Baireuth, Bavaria, the success of which both before and since the war was his outstanding achievement in art.

Men like to study and theorize on heredity and the outcropping of such flaming genius as that of Richard Wagner. He was a Saxon, born in Leipsic in 1913. His father was born in the same city in 1770. Thus the three generations have extended over the long period of more than a century and a half.

Wilhelm Wagner was a police court clerk, a man of some minor artistic gifts himself. Richard was the youngest of his nine children, and he in turn had only one son, Siegfried, who has joined his fathers but a few days ago. Hence on that side of the house of Wagner the genius that set Richard apart has now disappeared. One might have fancied that from Liszt on the maternal side and Wagner on the paternal such a union would have given mankind one or more musicians of transcendent abilities, superior even to their celebrated forbears. But nature's inscrutable ways confound our conceptions. Her gifts are bestowed or withheld in the most unlikely circumstances, and leave us doubting those eugenic laws which we persuade ourselves would produce a race of super-intellects.

The Baireuth theatre and the Wagnerian festival are splendid monuments which Siegfried Wagner has raised to the memory of his father, and it is safe to predict that the German people and the music lovers of the world will join in perpetuating them. One of the Nibelungen Ring, "The Twilight of the Gods," suggests by its contrast with the half-gods of to-day, a modern twilight of music in the recollection of the great names of Richard Wagner's contemporaries, Beethoven, who was his first inspiration, Weber, Rossini, Meyerbeer, Bellini, Berlioz, Mendelssohn, Chopin, Shumann, Liszt. Music had its giants in those days. We have brilliant composers to-day, a few at any rate, but time has yet to pass judgment on their works.

Possibly our own age with its restricted birth rate is militating against the appearance of genius. Richard Wagner was the ninth child in his family, and the only one whom the world will remember so long as the symphony orchestras and the operatic theatre retain Rheingold, Tannhauser, Parsifal, "Die Walkure" and the other glorious creations of his rich and boundless imagination and his genius for musical form and instrumentation. And that will be a long, long time.

We imagine Wagner caught up by the Valkyrs and riding the skies to the thunderous theme which he has left to haunt us. Possibly its melodies are not too heroic for the passage of his only son through the eternal halls of Valhalla.

UNEMPLOYMENT AND THE DOLE.

The question of unemployment will shortly be considered by Canada, and it is to be hoped that some sane methods of dealing with it may be found. The "dole" is sure to be mentioned, but some figures in connection with this and Great Britain are, to say the least, interesting. It would appear that the British Government will have to borrow at once an additional £10,000,000, and that means a total debt of $80,000,000 to meet the dole without any allowance for interest. The tendency of the Labor Government has been to widen the scope of the dole so that there is no great desire shown by a large number of people to secure work. It is said that no person is compelled to look for work and need not keep any given him if he does not like it. There are many other features of the dole which should make Canada very wary of it.—Kingston Whig-Standard.

THE BEES CAN BE DECEIVED.

Bees are busy things, and they like to be about their business. People have recognized that for a long time, and some who have interfered with the day's work of the bee have found out that he has a means of impressing his right to be about his business.

Some recent experiments have shown that bees have a color instinct. It was found out in this way: Food for bees was placed in one dish; other dishes were set on pieces of colored paper, red, blue, yellow, etc. In the dish on the blue only there was the material which the bees sought. They were allowed to come and go for some time, taking away supplies to their hives. Then a rearrangement was made, and an empty dish was placed on the blue paper. When the bees returned they went straight to the dish on the blue paper, although there was nothing in it.

So it would seem that although bees are very wise little fellows and extremely busy, they can also be deceived by a bit of color—wherein they are not far removed from humans.—Stratford Beacon.

EDITORIAL NOTES AND COMMENT.

Nineteen votes were lost in Stratford because those who could have used them were in jail. It's tough when a man can't cell his vote.—Stratford Beacon-Herald.

A hot weather tip from the health office is to keep the spinal cord protected. We doubt, however, if women will make their frocks conform to the suggestion. —Guelph Mercury.

Miss Bennett will probably assist R. B. in selecting his Cabinet, but she can't boss him as a wife could.—Brockville Times.

Some of the family skeletons seem to have escaped, clad in bathing suits.—Tampa Times.

There are also Tom Thumb dining-rooms. The builders call them breakfast nooks.—Toronto Star.

One of the wittier hotel assistant managers in town, who is something of a cynic, declares that a woman may be taken for granted, but that she seldom goes without saying!—New York Evening World.

News of Our Own Village

Bob Abbott, president of the village Rotarians, was among them which took in the doings at the Juniper Island boat races, north of us, Mon.

If Ed. Peck gets that new Federal building for this oerg, some of the air-minded villagers is saying he ought to see that shes 'equipped with a mooring mast in case any of them big balloons pays us a visit.

Doug. Loomis won the prize for the largest family on the grounds at the Juniper Island boat races at Stoney Lake, north of here on Mon. Atta boy, Doug., say we.

Your scirbe learns that speeding in the ring will be 1 of the attractions at the fall fair here next month. The management is nothing if it aint progressive, say we.

Duke Dainty, a weather-beaten left-handed baseball pitcher from Oshawa, to the west of us, spoiled last Sat. p.m. for the Raybestos ball team of this progressive community.

So far the village council aint started a miniature golf course on the Market Square, but it may come to that yet, if all the other corners get took up.

The village icemen has been selling quite a few extra chunks these days, owing to the heat or the humidity, or what have you. The coal business, however, aint booming.

Tourists in beach pyjamas has been a attraction on Main St. several times lately, but aint so common as yet as to keep the boys from taking a second look at the same.

Just to give our little readers a chance to cheer your scribe learns that the village schools open 3 weeks from next Tues.

Literary villagers note a falling off in summer fiction, owing mainly to the fact that political letters has disappeared from the columns of this great family journal and other newspapers of this fair country.

—F. D. C.

Voice of the People

Letters to be printed in the Voice of the People column must be received at The Examiner Office on the day before it is desired to have them published.

WHAT WE READ

Dear Mr. Editor:

Did you see the front page of The Mail demanding the Finance Department for Quebec and Montreal? Now, what do you think of that?

I read in the same paper about a Montreal policeman who was shot by a bandit forgiving the man on his deathbed.

I read about a special session and plenty of public works. I read about party men and women rejoicing over success. I read fine letters in your papers discussing big things like the Empire and patriotism. Now, sir, all them big things is only for the few to understand. Party people like me have no great gift for big things. We just want what it will bring. That is why Mr. Bennett won, and a man like that will always win, but the big people who are above that had better keep out of politics. Politics is for people with no brains and less principle. But why did The Mail sound a warning?

JAMES R. EDGEWARE,
Peterborough.

A Thought

BRAVERY

Who is a brave man, who?
He ho dares defend the right
When right is miscalled wrong;
He who shrinks not from the fight
When weak contends with strong
Who fearing God, fears none beside,
And dares do right, whate'er betide.

Unemployed English miners are finding work in hayfields at $75 a month with board and lodging.

THE GRINGO PRIVATEER

By PETER B. KYNE

(Continued from yesterday.)

CHAPTER 36.

Nevertheless, as the time for making the remaining payments fell due, Ken Burney resolutely failed to materialise. The next thing the king knew, Burney had relieved Dan Wilkins of his job and taken over the management of the herd himself. And, although the king had him watched very carefully, it appeared that Burney had not, as yet, disposed of a single cow.

"He's financed himself and is doing the sensible thing—holding his herd," His Majesty decided. "The calves he got free with the trade he will sell as two-year-olds; he has a new calf crop and a big one and he'll grow that out and as soon as this year's calves are weaned he'll clean up."

The king sighed dismally. All of his well-laid plans had, indeed, gone by the board and he was in hourly fear that some young fellow who couldn't tail a calf might induce the princess to marry him. He reflected bitterly on his purchase of the Burney ranch. He was relieved, therefore, when his general counsel called him up one day and told him he had received an offer for the Burney ranch of fifteen thousand dollars less than the king had paid for it.

"Nothing doing," His Majesty decided. "Sell it for what I paid for it, but not a cent more."

Two days passed and the ranch was sold, and a week later the king, dressing for dinner, hears somebody playing the piano in his drawing-room. Presently the tinkling laugh of the princess reached him; then a fine lyric baritone voice floated upstairs to His Majesty, indicating that the princess had a visitor and he was singing the Toreador Song from Carmen.

"Wonder who that Johnny-come-lately might be?" the king ruminated.

As he entered the drawing-room Ken Burney rose from behind the piano. Mr. Burney was arrayed in dinner clothes and a charming smile.

"You're certainly looking very elegant," His Majesty greeted the prodigal. He shook hands with just a shade of reservation. "May I inquire to what happy chance we are indebted for this unexpected visit?"

"Why, I've been away a long time, so I thought I'd drop around and take up with you a certain little matter of unfinished business."

"I do my business at the office, my son. Never forget that. However, since you have forgotten it we'll forgive the omission."

"What I have to discuss with you is not office business, sir. I telephoned Miss Muriel this morning and she was good enough to invite me to dinner. Perhaps I overplayed my hand by accepting, for I seem to detect in Your Majesty's manner a faint suspicion of cracked ice."

"Merely the shock of this unexpected meeting, son—and seeing you in dinner clothes instead of chaps. By the way, I hear you got your horse, Rowdy, back—compliments of Senor de Haro."

"I was that fortunate. Rowdy comes in handy these days—at the Santa Inez rancho."

"Oh, so you're the chap who bought that ranch from us?"

"No, sir, I bought it from your general counsel, but I assume he turned the purchase price in to your cashier. Yes, sir, I'm back in the home of my ancestors, and I've got the ranch stocked, don't owe a cent, and have money in the bank."

"How much?"

"Enough to keep the ears of the well-known wolf from peeping over the hills at me. I bought fifteen thousand head of cattle——"

"I know all about that deal. I've seen the contract."

Burney smiled. "I sold them at a profit of thirty dollars a head straight through—just doubling my money. The calves I got free with the trade paid my expenses and interest and then some, and I have four thousand yearlings left. Got them down on my ranch."

"I suppose you have about a hundred and fifty thousand dollars cash capital after paying your debts," the king murmured, for he was good at mental arithmetic. "And the money you paid your father for the ranch will, of course, all come back to you when he passes on. The four thousand yearlings didn't cost you a cent because you sort of sweated them out of the deal, and they're worth forty dollars a head. Ken, you're a smart young fellow. . . . How did you finance the deal, after your own money gave out?"

"Well, you see, sir, cattle prices were advancing so briskly that eventually old Dan Wilkins realised I could sell on a week's notice, clean up a profit and make my get-away any time before the third payment fell due. So Dan abandoned all thought of seeing me default, and when I offered him ten per cent. on the deferred payments provided he gave me an extension for one year, he fell for it. Dan didn't know any other place he could get ten per cent. for his money, so I just kept on using his ranch as if I owned it. About a hundred thousand people own that ranch now—one acre home-sites, you know. Hence nobody has bothered me. The one-acre boys didn't mind if my cows ran on their domain—so I was rent-free for a year and a half and could afford to pay Dan Wilkins ten per cent. for his money."

"That move," His Majesty agreed admiringly, "was extremely coyote. And you don't want a thing for that El Cajon Bonita job, eh? Boy, you saved me a lot of money there. I'm your debtor."

"I've decided," said Ken Burney, "to take your daughter in full of all claims on your gratitude."

The king stepped to the side of the princess, raised her left hand and surveyed thereon a diamond ring he could not remember having bought for her.

"Well, you young folks——" His Majesty began, but Burney interrupted him.

"What, if anything, Your Majesty, are you going to give us for a wedding present?"

"I'd love to give you a job I don't want and pay what the job's worth and then some. But of course you'll refuse that."

"Ken would, darling," the princess piped up, "but I'll not let him. I've only accepted him on condition that he shall become president of the Bardin Land & Cattle Company in order to give you time to learn golf. He can keep the home of his ancestors as a hole card in case you go broke. I'm a fair sample of the rising generation and, in all probability I have your time beaten a mile, but never let it be said that a Bardin went back on a Bardin."

She flew to the welcome haven of the king's arms and hugged him ecstatically, and when she at length released him His Majesty turned to his prospective son-in-law.

"What," he demanded sternly, "has become of that other girl you were so crazy about once?"

"Muriel was that girl. I had met her once at a dinner party in Santa Barbara, but she wouldn't look at me that night. She was quite under the spell of a young man—well, you know the type, king. Nevertheless, I fell for her with a thud—and when I met her again over on El Ranchito, well — old Felix Burney's boy was just naturally sunk without a trace. I had to make good to win her; I'll be hanged if I was going to risk having her and you rate me a fortune-hunter. However, you can go bust if you want to now, king, because I can take care of her if you can't."

"You've made me suffer eighteen months needlessly," His Majesty roared. "You're a dirty pup. Come to my arms, my beamish boy! Muriel, ring for the materials. I think we ought to have one!"

THE END.

What To-day Means To You.

If August 9th is your birthday, the best hours for you on this date are from 6 a.m. to 7 a.m., 1 p.m. to 2:40 p.m., and 11 p.m. to midnight. The danger periods are from 11 a.m. to noon, and 8 p.m. to 9:30 p.m.

Fate will go with you hand in hand on this date, if you do not pull back. You must do your best, or she will leave you to your own devices. Sportsmen will be favored with unusual energy and mental alertness, and will play a good game.

The child born on this August 9th will be affectionate, warm-hearted and sympathetic. There will be more promise than performance in its case, for it will both lack ambition and real backbone. It will be rather weak willed. Under proper guidance and influences, however, it may overcome some of its weaknesses.

Independence and originality — two qualities that season life—are amongst your strongest traits. You rebel against the monotony of fashion and custom. You are bent on being your own self and not in appearing as much like everybody else as possible. You are an odd pea in the pod. You think your own thoughts, too, and are not a parrot for someone else's brain and mouth. You not only like to lead your own life, but you "jolly well" let others do the same. You are interested in people, but never gossipy curious about them. You are not a tattler between friends, or a human filter of confidential news. You may be praised for your very wise tongue.

Your love of nature is very intense and sincere. It would be difficult for a person of your type to remain single, and there is a danger of your marrying in haste, repenting afterwards. Literary and musical ability are indicated for you, and you will enjoy both good reading and music, if you never make further use of these talents. You have a sufficient flair for business to make you practical in these respects. On the whole, you have a well-balanced nature. You are keen at your work, and keen at your play, and you do not mix one with the other. You do not allow yourself to worry, and your courage overrides fear when trouble is at your door.

Sunday, August 10th.

If August 10th is your birthday, the best hours for you on this date are from 8:30 a.m. to 10 a.m., 3 p.m. to 4 p.m., and 9 p.m. to 10 p.m. The danger periods are from 6 a.m. to 7 a.m., and noon to 1 p.m.

Weird influences will be in force on this date, and those with occult interests will be affected by them. It will be difficult to find mental relaxation. Difficulties with those of the opposite sex, and lovers' quarrels.

Children born on this August 10th will have receptive minds, gentle natures, and will be rather lacking in self-confidence. Their adult life will be deeply stamped by their early training and environment, and will take on both their sense and flavor. They will be very affectionate.

You have a warmly sympathetic nature, and are keenly interested in the practical welfare of your fellow beings. You not only condone with a weary traveller, but you hump his pack for him for a mile or two. You not only care for people when they are on their pedestals, but when in their pillories.

If you be a woman, you are not a parasite. You are very anxious, whether married or single, to do your bit in the world. You will never be a so-called "gold digger." If you marry, you will never shirk your part of the bargain. If you be a man, you do not want to be a pensioner. You are too ambitious, too independent, to want to limit your horizon or to fix your future. You will feel sad when you have no higher peaks to climb.

Those of both sexes are very loyal and honest. You meet others more than half way in your endeavor to keep peace and harmony. There is a limit to your endurance, however, and when this limit has been reached, you will not budge another inch. There comes a time, when you are absolutely through with people, and their efforts to reinstate themselves in your good graces are rather futile. You will never be anybody's door mat. You are cautioned to take good care of your eyes, as they are destined to cause you considerable trouble, otherwise. Rightfully, you should have vigorous health.

CITY DAIRY SOLD TO BORDEN MILK

Toronto Company Deal Now Only Awaits Approval of Shareholders.

SPECIAL MEETING AUG. 14.

TORONTO, Ont., Aug. 9.—(C.P.)—Sale of the City Dairy Company to the Borden Milk Company awaits the approval of a shareholders' meeting according to a statement made here yesterday by S. J. Moore, City Dairy President.

The offer provides for the redemption of the company's preference stock at $135 cash per share. The authorized capital of City Dairy now consists of 1,000 preferred shares par value $100 and 100,000 common shares of no par value. Common shares have been sub-divided into 10 common for each original share of $100.

Acceptance of the Borden offer by City Dairy directors was revealed by the issuing of an order at Osgoode Hall, calling a special meeting of shareholders Tuesday, August 14.

R-100 MAY CRUISE OVER NIAGARA FALLS, HAMILTON

ST. HUBERT AIRPORT, Montreal, Que., August 8 (C.P.). — The Canadian Press was reliably informed to-day that the British dirigible R-100 would cruise over Hamilton and Niagara Falls on Monday, following her visit to Ottawa and Toronto, if the weather conditions permit. The ship will follow the lake shore route from Toronto.

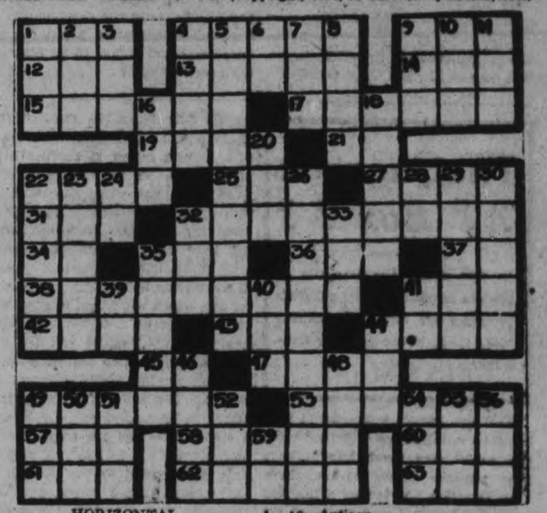
HARVESTING STARTS.

EDMONTON, Alta., Aug. 8 (C.P.).—Harvesting of wheat has commenced in the Edmonton district of Northern Alberta. Reports indicate that cutting is proceeding on two farms in the Winterburg district and on another north of Edmonton. Prospects indicate a better than average yield.

"The bargain instinct is strong within us," says meditative Meg, "but you can't tempt us with reduced circumstances."—By Gettier.

EMBARRASSING MOMENTS

CROSSWORD PUZZLE No. 1746 (Copyright, 1930, by the Bell Syndicate, Inc.)



HORIZONTAL.

1—High mountain.
4—To bend.
9—Part of shoe.
12—Fish eggs.
13—To linger.
14—Large deer.
15—To come into sight.
17—Covered passage.
19—Annoying child.
21—Spanish article.
22—A crustacean.
25—Negative.
27—Medicinal herb.
31—Masculine pronoun.
32—Flags.
34—Like.
35—French coin.
36—To pinch.
37—Exists.
38—Objectionable.
41—Large serpent.
42—Breaks quickly.
43—Form of to be.
44—Wee.
45—By.
47—Brother of Jacob.
49—Mattress.
53—Evil doer.
57—Cool dessert.
58—Entitled.
60—To be indebted.
61—Wooden pin.
62—Woody plants.
63—To marry.

VERTICAL.

1—Constellation.
2—To cut.
3—Slang for energy.
4—Heavenly body.
5—Large spider.
6—Conjunction.
7—Old English money of account.
8—Funeral pile.
9—A beverage.
10—Antique.
11—To piece out.
16—To recede.
18—To clinch.
20—Jutting rock.
22—Scorches.
23—Gotten up.
24—Part of "to be."
26—One of the U. S.
28—French article.
29—A constellation.
30—Composition.
32—The sun.
33—Island.
35—Part of flower.
39—Father.
40—Before.
41—Prefix: doubly.
44—Barrel.
46—Canvas house.
48—Helps.
49—Mark on card.
50—High card.
51—Limb.
52—Thick black substance.
54—At present.
55—Female sheep.
56—Color.
59—Pronoun.

PETERBORO MEN

(Continued from Page 1)

observer, Mr. Dobbin commented. Everything is designed and all materials chosen with a view to conserving weight.

Visitors are taken through the sleeping quarters and the other quarters for crew and passengers. They are not allowed, however, to visit the control room or the "power eggs" or to journey out the long cat-walk to the rear.

Mr. Dobbin commented on the ship bar which, he said, is now stocked with a rich and varied assortment of liquors and beers presented by Quebec and British concerns. He was told by one of the crew also of the rain gutters on the ship. It is estimated that $12,000 was saved on the trip over by the facilities for collecting any rain which falls on the craft and thereby making up for the weight lost in fuel consumption. Valuable hydrogen would otherwise have to be let out.

At the Engineering dinner the officers minimized the dangers which attended the bump the ship received near the city of Quebec, Mr. Dobbin reported. The business of repairing the damaged covering on the fin was not particularly hazardous, the officers' claim.

Telling Mr. Dobbin of his famous adventure aboard the R-34 when it got loose from its moorings, Major Scott said there was nothing to it; that all he had to do was see that the motors were kept going until the storm subsided and the ship could be moored again.

WESTERN CROPS SUFFER HEAVILY IN HOT WEATHER

Crops Ripen at Expense of Yield and Grade in 3 Provinces.

LONG DROUGHT.

Cutting General in Manitoba Aug. 11, Saskatchewan Aug. 15, Alberta Aug. 18.

WINNIPEG, Man., Aug. 9 (C.P.)—Prairie crop prospects have altered rapidly during the past three weeks, according to the fifth crop report of The Manitoba Free Press, published to-day. Intense heat, lack of moisture and serious development of stem rust in Manitoba and Eastern Saskatchewan are to blame for the adverse conditions, it is stated.

Ten days of extremely hot, fiery weather have hastened the ripening of the crops at the expense of the yield and grade in all three Provinces, it is announced, while rust has become an important factor in the final outcome. Early wheat in Manitoba will escape serious injury, it is said.

Alberta Conditions Vary

The northern sections report better than average prospect—even record yields at some points. Though Alberta conditions vary, the report mentions that Foothills districts and northern part generally report average or better-than-average prospects; central and southern sections will yield less than 1929. Rust is not a factor in Alberta.

Wheat cutting will be general in Manitoba by August 11, it is stated; in Saskatchewan at least four days later, and in Alberta about August 18 to 20. Rain is needed mostly for very late crops and to help out the feed situation in very dry sections.

TWO ARRESTS ARE MADE IN FREDERICTON MURDER

FREDERICTON, N.B., Aug. 9 (C.P.) — Fredericton's most brutal murder, in which Mrs. Charles W. Clark, 90-year-old widow, was slain with a camping axe, remained unsolved to-day.

No arrests have yet been made, but police are holding a domestic who was employed in the Clark home, and a man who gives his address as Waterville, Carleton County, but who police say is from Woodstock. Both have been taken to Fredericton police station as material witnesses.

FINANCIAL NEWS AND BRIEFS

A SPECIAL SERVICE TO THE EXAMINER

Believe Business Recovery Not at Hand.

The August number of Canadian Business Review, issued by Cockfield, Brown & Co., Ltd., states that there is little hope of a definite recovery during the next twelve months and goes on to point out that this does not mean that Canada is faced with economic disaster or anything approaching it. The article says:

Two factors in the general business situation, apply with equal force to Canada and other countries, have been clarified during the past few weeks. The first is that the commercial and industrial recession which seemed to be merely a brief passing phase shows evidence of becoming a reality for a much longer period than was anticipated during the winter and spring of this year.

There is little hope of a definite recovery during the next twelve months, while it is possible that this situation may endure even longer. This does not mean that Canada or any other country is faced with economic disaster or anything approaching it, but rather that many ideas of the rate of business progress will have to be revised. Attention will be turned more in the direction of internal and distributive economics, and more effective selling effort, than towards plant extension and the mere filling of orders."

International Paper.

International Paper Co., has shut down the mill of the Waterway Paper Products Co., which it acquired recently, and has transferred the newsprint tonnage to the mills of Canadian International Paper Co., at Gatineau and Three Rivers in Quebec. The Waterway Papers Co.'s plant is located in Chicago on the Drainage Canal, and has an annual capacity of over 30,000 tons of newsprint and specialties. The mill is equipped with two machines, 132 inches wide and 204 inches wide.

Bond Issue of Abitibi.

The new issue of Ontario Power Service Corporation 5½'s which were publicly offered late last week and of which official announcement was made yesterday, are understood to have met with a very good reception both from institutions and from private investors.

High-grade power securities have been among the most popular investments for several years and in the present instance the strong sponsorship of the company, namely its ownership by Abitibi Power and Paper Company, combined with the fact that over 40 per cent of the corporations revenues will be obtained through sales of power to Ontario Hydro-Electric Commission has been accepted as placing the new corporation in a strong position from Commencement of operations.

Principal and interest on the new bond are payable in Canada, United States and London and through international syndicates, the bonds are being offered in those markets as well as in France. All reports regarding distribution of the bonds have been very favorable.

Brazilian Traction.

"Of the various elements which contribute to the interest and popularity of Brazilian Traction, three in particular are worth mentioning," says Garneau and Ostiguy. "Firstly, in spite of the coffee problem from which it has suffered, Brazil remains an extremely rich country. Like Canada, it is still in the growing stage, with the difference that its population equals that of France, being about four times our own.

"In the second place, operating in the most heavily populated and industrialized sections, Brazilian Traction is the greatest public utility in South America. It supplies energy, gas, transportation facilities and telephone service. Aside from its plants with a capacity of 500,000 h.p. it owns undeveloped power sites sufficient to meet all future needs. Lastly, its revenues have continually increased since 1920, and each month shows increased receipts. From about $14,000,000 ten years ago, gross profits last year exceeded $28,000,000.

"In January of this year, in addition to the regular dividend which is $2 per annum, the company paid a bonus of 1% in stock. It is very likely that this policy will be continued, which will add to the already substantial yield for a security of this kind."

BUTTER IS 33 TO 35 AND EGGS 30 TO 35

Garden Vegetables Are in Abundance on Farmers' Market.

There was plenty of everything on the farmers' market this morning. Supplies in both sections were heaped up.

Eggs sold at 30 to 35 cents a dozen; butter was 33 to 35 cents a pound; chickens 33 to 40 cents a pound, and young ducks 30 cents.

Root vegetables were at the usual quotations of several weeks past, with potatoes selling at 25 cents a peck. White turnips at a nickel apiece and squash at 10 and 15 cents, made their appearance this morning, as additions to the regular army.

Tomatoes were 10 cents a pound, or 75 cents for eleven-quart baskets. Green peppers were priced at four for a dime and corn was 25 and 30 cents a dozen. Shelled peas were 30 cents a quart.

Honey this year is very thick and promises to candy shortly, according to one dealer, whose liquid clover supply was melting in the sun. It sold at 65 cents in five-pound pails.

Red raspberries were 15 and 30 cents in pint and quart boxes, and thimbleberries were 30 cents a quart box. Huckleberries were 25 cents a quart. Silverskin plums sold at 15 to 25 cents a quart.

Little pigs were $7 apiece and a load of hay was $12.

Little boys with bouquets of flowers offered their perfumed wares on the stairway. Flowers were plentiful above and below stairs. There were sweet peas and gaillardia, gladioli of many colors and the odd'y colored, off-hued zinnias that go so well in a formal table-piece. Foliages or coleus of many combinations were in pots in the basket section.

In Police Court

Four charges in Police Court resulted this morning from an auto accident on Mark street last night. Walter McDonald was charged with operating a motor vehicle while intoxicated and three other local young men were charged with intoxication in a public place.

According to evidence, the four were driving in a single-seater car, owned and operated by McDonald south on Mark street between Hunter and Robinson street. McDonald started to turn around in the street and struck a curb on the wrong side of the road. Police arrived shortly and arrested all four. The car was slightly damaged.

McDonald pleaded guilty and then changed his plea to not guilty when he discovered that it meant a jail term. He elected summary trial and was found guilty. He was given seven days in the common jail.

Pleading guilty to the intoxication charges, the other three were fined $15 and costs with the alternative of 10 days in jail.

COMPANY ANNOUNCES NEW CABINET RADIO

TORONTO, Aug. 9 — De Forest Crosley Limited announced Friday a cabinet radio selling at $148 and a radio phonograph combination model at $228, f.o.b. factory. This announcement sets a new low in quality radio prices and a considerable sales volume should result. This all-Canadian Company is paying a dividend of eighty cents on its common stock which is equivalent to eight per cent at current market prices.

Afridis Tribesmen Withdraw to Hills

SIMLA, India, Aug. 9.—(AP)—The latest reports from Peshawar the northwest frontier city around which a horde of savage Afridis tribesmen is encamped, indicate that the city is now out of danger and that the tribal army is dispersing.

WEEK BROUGHT LITTLE RELIEF TO STOCK MART

Tone Turned Decidedly Bearish During Friday's Trading.

SELLING IS HEAVIER.

August Band Letters Are of an Encouraging Tone For Canada's Future.

(By A. D. O'Halloran)
(Special to The Examiner. Copyright, 1929)

TORONTO, Aug. 9—The week has brought no relief to the stock markets. After drifting along with small deviations in price and a light turnover, the tone turned decidedly bearish Friday. Heavier selling accompanied scaling down of prices in practically every group of stocks. That professional operators were responsible for the turn of events is undoubtedly true, but on the other hand the action of the market reveals that public skepticism concerning an improvement in business has not been dissipated. It is now a full year since recession in business set in; this recession developed into a major depression despite the favorable facts that inventories had been kept comfortably low and that there had not previously been unwarranted inflation. Any signs of improvement were seized upon joyously as an excuse to buoy stock market prices again. Yet such movements never met with success and as time went on enthusiasm waned. Flamboyant optimism could find no legitimate outlet and as it suffocated skepticism grew in the minds of the impressionable public.

We are not yet out of the woods. Still August brings with it some renewal of hopes. It is the month leading to a seasonal improvement in business. Moreover, in the previous periods of depression, August was the month in which revival began after a period of decline running about a year. Perhaps history will repeat itself. Motor factories will be getting back into production and that coupled with the beginning of fall trade should have a stimulating influence. It would naturally be expected the stock markets would anticipate this improvement, but under the present circumstances it may be that business itself will have to take the lead.

Just how the trend of commodities will affect the business situation and the stock market is difficult to judge. The natural deduction is that prices would have to firm before buyers would be encouraged to take on forward commitments; or least if not to definitely move upward to steady and promote a greater feeling of confidence of their stability. Still this has not always been the case. Recently metal prices have indicated firmer foundation and they have, in the past, been among the first to turn the corner. Wheat occupies a dominant place in the minds of Canadians and there has been a substantial rise in the price of this commodity within the last few days. Reports of extreme drought, especially in the United States, shot prices higher but with no visible reaction upon the stock market. It is debatable whether a reduced crop in the west would be beneficial to the farmers in final purchasing power and in net to the carriers.

August bank letters so far received have spoken, if not enthusiastically, at least in an encouraging manner. The Royal Bank features the program of power development ahead of the Dominion. Projects now under way in Canada will necessitate the expenditure of more than one hundred million dollars a year during each of the next three years. Wage payments for such construction serve to create new buying power. An even more important influence will be the expenditure resulting from the building of manufacturing plants to to utilize the electric energy which will be generated by these new installations. Certainly an investment on this scale does not bespeak any lack of faith in the continued expension of Canadian industries. We are passing through a phase of industrial activity which periodically closes down over the entire world. It is a situation which economists have been studying for years, one which able thinkers would gladly circumvent, substituting a gradual inclined index of prosperity and activity for the sharp swings which, like the outline of a roller-coaster, mark our progress. It is not a question of whether we will witness better times, but rather a question of "When?" In this connection much importance is attached to the recent statement of the finance committee of the United States Steel Corporaion: "Indications in the industry point to an increase in the rate of operations during the balance of this quarter, with an improvement in volume during the last quarter of the year."

239 HOUR ENDURANCE TEST STARTS AT 9.30 TO-NIGHT

An outboard motor endurance test, which is hoped to last 239 hours, will start to-night at 9.30 at South Beach. The Carter brothers, Robert and Joseph, are in charge of the test, and the boat being used is a Johnson Sea Horse 32 stock model, designed by Darcy Carter and built by the Williams Piano Company of Oshawa.

R-100 WILL RETURN

MONTREAL, Que., Aug 9. (C.P.)—"Next year the R-100 will be in Montreal again" promised Squadron Leader R. S. Booth, during a brief address last night at a civic banquet tendered the officers and passengers of the gigantic British dirigible by the city of Montreal.

Perishes in Lake

Jerry Hilton, airman, who in an attempt to swim ashore from his airplane, which had made a forced landing about a mile off-shore from Belleville, Ont., was drowned.

IMMING APPEARS ON ARSON CHARGE

Charge is Laid Following Investigation of Fire in Shop on July 11.

BAIL SET AT $4,000.

Frederick Imming, proprietor of the Auto, Electric and Radio Repair at 184 Charlotte street, this morning appeared in Police Court on a charge of arson. The charge was laid following investigation of a fire which occurred in his workship on Charlotte street shortly after midnight on July 11.

It was understood that shortly before 12.37 a.m. on July 11 when the fire was reported, Imming emerged from his premises and crossed Charlotte street, walking behind a fish and chip shop. Sergt. Thomas and Constable Thompson of the police force were in the vicinity and one challenged Imming when he got into his parked car and was getting ready to drive onto Lewis street and away from the scene. He was asked what he was doing in his shop at that time of the night and said that he came back to see if the points on a magneto, which he was repairing for the Border Transit Company, needed attention. A moment later a Chinaman raised the alarm for a fire in Imming's shop and an alarm was rung into the Fire Department. Imming had left the scene by way of Lewis street and King street.

Difficult to Fight

The fire gave the department a battle of about three-fourths of an hour, Chief Gimblett reports, it being very difficult to attack. It offered considerable danger, being in a congested area and also on account of the proximity of the Charlabond Apartments.

Since July 11, investigations have been carried out by the Fire Marshall's Department and Clifford Argue of the Insurance Investigation Department. It was found that the building is owned by the firm of John McKay and is not covered by insurance. Imming had, it is alleged, $500 insurance on the contents of his quarters, which are in the second story of the structure, and raised it to $2,500 a week before the fire. He received his new policy about July 8.

Also, a few days before the occurrence, Imming was ordered by Chief Gimblett to clean out a pile of rubbish in his shop which was considered a fire hazard.

The warrant for the arrest was taken out by the Fire Marshall's Department and served yesterday. Bail was set at $4,000 this morning.

TELEPHONE TORN FROM THE WALL

Fierce Electric Storm Sweeps Queensboro District on Thursday Afternoon.

POLES ARE SPLINTERED.

QUEENSBORO, Aug. 9 (Examiner Correspondence).—During the electric storm that passed over here on Thursday afternoon, the home of Harry DeClair was hit by an electric bolt that tore the telephone from the wall, filled the room with smoke and splintered several nearby poles, but did not set fire.

Miss Folssie Everson returned on Thursday to her position in Belleville General Hospital, after spending her vacation with her parents, Mr. and Mrs. Everson.

Rev. George Adamson, who has been camping at St. Ola for the past four weeks, passed through here on Thursday on his way home to Pontypool.

Mr. and Mrs. Sager of Ottawa are the guests of his sister, Mrs. Bruce Leslie.

Rev. John and Mrs. Glover, of Smithfield have been the guests of friends here for the past ten days.

Mrs. and Miss Weir, of Madoc, were the guests on Thursday of Mr. and Mrs. Daniel Consolus.

Rev. I. N. Beckstead and family of Eldorado, who have been spending their vacation with friends at Blenheim, returned home on Friday.

Mrs. John Alexander, Sr., is the guest of friends in Belleville.

Mrs. Effie Manchester, R.N., who has spent the past month with friends here, returned to her work in Ottawa on Friday.

Mr. Bruce Leslie and Mr. James Cassidy have been on the sick list for the past week.

Mrs. (Rev.) John Glover, who has been visiting friends here, was suddenly called to Lakefield on Thursday on account of the illness of her aunt, Mrs. Richardson.

The Misses Brooks, of Ottawa, are the guests fo Mr. and Mrs. George Glover.

Miss Irene Sager, who has been in Oshawa since last fall, has returned home.

Thought For the Week.

This above all, to thine own self be true,
And it shall follow, as the night the day
Thou cans't not then be false to any man.
—Shakespeare.

Good Scouting is the wish of

J. H.

Scout News and Notices

UNDER THE FLEUR-DE-LYS

Scout Miscellany, by Jim Hawthorne

Dear Friends—My notes this week will occupy less space than during the past few weeks. Now that we have finished with the "Piper of Pax," I think a few of the "Old Timer years" will not go amiss; so here goes:—

The Hoarding

The boys were returning from a ramble in the country, and were passing one of those large advertising hoardings which are seen announcing something, somewhere, for somebody. Some comments of the boys led the "Old Timer" to express himself thus:—"The purpose of these adverts is to attract people's attention in order to create a want, or a market for the goods they have to sell. They have confidence in the goods for sale. They are not ashamed of them, hence the lavish display of posters of artistic attraction. The blending of colors and continuous repetition eventually persuades the public to purchase the goods so attractively set out, so persistently pushed.

Now then, boys. As Scouts, what have we to display? Are our goods the best; have we faith in them; will they bear scrutiny? People are surely reading us as they read advertisements. Is there anything we display of which we need be ashamed? Do we witness and reflect the quality and standard that our name signifies? We have the Scouts' label—uniform. Are our doings the best, are we consistent? If so, our repeating will tell. The law of advertising is true of the law of living. There are some people whose mentalities need "plugging" with our good Souting before they take notice. We blend and color our picture with our own individualities, and our demonstrations eventually attract others to our movement. We have the best, we must put up a good show so that people cannot misunderstand. Men, in history, like panels in the corridor of time, have been the objects of attention and read by their fellows. Chaucer, the old English poet, says of one of them, "He was a very perfect gentle knight."

In modern language we should say one of natures gentlemen. A good Scout, In practice the Scout ideals beautify the personality and enable the Scout to express the highest and best. They become more attractive than posters. Goodness, cleanliness, character anud service are understood by all eventually. It does not require a university education to read it; it is perceived and comprehended by the most illiterate of every race, creed or color. People must needs love the highest when they see it: Truth tells tremendously, character conquers the carping critic. Leaving the hoarding behind, let us step forth in confidence, knowing that we are helping to shape that better world that is to be.

TINY LAD DROWNS IN GEORGIAN BAY

Thornbury Couple Lose Second Adopted Son in Two Years.

OWEN SOUND, Ont., Aug. 9 (C.P.).—Jackie, 4-year-old adopted son of Mr. and Mrs. Thomas Thorne, of Thornbury, was drowned late Friday afternoon when he fell into the Georgian Bay while playing with a boy companion on the wharf. There were no other witnesses. The body was recovered in half an hour, but resuscitation efforts failed. This is the second adopted son Mr. and Mrs. Thorne have lost by drowning inside of two years.

MARMORA

Mr. and Mrs. E. Bray of Woodstock are spending a few days with the former's cousin, Mrs. H. W. Sabine.

Born on Aug. 4th to Mr. and Mrs. John Tsiron of Marmora Township, a son.

Born on Thursday Aug. 7th, to Mr. and Mrs. John Richardson of Marmora Township, a son

Miss Helen Rose is spending holidays in Toronto.

Mrs. M. Clement of Detroit is holidaying at Crowe Lake.

Mr. and Mrs. Hugh Jones of Niagara Falls are visiting relatives in this district.

Mr. George Bedore is the first in his section of Marmora township to be threshing. William Davidson's outfit started its tour by visiting the Bedore farm on Friday.

PASSENGER IS INJURED

Hastily applied brakes resulted in a skid on the wet pavement yesterday afternoon at 5.10 which precipitated a Stinson cab against the curb at the corner of Aylmer and Wolf. The only passenger of the cab, Mrs. J. H. Liddell of 164 Aylmer street, received minor abrasions about the head and suffered from shock. She was attended by Dr. G. M. Fraser, returning to her home.

The driver was not reported injured and the damage to the car was negligible, no glass being broken.

75% of TOTAL FARES to CANADA ADVANCED

BRITISHERS in Canada may now bring forward their Families, Relatives and Friends on Easy Terms.

For full details apply:—
J. D. CAMERON,

Canadian Pacific Railway Company,
214 Union Station, Toronto.

VISITORS WANT SOFTBALL GAME

Crew From Sturgeon Lake Challenge All Comers in Peterborough.

ALL FROM TORONTO.

Styling themselves "the softball champions of the Kawartha Lakes", a group of vacationing athletes from Greenhurst, Sturgeon Lake, dashed into town this morning and hurled defiance in the teeth of the softballers of this city. With the avowed intention of making the purpose of their visit all the more conspicuous, the Greenhurst boys travelled in an ancient Ford, vividly hued in bright green, red, yellow, and blue.

"It ought to add a bit of color to your main street," commented Fred "Speed" Price, who was driving. Mr. Price is a prominent young Toronto insurance man who is spending his holidays at Greenhurst. The other members of the team also hail from the Queen City.

So far the Greenhurst softball aggregation has gobbled up everything in sight and the boys feel that they can trim any Peterborough team which will accept their challenge. Out of a dozen games, they have lost but two. They succeeded in massacring Lindsay on two occasions.

If local softball players fail to take up the Greenhurst challenge, the boys will consider their claim to the Kawartha championship tacitly justified, they declare.

HORSES AND RUNNERS WILL ENTER CONTEST

MONTREAL, Que., Aug. 9 (C.P.)—Twelve professional long distance runners, some of them with world-wide reputations, and a dozen horses, well-known in Canada for having won a great number of blue ribbons in various horse shows, were ready to match speed and stamina to-day in a 26-hour relay race to begin at three o'clock this afternoon.

The race will be run over the Montreal baseball stadium's track and will continue until 5 o'clock Sunday afternoon. One thousand dollars will be distributed among the winners.

Mrs. Brown, Executive

Mrs. Brown, housekeeper of scarcely more than a generation ago, was a skilled laborer. The Mrs. Brown of to-day is an executive.

She has turned over much of her work to mechanical appliances. Much of her cooking has been placed in the hands of manufacturers of foods. Most of her sewing is done for her by the makers of clothing and household furnishings. Freed from drudgery by modern inventions, she has become a manager.

The advertisements in her daily newspaper have enabled her to be a better director of the affairs of her home than any woman of any past generation. She is primarily an intelligent buyer. She spends 85% of the family income. The care with which she reads the advertisements and the wisdom with which she acts on them determine the health, happiness and prosperity of her household.

She studies every new and every accepted product that might benefit her in her business of home management. She compares values. She is an expert in getting one hundred cents' worth of comfort, protection and satisfaction for every dollar she spends. She reads the advertisements every day. On them Mrs. Brown's efficiency depends.

CATTLE, GRAIN, PRODUCE

TORONTO LIVESTOCK

TORONTO, Aug. 9.—While there were only three market days at the Union Stock Yards this week owing to the Monday holiday the supply of cattle for sale proved some 2,000 head greater than in the week previous. Offerings were practically cleared with butcher cattle at a slight advance and cows barely a quarter lower in price. Bulls were weak and few were held over and store cattle trade was dull, stockers selling as low as 4¾ cents per pound for the odd lot on Wednesday.

Heavy steers, barring tops, were hard to move on Tuesday, but sold about steady with last week's clean-up with prices at a range of 6 to 7¾ cents per pound and the bulk moving at 6½ to 7¼ cents. Good to choice handy butcher cattle sold from 7¼ to 7¾ cents with a top load at 8 cents per pound. Baby beeves were firm at 9 to an extreme at 11½ cents. Good butcher cows closed a quarter lower for the week at 5 to 5½ cents and only the odd top bettered 5 cents all week. Bulls were weak at 4½ to 5½ cents per pound for butcher kind and 4 cents per pound for most bolognas.

Fair to good stockers and feeders sold mostly to speculators at 5 to 6½ cents per pound. Farmers showed very little interest in the offering of stores. Drovers from western and central sections of the province reported severe rain shortage and dry pastures. Northern and eastern sections were better served from a moisture standpoint. Milkers and springer trade was dull with few sales showing better than $90 each and $100 the outside top.

Calf receipts of 2,200 odd for the week were 1,300 heavier than last week. Local demand was good. With American markets reporting an advance of $2 per cwt, there was a fairly active movement for export. Good to choice veals sold at 10 to 11 cents per pound, with primes up to 11½ cents and plain kind downward to 7 cents. Grassers brought 5 to 6 cents per pound.

Sheep and lamb supply was heavier than last week by nearly 1,500 head, and the lamb market weakened under the increase in offerings. Good ewe and wether lambs sold $1 lower than last week at 10 cents per pound for the bluk, with cull ewes and buck lambs at 8 cents. Sheep in a comparatively light offering, held steady in price at 5 to 5¼ cents per pound for good light butcher kind and downward to 2 cents per pound for culls.

The run of hogs for the week was some 300 heavier than last week, but the market was active and strong, prices registering an advance of 50 cents per cwt. in the week's trading. Bacon grade hogs closed at 11¾ cents per pound, f.o.b., and 12 cents weighed off cars. Most trucked-in bacon hogs made 12½ cents per pound. Feeder hogs were in good demand at close to bacon hog prices.

MONTREAL PRODUCE

MONTREAL, Aug. 9.—The demand for lines of cash grain yesterday was fair, and values were firm. Flour and millfeed were unchanged.

Further strength developed for butter, and prices were fractionally higher. Receipts were 2,183 boxes.

Little trade was done in cheese, but values were well maintained. Receipts were 6,824 boxes.

Wholesale houses announced that effective Monday, they will advance their egg prices 1c per dozen with the exception of seconds.

CHICAGO GRAIN.

CHICAGO, Aug. 9. — Wild price fluctuations that for velocity and extent rivalled awr-time market changes found a climax yesterday in about 8c a bushel collapse in corn. Forecasts pointing to general relief next week from the drought that for weeks has been devastating millions of acres of corn, and other crops were mainly responsible for a quick reversal from new soaring of grain values. Wheat tumbled down 4c with corn, but brisk rallies, both in corn and wheat prices were in progress as the day came to an end.

Corn's Close Unsettled.

Corn closed extremely unsettled 1¾ to 2c a bushel lower than Thursday's finish. Wheat closed irregular at ¼c net decline to ½c gain, oats ½c off to ¼c up, and provisions unchanged to a rise of 10c.

A storm of selling orders swept into the grain pits swiftly following word from Washington that by the middle of next week the prevalent nation wide drought gave promise of being terminated. Predictions of adequate moisture supplies were accompanied by assertions that a high pressure barometic area had developed over far regions of Northern Canada, including the Mackenzie Valley and that Weather Bureau officials had drawn inferences which warranted hopes of general rains in the United States. This outlook was in violent contrast with influences which earlier had sent grain prices soaring and the strain led to excited efforts of traders to alter their market position so as to put a stop to losses.

WINNIPEG GRAIN.

WINNIPEG, August 9. — Early gains were not maintained on the wheat market here yesterday, and at the close all showed only fractional advances.

First-hour buying was again of a speculative nature, but support did not last long and the failure of importers to follow the advance and make purchases of North American wheat led to quite heavy selling, part of which was profit-taking by longs. Weakness in corn and a long-distance forecast that the drought would soon be broken also had an effect on sentiment. Export sales overnight and yesterday morning were small.

There was an indifferent demand for cash wheat and coarse grains. Futures prices moved in sympathy with wheat.

Futures:

HALL'S BRIDGE

Mr. John Elliott, of Lindsay is visiting his sister, Mrs. Shaw.

Mr. and Mrs. Boohar and family are spending a holiday at Mr. Wallace Shearer's cottage.

Mrs. Bruce Hall and her infant son are visiting her sister, Mrs. Alice Burns at Renfrew.

Miss Alice Wilson, of Toronto is spending her vacation with her parents, Mr. and Mrs. George Wilson.

Mrs. Green who has been visiting her daughter, Mrs. Bert Easson at Lakehurst has returned to her home at Stoney Lake.

The Rev. A. J. Forke was in the village on Wednesday afternoon.

The Rev. Mr. Creighton, of Lakefield will preach here on Sunday.

The friends of Mrs. Albert Graham will be sorry to learn that she was taken seriously ill and is now in St. Joseph's Hospital, Peterborough.

An Account of a Visit to the Mill at the Rapids (now Young's Point) as Told by Catharine Parr Trail, in Writing to a Friend in England, in November, 1837.

Since writing my last letter, I have taken a pleasant little trip as far as Young's Mills. The canoe was going up with grist, and as Mr. Traill was going and the day fine, I left the little ones in Cousin Jane's care, wrapped up warmly and took my seat among the sacks of grain with the determination to enjoy myself.

After passing through the "Katchewanook" and "Beosaquaquan" Lakes we entered a narrow channel with a peninsulated shore on either side. The banks from being rather low and swampy became steep and more rocky. This part of the river presented more variety and the shores were prettily indented with small bays. At the upper part were islands with steep, rocky banks. As we neared Young's Clearing it became still narrower, confined in its channel between stony banks—those on the Douro side abrupt and rocky and the water rushing along with increased force.

During the Spring and early part of the Summer the rapids are very strong, owing to the rising of the springs and melting of the snow in the upper lakes and creeks. I cannot readily forget the cordial welcome we received from the miller and his family and their endeavour to render me every service that might contribute to my comfort or amusement.

My voyage up the river in the fresh morning air had given me an excellent appetite and I enjoyed my dinner very much. It consisted of what was to us dainties in the form of a fine boiled saddle of fat corned venison, delicately cooked greens and floury potatoes; also fresh fried maskinonge which did infinite credit to the skill of Miss Nora in the preparation.

Whilst dinner was in progress I went with my husband to look at the mill and then wandered about over the rocky field in front of the river—examining the fossils that were imbedded in the blocks of limestone, that so thickly beset my path and covered their surface like the rough surface of the rock melon.

Two Indian Pipes

Seeing me busily examining the stone, Miss Young told me that her father had found two great curiosities when he and her brothers were breaking up the stone to form the banks for the mill race. Imbedded in the solid limestone he found two Indian pipes of dried clay—similar in substance to the earthenware vessels which used formerly to be made by the Indians. The singularity of these pipes being found in the solid stone puzzled them all exceedingly for they could not think of any change caused by the action of the water otherwise than the deluge, and asked me if I thought pipes had been in use before the flood. Now, I could not give any satisfactory answer, remembering that the Preacher saith—"There is nothing new under the sun, and what hath been shall be again." To deny that the world's grey Fathers did solace themselves with a pipe now and again would be presumptuous in me, but my opinion rather leans to the supposition that the limestone in which they were found was of recent formation perhaps not more than a thousand years. However, as the use of tobacco was introduced by Sir Walter Raleigh from America, the custom of smoking may be a very ancient one in the new world.

I eagerly requested to see these pipes, fossil pipes may I term them, but one of them had been given away and the other disappeared. Someone had taken it and never returned it, to my great regret, as I greatly wished to see and handle these singular relics of former days; when the savage reigned sole lord of these mighty streams and ancient forests; when he sat him down in silence amid the solitude of the wilderness and smoked the pipe of peace among his fellow-hunters and warriors, not thought of the change a few years would effect—when his tribe should be scattered and fade away like withered leaves from the earth, and his hunting grounds should become the right of a race of men unknown and unheard of and I could not help thinking as I cast my eyes upward along the clearing before me, in all probability as great a revolution had taken place in the face of nature where we then stood as had been affected in the moral world. Whoever visits this spot, will see in it the evident marks of its having been once the bed of a mighty and impetuous river or lake that buried its waters down a precipitous decent with rapid force—but how? Or by what means it has become exhausted, I cannot even form a conjecture.

Clear Lake Entrance

When dinner was over, Miss Young put on her bonnet and acted as guide through the woods to show us the entrance to Clear Lake. The air was so clear and yet so mild, that I felt my spirits quite enlivened, and though five years had somewhat tamed the elasticity of my steps, I found I could yet enjoy a scramble through the woods—overcoming the difficulties that beset my path in the form of huge moss-covered stones and fallen trees with as much spirit as ever I had done.

After a walk of about half a mile, the hardwood trees gave place to the sombre gloom of the cedar and hemlock and pine. In a few minutes the bright bleam of the water sparkling in the sunlight broke upon us, and we found ourselves on the margin of Clear Lake, opposite to a precipitous rocky shore which is known by the name of the "Battery," as it looks not unlike an artificial defence cast up in front of a fort. The bold headland was covered by a growth of small pines and stunted trees. This fine expanse of water is free from those rice and rush beds that disfigure Katchewanook and Beosaquaquan Lakes in many parts and from this circumstance and the transparency of the water it has gained the name of Clear Lake. The spirit of silence seemed to brood over this lovely spot. The deep azure of the sky, the long line of evergreens that fringed its bays and promontories were reflected on its broad, still, glossy surface. Not a sound broke the stillness, not a leaf stirred, not even an insect on the wing and no indication of animated nature. The only living thing visible except ourselves was a solitary heron, sitting on the dry branch of a stunted tree, watching the surface of the water for its prey. The dull plumage of this lonely watcher rather added to the quiet of the landscape, than gave it a tone of animation. So silent and still was the scene, I could not help recalling that only two summers ago these silent woods and shores had re-echoed to the dying screams of agony that rose from some unfortunate creatures who were upset from a canoe, near an island in Stoney Lake. A numerous and thoughtless party, mostly young men and women, had embarked in a double canoe—two long canoes lashed together side by side. A sudden squall of wind came on when they were unprepared for danger. The canoes upset and four of the party that had left their homes in the morning full of life and joy were drowned. Well may we say with the Apostle—"Boast not thyself of the morrow, for thou knowest not what a day may bring forth." I am told that these upper lakes are very liable to sudden squalls of wind which are very dangerous to the unskilled or even to those who are experienced, they are not without danger.

Ground Was Swampy

As we stood on a block of stone looking at the lake, I noticed a projecting mass of rock from which I thought we should enjoy a better view of the entrance to Stoney Lake, but the ground between was too swampy for us to pass over. Miss Young remarked, "I never see that stone, but it reminds me of the time my brother John and I were lost in the woods." I begged her to tell me about it.

It seems that about six weeks after they settled in the bush, they had occasion to procure some flour from one of their neighbouring settlers or from Peterborough, I am not sure which. There was no road, only a blazed line of trees to direct them and they lost their way and could by no means find it again. They wandered about till they were quite bewildered, and night set in. They imagined they must be miles from home. It was autumn but the summer had been a dry one and not a drop of rain had fallen for several weeks. The creeks and swamps were all dry—not a drop of water could be found or even a berry to cool their parched lips. The thirst they suffered was intolerable.

Her brother fortunately had flint and steel with him and he made a substitute for tinder by peeling bits of birch bark which ignited readily. By this means they were able to make a fire and keep themselves warm during the night, which are often chilly and frosty, even as early as the latter part of August. After a long search they found a little water in a hollow decayed log which had probably been there for some time; most unpalatable it was, but they were glad to drink even this and they made a cake with some of the flour and baked it on the stones in front of the fire. The next day and night were spent in wanderings with no more success than on the day before. On the second morning however, to their great joy, they came to some cedars and hemlock trees and after forcing their way through the thicket, their eyes caught the gleam of water, and pushing forward with joyful hearts they emerged from the mass of evergreens and found themselves on the banks of a wide sheet of water and though they did not know it, not more than half a mile from their home and close to the big stone, near where we were standing.

Drank of Lake Water

Never was a draught of water more precious than that which these poor wanderers took as they kneeled down and drank from the clear water of the lake before them. Now came the questions of where they were and which direction to take. This was a question of some difficulty as from the time they had been absent they concluded they must be many miles from home. They thought they must be at Mud Lake, a lake on the opposite side of the township. By carefully observing the flow of the water, the young man decided to follow its downward course, as more likely to lead to settlements. He threw a stick into the water which showed the current. "You may imagine our surprise, madam," said my companion, "when after a few minutes' walk by the shore we saw the rapids and headland in front of what is now our own clearing. And surely I never joyed at anything so much in my life as at the sight of the blue smoke curling from our own shanty."

After hearing this and other tales of peoples being lost for days, while all the time within a short distance of their homes, I can better imagine the Israelites' forty years' wanderings in the desert.

This little story will give you some idea of what labyrinths our woods I think "Pierettas" clue of yarn in the old fairy tale would be very serviceable in assisting anyone to retrance his steps.

Our blazes as they are called are something on the same plan, but unsatisfactory when a traveller is benighted. A little chip off the bark of the trees on either side is not easily seen in the gloom of the evening—for you see my dear friend, these blazes are not like other blazes, they only shine by day and not by night. But to return to my story when we returned from our walk, we found the house beautifully swept and as neat as Miss Nora's brisk hands could make it.

As the grist was not finished grinding and we had early moonlight, we were easily prevailed upon to stay to tea and with that kind and ready hospitality which is so pleasant to a guest, our friends busied themselves to prepare an early tea for us. Truly, if I enjoyed our dinner after our long paddle in the morning, I enjoyed tea after our long walk through the woods even more. We had nice light cakes baked in the frying pan, before the flowing coals of the log fire and delicious cranberry jam, preserved with maple molasses. But what I enjoyed even more was the conversation of my host, a fine looking, white-haired, old Irishman. He told us many interesting tales of the superstitions of his country; of warnings and spirits and dreams and of the "banshee" or "cry of night" as he called her. Nor were the little folk, the fairies forgotten, whose malicious interference he seemed to think still existed in his own country. Indeed, I believe he thinks some of the little people have followed the emigrants from the Emerald Isle to the western forests. I now found what I had never suspected before this conversation—that superstition existed among us and that Canada also had her spirits and ghosts; that warnings and mysteries exist here as well as at home. How I wished for Eliza as we stood round the blazing pile of logs and talked of these things. She would have enjoyed it, especially when the shadows of evening began to fall and the hoarse roaring of the rapids and the deep cadence of the wind in the pines on the opposite shore, lent a peculiar interest and tone to the subjects in discussion, and harmonized them to our feelings.

(Note: Eliza was Mrs. Traill's oldest sister, who was co-authoress with her sister Agnes, of the "Lives of Queens of England.)

I was sorry when the time for parting drew near and the summons to the boat was given.

I bade a hearty farewell to my new friends and was soon seated beside my dear husband, once more embarked on the swift flowing Otonabee. It was a lovely, serene night—the young moon and stars shone brilliantly on the dark waters. As we neared our own home, we heard the joyous voices of our little ones, so knew that all was well. You should have envied papa and mama the kisses from the sweet lips that were held up to greet us and the shouts of delight that followed when I gave them each a piece of maple sugar that my kind friends had given me for my little James and Katie and there was our darling baby Harry too, who came in for a double share of the kisses, but none of the maple sugar.

I have scribbled you a long, long letter and if I have not wearied you, I have fairly tired myself. The clock is on the stroke of twelve, the "witching hour" and as I find bogies and banshees are not too nice to disdain our new country, I must take heed now I prave their power, or they might be disposed to play weird pranks on my bairns, in return for my skeptical boubts of their existence in our adopted land. So fare you well, and forget not your faithful friend and gossip of the Backwoods.

Written by Mrs. C. P. Traill.

DETROIT PLANES TOURING ONTARIO

Trio Spend Night in Toronto on Ten Day, 2,563 Mile Flight.

LEFT AUGUST 7.

TORONTO, Ont., Aug. 9 (C.P.) — Completing the second lap of the ten-day tour which will circle the Great Lakes and covering 2,563 miles of actual flying, the three planes of the Detroit Flying Club slipped down upon the surface of the harbor here yesterday afternoon and came to rest for the night.

To-day, the trio of planes will leave for Barrie, Little Current and St. Ignace, spending the night at the latter place. From there they will continue on to Port Arthur, Fort William and Duluth. The three planes left Detroit August 7 and are expected back there on August 17.

GREAT LAKES ASSOCIATIONS ARE

(Continued from Page 1)

tional section, is subject to International Treaty. The sentiment of both sides of the border warrants the belief that the great waterway connecting the Great Lakes with the Atlantic ocean will soon become a magnificent reality.

Urge Keener Interest

"We urge keener interest in all that will make for greater efficiency of the several Great Lakes harbors both in American and Canadian waters; place their administration on more equable basis; secure the co-ordination of water and rail lines, and finally stimulate waterborne commerce in interest of that transportion economy which makes for material progress on both sides of the border.

"The realization of the proposed outlet to the sea not only is earnestly sought by the agricultural interests of the two countries, but at the same time the early beginning of the project promises a temporary but important relief in the unemployment situation.

"We herewith express our faith in the Congress of the United States and in the Parliament of Canada to protect and preserve the navigation integrity of the inland ocean known as the Great Lakes., in order they may render the service for which nature designed them."

HOOVER CALLS CONFERENCE ON DROUGHT SITUATION

WASHINGTON, Aug. 9. (C.P.) — President Hoover yesterday called a conference of Governors of twelve States for next Thursday, to map out a broad co-operative Federal-State programme of relief in the drought-stricken areas of the country.

The conference was called after the President had received a detailed report from Secretary Hyde, showing the critical aspect of the situation to be in the shortage of animal feed crops in states of the middle and far northwest and extending east to the Atlantic seaboard. No alarm was felt for the nation's food supply.

INDIAN TROUBLE SPREADS

BOMBAY, India, Aug. 9 (A.P.)—To the southwestward, in the Karachi district, trouble broke out again yesterday between Moslems and Hindus, two persons being killed and seven wounded. The trouble was reported to be spreading. About 18 were killed and many injured in similar trouble earlier this week.

Summer COLDS

Quick Relief from any Cold, Sore Throat, Headache or Other Pain

DON'T treat a "slight cold" lightly! The discomfort of a summer cold can easily develop into dangerous illness if neglected. A tablet or two of Aspirin will check a cold as quickly as it came. And you will get immediate relief from the headache that goes with it. If there's a sore throat, too, crush 2 tablets in 4 tablespoons of water, and gargle. Those who have learned the true value of Aspirin are never without it in any season of the year. It's always ready to relieve headaches, neuritis, neuralgia, and a long list of aches and pains: see proven directions in each package. Aspirin does not depress the heart or upset the stomach. Druggists everywhere have it.

TRADE MARK REG. ASPIRIN

MADOC W.M.S. MEETS.

MADOC, Aug. 9. (Examiner Correspondence).—The W.M.S. of Trinity United Church held their August meeting at the home of Mrs. Wareham Harris, recently, Mrs. S. S. Ashley presiding.

Mrs. McMechan led the Devotional exercises and prayer was offered by Mrs. M. Maybee and Mrs. O. Dingman. The subject for the day was "Old and Familiar Hymns" in which Mesdames McMechan, Way, Kincaid, Maybee, Bailey and Ashley, took part. Several beautiful hymns were chosen and incidents relating to them were told. Mrs. A. Thompson gave an interesting item on Indian work. Plans were made to visit the Queensboro Auxiliary at their open meeting during August.

Owing to the absence of treasurer and secretary their reports were given by Miss A. Wood.

A pleasant social half hour was spent at the close of the meeting.

GEN. McRAE VISITS VANCOUVER.

OTTAWA, Ont., Aug. 9 (C.P.). — General A. D. McRae, Chief Conservative Whip, left the Capital last night for Vancouver. Accompanying General McRae was Dr. H. C. Hodgson, Conservative organizer for Manitoba. The rumor still prevails in political circles that General McRae may be Canadian High Commissioner in London.

IT'S WISE TO CHEVROLET CHOOSE A SIX

From first cost to re-sale value it's wise to choose this Six!

IT'S wise and economical to choose a Chevrolet Six! For the new Chevrolet is a six-cylinder car—with all the advantages of greater smoothness, comfort, speed and hill-climbing power which nothing less than six cylinders can give. Yet, priced as low as $635 at the factory, Chevrolet Six is *actually one of the lowest-priced cars you can buy!* And this great Six is as economical to operate as any car on the road today, regardless of the number of cylinders. *It costs no more for gas—costs no more for oil—costs no more for tires—costs no more for upkeep!*

HIGHER RE-SALE VALUE

In addition to giving you smoother, faster performance now, Chevrolet's modern, six-cylinder design assures higher re-sale value for your car when you come to turn it in. A Six lasts longer, because it is free from the strain and wear of excessive vibration. And because the Chevrolet Six is so far ahead of the field *today* in providing such modern features as low suspension, longer wheelbase, lengthwise-mounted springs, new Fisher Bodies, plush upholstery and smart appointments, it will be modern *tomorrow*—a car your dealer will be glad to accept in trade.

DECIDE WITH A RIDE

Go to the nearest Chevrolet dealer—today—for a road demonstration. Ask him about the General Motors Owner Service Policy, the most complete service policy in the industry—and the G.M.A.C., General Motors' own deferred payment plan.

ROADSTER or PHAETON $635

The Sport Roadster	$715
The Coupe	740
The Coach	750
The Super Sport Roadster (Six wire wheels standard)	795
The Club Sedan	$810
The Sport Coupe	840
The Sedan	870
The Sport Sedan (Six wire wheels standard)	940

Prices at factory, Oshawa. Taxes, bumpers and spare tire extra. A complete line of Commercial Cars and Trucks from $485 up.

Tour Canada this summer in a Chevrolet Six—it's all worth seeing. This beautiful scene in Acadia is typical of the delightful scenery which beckons motorists to Nova Scotia.

CHEVROLET SIX

IT'S BETTER BECAUSE IT'S CANADIAN

THERE IS A CHEVROLET DEALER NEAR YOU TO SERVE YOU

THEATRE NEWS

VOICES COUNT WITH STUDIOS

Favorites Get First Call — No Others Sought.

NEW STAR SYSTEM

HOLLYWOOD, Aug. 9.—Not so long ago the picture producers announced a firm resolve to junk the star system. Inflated salaries and monotonous personalities were hurting the business, they said.

Now there's an even more clannish group of favored performers—those who can register lines. Producers have collected a handful of players with excellent microphone voices and apparently have quit looking for more. And, recognizing a break when they see it, the favored few are skyrocketing their salary demands, confident that no one can be found to replace them—for a while, anyway.

Scripts now are being cast with established types the moment they're read. If there's a chance to try some one new in the part, the execs suddenly develop astigmatism and can't see the newcomer. It's become very much like the legit field in New York.

A gangster story means certain players, no matter who makes it. If the player wanted is under contract to another studio, every effort is made to borrow, including exorbitant payment.

'We want Soandso for the part. He's played the same part in six pictures and he's bound to handle it right." Meanwhile theatre audiences have seen Soandso in the same six pictures. But it takes this sort of audience reaction a long time to filter across the desert. The backstage story repeated its death rattle in four languages before they became convinced.

Hardly any new talent is being developed. The pampered handful are in, and while they're in they're milking.

Just Can't Miss.

As one example, there's the actor clicking in gangster parts. He got $35,000 for eight weeks' work, which isn't bad. When the next picture came along he figured they needed him plenty, so he demanded $60,000 for five weeks, and got it. Between pictures thereafter he slipped back to the old home town and bought an office building. He knew they wouldn't forget him in Hollywood, where producers thought of his name automatically every time an underworld story came along.

SCREEN AND STAGE NOTES

Announcements arrive from Hollywood to the effect that the film centre is about to devote itself to the production of foreign language films more than ever. Dubbing, the practice of substituting one voice for another, has apparently been found taboo in European countiers, and with the recent settlement in Europe of the disputed exchange rights Hollywood will henceforth concentrate on the foreign product.

The first of the Fox group to be made in French and Italian are "Common Clay," and "The Last of the Duanes." A number of Italian stage personalities, recruited from Italy for the purpose, will arrive on the west coast shortly.

Clara Bow's next film will be "Her Wedding Night", revealing the romantic adventures of a red-headed movie star who tries to escape male attentions. The picture will be a transcription of the Avery Hopwood farce. Frank Tuttle will direct and Ralph Forbes will be the leading man. Charles Ruggles is also to be in it.

The Noah Beerys, father and son, will be seen on the screen together in the Fox film "Renegades," which Victor Fleming will direct. Noah Jr. plays the role of a young legionaire and is said to be unlike his famous father—as regards features at least. The others in the cast are Warner Baxter, George Cooper, Gregory Gaye and Myrna Loy.

Cecil B. De Mille, whose ideas for dances in dirigibles have been incorporated in his latest production, "Madam Satan" will next make a talking version of his former film, "The Squaw Man."

Universal has at last cleared up the legal tangle surrounding the rights to "The Cat and the Canary" and will start production shortly with Helen Tweltrees in the main part. The film version is to be known as "The Cat Creeps" and besides Miss Tweltrees others in the cast will be Lilyan Tashman, Jean Hersholt, Neil Hamilton, Montagu Love, Theodore von Eltz and Purnell Pratt. Rupert Julian will direct.

"Illicit," the play which Warners will make first as a photoplay and then as a stage production in New York, will have James Rennie in the leading part in place of Neil Hamilton, as previously announced. Barbara Stanwyck as well as Charles Butterworth, Joan Blondell and Grant Mitchell will also be in the production.

'THE BIG TRAIL' FILMED IN OPEN

Fox Spending $2,000,000 in Wilds of Wyoming on New Picture.

INDIANS ENGAGED

HOLLYWOOD, Aug. 9.—In the wilds of the Teton Mountain Range, Wyoming, forty-one miles from a railway, Raoul Walsh is directing for the Fox Film Corporation an audible picture inspired by the Lewis and Clark expedition of 1804. The picture, which is being photographed wholly in the open, will be known as "The Big Trail" and according to Winfield Sheehan, general production manager of the Fox concern, some $2,000,000 will be spent on its scene. Of the many persons engaged at work before the cameras and the microphone, there are several hundred Indians and an army of extras. The principals include John Wayne, Marguerite Churchill, Tully Marshall, Tyrone Power, El brendel and Ian Keith.

One of Walsh's jobs was directing 300 Indians for a climatic massacre episode. The redskins brought their tepees with them from their respective reservations, the tribes including Arapahoes, Blackfeet, Cheyennes, Crows and Shoshones. Mr. Walsh learned the Indian sign language realising that it would be of great help to him in directing the action of the scenes with the redskins. Half the Indians brought their ceremonial attire with them, but Mr. Walsh did not want their beaded costumes, for at the time of the film the Indians were satisfied to garb themselves in buckskin. So Earl Moser, head of the wardrobe department, wired Kansas City and the buckskin was rushed in time to compete the costumes for certain episodes of the film. For the massacre sequence, however, the redskins are arrayed like Fuzzy Wuzzies.

Mr. Walsh had his troubles when he started work with the redskins, for two of the tribes were not as friendly as they should be for motion picture work. When the director, through an interpreter (before he learned the sign language) announced that he wanted to pick his front line Indians, jealousy was aroused. However, things settled down when it was decided that an equal number of each tribe would be in the foreground. Walsh wanted fierce faces and reckless riding for his massacre and Mr. Sheehan explained that Walsh got what he wanted.

One of the chapter in this film that is said to be impressive is a sequence wherein mud is the menace. In this stretch there will be seen wagons sunk to the hubs in mire and men, women and children literally puttting their shoulders to the wheel.

It is expected that "The Big Trail" will be finished some time this month. The idea of making the story, one written by Hal Evarts and Mr. Walsh, occurred to Mr. Sheehan while he and Mr. Walsh were in London. It was in the British metropolis in the Savoy Hotel that they mapped out the incidents of the picture, leaving the location to Walsh when he got back to his native heath.

HOLLYWOOD NOTES.

Even Mary Pickford wears one of those crocheted white Angora berets.

The smallest baby links calls itself "Demi-Tasse Country Club."

Dozens of picture players are secure in the knowledge that Hollywood's famous plastic surgeon won't tell.

Second-hand automobile dealers won't buy any more high-powered cars and the situation is becoming serious.

A beer-making machine trying for the Hollywood market costs $200. Service extra.

Harry Green is mystifying as a magician.

Ziegfeld show girls out here all have wide-eyed looks so the mascara won't smudge.

Every blue-eyed blonde wears a blue hat.

Offices provided for writers at the studios can be used as sets for prison pictures.

A new apartment hotel that started out to be very haughtly now advertises that screen players are wont to lunch there.

To the utter joy of the beauty parlors, Hollywood likes all its heads, male and female, waved.

Hollywood's street corner traffic bells bring back memories of school days.

Santa Monica ocean front villas are filled, as usual, with picture people who know practically nothing about the current hard times.

Chevalier really wears "Chevalier-blue" shirts—and very becoming, too.

People prominent in education in California are meeting at a Garden Tea at Colleen Moore's sponsored by the Progressive School, which has enrolled most of the offspring of pictures' intelligensia.

Golfers who dress the part at Rancho eschew knickers in favor of slacks. Eddie Elkins has some in sky-blue linen that cause quite a to-do.

Right now a 16-cylinder Cadillac yields more awe than a Rolls.

LAUREL-HARDY'S FULL LENGTH

HOLLYWOOD, Aug. 9.— Laurel and Hardy's first feature-length comedy talker will be "The Rap," originally slated as a twin-reeler. Because of its satirical timeliness in kidding the current popularity of prison features, Hal Roach decided to extend it.

Metro release of L-H comedy kids the current prison film cycle.

NOTICE

Sale Warrant 1930 Sale 1930

COUNTY OF PETERBOROUGH, TO WIT:

By virtue of a warrant under the hand of the Warden and Seal of the County of Peterborough and to me directed bearing date the 24th day of July in the year of our Lord One Thousand Nine Hundred and Thirty, I am commanded under the authority of the Statutes in that behalf to levy on the lands hereinafter mentioned and described for the arrears of taxes due thereon, with the costs as hereinafter specified as directed by the said Act.

These are therefore to give notice that unless the said arrears and costs are sooner paid I will proceed to sell by Public Auction at the Court House in the City of Peterborough on the 12th day of November, 1930, at the hour of ten o'clock in the forenoon, the said lands or so much thereof as may be necessary for the taxes and the lawful charges incurred in and about such sales and the collection of the taxes.

Edison Congratulating the "Brightest Boy"

Arthur O. Williams, East Providence, R.I., was chosen by Thomas A. Edison from among "brightest boys" in the United States for the inventor's college scholarship. Henry Ford, who with Harvey Firestone, helped Mr. Edison set the examination and select the winner, is seen standing behind the donor of the prize.

OLD CANOE IS FOUND IN LAKE

Believed to Belong to Tom Thomson, Artist, Drowned in July, 1917.

AT CANOE LAKE

CANOE LAKE, Ont., Aug. 9.—(CP)—Lionel Roher aged eight years, of 960 Shaw Street, Toronto, while out on a cruise on the pirate ship from Camp Ahmek, Canoe Lake, discovered what is believed to be Tom Thomson's canoe. The artist was drowned in Canal Lake in July 1917, and his canoe was in use for some years afterwards at Mowatt Lodge. It was finally taken into a small fishing lake west of Canoe Lake and abandoned. Camp Ahmek boys have been searching for it since news of its whereabouts reached the camp a few weeks ago.

The canoe is now being held at Camp Ahmek for identification, it is hoped to have it identified before Tom Thomson Day, which was August 16.

A very fine Thomson totem, designed at Camp Ahmek, is being erected near the Thomson cairn on Canoe Lake and will be unveiled on the 16th. There is also to be an exhibition of two Thomson sketches which are being loaned for the occasion by the National Galleries.

PREDICTS LARGER SHIP THAN R-100

Capt. Calmore Claims New Dirigible Will Make Atlantic Flight Easy.

APPEALS TO CANADA.

OTTAWA, Ont., Aug. 9 (C.P.) — "Our next ship will show a greater advance over the R-100 than the R-100 and R-101 have shown over the R-34 built in 1919," predicted Group Captain B. B. Colmore, Director of Airship Development for the British Government, addressing members of the Ottawa branch of the Engineering Institute of Canada and the United Service Institute of Ottawa yesterday. "We hope Canada will join with even greater intensity when the question is discussed at the Imperial Conference next month and if you do," Captain Colmore added, "we can build another ship that will make the Atlantic a much easier proposition."

WALLACE BEERY'S SUIT

LOS ANGELES, Aug. 9.—Wallace Beery is suing Harry B. Goodman to collect $11,500 on promissory notes. The notes were issued to Richard J. Dyas in December, 1925, and taken over by Beery with a trust deed on Kansas City property as a security. Dyas is a co-defendant, Beery claiming he foreclosed a previous mortgage on the lots.

MISS MacDONALD'S CHOICE

LOS ANGELES, Aug. 9.—Jeanette MacDonald has one more picture to make for Paramount this year.

She is trying to persuade the studio that she should do "The Goldfish," the show in which Marjorie Rambeau appeared in the east.

GERMAN WAR FILM BARRED

ZURICH, Aug. 9.—"The Western Front in 1918" (German made by Neo Films) directed by G. W. Pabst has been prohibited for exhibition in Bulgaria by that government.

Constance Bennett announces she is not interested in the Marquis Henri de Coudray de la Falaise, Gloria Swanson's husband.

Afraid that a gigolo part would play havoc with William Powell's fan status, Paramount won't star him in "Lady's Man" as intended. Paul Lukas may get the part.

STORM HINDERS FLYER'S ADDRESS

Lindbergh Urges Adoption of Uniform Flying Rules By All Nations.

WORLD-WIDE HOOK-UP.

NEW YORK, N.Y., August 9 (C. P). — Speaking from the studios of Station WABC, New York, over a world-wide hook-up, Colonel Charles A. Lindbergh last night urged the adoption of uniform flying regulations by all nations and declared the conquest of the air should herald a new era of international commerce and agreement. It was his first formal radio talk.

Just as he was ready to send his words on a longer voyage than he or any other man has ever made in a plane, a terrific electrical storm broke over the Atlantic, and the most ambitious arrangements ever made for a world broadcast all went for naught. It was his first formal radio address, and it was to have been heard in the far corners of the world — Europe, Asia, Africa, and Australia.

BENNETT'S WIN HIGHLY PLEASES LONDON TIMES

No Ground For View of Setback to Imperial Co-operation.

LEADER OUTSTANDING MAN.

Division of Parties in Quebec Hailed as Important — Feature.

LONDON, Eng., Aug. 9 (C.P. Cable) —The only morning paper which has commented on Hon. R. B. Bennett's Cabinet hitherto is the Times. An editorial this morning remarks it is no disrespect to his colleagues to recognise that as Mr. Bennett has been the outstanding figure of his party when in opposition, so he will be the dominating member of the Government. The new Cabinet starts its career with high hopes, says the Times, under a leader who completely changed the party fortunes within a few years.

No Ground For View.

The Times thinks it significant that Mr. Bennett should take charge of the Finance Portfolio himself, thus having the tariff policy in his own immediate care. "There is no ground for the view held in some quarters that the defeat of the Liberals is a set-back to the idea of Imperial co-operation," it continues. "It would be absurd to suppose that Mr. Bennett is less ardent in his devotion to the Empire than his predecessor. Fundamentally, there is no difference between the two parties in this respect, and those who see in the verdict of the election a blow at the Imperial cause ignore the whole trend of Empire development."

The Times welcomes the return of 24 Conservatives from Quebec as a sign of a less rigid attitude on the part of the church, and says this new turn in politics is of great importance to the parties, the church, the provinces, and the Dominion as a whole. The complete identification of the church with one party was politically unhealthy, thinks The Times, and it would be better for both church and state for the former to have adherents in both parties.

Quebec Division Important.

The division in Quebec between Conservatives and Liberals has another feature of great importance, in the opinion of The Times. It modifies the unhealthy factor of the identification of the French racial strain with one political party, says the newspaper, and if this development can be made to continue it must affect the growth of a distinctively Canadian national outlook.

COAST-COAST TRIP WINS YOUTH $1,000

VANCOUVER, B.C., August 9.—(C.P.). — Noel Marcil, young French-Canadian from Halifax, N.S., wheeled his battered bicycle into Vancouver yesterday and won a wager of $1,000.

Marcil left the Atlantic coast April 14 with $15 in his pocket and a supply of food on the crossbar of his cycle. He was to reach the Pacific before midnight Aug. 4.

Notwithstanding the fact that he ran his machine into a ditch near Lytto, B.C., and spent two weeks in a deserted shack with an injured back and leg, the wiry little Canuck reached his goal one week ahead of time.

AFRIDES ATTACK BEING WITHHELD

Raiders Meet British Troops Mile From Peshawar and Retreat.

7 KILLED BY BOMBS.

PESHAWAR, India, Aug. 9—(CP)—While British troops and bombing planes beat off the first attack of an advance guard of invading Afridis tribesmen, the full force of 10,000 Afridis held their blow to-day and did not strike at this important frontier city.

Raiders numbering about 1,000 who advanced to within a mile of Peshawar Thursday, encountering defending British troops and heavy fire from the air, have returned to Kalauri plain. The bombing operations resulted in seven Afridis being killed.

Another party of tribesmen which penetrated into villages southeast of Peshawar were shelled and suffered casualties.

CLARKE FAMILY HOLD RE-UNION

Sixty-eight Members Gather For Outing at Presqu' ile Point.

ACQUAINTANCES RENEWED.

(Examiner Correspondence)

WOOLER, Aug. 9. — Presqu'ile Point, on Lake Ontario was a scene of many groups of people on Sunday. Among them being a family re-union where sixty-eight members of the Clarke family enjoyed their dinner together and renewed old acquaintances of many years absence and still a large number were unable to be there. The afternoon was spent in driving and visiting and then the supper was served, the guests were from the following places:

Wooler — Mr. and Mrs. Aaron Clarke; Mr. and Mrs. C. R. Terrill; Mr. and Mrs. Lloyd Darland; James and Lorne Terrill, Mrs. Jane McColl, Lillian Dorland, Mr. and Mrs. Bruce Plumpton, Reginald and Irene Plumpton; Codrington—Mr. and Mrs. Wm. Clarke, Mr. and Mrs. Jake Clarke, Mr. and Mrs. Owen Clarke, Mr. and Mrs. Eldon Carlow, Harold and Elaine Carlow, Mary Clarke; Colborne—Mr. and Mrs. Floyd Clarke, Walter and Opal Clarke, Mr. and Mrs. Arkles; Morganston—Mr. and Mrs. F. Clarke, Mr. and Mrs. Grills, Salem Clarke; Wickton—Mrs. E. Bateson; Campbellford—Mr. and Mrs. R. Long, Mr. Eugene Downey, Mr. William Bateson; Trenton—Mr. and Mrs. Bob Clarke, Norma Clarke; Peterborough —Mr. and Mrs. John Bateson, Helen, Dorothy and Marion Bateson, Mr. and Mrs. Clifford, William Clifford, Albert Long; Toronto—Mr. and Mrs. James Wright, Dorothy and Robert Wright; Hilton—Mr. and Mrs. Gerald Peister, Donald Peister; Meyersburgh—Mr. and Mrs. Bob Bateson, William and Margaret Bateson, Mr. and Mrs. Walter Scott, Donald and Jean Scott; Strathroy—Mr. Paterson.

'Family Drift 4 Miles Into Lake

The photographs here show the Hodgson brothers and sister of Hamilton, Ont., who, adrift in an offshore gale off Grimsby, were swept four miles out to sea, and finally rescued by fishermen. (1) Alfred Hodgson; (2) Margaret, and (3) Arthur.

ARTICLES OF INTEREST TO THE FARMER

POULTRY YARD ROTATION WILL REDUCE DISEASE AMONG FLOCK

If Possible Divide Run in Four or Five Sections of Equal Size.

PLANT CLEANING CROPS

Mortality figures over a period of five years, taken from the autopsy records of the Poultry Division, Central Experimental Farm show 25 per cent of all mortality to be caused by intestinal parasitism. It must be remembered that the birds which were the subjects of this tabulation came mainly from poultry flocks in the provinces of Ontario and Quebec and from Canadian and Ontario Egg Laying Contests, 80 per cent of the birds of which were also from the same provinces. Obviously these figures are a fairly accurate haromeeter of disease conditions in the provinces mentioned and no doubt would apply, with slight reservations, to Canadian conditions in general.

In the light of this fact it will be readily recognized that the control of this disease is of great importance to the industry.

Custom Proves Valuable

Both experimental work and actual practice tend to point toward the value of yard rotation in the rearing and maintaining of stock free from intestinal parasites. If possible, the rearing ground should be divided into four or five sections of equal size. While the stock ranges on one section the remaining ground is cultivated and sown to free growing crops to maintain the cleanliness of the soil. The following season the range is shifted one section and the used land cultivated and put down to crop. Clover, alfalfa and hoed crops make excellent soil cleaners, the land being used for range following the green rather than the hoed crop. The colony brooder house and range rearing coop, plans for which are shown in the bulletin, "Poultry House Construction," obtainable from the Publications Branch, Department of Agriculture, Ottawa, fit in excellently in such a rotation owing to ease of moving and adaptability to rearing conditions.

Once reared free from parasites the maintenance of such a condition is gained by the same treatment. Permanent laying or breeding houses should have large front and back yards free from interior fences which may be cultivated in the same way as the rearing land and alterated between crops and range for the birds.

New Apple Grades, No. 1 and Domestic

The problems of the apple grower, buyer and consumer will be materially simplified when the Fruit Branch of the Dominion Department of Agriculture puts into effect the new apple grades advocated by organized growers in the barrel apple districts of Ontario, Quebec, New Brunswick and Nova Scotia. The new grades will be No. 1 and Domestic. The preliminary announcement also indicates that hampers and baskets will provide a useful supplement to the present barrel package.

CROPS ARE GOOD IN NORTH SMITH

Lakefield District Reports Crops to be Heavy—Harvesting Well Advanced.

FIELD CROP RESULTS.

LAKEFIELD, Aug. 9 (Examiner Correspondence).—Crop prospects are good in the Lakefield district, where the fields are "whitening unto the harvest," and where the harvest has already begun on most farms. Oats are said to be good but rather light, but wheat, barley, rye, etc., are all excellent and prospects good. Corn is doing well, also the root crop, but there is no denying the need of rain. Farmers, however, are anxious to get their ripe grain cut and drawn in before rain comes in any quantity, as a soaking shower on cut grain would be disastrous.

Pasture is poor as the dry weather has dried the grass nearly everywhere but last night's rain will aid this considerably.

Novel Attraction At Fair.

At a recent meeting of the directors of the Lakefield Agricultural Society, held in the Lakefield Town Hall, several additions were made to the Fair program, which will introduce some novel attractions, one being an old time fiddlers' contest, a step-dancing contest, a singing contest for school children, with prizes for the best boy and best girl. A foot race for men of fifty years and over is another attraction, and also a special prize for the best lady automobile driver. In all these events the prizes are extra good and well worth winning. The prize list will be available in a few days, containing a full list of the special events and the prizes offered.

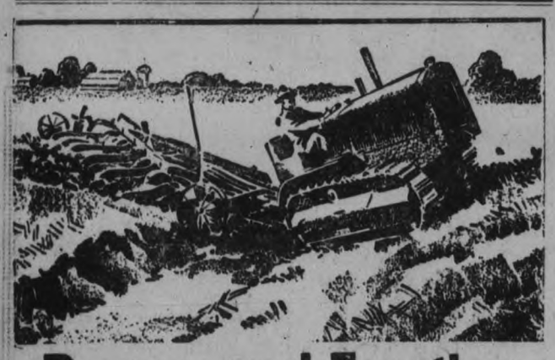
The following is the result of the field crop competition held by the Lakefield Agricultural Society in oats: 1, N. S. Higgins; 2, T. J. Wood; 3, S. Slater; 4, S. W. Hockaday; 5, L. Harrison; 6, E. Dunford; 7, J. E. Galvin.

POISONS IN THE BLOOD

FOR OVER HALF A CENTURY THIS PROVEN PRESCRIPTION HAS BEEN RECOGNIZED AS THE MOST EFFECTIVE REGULATOR OF THE LIVER, KIDNEYS & BOWELS

DR. CHASE'S K&L PILLS

DR. A. W. CHASE'S KIDNEY AND LIVER PILLS



Power and Traction to go where you NEED to GO

WHETHER it's after-harvest cultivation or fall plowing, you want the job done quickly. "Time" is your greatest concern.

That's where the "Caterpillar" shines. With a "Caterpillar" you can tractor-work any hill that can be worked with horses. You can straighten out irregular fields by working right across ditches or boggy spots. With abundance of power, and the weight spread over its long, wide tracks, "Caterpillar" climbs like a mountain goat —but puts less weight on a square inch of soil than you do with the sole of your boot.

Less Gasoline per Acre

The "Caterpillar's" tracks—which it lays down, rolls over, and picks up again behind—are among the greatest fuel-savers known to this age of power. It's like driving your automobile over pavement instead of loose sand—no sinking, no slipping just smooth running on solid footing. As a result, eighty per cent. (80%) of the power developed by the "Caterpillar" engine is actually delivered at the draw-bar. In comparative tests, the "Caterpillar" has plowed *six* acres on the same amount of gasoline required for *four* acres with a wheel-type tractor.

Be Sure It's a Genuine "Caterpillar"

Don't make the mistake of thinking that all track-type tractors are "Caterpillars". "Caterpillar" is the trade-name of one particular make. Other track-type (or crawler) machines have different names. Wherever you find a *genuine* "Caterpillar" you find a satisfied owner.

We carry a full line of "Caterpillar" tractors—five sizes—and a full line of parts. Write for our FREE illustrated booklets.

CATERPILLAR

WILL HENS LAY IN DECEMBER AS THEY DID IN MAY?

Answer is "Yes" With Proper Care and Common-sense Feeding.

RATION TIPS

Luck Less Important Factor Than Many Raisers Imagine.

The famous painter, Whistler, was once asked how he mixed his paints to get such unusual effects. With more truth than good manners, he retorted curtly. "With brains sir, with brains!" The same ingredients might very profitably be incorporated into the poultry feed of those who are frequently heard to complain bitterly because their hens "lie down on the job" instead of laying eggs in the nest when winter comes. Good luck has a habit of abiding with the man who studies the requirements of his flock, doing nothing without knowing definitely why he does so and what results to expect. First of all, he will learn the nature of different feeds and what they contribute to egg production or the upkeep of the fowl's own body. The flock should be approximately one-half well developed early hatched pullets, and the balance hens that have been closely culled and late molters.

A balanced ration is desirable at all times, but never more so than during the winter months. Then, natural forage foods, bugs, worms and green foods are no longer available, except in warm climates, so the lack must be made up in the mashes and scratch grains. The natural warmth of the sun is also seriously diminished and must be supplied by extra feedings of heat producing grains, especially corn. Mark this point well, that Nature must supply the necessary body warmth from within.

Green Food Necessary.

Green foods are very necessary because they supply those indispensable Vitamins A and D. Part of the hen's Vitamin A requirements may be supplied by feeding yellow corn in the scratch grains, but not enough. The necessary additional supply may be provided by means of sprouted oats, green food, or yellow carrots, if they are available, or from cod liver oil. I prefer the green stuff, however, as the hens find it much more appetizing than any substitutes I have ever tried.

Vitamin D is the mysterious agency which enables a hen to manufacture egg shell from the oyster shell provided for that purpose. This essential vitamin is stored in the bodies of hens when exposed to direct sunlight. They should be allowed to run out, therefore, whenever the weather will permit. Vitamin D is also found in green vegetable matter that has been exposed to direct sunlight, and in cod liver oil. Since the former is not always obtainable in sufficient quantities, it may be advisable to include from ½ to 1 per cent cod liver oil in the winter ration.

During the summer, the grain ration may be reduced. As winter comes on, however, the proportion of grain should be gradually increased. Grains are the fat and heat producing goods, so it is natural that they should predominate during the winter. The mash which contains the protein elements such as meat scraps for making egg yolks should remain constant throughout the pear.

A good winter rations is as follows, or buy ready mixed commercial scratch and mash feeds:

Scratch Feed.

Yellow corn (shelled or cracked	100 lbs.
Oats, wheat, kaffir or milo	50 lbs

Mash.

Bran	100 lbs.
Shorts	100 lbs.
Yellow cornmeal	100 lbs.
Heavy ground oats	100 lbs.
Meat scraps	100 lbs.
Salt	5 lbs.

The above ration should be supplemented by plenty of green food such as sprouted oats, green pasture, cabbage, mangel, wuzrel, grit, oyster shell, and clean fresh water. If green food is not available, mix 40 pounds of a good grade of alfalfa leaf meal with the above mash.

If you want a home mixed mash, be careful and buy ingredients of the very best quality only, and see that they are thoroughly mixed. If you cannot do this, you had better buy a good commercial mash and use the grains grown on the farm or buy commercial scratch grain. Commercial ready mixed feeds are made by expert millmen and although they may cost more, they usually pay.

Milk Is Good Food.

Milk, either sweet or sour, or fresh buttermilk is one of the best poultry foods. It will greatly aid winter egg production. It should be put out in clean earthenware vessels set upon platforms, and protected so the fowls cannot get nto it with their feet. Let them drink all of it they will if you have it. If you feed plenty of milk you may have to reduce the amount of protein in the mash, as bowel trouble is likely to occur.

Water, of course, as necessary in winter as any other time, It must never be forgotten that eggs are 65 per cent water and that unless hens have a plentiful supply of good, clean water at all times, they cannot be good layers. Extra precautions should be taken during freezing weather to keep the drink-

PETERBOROUGH MARKET QUOTATIONS

RETAIL.

Fruits.

Oranges, 37-65c doz.; bananas, 23-25c doz.; 4 lbs. 25c; red, 5c each; lemons, 29-33c doz.; grapefruit, 2 to 4, 25 cents; cocoanuts, 10-15c each; pineapples, 25-30c; canteloupes 15-40c each; honeydew, 20-40c each; watermelons, 49-80c each; peaches, 85c basket; gooseberries, 25c qt.; pears, 6 for 25c; green grapes, 19-35c lb.; cherries, (Montmorencies) 6 qt. basket, 60c; 11-qt. basket, $1.10; (Black English sweets), 90c-$1.25 6-qt. basket; black currants, 30c qt.; plums, 15-30c doz.; yellow, 25c doz.; 6 qt. basket, 60-75c; raspberries, 20c qt.; red and golden currants, 10c qt.; apples, cooking, 25-35c pk.; harvest, 60c pk.; huckleberries, 25c qt.; 11-qt. basket, $2.25.

Vegetables

Potatoes, 19-23c peck; carrots, 5c bunch; cooking onions, 5c lb.; green onions, 5c bunch; Spanish onions, 2 lbs., 25c; cabbages, 5c each; head lettuce, 10c each; leaf lettuce, 5c bunch; parsley, 5c bunch; spinach, 10c lb.; tomatoes, 2 lbs. 19c; basket, 85 cents; cucumbers, 5 and 15 cents each; beets, 5c bunch; celery, 15-25c bunch; cauliflower, 15-25c each; radish, 5c bunch; asparagus, 2 bunches, 25c; green peppers, 10c each; butter beans, 5c qt.; green peas, 10c qt.; shelled, 35-40c qt.; vegetable marrow, 10-20c each; mushrooms, 70c lb.; corn, 30c doz.

Nuts.

Mixed nuts, 25c lb.; shelled walnuts, 43-59c lb.; peanuts in shell, 20-25c lb.; shelled filberts, 45c lb.; almonds, 60-75c lb.

Dairy Products.

Butter, creamery, 30-35c lb.; dairy, 25-29c lb.; lard, 2 lbs. 39c; shortening, 15-18c lb.; eggs, 25-27c doz.; cheese, 23-30c lb.; clover honey, 5 lbs. 60-65c.; 10 lbs. $1.10-$1.25; amber honey, 5 lbs. 40c; sections, 25c each; amber, 18c each.

Fish.

Salmon, 27-29c lb.; whitefish, 17c lb.; halibut, 32c lb.; fillet haddie, 19-23c lb.; finan haddie, 17c lb.

Meats.

Beef, 15-35c lb.; lamb, 19-38c lb.; veal, 18-30c lb.; pork, 20-40c lb.; bacon, 25-45c lb.; sausage, 27-25c lb.; chickens, 25-40c lb.

WHOLESALE

Flour.

Bread flour, 24 lb. bag, $1.10; pastry flour, 24-lb. bag, 85-99c; 98-lb. sack bread flour, $3.89.

Grain.

Fall wheat, $1.05 bushel; spring wheat, 95c; oats, 45c; barley, 50c bushel.

Hides and Wool.

Cow hides, 3-5c lb.; horse hides, $2-$2.50 each; veal skins, 7-9c lb.; spring lamb skins, 10-15c each.

Wool, fine, medium and coarse, 10-12c lb.; rejects, 7-8c lb.

Hogs.

Live hogs, bacon, $11.50 cwt.; selects, $12.50; dressed hogs, head on, $20.00; head off, $19.00.

Hay, Bran, etc.

Hay, baled, $15-$16 ton; straw, $8-$10 ton; bran, $24 ton; shorts, $25 ton.

POTATOES NEED CARE IN STORING

Do Not Place Crop in Cold Storage Too Soon After Harvesting.

TWO TYPES OF INJURY

Two specific injuries are caused when potatoes are put in a low temperature storage too soon after being taken from the field. The Cold Storage News letter of the Dominion Department of Agriculture just issued describes these injuries and outlines a method by which they may be avoided.

The first of the injuries is caused by skinning. The potato, either in digging or handling is bruised or scratched, the skin being broken, when placed in low temperature storage around 32 degrees F., shrivelling about the wounded area results. In extreme cases the entire tuber may shrink to a mere mummy and considerable mould growth makes its appearance over the wounded surface.

The second type of injury is of quite a different nature, taking the form of the killing of all or part of the eyes or buds and in addition the darkening or blackening of the lanticles which may become pitted. Not only does this injury detract from the appearance and sale value of potato stock affected, but what is more important, renders such potatoes practically worthless as seed.

Investigation shows that both these injuries occur when potatoes are placed in low temperature storage within three or four days of harvesting. It also shows that the injury occurs to a great extent at 32 degree F. but also at temperatures ranging up to 40 degrees F. It also shows that the principal cause is insufficient curing before pacing the tubers in the low temperature storage.

These two types of injury, which in some sections assume substantial proportions, may be overcome by the simple expedient of proper curing. When taken from the field potatoes should be placed in a preliminary storage at a temperature of from 60 degrees to 70 degrees F. for a period of six days. This allows the potato a chance to properly cure. Potatoes may be held for periods of three months or longer in low temperature storage without either of the above noted injuries being substantially apparent.

HUBBELL CATTLE COMING TO 'EX'

Ground Committee Will Meet on Monday Night For Final Inspection.

DISINFECT BUILDINGS.

The grounds committee of the Exhibition Board will meet at the Park Monday evening for a final inspection in preparation for the Exhibition during the week of September 8 to 13. The committee in charge of the races meets Friday afternoon, and other conferences that are slated for the week-end and next week manifest the keenness of the directors to put this year's Exhibition over on a bigger scale than ever.

William Knox reports that Ed. Hubbell of Belmont has notified him that he will enter his Jersey herd for the first time. Exhibitors of livestock are reminded that the buildings are being thoroughly disinfected.

Doug Loomis is in charge of the horseshoe pitching tournament which will be a bigger feature than ever this year.

8,100 Pounds Peas Grown On Acre

KINGSTON, Aug. 9 (Special to The Examiner).—A record for yield of peas per acre, which will be hard to beat, is set by Keogh Bros., of Black River Bridge, Prince Edward County. From 1¼ acres, sown with 5 bushels of peas, they harvested 10,125 lbs. shelled peas—a yield of 8,100 lbs. per acre. The peas were threshed at the Port Milford Canning factory. Peas are turning out unusually well, scores of farmers reporting two tons of peas to the acre. This means that over $100 per acre is being paid out by the factories.

HOLSTEIN MEN HOLD FIELD DAY

Visit P. B. Nelson's Morningside Farm to Get Information.

CONDUCT DEMONSTRATION.

BURNBRAE, August 9 (Examiner Correspondence). — A number of Holstein breeders from this district visited P. B. Nelson's Morningside Farm on Wednesday afternoon to get information on the new regulations regarding advanced registry of females. The laws of the United States Association does not allow the registration in that country of a Canadian-bred animal which fails to reach the classification "good."

The Wednesday meeting was arranged under the auspices of the Belleville District Club, of which Mr. Nelson is secretary, upon instructions from Mr. Faith, Director of Extension for the Holstein-Freisian Association of Canada.

R. Holtby, association field man, was present and conducted the demonstration. He first outlined the classes as follows:

"Gold medal" cows that would stand fourth or higher at Class A shows and score 85 per cent. or better in the scale of points; "excellent" are cows good enough to get in the money at Class A shows, and scoring from 75 to 85 in the scale; "extra" cows should score from 65 to 75 points; "good" from 57½ to 65; and "fair" from 50 to 57½. All cows under 50 points are poor, and have their certificates of registration cancelled. Only animals two years or over are classified under these rules.

Mr. Holtby then went over the Nelson herd, placing each individual and giving his reasons, also explaining some of the new rules and regulations which the Canadian Holstein breeder of to-day has to be prepared to meet.

Breeders were present from Prince Edward, Cobourg, Dartford, Trent River, West Seymour, Bonarlaw, Madoc, Hastings County, as well as from this locality to the number of about thirty-five.

W. C. Dempsey, president of the Belleville Club, and J. Caskey, sales manager, were among those in attendance, also Bert Hoskin, secretary of the Cobourg Club.

WOULD BOOST FOREIGN CAR TAXES IN NEW ZEALAND

WELLINGTON, New Zealand, August 9 (C.P. Cable).—There is a strong feeling in New Zealand that taxation on foreign motor cars should be increased, "and it is difficult to resist that feeling," Premier G. W. Forbes told a deputation of motor dealers, who protested against a higher tariff.

Premier Forbes declared Great Britain was New Zealand's best, indeed practically her only customer. If New Zealand did not buy from Britain, he continued, she would be placed in a state of great danger, and he was emphatic in his belief that everything possible should be done to encourage the British manufacturer.

TREES PLAY BIG PART IN PLANNING NEW FARM HOME

Big Outlay of Money or Lot of Labor is Unnecessary.

VINES ATTRACTIVE

Home Beautification One of Most Worth-While Things a Man Can Undertake.

Ontario can boast of the finest native trees, conifers, shrubs and perennials. The setting too is the very best to bring about interesting homes and surroundings. It is true that in many cases too much tree growth has been removed from our farmsteads, which means bare areas and often desolation. In such spots frequently farm homes and buildings are erected, and it is this situation which frequently causes one to note the unattractive surroundings and settings which many farm homes have by way of environment. The ideal setting would be to place the buildings against a background of tree growth for protection as well as for effect. Unfortunately woodlands are usually too far away from the roadside to have buildings placed near such. Should the farm headquarters be placed in a bare stranded area near the road, the thing to do is to plant trees, conifers and shrubs and bring about a setting worth while. Thus create a more pleasing environment, protection from the sun's rays in the summer season and cold winds in winter. A movement of this kind may appear unnecessary and the expense unwarranted, but this is a mistake. After all, the farmer as much as anybody wants a first class home for himself, his wife and family, and the home is made more worth while with interesting and pleasing surroundings. A big outlay of money or a lot of labour are not necessary. A few things to bear in mind are that trees like Hard Maple, Elms, Oaks, Poplars and Birch be planted for shade, conifers be planted to break the fierceness of winds as well as for appearance sake. Also a few shrubs and perennials for general effect.

Evergreens Always Effective

With evergreens or conifers, White Spruce or White Cedar, whether planted in rows, groups or as single specimens, are effective at all seasons. On the sunny side particularly, shade trees here and there should be

(Turn to Page 14, Please)

EXTENT AND VARIETY OF WEEDS IN OWN LOCALITY REALIZED BY FEW

Survey in New Peace River District Shows 65 Different Species.

CARRIED MANY WAYS

To those who live in the older settled portions of the Dominion weeds are nothing new, they are accepted as necessary evils and prove a constant problem not only to the farmer and gardener, but to highway and road builders, railways, construction companies and to those suburban and urban dwellers who delight in the well kept garden and lawn. Everyone knows weeds exists, but few realize the number and extent of weed varieties even in their immediate locality. Familiar as we all are with weeds it comes as somewhat of a surprise to know that in an entirely new section of Canada, separated geographically and agriculturally from the older settled parts of the Dominion, weeds not only flourish in abundance, but are a very material problem.

Some suggestion of the nature and extent of the weed problem in the Grande Prairie area of the Peace River District is afforded in a pamphlet which was prepared by Mr. Herbert Groh, Botanist of the Dominion Department of Agriculture. In the course of a brief survey of weeds in this area Mr. Groh identifies and describes some sixty-five definite botanical species.

Where have these weeds come from? The Botanist observes that many of them are indigenous to the district, and very many more have been brought in through the opening up of the country. Railway construction projects, the inevitable introducers of weeds have played their part, but even fifty or sixty miles beond the end of the steel weeds are found in profusion. The much maligned railway is not alone responsible for the introduction of weeds into this new country for the trail of the early explorer undoubtedly brought its quota, and construction projects in the area have contributed, with the result that the settler now has no lack of adventitious as well as native weeds to contend with from the start.

Among the weeds identified by the Botanist are included: Common Yarrow, Prairie Rose, Great Willow Herb of Fireweed, Timothy, Wild Barley, Lambs Quarters, Western Rye Grass, Biennial Wormwood, Peppergrass, Russian Pigweed, Upright, Cinquefoil, Wolfberry, Common Horsetail, Shepherd's Purse, Knotgrass, Dock, Vetches, Common Dandelion, Prairie Sage, Awnless Brome Grass, Wild Buckwheat, Northern Bedstraw, Pineapple Weed, Alsike Clover, Rough Hair Grass, Common Plantain, Tumbling Mustard, Stinkweed, Couch Grass, Canada Thistle, Wild Oats, Russian Thistle, Perennial Sow Thistle and some thirty other weeds.

One advantage to the situation in Grande Prairie, however, is that with the present knowledge of weeds in the district, effective methods for the eradication and control on farm lands should result in a high degree of control to the benefit of agriculture in the Grande Prairie, area.

Garnet Wheat Is Standing the Tests

Garnet wheat, developed by the Cereal Division of the Dominion Department of Agriculture loses nothing by the gruelling tests to which it was subjected at the hands of twenty of the world's outstanding authorities on milling and baking in Great Britain and on the Continent. Not only is Garnet firmly established as a high quality wheat, but as an "improver" of blends has a promising future. Since its introduction in 1926 it has extended the area in which hard red spring wheat can be matured without danger of damage by frost by 25 per cent., and it already counts for more than one-fifth of Canada's wheat crop. It is a splendid wheat for the early frost zones of the Prairies, and is proving the best yielder among the wheats sown in Eastern Canada.

LORD STONEHAVEN BANQUETED

CANBERRA, Australia, Aug. 8.—(C P)—Lord Stonehaven today attended a Parliamentary luncheon held for the purpose of bidding him farewell. His term of office, as Governor-General, began in 1925 and expires in October.

To prove his contention that brain work evidently tends to long life, an European scientist recently mentioned Thomas A. Edison, who is 83 years old; Sir Oliver Lodge, who is 79; Bernard Shaw, 74; Sir James Barrie, 70, and Sir Hall Caine, 77

NEXT WEEK is a dangerous decision when you need roofing NOW

When you realize that one heavy rainstorm leaking through your roof can do more damage to interior furnishings than a new roof costs, then you will see how important it is to immediately give your roof the attention it requires.

Patching is an expensive remedy. The truly economical way is a Brantford Asphalt Slate roof that will give years of security against fire and weather.

See your Brantford dealer TO-DAY and ask him to show you the new colour slates. Talk to him about price and the present plentiful supply of labour.

Re-roof NOW at little trouble or expense.

Brantford Asphalt Slates

Brantford Roofing Co. Limited, Head Offices and Factory: Brantford, Ont.
Branches and Warehouses at: Toronto, Windsor, Winnipeg, Montreal, Halifax, Saint John, N.B. and St. John's, Nfld.

MARIE THOMPSON IS BIG WINNER AT JUNIPER ISLAND

Children's Regatta is Big Success With Large Entry List.

TWO BOYS ARE TIED.

Fifteen Events and Several Special Events Were Run Off Thursday Afternoon.

LAKEFIELD, Aug. 9. (Examiner Correspondence). —Marie Thompson won the Championship Cup for winning the greatest number of points at the Children's Regatta held at Juniper Island on Thursday afternoon. Marie, not only won the girl's championship cup, but the Regatta championship also. Ferguson Porter and Douglas Drake were tied for the boys' championship and each received a cup.

Although the attendance of adults was not as large as usual, there were quite as many children as in former years and the amount of enthusiasm and number of entries quite as good as any previous year, and in some events a little ahead. The weather was ideal for a regatta, being both fair and warm—decidedly war.

The mixed tandem canoe race, open to boys and girls 16 years and under, brought out nearly a dozen entries and had to be run off in heats. The boys' single canoe races for 14 and under and for 16 and under, also brought out a big entry and in both cases were run off in sections.

Good Sportsmanship

There was less fouling on the course than usual and the spirit of good sportsmanship was displayed by practically every contestant. The children's regatta which has an age limit of sixteen years, has the advantage in encouraging sport as even the best entrants have their day and graduate into the adult class leaving the field open to the "comer". Nearly every year the championship is won by a boy or girl in the fourteen years and under class as more events appear to be open to them but some of the small fry made a brave showing this year, as seen in the success of Eleanor Piper, Douglas Drake (tied for the championship) and Jack Barnes (the latter aged nine years) who measured up well in all the events, although all were in the twelve years and under class.

The youngsters had a delightful time and co-operated with the officials in every way so that the entire programme of fifteen events and several special events was run off in less than two hours.

The regatta committee was made up of the younger men who, a few years ago, were competitors in these juvenile events, and who handled the affair in a capable manner ,showing executive ability in every way. Dr. Morris and Mr. James Goulnlock assisted the young men as judges. John Guillett was clerk of the course; Stewart Wotherspoon was starter and Gordon Wotherspoon the referee.

Following the regatta the prizes were presented to the winners by Dr. Morris in the pavilion. "Oak Ridge Camp" was well represented in all the events open to the boys and Douglas Drake and Allan Gray particularly distinguished themselves.

A comedy note was struck when the judges were unable to decide at long range whether a tandem race lined up for the start was a mixed tandem or boy's tandem. So much for feminine fashions which have changed materially since the days of the "Pansy" book's popularity, and when "Grandma was a girl".

Results of Races

The following is the programme and the result of the races:

Boys' single skiff, 14 years and under—1, Ferguson Porter; 2, Charlie Heward; 3, Jack Gouinlock.

Boys' single canoe, 12 years and under—1, Douglas Drake; 2, Jack Barnes; 3, Eric Denston.

Boys' single canoe, 14 years and under (2 heats)—1, Ferguson Porter; 2, Allan Gray.

Boys' single canoe, 16 years and under (2 heats)—1, Spencer Piper; 2, Harold Bell; 3, Jack Black.

Girls' single canoe, 16 years and under—1, Marie Thompson; 2, Lulu Smith; 3, Ruth Gouinlock.

Girls' single canoe, 14 years and under—1, Marie Thompson; 2, Lulu Smith; Eleanor Piper.

Mixed tandem skiff, 12 years and under—1, Eleanor Piper and Jack Barnes; 2, Joyce and Donald Warneck; 3, Diana Lockhart and Hueston Bailey.

Mixed tandem siff, 14 years and under—1, Eleanor Piper and Jack Barnes; 2, Marie Thompson and Jack Ackerman; 3, Josephine Kilbourne and Jack Gouinlock.

Mixed tandem canoe, 16 years and under (2 heats)—1, Jean Ackerman and Clarence McIlmoyle; 2, Lulu Smith and Allan Dawson; 3, Marie Thompson and Jack Ackerman.

Mixed tandem canoe, 14 years and under—1, Jean Ackerman and Jim Hall; 2, Katherine Warneck and Charlie Heward; 3, Eleanor Piper and Jack Barnes.

Boys' single skiff, 16 years and under (special)—1, Spencer Piper; 2, Jack Black; 3, Forbes Thompson.

Boys' swim, 12 years and under—1, Douglas Drake; 2, Jack Goulnlock; 3, Hugh Winslow.

Girls' swim, 12 years and under—1, Marie Hall; 2, Julia Bridger; 3, Eleanor Piper.

Boys' swim, 14 years and under—(special)—1, Eric Bradley; 2, Allan Gray; 3, Douglas Smith.

Girls' swim, 16 years and under—1, Ruth Gouinlock; 2, Marie Thompson; 3, Lulu Smith.

Boys' swim 16 years and under—1, Jack Black; 2, Allan Gray; 3, Francis Buck.

Boys' tandem skiff, 16 years and under (special)—1, Spencer Piper and Jack Morris; 2, Jack Thompson and Roland Scott.

When Dr. Julio Prestes, President-Elect of Brazil, arrived in England as the guest of the British Government, he was greeted by the Prince of Wales, Lord Byng of Vimy, Foreign Secretary Henderson and heads of the Army, Navy and Air Force.

NEURITIS?

Neuralgia? Rheumatism?

T-R-C's have brought safe, speedy relief to many sufferers from Neuritis, among them Mr. R. H. Stoner, Arkona, Ont. He writes: "I had been so bad I could hardly bear to get into bed at night. But 3 boxes of Templeton's Rheumatic Capsules made me entirely better." Equally good for Neuralgia, Rheumatism, Lumbago, Sciatica. No harmful drugs. 50c and $1 at your dealer's. 153

A BOON TO GOLFERS

There is usually a tendency to stiffness on the second day after the game of golf—this is particularly so at the beginning of the season . . . and unless you safeguard yourself against this tendency, you are liable to experience considerable discomfort for several days.

Anticipate this stiffness by giving yourself a thorough rub-down immediately after the game with Absorbine, Jr. This famous antiseptic liniment will arouse circulation, break up congestion and bring your muscles into proper condition again.

Keep a bottle of Absorbine, Jr., always handy in your locker at the golf club . . . and use it freely after your shower . . . it will soothe and refresh sore, overworked muscles and tired, aching feet. Absorbine, Jr., is not greasy and does not stain the skin. At all druggist's—$1.25 per bottle. 134

HYDRO POWER FOR HOARDS LINE SOON

Expect to Run to Wellman's Within Next Few Weeks—Healy Falls Also.

CAMPBELLFORD, August 9 (Examiner Staff Correspondence). — Hydro extensions are being carried out with rapidity in the Campbellford district. On the Hoards Line several people have signed up for power, and it is expected that the line will reach Wellman's before many weeks, and that the power will be served to the people. Those who have expressed a wish for the Hydro on this line are: R. S. Craighead, Neil Third, John Rannie, Mr. Todd. Mr. Thaine, Archie Ingram, Garnet Donald, and Clifford Clancy. It is anticipated that when Wellman's is reached several people there will take advantage of the service. G. A. Ironside is in charge of these extensions.

Arrangements are also being made to serve power to Healey Falls. On this line Stan. Keller, Dan Petherick, and Mr. Rowe will be served, and several of the cottagers, including Dr. H. O. Richardson.

RADIO PROGRAM

SUNDAY FEATURES

12.30—Pro-Art String Quartet — CKGW with NBC.
1.00—Southland Sketches—CKGW with NBC.
1.00—Palace Pier Hour—CKNC.
1.00—The Pilgrims—WGR with NBC.
1.30—Neapolitan Nights — CKGW with NBC.
2.00—Metropolitan Echoes — WEAF Network.
2.00—Roxy Symphony Concert — CKGW with NBC.
2.00—Ann Leaf at the Organ—CBS Chain.
3.00—Harvey Robb, Organ Recital—CPRY.

WOMEN'S INSTITUTE WEEKLY COLUMN

A goodly thing it is to meet
In Friendship's circle bright,
Where nothing stains the pleasure sweet,
Or dims the radiant light.
No unkind word our lips shall tase,
No envy sour the mind,
But each shall seek the common weal,
The good of all mankind

MILLBROOK

"Short Cuts in Dishwashing" was a live topic discussed at one Institute meeting, several workable suggestions being obtained. One member, who lives on a farm, and has no help in the house, explained that her first care, especially when she has a number of men for dinner, is to see that there is a good supply of hot water on hand when the meal is concluded. Either in the kettle, or reservoir, or preferably in both, water is well heated, and this lady declared her plan to be washing the pots and pans first; someone objected that this wasted water, as these articles may be washed in the water that had been used for other dishes. However the speaker asserted her preference for disposing of the hardest task of the dishwashing in the first instance, then placing the dishes in a wire strainer, pouring boiling water over them freely, and letting stand to dry—no drying by hand necessary, except for the glasses and cutlery. This method was described as a real labor saver, and a number decided they would give it a trial next time the dishes were piled high following a meal.

A dish mop was advocated by several, and also the use of a wire dish mop for cleansing pans and kettles as it readily removes particles of food that have stuck, porridge for instance; putting cold water in untensils that have been used to cook eggs, or in which milk and flour have been used in the cooking process, was stressed by the president of the branch, as hot water only sets the scrapings left on bottom and side of the vessel, while hot water is the thing to use in soaking dishes in which have been cooked fat or sugar mixtures, and a little washing-soda, or household ammonia, will help in dissolving the grease.

Activities in the late spring months of one branch included a Father and Son banquet for the Troop of Boy Scouts of the community, and their Dads. It has been repeatedly emphasized that Institutes in any community where the Scouts are already organized should be alive to their opportunity of helpfulness through this outlet. In other communities where the boys have not been interested in this organization, or at least have not had a Scout Troop brought into existence, the Institute should feel a responsibility in the matter and lining up of the boy life in this fine work. Financial aid may be all that is needed, or possibly a leader must be sought, and the women belonging to an Institute branch are declared to be the ones most capable of securing the necessary information as to duties, etc., and then finding the man 'to fit the job.'

"If you have a banquet for your Boy Scouts," says one secretary, "be sure and let the boys themselves look after the toast list, and have some well known leader of boys to give the address of the evening."

"If you have not enough girls to form a Junior Institute," writes one experienced worker, "take those you have into the parent society, and let them work on committees; they will gain experience and information, and in turn will prove an inspiration to the older folk to do their best, when they know they are being watched and lessons mentally jotted down in youthful consciousness. Let the girls have a real part in the Institute's section at the fall fair—they will look after displaying the exhibits, tastefully, and will appreciate having a section to themselves where their own work will be shown, and they will be shown, and they will have, as competitors, only those of their own age. Give them a definite part on each monthly program, and they will not fail to meet requirements."

CAVAN.

British Columbia Women's Institutes have always been interested in promoting the buying of home products. This was shown in a very material way of getting behind "A Buy in British Columbia Week", in a series of campaigns in various parts of the province, undertaken through the co-operation of the manufacturers and producers, distributors, retailers and press of the province.

In many places the Women's Institute was largely instrumental in arousing local interest in the merchants and purchasing public. This they did by offering prizes for the best window displays of B.C. products, by supporting expert speakers on this subject and urging upon all members and women shoppers to buy at home first.

Ontario Institutes advocate the advisability of buying at home, but so far no organized general effort has been made along this line.

Alberta Women's Institutes are sending a public health exhibit, in charge of Mrs. Wellington Huyck of Strome, this to be a part of the exhibit of the Federated Women's Institutes of Canada at the Canadian National Exhibition in Toronto, August 22 to September 6, 1930.

For the past two years Nova Scotia Women's Institute have been conducting handicraft exchanges where home-made articles were received and sold on commission during the tourist season.

Realizing that this activity is worthy of a larger field, a Home Industries Division has been created in the Department of Agriculture in charge of Miss Bertha F. Dian.

Although Ontario is where the Women's Institute originated the other provinces are keeping well up in Institute activities.

WARSAW

As a very necessary theme, little emergencies come into most homemaker's lives. It is in this as in so many other things, the little things neglected that count, and do mischief. In our nursing classes, which while well attended, cannot be attended by all, we are told of certain supplies to keep always on hand and out of children's reach.

Stings of insects, principally bees and wasps are very common. Almost any alkali will give relief, but it should be applied at once if possible. Many use a solution of epsom salts. A paste of soda applied and kept moist will generally give relief. If nothing is at hand, moisten a little of the earth and apply it.

Scratches from rusted iron, nails, should always be cleaned at once, and a little iodine or turpentine applied. An abrasion, especially one from boards or earth near barns, and that where horses are, may easily cause lock-jaw, and should at once be cleansed and iodine or turpentine applied.

It will not hurt to let a wound bleed, unless it is too profuse, for bleeding helps carry off infection. The little scratches that do not bleed are often more dangerous.

For bathing wounds use either very hot (as hot as can be endured) or very cold water, some doctors say one and some the other. Both tend to stop the flow of blood and reduce inflammation. Do not use tepid water, as that keeps up the flow of blood, keeps it from coagulating.

Nose-bleed sometimes relieves headache, but generally should be stopped. Hold the head back, apply cold to the back of the neck. A very simple and in ordinary cases efficacious remedy is to press a piece of folded paper up under the upper lip. It may be necessary to plug the nose with cotton soaked in lemon juice or sprinkled with tannic acid and if persistent it may be necessary to call a doctor. If nose-bleed occurs frequently and is at all profuse, there is usually some wrong condition and it is wise to see the doctor. If carbolic acid is accidentally spilled over the skin, apply vinegar or lemon juice, if no vinegar is near. An old hospital treatment was whiskey or any thirty to fifty per cent solution of alcohol. In making solutions of carbolic acid even just to dip instruments, always use hot water and shake. No matter how you shake carbolic in cold water there are sure to be little globules of the acid and these burn, even if on instruments. The best way to sterilize instruments is to boil for three minutes and use. A faint lasting only a short time is just nature's way of helping.

Just be advised, those who do keep alcohol in the house, and do not rush to give it to any and every one who suddenly becomes unconscious, when you do not know the cause. It may already be too much blood on the brain and alcohol increases the trouble. Aromatic spirits of ammonia should be in every house, and from half to three quarters of a teaspoon ful in warm water will relieve a faint feeling.

If a poison has been swallowed get the doctor, quick, but you can always give mustard stirred up in warm water to induce vomiting unless it is some corrosive stuff, such as lye, then give grease, any kind, lard, dripping, butter, but without salt if possible; the grease forms a soap, and vinegar or any other mild acid, lemon juice, is an antidote.

If a wood-tick be imbedded in the flesh, salt or turpentine will usually make it back out, but if you have just noticed something itchy, and the thing has been there a day or so, until it is dead, do not try to get it out, even with a sterilized instrument, for you will break the insect and cause infection, get a doctor, or go to one. Keep a supply of bandages, clean gauze or boiled and dried in the oven clean white rags, packed in a boiled gem jar, for emergency dressings, and keep special scissors, needle, thread and finger stalls on hand.

BETHANY

Mrs. H. C. Darroch, of Toronto was a guest at Mrs. Foster's on Wednesday. She was accompanied by her son, St. Clair and Miss Beatrice.

Miss Edna Lowery spent the week-end with her aunt, Mrs. Thomas Lowery, Tenth Line.

Mr. and Mrs. William Davis are spending a few days with their daughter, Mrs. Harry Rogers, Lindsay.

Dr. and Mrs. Biglow, of Edgar, Ontario, are visiting the former's father Mr. William Biglow and other friends in the village.

Miss Marjory Bell, of Toronto is a guest of her uncle, Mr. Elmer Rowan, Tenth Line.

Miss Marjory Werry, Fleetwood, is visiting at the home of Mrs. James McKinley.

Miss McKinley, went on the C.P.R. excursion on Thurday.

Mr. Howard Bell is spending a week's vacation with friends in the village.

Mr. and Mrs. Harry Rogers, of Lindsay called on friends in the village on Tuesday.

Miss Pauline Thorndyke is a guest of her aunt, Mrs. Claude Porteous.

Public employment exchange registers in Russia have the names of 1,235,000 persons seeking work.

Motors Through 'Quake District Unharmed

Miss Betty Plaxton, who with her sister, Eldred, was travelling by motor car in the vicinity of Naples on the day of the earthquake, wired her parents, Mr. and Mrs. G. Gordon Plaxton, Toronto, that they had escaped any mishap in the catastrophe which took many lives last week.

GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to children. The complaints of that season, which are cholera infantum, colic, diarrhoea, and dysentery, come on so quickly that often a little one is beyond aid before the mother realizes he is ill. The mother must be on her guard to prevent these troubles, or if they do come on suddenly to banish them. No other medicine is of such aid to mothers during hot weather as Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

WIRES ARE SENT R-100 OFFICIALS

Peterborough Chamber of Commerce Endeavoring to Have Liner Pass Over City.

COURSE UNDECIDED

No efforts to have the R-100, giant British air liner pass over Peterborough on its way to Toronto early Monday morning are being spared by the Chamber of Commerce. Wires have been sent to the dirigible's commanding officers, Government officials and representatives from this district and answers as to decision of the dirigible's course are awaited.

The following are copies of the telegrams sent:

Peterborough, Aug. 8, 1930
Major G. H. Scott, Commander, R-100
St. Hubert Airport, Que.
(Same sent to Sir Dennistoun Burney, Royal York Hotel, Toronto)

City of Peterborough enthusiastic over epoch making flight R-100, sends felicitations. To stimulate interest in our airfield could assurance be had your ship will hover over this city en route, Ottawa and Toronto. We are on direct line and only short inland loop, Montreal-Toronto. Favorable decision anxiously awaited by this city which is tenth in industry in Ontario, having many British connections and named after Cathedral City, England. Signed FRANK G. STINSON, Mgr.
Chamber of Commerce

Copy of wire sent to the Hon. R. B. Bennett and Hon. Hugh Guthrie.
E. A. Peck, M. P.
Mayor Denne,
J. F. Strickland, M. P. P.

Press comment mentions possibility R-100 passing over Peterborough, August 8th. Passengers no doubt would appreciate seeing from the air Ontario's tenth industrial city, picturesquely set off by the Kawartha Lakes. Could assurance be given that dirigible would be visible. We are in direct line Ottawa-Toronto, very short loop Montreal-Toronto. Appreciate your influence and advice.
Signed, FRANK G. STINSON

AT BONARLAW.

Mr. Gauphin entertained a number of his friends at an At Home dance at his cottage, Cedar View, at Alan's Mills on Wednesday evening. A three-piece orchestra was in attendance and a most enjoyable evening was spent, during which dainty refreshments were served.

That Body of Yours

By James W. Barton, M.D.

DRUGS TO REDUCE WEIGHT.

It is unfortunate that so many overweight individuals have heard of the thyroid treatment for reducing weight.

After trying the sytem of takin a little less food daily they have found it irksome and have naturally longed for a method that would not be so hard to undergo.

Accordingly they have learned from a friend who got the prescription from a physician, the dose of thyroid extract that is considered safe, and they have tried it on themselves.

The results have been distressing in some cases, and almost disastrous in others, because as a matter of fact there isn't more than one in a hundred cases of overweight, that can be classified as due to lack of thyroid extract in the system.

In fact Drs. Newburgh Johnson and Falcon-Lesses, Ann Arbor, Mich., are certain that overweight is never directly caused by lack of thyroid action but that it is always due to food habits not adjusted to the tissue requirement of the individual either by eating more food than is normally needed or failure to reduce the food intake despite the fact that their bodies show that less food should be eaten.

And even in the cases where it would seem that thyroid extract should be used always overweight, great increase at age of puberty—research men are now finding that the thyroid extract-thyroidin obtained from anima ls—is effective in the treatment of overweight only in combination with a reduced diet also.

This business of thinking they can eat what they like whilst taking the thyroidin, is the cause of many of the failures of these overweight cases.

Even with reduction of intake of food, and the use of thyroidin, the safe treatment is to reduce the food gradually for a few weeks before starting the use of the extract. Even where the reduction is progressing favorably, thyroidin should not be given for more than a month at any one time, and always under supervision.

Now if the use of drugs or extracts for reducing weight is only suitable about once in a hundred cases, and even in these cases food reduction should be a part of the treatment, it does look as if cutting down gradually on the food intake and increasing the exercise was the only common sense method of reducing weight.

Other methods are unsatisfactory and may be unsafe.

To The Sine Family

Here comes the Sine family in reunion to-day
To answer the call to the young and the gay.
The call is insistent who dare disobey
When a clan is called forth into battle array.

To Stirling in Scotland the clansmen all flew
When Bobby or Wallace the blast loudly blew;
From cavern or mountain, from glen or from plain
Each man in his tartan sprang up to his name.

So here at the call to Stirling we're come
From near and from far back to the old home;
To answer the roll, the Sine clan comes forth
From the East and the West, from South and the North.

From the farm and the workshop,
From profession and trade,
From the high to the low,
From the medium to grade.

All here except some are frail or perhaps blind,
With others who were longed not to be left behind.
'Tis a great name we hold, we all will agree;
No Sine ever thought from that name to be free.

'Tis true that the girls have assumed other names
Which are not half as nice, but there are other claims.
'Tis a sign of good times to own such a name
For Sine is a name that sometimes brings fame.

Not always, you say, and correct you will be,
For I warrant some black sheep sometimes you will see.
They are not here to-day, you can tell at a glance,
Unless to this gathering they've wandered by chance.

—Written on the occasion of the families' first re-union, held recently in Stirling.

MOTHERS now learn value of MAGNESIA

Because it is so helpful in keeping babies and children healthy and happy, every mother should know about Phillips Milk of Magnesia.

This harmless, almost tasteless preparation is most effective in relieving those symptoms of babies and children generally caused by souring food in the little digestive tract, such as sour-belching, frequent vomiting, feverishness, colic. As a mild laxative, it acts gently, but certainly, to open the little bowels in constipation, colds, children's diseases.

A teaspoonful of Phillips Milk of Magnesia does the work of half a pint of lime water in neutralising cow's milk for infant feeding, and preventing hard curds. Its many uses for mother and child are fully explained in the interesting book, "Useful Information." It will be sent you, FREE. Write The Chas. H. Phillips Chemical Co., Windsor, Ont.

In buying, be sure to get genuine Phillips Milk of Magnesia. Doctors have prescribed it for over 50 years.

PEOPLE "ALL NERVES"

What to Do if You Find Yourself in This Condition

The sort of thing that specialists call nervous debility is the run-down condition caused by over-work and household worries. The sufferers find themselves tired, low-spirited, and unable to keep their mind on anything. Any sudden noise startles and sets the heart palpitating violently. They cannot sleep well at night; their hands tremble and legs seem unable to support them. Such a condition is indeed pitiable.

Doctoring the nerves with sedatives is a terrible mistake. The only real nerve tonic is a supply of good red blood. Therefore the treatment for nervousness and run-down health is Dr. Williams' Pink Pills, which promptly build up and enrich the blood. The revived appetite, the strengthened nerves, improved spirits and new strength which come after a course of these pills will delight every sufferer.

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Mr. and Mrs. Hilliard S. Strong announce the engagement of their only daughter, Verna Eleanor Bernice, to Mr. Norman Donald Sidey, eldest son of Mr. and Mrs. Frederick Sidey of Bewdley—marriage to take place at "Strong Holme," Provincial Highway, early in September.

• • •

Miss Gladys Walsh arrived this week from Chicago to spend the next two weeks with Miss Mary Kerr, Parnell Street, before returning to her home in North Dakota.

• • •

Mr. and Mrs. Joseph Meagher, Aylmer Street, have rented Mr. Fowler's cottage, "Ne'er a Care," on Chemong Lake, for the month of August.

• • •

Mr. and Mrs. W. P. McGeachie, of Sault Ste. Marie, are the guests of Mrs. McGeachie's mother here. They are leaving shortly for St. Catharines to visit Mr. McGeachie's old home.

• • •

Miss Shirley Shearsmith of Hamilton is assisting in management at the Y Camp, Stoney Lake, during the month of August.

• • •

The Hon. Ambrose Verney-Cave spent the week-end with Mr. Harry Grubbe at his island in Upper Stoney Lake.

• • •

Miss Ila Pattenden of 512 Armour Road left this week to visit relatives and friends in Toronto.

• • •

Mr. and Mrs. Carlton Shults (formerly Mrs. Dick Henderson of this city) motored from their home in Detroit, by way of New York and Montreal, to visit Mr. and Mrs. W. H. Roberts, Park Street. On their return to Detroit, they will be accompanied by Mrs. Roberts and her daughters Audrey and Norma.

• • •

Miss Peggy Taylor entertained twenty friends on Thursday evening at the home of her mother, Mrs. G. Nimmons, Park Street, in honor of Mrs. Alexander Beggs (formerly Miss Ann Montgomery), whose marriage took place last week. The guests came with many useful and pretty gifts for the kitchen, which were hidden all over the house and the bride had the pleasure of hunting them and reading aloud the good wishes and advice enclosed. The evening was spent in music and contests. Dainty refreshments were served by Mrs. Nimmons and Miss Taylor, and the evening concluded by inging "For they are jolly good fellows."

• • •

Mr. and Mrs. C. S. Thompson were in Montreal this week, attending the convention of the Canadian Florists' and Gardeners' Association.

• • •

Miss Jessie Glover is the guest of her friend, Miss Ella Meagher, at Chemong Lake.

• • •

Mr. Vincent Hains-Howard left this morning to spend his vacation with relatives and friends in Montreal.

• • •

Mr. and Mrs. J. Herbert Fair of Toronto left to-day for Cameron Lake, after visiting Mr. J. L. Fair, Monaghan Road.

• • •

Mr. and Mrs. Alfred Brisco and sons, Roy and Reggie, of Walkerville, are guests of Mr. and Mrs. A. Brisco, Junior, of 8 Cottesmore Avenue.

• • •

Mrs. L. C. Deyell, Conger Street, who is leaving shortly to reside in Toronto, was presented this week with a dainty pendant and chain by the members of the Home and School Association of the Queen Alexandra School. Mrs. Deyell has been the efficient secretary of the society during the past three years.

• • •

Mr. and Mrs. Dick Simons, who have been visiting relatives in the city, left yesterday morning for New York City. They were accompanied by Miss Lillian Simons, R.N., who will visit them and Mr. Danny Simons, who is playing in vaudeville in New York City.

• • •

Mr. J. S. McGiffin attended the thirty-third annual convention in Montreal this week of the Canadian Florists' and Gardeners' Association.

• • •

Miss Marie Ryan and Master Thomas Ryan, of Hamilton, are guests of their aunt, Mrs. J. A. Sharp, Homewood avenue.

• • •

Registered at Camp Inglestane, Eagle Mount Island, Stoney Lake, this week, are the following: Mrs. C. Kidd, Mrs. E. Porter, Mrs. E. McKinstry, the Misses Ingram, Hill, Violet Davidson, Gwen Sorby, Margaret Rogers, B. Bolster, Grace Caddy, Nadine Cooper, Frances Legon, Connie Legon, L. Elliott, all of Peterborough; the Misses Anna Jones, Edna Smethurst, V. McGregor, G. Murray, E. Tribe, O. Hackman, L. Davey, Ada Bradshaw, M. Thompson, E. Lyons, M. Brace, E. Street, all of Hamilton; the Misses S. Porter, A. Ross, Murray, McVicar, McCorkindale, all of London; Miss M. Payne of Lakefield and Mrs. E. S. Davidson of Brantford.

• • •

Mrs. Harry Peters and two children, of Oshawa, are spending the week-end with Mrs. Peters' parents, Mr. and Mrs. C. Genge, Donegal street.

• • •

Mr. John Scott and Mr. Jack Harrott of Toronto ares pending their holidays with Mr. Harry Grubbe at Hazelwood Lodge, Eels Creek, Upper Stoney Lake.

• • •

Miss Audrey Lovegrove of Toronto is visiting Miss Rita Jones at McCracken's Landing.

• • •

Mr. and Mrs. H. B. Cowan attended the 33rd annual convention of the Canadian Florists' and Gardeners' Association, held at the Windsor Hotel, Montreal, this week.

• • •

Mr. and Mrs. Fred Elliott and family, Bolivar street, have taken Mr. Fowler's cottage, "I Be Inn," on Chemong Lake, for a fortnight.

• • •

Mr. and Mrs. W. L. Anderson, with Phyllis and David, of Ottawa, were recent guests of Mrs. E. W. Coon, Aylmer street.

• • •

Mrs. G. Webb, Aylmer street, entertained this week at a pantry shower given in honor of Miss Lillian Naish, a bride-elect of the month. A pleasant evening was spent in the enjoyment of games and music, followed by the service of dainty refreshments.

• • •

Mr. G. P. Lull of Brandford, Pa., will be guest soloist at Trinity United Church to-morrow morning.

• • •

Mr. Edward Ryan of Hamilton is visiting his cousin, Mrs. T. J. Dineen, Dublin street.

• • •

Miss Mary Sue Nixon, Reir street, left this morning to spend a week at Beaumaris, Muskoka.

• • •

Mr. and Mrs. White of Pittsburg, Pa., are in Mr. G. H. Roper's cottage at Chemong Park.

• • •

Mr. W. J. Routley celebrates a birthday anniversary to-day.

• • •

Miss Lottie Beatty, Homewood avenue, is spending her vacation at Port Carling House, Muskoka.

• • •

Mrs. Joseph Spencely and daughter Doreen, of 427 Brock street, have returned home after spending six weeks' vacation with friends in Temagami.

• • •

The Misses Kathleen and Dorothy Roach, 581 Elm street, left this week by motor to visit their aunt and uncle, Mr. and Mrs. W. J. Hickey of Welland.

• • •

Miss Delia Corbin, Western avenue, returned home last evening after spending the past three weeks at the Lake of Bays, Muskoka.

• • •

Mr. and Mrs. Joseph Meagher, Aylmer street, were in Toronto for the first High Mass celebrated by the Rev. S. Coffey, who returned from Rome last week and celebrated his first High Mass at his father's parish church, Corpus Christi.

• • •

Mr. and Mrs. J. J. Callaghan of 19 Lansdowne street left this week on a motor trip to Quebec and Vermont.

• • •

Mrs. J. Ward, McGill street was hostess last evening at a miscellaneous shower given in honour of Miss Lillian Naish whose marriage to Mr. L. Gandy of Galt takes place this month. The gifts were presented in a cradle decorated with pink crepe paper and brought in by the bride's mother, Mrs. W. Naish, dressas an old-fashioned bride, and Mrs. G. Webb, attired as an old-time bridegroom. The evening was pleasantly spent in playing games, after which a dainty lunch was served.

• • •

Mr. and Mrs. Horace Coon and son Charles, of Galt have returned home after visiting the former's mother, Mrs. E. W. Coon of 589 Aylmer street, who returned with them to Galt for a short visit.

• • •

Miss Linden Hall is spending a week with Mrs. R. M. Waddell at "Echo Lodge" Stoney Lake.

• • •

Mr. B Boucher has returned to Simcoe, Ontario, to resume his duties with the Bank of Montreal there, after spending the past two weeks with Mr. and Mrs. George B. Boucher.

• • •

Mr. and Mrs. John Brightman and family, Rubidge street, spent a day this week with Mr. and Mrs. Fred Elliott at Chemong Lake.

• • •

Dr. J. M. McCulloch and his daughter, Miss Margaret McCulloch, left today for a trip to the British Columbia coast.

• • •

Miss Bernice Bacon of the Brinton Carpet staff is spending her vacation in New York.

• • •

Miss Jean Cox of the Brinton Carpet staff and Miss Faith Boorman are spending their vacation at "Robin's Nest" Jackson's Point.

• • •

Mr. Daniel J. Bolton, a former employee of The Examiner, and daughter Catherine of Toledo, Ohio, are visiting with Mr. P. Bolton, 249 Lake Street.

• • •

Mrs. M. L. Dobbin, of Lindsay, was a recent visitor at the home of Mrs. E. W. Coon, 599 Aylmer Street.

• • •

Dr. and Mrs. E. H. Wood and family have returned to the city from Chemong Park.

• • •

Miss Jean Ray entertained at the tea hour on Thursday afternoon at the summer home of her parents, Mr. and Mrs. F. L. Ray, at Chemong Park, for Miss Margaret McCulloch, who left to-day with her father, Dr. J. M. McCulloch, for a trip to the coast. Miss Ray was assisted in receiving her guests by her mother. Miss Margaret McCulloch poured tea, assisted by the Misses Mary Westbye, Mildred Morphet and Jane Macdonald. The table was done very attractively with a lace cloth centred by a large glass bowl filled with water lilies. The guests were summer residents at the Park and from Peterborough: The Misses Dorothy Foster, Barbara Foster, Betty Hopwood, Nancy Hopwood, Marcelle McNulty, Marjorie McNulty, Adele Broadhurst of Toronto, Ruth Kerr of Toronto, Edith Culcheth, Anne Golding of Toronto and her guest, Miss Turnbull of Toronto, Mary Mcfarlane of Toronto, Margaret Warne, Muriel Wilson, Zetta Nixon, Eleanor Stacey, Jean McKone, Arleigh McKone, Edythe Cottrell, Isabel Cragg, Helen Thompson, Isabel Weddell, Dorothy White of Pittsburgh, Jean Harvey, Marion Harvey, and Jean Robinson.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

SUITING flowers to houses and rooms is one of the pleasant decorative possibilities during the summer when flowers grow in profusion.

• • • • • • •

One unusual old house has blinds painted blue, the shade of which precisely matches the great hydrangea blossoms that skirt the wide flagged piazza before the house.

• • • • • • •

The effect is one of stately comeliness. While this is undoubtedly the planning of some fine landscape architect, it indicates what can be done by well-thought-out schemes begun in a previous Fall or Spring.

• • • • • • •

Of course, it is too late to introduce such a plan this season, but it is suggestive for coming years. Not, of course, that this would be the particular scheme followed, but it indicates the plan of suiting plants to color of a residence or the color of a residence to the flowers one intends to feature about a place.

• • • • • • •

Great beds of scarlet sage along the front of a white house with her painted trimmings supply a charm of symmetry in such decoration.

• • • • • •

Another interesting scheme is to have pink rambler roses on trellises against a house through the windows of which are glimpsed dainty pink curtains with their ruffled edges looped back. The trim of the house should be bottle green to bring out the pink color notes in sharp contrast.

• • • • • •

For the present season we can develop this idea of suiting color of flowers to interiors rather than to exteriors. One country residence about which tiger lilies are features has the north living room quaintly curtained in old chintz, in which a like tone is the background for white figures of a simple pattern.

• • • • • •

The blooming season for tiger lilies is long where this house is ar during that time the lilies are kept in profusion about the room, and the unusual hue of the textile and the hangings gives a trim character to the room.

• • • • • •

In a room that is rather drab in character, either because of its exposure or its decoration bright scarlet geraniums or nasturtions lend zest. A few notes of such color can be struck with a cushion cover and some bit of montone ceramic.

• • • • • •

There are endless pinks, yellow and purple flowers to be used in rooms in which such colors are stressed. The blossoms do not have to be used solely. Often the tone is made more distinctive by combining the flowers having the right hue, with white blossoms or with those of a neutral tone, or migonette or by having one or two sprays of some constrasting color.

Two Canadian Lady Sharpshooters at O.R.A. Meet at Long Branch

Here are shown two women sharpshooters at the O.R.A. meet at Long Branch, Ont., now under way. Left—Mrs. J. N. Dow, St. John, N.B., who made a possible of 35 in Lieutenant-Governor's match at 300 yards. Mrs. Dow was at Bisley this year. Right—Mrs. A. Sangster of Winnipeg, who is upholding the reputation of her sex with a good score.

OLD NASSAU MILL WAS CHALLENGER IN EARLY DAYS

Perry's Mill Had Capacity of 60,000 Feet in 24 Hours.

180,000 FEET IN DAY

Many Active Sawmills Were Situated on the Otonabee in the Sixties.

By F. H. Dobbin

It may be of interest to look at the roll of saw mills in operation in and about Peterborough, taking the year 1858 as the time. The number was added to during the ten years following. The quantities of lumber as cut by these mills are in the main, (in cases of those of smaller capacity,) estimates, which were made at the time the writer composed the list. While the output from the individual mills may not seem large, and want of capital precluded extensive equipment for the operations in sight, yet these plants were cutting, often both day and night and in the aggregate production was large. In addition there were mills at Eagle Lake, in Harvey township, at Buckhorn and at the head of Stoney Lake. Add the square timber manufactured and exported from these waters and a grand total of rather astonishing proportions would be gained.

The Daddy of Them All.

Nassau Mill (Chas. Perry) located two miles above Peterborough, was said to be the largest and most complete in the province of Ontario. This plant had a standing challenge to cut against any mill in Upper Canada, which challenge was never answered. The capacity, as demonstrated, was 180,000 feet in twenty-four hours.

Perry't mill (E. Perry & Co.) was on the east side of the river Otonabee at a point afterwards taken for the waterworks dam. It had one hundred saws in all and an average production of 60,000 ft. in twenty-four hours.

Snyder's mill was on the west side of the river on the same dam and was similar in equipment to Perry's mill. The capacity was 65,000 ft. in twenty-four hours.

Along the Otonabee River.

Blythe mill (George Hilliard) was on the west side of the river, using the dam now known as the Auburn dam. It had thirty-six saws and also shingle machines and cut 20,000 ft. per day of 12 hours. The original owner was James Bird. Afterwards the mill came into hands of Mr. Hilliard.

Dickson's steam mill on Little Lake was equipped for lumber sawing and special sizes of marketable timber, joists, beams, etc. The capacity was 50,000 ft. per day.

Dickson's mill on the west side of the river on Hall dam, carried Yankee gangs, etc. Its specialty was prime boards for the American market and its capacity was 50,000 feet per day. Another Dickson mill was on the east side of the Hall dam and 28,000 ft. per day was the capacity. Dickson's custom mill on the west side of the river, sawed dimension timbers, joists, ship timbers, etc. to the extent of 30,000 ft. per day.

Roger's mill was on the east side of the river, at Otonabee bridge and equipped with circular saws. It confined its operations to logs of moderate size. 15,000 ft. per day was the output.

McDougall & Ludgate mill, on the shore of Little Lake, was steam driven and destroyed by fire in 1868. This firm afterwards re-built at Harwood on Rice Lake to take advantage of better shipping facilities, via Cobourg by rail and boats across Lake Ontario. Capacity 55,000 ft. per day.

Other Active Plants

Boswell's mill was situated on the east side of the river (opposite Inverlea Park) on a dam known afterwards as Martyn's dam. The capacity was 23,000 ft. per day.

Scott's mill (W. A. Scott) cut from limits about Chemong and Buckhorn lakes. It had steam power and a production of 300,000 ft. during the summer months.

Scott's mill, on Eagle Lake, was water and steam driven, cutting from limits in Harvey township and territory in Galway. This mill had an output of over 4,000,000 ft. in the season.

Bobcaygeon mills (Mossom Boyd) drew their supply of logs from the shores of Pigeon and Sturgeon lakes, Big Island, the Burnt river district and limits to the north. The first mill had a capacity of 20,000 ft. per day and was afterwards rebuilt, enlarged and equipped to turn out as much as 110,000 ft. in twenty-four hours.

Shaw's mill, at Lakefield, when running at full capacity, cut 45,000 ft. per day. Strickland's mill also at Lakefield, sawed from limits to the north and surrounding Stony Lake and in the township of Dummer. Production exceeded 50,000 ft. per day and the mill made a specialty of dimension timber.

First Automatic Shingle Machine.

Allandale mill (Thomas Short) was on the Indian river, near Keene, Ont., with steam power as a reserve and had an output of 20,000 ft. per day. This mill introduced the first improved automatic machine for cutting shingles which was capable of delivering from 40 to 60 shingles per minute. The steam engine in this mill was brought out from Glasgow, Scotland, and being of the marine or walking-beam type, was later bought by Harry Calcutt and placed in the steamer "Golden Eye", to ply on the waters of the Otonabee river.

Kelly's mill was at Bridgenorth, on Chemong lake and had steam power, cutting about 500,000 ft. during the summer season. This mill, or its successor, is still in service.

Hastings mill (Fowlds & Co.) used power from the fall at this point at the end of Rice lake and cut 14,000 ft. per day.

In addition the following may be summarized. Norwood mill (P. M. Grover) 4,000 ft. per day; Seawright's mill, on Round Lake, township of Belmont, 4,000 ft. per day. Breakenridge mill, also in Belmont, lot 18, con. 8, 5,000 ft.; Holcomb's mill, lot 12, con. W. Belmont, 2,000 ft.; Pearce's mill, lot 6 ,con. 9, 2,000 ft., and Holbrooke's mill, lot 4, con. 8, 3,000 ft., both in Belmont township; Grover's mill, about one mile from Norwood, served a local custom trade and cut 4,000 ft.

Smaller Mills in Townships.

Scattered about in the townships adjoining were many smaller mills, all contributing to the aggregate output. Among these were the Westwood mill turning out 4,000 ft.; Ewing's mill, on lot 4, con. 2, Asphodel, with 15,000 ft.; Pyne's ,Ritchie's, Choate's, Buck's and Carveth's mills, all in Dummer township, with a combined capacity of 12,000 ft.; Ferrier & Sawyer's mill in Douro, with 5,000 ft. per day.

Along the borders of the adjoining counties to the east and west were a large number of sawmills. The same condition existed to the south, even down as far as the shore of Lake Ontario. In the aggregate they consumed larger quantities of logs and many did a custom trade, cutting from logs drawn to the yards by farmers, the product being used for local purposes.

In the Square Timber Days.

A section of Central Ontario was the scene of most extensive operation in the production of sawn lumber and bringing out square timber for commercial use and export. The territory covered was originally a part of the Newcastle district, in after years to be parcelled as a portion of the Colborne district, and under supervision as the lands judicially governed by authority of the Legislative Council of Upper Canada. Aside from the pioneer uses in the course of agriculture, the large wooded areas became the scene of extensive operations by men who took up the industry and carried on the lumber trade.

During the forties of the last century the Counties of Peterborough and Victoria united for municipal purposes. What became known as the Provincial county of Haliburton and parts of the counties to the East, towards the Ottawa river, and the river Otonabee, the Indian river, within the county and the river Trent, (a continuation of the Otonabee,) formed the means of carrying forest products to such markets as were available.

With the building of the earlier sections of the Grand Trunk Railway, manufacturers of lumber were eager to promote the laying down of rails to give accress to the lake below, and several projects were put on foot. One was from Port Hope, to be known as the Port Hope, Lindsay and Beaverton Railway, forming a link to Lake Simcoe. Another was brom Cobourg to Peterborough, with a rather vague addition to the south-east to reach Belleville. Extension to the north-west was to reach Chemong Lake and to take care of the products from the Mossom Boyd mills, at Bobcaygeon and Fenelon Falls mills.

Early Railway Projects.

During the years 1851-1857 the two projects were completed, though rather crudely and the sawn stock that had been penned in and about Peterborough, began to feed markets eager for lumber and willing to pay reasonable prices, though at Peterborough, good clear lumber could be had for $6.00 per 1,000 feet. A branch line was laid from Millbrook to the town of Peterborough and the latter had at once access to the shores of Lake Ontario. The Cobourg line reached Peterborough over the famous Rice Lake bridge, built on piles across the lake. These piles suffered from the frosts of winter and the depredations of ice in the spring and expired in 1860.

Both Port Hope and Cobourg borrowed money to a liberal extent from the Consolidated Municipal Loan Fund, and improved their lake harbors, built imposing town halls, bothered the governments for lighthouses and municipally helped in the building and buying of fleets of schooners. On such vessels, lumber was shipped across Lake Ontario, principally to Oswego, N.Y., and the south shore of Lake Ontario. All this proved a bonanza to the United States, and immense quantities found storage and market at Albany, N.Y. and Tonawanda, N.Y.

Lumber Hauled by Teams.

Stoney Lake and its accompanying sheet of unobstructed waters are now thronged with countless summer residences but were for years the outflow point for the reservoir of the melting snows, making an annual spring flood. The Otonabee river carried a deep and rapid current. A saw mill was built at Young's Point, the outlet of Clear Lake. Five miles below several mills were erected at Lakefield, where much lumber, from trees of the above limits, was sawn for the Strickland Bros. This lumber was hauled by teams to Peterborough, to be carried by rail to Lake Ontario. From Lakefield to the towns below countless logs were let loose to cover the waters in ceaseless profusion.

Men combined their monies and skill and the flood of cut timber began to flow to the "front". The Nassau mill built and managed by Charles Perry, was esteemed as the finest in Ontario. So well equipped was it that it boasted of cutting 90,000 feet of lumber on a twelve hour shift.x The piling ground covered hundreds of acres, the output being taken care of by teams hauling immense wagons. At moderate distance apart, other large and well equipped mills were erected. Railroad facilities did not reach these mills for several years, so teams of horses and wagons carried on transportation and the streets were thronged day and night.

When Lumberjacks Foregathered.

For nearly thirty years, an army of men gathered in Peterborough as the employing headquarters. The early autumn called in many hundreds to seek the woods and cut all winter the thousands of logs and tote them to the shores of the lakes and banks of streams, ready to slip into the embrace of the current as soon as spring came. Thousands of logs, penned in booms by chains and timbers were the care of men long accustomed to handle this unwieldy floatage. These logs, often forty feet in length, were made into what was known as square timber, hewn to dimensions and bound into "cribs", rigged with sweeps or oars to guide the floating mass through the currents and around watery obstructions. Many men lost their lives amid the perils of the rushing Otonabee. Cribs of timber were piloted to the smooth waters of Rice Lake, and down the torrents of the Trent River, finally to reach Montreal or Quebec, and make their way to England, which eagerly awaited the cargo. From men used to the handling of such freight when on inland waters, Wolsley, who had charge of the Relief of Gordon expedition in Egypt, picked those who enlisted for service up the river Nile in special flat scows made for the service.

Canada Lumberman.

Dancer on Tour

Miss Simonne, Binois, first dancer of the Grand Opera of Paris, France, who arrived in Montreal recently. Miss Bino's will visit Ottawa Toronto, Niagara Falls, Washington and New York before returning to France.

PREDICT TEMPERANCE ACT TO FALL IN NOVA SCOTIA

HALIFAX, N.S., Aug. 9. (C.P.) The Halifax Herald said to-day that August 18 will probably see the passing of the Nova Scotia Temperance Act and the inauguration of the Government Control measure approved by plebiscite and passed by the Legislature. While no official announcement has been made by the Liquor Commission. It is understood that thirty Government liquor stores will open in Noval Scotia on that date.

ANOTHER FEDERAL POLL IS SOUGHT IN PRINCE RUPERT

Allege Outsiders Not on Rupert List Voted There Illegally.

PERJURY CHARGES LAID.

Defeated Tory Candidate Will Seek New Election If Counts Sustained.

VANCOUVER, B.C., August 9 (C. P.). — The Province yesterday published the following despatch from Victoria:

Legal proceedings designed finally to void the recent Federal election in Prince Rupert will get under way there immediately, it is learned here definitely.

"After citizens of Prince Rupert had sworn out information alleging irregularities in the election, Attorney-General Pomley appointed C. G. Beeston of Vancouver, as special prosecutor to handle these cases. Mr. Beeston will proceed immediately to Prince Rupert and take charge of the prosecutions.

Defeated Tory to Act.

"Should the court sustain alleged perjury charges against those who voted in Prince Rupert, agents of J. C. Brady, defeated Conservative candidate, will move immediately to secure a new Federal poll. Application to the courts for such a poll would follow any conviction. Olaf Hanson, Liberal, was returned in the riding at the general election.

"The perjury charges to be tried at Prince Rupert, it was learned, are based on the allegation that outsiders, not on the Prince Rupert list, voted there illegally.

"It was made clear at the Legislative Buildings that the initiative for the prosecutions was taken by Prince Rupert citizens."

WILL START IMMEDIATELY ON TRANS-CANADA HIGHWAY

WINNIPEG, Man., Aug. 9. (C.P.)—An immediate start will be made on the construction of the Manitoba section of the trans-Canada highway, according to W. W. Kennedy, member-elect for Winnipeg southcentre, who arrived home from Ottawa yesterday.

Leafs Lose Final Game Of Series To Reading

H. LAYNE HITS HOME RUN WITH BASES LOADED

International League Race is Tied Up in Series Between Rochester and Baltimore.

ROYALS TRIM ORIOLES.

Reading Forces Red Wings to Go Twelve Innings Before Winning the Game.

NEWARK, N.J., Aug. 9.—The Toronto Leafs suffered their first defeat since they became "Night Hawks" here last night, bowing to the Newark Bears in the final game of the series, 9 to 6. It was Ladies' Night, and a crowd of 7,000, which was made up of 3,000 of the fair sex, saw the Bears triumph on a home run by Harry Layne with the bases full in the sixth inning. That blow, which was Layne's seventeenth homer of the season, spelled finish for Phil Page, and Nick Harrison finished the game.

TORONTO, Aug. 9 (C.P.)—One of those crucial series, so dear to the heart of baseball writers, has arrived in the International League with the Rochester Red Wings invading Baltimore.

As a matter of fact, the series may go a long way toward determining the eventual pennant winner. Rochester, setting the pace for some weeks, now enjoys a lead of six games over the Orioles, who hold second position. If the Red Wings can sweep the series, starting to-day, they will increase their lead to such a margin that all other rivals will find extreme difficulty in overhauling them in the run down the stretch. Baltimore, on the other hand, can retrieve much of their lost ground if they can halt the Red Wings.

Royals Beat Orioles

The full game the Orioles had picked up on the Red Wings on Thursday was lost yesterday as they bowed to Montreal 7—5, while Rochester was trimming Reading, 10—8, in a 12 inning game.

The Orioles made a close fight of it for five innings, pounding Buckalew out of the box with a four-run assault in the fifth that tied the count at 5-all. But they could do nothing with Pomorski, who held them to two hits in four and two-thirds innings and broke the tie with a home run in the sixth. The Royals added another run in the ninth to make their margin safe. Montreal pounded Edwards and Richmond for 13 hits of which Henry got four.

The Reading-Rochester game was a thrilling battle won by a two-run Red Wing uprising in the 12th, Manager Billy Southworth's triple driving in the winning run. It was a nip-and-tuck struggle all the way. Rochester tied the score in the ninth at seven-all and then went in front with one run in the 11th. Manager Bobby Jones of Reading, however, injected himself into the game as a pinch hitter and drove home the tying run in the last half of the 11th with a single. Rochester pounded Warneke for 18 hits in 10 1-3 innings and collected three more off Wench in the last inning and two-thirds. Southworth led the Red Wing attack with five hits, including two doubles and a triple. Irvin and Foreman held Reading to 12 hits of which Stack got four.

Buffalo swamped Jersey City under an 18 to 7 count in a night game at Jersey City, the Bisons slugged out 19 hits of which Moore and Shinners each got four. Jersey City took a four-run lead in the first two innings but the Bisons drove Guise to the showers in the fifth in the midst of an eight-run rally. They reached Pitts for seven more in the eighth.

AT MOUNT JULIAN

The Rev. Mr. and Mrs. Taylor have gone to Picton to spend their holidays.

A former pastor, the Rev. M. F. McTavish and family renewed acquaintances in the village.

Miss Tillie Church has returned to Hamilton, having spent her holidays with her parents, Mr. and Mrs. Allen Church.

Mrs. Wilson is visiting her sister, Mrs. William Matthews.

CHICAGO CUBS DEFEAT BRAVES SIX RUNS TO ONE

Babe Herman Smacks Ball For Two Home Runs, a Double and a Single.

GIANTS GAIN HALF GAME.

Athletics Win Double From Chicago in American League.

NEW YORK, Aug. 9 (C.P.)—Another east-west warfare is on in full blast in the major leagues and if the opening days' results are any criterion then the eastern clubs are due to see their percentage column rise several notches.

Ten games were played in the inter-sectional combat yesterday with the western teams able to salvage only one of the conflicts. The Chicago Cubs kept their section of the country from being completely white washed by defeating the Boston Braves 6 to 1. Home runs by Clarence Blair and Charley Grimm coupled with effective pitching by Guy Bush gave the champions the game. Boston's single run was the result of Walter Berger's twenty-eighth home run.

Cardinals Beaten 11 to 5

It was well that the Cubs did win or they would have found themselves trailing the Robins by still greater margin than three and one-half games. With Babe Herman smacking the ball for two home runs, a double and a single in four times at bat and Glenn Wright and Jake Flowers adding a pair of circuit drives, the league leaders easily downed the St. Louis Cardinals 11 to 5. While the Robins were winning Ray Phelps chalked up his twelfth triumph for the season.

The Giants gained a half-game on the Cubs and Robins when they were called on to play the Pirates twice and won both, the first 9 to 1 and the second 7 to 2. Bill Walker kept the Pirates' eleven hits scattered in the opener, while Carl Hubbell let the Corsairs down with five blows in the nightcap. Lloyd Waner, experiencing his best day at bat since returning to the game, got four hits in five times at bat in the first encounter, but did not play in the second. Home runs by Roettgern, Togan and Comorosky played an important role in the scoring in the second fracas.

Phillies Win 8 to 5

Freddier Brickell, a recent acquisition from the Pirates, played a leading part in the Phillies' 8 to 5 triumph over the Reds. The former Pirate singled and tripled in five times at bat and made a brilliant long running catch of Durocher's drive.

The Athletics found a little trouble at Chicago, whipping the White Sox 5 to 1 and 4 to 1, in a double header and thereby increasing their lead in the American League another half game. Bob Grove hung up his eighteenth victory of the season in the opener as Al. Simmons and Jimmy Dykes drove out home runs. Shores bested Ted Lyons in the last game, letting the Hose down with three hits.

The Washington Senators came from behind to defeat the Cleveland Indians 5 to 4. After spotting the Indians four runs in the first four frames, the Senators kept kicking at Shoffner and Jabgonowski until they took the lead in the eighth on Manush's double and Cronin's fourth hit.

Yankees Win.

George Pipgras and Harry Rice put together some effective hurling and batting, respectively, to give the Yankees a 5-3 decision over the Browns. Pipgras held the Browns hitless for five innings and then gave only five, while Rice accounted for three runs with a single, home run and base on balls.

The Red Sox, aided by a six run rally in the first inning defeated Detroit 8 to 6 to break the Tigers' six-game winning streak. In winning the Sox were forced to put down a four-run rally by the Tigers in the eighth.

Inside Sportin' Dope—By A. Wise Cracker

Stoney Lake, Aug. 6.

Mister Sporting Editor:

Well, Mac, I suppose you and the customers has been anxiously waiting to get the first report on the fishing situation. So far as I am concerned, old-timer, they ain't any. I ain't got no fish myself, and so far I ain't heard of nobody else getting none. You can tell how bad it is when the whole crowd turns out to cheer a bird who comes back with a 6-inch perch, while a catfish is passed all round the islands so the folks can get their pictures took with the sad looking specimen of the finny tribe.

But don't worry about me, neighbors. I'll get along. As long as a guy has his health and good eyesight there's much worse places in the world than Stoney Lake. The scenery is grand, Mac. Every flapper in the place is a sun cure bug, and believe me, if the sun's rays bring health these dames oughta live to be a thousand. And they's not one of them taking a chance on a relapse. So far as I can see the girls is only wearing 2 or 3 things, and 1 of them is a dash of lipstick. When they decide to give Old Sol a chance they don't mess with it—they just go ahead and shed the works.

The regatta up here Mon., Mac, was a gorgeous affair and a big success all round, except for a few darned fools who wanted to look at the races. Most of the folks got a eyeful without casting a glance over the course at all, what with backless bathing suits, beach pajamas and shorts. And when I say shorts, Mac, I mean just that.

I ain't give up the fishing yet, old-timer. You know me, Mac, one of them bulldogs that hangs on to the last gasp, and so you can depend upon yours truly to stick to the ship. Old-timers sez the muskies is losing their teeth just now, so I want to make myself clear that they ain't lost none grabbing at any of the meat and ornate baits I has been towing around in their neighborhood. But to-morrow is another day, so watch for the next bulletin; it may be a surprise to all and sundry.

I see by the papers that the Rays absorbed a bad trimming the 1st game of the Oshawa play-offs. It looks like the lads picked the wrong day and the wrong opposition to toss in their worst exhibition of the season, but mebbe they'll get down to earth in time to save their scalps. Here's hoping anyway.

Well, Mac, they ain't no fish news nor sport news to talk about, so I mighta as well call it a day and take to the water to cool the fevered brow.

Sportfully yours,
A. WISE CRACKER.

CHILDREN'S REGATTA CHEMONG WEDNESDAY

The committee in charge of arrangements for the Junior Regatta to be held at Chemong Park next Wednesday is making especial preparations for this event, which is always interesting to adults and juniors alike.

Features of the program will be the contests for two silver trophies donated by J. F. Strickland, M.P.P. These will be Girls' Single Canoe and Boys' Single Canoe races, both for sixteen years and under.

Two events left over from the Senior Regatta will be included in the Children's Regatta program: Canoe Sailing for the W. H. Bradburn Trophy and Men's Single Canoe race (Chemong Park residents only) for the J. K. Hughes' Cup.

The events will be run off in front of J. K. Hughes' cottage, with Dr. A. W. McPherson as chairman. Other items on the program include boys and girls' single canoe races (12 years and under); boys' single canoe, one for 10 years and under, the other for 8 years and under; girls' swimming race (16 years and under); boys' and girls' swimming races (12 years and under); open sailing race (16 years and under); crab race (16 years and under); mixed tandem canoe (12 years and under); girls' tandem canoe (16 years and under); gunwale race (16 years and under); and one for 14 years and under; mixed fours, pie-plate; boys' tandem canoe (12 years and under), and a pillow fight (14 years and under).

Land races for children under eight years of age will also be run off, with a prize for every contestant.

H. B. HART PROVES A GREAT VAULTER

Breaks South African Record Without Any Effort or Training.

NOW AT HAMILTON

HAMILTON, Aug. 9.—An amusing, and yet significant story, has been circulated here following the arrival of the South African athletes for the British Empire Games here this month. The story concerns one of the greatest athletes South Africa ever sent into competition, H. B. Hart, who will compete here, and Bevel Rudd, winner of the 400 meters at the 1920 Olympiad, relates the anecdote with gusto.

Shortly before the South African team sailed for Canada, the town of Kimberley was holding high carnival to raise funds with which to help out with the expenses of the team. Athletes and others, garbed in fancy dress costumes, were holding up their end in creating "South African whopee" and late in the day, when spirits should have been dimming Hart, who features on the cinder track, calmly announced to the crowd that he would "now jump ten feet six inches in the pole vault." Despite the fact that the sterling athletes is not a pole-vaulter, Hart sailed down the runway, went into action like a champion vaulted, and cleared the bar at twelve feet six inches, breaking the South African record.

No one was more surprised than Hart himself, and the incident failed to induce him to take up the event in a serious way.

SOMERVILLE MEETS PLATT IN FINALS

Philadelphian Defeats Carroll M. Stuart of Montreal in Great Battle.

LONDON, Ont., Aug. 9.—To-day's final play of the Canadian amateur championship will be an international affair between C. Ross Somerville, London, and J. Wood Platt, Philadelphia; Somerville having won his match with J. Raymond Ferguson, Philadelphia, yesterday by the overwhelming count of ten up and nine to go, while Platt triumphed over Carroll M. Stuart, Montreal, after a hard and bitter struggle, four up and three to go.

Somerville was three up at the end of the morning round, gaining a lead of two up at the ninth, and increasing it during the second nine. The London star, who made an epic comeback in the quarter finals yesterday to defeat Frank Connolly, Dearborn, Mich. one up after he had been six down at the twenty-fourth hole, was distinctly 'on his game" to-day, and the gods of luck, too, were by his side.

"Sandy" gained a fourth-hole lead at the end of the second afternoon hole, and he won four more consecutive holes until the pair halved in the eighth. Somerville clinched the match on the ninth which he played in a par four, while Ferguson missed a short putt. Somerville went out in seven pars and two birdies, Somerville's approach shots throughout the round were deadly, while Ferguson's fairway game appeared to have suffered a relapse since his close victory over Fred Hobiltzel, Toronto, by two and one yesterday.

CRESCENTS MEET C.G.E. ON MONDAY

Third Game of Series Will Be Played at Exhibition Park Monday Night.

HARDILL TO PITCH.

Monday evening will be a long time coming for hundreds of fans who became very much warmed up as they watched Canadian Generals and Crescents in Thursday's scrappy contest which, when apparently won by the Crescents, developed into a last frame victory for the Generals by 6 to 5. That was an exhibition of the summer pastime such as the fans delight to follow, and there are more to come.

For Monday night's game, Crescents have Hardill well rested and fit for a hard battle while Canadian Generals are not so good. It is said that Jack Crary is having some trouble with his pitching arm and this particular series is no place for convalescent hurlers. Given a helping hand, Bun Frost is still capable of going back against Crescents and giving them a battle and there remains the possibility of Utronki appearing on the scene again. Its a tight corner for the General's board of strategy.

"Believing that the baseball public is solidly behind them in their efforts to promote the game and enhance Peterborough's standing as an important baseball center, the clubs now playing the East Peterborough League final series decided at a meeting held last night to ask their supporters an admission fee of twenty-five cents for the remaining games" says an official statement from the League." The clubs are taking this action with the approval of the League Executive who, after taking all the circumstances into consideration, are of the opinion that the clubs are not taking advantage of a situation from a selfish standpoint but are making an effort to better equip the winning club so that the best showing possible will be made in the playdowns for the Ontario Intermediate championship. The League Executive and club officials wish to thank the fans for their support this season and are anxious that the confidence of the baseball public be continued."

Sir William Fry, vice-chairman of the council of Dr. Barnado's Homes, a charitable institution for orphans, recently announced in England that only two per cent of the 30,000 Barnado children sent abroad failed to make good.

MAJ. RICHARDSON WINS GOVERNOR GENERAL'S PRIZE

B. C. Rifleman Awarded Gold Medal at Long Branch Ranges.

SCORES 118 OUT OF 120.

Winner Marks Up 10 Bull's Eyes Over Final 900 Yard Range.

LONG BRANCH RIFLE RANGES, Toronto, Ont., Aug. 9 (C.P.)—Major Fred Richardson, of the British Columbia Rifle Club, Victoria, won the first prize gold medal and $50 cash award in the Lieutenant-Governor's Match, according to figures posted on the range score board.

His total was 118 points out of a possible 120 for shooting over the 300, 600 and 900 yard ranges. Over the last range he made a perfect score, marking ten bull's-eyes in succession.

Toronto Man Second

Private F. H. Kirkman of the Toronto Regiment and Lieut. P. R. T. Garnett of the north London Rifle Club, tied for second place honors in the Lieutenant-Governor's match with a score of 117 points over the three ranges. Kirkman made 48 points over the long distance and Garnett, 49.

Mrs. J. N. Dow, St. John, N.B., one of the two women contestants in the matches this year, who tied Pte. Kirkman for first place in the first stage of Lieutenant Governor's match Wednesday fell two points below him to-day, shooting over the 900-yard range.

Up to the second last shot she had a chance of tying Kirkman for second place, but dropped a point with a magpie on her ninth shot and another point with an inner on her tenth. With a total score of 115 points Mrs. Dow tied Lieut. A. C. Carter of the Toronto Regiment and Lieut. Col. Gibson, Toronto, for fourth place.

"I don't know what happened on my last two shots," declared Mrs. Dow. "When I struck the magpie I thought I must have banked over, and then when my next shot went to an inner on the same side of the bull's-eye, I knew I should have made allowance for a change in the wind."

Pte. T. Wilson in Third Place

Third Place honors went to Pte. T. Wilson with a score of 116.

In a shoot-off for the Bronze Medal in the All aggregate, Capt. Gordon Galbraith of Hamilton defeated seven tie competitors. His strongest opponent was Master Gunner Collings, British Columbia Rifle Association.

Galbraith is also winner of the second place prize money for having made the best placement of shots in the match aggregate score. The following is the official statement of the winners in the "Our Friends" match. Listed in order of merit:—

Lieut. D. T. Burke, G.G.F.G., Ottawa, 70, $50.00.

Lieut. A. C. Carter, Toronto Regt., 69, $25.00.

Lieut. K. R. Macgregor, G.G.F.G., Ottawa, 69, $20.00.

Cause for Debate

Girl: D'you mean to say you can't find a best man?"
Tough—"Hundreds of 'em. But not one that I kin trust with the ring."
—From the Passing Show, London.

DODGE DEPENDABILITY

TRUE ECONOMY is more than price deep

Owners of the Dodge Six and Eight are gratified that the features which contribute most notably to the pleasure of owning these cars are also responsible for their economy, dependability and long life.

The carefully-perfected balance of the engines means less vibration. The floating comfort on the road means that the engine and chassis, as well as the passengers, are virtually free from shock and strain.

The strength and permanent silence of the Mono-Piece Steel Bodies reflect freedom from upkeep expense as well as greater safety. The internal weatherproof hydraulic brakes, which give such reassuringly positive stops, are self-equalizing—require no costly adjusting—reduce wear on tires.

Now more than ever before, Dodge cars combine all of the factors you want most in a motor car.

Dodge Six—$1065 to $1115
Dodge Eight—$1400 to $1465
Prices f. o. b. factory including standard factory equipment (freight and taxes extra)

FOLLOW THE DODGE EIGHT MARATHON RECORD

To get an accurate record of the endurance of Dodge cars, a stock Dodge Eight-in-Line started on July 1st a continuous marathon run, flashing back and forth across the continent, piling up thousands upon thousands of miles. No greater demonstration of dependability has ever been attempted. Over 20,000 miles have been covered to date.

PRESTON'S TWO GOALS GAINED LEAGUE POINTS

James Scored For Brinton With a Long Shot That Hit Post to Go Into Net.

PACKERS 2. BRINTON 1.

In Last Twenty Minutes the C. P.C. Centre Man Scored Two Difficult Goals.

After being down one goal a greater portion of the game, the Packers came to life in the last twenty minutes and won two valuable league points at the expense of the Brinton Athletic Club last evening, before a good attendance, in spite of the inclemenecy of the weather, right on their own playing pitch. Laidler occupied the place of Fred Lucas, at right back, who broke a small bone in his ankle in a practice game during the week.

The last minute spurt by the Packers resulted in Bob Preston scoring two goals against their opponents' one gained in the first half. Canadian Packing now have a five-point lead in the league.

First Half

In a downpour of rain, the Packers kicked off in a ninety minutes battle for league points. Extreme wing play held sway to harass the defense men with swinging the ball over their heads into the goalkeeper's hands. A break-away by Preston, a little later, failed to get the mark by inches after he had beat the full backs on the run. Lively tussles took place in mid-field with the players exchanging legitimate charges that were not aided in the least by the slippery ground. Finally the Brinton gained a foothold on the ball to initiate beautiful combination until James caught the Packers' custodian cold when he drove a long drive against the upright, on the inside, to put his team in the lead. With only ten men, the Packers were more on the defensive than the offensive until the Carpet Boys reverted back from the attack. Time and again, the Packers would raise a seige to fall miserably in front of goal; of course, it was excusable, owing to the wet ground. While all the players had difficulty in controlling the ball, no impediment seemed to get Buchan, who accommodated himself to the conditions and set an example to the sharpshooters by defeating attack after attack by the Brinton forwards. Waiting an opening, he carried the ball to the other end where he rapped a hot one against the cross-bar and sent the rebound back over the bar. Just before the interval, Hanson became a dangerous man with his deadly centres into goal, and on one occasion placed the ball to the foot of James, who lifted the ball over the goals, instead of a gentle tap. Brinton Athletic, 1; Canadian Packing, 0.

Half Time

The change-over showed no changes in the line-up except that Grant completed the full eleven before the interval. More aggressive tactics were used to get inside the shooting territory. Every available method was tried to get the better of the Packers' goal-keeper as the shots landed in on him and he showed smart work when he picked up the ball after Jones had let it go through his legs, intended for goal, but Griffin was right there to make a clearance. After the Brinton had made an attack, Buchan instructed his men accordingly. He had many a good tussle with his old club-mate, Westwood, both of them splitting fifty-fifty in all tackles. The Packer captain concentrated in passing the ball up the centre of the field with good effect and he was well rewarded as his centre-man pulled the game out of the defeat column to the winning one. Although, Foster should have got the equalizer when he missed the upright from three yards out. From this point, the game was full of thrills in favor of the Packers, and it was noticeable how the manager of the Packers gave instructions to his forwards whenever they hovered in the Brinton goal. "Keep right up, Bob, and Newt will give you a pass," and no sooner had this been said, it was acomplished. Downer drew out the defense with a move out to the right, instead he cut in to Preston, who travelled along with the ball until he got near goal and with a screw shot landed the sphere in the net as Curtis lay prostrate on the ground, a second too late. Owing to the late start, darkness crept in to make it impossible to follow the game closely as a spectator. Credit must be given to Bob Preston as the opportunist in local soccer. He worked hard all evening to win the two points, and his last goal was one of the cleverest kind. Awaiting the ball coming out of the corner, lying close on the touch line, he smartly turned himself while in possession of the ball and with an oblique shot beat the Brinton custodian all the way. The Carpet Boys tried hard to get the equalizer but it never materialized before the final whistle.

Canadian Packing 2, Brinton Athletic 1.

Goal scorers—Preston (2) C.P.C.; James for Brinton.

Canadian Packing — C. Griffin, goal; J. Cross and A. Downer, full backs; W. Rickard, J. Buchan and A. Bromley, halves; N. Downer, A. Beggs, R. Preston, T. Foster and W. Grant, forwards.

Brinton Athletic—W. Curtis, goal; S. Laidler and D. Green, full backs; J. O' Halloran, T. Westwood and E. A. Bayliss, halves; J. Boon, W. James, E. Jones, J. Anderson and E. Hanson, forwards.

Referee—James Hawthorne.

PRINCE ALBERT PARK BURNING.

PRINCE ALBERT, Sask., Aug. 9.—(C.P.)—Hungry flames have devoured a strip of timber seven miles long and half a mile wide in the vicinity of La Valee Lake, in Prince Albert National Park. Last reports received indicated the blaze had not been controlled, according to J. A. Wood, park superintendent.

Well-Known Athletes For Canadian Meet

By JIMMY THOMPSON

To-day at Varsity Stadium, Toronto, the Canadian National track and field championships will crease, in all likelihood, what may be termed the race of the decade, when Williams, Fitzpatrick, Miller and B. Pearson meet. Peerless Percy Williams is anxious to re-establish his supremacy among the century men of American and is out to take first place. Leigh Miller, formerly of Nova Scotia and now of the Hamilton A.C., has hung up some records that have caused comment. Johnny Fitzpatrick, though he has just recovered from an accident, will be out to do his best. Pearson, the Hamilton school boy, may prove to be a dark horse. The games will serve as an elimination for the British Empire games at Hamilton, on Aug. 16th. Other outstanding are: Alex Wilson, M.A.A.A., quarter miler; Jack Walter, ex-Listowell high school miler, and Brant Little, who has been attending Notre Dame University, since his return from the Olympic games in 1928. Jack Walter has been attending Marquette University and has also established a reputation for himself in the United States. If the interest of the general public is any indication the British Empire games should break your neck with by bare

CAMPBELLFORD ALL SET FOR ROTARY FAIR

Big Night to be Staged on Aug. 15, With Many Attractions.

CAMPBELLFORD, August 9 (Examiner Staff Correspondence). — All arrangements are now made for the big night on August 15, when the Campbellford Rotary Club stage their annual carnival and street fair. Permission has been granted by the Council to rope off Front Street from Bridge to Market Streets, and along this route fun and frolic will be rife. One of the many attractions will be wheels of fortune, and a great list of prizes is being offered. These comprise Kenwood blankets, aluminum ware, ladies' silk hose, eiderdowns, chinaware, graniteware, electrical appliances, sugar, and flour.

There will also be two grand prize drawings, each lucky ticket holder having the choice of a bicycle, suit of clothes, a Gruen gold watch, or a chest of silver, each prize being valued at $50.00.

For the kiddies a free picture show will be staged. In the event of rain, the fair will be held in the Davidson Arena.

WILL HENS LAY?

(Continued from Page 8).

ing fountains free from ice. Either give the fowls warm water at frequent intervals, or arrange to heat the water in some way.

Plenty of exercise is especially necessary for winter egg production. If hens cannot roam the range as they do in summer, their scratch food should be given in a way that will make them exercise to get it. Feed grains rather lightly in the morning so the fowls will be quite hungry in the evening. Then scatter their grain in good clean deep litter and they will have to exercise to get it. This method of feeding will also compel the hens to eat more mash which they do not like nearly so well as the grain. In this way they are not only induced to take sufficient exercises, but are also persuaded to partake of a more evenly balanced diet. Incidentally, hens should never be permitted to go to roost hungry. See that their crops are always well filled at night. Proper housing, culling, sanitation, protection from parasites and, above all, proper feeding, are necessary elements in successful winter egg production.

CAMPBELLFORD IS VISITED BY SEA FLEA

Craft Performs Stunts on River and Makes Itself Heard in the Process.

CAMPBELLFORD, August 9 (Examiner Staff Correspondence). — Residents of town have experienced another thrill in the past two days by the antics of a sea flea, which has been performing on the river in the town limits. But there seems to be some doubt as to whether the thrill is altogether a pleasant one, for the fun of watching a craft turn several times in its own length is taken away by the noise that it makes. It is certainly not "good medicine" for a person who wishes to take their afternoon nap, especially if they live in the vicinity of the river, and the racket the boat makes is not enjoyed by the baby.

It is thought that it is an advertising stunt for sales purposes, but the citizens of Campbellford are inclined to wonder at the wisdom of this, as it has been said that the boat can be heard for three miles.

TWO CAMPBELLFORD WOMEN HAVE FALL

Descend Through Manhole on Front Street Within Few Minutes of Each Other.

CAMPBELLFORD, August 9 (Examiner Staff Correspondence). — Two accidents at the same place within a short time of each other was the record for Campbellford on Thursday afternoon, when Mrs. G. C. Bromley and Miss Dorothy Runnells fell through the same manhole within a few minutes of each other.

The manhole, which is located in front of Armstrong's dry goods store on Front Street, gave way when Miss Runnells trod on it, and she went through the aperture with one leg. The board was replaced over the hole after she had been relieved from the awkward situation, and ten minutes later Mrs. Bromley, wife of the Chief of Police, fell through the same aperture, completely descending up to her armpits. After being lifted out of the hole, the services of Dr. Haig were called, and it was found that she was severely bruised and scratched, and will be confined to her bed for some days. Miss Runnells was also severely bruised and shaken up.

listen to it POP!

JUST pour milk or cream in a bowl of golden brown Rice Krispies and your own ears will tell you how crunchy every toasted bubble is. So crisp it actually crackles out loud!

Try the recipes on the package. Rice Krispies are delicious in dozens of ways. At your grocer's. Made by Kellogg in London, Ontario.

snap! crackle! pop!

Kellogg's RICE KRISPIES

Eden United Church Holds Annual Picnic

MOUNT JULIAN, Aug. 9 (Examiner Correspondence)—Eden United Church held its annual picnic on Wednesday in John Booth's grove. The weather was ideal and the ladies of the church served an excellent dinner and supper.

The sports were in charge of Messrs Gordon K. Fraser and William Clink and they also took charge of the grab bag which pleased the children.

A fruit cake donated by one of the members was won by Miss Olive Armstrong; the lucky ticket for the blanket was held by Miss Violet Stubbs and the one for the tablecloth was won by Mrs. Will Church.

The proceeds amounted to $175. The church is indebted to the following for donations: Mr. Gordon K. Fraser, Burleigh Falls; Mr. William Clink, Toronto; Mr. Bradly, Rochester, N.Y.; Mr. W. Thompson and Mrs. I. D. Church, Mount Julian; Mr. Geo. Stevens, Apsley; Mrs. Sam. Wilson, Haultain; T. Eaton Co., Toronto; Mr. G. Gillespie, Peterboro, and Mrs. H. Scholar, Peterboro, and also to the Rev. Mr. and Mrs. Taylor who worked faithfully to make the picnic a success.

TREES PLAY BIG PART IN PLANNING

(Continued from Page 8).

planted. It is not worth while to plant large growing trees close to the house, thus tall spreading evergreens or deociduous trees should not be closer than about thirty feet, so that sunlight which is so much needed be not too much shut out from the building. Small evergreens and shrubs maybe planted around the building for adornment and in some cases for screening, particularly where buildings are not attractive.

It is wise to enclose an area around the same building principally in front, which is ordinarily the lawn. Here the farm home planting maybe done aided with a pleasing grass surface. This enclosure maybe brought about with wooden or wire fences or with evergreens or shrubbery, which maybe clipped or otherwise.

Where evergreen hedges are wanted, the Common White Cedar responds splendidly, so does the White Spruce, and almost all shrubs do well as hedges. Although not native, one of the fastest growing shrub and tree types for hedge or windbreak is Satix pentandra, or the Laurel Leafed Willow. Shrubs of nature origin as Highbush,Cranberry, Bogwoods, Witch Hazel, Pink Spiraeas, Native Rose Bushes and Honeysuckle maybe used for hedges or general planting. For planting in small groups on the lawn or in similar fashion around the home building, it maybe wise to introduce a few foreign shrubs like Japanese Barberry, Lilacs of which the new double and single varieties are most beautiful. Spiraea Van Houttei, Red honeysuckle Japanese Quince, Wiegelia Deutzia and so on. It is not wise to have too many varieties and it is not necessary to plant solidly around the foundation of the buildings but here and there at the corners and possibly at the centres in triangular groups of three of perphaps two sorts. The centre one to be a different variety from the other two. In this connection different colours are more pleasing than all one colour.

Perennial Borders

A perennial border, if desired maybe placed against the fences or hedge for a background and may include popular forms as Hollyhocks, Paeonies, Poppies, Phlox, Iris, Pansies, Delphiniums and the early flowering Dwarf Phlox, Arabis, Snow on the Mountain, Cerastrium, Snow in Summer, and of flowering plants of spring. Here could be planted, or in a shady spot native plants as Trilliums, Violets, Phlox, Hepaticas, Blood Roots and so on, and in a specially shaded spot there is nothing better than native ferns. Hardy bulbs maybe planted in the fall like tulips, Crocus and Snow-drops.

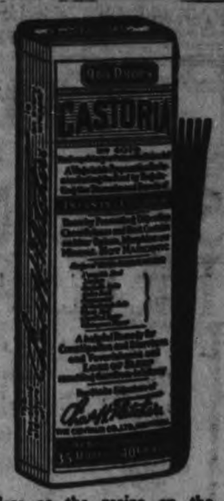
Usually the lawn itself should be kept open except for a shade tree or so and possibly an evergreen, whilst the general planting be done at the boundaries, for protection and effect to shut out unsightly views, also to plant around the foundation of the building. A path maybe arranged to the front door over twenty feet from the road or driveway in curved form, at the side of the lawn rather than through it because of a more pleasing result. A naturalistic curve is usually the better. A shrub or so maybe planted where changes in the curve of the path occur to give reason for the path being curved rather than too straight.

The driveway curve or straight maybe brought in from the roadside as near as possible to the farm house and buildings for convenience sake. Sometimes it is wise to have two driveways, one to the buildings and the other to the farm home. A curved driveway is often more interesting than a direct one.

Something should be said about reforestation. If untillable land is available, rather than allow it to lie waste, why not plant it? The Ontario Department of Forestry, will gladly advise in connection with reforestation questions. The Department of Horticulture at the O.A.C., Guelph, will gladly assist farmers in laying out farm home grounds. Advise is given free of cost and the department will prepare planting plans free of cost. If you wish such work done send in to the department a rough sketch showing location of buildings, paths, and driveways, measurements, points of the compass and general information. A snap-shot or so helps tremendously in preparing a planting plan. Spring or fall planting maybe practised quite safely for most trees, evergreens, shrubs and perennials.

Without doubt home beautification is one of the most worth while things that a man in the country or city can undertake. It is something for yourself, for your district and for the country at large.

An Ailing CHILD



Are you prepared to render first aid and quick comfort the moment your youngster has an upset of any sort? Could you do the right thing—immediately—though the emergency came without warning—perhaps tonight? Castoria is a mother's standby at such times. There is nothing like it in emergencies, and nothing better for everyday use. For a sudden attack of colic, or the gentle relief of constipation; to allay a feverish condition, or to soothe a fretful baby that can't sleep. This pure vegetable preparation is always ready to ease an ailing youngster. It is just as harmless as the recipe on the wrapper reads. If you see Chas. H. Fletcher's signature, it is genuine Castoria. It is harmless to the smallest infant; doctors will tell you so.

You can tell from the recipe on the wrapper how mild it is, and how good for little systems. But continue with Castoria until a child is grown.

BIG AIRLINER TO LEAVE MONTREAL

(Continued from Page 1)

to Toronto, over Western Ontario if weather permits, and then back to her mooring mast at St. Hubert to be groomed for the long Atlantic crossing homeward to Cardington.

An official announcement late yesterday afternoon set starting time around six o'clock. The big ship will cruise over the city for a few minutes before turning her blunt, silver nose towards Ottawa and the setting sun. It is expected that the R-100 will reach Ottawa before dark, to give those in the capital a good view of the forerunner of much larger aerial leviathans of commerce. During Sunday night the dirigible will be cruising lazily towards Toronto, which she should reach early Monday morning.

If the weather reports from Western Ontario are reported as favorable, she will turn her nose west again for a trip over that part of the Dominion, then returning direct to her haven at St. Hubert airport. Back at the mast she will again be refuelled and take aboard more hydrogen, water and foodstuffs for the jaunt to England.

Inspections Close To-night.

Official inspections of the R-100 close to-night around 9 o'clock. Tomorrow morning it is possible that Col. Donald Sutherland, new Minister of National Defense, accompanied probably by Hon. R. B. Bennett, the Premier, and his Cabinet, will make a private inspection of the big silver airship.

Her return to Europe was originally scheduled for Friday, August 15, but it is most likely that she will not leave till next Monday or Tuesday at the earliest, and her departure will then be dependent on weather conditions over the Atlantic.

Passenger List.

The official passenger list for the Ontario flight to-morrow shows only fourteen guests, in addition to the crew of 44. Those who will be aboard the dirigible as passengers are Major A. G. L. McNaughton, C.M.G., D. S.O., Chief of the General Staff, Department of National Defense; Commander Walter Hose, C.B.E., R.C.N., Chief of Naval Staff; Group Captain J. Lindsay Gordon, D.F.C., A.D.C., Director of Civil Government Air Operations; Group Captain E. W. G. Stedman, O.B.E., Chief Aeronautical Engineer; Wing Commander L. S. Breadner, D.S.C., Director of the Royal Canadian Air Force; Squadron Leader J. H. Tudhope, M.C., Superintendent of Airways; W. A. Steel, M. C., and Captain W. L. Laurie, Royal Canadian Corps of Signals, Commander C. P. Edwards, head of the Radio branch, Department of Marine.

Capt. F. C. Badgley, Director of the Canadian Government motion picture bureau, one official Canadian Government photographer, one representative of Canadian Press and Reuters Press Service and W. A. Lawrence, Press Liaison Officer.

ST. HUBERT AIRPORT, August 8 (Special to The Examiner)—Uncertainty as to whether the R-100 would fly over Peterborough during the week-end was expressed to-day by J. A. Wilson, Director of Civil Aviation, in an interview with The Examiner. "It is still our intention to give as many as possible of the citizens of this country an opportunity to see the airship in flight," he said, "and we are prepared to try to meet the wishes of the many communities that have urged their claims, but there are other considerations. While the navigator has instructions to follow as far as possible the course that will take in most cities, he has also to take heed of meteorological conditions generally. Under these circumstances, I cannot say positively that the ship will fly over any given locality on the route to Toronto. All I can say is that I hope it will fly over your city."

Held on Suspicion

Angelo Livecchi, arrested in connection with the murder of Gerald Buckley, the radio announcer, in the lobby of the LaSalle Hotel, Detroit. Livecchi is said to be an associate of Peter Licavoli, reputed king of the river rum runners.

One Family Polo Team From "Down Under"

The Australian polo team which consists of Geoffrey, Phillip, Robert R., and James H. Ashton, brothers, from New South Wales, arrived in New York a few days ago to take part in the Long Island Polo Tournament. They had a successful season in London where they won the Whitney Cup.

HASTINGS

TARZAN OF THE APES No. 32 (Metropolitan Newspaper Feature Service, Inc.) By Edgar Rice Burroughs

A sailor grasped him by the collar and bawled into his ear: "Read it out loud, you blistering idiot!" The professor read: THIS IS THE HOUSE OF TARZAN THE KILLER OF BEASTS AND MANY BLACK MEN. DO NOT HARM THE THINGS WHICH ARE TARZAN'S. TARZAN WATCHES. TARZAN OF THE APES.

The thought uppermost in their minds was: "Who is Tarzan of the Apes?" The rat-faced sailor growled out an insulting oath! The young man's face paled in anger. "You've murdered our officers and robbed us," he said. "Now shut up or I'll break your neck with my bare hands."

He deliberately turned his back upon the sailor and walked away. The sailor's hand crept slyly to his revolver. His eyes glared vengefully ....Two keen eyes had watched every move of the party from a near-by tree. Tarzan saw the surprise caused by his notice and now watched the quarrel.

The act of the rat-faced sailor in killing his comrade, the day before, had aroused a strong dislike in Tarzan. He liked the fine-looking young man. But now he naturally expected to see the young man murdered. Spear in hand, his mighty right arm was ready to strike.

Then three things happened, almost simultaneously. The sailor leveled his weapon at the young man's back, the girl screamed a warning, and a long spear shot like a bolt from above. It passed through the man's right shoulder, and the seaman crumpled up with a scream of pain and terror.

OBITUARY

CHESTER CROWE

The funeral of the late Chester Crowe was held this afternoon (Saturday) at 2.30 from the family residence, 273 McDonnel street. In the absence of the Rev. Mr. McLean of St. Andrew's church, of which church the deceased was a member, the Rev. David Wren of Trinity church officiated. Interment was in the Little Lake Cemetery.

The late Chester Crowe, who was drowned while bathing here on Thursday last, was born 15 years ago in Cavan township, and had resided in this city practically all his life. He was a member of L.O.L. Juvenile No. 3. His father was the late John S. Crowe, and his mother the present Mrs. P. Robinson.

He is survived by his mother; by four sisters, Mrs. E. Perrett and Mrs. Russell Little, both of this city, and May and Pearl at home; and by two brother, Ernest and Albert, both at home.

RUDDER DAMAGED ON STONEY LAKE

Ship is Crippled by Accident on Lindsay to Peterborough Trip.

PASSENGERS SENT BACK.

Lindsay people who started off Thursday on a trip by water to Peterborough on the Stoney Lake experienced some of the minor thrills of a shipwreck without any of the unpleasant ones.

Going up the river the steamer struck a log, displacing her rudder post. It was not known at the time just what was wrong, but it was clear that something had injured the rudder and the boat did not respond properly.

At Greenhurst an attempt was made by the crew to get down to fix it but they could do nothing. A diver was sent for but nothing could be done and the management of the boat refunded the passage money and sent the passengers back to Lindsay.

MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

DOUGHNUTS IN DEMAND

The Examiner Printing establishment purchased ten dozen doughnuts this morning. It wasn't a collective purchase. They came by the dozen and half dozen, in thin paper bags that allowed a hint of the sugared dainties within.

At noon hour, any number of them might have been seen disappearing down the street in the hands of Examiner employees.

A small, genial lad who resembled a certain famous personage in Dickens' "Pickwick Papers" invaded the premises this morning with a huge basket containing 120 doughnuts. He departed later with an empty basket and a broad smile.

"And I didn't go near the top floors" he announced. "I sold them all on the first two floors."

RAINBOW-COLORED CAR.

If you can't make people look at you the second time, get a car and paint it in rainbow colors.

An old-time touring car stood at the curb on George Street this morning, in a quartette of tints that hit the attention immediately.

The body was finished in a three-tone combination of scarlet, royal blue and pink, while the mud-guards were in pea-green.

FOUR LEGS ON GUINEA HEN.

Ambition cost the life of a guinea hen on the farm of Mr. and Mrs. M. H. Johnston of Springville. Striving to outdo its fellows, it came into the world equipped with an extra and unnecessary set of legs. Besides the regular pair, it achieved another pair under its tail. It lasted only a short time.

HABOCO STORE WINS 1ST PLACE

Five Peterborough Merchants Win Prizes in Great National Contest.

FOR BEST WINDOW.

Peterborough merchants are priding themselves on their ability to dress windows. Five local stores won prizes in a recent Dominion-wide contest in window-dressing conducted by the Lever Brothers, Limited, of Toronto, with The Examiner co-operating in the contest.

One of the stores, the Haboco establishment at 60 Hunter street east, took fourth prize in its national group which comprised a stiff competition with cities ranging in population from 5,000 to 100,000. The other stores also secured awards in this group. When it is realized that very large centers competed, and that the total list of prizes in this group alone amounted to 420 awards, some idea of the excellence of the local entries may be gained.

Between May 12th and June 21st, the stores dressed their windows for one week exclusively with a display of Lux Toilet Soap. Photographs were taken of the windows and these forwarded to Toronto, where all the judging was done by Toronto people. Over the Dominion, three groups were included, for populations of different sizes.

The Examiner also co-operated with this contest by offering special cash awards to the window-dressers in each case. The prizes given by Lever Brothers went to the stores represented.

The results were as follows: Haboco Store at 60 Hunter street, winner of $50 prize as fourth successful entrant in the National group, and of $10 cash prize from The Examiner to the window-dresser, V. A. Wood, for first position in the Peterborough contest.

E. F. Mason store at 429 George street, winner of $10 prize in the National group, which offered 50 prizes of $10 apiece after the ten first prizes had been decided upon, also of $7.50 cash prize from The Examiner to the window-dresser, E. H. Spencer, securing second postion in the local entries.

P. J. Harrison, E. Puttick and the Haboco Store at 168 Charlotte street came in for $5 awards in the list of 150 prizes for $5 each which were given in the National group by the Lever Brothers, and also secured The Examiner prizes of $5, $3 and $2 respectively, for gaining third, fourth and fifth places in the local contest. Mr. Harrison and Mr. Puttick dressed their own windows, while E. Carson secured the prize as window-dresser at the Haboco Store on Charlotte street.

In the five local entries, the Haboco Stores gained first and fifth places locally, while the Haboco Hunter street establishment came fourth in the list of National awards in its group.

AT HASTINGS

Rev. E. A. Thomson of Guelph is spending his vacation at the home of his parents, Dr. D. A. and Mrs. Thomson, "The Manse."

NEW SILK SHOP OPENED IN CITY

Bargains and Guessing Contest Drawing Many Customers.

OPENING SALE ON

A bright new business has just recently opened its doors to the Peterborough buying public, hanging out its sign as the Up-town Silk Shoppe, in the re-modelled store lately occupied by W. H. Meredith at 404 George street. Its principal lines are silks and woollen dress goods, ladies' underwear, hosiery.

As most of this class of merchandise is gaily colored, the displays in both windows and store are distinctly attractive. Business started with a well patronized opening sale which still continues. The management has already introduced some business getting stunts, one of them being a prize window, with three valuable silk goods prizes offered to the one making the nearest estimate of the number of yards of dress goods the window contains.

Judging by the number of shoppers seen examining the goods in the new store, and the parcels being carried away, the Up-town Silk Shoppe is well on the way to becoming one of Peterborough's popular shopping points.

FLORAL DISPLAY LIST OF ENTRIES

Horticultural Society's Show Will Be Held August 14, 15 and 16.

IN LEGION HALL.

List of classes and prizes offered for display of cut bloom to be held in Canadian Legion Hall August 14, 15, and 16. This display is being held in conjunction with the C.G.E. Social and Athletic Flower Show:

Those entering in this class will not be eligible to compete in the first 8 classes. Points will be awarded 5 for 1st and 3 for 2nd. In case of a tie vase will be awarded to winner of greatest number of firsts.
15. Table bouquet, or table decoration. 1st prize, 12 tulip bulbs; 2nd prize, 6 tulip bulbs.
16. Bouquet of sweet peas. Gypsophila or other suitable foliage may be used. 1st prize, 12 tulip bulbs, 2nd prize, 6 tulip bulbs.

The tulip bulbs for prizes will be Prince of Orange or others of equal value.

All entries must be in the hands of the Show Secretary not later than 8 p.m. Thursday, August 14th. Competitors to supply their own containers.

The Legion Hall will be open on Thursday evening from 6 to 10 for the competitors to bring in their flowers and get them ready for the display committee.

The classes are open to any resident of the County of Peterborough, and no entry fee is required for display purposes.

INQUIRY IS HELD

(Continued from Page 1)

if you fellows have the right to be out here."

Witness then told of a telephone call on the Saturday afternoon from a girl who said she was Margaret Love, who said she had some important information to give him, but did not want to come to the station, and did not want any one to see her talking to him. She asked to meet him on Sunday night and he agreed. She asked him to call up on the Sunday and he did. There was nothing unusual about this. On meeting the girl he asked her what she wanted to tell him, and she asked to get in the car and to be taken to some quiet place where they could talk. At Victoria Park the girl climbed from the back to the front seat. She suggested they go to a more secluded place, and getting on Blenheim Road via a park drive, he said the girl said: "I wouldn't tell you anything. I just wanted to get even with you for what you accused me of on Friday night. There are several cars following." He saw two cars behind him, and then he said he realized he was being framed. He stepped on the gas, drove to the first crossroad and on it met the car with the two aldermen and Marriott in it. Miss Love then told him she was only "kidding" before, and that no cars were following, and she wanted him to take her for a ride. When she hesitated to get out of the car he threatened to take her to the Police Station.

Alderman J. M. Willard had never been a friend of his, never since he raided the new Royal Hotel, owned by the Willard brothers, a month after he came here, the Chief said.

Replying to Mr. Hattin the Chief did not consider it an indiscretion to meet the girl on Sunday night, because he felt she might have been grateful for being let off on Friday night, and might tip him off to something that was going on. He said he knew her boy friend was in the habit of hanging around a certain cigar store, which had been mentioned several times in connection wth liquor, but on which they could never get anything.

Deputy-Chief Goodman of Hamilton testified as to police practice in getting information, and said he would have done the same thing as Chief Boyd had in meeting the Love girl thinking she had information for him.

R-100 PASSES OVER CITY DURING NIGHT

Percy Williams Sets New 100 Metre Mark

PADDOCK'S MARK IS BEATEN BY TENTH OF SECOND

Track Was Little Slower Than it Might Have Been Due to Rains.

RACE AGAINST TIME.

Two Hamilton Speeders, Fitzpatrick and Adams, Second and Third.

VARSITY STADIUM, Toronto, Ont., August 11 (By Harry Eccles, Canadian Press Sports Writer). — World's records crumbled beneath the flying feet of Percy Williams on Saturday. The slim, modest, young champion from Vancouver raced the 100 metres in 10 3-10 seconds, one-tenth of a second faster than the recognized world record set by the famous Charley Paddock in 1921, and equalled by Eddie Tolan of Michigan on Dominion Day at Vancouver.

The time was thoroughly official and the track was re-measured after the record time had been hung up. There was a variable cross-wind and the track was sheltered by a grand stand. The track was the regulation outdoor sprint track, and was a little slower than it might have been on account of heavy rains the day before.

Williams had the others beaten before he had burst halfway down the track, but this was not enough. Giving the very best he had, he flashed on to the finish. His opponents were good sprinters, but one got the impression after watching them that Williams was going faster at the finish than the start, though it had seemed in the first 50 yards that he could not possibly have streaked faster. He burst the tape and the officials snapped their watches. They took a second and then a third look. Then followed the investigations and the announcement. The news was greeted with a roar of applause, which had been mounting even as Williams raced along the track. In the 10 seconds of his supreme effort was packed the big thrill of the greatest athletic meeting yet seen in Canada.

In view of all these circumstances the Amateur Athletic Union of Canada is applying to the International Federation for world recognition of Williams' time.

At Peak of Condition

"Peerless Percy", after two smashing heats in good time, stepped to the mark for his 100 metre race in the very peak of his condition. He had two more years of experience than when he won the Olympic sprinting titles in 1928. He was out to avenge the defeat inflicted upon him by Eddie Tolan at Vancouver on Dominion Day, though, as Tolan had been forced to equal Paddock's world record, that defeat was no disgrace.

The five other fastest Canadian sprinters were also lined up. But Percy was racing against time, not against his opponents. When the gun barked he was away to a perfect start. His slim legs, driven by a stout heart and muscles like steel springs, went into a rhythmic pounding, faster and faster.

Hardest Race of Year.

Williams slowed down way beyond the wire and made his way back to the dressing room. "That's the hardest race I have run this year," he admitted to a Canadian Press reporter. "I feel fine," he said quietly, and with a shy smile, added, "but I wouldn't want to run like that every day."

Johnny Fitzpatrick of Hamilton, came in second, ten feet behind Williams, while Ralph Adams of Hamilton, who won the Canadian sprint at Banff last year while Williams was absent, was third. "Buster" Brown of Edmonton, Bert Earson of Toronto and Napoleon Boudreau, Montreal policeman, were the "also rans."

New Walking Record.

The other Canadian record was established in the 1,500 metre walk for which the books had no Canadian mark. Harry Cleman of Toronto,

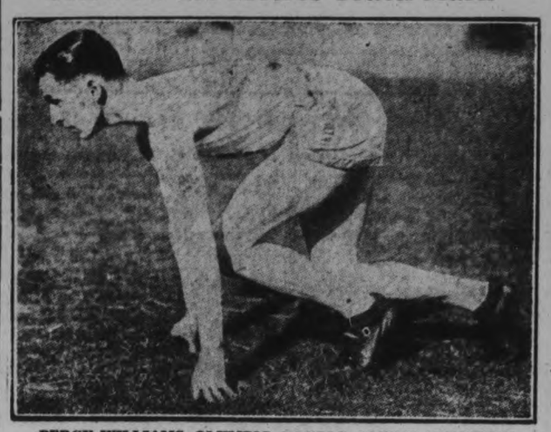
14 Die in Bagdad, Temperature 130

BAGDAD, Aug. 11 (C.P.) — Fourteen were dead and hundreds were prostrated by an unprecedented heat wave which gripped all Mesopotamia to-day. For a week the thermometer has duly gone up around 130 Fahrenheit in the shade.

Sets New 100 Metres Track Mark



PERCY WILLIAMS, OLYMPIC DOUBLE SPRINT CHAMPION, Who in Toronto on Saturday set a new record for the 100 metres, covering the distance in ten and three-tenths seconds, clipping one-tenth of a second from the time made by Charlie Paddock in 1921 and equalled by Eddie Tolan in Vancouver on July 1st last.

OTTAWA STOCK BROKERS APPEAR AT FALL ASSIZES

Harold Howat and D. A. MacGillivray Waive Preliminary Hearing.

TRIAL BY JURY.

Both Held in Jail Until Bail Adjustment Fixed By Magistrate.

OTTAWA, Ont., Aug. 11 (C.P.) — Charged with five counts of conspiracy, fraud and theft, Harold Mowat and Duncan A. MacGillivray, former stock brokers, will appear for trial at the Fall Assizes here in October. They waived preliminary hearing when they appeared in Ottawa Police Court to-day and elected for trial by jury at the next Court of competent jurisdiction.

Held in Cells

Since their arrest March 13 at headquarters here of the brokerage chain of some 20 branches which they operated, Mowat and MacGillivray have been at liberty under $50,000 bail each. A bail adjustment had not been fixed by Magistrate Charles Hopewell early this afternoon and the two brokers meantime are held in the cells.

WARNING ISSUED ABOUT PARALYSIS

Three Lindsay Cases Treated With Serum Hoped Checked.

IN SIX COUNTIES.

LINDSAY, Ont., Aug. 11 (C.P.). — With three suspected cases of infantile paralysis in Lindsay and more in the district now, this town and district is apparently facing another outbreak similar to the one which occurred last year's warning by Dr. Norman H. Sutton of Peterborough, the district medical officer of health, to citizens to take precautions to guard against this dread disease had been sent out. The three cases here have been treated with serum and it is hoped will be checked. During the month of July, he announced, this disease, known to the medical profession as anterior pellomelitis, appeared in Hastings, Northumberland, Durham, Ontario, Victoria and Peterborough, comprising six of the eight counties in number four district.

CAR CRASHES AT OAKWOOD AS DRIVER FALLS ASLEEP

LINDSAY, Ont., Aug. 11 (C.P.). — George Arbuckle, of Toronto, is this morning resting in the Ross Memorial Hospital with a severe bodily bruising after going to sleep at the wheel of his car, in which he was driving from Toronto to his summer home at Coboconk, and running into the ditch on the south side of the road about half a mile outside of Oakwood, around 6.15, E.S.T., on Sunday morning. The car, an eight-cylindered sedan, was almost a complete wreck, and was towed to Oakwood Garage. Mr. Arbuckle was knocked unconscious, and remained so until about 6.30, when he phoned Dr. M. F. White of town, who sent the ambulance out and brought the injured man to the hospital.

Justifiable Pride

Justifiable pride and admiration for the brains and skill which gave birth to the giant British dirigible R-100 and a wistful tone, which spoke more eloquently than words of the patriotic love for the little island across the ocean, were all evident in a short telephone convertion which a young lady had with The Examiner this morning.

"I saw the Los Angeles— the American dirigible — when she flew over New York City and I saw the R-100 over here last night" she exclaimed.

"They remind me of the familiar cartoons of John Bull and Uncle Sam. The R-100 is short and stumpy, but my, how strong! while the Los Angeles is long and thin—Just like Uncle Sam."

FRENCH MINISTER NAMED SHORTLY

Representative to Siam May Fill Jean Knight's Post at Ottawa.

NO CABINET MEETING.

OTTAWA, Ont., Aug. 11 (C.P.) — Official announcement from the Government of France of the appointment of a new French Minister to Canada is expected shortly. The first incumbent of this post, Jean Knight, was recently appointed director of Publicity in the Foreign Office of the French Government and is now in Paris. Reports suggest the probability of the present French Minister to Siam, Arsene Henry, being chosen.

Premier J. T. M. Anderson of Saskatchewan and Premier John Bracken of Manitoba, returned to the Capital early this morning, with Premier J. E. Brownlee of Alberta, who remained in the city over the week-end. They conferred later in the day with the Prime Minister on matters appertaining to the marketing of wheat crops and unemployment.

No Cabinet meeting will be held to-day, but late this afternoon Premier R. B. Bennett left for Quebec City to welcome British delegates to the annual meeting of the Canadian Bar Association. The Prime Minister will spend Tuesday in the Ancient Capital, but will be back in Ottawa on Wednesday morning.

RHODES TENDERS HIS RESIGNATION

Leaves Premiership of Nova Scotia to be Minister of Fisheries.

HARRINGTON TAKES HOLD.

HALIFAX, N.S., Aug. 11 (C.P.) — Hon. E. N. Rhodes, Premier of Nova Scotia since 1925, to-day tendered his resignation to Lieutenant-Governor J. C. Tory, to accept the appointment as Minister of Fisheries in the Dominion Government. Hon. Gordon S. Harrington, Minister of Public Works and Mines in the Nova Scotia Government, was asked to form a Government, and accepted.

Hon. Mr. Harrington will retain his portfolio and the portfolio of the Provincial Secretary-Treasurer, held by Premier Rhodes will be taken by Hon. John Doull, Pictou County representative, who was formerly Minister without portfolio.

SKIDLEY WINS SAILING CLASSIC AT McCRACKEN'S

Graham Eastwood Finishes Three-fourths of Length Ahead of Ellsworth Flavelle.

TILTING WELL RECEIVED.

Skidley's Triumph and Winning of Hall Sailing Cup Comes After Hard Battle.

(By a Staff Reporter)

McCRACKEN'S LANDING, Aug. 11 —Race predictions were completely upset when the Skidley, skippered by Graham Eastwood of Peterborough, slid over the finish line three-fourth of a length ahead of Ellsworth Flavelle's Cuddy Sark and won Stoney Lake's annual sailing classic at the McCracken's Landing Regatta Saturday afternoon. A veteran cup-winner, the Cuddy Sark had been a heavy favorite.

The Skidley's triumph in the race for possession of the W. T. Hall Open Sailing Cup came only after a hard battle over the entire course with the Cuddy Sark. Baby Bootlegger, in charge of Gordon Matthews, was a formidable entry crossing the line a good third. The Bloomfield boat, Ace, and two craft skippered by John Brewin and Don Fitzgerald made up the rest of the field.

The regatta, as all regatta's in this region so far this summer, enjoyed warm sunshine and a fair breeze. Under the able direction of Doug Hall a list of 19 events, expertly chosen to provide the most attractive program of paddling, rowing, swimming and sailing events for both sexes possible, was run off without a hitch. Other officials were Fred Jones, W. C. Ackerman and George Simser, judges; W. T. Hall and Fred Porter, starters; George McLeod and Bill Bailey, referees; Fred Score and Bud Strickland, numbers; and G. D. Jewett, C. A. Case, C. Strickland, Edith Mills and Mary Strickland. The meet was staged by the McCracken's Landing Regatta Association whose officers are C. G. Porter, honorary president; H. E. Ringel, honorary vice-president; Doug. Hall, president; W. C. Ackerman, vice-president, and Judge O'Connell, secretary-treasurer.

Cups For Prizes

A departure from the usual line of regatta prizes was effected by the Regatta Association through the provision of a handsome array of silver cups for winners of first and second places in all events. The cups were presented on the Wantasa Inn lawn

GIANT DIRIGIBLE 709 FEET LONG

Fifty-one Feet Shorter Than Distance Between Charlotte and Hunter Streets.

4,200 HORSE POWER.

Pace out the distance between Chambers and Aylmer streets on Hunter street and you will have covered a distance approximating within a few feet, the length of the giant British dirigible R-100, which cruised over the city in the early hours of this morning, and which is 709 feet in length.

Interesting comparisons were made by The Examiner in co-operation with City Engineer Roy H. Parsons with the idea of giving readers some method of making a comparison in an effort to arrive at a conclusion as to the airship's dimensions.

To name a more familiar section of the city it is explained that the distance between Charlotte and Hunter streets is 760 feet. Fifty-one feet longer than the air liner.

The airship's diameter around the widest point is 133 feet or a little over twice the distance from building-to-building on George street whose greatest width is 66 feet.

The most powerful locomotive in the British Empire, C.P.R. No 3101 boasts a horsepower of 3,685, but is far outclassed by the R-100's engines which can develop 4,200 h.p., with a cruising range of 3,500 miles.

In comparison with the length of the Cunard Aquitania, the R-100 is 159 feet shorter.

The giant British air liner has a passenger capacity of 100 people and has ample room for mail. Her cruising speed is 71.5 m.p.h.

In the last fiscal year Great Britain paid out more than $360,000,000 in unemployment relief.

Anglicans Cannot Endorse New Cabinet Unless Represented, ex-Chaplain States

OTTAWA, Ont., Aug. 11.—(CP)—"It is a matter of deep regret that the Hon. R. B. Bennett in the forming of his Federal Cabinet of portfolio has totally ignored the mighty contribution in thought, religion and culture persistently made to the national life of Canada by the Church of England", declared Colonel the Rev. R. H. Steacy C. M. G., former director of Chaplain services for the Canadian corps, in his sermon yesterday in All Saints Anglican church here.

"Certainly the Roman Catholic church, the Presbyterian Church, the United (former Methodist and Presbyterian) church should as far as possible be proportionately represented. But a Federal Cabinet of portfolios without a single representative of the Church of England's culture and thought is simply not a normal Conservative Cabinet and unless remedied, cannot be endorsed", said the preacher.

"It is fit and proper that you as members of the Church should take a deep interest in the Government of that part of the Empire in which you live. Politics is the science of Government. We all make our contribution to that science. Now it happens that the majority of the Church of England electors are supporters of the Conservative Party by birth and education."

SUGGEST NEW MOORING MAST FOR MONCTON

N. B. City Chosen as Possible Site in View of Aerial Developments.

AUXILIARY BASE.

Trans-Atlantic Airliners Would Still Use St. Hubert as Main Port.

OTTAWA, Ont., Aug. 11 (C.P.) — Possibility of further developments in connection with aerial communication between the United Kingdom and Canada which might necessitate the erection of another mooring mast in this country, probably at Moncton, N.B., was seen as a result of conferences held over the week-end between officers of R-100 and Government officials connected with air transportation.

St. Hubert, which is regarded as the best-equipped airdrome on the North American continent, would continue to be the base of such contemplated operations, but an auxiliary base nearer the Atlantic coast is favored as a means of further speeding up aerial activities in this regard. The city of Moncton, occupying a strategic position as a distributing centre, is looked upon as the most favorable site.

Captain Objects.

Speaking in Ottawa last Tuesday, Sir Dennistoun Burney, designer of R-100, declared that in order to guarantee some regularity in trans-Atlantic flights it would be necessary to establish an emergency base some hundreds of miles south of Montreal in order to avoid fogs and other meteorological conditions. Such a proposition, however, is understood to have been viewed unfavorably by Commander S. B. B. Colmore and Commander J. S. Booth, the captain and navigating officer respectively.

The point suggested by Sir Dennistoun Burney would make such a base in the United States and would thus destroy the idea of an Empire route. The officers of R-100, while agreeing that such an emergency base would be necessary, are inclined to the opinion that a suitable location could be found in Canada nearer to the Atlantic coast than Montreal.

The treacherous and uncharted vertical currents of the lower St. Lawrence which gave the R-100 a trying time on her trip to Montreal, could be avoided, it was pointed out, if the vessel made due south from Belle Isle to an inland point such as Moncton. From there the mails could be transferred to the existing air-mail planes and the ship could then proceed with her passengers. By plane the journey from Moncton to Monteral occupies little over three hours, a rate of speed which the airship could not accomplish.

Mast More Modest.

A mooring mast at Moncton need not possess the elaborate equipment of the one at St. Hubert, since its functions would extend no further than that of providing a stopping point for the vessel in order that the mails might be trans-shipped.

It is understood the possibilities thus envisaged are seriously engaging the attention of the officers of R-100 and that they are being put in possession of considerable information in this connection in order to make their report to the British Air Ministry. No representations will be made to the Canadian Government for those additional facilities until such a report has been transmitted and digested by the British Government.

TORONTO, Ont., Aug. 11.—James R. Layton, of the Ontario Agricultural Development Board died at his home here to-day, aged 65. He was born in Miramachi, N.B., and at one time practised law at Paris, Ont.

Real Courtesy

A very courteous letter was received this morning at the offices of the Chamber of Commerce, addressed to Frank G. Stinson, Manager. It was written on Department of National Defence stationery, and signed by R. Y. Booth, Squadron Leader of the R-100, posted in Montreal, and dated August 8. It read:

"Dear Sir:

"Many thanks for your kind telegram of congratulations, dated the 8th inst.

"If it is possible I hope to be able to bring the R-100 over your city when we carry out our flight to Toronto.

"Yours truly,

"(Sgd.) R. Y. Booth,

"Squadron Leader."

Considering the number of wires and telegrams he must have received from all over Ontario, this letter is a fair indication of the punctilious courtesy of the English official in dealing personally and promptly with all official communications.

ROTARIANS HEAR R. R. HALL, K.C.

Speaker Deplores Tendency of Present Generations to Drift Into Materialistic World.

READ ENGLISH LITERATURE.

Deploring the tendency of present day generations to drift into a world too materialistic, R. R. Hall, K.C., expressed a plea for more widespread and more diligent reading of the masterpieces of English literature and drama in an address to the Rotary Club at noon to-day. He used works of Shakespeare as a basis for his talk.

We are living in a very materialistic world, Mr. Hall said. Everything is in terms of speed and efficiency. An enormous advance has been made in the material world, but the world of thought has suffered. Sensational fiction, tabloid news and didactic information in a very much compressed form is now usurping the time which was formerly devoted to the reading and study of the masterpieces of English.

Quoting Lord Bacon's thought, "Reading makes a full man; writing makes an exact man; conference makes a ready man," Mr. Hall ontinued, pointing out for illustration the character understanding that can be gained through a study of Shakespeare.

One factor of Shakespeare's works which is particularly evident to the student is the understanding of human character demonstrated in them. Quoting from Macbeth and drawing a character portrait of Lady Macbeth, Mr. Hall pointed out the manner in which her character is perfectly portrayed by Shakespeare.

"The more often you read a play the more you appreciate it," the speaker claimed. "Each time you read it you see something new and different in it. Each work contains a vast fund of human knowledge which can be derived only by repeated study."

TORONTO, Ont., Aug. 11.—(CP)—A conference on local unemployment problems has been announced for this Thursday by Mayor Bert S. Wemp heads of Civic Departments and the unemployment bureau will confer with Controllers and representatives of the building trades with a view to starting construction projects in which Toronto citizens will be given first choice of jobs, according to the announcement.

THOUSANDS SEE GIANT AIRLINER PASS OVER CITY

Peterborough Citizens Crowd House tops, Streets and Hills to View the Great British Dirigible R-100 Which Passed Over City at 3.10 a.m.

SHIP TURNS NORTH AT BELLEVILLE AND FOLLOWS TRENT CANAL FROM FRANKFORD TO PETERBOROUGH

Sirens Scream and Whistles Blow to Waken the Slumbering Citizens—Bell Telephone Aids Examiner in Tracing the Movements of the Dirigible.

This morning at 3.10 (D.S.T.) thousands of watchers on Peterborough's housetops, streets, and hills heard a great roar from the south-west, saw man-made lights amidst the stars, saw a huge black-and-silver shape against the moon, and knew that the British dirigible R-100 was passing over the city.

Despite the fact that the giant air liner appeared a good two hours earlier than had been anticipated by reports up until 1.00 o'clock this morning, The Examiner was able to provide citizens with a half-hour's warning of the ship's approach. Yet, the majority of people here might never have seen the sky visitor had it not been for the alertness and initiative of a Bell Telephone Company night operator. When fragmentary and ambiguous reports of R-100's route from Ottawa had shrouded The Examiner office in doubt as to whether or not the ship would actually pass over this city, a series of telephone calls finally resulted in the blowing of factory and fire sirens at 2.30 a.m. when the monster craft was reported over Hastings and following the Trent Canal northward.

Had Left Ottawa.

Shortly after 10.00 last night the Canadian Press reported that the dirigible had left Ottawa and was headed for Carleton Place. Following this, no reports were available here for several hours, and it was impossible to ascertain the airship's exact route, although it was expected that she would proceed south to Smith's Falls, turn west, and follow the C.P.R. tracks through Tweed and Havelock, and pass over Peterborough between 5.00 and 6.00 a.m. on her way to Toronto, where she was due to arrive at 9.00 o'clock this morning.

Telephone calls were pouring into The Examiner office faster than the skeleton staff on duty could handle them. Residents of the city and people from all the neighboring countryside were clamoring for information regarding the great ship.

Constant applications from here to the Canadian Press and the C.P.R. had proved fruitless and the whereabouts of the R-100 was shrouded in the darkness of the night, when suddenly at about 1:00 o'clock the telephone jingled.

"The R-100 was reported over Smith's Falls at 11.45," stated the voice of a Peterborough operator.

"Fine!" returned The Examiner, "If you get any more news, will you let us know? We're being left in the dark here."

In a few minutes the 'phone rang again.

The Kingston operator had just announed that the British dirigible had sailed over that city at 1.15.

This was startling news for Peterborough, because it not only indicated an unexpected change of route, but pointed to the probability that the commander of the ship did not intend to pass over this city, but to proceed to Toronto via the lake shore.

At 1.30 the 'phone rang for the third time.

"The Napanee operator says that the R-100 is passing over that place at the present moment," was the announcement.

There was nothing to do now except wait and see whether or not the big dirigible turned north at Belleville or Trenton. If she did not, it was practically certain that she intended to miss Peterborough.

At 1:52 Belleville reported the R-100 over the roofs of that city.

There was a pause.

Turned North at Belleville

At 2:10 the telephone wires bore the information that a watcher at the C. N. R. station at Belleville had seen the dirigible turn north. This information made it almost certain

MOVE INDIAN LEADERS.

ALLAHABAD, India, Aug. 11 (C.P.) — Pandits Motilal and Jawaharlal Nehru, both former Presidents of the All-India National Congress, were removed from jail here today and taken to the Yeroda Prison at Poona, where Mahatma Gandhi is confined.

Sir Tej Bahadur Sparu, Indian leader, who with M. Jayakar, has been engaged on a peace mission to the Pandit Nehru, also left for Poona, where all will confer with the Mahatma.

EVERY COMFORT FOR PASSENGERS ABOARD AIRLINER

Stewards in Evening Dress Serve Chicken Dinner—Grand Moonlight Scenes.

ALL HAVE GOOD SLEEP.

Course Steered Down Lake Ontario After Cruise Over Toronto, Niagara.

ST. HUBERT, Que., Aug. 11.—The following message was received at the airport here from the R-100 at 2:45 p.m. D.S.T.: "Expect to reach mooring mast between six and seven o'clock this evening."

The ship was reported at the same time to have passed Morrisburg which is 92 miles by rail from Montreal.

ON BOARD H.M. AIRSHIP R-100, August 11 (C.P.) —The only comfortable means of transportation is by airship, in the opinion of passengers aboard this ship since leaving the mooring mast at St. Hubert last night.

After the thrill of leaving, one would have imagined himself on an ocean liner with this difference, there was no motion and hardly any engine noise.

We saw two squalls over and around Montreal, and simply dodged them by going south before dinner.

Stewards In Evening Dress.

Stewards in evening dress served an excellent dinner, consisting of chicken and ham, salad, bread, butter, cheese, biscuits and coffee and everyone thoroughly enjoyed it. When the coffee was served, the diners instinctively looked for their cigarette cases, but instead pulled out packages of gum.

The evening was spent quietly, four playing bridge and others watching the scenery until reaching Ottawa. It was a magnificent sight coming over the Capital, and then another thrill as Wing Commander R. B. B. Colmore and Commander Scott spoke to Premier R. B. Bennett, Major Steel to the wireless station, and W. A. Lawrence to an Ottawa newspaper.

The moonlight scenery over the Rideau Lakes reminded one of jewels on their best setting.

All on board had a good sleep and were up early this morning, shaved and had breakfast over Niagara Falls. The trip was then resumed to Toronto over Lake Ontario. We found it very bumby at this period, especially over Toronto itself, where we saw thousands around the City Hall

(Turn to Page 5, Please)

Faced With Liberty Convicts Play Hero

OSSINING, N.Y., August 11 (C.P.). — Confronted with the dilemma of risking a prison escape or letting four persons face possible death unaided, Sing Sing guards yesterday chose the former alternative. Four prison inmates temporarily released, rescued the Chief of Police of the New York Central Railway, his brother-in-law and their wives, as their rowboat was sinking in the Hudson River. Then they returned within the walls.

ACCIDENT TOLL OVER WEEK-END REDUCED TO SIX

Car Crashes Claim Victims at Whitby, Chapleau and Sudbury.

TRAIN KILLS ONE.

Lad of Four Drowns in Georgian Bay, Another at Southampton

TORONTO, Ont., Aug. 11 (C.P.).—The usual heavy toll of life from motor and drowning accidents in Ontario over the week-end, showed a marked decrease this week. Reports early this morning indicated three deaths from motor cars, two drownings and a man run over by a train, bringing the total to six deaths.

The dead:

Vera Mucci, 19, Toronto, killed in motor accident at Whitby.

Graham Holden, nine, Medicine Hat, Alta., drowned at Southampton.

William Powless, Brantford, run over by a train.

Jackie Thorn, four, Thornbury, drowned in Georgian Bay.

Rene Ielletier, six, killed in motor accident at Chapleau.

Elsear Paquette, Sudbury, killed by motor car.

BRITISH TROOPS BATTLE AFRIDIS

Two Days' Attack on Peshawar By 10,000 Hillsmen Fails

MANY KILLED.

SIMLA, India, Aug. 11 (C.P.). — Peshawar, north-western frontier key city, and far-flung outpost of the British Empire, remained to-day inviolate after two days' efforts by 10,000 raiding Afridis tribesmen to capture it.

Although a mass attack by the Afridis from beyond the Afghan border has never developed, British defenders, many of them Sepoys, or native Indian troops, have beaten back the tribesmen in several important sallies.

At least six Indian troopers have been killed in one action in the thickly wooded orchards of Hazarkhani. Heavier losses have been inflicted upon the raiders, who cut telegraph lines east and south out of the city, making communication with the outside world very difficult. Only sparse despatches came through.

PARALYSIS CASES SPREADING FAST ACROSS ONTARIO

All Victims Are Boys of Public School Age.

SERUM USED QUICKLY.

Lindsay Reports Three Cases—Oshawa Now Has Total of 10.

TORONTO, Aug. 11. — Infantile paralysis was reported in various Ontario centres yesterday and the Provincial Health Department is expected to be asked for help to stem the advance to-day. All victims are boys of public school age.

Three news cases were reported in Oshawa over the week-end, bringing the total there to 10. One patient is in a critical condition while three others have reached the stage of paralysis, despite injection of serum. There is also one case in Whitby township.

Brantford's 15th case was reported on Saturday, the latest victim being a boy who swam in the river here on August 3, and then went to a farm to visit for a week, returning with the disease. Eleven of the cases in that city—two of which have proved fatal—have developed in boys who have been swimming with other children. The Brantford civic swimming pool and the Y.M.C.A. tank have been closed, and the health department has now issued a warning about river bathing.

Lindsay over the week-end reported three cases. In each, serum was promptly used, and it is hoped to check the spread there.

GEN. McRAE TO RETIRE.

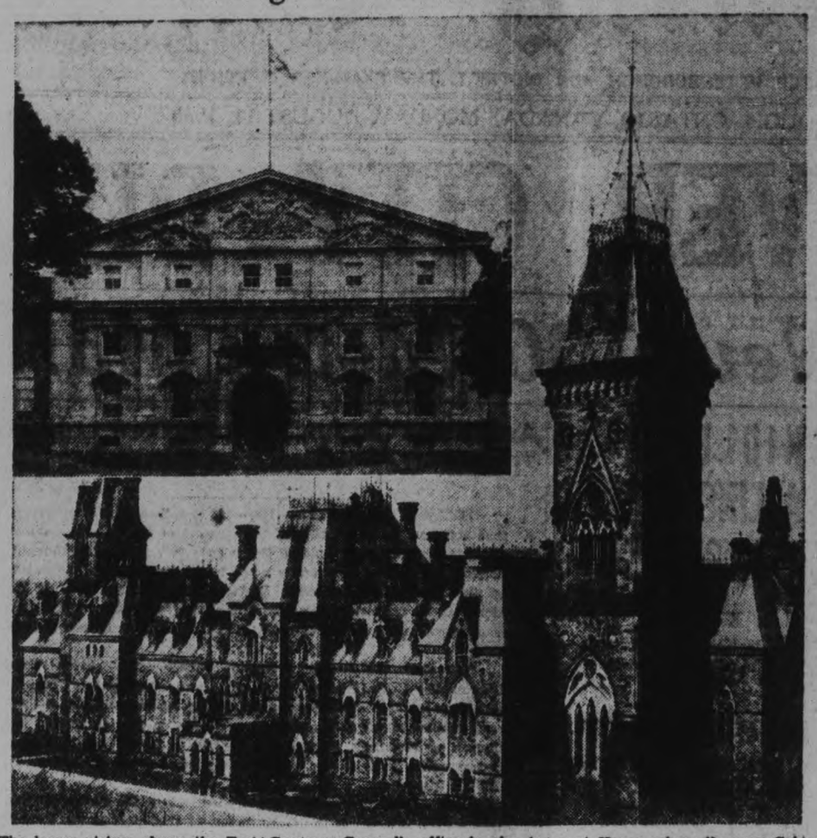
WINNIPEG, Man., August 11 (C.P.). — Declaring his firm intention of retiring into private life, General A. D. McRae, Vancouver, organizer of the Conservative election campaign, who missed re-election by a small margin, passed through Winnipeg to-day homeward bound.

Men Defeat Horses In Endurance Race

MONTREAL, Que., Aug. 11.—(C.P.)—Men have superior endurance to horses over a long stretch of time, it was shown here when all the five human teams to finish in a 26 hour relay endurance race finished ahead of six teams of horses entered.

The team of H. McNamara of Brisbane, Australia and Ollie Wantilinen of Finland, won the race. They beat the horses by eleven miles and covered 211¼ miles in the 26 hours. This distance was claimed a new record.

Buildings Buzz With Excitement



The larger picture shows the East Block of the Parliament Buildings where the new Premier, Hon. R. B. Bennett, will have his office. The Governor-General's office is also in this building, immediately over the entrance. Inset is a picture of the rather austere entrance to Government House, where the new Cabinet was sworn in.

BOMB EXPLODES IN TEXAS BANK KILLING THREE

Stranger Demands $10,000 From Fort Worth President.

HAD PRICE ON HEAD.

Satchel of Nitroglycerine Falls While Cashier is Getting Money.

FORT WORTH, Texas, Aug. 11 (C.P.). — A nitro-glycerine bomb dropped on the floor of the Stockyards National Bank on Saturday by a stranger who had demanded a $10,000 loan, killed Fred L. Pelton, vice-president and cashier, and the unknown man who sought the money.

The stranger entered the bank just before noon, carrying a satchel, and approached the desk of W. L. Pier, president of the bank.

"I need $10,000," he told Mr. Pier. "I am desperate. I want the money quick; there is a price on my head and I do not care what happens to me. There is nitroglycerine in this satchel."

He warned Mr. Pier not to call the police.

Mr. Pelton then engaged the stranger in conversation, while Mr. Pier went into a money cage and told a teller to count out $10,000 currency. While the president was telephoning the police, the explosion occurred. Mr. Pier had planned to give the $10,000 to the man and have the police attempt to capture him outside the building.

GOV'T BUILDING BURNS.

TORONTO, Ont., August 11 (C.P.)—Damage estimated at $50,000 was caused by a spectacular fire here yesterday which gutted an unoccupied five-storey brick building owned by the Dominion Government on Lake near Bay Street.

It is believed tramps, using the building as a shelter, are responsible for the outbreak, either through smoking or trying to make a fire for cooking purposes.

Will Wed Shortly

Interesting camera study of Jane Norton, eldest daughter of Mrs. Porter Norton of Buffalo, who is engaged to marry Douglas R. Clarke, youngest son of the late Lionel H. Clarke, former lieutenant-governor of Ontario, and Mrs. Clarke, the wedding to take place shortly.

HEAVY PEACH LOSS EXPECTED

Drought Causes Crop to Drop From Trees Partly Filled Out.

Expect Low Grade Surplus.

GRIMSBY, Ont., Aug. 11 (C.P.)—Niagara Peninsula fruit growers expect to suffer tremendous losses this year in their crops. As a result of the long-continued drought peaches are not filling out but are dropping from the trees. Growers are almost unanimous in predicting a huge surplus of low-grade fruit.

The situation has become so serious in the Winona, Gramsby and Beamsville districts that growers and shippers called on directors of the Rum-robin Distilling Company, who have erected a large fruit distillery at Grimsby, asking if they would be able to handle any culled peaches this season. Dr. G. M. Sutherland of Toronto, president of the company, told the growers that the plant was completed and almost ready to operate.

VANCOUVER DOCK SWEPT BY FIRE, $1,200,000 LOSS

New C.N.R. Structure Was To Be Opened In Two Days.

SPECTACULAR SIGHT.

Blaze Envelopes Whole Waterfront Before Firemen Arrive.

VANCOUVER, Aug. 11 (C.P.)—With an estimated loss of $1,200,000 the new Canadian National Railway dock at the foot of Main Street was destroyed by fire yesterday afternoon, only two days before it would have been turned over by the contractors to the government. One of the most spectacular conflagrations in the history of the waterfront, the fire broke out a few minutes before 4 o'clock and in less than half an hour the entire dock was a mass of smouldering ruins.

Originating in the northeast corner of the dock at the extreme end, presumably beneath the floor, the fire swept with dramatic suddenness the entire length of the structure. Only the new ramp at the entrance escaped the flames. A watchman at the end of the pier was the first to notice the smoke, which burst into flames as he ran south giving the alarm. So swiftly did the fire envelope the structure, the watchman was barely able to keep ahead of the flames as he ran.

There were no boats tied up to the pier at the time of the outbreak, but added loss was sustained by the Northern Construction Company when $50,000 worth of construction equipment which had been used in building the new dock was destroyed by the flames. Officials announced that practically all loss was covered by insurance.

TWO CAPTAINS ARE SUSPENDED

Mantadoc and Yorkton Skippers Reduced to Mates After Collision.

LACK OF EXPERIENCE.

MONTREAL, Que., Aug. 11.—(CP)—The Captains of the Yorkton and the Mantadoc, which were in collision on July 10, off Whitefish Point, Lake Superior, have had their certificates suspended until the end of this year by the Dominion Wreck Commissioner Captain L. A. Demers, the Court recommended that they be granted mates "certificates during the suspension. The evidence did not demonstrate any 'wilful neglect, obstinacy or indifference, but a wrong interpretation of the meaning of the rules of the road and their application due to lack of experience, being viewed by the Court as a culpable error of judgment", Captain Demers stated.

The Captains concerned are F. M. Burmister of the Yorkton and C. B. Kirk of the Mantadoc, as a result of the collision the Yorkton, of the Matthews Steamship Company, was later beached and lost to the company. The Mantadoc belongs to the Patterson Line.

More than 125,000 pounds of shelled peanuts are being shipped every month from Darien, China.

Airplanes are being used in South America to scatter insecticides over orchards.

Robt. Fair & Co. Ltd.

ON A MOTOR CYCLE AT 76

Yet He Had Gout

TILL HE FOUND KRUSCHEN

"There goes a man who can tell you all about gout." If you heard this remark, you'd probably look for the victim in a wheel chair. But you'd see, instead, this mile-eating motor-cyclist and his sprightly passenger. And you'd be even more surprised to learn that it was the old gentleman on the rear seat who once suffered "unspeakable agonies." Read how he left his gout behind.

"For many years I was a martyr to gout, suffering unspeakable agonies. Then my relative recommended me to take Kruschen Salts, with complete success. I have never since had an attack, and, with the exception of an occasional twinge during the earlier part of the period named, I have been absolutely free from gout now for a long time, but I still take the little daily dose, 'prevention being better than cure.' I am now in my 76th year, and you should see me 'up' on the rear seat on my son's motor-bike, I have travelled with him in this way for many hundreds of miles, so there's life in the old dog still!"
—C. G. J.

Gout, like rheumatism and lumbago, has its origin in intestinal stasis (delay)—a condition of which the sufferer is seldom aware. It means the unsuspected accumulation of waste matter and the consequent formation of uric acid which is the generic cause of all rheumatic complaints.

Kruschen Salts keep the organs of the body working actively so that all clogging impurities are removed from the system. And the result? Internal cleanliness—a pure, uncontaminated bloodstream, free from uric acid and those other body poisons which are responsible for so many obscure conditions of ill-health.

Kruschen Salts is obtainable at all Drug Stores at 45c. and 75c. per bottle.

MILLBROOK GIRLS VISIT RICE LAKE

C.G.I.T. Group Entertained at Summer Home of Rev. R. J. and Mrs. Merriam.

HIKE OVER TOWER FARM.

MILLBROOK, Aug. 11. (Examiner Correspondence). — "Wabondon" the summer home of Rev. R. J. and Mrs. Merriam, of Myrtle, Ontario, the location being on the "Tower Farm" property at Rice Lake, was the scene of a happy gathering on Wednesday of last week, when the owners were host and hostess to a number of the members of the Wide Awakes group of Canadian Girls in Training, of Saint Andrew's United Church Millbrook, who were invited to spend the day at this delightful resort. The invitation included also Mr. and Mrs. J. Albert Brown, who are friends of the group, and who entertained Rev. Mr. Merriam at their home when he supplied the pulpit of Saint Andrew's church last summer during the time the pastor Rev. W. W. Jones, B.D., was on his holidays.

Mr. and Mrs. Merriam warmly welcomed their guests upon arrival at the cottage shortly after ten-thirty a.m., and the introduction to their four daughters, Misses May, Ruby, Eva, and Pearl, all of whom are C.G.I.T. members, and to the young son of the family, Rupert, was one of the pleasing features connected with the outing.

Mrs. Merriam is actively engaged in C.G.I.T. work in her home circuit, holding a position of leadership, hence her interest in the local group, and the gracious invitation extended for the visit to her summer home.

Fine Bathing Beach

The extreme heat of the day, the fine sandy beach, and the fact that the water deepens gradually on this section of the lake front, permitting wading out to a considerable distance with absolute safety, all added to the joy of the dip in the lake both morning and afternoon. Rev. Mr. Merriam is an expert swimming instructor and has served in this capacity at more than one of the annual boys' camps, under church supervision, gave some of the guests, who are non-swimmers, a good start in mastering this important form of recreation during the time spent at the lake on Wednesday.

"Wabondon" meaning "Swift Runner" a name bestowed on Rev. Mr. Merriam's father by the Indians at Norwood where the family homestead is located, and where the elder Mr. Merriam practised medicine, has a wide verandah running round its front and one side, and here the long dining-table was laid, eighteen being accommodated at dinner time, and after the arrival of a third car-load early in the afternoon, twenty-four were seated for the evening meal. Healthy appetites made short work of the abundance of good things provided, the big platters of deliciously-cooked fish, freshly caught the previous evening, being a dinner-menu item that was particularly popular.

Hike Over Farm

Boating, fishing and a hike over the Tower Farm property to points rich in historic interest, claimed the attention of the guests during the afternoon and early evening, it having apparently been fairly well established that there may be found the scene of some of the happenings of pioneer days as described in Mrs. Traill's book, "Lost in the Backwoods."

It was a very happy party that extended warm thanks to their host and hostess for a delightful day's outing before the car-loads left on their homeward way. Among those who motored to the "Wabondon" party on Wednesday were: Mr. and Mrs. Albert Brown, Misses Marian O'Brian, Wilma Fallis, Bernice Thornton, Elsie Spence, Hazel McMahon, Margaret Fallis, Martha Earle, Charlotte McMahon, Mary Burnham, Bryar Edmunds, Margaret McConnell, Dorothy and Madeline McDowell and Pearl Burnham.

QUICKLY BUILDS UP THIN SCRAWNY WOMEN

Would you like to quickly add pounds of firm, attractive flesh—banish nervousness and irritability—fill that tired out body of yours with amazing strength and energy?

Do you want to bring out your hidden beauty—acquire a smooth and clear skin—bright eyes reflecting your glorious health within?

Then take McCoy's Cod Liver Extract Tablets—just chock full of powerful flesh-adding, strength-creating, rejuvenating and health building elements.

Who'd ever think the livers of lowly Codfish would yield such vital health essentials yet they do and for years doctors and world's greatest medical authorities have prescribed them for underweight, rundown men, women and children.

You can get McCoy's Cod Liver Extract Tablets at McDermid & Jury, McDermid's, Bond's, Lynch, and Payne's, or any drugstore. 60 sugar coated tablets 60 cents and if you don't gain at least 5 lbs. in 30 days—money back.

ENDS PILES QUICK

Pile sufferers can only get quick, safe and lasting relief by removing the cause—bad circulation of the blood in the lower bowel. Cutting and external remedies can't do this—an internal medicine must be used. HEM-ROID, the prescription of Dr. J. S. Leonhardt, a specialist, succeeds, because it relieves the blood congestion and strengthens the affected parts. HEM-ROID is sold by druggists everywhere, and has such a wonderful record of success right in this city that McDermid & Jury, Bond's Drug Store, says to every Pile sufferer, try HEM-ROID at my risk. It must end all Pile agony or you get your money back.

• • •

Mrs. Anderson of Hamilton is staying with her daughter, Mrs. W. Petrie, Murray street.

• • •

Mrs. N. Pethick has returned to Toronto after spending her holidays with her sister, Mrs. M. Pilling of Wolfe street.

• • •

A pleasant evening was spent on Saturday at the home of Mr. and Mrs. A. Cooke, Westcott street, when Mr. Reg. Hardiman and Mr. Fred Lucas entertained a large number of friends prior to their departure, on Thursday, on a visit to England. Games were included in the evening's program, also solos by "Reg" and "Fred" with Miss Betty Cooke at the piano. Several presentations were made to Mr. Hardiman and Mr. Lucas, with the combined good wishes of the gathering. Mr. Lucas has been on of the most reliable players on the Brinton Football team and will be greatly missed by his team-mates.

• • •

Members of St. George's choir, accompanied by the Rector and Mrs. Hughes, held their annual picnic at Cobourg on Saturday afternoon last. The weather was ideal and the outing was thoroughly enjoyed. The greater part of the afternoon was spent on the beach, after which the party adjourned for tea. This was served at the Blue Bird Tea Rooms where the members were the guests of Stanley McBride, also a chorister, who is holidaying with relatives in Cobourg. The thanks of the guests were extended to the young host by the Rector, after which another free hour was spent. Leaving Cobourg about eight o'clock a safe return trip was made home. Mr. John McWilliams, and the Rev. J. L. Hughes, kindly provided transportation for the party.

• • •

Mrs. J. E. Kearney and daughter, Lottie Kearney, of Young's Point, are in the city to-day.

• • •

Mrs. J. C. Peel, Bonacord Street, wishes to announce the engagement of her sister, Josephine Ann, R.N., of Nyack, N.Y., youngest daughter of the late Mr. and Mrs. Michael Watters, to Louis Francis Junge, eldest son of Mr. and Mrs. L. J. Junge, 31 Lydacher Street, Nyack, N.Y. The marriage to take place in St. Ann's Church, Jefferson Street, at nine a.m., September 1st, 1930.

• • •

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

WE HAVE become so accustomed to the idea of specialized diets, that it comes as something of a surprise to learn that nowadays a mixed diet is correct.

• • • • • • •

For instance at one not far-distant time, white flour was decried. It was too refined, too much of the nutriment was eliminated in the process to preparation. More of the grain should be retained and the use of whole wheat flour was a solution for wholesome breads.

• • • • • • •

You may remember what we thought of it! Many of us rebeled. Not that we disliked whole wheat bread, but that we liked white flour breads better. Also we found variety of flours best of all.

• • • • • • •

To-day after much experimenting and investigation it has been discovered that white flour, as well as whole wheat, is wholesome and nourishing. Both supply energy to the human body.

• • • • • • •

So if you find that white bread pleases your palate best, you can eat it with the old-time zest and know you are not cheating your physique of a necessary ingredient.

• • • • • • •

One idea that was prevalent was that white flour was too smooth! It offered no resistance but cloyed in the stomach ,and the coarser flours such as whole wheat, bran, graham flour, etc., had the roughness, then considered of major importance.

• • • • • • •

No wonder the housewife became wary of using white flour since it was, in past years thought to be lacking both in nutriment and in roughage. She fed her family punctiliously on the darker flours, and insisted that she was doing the right thing. Physicians and chemists who are experts in food values, encouraged her in so doing.

• • • • • • •

Then came a revelation. Not all stomachs could stand the roughage. In correct proportions it is needed for health, but this specializing of diets so that roughage was over-stressed proved deleterious.

• • • • • • •

More investigations and experiments were needed with the result that white flour is again put on the wholesome foods list.

• • • • • • •

Fortunately whenever a food is advised against, results of its discontinuance are watched, and if there are enough exceptions to the good effects, further investigation is made and reasons for the trouble are sought.

• • • • • • •

It is not alone in the matter of flours that a revolution in specialized food diets has come. To-day it is appreciated that varied menus are not only more palatable, but they are actually needed.

• • • • • • •

By following nature's dictates as to what agrees and what disagrees with individuals in the matter of foods, health is best preserved.

THE RHYMING OPTIMIST

By Alice Michaelis

TIME IS A TREE

Time is a tree,
Sweet flowering
The whole year round,
From Spring to Spring
Its blossoms are
For you, for me
To pluck from time
The flowering tree.

So bright and fair
Always it gleams,
It seems to bear
Not blooms, but dreams;
And even as
Its gifts we take
Each changes to
A form we make.

Time is a tree;
Night, day, its flowers
It gives us dark
Or shining hours.

LADY HEATH ON TOUR.

NEW YORK, N.Y., Aug. 11 (C.P.)—Lady Mary Heath, who was severely injured last year in the crash of her plane at the Cleveland air races, sailed yesterday for a three months' tour of Europe. She said she had entirely recovered from her injuries.

IN PETERBOROUGH CHURCHES

ST. JAMES UNITED

The Young Peoples' Society of St. James' United Church were in charge of the Sunday evening service, in the absence of the pastor, Rev. A. E. Moorhouse.

The service was led by Mr. Stan. Church who was assisted by five other members on the platform.

Short addresses were given by Misses Mabel Dulmage and Jean Patterson whose respective themes were "Courage" and "Prayer". The scripture lesson, chosen from the fifth chapter of St. Mark's Gospel, was read by Miss Marjorie Hogan, and prayer was offered by Miss Alice Scott, Lloyd, May and Stan Church. The Young people were also responsible for the splendid music with Harold Kitney, organist and choir leader. Misses Marion and Marjorie Baldry rendered a beautiful duett, "Mansions of Glory" and the full junior choir led the opening service of song and gave two fine selections. The ushers were also young men of the church.

Saskatchewan Couple Wed in Knox College Chapel, Toronto

Among the interesting summer nuptials to take place in Knox College Chapel, Toronto, was that of the happy couple pictured above. They are Miss Irene Margherita Abbott, daughter of Mr. and Mrs. William Abbott, Rock Glen, Saskatchewan, who became the bride of Mr. Allan Lewis Brown, son of Chief Justice and Mrs. Brown of Regina.

Donates Rest Home

Mrs. John A. Stewart, of Perth, Ontario, past president of the National Chapter of the I.O.D.E., has presented to the Sisterhood of St. John the Divine a rest home and motor boat on Rideau Lake. A feature of the work of the Sisterhood is a Sunday School by mail to 3,500 children on the Prairies.

That Body of Yours

By James W. Barton, M.D.

SLOW HEALING ECZEMA.

There is no question but that the number of cases of varicose veins throughout the country runs into thousands.

Some of these cases are complicated by slow healing varicose ulcers, and sometimes with that persistent skin ailment, eczema.

By careful treatment by rest and medicine some of these ulcers heal and the eczema clears up. Unfortunately the ulcers and eczema frequently come back, and practically every physician has one or more of these unsatisfactory cases on his hands.

I have spoken before about the wonderful success that has attended the use of injections of quinine, mercury, and other preparations into the veins in the treatment of varicose veins and that this method is now used all over the world.

An Italian physician Dr. U. Cavallucci reports experiments on 156 patients with varicose veins in the legs, 89 of which were complicated by eczema and 67 by ulcers.

He reports that eczema and ulcers of this kind, treated by these injections, combined with the usual external applications, heal more rapidly than when treated by other methods.

Further, unlike former treatments, the cure is much more enduring, the number of relapses being very much less.

It may be that you have been troubled with varicose veins in the legs, with eczema or perhaps with ulcer, and have wondered why your doctor did not use the injection method, but continued to use other methods.

Now the injection method is not suitable for all cases, Dr. Cavallucci pointing out that it is only the superficial and not the deep veins that can be successfully treated in this manner.

Where the individual is very very heavy, is of advanced age, has any heart or kidney ailment, any tendency to diabetes, or has high blood pressure, the injection method should not be used.

However, it is gratifying to know that so many of these old ulcers, and old eczemas that come, go and come again in such a discouraging manner are now being treated successfully by injecting the varicose veins about them.

This will mean much in the lives of the individuals who have had to spend so much time off their feet, which by increasing the weight made the healing process very slow.

QUEBEC SURPLUS HIGHER.

QUEBEC, P.Q.—The Province of Quebed finished the fiscal year of 1929-30 with a surplus of $4,269,686. Ordinary receipts for the year reached a record high figure of $43,581,984.51 while ordinary expenditures totalled $39,312,297.56.

YOUNG PRIEST IS ORDAINED

Bishop O'Connor Conducts Impressive Ceremony at St. Peter's Cathedral.

THREE MADE SUB-DEACONS.

At a Pontifical Low Mass celebrated at half past ten o'clock yesterday morning in St. Peter's Cathedral, His Lordship, Rt. Rev. Denis O'Connor, D.D., LL.D., Bishop of Peterborough, performed the ceremony of ordaining to the priesthood Rev. Frederick Foote of Toronto, and of raising to the sub-deaconate of the church three young members of the Congregation of St. Basil, Toronto: Norman Murphy of Sandwich, George Fishiff of Paris, and Terence McLaughlin of Belleville. As subdeacons, they are recipients of Minor Orders and will eventualy be ordained as priests of the Roman Catholic Church.

His Lordship, in the deep crimson chasuble and tunic which commemorated yesterday the Feast day of St. Lawrence, Martyr, performed the ceremony, assisted by the Rev. J. J. O'Brien, pastor of the Church of the Sacred Heart, and the Rev. J. T. Finn of St. Peter's Cathedral.

The Rev. Father Foote was assisted by the Rev. Dr. O'Leary, rector of the former's parish church in Toronto, while the sub-deacons were assisted by the Rev. Father Bondy, Superior of the Scholastica of the Basilian Order in Toronto. The Rev. Kent Killen of Calgary, formerly of Ennismore, was present in the sanctuary. Father Foote, whose ordination with a number of other young men in Toronto was delayed this year owing to the illness and subsequent death of his father, was ordained for the diocese of Calgary, where he will be stationed.

The Rev. Paul Costello, rector of the Cathedral, speaking briefly during the ceremony, extended the felicitations of the Bishop and of the congregation to the young men and to the mother and family of the Rev. Father Foote. He also welcomed the Rev. Father Bondy.

At the conclusion of the ceremony, Father Foote gave his blessing to his mother and other members of his family, then to members of the congregation.

The High Altar was very beautiful with a profusion of tall, flame-colored gladioli and lighted candles.

C.P.R. OUTING IS HELD IN ORILLIA

Over 2,000 Attend Havelock Recreation Club's Fourth Annual Event.

DAY OF SPORTS.

HAVELOCK, Aug. 11. (Examiner Correspondence)—The fourth annual picnic of the Havelock Canadian Pacific Recreation Club to Couchiching Park, Orillia was held on Thursday, Aug. 7th and was as usual an all round sucess.

Despite the early morning shower which fell as the picnickers were on their way to the train at Havelock, the two special trains provided for the use of the club, were well packed before arrival at Lindsay, their last stopping place. The one train was a non stop special, with only passengers from Havelock and district aboard. This consisted of fourteen coaches, packed to their utmost capacity, with old and young, many of whom had attended every picnic to date, and determined not to miss one of the good times provided by the Recreation Club.

The second train, leaving twenty minutes later, had ten coaches, and collected passengers en route, as far as Lindsay.

More than one thousand adult tickets were sold, and children were carried free, and altogether were about two thousand on board the two trains.

Ice cream cones, chocolate bars, and small novelties, were freely distributed by the club at the picnic grounds free of charge.

Ten jolly clowns, members of the club provided amusement for young and old, on the train and at the grounds. Their funny antics, and various arguments and songs, kept the crowds in kinks of laughter. The girls' softball team, attired in clown costumes of black and gold, the club colors, gave a colorful note to the occasion. Nothing was left undone that could contribute to the enjoyment of the club guests.

Three softball games, a tug of war, a horseshoe pitching contest, and twenty-one numbers of small sports were run off. Beautiful and costly prizes were awarded for these events to the winners to third place.

Messrs. L. G. Hagerman, Wm. Hitchens, and John Evans, were the capable sports committee, and the events were run of with mathematical precision, beginning sharp at one o'clock.

Race Winners

Following are the winners of the small sports:

Boys' fifty yards race, 8 years and under—1, A. LeBarr; 2, J. Brownell; 3, A. Roy.

Girls' 50 yards race, 8 yrs. and under—V. Pierson, D. Martin, R. O'Toole.

Boys' 50 yds. race, 10 yrs. and under—1, C. Barnes; 2, F. Sheehan; 3, H. Goden.

Girls' 50 yds. race, 10 yrs. and under—E. Barnes, D. Gray, I. Jones.

Boys' 75 yds. race, 12 yrs. and under—J. Tupper, W. Hassenphlug, L. Fair.

Girls' 50 yd. race, 12 yrs. and under—K. Heifner, L. Barnes, T. O'Toole.

Boys' race, 100 yds., 15 yrs. and under—C. Waters, C. Stevenson, L. Humphrey.

Girls' 100 yds. race, 15 yrs. and under—D. Lee, H. Bedford, M. Hassenphlug.

Boys' 100 yds race, 18 yrs. and under—F. McLaughlin, W. Steenburg, R. Wake.

Girls' 100 yds. race, 18 yrs. and under—H. McGee, R Dunham, M. Hassenphlug.

Fat ladies' race, 100 yds.—Mrs. Sutton, Mrs. Hoffman, Mrs. Wilson.

Men's open race, 100 yds. — W. Heffernan, B. McGee, R. Green.

Single ladies' race, 19 years and over—Miss Higgins, Josie Sampson, Miss Lockhart.

Married ladies 'race, 75 yds.—Mrs. Knox, Mrs. Lemkay, Mrs. Heffernan.

Pensioners' race—Isaac Barlow, H. Falkner, D. Wanless, J. Howe, C. Stinson.

Long service men's race, 75 yds., for men twenty years or more in service of C.P.R.—J. Moore, L. Hagerman, J. Anderson.

Balloon race, for the ladies—Mrs. Beamish, Ella Lockhart, Mrs. C. Lemkay.

Winners of he horseshoe pitching contest—Messrs. Doughty and Pinks, representing Havelock.

Tug-of-war — Between Havelock and Port McNicholl, won by Havelock.

The girls 'softball game was won by Port McNicoll girls by a score of Havelock 8, Port McNicoll 20.

The men's softball game was won by Port McNicoll men, the score being, Havelock 11, Port McNicoll 12.

Tiny Girl Injured

The committees in charge of the various events are to be congratulated on the splendid way in which all arrangements were made and carried through. The two trains were back in Havelock well before eleven o'clock, and only one small accident had occurred—a little tot three years old was knocked down by an automobile in the park, and although it was rumored that she was badly hurt she sustained only a slight shaking up and a few minor bruises.

SIX MONTHS FOR RECKLESS DRIVING.

COBALT, Ont., Aug. 11 (C.P.). — Convicted of reckless driving in connection with a motor crash here, Stanley McIntosh, of Kirkland Lake, was sentenced by Magistrate Atkinson to six months' hard labor. "This sort of thing must be stopped," the Magistrate said.

MONDAY, AUGUST 11, 1930

THANKS TO "CENTRAL!"

Peterborough's greeting to the British dirigible R-100 at three o'clock this morning and the timely announcement of its approach to this sleeping city were due in a very large measure to the gracious co-operation of the night staff of the Bell Telephone Company, and especially to the vigilant assistance of Miss Edna Dingman.

Up to midnight The Examiner was unable to obtain through its news channels any definite information of the expected arrival of the big airship. At that hour it was understood that the R-100 would reach Peterborough between 5 and 6 a.m., and plans were made on that assumption.

It was thought that the ship would follow the C.P.R. from Smith Falls to Peterborough, and would coast along at a comfortable time-killing speed. The local discovery in the change in the route to Kingston and along the lake front to the mouth of the Trent River was made by Miss Dingman after a discussion with The Examiner in which it was admitted that the dirigible's course and time was not known here.

Miss Dingman picked up the path of R-100 as it was passing over Kingston, and the time from Ottawa suggested a rate of progress that would bring it to Peterborough several hours before five o'clock. She verified these facts, and reported the dirigible's arrival at Napanee, Deseronto and Belleville. This intelligence was doubted by several citizens who were keenly interested in the flight, but Miss Dingman found out that west of Belleville the ship had turned north. She set a watch on both the lake shore route to Cobourg and the Trent River course at Frankford; and in a short time reported it over Frankford. Next she called upon Campbellford and Havelock for news, and also asked Hastings to keep watch, and when word came from Campbellford of the ship's presence over the Trent town, The Examiner's opinion that the R-100 was following the river and Rice Lake water to the Otonabee River was confirmed beyond reasonable doubt. It was then that the word was given to the factories to awaken the city.

The Examiner had hesitated about arousing the people possibly several hours before the expected time of arrival, but the Bell Telephone's sensitive antennae reached out and gave Peterborough a splendidly exact service. It is more than possible that without Miss Dingman's early clue we might have missed the magnificent spectacle and imperial salute of the R-100 altogether.

The Examiner and the citizens who shared in the wonderful moonlight vision of the great dirigible are deeply grateful to Miss Dingman and the staff of the Bell Telephone Company.

PROFESSIONS WELL REPRESENTED.

The legal profession seems to have done unusually well by itself in the federal elections.

When the House of Commons meets in September seventy lawyers will answer the roll call, and nine of them are in the Cabinet.

No one covets the gentlemen of the bar all the honors they can corral. They at least should be a helpful and no doubt vocal group by reason of their study of history, jurisprudence and constitutional development.

But, it is rather strange that an agricultural Province like Quebec should be represented by twenty-seven lawyers, nearly half the number of members of Parliament from that Province. This is a large disproportion in view of the preponderance of farmers as a vocational group in the Eastern Province.

Ontario contributes nineteen lawyers and fifteen of the twenty-nine doctors in the House, in which there are also forty-four farmers, fourteen from this Province.

Organized and unorganized labor presented such a dearth of material to Premier Bennett that he was forced to go to the Senate for a successor to Peter Heenan, the former locomotive engineer.

No doubt the interests of labor will receive full consideration in the new Government; and there certainly isn't a shadow of doubt that, in so far as the House of Commons can affect their interests, the lawyers and doctors of Canada will not suffer.

A SOVIET FATHER.

A flaw in the indomitable communism of Soviet Russia has recently been discovered in the story that Joseph Stalin exiled his son as a penalty for marrying a mere seamstress.

This news item in the reliable Chicago Tribune is somewhat reminiscent of the anecdote of the Irishman, (or was it a Scotsman?) who was willing to subscribe to the socialistic principle of the equality of ownership of property up to the point where he would have to surrender possession of his own cow.

Joseph Stalin is usually mentioned as the chief dictator in the Soviet oligarchy, and is secretary of the Communist Union. Stalin, Kalinin and Rykoff, these are in a sense the Moscow triumvirs.

One of the alluring aspects of communism to the proletariat is its tenet of equality, political and otherwise, and while that has been proclaimed as a quintessential actuality among the members of the Soviet, the rank and file and its elected executive, apparently the old Adam has not been eradicated even from such an exponent as Joseph Stalin.

After all the blood they shed and the heinousness of their regicide and the slaughter of the Czar's family, there is manifestly a spark of humanity left in the Bolsheviki, if Stalin be a specimen of them.

Two years ago, his son, Yasha, then twenty, revolted against continuing his studies in the Moscow Technical School. His father engaged a private tutor, but again the youth revolted, declaring that he wanted to enjoy himself.

He met a pretty seamstress and married her in spite of his father's hopes for a marriage with the daughter of an important Kremlin commissar.

Secret police uncovered the marriage and Yasha was sent under guard to a town in the Caucasus where he is now said to be working as an electrian's assistant. No one knows what became of his bride.

This incident emphasizes the fact that no photograph of Stalin's family has ever appeared in any newspaper of Soviet Russia. The very existence of his wife and son is known only to a handful of people. This maintenance of ironclad secrecy around the private lives of Stalin and his innermost group is a definite Soviet policy. As a result, it is supposed to concentrate public attention on their political acts rather than on their personalities.

In the greatest experiment of communism the modern world has witnessed, its industrial enterprises may be proceeding with a fair measure of success, but its innate weakness needs no better illustration than Joseph Stalin's putting his heavy foot down on his son's romance with a "mere seamstress."

QUEBEC'S REPATRIATES.

Those who are interested in the immigration problems of Canada and who have lamented the emigration of thousands of our people, especially of our youth, to the United States, will no doubt be impressed by the news despatches that inform us of the return to Quebec of large numbers of French-Canadians who had been attracted to the New England district.

The extent of this repatriation is indicated by a report from Nashua, N. H., which says: "According to Rev. A. S. Dechenes, in charge of the New England office of a Quebec colonization agency in this city, during the last six months between 500 and 600 families, totalling about 2,300 persons, have departed from New England to take up farms in their native Quebec."

It is further stated by Guy Gaudette, of the Canadian Government Information Bureau at Manchester, N. H., that 1,500 families are a conservative estimate of the number of departures which will follow within the next six months all bound for Quebec.

The Provincial Government's Bureau of Repatriation is the most active in stimulating this return of Canadians, some of whom are farmers and others have been textile workers.

It may be that Ontario's people who have crossed the border have as a whole met with more financial and also more social success and contentment than have these Quebec migrants. Probably the Ohio and Michigan and New York opportunities were more substantial and enduring than those of Rhode Island, Connecticut and New Hampshire.

Whatever be the differential factor, there have been no signs of repatriation of former Ontario natives comparable with the movement back to Quebec. The industrial depression in the United States has forced many of our people to come back home, but apparently their stay is to be, in most instances, only for the duration of the straitened period of unemployment.

Quebec seems to be going after its former sons and daughters, even assisting those who need money to buy livestock and machinery for farming. Here in Ontario during the election some references to those who were back from the United States sounded rather reprehensive or complaining to the extent that our own unemployment situation was being aggravated by these idle hands from Detroit and Cleveland and Buffalo.

The people of Ontario are not responsible for the acerbities of the election fight, but apart from that sentiment so recently heard, this Province is not making the same effort of repatriation and probably would fail completely if it did.

THRFIT AND WASTE.

The United States Bureau of Labor statistics has undertaken to tell Henry Ford what is the European equivalent of his $7 per day wage at Detroit. One hundred typical families were chosen for the survey, and some rather interesting results were gleaned. For example, while nineteen families in the group came out even on their income of $1,720, forty-four were short an average of $130.74, while thirty-three were able to save an average of $133.96.

There are perhaps few respects in which men and women differ more widely than in the administration of their domestic affairs. Some will always be behind and others will invariably forge ahead. It is largely, although not always, a matter of foresight, wise planning and the disposition to sleep on wants. Prudence and denial may be quite easily overdone, yet they are high virtues in the final reckoning.

In the matter of thrift, corporations are not unlike individuals. Improvidence and unwise enterprise bring ruin to one, while under precisely similar conditions as to resources another will do well. Nations are the same. In fact, a judicial survey would unquestionably show that extravagance and bad management are as common among governments as among individuals.—Brantford Expositor.

CYCLES AND POLITICS.

Mr. King and the Liberals came into power at a time of business depression. They rode upward with the country on the cycle of prosperity and took a great deal of credit to themselves for having created that prosperity. But when the cycle moved on remorselessly again to something like depression the Conservatives blamed the Liberals for hard times.

Mr. Bennett and the Conservatives are going into power at a time of business depression. But, in the words of the popular song now current, "good times are coming," and Mr. Bennett and his colleagues will no doubt not fail to point the moral. But hard times will come again (recent events having demonstrated that business cycles are still with us) and then no doubt Mr. Bennett and the Conservatives will blame world conditions and the Liberals will blame the Conservatives.

Canada has its ups and downs (though mostly ups) whether Conservatives or Liberals are in power. No Government at Ottawa has ever shown any ability to control the business cycle and the degree to which any of them has modified the effect of the business cycle on Canada has not varied much between Governments of different political affiliations.

Nevertheless, the party in power will always continue to take credt for good times and the opposition will retaliate by waiting for bad times and then blaming them on the Government. It is a little game of political make believe, most people know that it is, but it goes on just the same and will continue until human nature and politicians change.—The Financial Post.

EDITORIAL NOTES AND COMMENT.

If the Statue of Liberty had been placed at Chicago, she would have had both hands up.—New Brunswick Pilot.

When people clamor for a new religion, what they really want is a religion that isn't too religious.—Peoria Star.

An anti-tobacco leaflet says a cannibal will not eat the meat of a man who has used tobacco. But what of it? As the Macon Telegraph inquires, who's going to go without tobacco just to pamper a cannibal?—Border Cities Star.

Speaking of the Americans as a practical people, one notes that New York City's garbage scows are being utilized by the rum smuggling trade.—Buffalo Courier-Express.

A Thought

BEAUTY OF WISDOM.

The hours of a wise man are lengthened by his ideas as those of a fool are by his passions. The time of the one is long, because he does not know what to do with it; so is that of the other, because he distinguishes every moment of it with useful or amusing thoughts or in other words, because the one is always wishing it away, and the other always enjoying it.

How different is the view of past life, in the man who is grown old in knowledge and wisdom, from that of him who is grown old in ignorance and folly? The latter is like the owner of a barren country, that fills his eye with the prospect of naked hills and plains, which produce nothing either profitable or ornamental; the other beholds a beautiful landscape, divided into delightful gardens, green meadows, fruitful fields, and can scarce cast his eye upon a single spot of his possession that is not covered with some beautiful plant or flower.

—Addison.

What To-day Means To You.

If August 11 is your birthday, the best hours for you on this date are from 7 a.m. to 8:30 a.m., from 4 p.m. to 5 p.m. and 10 p.m. to 11 p.m. The danger periods are from 10 a.m. to 11:15 a.m. and 7 p.m. to 8 p.m.

This date will prove that it pays to advertise business and talents. It is an exceptionally good time for writings and business contracts. A change indicated, the culmination of a long desired wish. Gain through relatives.

The child born on this August 11th will have "independence," level-headedness, and the ability to square up to situations which are quite complicated, early in its youth. It will be methodical, neat, and painstaking, and will be a busy, happy little being.

You are inclined to let your "yesterdays" overshadow and overpower your "to-days." Most of our yesterdays leave ashes behind. Only a few of us know how to find the sort of fuel for our hearths or our hearts that burns clear away. Yours are shoved into the rubbish dump of your mind—an ugly grey spot—the cinders of which blind you, and the dust of which chokes you. Why not, instead, use them as a pathway to new beauties, new experiences? Tread them down into oblivion until there are no regrets! You sacrifice your future on the altars of tradition and custom. You deliberately shut your eyes to new ideas, and cling mechanically, obstinately, fiercely to your old established customs. Growing habits and prejudices will clog and hamper you, unless you wisely overcome them.

It is shown that you have diverse capabilities, and you will not probably find your real job, the one which pleases you and satisfies you, until you have scrapped several others. You are patient in your work, and will achieve your end by solid endurance. Your opinions are fixed, and often dogmatic.

You will be fortunate in your friendships, and you will gain through them. There is trouble indicated through an inheritance and legal disputes. You are not a "lucky" traveller—your "acres of diamonds" will be found in your own garden. Trust those of your own sex! A broken heart line.

Millbrook

Mr. and Mrs. H. A. Sims and two sons, Paul and Harry, of Barrie, have been guests of her mother and sister, Mrs. J. C. and Miss Anna Kells, during the past week.

Miss Hazel McMahon, of Toronto, is spending a two weeks' vacation with her parents, Mr. and Mrs. P. McMahon.

Mr. and Mrs. Will Jones and daughter, Gertrude, of Toronto, spent the Civic Holiday week end with her parents, Mr. and Mrs. John Hatherly.

Mr. A. A. and Miss Etta Needler, Mrs. (Dr.) and Miss Pearl Burnham motored to Cannington on Thursday and were guests of Mr. and Mrs. G. L. Early. Mrs. Burnham remained for a two weeks' visit with her brother-in-law and sister, the rest of the party returning home the same evening.

Rev. R. J. Merriam, of Myrtle, will conduct the morning worship at Saint Andrew's United Church, on Sunday, August 10, at 11 o'clock, the evening service having been withdrawn during the absence of the pastor on vacation. Rev. Mr. Jones expected to be away from his work only two Sundays, but the course of lectures he is attending at Saint Anne deBellevue, Quebec, will not be completed in time to permit him returning until some time next week.

Building and construction activity in Denmark is at the highest record in years.

TEMPLE TOWER

By "SAPPER"

CHAPTER I

IN WHICH THE "MAID OF ORLEANS" LEAVES FOR BOULOGNE

The Maid of Orleans drew slowly away from the side. Leaning over the rail was the usual row of cross-Channel passengers calling out final good-byes to their friends on the quay. An odd Customs man or two drifted back to their respective offices: the R.A.C. representative raised protesting hands to High Heaven because one of his charges had departed without his triptyque. In fact, the usual scene on the departure of the Boulogne boat, and mentioned only because you must start a story somewhere, and Folkestone harbour is as good a locality as any.

Standing side by side on the quay were two men, who had been waving their hands in that shame-faced manner which immediately descends on the male sex when it indulges in that fatuous pursuit. The targets of their innocent pastime were two women, whose handkerchiefs had fluttered in response from the upper deck. And since these two charming ladies do not come into the matter again it might be as well to dispose of them forthwith. They were, in short, the wives of the two men, departing on their lawful occasions to Le Touquet, there to play a little golf and lose some money in the Casino. Which is really all that needs to be said about them, except possibly their last remark chanted in unison as the ship began to move:

"Now mind you're both good while we're away."

"Of course," answered the two men, also in unison.

And here and now let us be quite clear about this matter. Before ordering a dinner, the average man consults the menu. If his mouth is set for underdone beef with horse-radish sauce, it is as gall and wormwood to him to be give mutton and red-currant jelly. Similarly, before reading a book, the average reader likes to have a pointer as to what it is about. Does it concern the Sheik of Fiction carrying off a beautiful white woman on his thoroughbred Arab; or does it concern the Sheik of Reality riding a donkey and picking fleas out of his burnous? Does it concern a Bolshevist plot to blow up the policeman on point duty at Dover Street; or does it concern the meditations of an evangelical bishop on the revised Prayer-Book? And honesty compels me to state that it concerns none of these things, which is just as well for all concerned.

But it occurred to me that the parting admonition of those two charming ladies might possibly be construed to mean that they feared their husbands would not be good during their absence. Far from it: such a thought never even entered their heads. It was just a confirmatory statement of a fact as certain as the presence of Nelson in Trafalgar Square.

"Dear lambs," they remarked to one another as the boat cleared the harbour. "it will do them good to have a few days' golf all by themselves."

However, I still have'nt given this pointer. And with it the last hopes of those who insist on a love story will be dashed to the ground. They must have received a pretty severe jolt when this matter of husband and wife was alluded to, though a few of the more optimistic ones may have had visions of a divorce looming somewhere, or even a bit of slap and tickle. Sorry nothing doing. So if this is the mutton of my restaurant analogy you know what to do. But don't forget this book weighs as much as "Pansy, or the Girl who Lost All for Love," and will do just as much damage to the aspidistra if you hit it. Another thing, too, which it does not concern is golf. On that fact, I must admit with shame and sorrow that these two miserable men had deceived their trusting wives. The larger and more nefarious of the two had actually addressed his partner in crime at breakfast that morning on the subjects of handicaps and niblicks and things, and what they were going to do during their few days at Rye. His eye had not twitched: his hand when he helped himself to marmalade had been steady. And yet he lied—the dirty dog—he lied.

And his companion in vice knew he had lied, though, to his everlasting shame, he said no word. Both of these scoundrels allowed their wives to leave them for a perilous sea voyage with a falsehood ringing in their ears. Which shows you the type of men you're dealing with. However—that's that: I'll get on with it. Still not given the pointer? Oh! read the darned book and find out for yourself.

I will take the larger one first. His height was a shade over six feet in his socks: his breadth and depth were in proportion. Which, in boxing parlance, entitled him to be placed among the big men. And big he was in every sense of the word. His face was nothing to write home about, and even his wife admitted that she only used it to amuse the baby. Anyway, looks don't matter in a man. What does matter is his condition, and, reverting once more to boxing parlance, this man looked what he was—trained to the last ounce.

It has always been a bit of a marvel to me how Hugh Drummond kept as fit as he did, in view of his incredible capacity for lowering ale. Nevertheless, the bald fact remains that in the matter of fitness he had all of us beat to a frazzle. I particularly wish to emphasise that fact, because I believe that this is the first occasion that one of his really intimate friends has written about him. Take, for instance, the extraordinary adventure with that crazy woman, Irma, on Salisbury Plain. Joe Dixon wrote that, and Joe, good fellow though he is, hardly knew Hugh at all. But fourteen years have gone by since I first met him, in the front line near Arras, and in fourteen years one gets to know a man. From which it will be inferred that I was the other of the two nefarious scoundrels who had stood waving to their trusting wives from the quay.

Now, as will perhapsb e remembered by those who have followed some of our adventures in the past, we got mixed up with a bunch of criminals shortly after the war. Their leader was a man named Carl Peterson, who was killed by Drummond in Wilmot's giant airship just before it crashed in flames. And that led up to the amazing happenings on Salisbury Plain that I have already alluded to, when Peterson's mistress kidnapped Drummond's wife and nearly got the lot of us. But she escaped, and the first thought that had sprung to my mind on getting Hugh's letter was that she had reappeared again. Up till now I had had no chance of speaking to him privately, but as the boat disappeared round the end of the jetty, I turned to him eagerly.

"What Is the game,Hugh? Is it Irma on the scene again?"

He held up a protesting hand.

"My dear Peter," he remarked, "have you noticed that the sun is in the position technically known as over the yardarm?"

"And as the Governor of North Carolina said to his pal, let's get to it," I answered. "What about the Pavilion Hotel?"

"It is a wonderful thing being married, Peter," he said thoughtfully as we strolled along the platform.

"Marvellous," I agreed, and glanced at him sideways: there was a certain note in his voice that confirmed my suspicions.

"And," he continued, "it is good for all of us to sacrifice something in Lent."

"It is June," I answered, "but the principle holds good."

"Peter," he said, as we fell into two easy chairs in the lounge, "your brain has probably jumped to the fact that it was not entirely due to a desire to beat your head off on Rye golf links that I engineered this little affair at Le Touquet Waiter—two large tankards of ale."

"Some such idea had dawned on me," I agreed. "It seemed so remarkably sudden."

"My dear old lad," he said with a grin, "you can't imagine the diplomacy I had to use. I first of all suggested that we all four should go to Le Touquet—a proposal which was jumped at by my devoted spouse. I then wrote you that masterpiece of duplicity."

"Masterpiece it may have been," I laughed, "but it gave me brain fever trying to think of an excuse that would hold water."

"What did you cough up finally?" he asked.

"I wrote to my lawyer," I said, "and told him to write to me and say he'd got some urgent business on my dear old grandmother's will. Sounded a bit thin to me, I confess, but, by the mercy of Allah, it went down. And Molly was deuced keen to go."

"So bless her, was Phyllis," answered Hugh. "Thin or not, Peter, it worked. For a few days we are going to be bachelors. And much may happen in a few days.'

"As you say," I agreed, "much may happen in a few days. At the same time, you haven't answered my first question. Is it Irma?"

"It is not, bless her. Maybe another time, for I should hate to lose her. But this time it's something quite, quite new."

He drained his tankard and pressed the bell.

"We will have the other half section, while I put you wise. Mark you, Peter, it may be the most hopeless mare's nest, and if it is we can always play golf. But somehow or other I don't think it is. In fact, in my own mind, I'm quite certain it isn't. You don't know this part of the world at all, do you?"

"Not a bit," I said.

"Well, the first thing to do is to give you a rough idea of the lie of the land. Once we leave Hythe we come to a large stretch of absolutely flat country which is known as Romney Marsh. The word 'marsh' is a misnomer, as the soil itself is quite hard and gives very good grazing. There are a few small villages dotted about, and an odd farmhouse or two, but the prevailing note is solitude. Motor charabancs cross it daily from Hastings and Folkestone, and the roads are good but a bit narrow. But it is a solitary sort of place for all that: you feel that anything might happen on it.

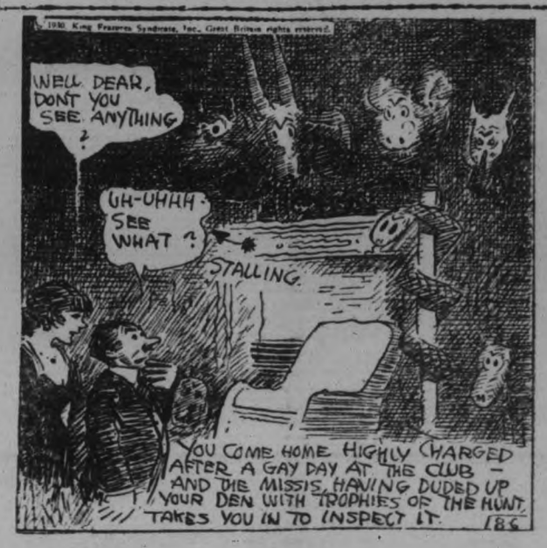
"A few centuries ago it was covered by the sea, which came right up to the foothills, so that all of Romney March is reclaimed land. And from those hills you get the most marvellous view away towards Dungeness and Lydd—if you like that type of view, that's to say Open, free, with the tang of the sea in the wind. I love it; which was one of the deciding factors that led me to take our present house. It has a clear sweep for miles right out to sea, and I've installed a powerful telescope on the terrace—a telescope, Peter, which has been and is going to be of assistance. However, to return to our muttons. As I've told you, the Marsh itself is sparsely populated. The only considerable towns are Rye and Winchelsea—which can hardly be said to be on Romney Marsh at all. Rye is set on a sort of conical hill, and must in the olden days have been almost completely surrounded by water. But except for them, and Lydd, where the artillery range is, and New Romney, there's not much in the house line, and those that are there belong principally to small farmers.

"About a week ago—to be exact, the day before I wrote to you—I was undressing to go to bed. It was fairly early—not more than eleven or a quarter past—and after I had got into pyjamas I sat by the open window having a final cigarette. My dressing-room faces over the Marsh, and I could see the lights of a passing steamer going West. Suddenly, from the very middle of the Marsh itself, there came a red flash lasting about a second; then a pause, and a moment afterwards it was blue. They were repeated half a dozen times—red, blue, red, blue—then they ceased altogether.

"For a while I sat staring out, wondering what on earth they could mean. By putting a couple of matches on my dressing-table I got the rough alignment so that I could get the direction in the morning—but I was sorely tempted to go out and investigate then and there. However, I decided not to; Phyllis was in bed, and I was undressed. And if the truth be told, Peter, even at that early hour, the possibility of a little fun had struck me, and I didn't want to run the risk of cramping our style. So I didn't mention anything about it to the dear soul. That it was a signal of some sort seemed fairly obvious, but for what and to whom? The first thought that flitted across my mind was that smugglers were at work. For if rumour speaks the truth there is the devil of a lot of smuggling going on since these new silk duties were put on. There are stories told of fast motor-boats, and mysterious motor-cars that go careering about in the middle of the night. However, when I began to think things over a bit, I dismissed the smuggling theory. To put it mildly, it seemed unlikely that men engaged in such an extremely secret and risky business would take the trouble to advertise themselves by flashing red and blue lights all over the place Besides, one would have expected the signal—if such it was—to be given towards the sea, and this was given towards the land. So I washed out smugglers.

(To be continued.)

EMBARRASSING MOMENTS



Premier of Irak.

Nuri Pasha, new Premier of Irak, who has been in London to confer with the British authorities concerning that new status of his country now that the British mandate over Irak no longer exists.

HOME TOWNERS

Tidbits, Interesting and Humorous

CAMPBELLFORD

Reports from the local grading station for the week ending August 2nd show an increase over the previous year. Last year there were 21 lots, 1006 boxes of cheese graded, and this year 21 lots, 1010 boxes. For the week ending August 9th, the count showed 21 lots, 919 boxes graded as compared with the same last year which registered 21 lots, 1055 boxes.

The rain that passed over Campbellford on Friday afternoon was much welcomed by resident and farmer alike. Some of the crops in this district are in need of rain, and even though there was not sufficient, the good shower we had did a lot of good.

The yacht "Snookums," with registration at Toronto, passed through the town on its way to its home port on Saturday.

Visitors to town on Wednesday included Mr. and Mrs. Alex Miller, Miss Grace Miller and Mr. and Mrs. C. Hicks, all of Picton, who were the guests of Mr. and Mrs. G. A. Kingston.

Mr. and Mrs. A. H. Parr of Hoards were the guests of Mr. and Mrs. Delbert Utman, of Stirling, on Wednesday.

Don't forget the Rotary Street Fair on August 16th.

Mr. and Mrs. G. W. Ayrhart have as their guests this week Mr. and Mrs. G. Finnie and children of Toronto and Miss Marguerite Barlow of Capreol, Ont.

Mrs. R. Matthews of Wellman's has as her guest for a few days, Mrs. W. J. Morton of Stirling.

Cars Collide On Havelock-Campbellford Highway Friday

CAMPBELLFORD, Aug. 11.—(By Examiner Staff Correspondent).—While driving a Ford roadster on the Havelock-Campbellford highway on Friday evening, Neil Sargison of Havelock collided with a McLaughlin touring car driven by Ernie Sutton of Campbellford, and did considerable damage to both cars.

The accident, which occurred about four miles from Campbellford, opposite the Stillman farm, was thought to have been caused by Sargison cutting in before the other car had properly passed him. There were three passengers besides Sargison in the seat of the Ford car. Sargison will face a charge of reckless driving.

The statement of Justice Horridge in the Kings Bench, London, that "witnesses" do lie, however eminent or respectable they are' has started a discussion among jurists and former witnesses.

BRAZILIAN TRACTION SELLS AT NEW LOW

Selling Shows Signs of Abatement on the Toronto Stock Exchange.

CHANGES ARE SMALL.

TORONTO, Ont., Aug. 11 (C.P.)—Prices continued unsettled in the forenoon session on the Toronto Stock Exchange to-day and the level was a shade lower. Selling showed signs of abatement and the week-end failed to bring an accumulation of selling orders with the result the volume was the lowest of the past week.

Brazilian Traction sold to a new low for the year at 33½ and then recovered to 34 for a net gain of ¼. Both C.P.R. issues were at new lows on Wall Street, but failed to put in an appearance here.

The majority of price changes were small fractions only and altogether unsettled. The general body of stocks held well around the level prevailing at the close of last week. International Nickel was off ⅛, although news was to be had that directors would meet in New York to declare the regular dividend and authorize publication of the earnings statement for the second quarter and first half of 1930.

The oils showed very little change International Petes was unchanged, Imperial off ⅛ and British American ⅛.

FOREIGN EXCHANGE

Foreign Exchange steady, demand rates. (Great Britain in dollars, others in cents). Great Britain, 4.87⅛; France 3.92 .. Italy 5.23⅛; Germany 23.88⅛.

Canadian dollars ⅛ of one percent premium.

NICKEL DIRECTORS MEETING TO-DAY

Expect Company Will Declare Quarterly Dividend of 25 Cents.

TORONTO, Aug. 11. (Special to Examiner.)—Directors of the International Nickel Company, of Canada, will meet late to-day in New York to take dividend action according to a private wire from New York and there is little doubt that the quarterly disbursement of 25 cents will be declared.

It is altogether likely that directors will have before them to-day, the statement of profit and loss for the second quarter and first half of 1930 which is expected to be made public within the next few days. The street is anxiously waiting the results for the second quarter as in view of business conditions it is anticipated that the profit per share will be below the results obtained in the first three months of 1930 and the corresponding period of 1929. Street estimates place the share earnings at from 20 to 24 cents with one well informed source predicting the higher figure. With earnings of 24 cents for the quarter, it would mean that International Nickel only fell one cent short of the dividend requirement of 25 cents for the period and adding earnings of 30 cents for the first quarter of 1930, the net result for the first six months would be 54 cents, or 4 cents above the dividend paid of 50 cents. In the first six months of 1929, International Nickel earned 74 cents a share of which 36 cents was earned in the first and 38 cents in the second quarter. Earnings of 30 cents in the first three months of 1930 would compare with 36 cents in the corresponding months of 1929 and 24 cents in the second quarter of the current year with 38 cents in the same period of the preceding year. President Robert C. Stanley in addressing the special general meeting here last month, stated the volume of the company's sales in the second quarter had been less than anticipated, due to a severe recession in industry the world over.

This in itself is making buyers cautious in their purchases and present holders nervous. Not having official figures there is doubt in the minds of many that the present rate of dividend may not be maintained by some.

LIST RALLIES LATE IN DAY

Steel Reports in United States Are Far From Encouraging.

CREDIT FIRMER.

NEW YORK, N.Y., August 11 (C.P.). — Only after three distinct attempts did the stock market manage to get its feet on the ground and move forward to-day.

The market began the new week bewildered by a blue Monday fog more opaque than usual, but hangover liquidation was lighter than the bars had expected, which promoted considerable short covering.

Rallies ran into renewed selling, however, until the third upturn in the early afternoon, managed to develop some momentum, and lift the general list substantially above Saturday's closing levels.

Reports of cooler temperatures and scattered rains over important agricultural areas. Together with survey of the crop situation by some of the middle Western railroads were after considerable hesitation interpreted by the stock market as holding forth promise of less severe crop damage than had been indicated last week.

In addition to the uncertainty over the crop damage, however, came reports from the steel centres that were scarcely cheerful. Dow Jones & Co. estimated operations in the Youngstown area at 56½ per cent of theoretical capacity, against 58½ last week. Week-end reports from Pittsburgh indicated little hope of improvement there, with possibility of further slackening.

Credit was a little firmer, with call money again getting up to 2½ per cent. after renewals at 2. The upturn probably reflected withdrawals for the semi-weekly Federal Reserve settlements.

TRADING SLOW AT WINNIPEG

WINNIPEG, Man., Aug. 11 (C.P.) Wheat declined 2½ to 2⅞c in the first half hour of trading on the Grain Exchange here this morning as the result of fairly general selling. Offerings became liberal when it developed that exporters had done very little business over the week-end, but some support later appeared and prices ascended 1c from bottom levels.

The Canadian Prairies enjoyed a cool week-end and the few scattered showers did not delay harvesting operations.

ST. LAWRENCE CORPORATION PUTS STOCK ISSUE ON MARKET

371,650 Shares of Non Par Value Placed on Market.

IMMENSE RESERVES.

TORONTO, Aug. 11. (Special to the Examiner.)—The no par value ordinary shares and the Class A convertible redeemable preferred shares of $50 par of St. Lawrence Corp ration were admitted to trading on the Toronto Stock Exchange to-day. According to the official posting there were 371,650 shares of non par value listed with 1,035,855 shares to be listed on notice of issuance. Of the class A preferred, 181,249 shares of $50 par were listed with an additional 118,751 shares to be listed on notice of issuance. St. Lawrence Corporation Limited, is the company recently organized to effect an amalgamation of the St. Lawrence Paper Mills Company Limited, the Brompton Pulp and Paper Co., Ltd., and the Lake St. John Pulp and Paper Company, Limited. For each common share of Lake St. John Power and Paper there was exchanged 7-10 of a share of ordinary stock of St. Lawrence Corporation; for each common share of St. Lawrence Paper one share of St. Lawrence Corporation ordinary stock and the ordinary shares of Brompton Pulp and Paper Company were exchanged share for share into the Class A preferred stock of St. Lawrence Corporation.

The combined daily production of the merged companies is approximately 1000-tons of newsprint, 1000 tons of kraft and 70 tons of box boards. The Corporation has pulp wood resources estimated at over 23,000,000 cords, sufficient, without reforestration. To ensure over 40 years capacity production. Total assets as at December 31, 1929 were valued at $68,128, 600 and net current assets $10,490,391 against current liabilities of $4,618,938, leaving net working capital of $5,871,452. Earnings in 1929, after providing for the six per cent preferred dividend and interest requirements on the securities of the subsidiaries, amounted to $1,028,533 and after payment of the dividend on the class preferred stock there was at the same time invisible stocks in consumers hands were at an exceptionally low point and curtailment of operations had been inadvisable.

Unfilled Tonnage Increases.

Wall Street brokers were unable to find little of an encouraging nature in the week and news other than the increase in the unfilled tonnage of the United States Steel Corporation but this is said to be due to curtailment of operations rather than improvement in sales.

The drought in teh grain growing areas will result in a decrease in the purchasing power of the farming communities and possibly retard the looked for business improvement in view of this, New York brokers tell their clients that there is no hurry to enter the market on the long side and are advising a position on the side lines. The rally that set in Saturday was extensed in early trading to-day, but this is considered technical and not marking a turn in the situation. The weakness of the closing days of last week brought with it an increase in short operations and covering to-day was partly responsible for the price improvement.

Trading on the Toronto Stock Exchange was inclined to be unsettled in the forenoon with the volume of trading lower and selling diminishing. The local market is working under several handicaps. There is the Wall Street influence coupled with the change of government and the uncertainty that naturally follows and also the lack of the definite information about earnings of Canadian corporations for the year to date. Shareholders of the Dominion's companies have not much in the way of official information with which the judge the rate of earnings and the margin of profit above dividend requirements in in the first half of 1930. A great many executives have written reassuring letters to their stockholders, but very few have gone so far as to provide quarterly and half yearly profit and loss reports. Numerous stocks at current levels provide liberal income returns but available for distribution on the ordinary shares of the corporation a sum of $428,533.

ORIOLE IS ACTIVE ON MINING MART

Only a Comparatively Few Issues Receive More Than Passing Notice.

TORONTO, Ont., Aug. 11 (C.P.).—Price movements were very confined during the early period on the Mining Market to-day, and only a comparatively few issues received more than passing attention.

Oriole was the active stock, but at noon had dropped back a point and a half to 48½. The golds were irregular. Big Missouri easing a point to 55, Wright Hargreaves a couple to $1.80, Teck Hughes 5 to $6.45. Dome and Hollinger moved up 5 each to $7.60 and $5.95, and Howey gained a point to 35.

Base metal issues were lightly traded. International Nickel held unchanged and Noranda eased 5 to $22.75. Waite Ackerman was up 15 to $3.25, and Abana recovered a couple to 48. Amulet receded 2 to 56. Sudbury Basin, off 5 to $1.55, showed the only change in the Lindsleys.

Home Oil was the weak spot in the oils, losing another 20 to $2.75, under continued liquidation. Ajax Oil softened for a time but rallied to stand unchanged at mid-day, and Nordon was up 4 to 99.

Gorgeous Rainbow Is Seen at 11.40 p.m.

"A gorgeous rainbow was glimpsed after the storm area was passed, and was taken as a happy augury for the trip over Ontario," observes the Canadian Press Staff Writer aboard the British dirigible R-100.

The rainbow, a most unusual phenomenon at night, was also reported to have been seen by a party of local people who were motoring towards this city from the direction of Toronto. "When in the vicinity of Welcome at 11.40 last night," said Miss M. Crosby, "we encountered a sharp rainstorm which lasted for a few minutes and then we observed the rainbow. The arch swept the entire sky in a brilliant and fascinating display of color, which is indescribable in its beauty, while the full moon shone brightly in the opposite part of the night sky.

BIG LIST ENTERS FOR D.C.R. SHOOT

Tyro Event For Those Who Have Never Won a Prize Opens Meet.

MRS. DOW, ONLY WOMAN.

(By Jack Hambleton, C. P. Staff Writer)

CONNAUGHT RIFLE RANGES, South March, Ont., Aug. 11.—With a fresh wind blowing directly across the ranges, the first shot of the Dominion of Canada Rifle Association meeting was fired early to-day. Extra series and practice shots were scheduled and at nine o'clock the first match, the Tyro event opened.

The Tyro is open to members of the Association whose name does not appear in any National Rifle Association or D. C. R. A. reports as winner of any individual prize of $5 or over in any deliverate firing competition, other than a prize open only to Tyros. In addition to the DR.A. bronze medal and $15 the event is featured by a challenge cup presented by Senator J. A. McDonald for team competition. The match is fired at 500 yards, seven shots, and has drawn a large entry list. It was won last year by Capt. E. C. Shaffner of Bear River, N.S., with a perfect score.

Three Matches

This afternoon three important matches took place. They were the MacDougall, Barlow and Cadet, all being fired at 200 and 500 yards. While the MacDougall is open to members of the Association, the magnificent trophy presented by Lady MacDougall is restricted to members of His Majesty's forces. The Barlow is open to teams of four officers from any unit of His Majesty's forces, while the Cadet match carries both individual and team prizes.

Only one woman is taking part in the meeting this week. She is Mrs. J. N. Dow, of Saint John, N.B., whose shooting at the Ontario Rifle Association meet at Toronto last week amazed the spectators. Mrs. Dow will attempt to emulate the shooting of Miss Marjorie Foster, who won the King's Prize at Bisley this year, and is entered for only one match, the Governor General's most important event in Canadian marksmanship.

EVERY COMFORT

(Continued from Page 11

and on the roof tops. After Toronto followed beauty indescribable.

The course lay down Lake Ontario at 11.30 a.m., flying at a height og 2,000 feet towards Kingston at 11.40 when we were about 15 miles from the American border, the aroma of grilling chops permeated the air and the appetite was intensified.

Right through the trip the hospitality of the officers has been in keeping with the best traditions of the service.

The sun at the time of writing is shining on the lake and the shadow of the R-100 below looks like a cigar on white paper.

Steamer Pipes Greeting

The stewards are preparing the tables for dinner and arranging flowers on each of them with the precision of the proverbial English buter in the baronial castle. Down below a cheeky little river steamer pipes greetings in a saucy manner. The sound as conveyed to us is like the whistling of a small bird in a dense forest.

At 11.45 a.m. we are doing 65 knots with four engines going.

Visits Many Cities.

TORONTO, Ont., Aug. 11 (C.P.).—Central Ontario this morning saw the R-100, Great Britain's mammoth air liner, and saw it under the most favorable weather conditions. Blue sky and bright sunshine, with a scattering of white clouds, formed the aerial backdrop for the setting as people stopped in their tracks and gazed skyward at the trans-Atlantic dirigible.

The dirigible first arrived over Toronto at about 5 a.m. It was in the vicinity of Kingston, half-way between Toronto and Montreal, at 1 a.m., and over Peterborough, 50 miles north-east of Toronto, at 3.10 a.m. After the first visit to Toronto, reports of the airship's location were flashed about confusingly, and she became a will-o'-the-wisp to those engaged in the difficult task of keeping informed the thousands who have anticipated her visit since she crossed the Atlantic to Montreal nearly two weeks ago.

Visits Falls Twice.

The airship made two visits to Niagara Falls, at 5.4 am. and at 8 a.m. She was over Hamilton at 6.45 a.m., and cruised around Toronto at 7.15 a.m., her second visit to the Ontario capital. She apparently went to Niagara after her first visit to Toronto, back to Niagara after her second visit to Toronto. Her third visit to Toronto was made at 9.20 a.m., when she came across Lake Ontario and over the 'eastern gap to Toronto's harbor.

Flying at low altitude and passing quite close to the tip of the 32-storey Bank of Commerce building, the R-100 flew around the city on her third visit to Toronto, while thousands of people on rooftops and other points of vantage, many thousands more in spaces where their vision would not be obscured, and along the lake front, waved and cheered as the dirigible majestically sailed over their heads, raising and lowering her nose as if in acknowledgment of the welcome.

Her destination as she left Toronto after her third visit was uncertain. She pointed her nose eastward and after hovering over the east end of the city struck out across Lake Ontario at 10 o'clock.

Two messages had been received from the airship up to 10:30 a.m. she reported to St. Hubert airport by wireless that she had left Niagara Falls at 6 a.m. Headed for Toronto, and again at 8 a.m. she reported her second appearance over Niagara Falls. The message said all aboard were enjoying a wonderful trip.

SHIP AGROUND.

ST. JOHN, Nfld., Aug. 11. —The S. S. Iaribou ran ashore three miles outside Port Aux Basques early yesterday in a dense fog and with a heavy sea running. The passengers and crew took to boat and arrived in Aux Basques. It is believed the ship will be a total loss.

First Steamer in 8 Years at Barrie

BARRIE, Ont. Aug. 11.—(C.P.)—Several hundred curious citizens rushed to the Bayfield wharf here shortly before noon when the first steamer to dock here in eight years steamed up Kempenfeldt Bay. It was the steamer Couchiching of Orillia, recently brought from Cornwall for tourist pleasure service. During the day the boat will run trips from the town dock.

The day's program was delayed omre than an hour by a heavy rain and the non-appearance of General Sir Arthur Currie and other distinguished visitors, who are expected early in the afternoon.

TORONTO GIRL LOSES

RYE, N.Y., Aug. 11.—Miss Jean Burritt of Toronto was eliminated in the eastern grass courts tennis championships here to-day when she lost to Miss Clara Greenspan of New York, in the third round, by scores of 6—3, 4—6, 6—3. The match was a gruelling affair for both players.

ENGLISH CRICKET.

LONDON, Aug. 11. — (Canadian Press Cable.)— Tea time scores in English cricket matches to-day were:

Middlesex versus Surrey at the Kennington Oval — Surrey 419 for eight wickets, declared (Allen five wickets for 100 runs), Middlesex 125 (Gover six wickets for 48 runs) followed on 43 for five wickets.

Somerset versus Glamorganshire at Weston-Super-Mare — Somerset 194 and 107 for four wickets, Glamorgan 76 (White, four wickets for 33 runs, four wickets for three runs).

Sussex versus Kent at Hastings—Sussex 560 for nine wickets, declared (Cook 154, H. Parks 66, Ashdown four wickets for 113 runs), Kent 83 runs for one wicket.

Gloucestershire versus Warwickshire at Cheltenham—Warwick 120 and 107 (Parker, nine wickets for 44 runs), Gloucester 201 (Smith 80.)

Nottinghamshire versus Leicestershire at Nottingham, Leicester 142 and 10 for two wickets, Notts 219 (Astill six wickets for 93 runs).

Yorkshire versus Derbyshire at Leeds—Yorkshire 352, Derby 53 for two wicket))s.

Lancashire versus Hampshire at Manchester — Lancs 208 Hants 78 (McDonald five wickets for 40 runs, R. Tidesley, four wickets for 27 runs).

Northamptonshire versus Australia—Northants 249, Australia 93 (Jupp six wickets for 32 runs).

THREE CHILDREN SLAIN BY FATHER

B. C. Man Takes Own Life With His Family By Using Dynamite.

DESERTED BY WIFE.

BURNABY, B.C., Aug. 11 (C.P.) — Placing his three children whose ages ranged from two to seven years, in a stumphole on the Provincial highway near here, Otto Zellar blew them and himself to pieces with a charge of dynamite last night.

According to neighbors, the man was of a queer nature. They declare Zellar's wife left him several days ago because of alleged cruelties to her.

Zellar's act is said to have been premeditated, as one of the children told a friend several days ago their father intended to kill them.

The combined murder and suicide occurred near the victim's home.

FIVE DIE IN FIRE

JOHNSON CITY, Tenn., Aug. 11—Five persons were burned to death and two others suffered serious injuries in a fire that destroyed a six-room cottage located in an amusement park near here early to-day.

FINANCIAL NEWS AND BRIEFS

A SPECIAL SERVICE TO THE EXAMINER

TORONTO, Aug. 11. (Special to the Examiner.)—The story that has been going the rounds for the past week or so connecting Consolidated Smelters with Sherritt-Gordon was again the subject of considerable comment on the street to-day. Rumors state Smelters has taken over a large number of shares from the underwriters of the block of Sherritt Gordon stock, recently offered to shareholders and that a director of the former company will represent this interest on the Sherritt Gordon board. The total mentioned is something over 500,000 shares, the price $1.80 per share and the sum involved about $1,000,000.

J. J. Warren, President of Consolidated Smelters was out of town to-day and could not be reached for confirmation or a denial. Sherritt Gordon officials state they know nothing of the matter which would naturally be between the Underwriters and Smelters, and in a fact, would not be a company question until such time as such change in the board was planned. Should Smelters be taking an active interest in operations at Sherritt Gordon, it is the opinion of the street it would undoubtedly be a feather in latter company's hat. Sherritt Gordon outstanding capital after the new stock offer, exclusive of other stocks under option and rights on it, will be 5,726,428 shares. On December 31, 1929, the optioned stock re-ferred to amounted to 32,781 shares. On April 3, 1930, shareholders were offered additional stock at $2 on the basis of one share for every seven held. This additional stock, in all amounted to 730,000 shares. If Smelters is taking over a substantial block of Sherritt stock then what really seems to be signified is a further step in broadening out of Smelter interests in other operating companys.

Mill construction at the Lake Geneva property, under control of the Towagmac Exploration Co., has been definitely suspended for the time being.

According to Sudbury advices Amulet agreement has been reached, pending a return of more favorable conditions, particularly in regard to base metal price, between Towagmac and the Collins-Babeon interests, original vendors of the Lake Geneva property, whereby the proposed mill construction program at the latter mine has been postponed for the present, at least.

Official word from the property of Central Canada Mines, situation in the Fort Frances Mining division, is that another vein, showing a width of from 4 to 5 feet, was cut recently in the south cross-cut, giving assays of around $16.60. Channel assays at the bottom of the shaft over the full width ran $24.60, it is stated. Cross cutting on the 90-foot horizon was discontinued following examination by a government official but sinking will be recommended sometime this fall.

Recent reports from Sioux Lookout indicate exploration is likely to be resumed on the Red Mammoth property in the Red Lake section. It is understood E. L. Reading, formerly with Dominion Explorers has become interested in the Red Mammoth and that preparations are being made to resume work. Another promising property nearby is the Cochenour-Williams where exploration is said to be underway. It is mooted the Jackson-Manion group may be the recipient of new attention also.

THOUSANDS SEE GIANT AIRLINER

(Continued from Page 1)

that this city would see the big air craft.

The Canadian Press had reported the R-100's speed between Montreal and Ottawa to be 35 miles per hour. But the telephone reports from the points between Ottawa and here had set the speed at 50 miles per hour, a rate which did not appear to be too high in view of the rapidity with which she was being picked up by the points along the route.

At 2:14 the operator at Frankford, in reply to an urgent call from the Bell operator here, reported the R-100 over that village. A few minutes later the Canadian Press sent the flash that Peterborough and Oshawa were to be considered definitely on the dirigible's route.

This was The Examiner's signal. Calls were immediately sent out to the various factories which had agreed to sound their sirens in warning the air liner's approach.

Hastings reported the ship at 2:32 and excitement ran high here.

Up on the roof of The Examiner Building a fine fresh breeze was blowing from the north west. Smoke from one or two chimneys was rising obliquely in the clear air. The moon was practically full, shedding a bluish light on the roofs and spires of the city. The sky was an indigo vault save where a few light clouds scudded along near the horizon. The two illuminated clock-dials in their towers stood out with startling effect against the sharp night. The streets were almost silent. Above a low, black line of trees and roofs, a clear flat space opened to the south east.

First Whistle at 2:30

At 2:30 exactly the C. G. E. siren began to blow, Peter Milloy has sounded the C. G. E. siren for 44 years, but he had never sounded it for such an event before. The Quaker Oats and the Bonner-Worth sirens followed. None of them were particularly strong, due to the fact that only a small head of steam was up in anticipation that the sirens would not be needed until around 5:00 o'clock.

Through the streets, which had been quiet a moment before, screeched one of the fire trucks, its raucous siren sounding in all sections of the city. Dogs began to bark and howl.

Almost immediately a procession of automobiles, bicycles, and pedestrians began to head across Hunter street bridge for Armour's Hill.

Time passed. The city—deep in slumber a few moments before—was now wide awake and straining every nerve for the approaching event. People lined the sidewalks and hurried to points of vantage in all directions. Eyes scanned the southern horizon; stared into the darkness.

In the midst of the din of whistles someone remarked on The Examiner roof: "If this had been thirteen years ago, we would all have been in the cellar instead of up here."

Hours seemed to pass.

First Sighted at 2.57

Suddenly there was a shout. A light, glimmering in the sky in the open space to south-east materialized into the nose of a monster of the sky. This was at 2.57 exactly, by the town clock.

"She's low, boys," someone whispered.

There was absolute silence. "Can't hear a darn thing," muttered one watcher.

The town clock struck three as the big airship altered her direction and pointed westward. It was the consensus of opinion on The Examiner roof that the R-100 was skirting the shores of Rice Lake at this time and making for the mouth of the Otonabee. If this were true, the dirigible was first sighted here when she was 18 or 20 miles distant. The fact that she did not actually pass over the city for thirteen minutes is claimed as proof of this.

At 3.01 the ship turned almost due north. She was flying now against a background formed by a narrow band of black clouds near the horizon, but appeared to be rising as she approached. It is not believed that she actually changed her altitude, however, but that she merely seemed to rise, due to the change of perspective.

The giant craft turned about and headed west at 3.05. She was thought to be above five miles distant at this time and following the curves of the river.

At 3.06 she resumed her old northwesterly course—head on into the wind.

She was headed due north again at 3.09 when the C.G.E. siren began to sound once more. Gradually the monster craft oozed around to the north-east, looming large over the city. Now the siren at the Auburn Mills began to sound. Other whistles followed.

At exactly 3.10, the three monster motors were heard for the first time.

The moon glistened on the back of the great craft as she passed over East City, affording the thousands of watchers gathered on Armour's Hill a splendid view. Directly over St. Joseph's Hospital she turned westward again. Crossing the river, she turned north.

At this moment every light in the city, including street lights, began blinking on and off as a signal and a salue to the eerie noctural visitor of the skies. From somewhere a spotlight played on the blue-and-silver sides of the monster, but its rays were too feeble to make much impression.

Two lights were seen on the nose of the vessel, one above the other. There was a light showing in a cabin under the huge "bag," and a green light on the side which was visible.

Suddenly the moon was blotted out completely. For at least 20 seconds the moon suffered a total eclipse above the city, while the sky vessel passed directly over the centre of the town.

At 3.14 she passed right over The Examiner, roaring amongst the stars above the heads of the silent watchers.

Turning her gallant back on the city, she resumed a westerly direction, and—circling—dipped to the southwest, the pale moon painting her sides with a mystic silver. Gradually the light at the tail of the great ship slipped into the heavy cloudbank which had formed in the west, and the R-100 was headed for the lake again.

It was estimated that the dirigible flew at a height of about 1,500 feet over Peterborough. It was the opinion of some that she was developing no speed at the time, but was just loafing to kill time. But it is likely that the seeming rate of speed was deceptive, due to the 700-feet length of the craft, because she was picked up at Port Hope a very few minutes after leaving here.

The R-100 spent approximately fifteen minutes over this city. She was last seen from The Examiner roof at 3.18.

What the watchers on terra firma saw of the airship must have been as nothing to what the watchers in the cabin of the ship saw below them. The silver waters of Lake Ontario, the silver ribbon of the Trent system with its rivers, lakes, and canals set in the checker-board of sub-divided farmland—all must have provided a thrilling spectacle for the passengers. They must have seen, too, the great mass of people and cars on Armour's Hill, on Hunter Street Bridge and the line of vehicles which lined the King's Highway from Peterborough to Fraserville without a break.

How many thousands of people were gathered in Ashburnham Memorial Park (Armour's Hill) it is impossible to estimate, but over 300 cars are asserted to have been there by actual count. A great cheer went up from the hill when the ship flew over it.

Not only was the highway lined, but street intersections throughout the city were selected as vantage points by eager watchers.

J. G. McFadden of 391 Smith Street reported that the ship passed directly over his house, much to the delight of his children. This house is regarded as the farthest point north in the city over which the dirigible sailed.

Miss Edna Dingman, the night operator of the Bell Telephone Company, who was responsible for The Examiner being able to get the news of the R-100's progress, is said by officials to deserve the thanks, not only of the paper, but of the city as a whole for the splendid spirit of co-operation which she demonstrated.

The work of the entire Bell system here has come in for considerable praise in its handling of the large number of inquiry calls which came in during the course of yesterday evening. Officials announced last night that it had been necessary to call six day operators out of bed to help handle the emergency.

Colonel C. H. Ackerman was reported as being responsible for the suggestion that the power be turned on and off rapidly at the sub-station on Aylmer Street to flash the city's lights as a salute to the dirigible. Chief Gimblett of the Fire Department received the necessary authority to use one of his trucks as an alarm from Alderman Robert Cotton, chairman of the Fire, Water and Light Committee.

One interesting feature of the early morning alarm was that at 4 o'clock—40 minutes after the R-100 had disappeared into the night—the city had resumed its slumbers and was as quiet as a tomb.

SKIDLEY WINS

(Continued from Page 1)

immediately following the completion of the contests.

After three year's absence from the starting line, Bob Beal, a trophy-winner in many a Stoney Lake regattas came back on Saturday to stage an easy win in the Canoe Sailing. With the particular brand of maritime skill that canoe sailing requires, he piloted his boat across the line several minutes ahead of George McLeod. Trevor Miller finished third.

John Brewin was leading Edward Campbell by forty feet at the last bouy in the 14-foot dinghy event but Campbell beat him to the line. Don Fitzgerald ran a good third. There were seven boats entered in the race.

Tilting Well Received

"Sock 'im! Sock 'im!"—and the tilting tournament was on! It went over the biggest of the day. Jack Guillett and G. M. Buell were put out in the first match by Norton Buell and Stuart Wotherspoon. The tilter was knocked out of the canoe. Harry Sherrin and Ned Boatby were given a clear decision when Dick Barnes and his paddler were swamped. A contest between Dave McCarthy and Bob Morris and Bob Beal and Terry Hall threatened to be a deadlock but was decided on points in favor of Beal and Hall. Bert Jopling, paddled by Pat Hall, shoved C. E. Strickland overboard for a victory. Mr. Strickland was paddled by Bud Strickland.

In the semi-finals Buell and Wotherspoon triumphed over Boatby and Sherrin when Sherrin fell into their canoe. Beal and Hall earned the right to do battle with Buell and Wotherspoon when Beal shoved Bert Jopling into the lake. The final was a long and tough struggle. Several tilting poles were broken and it had to be finished with short weapons which more closely resembled clubs than tilting poles. Beal and Hall lost when Beal made a wicked thrust at Buell and missed. He fell into the water.

Allan Gray Wins

Allan Gray won the Men's Swim from Emerald Isle to McCracken's Landing dock, one-half mile, by an eight-yard lead. Tom Dunlop swam hard to beat Reynolds Root into second berth. The rest of the field of eight were well-grouped behind. By a distance of 40 yards Ruth, Gouinlock led Margaret Patterson home in the Ladies' Open Swim. There were five entrants.

The free-for-all motorboat "bang-and-come-back" event, a novelty, offering brought the largest entry. Twelve craft of all shapes, sizes and powers crossed the starting line and, on the command of a second shot from the starter's gun they about faced and raced for home. George Guillett in a sea flea was back first and won the silverware. The Wotherspoon brothers in another outboard craft followed him closely over the line.

The Prize List

Dinghy Sailing—1, Edward Campbell; 2, John Brewin; 3, Don Fitzgerald.

Canoe Sailing—1, Bob Beal; 2, George McLeod; 3, Trevor Miller.

Ladies' Single Canoe—1, Pete Heward; 2, Betty Livingstone; 3, Billy MacKenzie.

Six - in - Skiff, paddled — 1 Frank Jopling, F. Porter, Gordon Hall, Harry Sherin, Duffus brothers; 2, Pete Heward, L. Enghorn, Bill MacKenzie, Jock Appleton, Spen Piper, Theo Emsley.

Ladies' Single Skiff — 1, Phyllis MacKenzie; 2, Edith Mills; 3, Betty MacKenzie.

Men's Single Canoe—1, G. Wotherspoon; 2, Harry Stabler; 3, R. Mills.

Open Sailing—1, Skidley, Red Eastwood, skipper; 2, Cuddy Sark, Elsworth Flavelle, skipper; 3, Baby Bootlegger, Gordon Matthews, skipper.

Ladies' Tandem Canoe; 1, Pete Heward and Phyllis MacKenzie; 2, Billy MacKenzie and Skook Emsley; 3, Betty Livingstone and Pip Killaly.

Men's Tandem Canoe—1, Gordon and Stewart Wotherspoon; 2, Bob Morris and Jack Guillett; 3, Harry Stabler and Gerald Duffus.

Free-for all motorboats (bang-and-come-back)—1, George Guilett; 2, Wotherspoon brothers.

Gunwale Race, mixed—1, Bob Beal; 2, Jack Guillett; 2, Harry Stabler.

Girl's special prize—1, Billy MacKenzie; 2, Phyllis MacKenzie.

Men's Single Skiff—1, Terry Hall; 2, R. V. Russell; 3, Bob Morris.

Seven-in-skiff, paddled—1, Shook Emsley; Pat Hall, Bfily MacKenzie, Bob Morris, Jack Guillett, Spen Piper, Alex Smith; 2, Terry Hall, Harry Stabler, Duffus brothers, Wotherspoon brothers, Wilfred Huston.

Mixed Tandem Canoe—1, Terry Hall and Shook Emsley; 2, S. Wotherspoon and Billy MacKenzie; 3, Harry Stabler and Evelyn Northey.

Mixed tandem skiff..1, Terry Hall and Edith Mills; 2, R. V. Russell and Phyllis MacKenzie; 3, F. Thompson and Joan Holloway.

Canoe Upset—1, Harry Stabler; 2, Gordon Wotherspoon.

Men's Swimming—1, Allan Gray; 2, T. Dunlop; 3, Reynolds S. Root.

Girls' Swimming—1, Ruth Gouinlock; 2, Marg Patterson.

Men's Tilting—1, Norman Buell and Stuart Wotherspoon; 2, Terry Hall and Bob Beach.

Girl's Tilting—1, Heward and Elizabeth Morris; 2, Billy MacKenzie and Skook Emsley.

PADDOCK'S MARK IS BEATEN

(Continued from Page 1)

won this fairly easily in six minutes 18 seconds.

William Reid of Toronto covered the 3,000-metre steeplechase run in 10 minutes 30 3-5 seconds. This was four seconds faster than the Canadian record, but the time was not considered because the race lacked the regulation official waterjump.

Williams had been having trouble with his legs some weeks ago and was barely recovering when he went into the Dominion Day race and was defeated by Tolan and Simpson. Saturday, consequently, he did not compete in the 200 metres distance, his trainer taking no chances on the trouble cropping up again.

The 200-metre title went to Fitzpatrick, who won in 22 -1-0 seconds, which was 1½ seconds slower than R. A. Locke's world record set at Lincoln, Nebraska, four years ago. "Fitz" beat out Ralph Adams by a close margin, while Napoleon Boudreau captured third place. Boudreau is the Dominion Police sprint champion.

Surprise in 400 Metre

A surprise came in the 400-metres final, when Alex Wilson won in 49 second flat, two-fifths of a second slower than the Canadian record. Wilson ran a nicely-judged race, catching the leader, Verne Eville of Acadia University, Nova Scotia, 100 metres from the finish and edging in front down the stretch to win by five feet. Jimmy Ball of Winnipeg, crack quarter-miler, who almost won this title at the Olympiad, finished third.

Percy Pickard of Hamilton accounted for the half-mile title in one minutes 58 3-10 seconds, six seconds slower than Phil Edwards' Canadian record. Pickard had enough speed left to stand off W. Johnson of Toronto, who showed a great burst of speed at the end to take second place from Brant Little, the Winnipeg star, who went to Notre Dame University.

Canada's Olympic representatives, Doral Pilling of Cardston, Alberta, javelin-thrower extraprdinary, and Victor Pickard of Hamilton, specialist in pole vaulting, came through in their events with ease and neither was extended enough to equal his own Canadian record. Pilling retained the javelin title with a throw of 196 feet 7½ inches, with Keith Crummer, Chatham, second, and Victor Pickard, third. Pickard held his pole vault title with a jump of 12 feet 6 inches; J. Stodart of Goderich getting second and Alfred Gilbert, Hamilton, third.

Shot Put Divided

The 16-pound shot put and 16-pound hammer throw titles were divided between the Atlantic and Pacific coasts. Charles Herman of Halifax took the first at 42 feet seven inches and John Cameron, New Westminster's chief of police, the hammer throw at 146 feet five inches.

Gordon Smallacombe, Toronto Star was the only double winner of the day. He captured the running broad jump and the hop, step and jump.

Hamilton Olympic Club monopolized the relay races, taking the 400 metres and 1,600 metre four-man relays, with convincing margins.

A highlight of the great afternoon's sport was the stirring duel provided in the 5,000 metre run. Fred Sargeant of Galt took the lead in this from George Ball, Woodbridge, Ont., and held it until red-headed Walter Hornby of Hamilton moved up 200 yards from the finish and battled Sargeant to the wire ,winning by two yards over the Galt man with Ball third.

The weather was entirely favorably though overcast skies before the events got underway undoubtedly kept many persons away from the stadium.

PROPOSE 10 PER CENT TARIFF FOR REVENUE

LONDON, Eng., Aug. 11. (C.P.) — The Daily Herald, Government organ to-day said that individual Ministers, in making plans for the forthcoming Imperial Conference, were considering the idea of a general tariff of ten percent. for revenue purpcses, with a rebate for the Dominions.

The project was said by the paper to have been submitted in a memorandum by H. D. Henderson, head of the Government's economic advisory staff, and to have reached a stage of discussion only as yet, the matter not having been broached in the Cabinet.

Cyclo Gas (NO KNOCK) MOTOR FUEL
A new motor fuel with drive—pep—and punch a-plenty!

RED INDIAN MOTOR OIL
Provides a perfect film of protection between all working parts of the engine!

MARATHON HI-TEST GASOLINE
A straight-run gasoline . . . economical . . . uniformly clean and reliable!

runs the RED INDIAN TRAIL!

Eagle flight when you climb the sky . . . wind swiftness when you take the road . . . the miles drop smoothly behind you on the Red Indian Trail!

Red Indian Motor Oil and either Cyclo Gas (No-Knock) Motor Fuel or Marathon Hi-Test Gasoline give life and zest to your motor . . . zoom you over highways and loop you around trouble . . . with the ease of a flyer winged with the power of Cyclo Aeroplane Gas!

Banish fuel and oil worries when you set out to drive! Let the Red Indian point the way to better, brisker performance! Make it easy for your car to yield maximum driving pleasure!

Enjoying Canada-wide popularity, McColl-Frontenac products are to be had in your own neighborhood. Red Indian stations are everywhere. As you drive 'cross the country (or fly 'cross the sky) you're always on the Red Indian Trail!

GREEN DEADED CHEESE AND DAMP BOXES ARE TOPIC OF DISCUSSION

Cheese Makers' Association Hear Report of District for Last Half of July.

AT CAMPBELLFORD.

CAMPBELLFORD, August 11 (Examiner Staff Correspondence).—The Campbellford District Cheesemakers' Association met in regular session on Friday evening at the Grading Station, Campbellford, when J. L. Irwin, Dominion Cheese Grader, and J. A. Murray gave inspirational addresses. The attendance was not so large as usual, but the meeting was enthusiastic.

W. V. Drury, the chairman and president of the association, in addressing the gathering, said that he was sorry to hear that several cheese had been picked out in the last grading, but this was due, he thought, to the extreme weather. He stated that all but two of the members of the association had paid up, but these men had signified their intention of so doing.

Mr. Murray, in his address, expressed his regret at the small attendance, and also that some cheese had been picked out. He stated that in his recent inspection of the district there had been very few faults to find with the factories. As a matter of fact, no conditions had been found that were detrimental to the cheese. Speaking of the standard of the cheese, although it was good, he emphasized the fact that a few cheese from week to week that were down kept the whole group down.

111 Picked Boxes.

Mr. Murray also gave the report of the district, covering the last half of the month of July. This was picked from eleven factories, and 111 boxes, and showed that five vats were not clean, five vats were slightly rancid, one vat rancid, two vats fruity, one vat weak, two vats gas, two vats open, one vat mealy, and one vat gasoline. These defects were divided into two groups, fourteen for flavor, which are accredited to the producer, and six mechanical defects, which are accredited to the maker. The speaker stated, however, that the Campbellford district compared favorably with other districts. As a comparison, its average was 53.1 for flavor and 46.9 for mechanical defects, as compared with Northern Ontario, which registered 56.1 for flavor and 43.9 for mechanical defects.

Speaking of the cheese in general, he said that none had been taken out for heat effects, but that some had too much salt on. Few cheese lacked color, but speaking along this line Mr. Murray said that the cheese from some factories were coarse in texture and loose, and thought that it was caused by heat, and advised that to overcome this difficulty the makers should let the air get at them.

Mr. Irwin spoke for some time on cheese grading, a subject that, he stated, was very important. There has been some trouble of late with green heading and wet boxes, and he explained to the makers that these defects must be overcome if the British market was to be retained, as the only way to keep the confidence of the British buyer was to keep up the standard of the cheese. Cheese that were soft, wet headed, and bleached out had very little comercial value, and the speaker stated that cheese were now sold on the understanding that any defects in them the makers were responsible for.

Mr. Irwin stated that the grading station had the privilege of holding any green cheese, but thought that it would be better if they were held at the factory, and advised that the makers should do this and iron out one cheese out of every vat and wait until they come down. Hold cheese at the factory was his advice, and gave as his reason for this the fact that they take more curing at the grading station than they do at the factory.

The speaker also stressed the importance of properly rinding the cheese and seeing that the boxes were dry and cut to size before boxing them, and called for co-operation on the part of the makers in getting as many firsts through as possible. He thought that the Campbellford District stood a good chance to measure up with other districts, but advised the makers that they must not slacken up on the job.

An open discussion followed, at which the questions of keeping the vat covers off in the hot weather, the use of salt, and color were threshed out.

It was decided to hold an inspection of the cheese factories of Prince Edward County on Sunday, August 19, the makers to meet at Belleville early in the morning of that day.

RAINS WELCOMED ACROSS DISTRICT

Many Fields of Oats, Bleached White, Poorly Filled After Heat.

PLOUGHING HEAVY.

The rain on Friday afternoon was welcome, not only because of the relief it afforded from the extreme heat but particularly to the farmers of the district, crops having suffered considerably from the long, hot, dry spell. Fields of oats, many of which are now cut or ready for immediate cutting, are bleached white, the heads poorly filled, and the straw, instead of being long and firm, is soft and on the whole quite short.

Many of the fields of wheat are now bare, the grain having been all drawn in, and several farmers report a good crop, while others state the early frosts killed fall wheat out in sections leaving a 'patchy' yield.

Plowing has been carried on under difficulties, the ground having been baked, and turning up in hard lumps. Gardens have suffered also from the drouth, and the berry crop in this section was a comparatively poor one.

CATTLE, GRAIN AND PRODUCE

WINNIPEG GRAIN.

WINNIPEG, Man., August 11. — Wheat prices pursued an erratic course during Saturday's short session. The main trend was downward, losses at the close ranging from 1¼ cents to 1⅛ cents a bushel. Support was extremely thin from shippers and exporters, and there was very little in the way of other outside buying. Scattered and moderate offerings rather easily depressed the market. Export sales overnight and during the morning were very light. Cooler weather prevailed over the Prairies on Saturday, and this was a factor in the downward drive.

Demand for cash wheat showed slight improvement, but offerings were light and only meagre trade was worked. Pit trade in coarse grains was extremely dull, with the values on the down grade.

Futures:

	Open	High	Low	Close	Prev. Close
Wheat—					
Oct.	1.04	1.04	1.01	1.01⅞	1.01⅝
Dec.	1.05½	1.05½	1.02½	1.03⅛	1.04⅛
May	1.11⅝	1.11⅝	1.09	1.09⅞	1.11⅛
Oats—					
Oct.	0.46¼	0.46¼	0.45⅝	0.46	0.46¼
Dec.	0.45⅝	0.45⅝	0.44⅝	0.44⅝	0.45⅛
May	0.48⅛	0.48⅛	0.48	0.48¼	0.48½
Barley—					
Oct.	0.45⅝	0.45⅝	0.44	0.44½	0.45⅝
Dec.	0.47⅝	0.47⅝	0.46¼	0.46⅞	0.47⅝
May	.....	....	....	....	....

MONTREAL PRODUCE.

MONTREAL, Aug. 11.—Reductions of one cent per bushel were made Saturday on the Montreal cash grain market in the following products: No. 5 barley, No. 4 C.W. barley, extra No. 1 feed oats, No. 3 C.W. oats, No. 1 feed oats, and No. 2 feed oats. The price of No. 2 C.W. oats was dropped two cents. An advance of one cent went into effect in feed wheat.

During the past week butter and eggs moved upward, while cheese and potatoes became cheaper on the Montreal market. Butter prices, wholesale, advanced ½ cent per pound to 28 cents per pound for car lots of Eastern Townships No. 1 pasteurized creamery; to retailers, for small lots, solids were 30 cents and prints 31 cents per pound. Cheese ended the week ½ cent per pound lower at 16¼ cents for Ontarios and 15¾ cents for Quebec. Potatoes dropped 25 cents to 75 cents per 90 pound bags. Eggs were advanced one cent per dozen to retailers.

The week's receipts were: Eggs, 14,948 cases; butter, 14,772 boxes; cheese, 40,780 boxes.

CHICAGO GRAIN.

CHICAGO, Aug. 11.—Divergent action separating corn from wheat developed during big dealings in the grain markets Saturday, and corn values mostly went higher, whereas wheat swung down grade. Prices of both corn and wheat fluctuated at a bewildering, rapid rate, but radically adverse crop reports as to corn, together with an official estimate of 75,000,000 bushels loss in Iowa, the leading corn State of the Union, proved to be the dominant factor in the corn market. Wheat gave way under a mass of week-end selling to realize profits, with export demand slow and Canadian wheat crop advices less unpromising than has been the rule of late.

Corn Closes Irregular.

Corn closed irregular, ranging from 3-8 cent. net lower to 1 cent higher than Saturday's finish. Wheat closed heavy, 1-8c to 7-8c off; oats, 1-2c down to 1-8c advance, and provisions unchanged to a rise of 7 cents.

DAIRY BOARDS

MADOC, Aug. 11.— At Saturday's meeting of the Madoc Cheese Board, 294 boxes white cheese were boarded and all sold at 15 15-16 cents, 159 boxes being sold to Hodgson & Rowson and 135 boxes to Cook.

DISTRICT MARKETS

AT DOWNEYVILLE

Beef, sirloin, 35c; round, 30c; roast 28-35c; stew, 17c. Veal, 25c. Pork, 27c. Lamb 25c. Breakfast bacon, 37c. Butter, creamery, 30c; dairy, 28c. Eggs, fresh, 27c. Chickens, 40c; stewing fowl, 30c. Potatoes 25c a peck; $1.50 a bag.

Livestock and grain prices are:—Cattle selects, 9¼c a pound; common butchers, 6-7c. Hogs, live, thick smooth, $10.75 cwt.; select graded, $11.75 cwt.; dressed, head on, $17 cwt.; head off $18 cwt.

Oats 60c a bushel; wheat, 85c a bushel; barley, 72c a bushel. Hay, $17 a ton.

Raspberries, $1.50 per pail, huckleberries, $2.00 per basket; apples, $1.50 per bag.

AT TRENT RIVER.

TRENT RIVER, August 11. — Following are the week-end retail market prices:

Beef, sirloin, 33c; round, 30c; stew, 25c. Breakfast bacon, 40c. Butter, creamery, 35c. Eggs, fresh, 30c. Chickens, 30c. Potoatoes, 30c a peck. Hay, 10.00 a ton.

Remarks: Tomatoes, 10c a pound; cucumbers, 5c each; peameal bacon, 45c a pound.

The Highway Traffic Amendment Act 1930.

A New Law for Motorists

There is an amendment to the Highway Traffic Act, effective Sept. 1st., which all motorists should understand. (We have prepared and printed an analysis of this, a copy of which you may have without charge by applying to any of our agents.)

You may drive carefully, not committing any of the offences mentioned in the Act, and if you are fortunate escape accident, but even the most careful drivers sometimes become involved in accidents resulting in personal injury or property damage to someone. Among other things

The New Law Says:

If you are directly or indirectly a party to such an accident, you must remain at or return at once to the scene of the accident.

If more than $50 damage has been done, you must report the matter immediately to the police, who report it to the Registrar of Motor Vehicles.

If you are at fault, you must pay damages for personal injury up to $10,000 and for property damage up to $1,000.

If you have committed any of the offences mentioned in the Act, or have failed to pay any judgment recorded against you in case of accident, your license will be suspended and you will be barred from the road. The suspension of an owner's permit applies to all his motor vehicles. A permit or license so suspended may be reinstated when the judgment against the offender has been satisfied, but even then not until he has given proof of financial responsibility, which may be done by:—

Giving a bond of a Surety Company.

Giving a personal bond, guaranteeing ability to pay.

Depositing money or securities to the amount of $11,000.

Presenting proof of insurance against personal injury and property damage.

SO unless a motorist is prepared to pay for the damage he may do to the person or property of others, he should not drive a car without the protection of Insurance.

Get your copy of the pamphlet to-day from the agent of any Company a member of

AUGUST SALE OF LINENS BLANKETS AND BEDDING

Commencing Tuesday - Sharp at 9 o'Clock

An event of much importance to Housewives - See Windows—Be Early!

Again we present this annual opportunity of restocking linen and bedding closets at decided savings. For some time past our buyers have been making plans for this popular sale event with the result that the line up of items for the five days of this sale is exceptional. While the quantities are in most cases liberal, we suggest that you shop promptly at 9 o'clock on Tuesday morning. Here are some of the outstanding attractions.

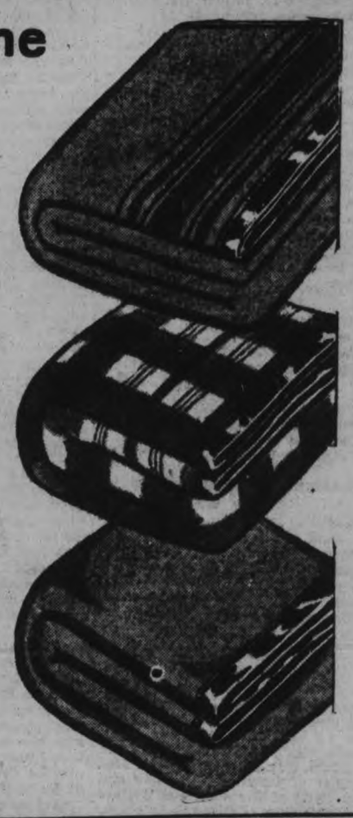
68 x 86-inch All Linen Table Cloths — 3.95
A headline item for this great event. Made in Ireland of double damask in floral and geometrical designs. Excellent quality at a moderate price. Each. Serviettes to match, 3.95 doz.

9 o'Clock Special! BE EARLY!
44" Bleached Pillow Cotton — 29c
Good heavy quality, fully bleached, strongly woven to give lasting wear. Outstanding special. Shop early. Yd. Tuesday .....

9 o'Clock Special! BE EARLY!
Cotton Krinkle Bedspreads — 1.59
Blue, rose, gold and green spreads that give an attractive and neat appearance. Scalloped edges, size 80"x100". Requires no ironing. Extra special....

It's Blanket Time at the C.D.S.

The August Sale of Blankets is particularly attractive this year. The values are excellent and the qualities high. Prepare for Fall and Winter at a saving by purchasing now.



Grey Union Blankets
Just the blanket for camps and cottages. Heavy quality that will give satisfactory wear. Size 60 x 80 inches. Buy one or more pairs at this remarkable saving price. Pair 3.95

"Kenwood" All Wool Blankets
Made of all virgin wool, thoroughly shrunk and scoured. Blankets that will last a lifetime. Double and single bed sizes, bound with lovely satin ribbon. Ask for "Kenwood".
Size 60"x84" Each 9
72" x 84" Each 10.50

Bonnie Doon Scotch Wool
A wonderful blanket, or throw-over. Light in weight, yet warm and comfortable. Made in Scotland of all wool yarns, white with pink or blue borders. Magnificent value at this price. 7 lb. 60" x 86". Pair.. 10.50
—Second Floor, C.D.S.

White Terry Towelling
All white double loop towelling. Wonderful quality with great absorbing power. 20 inches wide, finished edges. Free service, Yard 39c

68-inch Table Cloth Damask
Very fine quality linen finished cotton showing small, neat bluebell pattern with large allover checks. Extra special, Free service. Yard $1

Fine *Eatonia* Sheeting
Dependable quality at a low price. Firm, even weave free of filling. Restock your closets with sheets made of the "Eatonia" cotton. Free service.
72", Yard 59c — 81", Yard 65c — 90", Yard 75c

Pillow Cases
Fine quality Irish Cotton with neat hemstitched hems. Size 42x33 inches. Pair 50c

Huckaback Towels
All linen hand towels, dew bleached. Hemstitched ends. Size 18x32 inches. Each 59c

Special! Bleached Cotton Sheeting
Durable, evenly woven cotton that will give excellent wear. 81 inches wide. Buy many yards, and save. Free Service. Yard 59c

Wooler Girl is Made Presentation By Friends

WOOLER, Aug. 11 (Examiner Correspondence) — Miss Alice McColl, daughter of Mr. and Mrs. L. C. McColl who has entered Belleville Hospital as a nurse-in-training was the recipient of a leather club bag and hat box on Tuesday evening.

The gathering which was held at the home of her parents, was attended by many friends of the Sunday School of the United Church as well as members of the community. The accompanying address was read by Miss Ruth Ormis.

District Notes

Oshawa Wins Lakeshore League Championship

RAYBESTOS DROP SECOND GAME TO OSHAWA ARABS BY 11 TO 10 IN LAKESHORE LEAGUE FINALS

Oshawa Puts Two Runs Across in the Ninth to Win the Championship.

ARABS TO MEET TORONTO.

Contest Was Wild Exhibition of Hits, Runs and Errors.

Raybestos failed to hold a one-run lead on Andy Cohens' Arabs at Oshawa on Saturday afternoon and in their half of the ninth the motor town sheiks put two runs across with nobody out to win the championship of the Lakeshore League. The score was 11 to 10. As the Arabs won the first game here, they will play Toronto in the first round of the O.B.A.A. intermediate semi-finals while the Raybestos crew go into the discard for this season.

It was the Oshawa shorstop who started the row in the ninth that put the Rays away. He opened the frame with a smart single into left. Maudsley had two strikes on Dainty when he brushed the veteran's shoulder with a hook to put two runners on. Then Second Baseman Elliott laid down a bunt putting three on with nobody gone. Maudsley made his exit and Kitchen was brought in from right field. The big pitcher walked Grey, forcing in Gunnow with the tieing run, after which Fair singled cleanly through short to score Dainty with the winning run.

Plenty of Hitting.

The contest was a wild exhibition of hits, runs and errors, neither team being able to settle down for more than an inning. Two short of one hundred batsman faced the pitchers, the Rays having the edge by sending fifty-two batters to the plate. The Arabs were outhit but their swatting was more productive of runs sandwiched as they were with Rays misplays. Both pitchers received terrible support in the field with Maudsley getting the worse of the deal, the breaks going against him all afternoon.

Leftfielder Rowden had the only good-looking play of the game when he stole a home run from Jimmy Hall by making a great running catch in the second. Harold Nicholls' home run was a clout through third, the ball going far afield to roll under an automobile, there being no ground rule at the time.

Raybestos looked good getting away when Hall and Hillier singled. Hall decided to stay at second on Moore's fly to the garden and nothing developed in the way of runs, Heckman and Rogers going out on fly balls to the outfield.

Maudsley held the Arabs after a single and a pass, Rogers getting a runner at second, the third batter on a foul fly and a runner to third after Hubbell drew his fourth ball.

A wide throw gave Kitchen first base in the second and Mein sacrificed. Nicholls tripled to score Kitchen and Nicholls counted when Elliott again threw wildly to first on Maudsley's grounder. Hall lost a home run on Rowden's great catch, and Hillier fanned.

Nicholls and Mein threw out the Oshawans in a row.

After walking Moore in the third, Dainty fanned Heckman to the delight of the crowd. Rogers flew out, Kitchen hit and Mein grounded out.

Elliott hit and was sacrificed, going to third and scoring on Fair's double to left. Mein and Hillier fumbled ground balls and when Maudsley slipped off the rubber for a balk, Fair went home to tie the score. Hubbell grounded to Hillier who got C. Elliott at the plate. Whitely singled into right to score Rowden and Hubbell. Gunnow grounded out.

Take Lead In Fourth.

Rays went ahead in the fourth getting three runs with two gone and none out. A pass to Hall, hits by Hillier and Moore, a wild throw by the second baseman and the third baseman's lapse accounted for a pair of counters and Rogers' single made the third. Kitchen ended the uproar on a fly to right. Dainty read the riot act at this stage.

Oshawa got them all back with little effort. Dainty's long fly was lost by Moore and Hillier fell all over Elliott's grounder. Grey popped to Mein, and Fair was passed, loading the bags. C. Elliott's single into middle scored two. Rowden laid one down to Nicholls and nobody covered the bag all hands being safe. Hillier booted Hubbell's grounder and Fair scored number three. As Whitely struckout, Rogers picked Elliott off first.

Rays tied it up at 7 to 7 in the fifth, on Mein's bingle, Nicholls' home run, and Jimmy Hall got as far as second after his hit.

With two Oshawans gone in their half T. Elliott hit, and Hillier helped Grey make first. Maudsley struckout Fair.

With one gone in the sixth Rays got a break when Dainty muffed Kitchen's fly and fumbled Mein's effort to sacrifice. Nicholls laid one down to put three on. Maudsley fanned and Hall flew out.

In their half with Elliott out to Heckman, Rowden walked and Hubbell hopped a double through Nicholls. Both scored on Whitely's single out to Moore. On Gunnow's grounder to Mein, the throw to second got the runner but Hillier spoiled the double killing with a wild throw. Dainty grounded out.

Tied Up In Seventh.

Rays tied it up again in the seventh. Hillier walked, went to third on Moore's single and scored when Fair dropped Heckman's fly. Moore in turn was hit home by Rogers. Grounders down third by Kitchen and Mein forced Heckman and Rogers at third. Elliott made it three in a row by throwing out Nicholls.

Oshawa did not get a runner to first. It was also the first time the feat was performed.

Rays pulled away with a run in the eighth on Maudsley's single, Hall's sacrifice and the third baseman's error on Hillier's choice. The next two went out.

The Arabs failed to get the run back, a hit through short being their best effort of the frame.

Rogers' fly in the ninth was taken nicely by Rowden and the third-baseman threw out Kitchen. Mein singled into left. With Nicholls at bat, a throw to second to get Mein stealing went out to Fair, but his good throw to third caught Mein.

Arabs won out in their half on a single, a hit-by pitcher, and infield hit of Maudsley, and a base on balls and a single off Kitchen.

The box score:

Raybestos:	AB	R	H	PO	A	E
Hall, lf	4	2	2	0	0	0
Hillier, ss	4	2	2	1	2	4
Moore, cf	4	2	2	0	0	1
Heckman, 1b	5	0	0	14	0	0
Rogers, c	6	0	2	4	3	0

By innings:

Raybestos ..... 020330210—10
Oshawa ..... 004303002—11

Home run—Nicholls. Three base hit—Nicholls. Two base hit—Fair, Hubbell. Struck out—by Dainty 5, by Maudsley 2. Base on balls—Off Dainty 5, off Maudsley 4, off Kitchen 1. Hit by pitcher—By Maudsley (Dainty). Balk—Maudsley. Left on bases—Raybestos 13, Oshawa 11. Umpires—Kay at plate, Dell at bases.

AMERICANS SAVE HOTELS.

American tourists saved many hotels in England from closing during the summer season. Many report that every night their hostelries were filled, mainly on account of the large number of American visitors. One hotel proprietor at Warwickshire frankly confessed that but for American patronage he could not have "carried on," and others have implied as much.

TRENT RIVER

Mr. and Mrs. Ray of Peterborough, are guests with Miss Gladys Brewster at "Reo Vista. Other recent guests with Miss Brewster were Mr. and Mrs. Roy Burgess, Mr. and Mrs. Badgley of Toronto; Mrs. Dowd and Miss Betty of Osgoode; Miss Wallace and Miss Cray of Ottawa.

Miss Marion Morris of Toronto, is holidaying with her aunt, Mrs. A. W. C. Goodman at their summer home.

Mr. Neil Tobin and family, assistant manager of the Metropolitan Life Assurance Co., Peterborough, are at "Cedar Nook."

Mr. and Mrs. Alex. Greenley and daughter, Miss Helen, of Toronto, have taken "Beau Sejour" cottage for August and part of September. Their little grandson, Reginald Greenley of Toronto, accompanies them.

Mrs. S. J. Dolman of Campbellford, has returned to her cottage.

LEAGUE LEADERS SPLIT 4 GAMES LEAFS WIN TWO

Standing in International Between Rochester and Baltimore Remains Unchanged.

BUFFALO BEATEN TWICE.

Toronto Takes Two Games From Reading—Montreal Also Wins.

TORONTO, Aug. 11.—(CP)— The first four games of the crucial series between the Baltimore Orioles and Rochester Redwings have resulted in an even split that leaves Rochester's six game lead intact. After splitting a double bill on Saturday, the two pace-setters did the same thing yesterday, Rochester winning the first game 12-4 and losing the second 11-4.

Rip Collins was the hero of the Redwings first game victory. The big first baseman clouted three home runs and a single, driving in eight of the Redwings' runs. Smith pitched steady ball for the winners, keeping Baltimore's ten hits well scattered. McGowan and Gile hit for the circuit for Baltimore. Stewart Bolen was in form in the second game and gave the Redwings only eight hits, while Baltimore was pounding Carleton Littlejohn and Irvin for twelve solid safeties including Joe Hauser's 48th homer of the year in the first inning. All told the Orioles got five home runs in the second game, Gill hitting two and Padden, Dairymple and Hauser one each.

Toronto Wins Two

Toronto took two heavy hitting games from Reading, 12-6 and 10-8, McAfee being charged with both defeats. He started the first game and finished the second for the Keys. The Leafs bunched 13 hits to good advantage in the opener while Sam Gibson, although nicked for 13 safeties, was effective in the pinches. The second game, scheduled for seven innings went eight before Toronto could win. Kunesh's triple with two on won the battle for the Leafs. Jurges of Reading and Sheedy of Toronto hit home runs in each game.

Montreal took two games from Jersey City 11-2 and 9-4.

Herb Thormahlen let the Skeeters down with five hits in the opener while Classet permitted only six in the nightcap. Montreal collected fourteen hits in the opener and 12 in the second game, Head and Henry each getting five during the day. Helgeth, Head, Gautreau and Walker hit for the circuit in the double bill.

Buffalo Beaten Twice

The Newark Bears moved into fifth place with a double-header victory over the Buffalo Bisons. The Bears had to come from behind to take the afternoon encounter 9 to 8 but won with ease in the night contest 17 to 7. A five-run attack in the first inning of the opener drove manager Al Mamaux of Newark from the mound but a youngster "Hank" Boney did a neat bit of relief hurling while his teammates slowly cut down the lead. Harvin went the game for the winners at night, while the Bears were pounding four Bison pitchers for 19 safe blows.

Following the lead of her mother, who was one of the first members of the Aberdeen Aero Club of Scotland, Miss Isabell Scott-Elliott has just been granted a license as a private pilot, and is preparing to apply for a mechanic's license, as well as helping her younger sister to fly.

BROOKLYN DROPS DOUBLE HEADER

Cubs Win Two and Are Just One Game Behind Leaders.

REDS BEATEN TWICE.

NEW YORK, Aug. 11. (C.P.) — Once again the Brooklyn Robins are finding the pathway through the western half of the National League circuit a thorny road to travel in their quest of the championship pennant.

On their last swing through the west, the pace setting Robins failed to break even, dropping seven of their thirteen games, and if the results at St. Louis the last three days are any criterion then Brooklyn's pennant hopes are due to receive a severe jolt before the Robins return to flatbush.

The second and third blow in two days was handed the Robins yesterday when the Cardinals took a double header the first 8 to 2 and the nightcap 4 to 0. The double defeat while the Cubs were winning two gave Brooklyn just a one game advantage over the league champions. Burleigh Grimes pitched steady ball in the first, but Wild Bill Hallahan was brilliant in the closing contest. He let the Robins down with five hits and fanned 12, striking out seven of the nine men that faced him in the third, fourth and fifth innings.

Cubs Win Two

Taking advantage of Brooklyn's twin defeat, the Cubs took the measure of the Boston Braves 6 to 0 and 11 to 1. A pair of highly polished pitching performances by Charlie Root and Pat Malone and Hack Wilsons' home run bat accounted for Chicago's triumphs.

Root set the Braves down with three hits in the opener while Wilson blasted out his thirty-seventh and thirty-eighth home runs. Malone produced a five hit game in the second while Hack was sending his thirty-ninth homer over the wall. An overflow crowd of 45,000 witnessed the double victory.

The lowly Phillies also won a double header, taking the Cincinati Reds into camp by the scores of 18 to 0 and 4 to 3 four Red hurlers were touched for twenty-one safeties in the first while Collins had the edge over Rixey in the nightcap.

WEDNESDAY'S GAME WILL END SCHEDULE

Oshawa and Campbellford to Battle in Last Fixture of O.A.L.A.

CAMPBELLFORD, Aug. 11.—(By Examiner Staff Correspondent).— The last scheduled game in the Intermediate group of the O.A.L.A. will be fought out on Wednesday, when Oshawa will journey to Campbellford to meet the Millers on the High school grounds at that place. The game is called for 5.15.

Three teams are entered in this group, Oshawa, Millbrook and Campbellford, and have played a schedule of twelve games, four at each point. Wednesday's game will complete the series. So far Oshawa has sustained no losses, Campbellford four and Millbrook seven. After this game, arrangements will be made for the play-offs, which it is thought will be between Oshawa and Campbellford.

MOOSE DEFEAT KIWANIS 8 TO 5 IN FAST GAME

Locals Put Up a Great Game and Deserved Closer Score.

HITS ARE NUMEROUS.

Visitors Connect For Eleven Clean Hits and Are a Smart Team.

Jack Deannard's Kiwanis Juniors hit their first snag of the season on Saturday afternoon at the Exhibition Grounds, when they met the Belleville Moose in the first game of the O.B.A.A. play-offs and suffered an 8—3 defeat.

Despite the fact that the visitors connected with eleven clean hits, the locals deserved a closer score as Cripps pitched a nice game but was let down badly by his teammates in the infield, who made errors at critical times, which proved costly, coupled up with this was the fact that the visitors had a practically perfect day in the infield, staging three double plays.

Cripps pitched the whole game for the Kiwanis, fanning four and walking four, while Barriage, who twirled for the winners, struck out four also but failed to pass any batter.

Dallin and Foley were the outstanding hitters for the locals, the former getting three and the latter two.

The Game by Innings

McKinnon, first batter for Belleville, walked and stole second. Morgan fanned. Young singled, scoring McKinnon. Darrah singled, putting two on. Mott struck out. Delaney was thrown out by Hall.

Kiwanis.—Foley crashed a double into left field; Dallin hit in centre. Saunders hit into a double play when Young took his line drive, catching Foley off third and threw Saunders out at first. Whatley fanned.

2nd Innings

Barriage walked, stole second and went to third when Whatley overthrew to second. Meen's singled, scoring Barriage, and stole second. Booth hit into left, scoring Meens, but was caught napping at second. McKinnon was safe when Sproats threw low to first. Morgan sacrificed. Young popped to Cripps.

Kiwanis—Cripps flied to Morgan. McCullough singled. Hall popped a foul bunt to Darrah, who caught McCullough off first for the second double play of the game.

3rd Innings

Sproats took Darrah's grounder. Mott beat out a bunt. Delaney forced Mott, who was out, Hall to Sproates. Barriage poled out a two-bagger, scoring Delaney and went to third when Foley overthrew to the plate. Meens walked. Booth was safe when Saunders threw high to first. Delaney and Meens scoring. McKinnon singled. Morgan was out on a grounder to Hall.

Kiwanis.—Sproates fanned. Miller rolled to Barriage. Foley hit into left. Dallin hammered a long fly into centre field, making second when the fielders collided, Foley scoring. Saunders' Texas leaguer scored Dallin. Saunders stole second and scored when Darrah threw low to third, Whatley whiffed.

4th Innings

Young was thrown out by Cripps. Darrah fanned. Mott struck out but made the base when Whatley dropped the third strike and made a poor throw. Delaney was an easy out on a roller to Cripps.

Kiwanis—The locals got away to a good start in this frame when Cripps singled and McCullough was safe on Young's error. Hall sacrificed. Their hopes, however, went glimmering when Sproats' line drive was nabbed by Young, who caught Cripps off third for the third double play.

5th Innings

Barriage singled. Meens grounded to Sproats, who engineered a double, getting Barriage at second and Meens at first. Booth fanned.

Kiwanis—Miller hit into right. Foley flied to Meens. Dallin sacrificed. Saunders' hard hit fly was gathered in by Meens.

6th Inning

McKinnon cracked out a single. Morgan sacrificed, Saunders to McCullough. Young was safe when Cripps fumbled his roller. Darrah walked, loading the bases. McKinnon was caught between bases. Mott was safe when McCullough dropped the throw from Cripps. Delaney walloped a hot grounder into centre, scoring Young and Darrah. Barriage hit to McCullough.

Whatley popped to Young and Meens took Cripps' drive to left. McCullough was safe on Young's fumble. Hall rolled to Booth.

Seventh Innings

Meen's grounded to Saunders and was out. Booth was also thrown out by Saunders. McKinnon popped to Whatley.

Kiwanis—Sproats was out on a slow grounded to Young. Miller fanned. Foley flied to Barriage.

Eighth Innings

Morgan rolled to Saunders. Foley made a sensational catch of Young's high drive to centre. Darrah flied to Miller.

Kiwanis.—Dallin's hit to centre was good for one base. Saunders sacrificed. Whatley lined out to Booth. Cripps was safe when Morgan threw low. McCullough was thrown out by Young.

Ninth Innings

Mott was safe when McCullough dropped Cripps' throw. Delaney hit to McCullough, who threw to Saunders, catching Mott at third for the fifth double play of the game. Barriage filed to Miller.

Kiwanis.—Hall's high fly was taken by Delaney. Sproats went out on a grounder to Barriage. Miller filed to Mott.

Bases on ball—Off Cripps, 3. Struck out—By Cripps, 4; Barriage, 4. Left on bases—Peterborough, 7; Belleville, 6. Sacrifice hits—Dallin, Saunders, Hall, Morgan (2). Stolen bases—Peterborough, 2; Belleville, 5.

Umpire in Chief—LeBarr. On the bases, H. Hollingsworth.

11 RUNS SCORED IN ONE INNING

Washington Senators Stage Great Slugging Festival at Cleveland.

RUTH'S 42ND HOMER.

NEW YORK, August 11 (C.P.).—Turning on the Cleveland Indians, the Washington Senators managed to hold on to second place in the American League by a margin of two points by slugging out an 18 to 6 victory. Eleven runs in the eighth inning accounted for the large score. During the session 15 Senators went to bat and produced the following baseball: Seven hits, including a triple; two errors by Cleveland; two wild pitches by Jablonowski, and four base on balls.

The Yankees kept pace with the Senators in a home run festival with the St. Louis Browns. The New Yorkers winning 14 to 11. Babe Ruth connected with his forty-second of the year, while Combs, Goslin, and Blue also rapped out circuit blows. Goslin drove in four of the Browns' runs, while Ruth sent in three for the Yankees.

Earl Whitehill chalked up his ninth straight victory for Detroit as the Tigers turned back the Boston Red Sox. The Tiger mound ace held the Sox to three hits and scoreless for eight innings, but in the last session they put together two singles, and a double with a sacrifice fly to score their only runs.

The first marriage service conducted in the Manx language for more than 100 years took place recently at Kirk Braddan, near Douglas, Ile of Man, when J. J. Kneen, president of the Manx Antiquarian Society, was married to Miss Katherine Alice Bridson.

C. G. E. VS. BRINTON TUESDAY EVENING

Kick-off at 6.45 in Final of White Challenge Cup on King Edward Park.

The soccer bill for to-morrow evening is the final of the White Challenge Cup between the Canadian General and the Brinton Athletic on King Edward Park. Referee, Alexander McKinley. Kick-off at 6.30.

This will be an interesting battle to gain the possesion of this silverware and is in fact one of the largest the association present each season.

At the end of the encounter three prizes will be given away to the lucky winners that attend the game.

LOCALS BEATEN FOR FIRST TIME IN FOUR YEARS

First of Home and Home Series With Toronto Team Played on Saturday.

FOR MALLETT TROPHY.

Routley Gets Into Difficulty in Sixth When Eight Runs Are Scored.

For the first time in four years of inter-factory competition the local C. G.E. bowed to a team from the C. G.E. Davenport Works, Toronto, taking a 15-5 defeat on Saturday at James Stevenson Park.

This battle was the first of a home-and home series with the Torontonians for possession of the Mallett Trophy, which the local team has successfully defended for four years. This season, however, the visitors have gathered together a snappy crew who performed on Saturday in clever style, and appear to have the edge on the locals in pitching and team play.

Hainsworth twirled for the winners and turned back eleven of Jack Cameron's team by the strike-out out route, while his team mates with only three errors backed him up in real style. He was touched for eleven hits and walked three.

Routley started on the mound for the locals and breezed along nicely until the sixth when the Davenport team gathered in eight runs. He fanned two and walked one. Powell replaced him in the seventh innings and only three batters faced him in the seventh and eighth, but in the ninth two walks and a single started the fireworks and his opponents added four more counters.

The return game will be played in Toronto some time in September. Score by innings:

	R	H	E.
Davenport Works 003008004	15	10	3
Peterboro' Works 010000202	5	11	6

Line-up:

Davenport Works—Burns, 3b.; Dargie, c.; Cruise, c.f.; Mackie, l.f.; Hall, s.s.; Fleming, 2b.; Prentice, r.f.; Taylor, 1b.; Hainsworth, p.

Peterboro Works — Playford, l.f.; Webb, r.f.; Gore, c.; Weese, 2b.; Routly, p.; Osterland, 3b.; Calladine, s.s.; McLeish, 1b.; Griffin, c.f.; T. Miller, c.f.; K. Miller, c.f.; Powell, p.

Umpires — Bennett at the plate; Northrop on the bases.

LAWN BOWLING

The folowing is the draw for the doubles competition in the Peterborough Lawn Bowling Club. The preliminary round must be played on or before Tuesday evening, Aug. 12th. On account of the open doubles tournament on Wednesday afternoon and evening, no club doubles games will be scheduled, but on Thursday the first sixteen games in the first round must be played.

OSHAWA LOSE TO BRAMPTON

Senior Lacrosse Champions Beaten 6 to 4 in First Game of Finals.

LAST MINUTE RALLY.

BRAMPTON, Aug. 11.—"Pete" Ella is the uncrowned king of Brampton today. With the seconds being ticked off by the timers in the last two minutes of play and the Excelsiors' outlook as black as night for staking a claim to the O.A.L.A. senior lacrosse championship, Ella came through like a flash, intercepted a long pass after Oshawa had relieved an Excelsior heavy thrust and, catching the champions' defense off their guard by the unexpected development, raced in to the outer line of defense and blazed a low shot through the maze of sticks and milling players. Shannon' view was blocked by the backed-in white shirts and the red-jerseyed foe, and the ball hit the cord.

It was a great play, comng at an opportune time, and Excelsiors' chances for a senior championship were brightened. For Oshawa were leading 4 to 3 when Ella came through for his spectacular rush and goal, and Excelsiors were apparently a beaten team. There were no further developments before the gong sounded for full time, but in the ten minutes' overtime period Excelsiors played as a team inspired. There was new life in the weary bodies and legs of the players, and the General Motors twelve were never in the picture. In the first short overtime period Gibson laid Thomson a perfect pass and the junior protege rushed in and easily beat Shannon.

In Their Stride

Excelsiors, one up, continued an offensive game. They handled the ball carefully, covered up quickly any mistake they made, and with ends changed they made the score sheet read 6 to 4, Kendall racing in and outguessing Shannon on a low shot. Oshawa were a beaten team when the overtime started and could do nothing right. Just as many teams with victory in their grasp have their hopes blasted by an equalizing goal, so Oshawa was demoralized and offered feeble opposition to the men of Powers, playing as a team possessed and confident, determined that as opportunity had knocked, nothing would or could stop them from admitting the very welcome guest.

What a game! what a crowd! and what a finish! It was the first clash between these old rivals in the senior play-offs. For a third consecutive season Excelsiors had made all the pace and commanded the top pinnacle in the league, with the regular schedule completed. Twice they had bowed to the great Oshawa machine in the two classic tilts that mark the curtain dropping of the senior race. And to shake the jinx, they chose this season to play the first game on their home grounds.

Today they have a grip on the title thanks to the versatile Ella, whose playing this season marks him as one of the best in the national game. It can be said for the former Weston junior that he has confounded his critics. A year ago he was marked as the weak link in the play-offs, the cause of Excelsiors' home loss. He has erased the blot on his escutcheon, stilled the bleats of those who have criticized him, and cut a niche in the hall of fame of lacrosse history in this town, and lacrosse has been Bramptons most popular pastime since the oldest inhabitant played with a rattle.

F. C. WEBER WINS TOMBSTONE CUP

Thirty Members of Peterborough Golf Club Take Part in Competition.

CONTEST IS KEEN.

On Saturday at the Peterborough Golf Club the tenth annual competition for the Frederick B. Brown Tombstone Cup was contested by over thirty members. The course was in excellent condition after Friday's rain and the competition very keen, five members finishing on the twentieth green with the cup winner having only one stroke advantage.

Low gross score, F. C. Weber and C. H. Ackerman, tie with 78.

Low net score F. C. Weber, second H. C. Sootheran followed closely by C. H. Ackerman, C. S. Brown, D. B. Falkner and A. H. Stratton, each of whom received prizes.

The list of cup winners since presentation:

1921, W. C. Ackerman; 1922, J. Wearing; 1923, F. C. Weber; 1924, Dr. E. H. Wood; 1925, R. Grant; 1926, F. M. Dela Fosse; 1927, C. S. Browne; 1928 Dr. J. C. Green; 1929, Terry Hall; 1930, F. C. Weber.

CARDWELL HEADS NEW CANOE CLUB

Young Men of Millbrook and Vicinity Form a Canoe Club.

TO TEACH SWIMMING.

MILLBROOK, Aug. 11—(Examiner Correspondence).—A Canoe Club, with swimming instruction as one of its most prominent features, has recently been organized among the young men or the village and surrounding district, the officers including:

President—Herbert Cardwell.
Vice-Pres.—Murray Caplan.
Secretary-Treasurer—Lloyd Byam.
Swimming Instructor—M. Caplan.
Canoe Instructors—H. Cardwell and J. Deyell.

Tuesday and Thursday evenings each week are the times of meeting, the place being Wallace Point, Otonabee River, practice in the correct manner of handling a canoe, and instruction in the art of swimming, taking up the time of the gathering. The work of digging out the mud bottom on a section of the river line above the wharf at Wallace's Point, and seeing that several loads of sand are dumped into the space cleared, is an undertaking now under way, in order that a good swimming-beach may be secured.

The task of securing a long list of membership names is also an activity of the immediate future, and it is not anticipated that this will prove at all a difficult proposition as the boys and young men are genuinely interested in the proposition which, it is generally acknowledged, will fill a long-felt want, and supply a much-needed form of instruction and recreation.

The officers of the canoe club feel it is rather late in the season to arrange for a regatta, though this is an activity that will be looked forward to with much eagerness for another summer, but expect to hold a sports' day probably in September.

The thought in the minds of those sponsoring the organization of the canoe and swimming club was the actual necessity of preventing accidents by making available to every boy and young man in the district and opportunity to learn how to handle a boat properly, and how to swim. Life saving and resuscitation methods for those rescued from the water, will follow in due course.

A safe swimming-beach at the Point will be appreciated, even though its use is limited to club members, as the water is too deep right at the wharf to make it safe for any except those who are expert in the art of swimming and diving.

TRENT RIVER.

Mr. Thos. J. Brown is building a garage on his property.

Miss Allison of Peterborough, is a visitor with Mr. and Mrs. A. H. McKeel at "Waterside."

Miss Muriel Robertson of Toronto, is holidaying with Miss Irene Davidson at "Sunnyside."

Messrs. Forbes Robertson and Neil Henderson of Toronto, were recent guests at "Sunnyside."

Miss Maybelle Inkster, R.N., of the staff of the Royal Victoria Hospital, Montreal, arrived Monday night to remain for two weeks at her home.

Mr. and Mrs. Spence and Miss Margaret returned to Toronto Tuesday, having spent the week-end and holiday as guests at the "Cook cottage."

HARWOOD BEATS ROSENEATH BOYS

Home Team is Beaten on tis Own Diamond 12 Runs to Four.

DUNNETT HIT HARD.

HASTINGS, August 11 (Examiner Correspondence). — Harwood took Roseneath into camp on Saturday afternoon in Roseneath by 12 to 4 in a scheduled Northumberland Leayue game. Harwood went right after the verdict in the first innings by batting around the line-up for five runs. Harwood hit Dunnett freely throughout the contest. Roseneath had also seven errors to help Harwood. Roseneath got to Young for two doubles and a single for two runs in their half of the first; from then on they found Young hard to solve, getting single counters in the sixth and seventh.

TENNIS MATCHES WON BY OSHAWA

Peterborough Wins the Men's Doubles But Drops the Other Events.

NEW LEAGUE RECORD.

The Oshawa Tennis Club were the guests of the Peterborough Tennis team on Saturday afternoon, at the Lawn Bowling Club courts. This match was the local team's last home game of the season in the Central Ontario Lawn Tennis Association schedule and resulted in a victory for Oshawa by the score of 5—2. Peterborough's two wins came in the men's doubles and were both long and hard fought matches, particularly the first men's doubles, where Messrs. H. Wilson and G. R. Langley for Peterborough succeeded in downing Messrs. Alger and Everson only after 53 games had been played, creating a league record for length of play. Mr. Vesey, who won the eastern Ontario singles championships earlier this season, defeated G. C. Scott, No. 1 player on the Peterborough team, in a match that produced fine tennis.

The detail scores were as follows:

First Men's Singles—Vesey, Oshawa, won from G. C. Scott, 6—2, 6—1.

Second Men's Singles—Hainer, Oshawa, won from H. Sills, 6—0, 6—0.

First Men's Doubles—H. Wilson and G. Langley, Peterborough, won from Everson and Alger, 14—16, 8—6, 6—3.

Second Men's Doubles—B. Sturgeon and J. Wilson, Peterborough, won from Armstrong and Jamieson, 7—5, 6—8, 6—4.

Ladies' Singles—Miss Meyers, Oshawa, won from Mrs. Cruthers, 6—3, 6—4.

Ladies' Doubles—Miss Goheen and Miss Furber, Oshawa, won from Mrs. W. Jackson and Mrs. Cranfield, 6—4, 6—4.

Mixed Doubles—Miss Gilbert and Mr. Fishleigh, Oshawa, won from Mrs. Langley and Mr. V. S. Foster, 6—1, 6—2.

Following the match, tea was served to the players and their friends at the club house, under the direction of Mrs. Dr. Herbert Young and Mrs. Gordon Langley, assisted by the Misses Peggy and Betsy Scott.

At the present time, Oshawa is tied with Campbellford for the leadership of the eastern section of the league, with Peterborough in third place. It is expected that the playoff between Oshawa and Campbellford will take place August 30th on the Peterborough Courts.

RECORD SALMON CATCH.

SAINT JOHN, N.B.—J. F. Calder, Federal Supervisor of Fisheries for Southeastern New Brunswick, reports that salmon drift net fishing in Saint John Harbor and the Bay of Fundy has been the best this year of any year since records have been kept. Exclusive of weir fishermen, he says, 20,000 salmon were taken during June, by drift nets.

Girl Speed Boat Owner Loses Summer Home in Fire

The photograph above shows the Muskoka home of Miss Marion B. Carstairs, English speed boat driver, which was totally destroyed by fire. Inset, Miss Carstairs, who is at present conditioning her two speed boats, Estelle IV. and Estelle V., for the international motor boat races at Detroit on Labor Day. Her cottage, which was said to be fitted as a small gymnasium, was situated at West Gravenhurst, Ont.

HASTINGS WILL MEET KINGSTON

First Game of Play-offs Will Take Place in Hastings on Wednesday, Aug. 20.

SCHEDULED FOR 16TH.

HASTINGS, August 11 (Examiner Correspondence).— The management of the local baseball team received word on Saturday morning that the first game of the play-downs in the Intermediate B Series would take place in Hastings on Wednesday afternoon, August 20. This game was scheduled for August 16, but owing to a three-cornered tie in the Kingston and District League, the game had to be put over a few days to give them a chance to get a winner. If Hastings play the same brand of ball they have played all season, all they need is a big crowd to take the Limestone City boys into camp.

HARDILL TO PITCH FOR THE CRESCENTS

Third Game of Series Will Be Played at Exhibition Park To-night.

Canadian Generals will face Jeff Hardill when they meet Crescents this evening in the third game of the E.P.L. finals, but Manager Art Primeau, who has a problem on his hands, had not decided at noon on his pitching selection. The fans are eagerly awaiting the contest, anticipating a repetition of Thursday's great game.

Raybestos having been eliminated at Oshawa on Saturday, it is now known definitely that the E.P.L. winner will meet the Bay of Quinte champions in the first O. B. A. A. round. As this series will be an expensive one for the local champions, the fans can help a lot by attending the present series.

A BEDTIME STORY

By Howard R. Garis

UNCLE WIGGILY'S FLYING LIGHTS.

"What can have happened to the moon?"

Uncle Wiggily asked this, as did Nurse Jane Fuzzy Wuzzy and Mrs. Twistytail the lady pig, who had come over to help with the lawn party at the rabbit gentleman's hollow stump bungalow.

"Where is the moon?"

That's what Kittie Kat, Jackie Bow Wow, Billie Wagtail and all the other animal children wanted to know as they looked at the ice-cream freezers and the boxes of cake on the bungalow steps.

"We can't have a moonlight party without a moon," chattered Johnnie Bushytail, the squirrel boy.

You know that is true; don't you? Of course you can have a party any time you like. It may be a birthday party or a surprise party or a garage party. But when you tell everybody you are going to have a moonlight party, and then there is no moon, well, it's just too bad! That's what Uncle Wiggily thought.

For the old rabbit gentleman had planned to give all his animal children friends a jolly moonlight party on his bungalow lawn. But after the sun

Mrs. Longears served the ice cream and cake.

went down, and it began to get dark, and when the moon should have come sailing up out of the east behind the trees, why, there was no moon at all and the lawn was dark.

"Somebody must have taken the moon away just to be mean!" mewed Kittie Kat.

"Oh, I see what's the matter!" suddenly exclaimed Baby Bunty, the little orphan rabbit, jumping up and down. "The sky is all covered with clouds and that's why the moon can't shine down. Look through that hole in the clouds and you can see a little of the silvery moon!"

They all looked and there, surely enough, was the moon trying to peep out from behind the clouds to shine for Uncle Wiggily's party. But the clouds were too thick and, after letting the moon have just that one peep, they closed over the hole and it was darker than ever.

"I know what we can do!" cried Kittie Kat.

"What?" asked everybody, even Uncle Wiggily, for he felt sad at having his party spoiled because the moon could not shine.

"Let's all take long breaths and blow the clouds away!" said Bunty. "You know the wind can blow the clouds away from the sun so maybe, if we try hard, we can blow them away from the moon."

"Hurray! Let's try it!" barked Peetie Bow Wow. "It isn't any fun at a party without the moon. Blow, everybody!"

My goodness! You should have heard those animal children trying to blow the clouds away so the bright moon could shine. Puff and blow! Puff and blow! Even Nurse Jane Fuzzy Wuzzy blew her share as did Mrs. Longears. But the clouds still hid the moon and the party was dark.

"I guess even an elephant ,puffing through his trunk, couldn't blow those clouds away," bleated Billie Wagtail, the goat boy.

"You are right," agreed Uncle Wiggily. "Only a strong wind could blow those clouds off the moon. But we still have the ice-cream and cake. You children can eat that."

"In the dark?" asked Baby Bunty sadly. "Oh, what a shame! If we only had some Chinese lanterns, or something like that, to hang in the trees it wouldn't be so bad. The whole party is being spoiled."

"I wish I had some lanterns," sighed Uncle Wiggily. "If I had I would put them in the trees and then——" He stopped talking all of a sudden and looked up in the trees. He saw some little lights flashing. Soon there were more lights, hundreds of them—like tiny lanterns flitting around. The lights flew from one tree to another.

"Oh!" cried Baby Bunty, "maybe the moon has all busted into little pieces and they're sifting down through the clouds to light the party."

"Oh, no, not that!" said Uncle Wiggily. "The moon couldn't do that. But those flying lights are fireflies—lightning bugs—and if we only had enough of them our party would be just fine."

"Well, Uncle Wiggily, you are going to have plenty of flying lights for your lawn party!" buzzed one big lightning bug. "We are your friends. We heard about your moonlight party and when the clouds came to hide the moon I and my friends flew from far and near to come and sit in the trees around your bungalow to make it light. Come, my friends," went on the firefly, "flitter your wings and make a grand light for Uncle Wiggily's party!"

Then thousands and thousands of lightning bugs flew up into the trees and soon the lawn of the bungalow was almost as bright as if the moon had been shining. How happy the animal children were and they were much happier when Nurse Jane and Mrs. Longears and Mrs. Twistytail served the ice-cream and cake. Then they danced on the lawn lighted by fireflies and played games and had fun until it was time to go home to bed.

The Messrs. O'Brien of Indian River have purchased two farms here formerly occupied by Mr. Arthur O'Reilly and Mr. Fred Twomey.

Mr. John Harrington of Peterborough spent the week end with his parents, Mr. and Mrs. William Harrington.

AT ROSENEATH.

Little Kenneth Sherwin entertained a number of his friends on Tuesday afternoon by giving a birthday party. Games, races, music and many other pranks filled the program for the afternoon, and great fun was spent among the kiddies. Dorothy Tucker of Lindsay helped to brighten the party in giving a humorous recitation, while her sister, Marjorie favored them with several instrumental selections. Prizes were given for races and contests which was a pleasing feature and much enjoyed. A delicious lunch was served, including watermelon, candies, etc., by Mrs. Sherwin, assisted by Miss Penhale and Miss Broadbent of Toronto. Among the guests at the party were Jack and Gordon Pacey, Norine and Everett Adams, Frank Mouncey, Jean Braithwaite, Olive Sherwin, Alma Thackeray, Nell and Elmer Sherwin of Roseneath; Marjorie, Dorothy and Mavis Tucker of Lindsay; Marjorie McDowell, Lillian Broadbent and Violet Penhale of Toronto, and Jim McHendry of Mimico.

Miss Hildred Taylor entertained her guests on the Civic Holiday, with an outing on Rice Lake and a picnic on the shore. A most delightful time was enjoyed as the weather was ideal for out-of-door sports. Among her guests were Mrs. Bert Cunningham, Pittsburg, Pa., her mother, Mrs. Aldridge, Rochester, N.Y., Mr. and Mrs. Harry Cunningham of Cobourg, their son, Victor Cunningham and daughter, Miss Rosella Cunningham, who are remaining for a week's vacation; Mr. Roger Parks and sister, Miss Marie Parks of Belleville.

Mr. and Mrs. Alfred Braithwaite and Mrs. Jessie Varcoe attended the funeral of their cousin, the late John Ross, of Orillia, on Monday last.

Miss Marjorie Trayes, of Bangor, Penn., is holidaying with Mr. and Mrs. Marcena Davey.

Mr. and Mrs. J. Loukes of Toronto, has been visiting friends in the village and surrounding community.

Mr. Sam Cocker and Mr. Phil Hyde of Toronto were week-end guests of Mr. and Mrs. William Taylor.

Mrs. John Duff had the misfortune to fail breaking her wrist, but is doing nicely.

The friends of Mrs. John Brickman are pleased to learn she is doing favorably well, after meeting with an accident in falling down the cellar steps.

Mr. Frank Taylor of Toronto, spent the week-end and Civic holiday with his parents, Mr. and Mrs. W. Taylor.

Mr. and Mrs. R. Linton and family spent Sunday with friends at Gore's Landing.

Put a stop to HAY FEVER or Summer Asthma. You can—with RAZ-MAH Capsules—if you'll just start before the attack is due. You'll rejoice at the results. People with Hay Fever 20 years have absolutely stopped it with RAZ-MAH. It's wonderful! No sprays, snuff, smokes or serums. No harmful or habit-forming drugs.

MISSION BAND MEETS.

Mrs. McMasters Takes Charge of Study Book Lesson at Wooler.

WOOLER, Aug. 11 (Examiner Correspondence) — The home of Mrs. Wilfred Wessels was filled on Tuesday afternoon with members of the Women's Missionary Society and members of the Golden Rule Mission Band, for the regular meeting.

The program was furnished by the Band and consisted of a vocal solo by Jean Steinburgh, reading by Olive Redcliffe. The Study Book was taken practically by Mrs. Clarence McMasters. Mrs. S. L. Terrill presided for the meeting and visitors were present from Toronto and Wyoming. Refreshments were served at the close.

CANADA TO BOOST HER GRAIN SALES

Orders Given Trade Commissioners to Relieve Wheat Situation.

ITALIAN DUTY UP.

OTTAWA, Aug. 11 (C.P.)—Messages have gone forward to all Canadian trade commissioners situated in countries which import wheat and flour to concentrate on boosting the sale of these Canadian products, it was stated by Hon. H. H. Stevens, Minister of Trade and Commerce, Saturday. This is being done to relieve, if possible, the wheat situation in Canada.

Conferences will be continued next week between the Western Provincial Premiers and Hon. R. B. Bennett and his colleagues with respect to the wheat holdover. Hon. Mr. Stevens expressed the opinion that the elevator space in Canada would be sufficient to take care of the carryover as well as the new crop. "There may be some cases of local congestion," he said, "but taking the country as a whole I think the new crop can be stored. If there had been a bumper crop this year it might have been difficult."

An increase in duty on wheat imported into Italy put into effect recently in order to safeguard the farmers of the country from unprofitable prices has been reported by A. B. Muddiman, Canadian trade commissioner in Milan, to the Department of Trade and Commerce.

One million tons of sweet potatoes were grown in the Netherland East Indies last year.

6,141 ACCIDENTS REPORTED IN JULY WORKMEN'S COMPENSATION BOARD

2,397 Less Than for the Same Month in 1929.

$660,844.16 PAID OUT.

There were 6,141 accidents reported to the Workmen's Compensation Board during the month of July, a decrease of 166 from the number during June, and 2,397 less than July a year ago, in which the largest number of accidents were reported that have been reported during any one month since the commencement of the Act.

This brings the total number of accidents reported to date this year to 42,439, as compared with 50,063 for the same period last year, and 42,590 for the corresponding period of 1928.

There were 88 fatal accidents reported during July, this being the largest number of fatalities during any month since the Act has been in operation, the increase no doubt being partially due to the recent explosion near Brockville.

The total benefits awarded during July amounted to $660,844.16, of which $563,168.49 was for compensation and $97,675.67 for medical aid, as compared with $716,649.28 total benefits during July a year ago.

Aviatrix On Tour

A well known English aviatrix, Miss Spooner, as she appeared in Berlin during a pause in her European air jaunt. She is bracing herself against the wing of her plane.

New palatial headquarters for the government broadcasting organization are being built in London.

CANADA HAS HIGH PLACE IN VATICAN

Rt. Rev. M. J. O'Brien Tells of Canonization of Eight Canadian Martyrs.

AUDIENCE WITH POPE.

MONTREAL, Aug. 11. — Canadian prestige stands at a very high level to-day at the Vatican," said Rt. Rev. M. J. O'Brien coadjutor Archbishop of Kingston and former Bishop of Peterborough on his return from Rome, where he attended on July 29 the canonization of the eight French Canadian martyrs who were murdered by the Iroquois in the early days of French settlement in North America.

"Canada's high place among the nations to-day is the result not only of her glorious past in the evangalization of the primitive races of this continent," continued His Lordship, "but is due also to the devotion of Canadians of the present."

Canada had a large representation at the canonization he said. There were two large parties of pilgrims—one French-Canadian and one English-Canadian—which not only made the journey to Rome, but visited the birthplace of St. Ignatius Loyala and many other points of interest to the devoute Roman Catholic. Archbishop O'Brien, who has been away from Canada for only two months, did not accompany the pilgrimages.

Speaks With Pope.

While in Rome, Archbishop O'Brien had an audience with the Pope whom he found wonderfully fit and well and taking a keen interest in ecclesiastical affairs in Canada with which he is thoroughly versed.

Relations between Church and State, he found on a thoroughly satisfactory footing in Italy as a result of the concordat concluded between Mussolini and the Vatican.

Italy appeared to be prosperous and enjoying the benefits of firm rule. Law and order seemed to be satisfactorily observed. The country, Archbishop O'Brien found, was suffering very little from unemployment and Mussolini seemed to have imparted new vigor into the nation. As to whether the people were satisfied under the rule of Il Duce, he did not feel competent to express an opinion.

The Archbishop, who was met at the quayside by Rev. Monsignor Nicholson, Vicar-General of the diocese of Kingston and by Rev. Father Martin, also of Kingston, looked bronzed and healthy and expressed himself as having thoroughly enjoyed the trip.

Scenes From Fire on Indian Resere

Here are shown two graphic scenes from the fire area on the Six Nations reserve at Ohsweken, where a blaze sweeping across a wide stretch has damaged fields and standing grain. Top, United church on reserve, which was saved after almost Homeric struggle on part of Indian congregation, showing smoke from fire in background. Bottom—Indians using primitive methods to combat the flames.

SOME DAY!

There is perhaps some much desired thing that you are looking forward to some day. It may be a home, a trip or some cherished dream of your own. Whatever it is, regular deposits in a Savings Account in this Bank will bring realization closer.

TARZAN OF THE APES No. 33 (Metropolitan Newspaper Feature Service, Inc.) By Edgar Rice Burroughs

The sailors stood in a frightened group, with drawn revolvers. The wounded man writhed and shrieked upon the ground. The young man, whose name was Clayton, picked up the fallen revolver. Jane, the girl, ran to him. "Who could it have been?" she whispered. Meanwhile her father and his scholarly companion had wandered into the primeval jungle.

"I daresay Tarzan of the Apes is watching us all right!" Clayton answered. "Go into the cabin while I go in search of your father." He gave Jane his revolver and when he saw the door closely safely behind Jane and her servant, Esmeralda, he strode into the dense jungle.

When Jane and Esmeralda found themselves safely behind the cabin door, the negress's first thought was to barricade the portal from within. She turned to search for some means to do it. With her first look, she gave a shriek of terror, running to her mistress like a frightened child.

Jane saw the cause of her cry! Lying prone upon the floor beside them was the whitened skeleton of a man. A further glance revealed the second skeleton upon the bed. And then the tiny skeleton in the cradle! "What horrible place are we in?" murmured the awe-struck girl. Esmeralda trembled.

What might lie before them in this ill-fated cabin? She endeavored to shake off the gloomy forebodings. She bade Esmeralda cease her wailings, and the two of them barred the heavy door. Then they sat down upon a bench, their arms about one another, two thoroughly frightened women, and waited.

NEW ZEALAND IS FAVORING BRITAIN

Premier Forbes Would Continue Political and Economical Associations.

AFTER CANADIAN TRADE.

WELLINGTON, N.Z., (C.P. Cable)—New Zealand values very highly her continued association with the Mother Country, and it our wish to maintain this association intimately, if possible, both politically and economically," declared Premier G. W. Forbes, in the course of a statement in the House of Representatives which outlined New Zealand's attitude at the coming Imperial Economic Conference.

Premier Forbes said he was convinced that the welfare, safety and prosperity of the whole British Commonwealth depended to a very material extent upon the continuation of a close association of the partner governments, whose policy should be decided after continuous consultation. New Zealand, he thought, did not wish to make any alteration to her present powers regarding legislation that would affect her high standing in the London market. In his view New Zealand favoured uniform nationality and law throughout the Empire.

Questions of dense and foreign affairs must be left to Imperial control, asserted Premier Forbes and must continue to be guided by experience of the necessities of the United Kingdom. New Zealand's attitude toward the Singapore naval base was in no way altered, he continued and she would assist any movement that promised to improve the economic prosperity of Great Britain. During his visit to Europe he hopes to negotiate trade agreements with Canada and France, the Premier announced.

Enroll Now as a Pupil Nurse and While Studying
at the
BUFFALO CITY HOSPITAL
462 GRIDER ST., BUFFALO, N.Y.

Accumulate a 3-Year Credit with the University of Buffalo toward the Degree of Bachelor of Science in Nursing, and

Earn $15.00 a Month, Including Lodging, Food, Uniforms, Laundry, and Text Books.

Scientific and cultural training directed by the Deans and Faculties of the Medical School and the College of Arts and Sciences.

J.L., Central School, D. Belleghem & Son, and all kind friends and neighbors who asisted in every way with cars and floral tributes and kindness during their recent sad bereavement.

DID YOU SEE IT? EVERYONE ASKS

Great Municipal Pyjama Parade Held on Streets Last Night.

FEW DISAPPOINTED.

Did You see it?—Foolish question No. 1003 for you were no doubt one of the participants in the great municipal pyjama parade early this morning. Or, by chance, were one of those several unfortunate souls that missed the sight? One or two telephoned The Examiner around 4 o'clock this morning after the R-100 had been here and gone some time and sleepily asked if anything had been heard of it yet. Imagine their disappointment

Some were fooled by early reports which set the time for the big air-liner's visit to the city as between 4 and 5 o'clock. They answered the summons of their faithful alarm-clocks promptly at 4 a.m. but to no avail. And then, of course, there was the odd one here and there who slept through the sound of fire sirens, factory whistles and even the roar of the R-100's motors.

As soon as the visitor had passed over the city and continued on its way to Toronto the Bell Telephone exchange was deluged with calls. The switch-boards, which became a blaze of lights, required the attention of five extra operators. Calls were mostly "post-mortem's" on the event, it is believed.

One old lady, when her signal light was answered, asked the operator excitedly, "Did you see it?"

"Yes, madam" the operator replied.

"Oh, I thought maybe you missed it!"

Just before the ship arrived over the city somebody asked one of the operators if the city was on fire. The sound of the fire siren and factory whistles must have suggested that idea. Another lady who also could not have read the newspapers very diligently asked if the Canadian General Electric factory was on fire and, if not, why was the whistle blowing.

It is remarkable how many people claim that the dirigible passed directly over their residences. Almost all seem to have that impression possibly on acount of the size and elevation of the ship.

Three C.G.E. workmen heard Peter Milloy blow the whistle and immediately rushed to work as they are accustomed to do six mornings every week.

It was reported in Peterborough today that very little enthusiasm was shown as the ship flew over Oshawa early this morning after passing over Peterborough, which goes to show that although the officers of the R-100 brought the big airship nearly 90 miles out its way to get to Peterborough they must have been well pleased with the reception given them here.

BIRTH.

HOTSTON.—At Nicholls Hospital, on Saturday, August 9th, to Mr. and Mrs. Harry Hotston (nee Lilian Gregory), a son—Stanley George James.

JONES—On Monday, Aug. 11, at St. Joseph's Hospital to Mr. and Mrs. W. Jones, 96½ Lansdowne St., a son.

400 Day Clocks

* * * *

We have just received another shipment of 400 Day Clocks.

These Clocks will run for 400 days with only one winding.

A very fine appearance, lacquered brass movements with highly polished steel pinions and glass dust-proof covers. These clocks give good satisfaction and keep good time.

CONTEST CONTINUES UNTIL SATURDAY

Committee Met Saturday Night and Decided to Give Boys and Girls Further Chance.

"The Village Name Committee" that has offered three prizes for the most acceptable name for the community south east of the city held a meeting on Saturday evening. All the members of the committee were present; the names of the committee are Mark S. Burnham, John J. Howden, F. C. Burgess, Dickson Davidson and John T. O'Connell.

A large number of the letters were opened, indicating a lively interest in the contest. Several requests were made to extend the period for receiving suggestions owing to the absence from the city of many boys and girls who would like to participate in the contest.

The committee finally agreed to extend the competition for this week and fixed the closing date of Saturday noon, August 16th, 1930. The Committee will meet this evening and give careful consideration to the many suggestions made, quite a number of which have considerable value.

Interest in the contest is going among the younger element of the schools.

MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

CARS IN COLLISION

A minor accident resulted at 10.20 o'clock last night when William H. Baker, 165 Dublin street, turned out to pass a car travelling west on Charlotte street between Stewart and Rubidge and side-swiped a small car driven by Murray Hartley, 507 Stewart street. Neither drivers or occupants were injured but the cars suffered slight damages.

SCORE CARD 423 WINS.

The holder of score card number 423, used in the past week to score a round on Mite-Tee Green, is the winner of the weekly $5.00 in gold, and is given till Wednesday night to claim it, after which the second selection will be awarded the prize.

VEGETABLE GROWERS WIN AWARDS.

Vegetable growers in Peterborough County figure prominently in the prize-list for the field crop competition of the Ontario Vegetable Growers' Association. The Peterborough growers competed in District No. 1, which includes the territory east of Toronto.

The following prizes were taken by local growers this year: Lettuce, 3rd prize, J. A. Williams, R.R. 5, Peterborough; cabbages, 4th prize, Doig and Johnston, R.R. 5, Peterborough, and 5th prize, C. Kitney and Sons, R.R. 11, Peterborough; staked tomatoes, 1st prize, C. Kitney and Sons; celery, 1st prize, C. Kitney and Sons.

MOTOR TO OSHAWA

A large party of Orangemen, members of R. B. F. No. 261 left by automobiles yesterday morning to attend Divine Service at Oshawa, after which they motored to Blackstock to attend the evening service there held under the auspices of the R. B. P.

BALD-HEADED EAGLE.

A great bald-headed eagle, a rare bird in this district, was yesterday sighted at Clear Lake by Robert Baker of this city. The bird was in flight when Mr. Baker first saw it from the shore of his summer estate, but it was later discovered resting in the same vicinity. It had a wing-spread of about six feet.

WILLIAM BROWN DIES SUDDENLY

Stricken With Dramatic Suddenness After Eating Meal in Downtown Restaurant.

NATIVE OF MANVERS.

Stricken with dramatic suddeness after having eaten a meal in a downtown restaurant, William F. Brown late of 191 Dublin street, passed away in the arms of his wife last evening.

The deceased gentleman, a native of Manvers township and son of the late Mr. and Mrs. John Brown came to this city about fifteen years ago from Mount Pleasant. He was in the milling trade and was in Mr. Grant's office at the Quaker Oats factory up to the time of the disastrous fire. He has since been with the Peterborough Cereal Company where he had come to be regarded as a valuable and trusted employee.

In addition to his sorrowing widow, Emma, he leaves one son Lynn Brown. Another son Lieut. Edward Percy L. an instructor in the Royal Flying Corps died in the service of his country overseas.

He also leaves one brother Robert of Millbrook and three sisters, Mrs. Ferguson of Pontypool, and Mrs. Wood and Mrs. Dr. Clark, both of Toronto, while three other sisters, Mrs. Mahood, Mrs. Coulter and Mrs. McMaster predeceased him.

The late Mr. Brown was a member of Mount Pleasant Presbyterian Church.

It is learned Mr. Brown has been attended recently by Dr. E. A. Hammond and that he had been absent from business for the first two days of last week owing to indisposition. Returning to business on Wednesday morning against the wishes of his wife he was obliged to return home again at noon, although he attended his duties again on Thursday morning and for the remainder of the week. Apparently in good health he was dining with his wife last evening and after having passed a cheerful remark as to the quality of the meal he suddenly slumped over the table. Medical aid was summoned and on the arrival of Dr. T. G. Loudon life was extinct.

The funeral will be held on Tuesday from his late residence where a short service will be conducted by Rev. Mr. Riddell in the absence of Rev. Wm. Allan of St. Paul's Presbyterian Church. Interment will take place at Mount Pleasant cemetery.

ATTEMPTING NEW OUTBOARD MARK

Bob and Joseph aCrter Start in Clear Lake to Outlast 239 Hour Record.

SECOND TRY.

In an endeavor to set a new world's endurance record for outboard motor boats, Bob and Joseph Carter of this city commenced a long grind which they hope to continue for more than 239 hours around the two and one-half mile water course at South Beach, Clear Lake, at 12.18 o'clock this afternoon. The present 239-hour mark was set at Cleveland, Ohio, two weeks ago.

The boys are using a boat designed by D'Arcy Carter and themselves and built by the Williams Piano Company of Oshawa. It is powered by a Johnson Sea Horse "32" outboard motor built at the Canadian Johnson Motor Company made in Peterborough, for which Super-Shell gasoline and Castrol Motor Oil has been supplied. Refuelling is done by the use of another boat. The two drivers work on shifts, but never leave the endurance boat.

A start was made at 12.32 o'clock on Saturday night, but after 12½ hours running a broken motor shaft caused a failure.

D'Arcy Carter is managing the attempt for a record.

FRAME BUILDING GUTTED BY FIRE

Boys Smoking Are Believed to Have Started Blaze on Whitlaw Street.

PUMPER WAS USED.

A large frame building on the Purdy Lumber Mill property Whitlaw Street was totally destroyed by fire on Saturday afternoon. While the cause is unknown, it is strongly suspected that the fire was caused by boys smoking in the building, which was empty and which has not been in use for some time past.

Receiving the call at 4:50 members of Peterborough Fire Department put up a battle lasting one and three quarter hours. A 450 feet line of hose was commissioned and with the aid of the pumper water was procured from the river.

The building is believed to have belonged to a Toronto resident. It is not known whether insurance was carried or not.

ADVERTISE IN THE EXAMINER

Unemployment Sets European Record

LONDON, England, August 11 (C.P.). — Unemployment reached a new high record in the Old World, with the announcement yesterday by Germany that her total number of persons out of work is 2,757,000.

As Great Britain's unemployed officially passed the 2,000,000 mark last month, it is estimated that in six European countries there are to-day at least 5,949,287 persons listed as being out of work.

In Great Britain, Germany, Austria, Hungary, Italy and France the workers dependent for their livelihood upon private charity or public doles now exceed the population of any European capital except London.

HEADMASTER IS LOST IN ROCKIES

Guides Seeking New Jersey Man Missing on Mount Robson.

MISHAP FEARED.

MOUNT ROBSON, B.C., August 11. — Search parties composed of skilled mountaineers and Swiss guides have left here to look for Newman D. Waffl, headmaster of Cateret Academy, Orange, N.J., who set out six days ago, without companion or guide, to attempt, by a new route, the ascent of Mount Robson, 12,972 feet high, the highest peak in the Canadian Rockies. His return was looked for 96 hours ago. When he left, Mr. Waffl carried only enough food for three days.

Beacon fires built of wood carried to the ice and rocks high above the timber-line, burning in full view of the trains of the Canadian National Railways which thunder by many times a day, have flashed word to the valley, thousands of feet below, that so far no definite trace has been found of the missing Alpinist. Roy Hargreaves, well-known guide and outfitter, who, with the British Columbia police, is conducting the search, reported that tracks had been followed up the slopes of the mountain until they disappeared on the bare rocks.

The Canadian Alpine Club, camped at the upper end of Maligne Lake, in Jasper Park, has been notified that Mr. Waffl, who has made many first ascents, is long overdue. It is expected that they will send two Swiss guides, Hans and Henry Furrer, to assist in the search.

Mr. Waffl, before leaving Berg last Tuesday morning, intimated that he would attempt a traverse of the peak, a feat never before achieved. He indicated that he would return to the base of the mountain by Wednesday night at the latest, and carried with him only enough food for that limited time.

BOOTLEGGERS WARN POLICE

St. Thomas Crown Attorney and Officers Told to "Lay Off" Rum Runners.

THREATENING LETTERS.

ST. THOMAS, Ont., Aug. 11 (C.P.)—Following threats by telephone to Chief of Police Gunson and Capt. Taylor, M.C.R. officer, to lay off on attempts to clean up suspected bootlegging and rum-running activities here, Angus McCrimmon, St. Thomas, 82-year-old Crown Attorney and Provincial Constable D. C. Shervill to-day received threats by letter from men believed to be interested in the illicit liquor business.

Both letters taken from city letter boxes early this morning, and delivered during the day, were written in pencil in small very faintly defined block letters. Mr. McCrimmon's letter read: "District Attorney—Lay off our racket or you will be put on the spot."

Constable Shervill's letter read: "To you and all the rest of the dirty cops—Lay off our racket in city or you will be put on the spot. Gunson had his warning; this is yours."

Both officers are disinclined to take the threats seriously. Constable Shervill thinks it the work of a jester trying to make a sensation.

OBITUARY

MRS. GEORGE SOLMES.

The death occurred early this morning of Rosana Curtis, wife of George Solmes, of 315½ Murray Street, at the age of 75 years.

The late Mrs. Solmes was born in Toronto and had lived in this city for a number of years. She was a member of the Salvation Army.

She leaves, besides her husband, one daughter, Mrs. Thos. Lucas, of this city, and three sons, Albert Wright and Brock Wright, of Grimsby, and Roy Wright, of this city.

The funeral will be held on Tuesday at 2 p.m. from D. Belleghem and Sons' Funeral Home. The service will be conducted by Adj. Jones of the Salvation Army. Interment at Little Lake Cemetery.

VOICES ON R-100 HEARD IN ONTARIO

Broadcast Makes Two-way Radio Telephonic Communication in Dominion.

GREETINGS EXCHANGED.

OTTAWA, Ont., Aug. 11 (C.P.). — "Calling GFAAV; this is CNRO on 875 meters wave length." The message was repeated for three minutes, then: "Come in now, please, we have heard nothing from you yet."

Followed: Several more minutes of tense silence among those present in the radio control room and suddenly came R-100's radio voice: "Hello CNRO, this is GFAAV replying. Hear you clearly and hope you can hear us as well."

In this terse fashion two-way radio telephonic communication history was written for Canada as Britain's phantom of the heavens rode over the capital last night. After bucking heavy winds for the entire journey, the giant dirigible glided into view from the south-east after a cruise of just more than three and one-half hours from St. Hubert's aerodrome outside Montreal.

Calls Started at 10.21.

While thousands crowded every vantage point about Ottawa and Hull for a glimpse of the airship, a knot of persons stood in the control room of radio station CNRO as the telephonic-wave flashes went out to GFAAV, call letters of the dirigible. At 10.21 o'clock, some 25 minutes after the big bag thrust her silvery shape into view here, Captain H. A. R. Galbraith, of the Canadian Corps of Signals, heard this summons to R-100, "Please come in," answered with a cheery "Hello CNRO." Thus two-way radio telephonic communication was established, an unparalleled event in the Dominion's history.

Official greetings to the Capital were voiced to the R-100 crew by Hon. R. B. Bennett, speaking from the radio room to Commander R. S. Booth, the Prime Minister said: "Good evening Commander, how are you to-night. I saw you arriving and I thought you executed an excellent turn over the Peace Tower. This is a different cry from having lunch with you the other day, and it is a very different thing to hear your voice right beside me as then, and to hear it over the radio as you pass over Ottawa to-night. Convey my congratulations to all on board. Good night."

Commander Booth Replies.

Commander Booth replied that he was feeling fit. He thanked the Prime Minister personally and on behalf of the airship crew, for his greetings. A fine view of the capital, he said, was had by all on board.

Then followed others, voicing their well wishes from the slowly cruising dirigible and from the ground radio station. Communication continued practically up until the time the nose headed for her trip to Toronto and the Niagara Peninsula.

LARGE ENTRY LIST FOR BOXING SHOW

Boxers From All Points in Canada Arriving in Hamilton.

HAMILTON, Ont., Aug. 11 (C.P.)—The largest entry for any show in the history of Canadian amateur boxing is claimed by the officials of the Hamilton Olympic Club, under whose auspices the Canadian championships and the British Empire Games trials will be held to-night, to-morrow and Wednesday nights.

Boxers from all points in Canada, from the Maritimes to the Prairies, are entered for matches. The card for the first night will not be made up until the boxers weigh in. Jimmy Tressider, matchmaker of the Hamilton Olympics, is in charge.

FARMER WOUNDS GIRL SHOOTS SELF AND WIFE

EDMONTON, Alta., Aug. 11 (C.P.)—Two persons were shot fatally and a 14-year-old girl received a bullet in the leg in a farm house murder-suicide tragedy, 42 miles west of Edmonton, Sunday, according to Alberta Provincial Police reports.

Archie Green, farmer, killed his wife, shot his step-daughter, Alice Townsend, through the leg, and then ended his own life with the same weapon after arranging a funeral pyre for the bodies of himself and Mrs. Green by setting fire to the house.

The daughter is now in hospital and is recovering.

DEATH.

TYLER.—At the residence of her eldest son, Orillia, Ont., on Sunday, August 3rd. Sarah Jane, wife of the late John H. Tyler, Oakdale, Ont., and dearly beloved mother of Mrs. J. Harry Carey, of Toronto, formerly of Peterborough.

UNSIGHTLY HAIRS
Permanently removed by Electrolysis. Dermatologist. Formerly of Hiscott Institute. Expert Facial and Scalp Massage. Skin Diseases successfully treated.—Anne Graham Logan, 201 Brock St. Phone 3102 for appointments.

FIERCE AFRIDES SEEK ASSISTANCE

Hillsmen Urge Neighboring Tribes to Aid in Peshawar Assault.

OPPOSE AFGHAN KING.

BOMBAY, India, Aug 11 (C.P.) — The fierce Afridi tribesmen who are menacing the northwestern area apparently are endeavoring to persuade neighboring tribes to join them in attacking Peshawar and other strategic frontier towns.

Their objective has not been made clear, however, since the news received here is very scanty and apparently is delayed or held up altogether by censorship.

Observers here cannot understand why a few thousand Afridis, armed only with rifles, would deliberately go against thousands of regular British forces, using airplanes and all the other modern accoutrements of war, unless they are spurred on by the hope of neighboring mountain tribes joining them.

Some persons believe that their efforts may be in some way connected with a revolt of their tribal brothers against Nadir Shah, King of Afghanistan. Nadir Shah was reported to have squelched a rebel army after battle late last month, slaying hundreds.

The Afridis, now in the vicinity of Pashwar are themselves Afghans. Like the other fighting warriors of the hills they are against both the Indian and Afghan Governments.

TENNIS.

RYE, N. Y., Aug. 11.—(CP)—Canada's lone entry in the Eastern Grass Courts tennis singles championship, Miss Jean Burritt, of Toronto advanced to the second round to-day through default of Miss Josephine Cruickshank, Santa Ana, Calif.

Miss Betty Nuthall, British star, withdrew her entry, saying she felt a week of practice at Forest Hills would better fit her for next week's national championships.

Miss Mary Greef, Kansas City, won an easy victory over Mrs. G. Arthur Schieren, Bronxville, N. Y., 6-0, 6-0.

Miss Carolyn Babcock, Los Angeles, defeated Miss Theodosia Smith, Chicago, 6-4, 6-2.

Miss Edith Cross, San Francisco, won in rather easy fashion from Miss Hermine Kuhn, New York, 6-3, 6-1.

THE Y.W.C.A. WEEK'S ACTIVITIES

Swimming—

Come swim at the Y.W.C.A. pool. Clear heated, filtered water at the Y.W.C.A. pool. Swimming morning, afternoon and evening. Juniors 15c., seniors 25c., or get a ticket for a month, $1.00.

Outdoor Club—

Girls be ready for the outing this week. Trip to Chemong and jolly camp fire supper. Meet at the Y.W.C.A. 6 p.m. sharp. 'Phone 233 before Tuesday noon and let us know if you are going.

Y.W.C.A. Camp, Englestane—

Camp is in full swing and everyone enjoys the jolly camp life at Inglestane. A camp experience should be the privilege of every girl.

VOL. LXV., No. 35 PETERBOROUGH, ONTARIO, CANADA, TUESDAY, AUGUST 12, 1930 PRICE THREE CENTS

DEFENCE COUNSEL SCORES HON. W. H. PRICE

Government Abolishes Tariff Board

NEW TRIBUNAL BE SIMILAR TO ONE PROPOSED 1912

Functions of Board Are Not Outlined By Premier Bennett.

AWAIT LEGISLATION.

Many Employees on Present Board No Longer Have Jobs.

OTTAWA, Aug. 12.—Announcement was made by Premier Richard B. Bennett last night that the Government has rescinded the Order-inCouncil appointing the Advisory Board on Tariff and Taxation. The Prime Minister said it was the intention of the Government to ask Parliament for statutory authority to set up a new tribunal along the lines of that proposed before the war by the Borden Government.

Bill Was Dropped

At that time a bill was introduced in the House of Commons authorizing the creation of a Tariff Commission, but the measure was amended in the Senate in a manner that was not acceptable to the Government of the day, and the bill was permitted to drop. Mr. Bennett recalled that the Conservatives had not a majority in the upper House at that time. A similar condition exists today, the Liberals having a majority of three or four in the Red Chamber.

Mr. Bennett did not indicate just what the functions of the new tribunal would be or what machinery would be required. That will be reviewed later on, when the bill is introduced in the House. Asked what would become of the staff of the present board, whether they would be absorbed into other Government departments, the Prime Minister replied they were not in the Civil Service, and consequently when the board was abolished their positions no longer existed. It will be unnecessary for Hector Racine and Frank Jacobs, members of the board, to tender their resignations, as their positions are simply abolished with the discontinuation of the board. The Chairman, William H. Moore, resigned before the election to contest the constituency of Ontario County, and was elected by a small majority over the former member, Dr. Thomas E. Kaiser of Oshawa. The Secretary, Hector B. McKinnon, formerly of Toronto, has been transferred to the Department of Finance, succeeding James A. Russell, the veteran Commissioner of Tariffs.

Breadner As New Chairman

There was a rumor that Robert W. Breadner, Commissioner of Customs, Chairman of the Board of Customs and formerly tariff expert of the Canadian Manufacturers' Association, would be the new Chairman of the Tariff Commission, but the Prime Minister declined to comment on the report when it was brought to his attention this evening. The Advisory Board of Tariff and Taxation had on its staff several experts like Miss McEvoy, graduate in economics of the University of Toronto; Miss Rowland, graduate in economics of Queen's University, Kingston, and a staff of ten or fifteen clerks. Miss Hazel Sherritt, private secretary to the Chairman of the board, is in the civil service, and probably will be transferred to another department. She was formerly private secretary to Right Hon. George P. Graham, when he was Minister of Railways and Canals.

The annual cost of the board, including salaries, fees to experts who were retained on research work, the printing of evidence and general office expenses, exceeded $100,000.

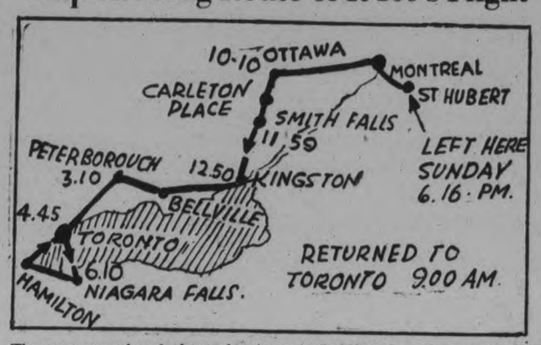
Skipper Risks Life To Save Pig Agony

SOUTHAMPTON, England, Aug. 12.—How the skipper of the German steamer Targis, which burned to the water's edge in the South Atlantic, returned to his ship to shoot a pig wre told here on the arrival of the rescue vessel Rangitata.

After the Rangitata's boats had taken away the Targis' twelve passengers and crew, the skipper remembered the live pig aboard.

At his request he was rowed back to the doomed craft. Ignoring flames and explosives, he sped to the pen where the porker was confined and mercifully ended its life with a bullet.

Map Showing Route of R-100's Flight



The map reproduced above shows route R-100 took and places it passed over in its Ontario flight.

AIRLINER LEAVES FOR CARDINGTON WEDNESDAY EVE

Hour For R-100 Departure Definitely Set For 10 O'clock.

Passengers Aboard At 8 P.M.

Crew Busy Giving Final Check-up—No More Visitors Allowed.

ST. HUBERT AIRPORT, Montreal, Que., August 12 (By Wallace H. Ward, C.P. Staff Writer). — Securely coupled to her mooring tower here, after her twenty-four-hour cruise over Canada's capital and Toronto and the Niagara Peninsula, His Majesty's airship R-100 was being groomed for the long trans-Atlantic flight homewards to Cardington, England.

Leaves at 10 o'clock.

The departure for home has now been set definitely for to-morrow night at 10 o'clock (E.D.S.T.), providing weather conditions down the Gulf of St. Lawrence and over the Atlantic are still favorable.

It is regarded as almost certain that the airship will cruise over the Maritimes and put out to sea over the Grand Banks. The journey back to Cardington should be made in record time with following winds. The R-100, besides being the biggest airship in the world, created a record for an east-to-west crossing on her trip out to Canada, broke all existing records in mooring here on her arrival, and broke even that record when she coupled to her mast last night after her flight over Ontario.

Weather Studied

This morning her navigating officers were closeted with Canadian Government meteorological officers, pouring over weather charts, and large scale navigation maps busy with protractors and pencil. Newspapermen who will accompany the big airship back to Cardington were warned this morning to report to the airport at 8 o'clock to-morrow night. At first it was thought the leviathian of the air would say a good-by to Canada to-night.

Under a dull grey sky and cold, gusty wind, the airship snuggled to her mast. There were signs of activity aboard as members of the crew carried on the refuelling operations. A steady flow of gasoline is being pumped into her spacious tanks to carry her back across the ocean. Water ballast is going aboard together with drinking water and provisions for the larder.

The hydrogen gas plant at the side

BENNETT DISCUSSES WHEAT FINANCING WITH PREMIERS

OTTAWA, Ont., Aug. 12. (C.P.)—To market and finance this year's grain crop, Hon. R. B. Bennett was in conference nearly all day with the three Prairie Premiers and representatives of the larger banks. To-day's conference dealt with the sale and financing of this year's production.

At the close Mr. Bennett said the conference had been very satisfactory. With the Provincial Governments guaranteeing the banks' financing the large carryover from 1928 and 1929, it would not be surprising if the Federal Government became guarantor for the banks, financing this year's crop.

In the last fiscal year Great Britain paid out more than $260,000,000 in unemployment relief.

Some "Gyp" Here

BALTIMORE, Mr., Aug. 12 (C.P.)—With Henry Benson it was merely a case of swapping a stomachache for a headache. Suffering with the former he gave a gypsy woman $4,000 in bills to make a plaster out of them to cure him. He wore it five days and then discovered the $4,000 had shrunk to $9. That's when Henry got the headache.

SEARCHERS FIND ENNISMORE MAN

Small Group of Farmers Scoured the Country Last Night For James Cadigan.

DOG HIS GUARDIAN.

ENNISMORE, August 12.—After having been lost since four o'clock yesterday afternoon, James Cadigan, aged farmer of Ennismore township, was found this noon sitting on a tree stump in the midst of a thick growth of underbrush. His dog which had kept the long, lonely vigil throughout the chilly night with him, still maintained his ceaseless guard over his master and made it difficult for the successful searchers to approach.

Mr. Cadigan, who is little the worse for his twenty-four hours' exposure and lack of food during that time, according to relatives, is nevertheless confined to his bed.

79 Years of Age

The old gentleman, who is 79 years of age, enjoys fairly good health it is understood, and it is believed that he became lost owing to the similarity of the bush surrounding the home of his son Patrick with whom he resides, and the bush in the neighborhood of his son's uncle's farm to which he paid a visit yesterday afternoon.

Leaving the place of his visit at four o'clock and failing to return home, caused considerable consternation in Ennismore township, and neighboring farmers willingly lent their aid in instituting a search. Persons to the number of about seventy-five split into small groups and scoured the countryside, keeping up the search throughout the night. Their efforts were rewarded when at noon to-day, Joe Cadigan, a nephew of the old gentleman, along with James Harrington and Eugene Murphy discovered the aged man in the bush, two miles away from his home.

Enquiring the way to the home of James Cadigan, an Examiner representative was directed to a spot about four to five miles out on the Oak Orchard road, from the Chemong floating bridge. And when a short distance on the way out a boy was observed mounted on horseback, and eagerly peering into the ditch at the side of the road. He was one of the many searchers for the old gentleman, who was as yet unaware that the object of the search had been found.

Arriving at the large frame farmhouse, perched on the top of a hill and to which one approaches by a long driveway leading from the highway, relatives of the old gentleman were discovered. Traces of tears mingled with their smiles of joy as they spoke of the happy ending to their all-night search, while signs of utter weariness were not lacking.

Mr. Cadigan's aged wife expressed her joy at having her husband back again. "I thought something terrible had happened to him," she exclaimed. Mrs. Cadigan said that her husband is a lifelong resident of Ennismore and that they have two sons and five daughters, all residing in the township.

BIGAMIST ARRESTED.

TORONTO, Ont., Aug. 12 (C.P.)—Wanted by the Winnipeg police on a charge of bigamy and two charges of theft, Stephen Gehue was arrested here last night. He will be held pending the arrival of an officer from Winnipeg.

GALT IS WITHOUT CHIEF OF POLICE AS BOYD RESIGNS

"In Interests of the Department" is Chief's Only Explanation.

CLEARED OF CHARGES.

Off Duty at Once—Mum Regarding Action Against Complainants.

GALT, Ont., Aug. 12—(CP)— Within 18 hours of the time that he had been acquitted by the Police Commission of charges of conduct unbecoming a police officer, Daniel T. Boyd, Chief of Police in Galt for the past three years, resigned his office at 9:45 this morning. The resignation is to take effect on September 30 and it is expected that the officer will go off duty immediately. Ex-Chief Boyd came to Galt from Belleville where he was a sergeant, having been appointed successor to the late Chief Forman, he nas spent 20 years as a police officer starting at Hamilton and before going to Belleville was at Regina for a time.

"In the interests of the department", was the explanation given for his resignation by Chief Boyd. When he and Sergt. Carson who was also cleared of the charges were queried as to rumors that they contemplated legal action against the complainants they stated the matter was in the hands of their solicitors.

The first intimation to reach the public of trouble in Galt police affairs came with the announcement by Magistrate Blake a fortnight ago of the suspension of Dan Boyd, Chief of Police and R. Carson, Sergeant on the force, pending an investigation into charges of "conduct unbecoming police officers", against both men.

Before a Board of Enquiry Alderman J. M. Willard and J. H. Brewer appeared as complainants along with a young local couple. Evidence given by the latter concerning the conduct of the officers was considered insufficient to implicate Sergt. Carson who was cleared and re-instated at the first hearing. Decision as regards Chief Boyd was reserved until yesterday when he was also acquitted of the accusations and given back his position.

The Board of Enquiry consisted of Judge E. P. Clement, Kitchener, Magistrate Blake, Galt and Mayor Hilborn, Galt.

"Framed" Chief

"The Commission finds further that, as to the Friday night episode, the complainants were satisfied that they had no case to convict the Chief, and in this the Commission agrees with them. In their evidence the complainants swore they had no evidence, and that, for that reason, they "framed" the Chief in the hope of bringing the charges home to him.

"Also it is very clearly proven, the Commission finds, that the Chief and Sergeant Carson were only absent from the corner of Main and Water on the Saturday morning for about twenty minutes in all, and that therefore, the story as told by the two chief witnesses was quite incorrect. Their story is opposed to reason because of the sworn testimony of the two chief witnesses, that Chief Boyd deliberately placed himself in the power of his subordinate officer.

"As to the Sunday night meeting the Commission is of the opinion that the place of meeting was so public and the police car so well-known to the citizens of Galt, that the idea of there being anything clandestine about the meeting is opposed to all probability; this the more so in view of the information of the Saturday afternoon phone conversation which was communicated to Carson, and the Chief's subsequent calling of the girl either in the presence of an officer or of Mrs. Boyd.

"We are all satisfied that no judge, much less any jury, would take away a man's character in the face of such conflicting evidence."

HON. E. N. RHODES WILL BE SWORN IN WEDNESDAY

OTTAWA, Ont., Aug. 12 (C.P.)—Hon. Edgar N. Rhodes will be sworn in here late on Wednesday or Thursday next as Minister of Fisheries in the Cabinet of Premier R. B. Bennett. By-election writs in the constituency opened will be issued almost immediately after the former Nova Scotia Premier takes his oath of office. Mr. Rhodes placed his resignation as Premier of Nova Scotia in the hands of Lieutentant-Governor Tory to-day.

In attempting to catch a litter of wild pigs, a youth at Frammerbach, Germany, was attacked by the mother and compelled to climb a tree, where he was held prisoner for several hours until a policeman rescued him.

Royal Skipper at Cowes Regatta

King George, with Queen Mary and members of their party aboard the royal yacht Britannia, as the famous craft got under way at the Cowes regatta. The day was marred by a fatal accident, a small boat being cut in two and one of the crew drowned.

FAMOUS BRITISH GENERAL IS DEAD AFTER CAR CRASH

Sir Horace Smith-Dorrien Succumbs Without Regaining Consciousness.

WAS 72 YEARS OLD.

Noted Soldier Commanded British Expeditionary Force in 1914-15.

CHIPPENHAM, England, August 12 (C.P.). — General Sir Horace Smith-Dorrien, 72, one of Britain's most famous soldiers, died this morning without gaining consciousness after an automobile accident yesterday in which he received severe head injuries.

General Smith-Dorrien commanded the Second Army of the British Expeditionary Force in 1914-1915, and in 1910 was A.D.C. to King George. He was retired in 1923.

Had Outstanding Career.

It has been the lot of few British soldiers to figure so prominently in so many colorful episodes of contemporary history as did the late Sir Horace Smith-Dorrien, and in most cases the situation found a man who produced something entirely unexpected and original. His active service as a youthful subaltern officer began when, in violation of all War Office ordinances he managed so to manipulate affairs as to enable himself to be transferred from an administrative post in the Home Command to the forces of Lord Chelmsford in Zululand, and its end, for all practical purposes, came when, in direct opposition to the orders of Field Marshal Sir John French (the late Earl of Ypres) on Aug. 26, 1914, he fought the Battle of Le Cateau. Between those events he was closely associated with many others, involving the famous Fashoda Incident of 1898, the Battle of Omdurman, the uprising in the Tirah and the campaign against the Mahdi, of 1886.

Situation Always Confusing

Both the late Earl of Ypres and Sir Horace Smith-Dorrien have given their own version of what occurred at Le Cateau in 1914. Each has had considerable to say in justification of his own stand.

To the layman uninstructed in the currents and undertow of military affairs, the situation, however, will always be confusing surrounded as it is by many contradictory elements. While both remained in active command during the first few months of the War, Sir John French shower-

Youth is Killed In Viewing R-100

MONTREAL, Que., August 12 (C.P.). — Over-anxiety to get a good view of the airship R-100 claimed the life of Alphonse Barbeau, 16, yesterday. The lad, with a companion, climbed a steel post carrying a high tension wire. In his excitement Barbeau grasped the wire and was severely burned. He fell 50 feet to the ground and was dead when picked up. His companion was slightly burned, but did not fall.

PECK'S MAJORITY SHOWS INCREASE

Conservative Candidate Was Elected in Peterborough West By 1,761 Votes.

MISTAKE IN COPYING.

Although declared elected as member for Peterborough West by a majority of 1,587 E. A. Peck, Conservative candidate, finds that his majority has been increased to 1,761.

The error was just discovered this week-end and a final check up was made yesterday afternoon by S. Whatley the returning officer. The mistake occurred with the election results of Polling Subdivision Number 67 held at Higgin's house in the township of Smith. Here the election clerk in copying the final returns credited to Mr. Peck the vote Mr. Duffus got and the vote Mr. Peck got was credited to Mr. Duffus. Mr. Peck at this poll should have been credited with 132 votes and Mr. Duffus 45 votes.

In conversation with The Examiner, S. Whatley, Returning Officer said, "It is purely a mistake in entering the figures, which were called off by myself and entered by the election clerk. On being called to my attention I had the error corrected and have left the revised copy of the returns with Mr. Peck.

The correct vote as given The Examiner by Mr. Whatley is as follows:

E. A. Peck	9663
J. J. Duffus	7092
Majority E. A. Peck	1761

RECAPITULATION

Urban Area

Polls 1 to 52 inclusive, E. A. Peck	6468
Polls 1 to 52 inclusive, J. Duffus	4482
Urban Majority, E. A. Peck	1986

Rural Districts

Polls 53 to 93 inclusive, J. Duffus	3420	
Polls 53 to 93, E. A. Peck	3195	
Rural majority J. J. Duffus	225	225
Actual majority E. A. Peck		1761

Dominating Bench Of The Province J. H. Clarke Says

Provincial Police Will Turn Over to the Attorney General's Department the Cargo of Beer Seized at Belleville Some Months Ago, Court Decides.

CARLING BREWERY OF LONDON SOUGHT TO PROVE OWNERSHIP OF CONSIGNMENT—APPEAL DISMISSED

Attack on Attorney General Price and His Department is Made By J. H. Clarke of Windsor, Acting For Defence, Who Makes Serious Charges Against Minister.

(Special to The Examiner)

BELLEVILLE, Ont., Aug. 12.—Provincial police will turn over to the Attorney General's department the cargo of beer seized some weeks ago at Graham's warehouse.

After a hearing which lasted all day and in which the Carling Brewery of London sought to prove ownership of the consignment, Magistrate Casement announced that their appeal was dismissed. The case was feafured by an attack on Attorney General W. H. Price and his department ment by J. H. Clarke of Windsor, acting for the defence, who charged that Mr. Price is "dominating the bench of the province".

Several witnesses admitted that they had been approached by a man named Flaherty offering them money to allow the beer to be moved from the Canadian National yards to the warehouse. Fred Buker said that he had been promised $25 to see that the siding was clear for the freight cars which were moved in June 19.

Approach Policeman

Canadian National Policeman Donavan said he was approached by an employee of the customs department acting for Flaherty, asking his price to allow the cars to leave the yards for two hours.

Mr. Clarke sought an adjournment of the case today on the grounds that "Sinister influence has been operating and that wires have been pulled for the conviction at any costs of Mr. Low, an official of the Carling Company."

Why All the Haste?

"Why all the haste in this case? Why hasn't the Windsor Jockey Club case gone ahead, and why hasn't the Attorney General's Department taken some steps for the convictions of Solloway and Mills?" queried Mr. Clarke.

Magistrate Casement in the verbal barrage between Crown Attorney Donnan and Mr. Clarke expressed a desire to retire from the case. "You have been bluffed out of it, have been frightened and abused by defence counsel," observed Mr. Donnan, "after you have been named to handle this case."

"I've defied and accused the Crown of making this last minute change of magistrates after Mr. Mikel was appointed and he cannot answer me," repeated Mr. Clarke. "You have simply fallen into the trap set for you by the defence counsel," said Mr. Donnan, in addressing the Bench.

Harry Lowe, general manager of Carlings Brewery, London, was the first witness heard. Mr. Lowe stated that two cars of beer were shipped from the London plant, July 17, waybilled to Hull, Que.

"Why did you make this shipment Canadian National when all your other shipments were sent C.P.R.?" asked Crown Attorney Donnan.

"Because it was requested that route by the customer, Mr. Hutchinson."

Price Replies to Charge

"He has moved heaven and earth to have the case tried the way the

FIRE DESTROYS SUMMER HOME

Six-Roomed Frame Residence is Burned at McCracken's Landing.

LOSS IS $3,500

McCRACKEN'S LANDING, Aug. 12 (Examiner Correspondence). — Fire causing damage estimated at $3,500 and which reduced a six-roomed frame summer residence to a heap of ashes, broke out yesterday afternoon. The house which is not insured was tenanted by Mrs. R. Sheehy and her son Michael of Peterborough.

Believed to have been caused from a defective chimney, the fire soon assumed proportions which made it impossible to handle. Fortunately the wind was blowing rather strongly towards the lake, otherwise the fire may have spread. Centreing their attention on saving the contents of the building a little band of salvagers fought a hard but successful battle.

THREE ARE TIED FOR FIRST PLACE IN CADET SHOOT

Two English College Men and Winnipeg Cadet Score 67 Out of 70.

FINAL HELD OVER.

Calgary H S., Defeats Winnipeg Highlanders For White Clock.

CONNAUGHT RANGES, Ottawa, Aug. 12 (C.P.)—Corporal J. H. Hobart, Winchester College, England; Cadet D. Brereton, Winnipeg, and Cadet J. L. Meredith, Shrewsbury School, England, are tied for first place in the Cadet match, fired at the Dominion of Canada Rifle Association meet yesterday, according to results issued this morning. All three scored 67 out of a possible seventy, and will fight it out at a date to be announced after, for the D.C.R.A. Cadet Medal and $10 cash prize.

HAMILTON AWAY DOWN

In the team competition of the same match, there was a decided upset when Calgary High School nosed out Winnipeg Highland Cadets by a technicality after a rousing tie finish. To win the White Clock, famous Cadet trophy which Hamilton Central Collegiate had won five times in a row. The Hamiltonians finished further down than they had for many was fourth place.

was four place.

Weather conditions showed decided improvement this morning and a lazy "11 o'clock" wind was blowing down the range; it was not strong enough to have any effect on the speeding bullet.

Results of minor competitions yesterday are as follows:

Running Man—Pte. A. C. Westman, Sherbrooke, Que.

Bounding Deer.—Guardsman M. E. Nidd, Ottawa.

Miniature Rifle Sweepstakes, 50 yards.—Sgt. S. M. Beckingham, Toronto; Lt. S. Johnson, Calgary; Pte. Q. S. Joyce, Sherbrooke tied and divided first money.

Miniature Rifle Sweepstakes, 100 yards.—Lt. J. Boa, Montreal.

SMALL BOY IS INJURED

Stanley Kerr, Ten Year Old Youngster, Has Arm Severely Gashed.

PLAYING IN BARN.

MARMORA, August 12 (Examiner Correspondence). — A painful accident befell Stanley, 10-year-old son of Mr. and Mrs. George Kerr on Monday afternoon.

The lad, with other playfellows, visited the farm of Lindsay Neal, one mile south of the village, Clambering through one of the windows of the barn in the course of play, the little fellow had his left arm caught on a hook which was attached to the barn for the purpose of holding a milk pail. He was suspended until another of the lads hearing his cries, lifted him off the hook. Mr. Neal immediately conveyed him to his home, where in the course of medical treatment, twenty stitches were required to close the gash.

DUTY FREE FRUIT WILL PROVE BOON FOR WEST INDIES

Canadian Action is Form of Aid Most Needed, to Boost Trade.

BAHAMAS PLEASED.

Hon. C. Dundas States Move is Great Step to Empire Unity.

NASSAU, Bahamas, Aug. 12.— (C. P. Cable.)—The decision of the Canadian Government to admit free of duty West Indian fruits and vegetables, the principle products of these islands, is in the opinion of Hon. Charles Dundas, O.B.E., Colonial Secretary, "precisely the form of aid most needed for development of our trade."

Discussing with the Canadian Press the trade mission to Canada of Major Hugh Bell, commercial representative of the Bahamas, who is at present in the Dominion, Hon. Mr. Dundas said: "For the Bahamas this generous gesture is momentous. Here owing to tariff obstacles and lack of shipping facilities agricultural production has so declined within the last decade that our export has become negligible. It is true that for the same reason we are at the moment unable to reap the full benefits of the Canadian preferences now granted to us, but these latest concessions inspire new hopes and the ambition to avail ourselves of the opportunity to revive our industries. Henceforth it will be our aim to produce such commodities as can be placed in the Canadian market. We know that we can do so and we know that Canada is willing to take our products."

Imports Increased.

Within the last five years, Hon. Mr. Dundas said, imports from Canada have increased tenfold and the Bahamas want their exports to keep pace. It was not too much to say that the Bahamas future prosperity depended on their ability to develop this trade and all energies, he said, would be devoted to the achievement of that aim. It was for this reason that in course of his Canadian visit Major Bell would investigate into the prospects of exportation of Bahamas produce to Canada, and the Colonial Secretary said he sincerely trusted he would return with encouraging reports.

"Thus it is safe to say that despite our momentary inability to take immediate advantage of the concessions Canada has granted us," the Colonial Secretary said, "those concessions are certainly not of less but rather of more consequence to the Bahamas than to some of the other West Indian colonies, for their effect is vitalising and creative.

Canada Sets Example.

"Viewing the matter in a broader aspect, it is not too much to say that a fundamental policy has been established for the British countries of the Western hemisphere which carried us a long way forward to that ideal of Empire unity, the achievement of which is engrossing the attention of all thinking men in the Empire. The example and lead so given by Canada will be followed by other units of the Empire if its success is proven, and we do not doubt that it will prove itself." Therewith an immense service has been rendered to the whole Empire and it will therefore be for us to work earnestly, faithfully and fruitfully to furnish this proof and to show an astonished world that the British Empire — although the most complex and far-flung of all federations—has no rival for solidity and mutual benefit."

Hon. Mr. Dundas was administrator of the Bahamas. He is the fifth son of the Earl of Melville, and is a brother of Richard S. Dundas, assistant Commissioner for Saskatchewan of the Canadian Grain Board.

NEED MODERATE LIQUOR CONTROL

Lord Dawson Claims Abolition Would Lead to Negation and Gloom.

ENGLAND EXAMPLE.

MONTREAL, Que., Aug. 11 (C.P.).—While it was commonly recognized that some public control of the sale of alcoholic beverages was needed, with a view to securing moderation in consumption and proper standards of quality and strength, "I put it to you that because alcohol is used in excess by some, it should be abandoned by all, is unsound reasoning," Lord Dawson of Penn, physician to His Majesty the King, told members of the Canadian Club here to-day.

The general application of the argument of abandoning the use of alcohol would lead to negation and gloom.

Legislative restraints which exceeded the sanctions of public opinion failed and created reactions contrary to the public weal, he thought. Governments should lead often, coerce seldom, for coercion meant defiance, followed by defeat.

"England is a striking example of a country which is becoming notably and progressingly temperate, as much, if not more, from the education and enlightenment of the people as from administrative control," Lord Dawson said.

BLAMED ON TONG WAR

CHICAGO, Ills., Aug. 12. (C.P.)—A Chinese was killed in Chicago last night, another was seriously wounded in New York and a third was shot in Minneapolis. Police in all three cities believed tong warfare was responsible and sent additional patrols into their Chinese districts in an effort to prevent further outbreaks.

CATTLE DEALER ROBBED OF $1,174 NEAR COOKSVILLE

Caledonia Claims Two Thugs Fired Twice at His Car.

HAS SCALP CUT.

Young Man Returning With Receipts From Cattle Sale in Toronto.

CALEDONIA, Ont., Aug. 12. (C.P.)—Firing twice at his car to stop him two thugs slugged Leslie Webb, 34-year-old Caledonia cattle dealer and robbed him of $1,174 in broad daylight on the Dundas highway near Cooksville yesterday, Webb claims.

Webb, showing nasty scalp lacerations, unfolded the story last evening to his father, William Webb, with whom he is in the cattle business.

The money comprised the receipts of a sale of cattle to the Harris Abattoir, Toronto, states Webb, Sr., to whom belongs all but $150 of the stolen money. The $150 was the son's.

The young man states that he left Harris' office in Toronto yesterday afternoon and without speaking to anyone, set out for home with the money. Near Cooksville, he says, a coupe overtook him on an otherwise clear highway. A shot was fired from behind and struck his car's framework. When he did not stop, the coupe, he states, drew alongside and one of the two men in it fired a bullet through his windshield; Webb then stopped.

Neither at Cooksville nor at Provincial headquarters could a police officer who had received the report of the alleged robbery, be located. At Provincial headquarters, Deputy Commissioner Alfred Cuddy stated that he had not been informed as is the practice, of any report of this nature coming in.

JUDGING CLASS AT MILLBROOK IS BIG SUCCESS

59 Pupils Take Part in Course Conducted by Department of Agriculture.

SET HIGH RECORD

Mrs. J. A. Reynold, Port Hope, Wins First Prize With Total of 540 Points.

MILLBROOK, Aug. 12.—(Examiner Correspondence).—The class of fifty-nine pupils which gathered in the Armouries on Saturday, August 9, taking part in the Junior Women's Household Science Judging Competition, under the auspices of the Department of Agriculture, the members coming from all parts of Durham county, was by far the largest that has yet been enrolled for participation in this annual event.

The class began its work at nine a.m., and continued until four in the afternoon, when the judges had practically completed hearing the placings and reasons in the three classes: Nutrition, House Furnishings, and Good Dressing, though it was an hour or more later before the instructress of the coaching classes, Miss Edith Hopkins, of Lindsay, had finished totalling the individual marks, the results being announced by Agricultural Representative J. Y. Kellough.

The girls were allowed fifteen minutes for judging and writing reasons in each class, and were required to give, orally, in two minutes before each judge their placing and reasons. The judges included: Miss B. Duncan, Toronto, who had charge of school lunches and kitchen plans; Miss Florence Eadie, Toronto, whose department was house furnishings, and dress parade; and Miss Cowan, of Drumbo, who judged in menus, and wardrobes.

Set High Record.

The class established a high record, one of the best in the county judging competitions which Miss Hopkins has had under her supervision, twenty-five of the girls taking five hundred marks and over out of a total of six hundred. Any girl taking five hundred marks and over may go to the Canadian National in the open competition, but no girl may go a second time on the county team, even though she has the highest standing in the county judging competition. This rule necessitated several changes when results were considered on Saturday, and the Durham County C.N.E. team chosen.

The ten girls heading the list at Millbrook were: Mrs. J. A. Reynolds, 540; Miss Marian Allin, 539; Misses Helen Lewis and Nora Gibson, equal, 538; Miss Ruth McKessock, 527; Misses Dorothy Allin and Ina Van der Horne, equal, 524 marks; Misses Muriel Baker, and Dorothy Morden, equal, 523; Miss Mabel Dawson, 520. Several members of the class made just under five hundred marks.

Five prizes, grading from four dollars down to fifty cents, were

A swarm of bees demoralized traffic in the main street of Oxford, England, recently.

Beautiful Girl Marries

Interesting camera study of Doroth y F. O'Neil, daughter of Mr. and Mrs. Geo. Henry O'Neil of Toronto and Lewiston Heights, New York, who wedded Thomas Bernard Farrell, Jr., of Montreau at Lewiston Heights.

DR. F. P. LLOYD IS ROTARY GUEST

Cobourg Speaker Gives Interesting Talk on Astronomy at Club Luncheon.

AT CAMPBELLFORD.

CAMPBELLFORD, August 12 (Examiner Staff Correspondence). — "Astronomy" was the subject taken by Dr. F. P. Lloyd of Cobourg in his address to the Campbellford Rotary Club at their weekly luncheon at the St. Lawrence Hotel on Monday. A good representation of the members were present and listened with interest to the address of which the speaker had complete control President H. N. Carr occupied the chair.. F. Drewry, of Cobourg, introducing the speaker, told the Campbellford club that Cobourg was waiting for the official invitation to visit Campbellford as a club, and assured them of the strong bond of affection which exists between the two groups.

Dr. Lloyd, in his introduction, stated that he had been interested in his subject since childhood days. He made no apology for speaking on a natural subject, but said that one of the charms of Rotary was being able to listen to subjects diverse to one's calling. He went on to say that at times man forgets the largeness of the universe in living too much within his own small world, and stated that our place in time and space was a very small one indeed. Of that heavenly body known as the Milky Way, the speaker said that it was part of a great system of stars and suns based on a definite plan. Looking at it through a five-inch telescope, one could see nine million points of light. Looking at it through a 100-inch telescope, 1,500 million heavenly bodies could be seen. Each one of these units were like our sun, and in all there were one hundred thousand million in this system which was known as the Galactic system. Of this system our solar system, with the sun, earth, Venus, Mars, Jupiter, Uranus, and other units was a part. All these planets were moving about in a specific way, and all travelling at a specific speed. These bodies are held together by a certain pull of gravity. At times they seem to be in collision, but this is not so, although they do approach each other very closely at certain periods, and it is then that through that gravity portions of matter are dragged off some of them and form individual planets. In such a way the earth was formed two hundred million years ago.

Dr. Lloyd also described what he called the yard stick of the astronomer, the light year. This can be gauged by taking the rate of travel of light, which is 186 thousand miles a second. In this way, and by this method, the distance of other suns and stars away from the earth can be measured. The nearest body to the sun is Proxima Centura, which is four and a half light years away from that body.

The speaker went on to state that there were in all two millions of these systems, the one most distant being 140 thousand million light days away. It is possible to tell the substance that many of the units are made of. Some are in the same state as the earth, and contain the same minerals and gasses as the earth contains. By instruments for the purpose these bodies can be weighed, their heat can be tested, and their rate of travel determined.

No Exceptions to Ban on Lotteries

QUEBEC, Que., Aug. 12.—(CP)—"There can be no exception to the rule. We have nothing to do with the law, for it is enacted by the Government of the Dominion and all lotteries are in contravention of the Criminal code", Premier Taschereau said to-day when queried whether sweepstakes now being conducted would be permitted to be continued before the ban on them was made effective.

There are a number of frauds which have taken place in the United States, where it has been said that there are sweepstakes which organize under the auspices of the Government of the Province of Quebec", he added.

Carrier Pigeon Lands at Omemee

OMEMEE, Aug. 12 (Examiner Correspondence).—Sunday night about 7 o'clock, while Mr. Harry Magee was feeding the turkeys at his farm home south of Omemee, a carrier pigeon flew to the ground beside him. Mr. Magee examined the bands upon the pigeon, and found that on the red rubber band on the left leg was 907X, and on the right leg a silver band which bore OHU 30, 2521. The pigeon is white and brown in color, with greenish blue feathers on the neck.

Mr. Magee would be glad to receive communication from anyone who could give him any information which would enlighten him on the bird's tour and what he is supposed to do with the bird.

FABRIC IS TORN AGAIN ON R-100

Slight Rip Not Expected To Delay Airliner's Flight Home.

ENGINE DAMAGED.

ST. HUBERT AIRPORT, Montreal, Que., Aug. 12 (C.P.).—The R-100 returned last night from her Ontario flight with one engine damaged and another fabric rip. Nevertheless, Wing Commander R. B. Colmore believes the ship can fly home to Cardington almost as soon as she has been refuelled and re-gassed, weather conditions permitting, of course. The date of the home flight will be announced officially.

The R-100 had a slight tear in her fabric when she reached here last night. The rent, over the forward propellor, on the starboard side, appeared to be about two feet square.

"We did not know anything about it until we landed," Wing Commander Colmore said. "It appears to be only a minor tear and will not hold us up at all." The Wing Commander said the airship will have to take in half a million feet of hydrogen before leaving for England. The operation would take some ten or twelve hours. Petrol to replace the 15 or 20 tons used during the 24-hour flight over Ontario will also be loaded.

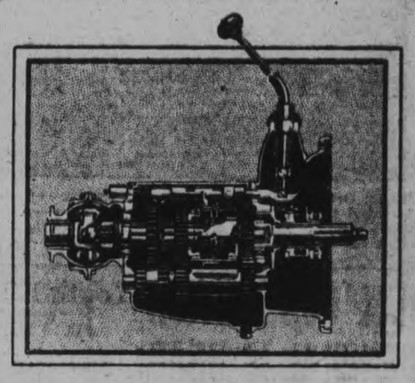
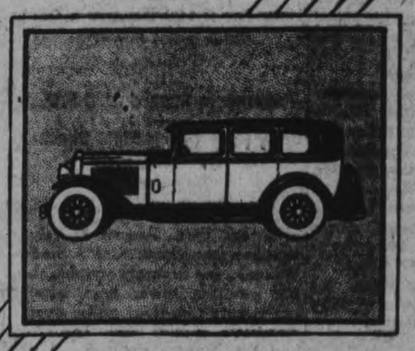
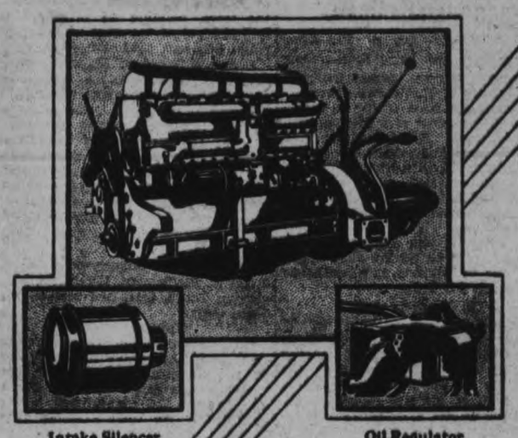
Silent as a Shadow—

because of

Syncro-Mesh Transmission
Intake Silencer
Insulated Bodies by Fisher
Ring-Type Torsional Balancer
Engine Oil Temperature Regulator







Intake Silencer — Oil Regulator

Syncro-Mesh Transmission

Noiseless gear change, made possible through the Syncro-Mesh Transmission, is an advanced and costly feature characteristic of McLaughlin-Buick's 22 year engineering supremacy, that is carried to new heights by the introduction of the Straight Eight.

You may go from first, to second, to third, at a flick of your finger . . . and then back to second again if your driving calls for it.

Your comfort and pleasure in driving will be enhanced by this sound and proven feature. You will find a new convenience in car-control made possible by this Syncro-Mesh Transmission.

It is found on the longer wheelbase models, while McLaughlin-Buick's fine standard transmission is used in the series of lowest price.

Now almost everyone can own a McLaughlin-Buick, for the 8-50 series lists as low as $1290 at factory; and G.M.A.C., General Motors' own deferred payment plan, makes easier the purchase of any model you desire.

Silent Straight Eight Motor

Many engineering advancements contribute to the ability of the McLaughlin-Buick Straight Eight motor to maintain high speeds with quietness that removes all sense of effort.

The McLaughlin-Buick Oil Temperature Regulator contributes to permanent silence by solving the problem of proper engine lubrication under all conditions. A simple device, it has no moving parts and requires no attention. In cold weather it warms the oil quickly, thus assuring efficient engine performance promptly. It also prevents the oil in the engine from becoming overheated and losing its lubricating quality.

Among other notable features are the Intake Silencer, that effectively blankets acceleration noises; and the Ring-Type Torsional Balancer that smoothes out engine operation.

Insulated Bodies by Fisher

In its Fisher Bodies too, the new McLaughlin-Buick Straight Eight exemplifies the silence of a shadow, for they are completely insulated, like a fine home, against cold, heat and noise.

Improvements in body construction and strength are as advanced in principle as McLaughlin-Buick's many mechanical features. The chassis has been strengthened doubly without increasing its weight. Motor and body have then been designed as a unit with this reinforced frame. A train-like sureness and roadability, with consequent riding ease and safety, result.

Although unchanged in general appearance from the lines which have proved so popular, the bodies incorporate numerous refinements. Exteriors are finished in the latest and most pleasing colors . . . while interiors set a new standard of beauty and luxury.

The General Motors Owner Service Policy, the most complete in the automotive industry, assures the unqualified and lasting satisfaction of every owner of a 1931 McLaughlin-Buick Eight.

Mr. George W. Gilman left this morning to join Mrs. Gilman and their deaguhter Jean in Ann Arbor, Michigan, where they will reside in future, at 214 South Ingalls street.

• • •

Mr. and Mrs. George P. Lull and son are visitors at the home of Mr. and Mrs. S. D. Carver, Provincial Highway.

• • •

Miss Norma Dunford of 63 Aylmer street is spending her vacation in Ottawa and Vankleek Hill.

• • •

Miss Margaret McAuliffe of 358 Mark street is spending her vacation in Haileybury with Mr. and Mrs. W. J. Dobbins.

• • •

Mr. and Mrs. Charles Stewart and family of 475 Albert street spent the week-end with Mr. and Mrs. R. E. Knox at "Pequossette Cottage," Campbelltown.

• • •

Mrs. W. Rogers of Walkerton is staying at the Y.W.C.A.

• • •

Miss Lenora James of the staff of the Conservatory of Music has returned home after spending her vacation in New York City, Philadelphia, and other places on the Atlantic sea coast in New Jersey.

• • •

Monsignor N. J. Franche and the Rev. Father Carrabine, of Ohio, are registered at the "Kearney," Young's Point.

• • •

The Misses Jean and Grace Cumming of Boston motored to the city yesterday to visit their cousins, Mr. and Mrs. A. Grant, Water street.

• • •

Miss Geraldine Primeau of Ashburnham and Miss Thelma Hollingsworth of King street are visiting the latter's aunt, Mrs. S. Trebilcock of Hamilton.

FASHION SERVICE

Here's a splendid dress to freshen your mid-summer wardrobe for either town or vacation.

It is clear leaf green and white printed batiste, for smart folk are now wearing cotton frocks almost exclusively for daytime occasions.

It is individualized by a flaring shoulder cape with scalloped edge which shows lingerie note in sheer white organdie piped in green.

Horizontal tucks mark natural waistline and create a smart nipped-in effect.

The pointed treatment of the circular skirt is quite unique and slimming.

Style No. 3477 can be copied for a mere trifle. It takes but 3 yards of 35-inch batiste with 5-8 yard of 32-inch organdie.

It comes in sizes 12, 14, 16, 18 and 20 years.

Printed dimity, linen, lawn, fine muslin, shantung, voile, pique, and tub silks appropriate.

Pattern price 15 cents in stamps or coin (coin preferred). Be sure to fill in size of pattern. Address Pattern Department. The Summer Fashion Magazine contains most interesting styles for adults for town or vacation wear. Also darling styles for the kiddies. It is 15 cents a copy, but may be obtained for 10 cents if ordered same time as pattern.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

A great deal is said and written about eating to keep thin!

• • • • • • •

All sorts of specialized diets are recommended for those who would reduce and those who would continue to be slender.. Many of these are guaranteed to do the work. Practically nothing is being said about eating to keep well.

• • • • • • •

After all is not this the great essential? There is little joy in having the willowy figure that fashion decrees is correct, unless one has the health to enjoy life in that condition..

• • • • • • •

You may have heard of girls who take only a milk shake or something of the sort for luncheon—nothing else. Some of these girls may have a long way to get to their daily work.

• • • • • • •

In that case a hurried breakfast is eaten—the juice of an orange, a cup or possibly two cups of strong coffee (minus cream and sugar if they would emphasize a diet to keep thin), and a slice or two of toast or a roll, is a fair sample of what the meager breakfast supplies.

• • • • • • •

There is not reason for economy for such meals, but slenderizing.

• • • • • • •

When such a breakfast is followed by a sufficiently nourishing midday meal, and a substantial dinner at night, then no exception to such an early morning meal need be taken.

• • • • • • •

It is when these persons after faithful work for three or more hours, resort to lunches that are neither filling nor nourishing, that health is discounted and thin figures sought at any price.

• • • • • • •

When at the finish of the day the evening meal is reduced in quantity and kind, danger is in sight. The body has to try to function as it should without the proper materials.

• • • • • • •

It is amazing how well it does, and how long it will make the best of its job. But a day of reckoning must come when under-nourishment shows itself in ill-health and nerves that are frayed.

• • • • • • •

Physicians declare that dieting, unless it is done under medical direction or expert attention is so risky that health is endangered. Just how the body will react to lack of proper food cannot be diagnosed. It differs with individuals, with the length of time that an improper diet has been followed and with the tendencies of a physique.

• • • • • • •

It is much better to eat to keep well than to eat to keep thin.

That Body of Yours

By James W. Barton, M.D.

EMOTIONS AND WORK.

You have heard of instances where an individual in recounting a story in which he tells of some tremendous effort he made, is questioned by one of his hearers as to his ability to actually do the feat he mentions.

If he happens to be a little hot headed or the questioner has been very annoying in his manner it is likely that he will offer to perform the feat again with all his listeners in attendance.

Accordingly, everything is arranged in a manner as nearly as possible approaching the conditions of the story, and he endeavors to perform the act.

He fails, and fails dismally, much to the amusement of his tormenter and the chagrin of his friends who were naturally anxious to see him 'make good' on his story.

As they are about to leave the spot, and he realizes that his friends are feeling badly and his tormenter is jubilantly talking about his failure, he turns back, and, with a mighty effort, performs the feat and does it in almost easy fashion.

Why was he not able to do it at his first effort, when he tried to justify his story?

Because his 'mad' was not up.

Now it was formerly believed that it was just because an unusual effort was being put into it, by using one's strongest 'will power' that enabled one to do an unusual feat of strength.

What was the real reason?

Dr. W. B. Cannon, Boston, who has for a long time been investigating the effect of the emotions from the standpoint of their use to the individual, tells us that the emotions so stimulate the processes of the body that extra sugar is immediately given to the blood to be used in muscular effort. This enables the muscles to perform the unusual feat.

Further, if the feat of strength takes some little time the blood is likewise supplied with more oxygen, not necessarily from the lungs, but all the tissues of the body give up some of their oxygen for the time being, and then afterwards Nature sees that they get this oxygen paid back to them.

Isn't it wonderful that we have a body that can do this for us when any great need arises?

Sick or well, Nature is always fighting for us.

THE RHYMING OPTIMIST

By Alice Michaelis

A SOPRANO

Supremely clear and pure rises,
This voice beyond all others sweet,
To soar above Earth's sad surmises
And dim defeat.

It lifts on its unfaltering pinions
The spirit up to hidden things
Of love, to faith's serene dominions
Its message wings.

The golden flames of candles flutter
Back to the darkness whence they came,
The incense drifts while echoes flutter
Sounds pure as flame.

When through the fragrant dimness ringing,
The music cleaves the silence there,
It is as though white souls were winging
In lyric prayer.

As though white souls rose up, exploring
Fairways where never men have trod,
Still seeking, in their joyous soaring,
The face of God!

BARN AND HOGS BURN.

SCARBORO, Ont., Aug. 12.—(C.P.)—Seven pigs were burned to death and damage estimated at $20,000 done to the farm of W. K. Harris near here to-day when the large barn and sheep and pig pens were completely destroyed. The blaze is said to have originated from a spark from a threshing machine operating in the barn.

Favorite Recipe

RAW CUCUMBER PICKLE

(Contributed by Ruralite)

Put a gallon of vinegar in a crock. Add 8 cups sugar, 1 cup mustard, 1 cup salt, 4 tablespoons curry powder,4 teaspoons tumeric, 1 ounce mixed pickling spice.

Cut cucumbers in as you get them, add onions and cauliflowers if desired. Put a plate on to hold the cucumbers down. Stir each time you put cucumbers or onions or cauliflowers in. Cover all with a good lid.

TOLMIE COMES TO OTTAWA

VICTORIA, B.C., Aug. 12 (C.P.)—Premier S. F. Tolmie is en route to Ottawa to enlist the support of the Dominion Government in a comprehensive Province-wide plan of unemployment relief upon which the British Columbia Government has been working for several weeks.

To Wed at End of August

The marriage of Miss Dorothy Marian Chapman, shown above, daughter of Mr. and Mrs. George Wright Chapman of North Augusta, Ontario, to Mr. Harold Jarvis Jaffery, of the department of national revenue, and son of Mrs. Jaffery and the late C. V. L. Jaffery of Toronto, will be a smart event at the end of August.—Photograph of Miss Chapman and Mr. Jaffery by George Freeland.

OLD SONGS

THAT PIECE OF SONG, That old and antique song we heard, last night.

THE OLD MUSICIAN AND HIS HARP.

(Contributed by Beatrice)

Years have come and pass'd away,
Golden locks have turned to gray,
Golden ringlets, once so fair,
Time has chang'd to silvery hair;
Yes, I've neared the the riverside,
Soon I'll launch upon its tide—
Soon my boat, with noiseless oar,
Safe will pass to yonder shore.

Chorus:

Bring my harp to me again,
Let me sing a gentle strain—
Let me hear its chords once more,
Ere I pass to yon bright shore.

Oh, those chords with magic power,
Take me back to childhood's hour—
To that cot beside the sea,
Where I knelt at mother's knee;
But that mother, she has gone,
Calm she sleeps beneath the stone,
While I wander here alone,
Sighing for a brighter home.

Soon I'll be among the blest,
Where the weary are at rest—
Soon I'll tread the golden shore,
Singing praises evermore;
Now by boat is on the stream,
I can see its waters gleam—
Soon I'll be where angels roam,
Dear old harp, I'm going home.

The above is described as "A sweet, pathetic, and touching song" and was published in Irving's Canadian Series of Five Cent Music, popular more than seventy years ago, 'for voice and piano". "New and popular pieces will rapidly follow, and none but the very best will appear in this series" was the publisher's assurance on each copy as it went on sale at the music and book stores.

China has a plan for the construction of 11 national arterial highways.

DISTRICT NOTES from Villages and Towns in District

(BY CORRESPONDENTS OF THE EXAMINER)

FRASERVILLE.

Mr. and Mrs. W. A. Pritchard and Mr. Leslie Pritchard, of Cavan, were guests of Mr. and Mrs. Richard Moncrief on Sunday.

Mr. and Mrs. Walter Douglas, of Huntsville, visited friends in the vicinity recently.

The regular monthly meeting of the Fraserville Ladies' Aid will be held on Wednesday, August 20, in the Orange Hall.

Many were aroused from their slumbers on Monday morning about 2 a.m. to see the R-100 which went over by Peterborough, returning a few minutes later en route to Toronto.

Mrs. Prentice and daughters, Helen and Ruth, of Bracebridge, are holidaying at the home of Mr. and Mrs. Stanley McIlmoyle.

There was no church service in Fraserville United Church on Sunday. Next Sunday Sunday School will be at 2 p.m. Church service at 3 p.m., conducted by the pastor, Rev. E. F. Swayne.

BETHANY

Mr. and Mrs. Gladstone, of Toronto are guests of Mr. and Mrs. F. W. Reynolds.

Miss Dorothy Buller, of Brantford is visiting her grandmother, Mrs. Charles Reynolds.

Mrs. H. H. Ryley is visiting her daughter, Mrs. James Turnbull, of Peterborough.

Mr. and Mrs. Douglas Driver, Miss Doris Driver and Miss Hazel Jackson attended the picnic at Long Branch, Toronto, on Saturday under the auspices of the Good Year Club of which Mr. Driver is an active member. Mr. Driver won two first prizes in running contests and Miss Driver secured a second prize for catching soft ball.

Mr. and Mrs. Sid Armstrong were business visitors to Peterborough on Saturday.

Mr. and Mrs. William Davis returned home from Lindsay where they were guests of their daughter, Mrs. Harry Rogers.

The regular meeting of the Women's Institute was held in the town hall on Friday evening, with the vice president presiding. Business was attended during the meeting of the sale and other disposals of the lamps used for street lighting prior to the electricity. A secretary was appointed for the balance of the year owing to the resignation of the former secretary.

The Rev. Mr. Fierheller preached from Matt. 5:15 on Sunday evening in St. Paul's Church.

The Deanery meeting which is to be held at Bethany for the county of Victoria is announced for either the second or third week of September.

FENELLA

The Misses Olive and Jean George of Roseneath are visiting their aunt, Mrs. C. W. Macklin.

The Misses Gertrude and Ruth Knox are visiting relatives in Bowmanville.

Mrs. Fred Talling is visiting friends and relatives in Toronto this week.

Mr. and Mrs. Howard Macklin were visitors in Port Hope on Thursday, at the home of Mrs. Macklin's parents, Mr. and Mrs. George Wragg.

Miss Elma Davies and Miss Vaughn of Toronto are visiting at the home of Mr. and Mrs. James Waldie.

MARMORA.

A number of townsfolk journeyed to Belleville on Monday in the hopes of seeing something of the R-100 on its return trip but in this, they were disappointed.

Mrs. G. Simpson of Toronto is holidaying at Crowe Lake with Mr. and Mrs. J. A. Rice.

Miss Madeline Gaffrey nurse in training at Hotel Dieu, Kingston is spending holidays at her home in Deloro.

Rev. and Mrs. A. B. Caldwell and Miss Hilda Phillips visited Peterborough on Monday afternoon.

Mr. and Mrs. R. Millsap and daughter, Freda, of Napanee, Mrs. Will Close of Moscow and Miss Susan Johnston of Winnipeg spent the week-end with Mr. and Mrs. Alex. Kennedy.

Miss Myrtle Kennedy, R.N., of Toronto, is convalescing at her home here.

Mr. and Mrs. Peter Johnson and daughter, Allie, of Havelock, visited friends in town on Saturday.

Mrs. Charles Barrons and son Harry, of Cordova, called on Mrs. C. Nichol on Saturday.

Mr. and Mrs. German Sine of Stirling visited relatives in this district over the week-end.

Mrs. (Rev.) F. J. Horwood and daughter, Ruby, of Toronto, are visiting Mrs. William Sweet for a few days.

Mr. and Mrs. John Simmons, of Campbellford, visited relatives here on Sunday.

Mr. Thorold Bailey of Lindsay is holidaying at his home here.

Mr. and Mrs. James Jones and Mr. Sam Moffatt visited Peterborough on Sunday.

Mr. and Mrs. Rhind visited friends at Oak Lake on Sunday evening.

Miss Anna Smith of Madoc visited Mr. and Mrs. W. H. Derry on Sunday.

AT YOUNG'S POINT.

Guests registered at Lakeview Hotel during the month of July: W. Denier, H. Ritchie, L. Ritchie of Toronto, J. D. Keefer, Carleton Place, Mr. and Mrs. Slocon, St. Catharines, Mr. and Mrs. Bell, Lakeview Beach, H. Worden and wife, Hilton, N.J., M. A. Miller and wife, Hilton, N.J., Mr. and Mrs. J. B. Archer, St. Catharines, Mr. and Mrs. William Troop, St. Catharines, Mr. and Mrs. D. P. Gallaghan, Syracuse, N.Y., Mr. and Mrs. H. M. Craig, Syracuse, N.Y., William A. Miller, Pittsburgh, Pa., Robert Buck, Pittsburgh, Pa., and William Forester, Pittsburgh, Pa.

Mr. James Reed had the misfortune to fall and break two of his ribs on Monday. We hope he will soon be fit again.

Mr. Percy Hockaday fell off one of his horses while coming in from the field one day recently, and hurt his back severely. We trust he will soon be able to be around again.

Master Cyril Young is on a visit to friends in Peterborough.

Master Norman Wilson, of Hamilton, is the guest of his aunt and uncle, Mr. and Mrs. A. Wilson.

Mrs. W. T. Wilson, of Hamilton, is a guest at the home of Mr. and Mrs. A. Wilson.

MILLBROOK

Mr. and Mrs. Howard Jordan, who have been holidaying with the latter's parents, Mr. and Mrs. Crealock, at their summer home, Winona, Ont., returned to the village on Wednesday, and are at their home, Anne street. Mr. Jordan was marking papers in Toronto for three weeks in July.

Mrs. Offa Williamson will entertain the Woman's Missionary Auxiliary of Saint Andrew's United Church for its August meeting at her home, Seventh Line, Cavan, on Wednesday, August 20, at 3 p.m.

Mr. and Mrs. B. F. Ware, and their niece, Myrtle Nattress, motored from Indiana and are visiting the latter's parents, Mr. and Mrs. I. M. Nattress.

Birth.—To Mr. and Mrs. Alex. Harkness at Dr. H. A. Turner's private hospital, on Wednesday, July 30, a daughter.

Guests at the home of Mrs. G. Locke and Mrs. J. McKnight over the week-end were her son, Norman Locke, and his two boys, of Hamilton.

Mr. and Mrs. Cecil Larmer, and daughter, motored from Portage la Prairie and are holidaying with the former's parents, Mr. and Mrs. W. Larmer, Seventh Line, Cavan, and other friends.

Recent visitors at the home of Mrs. F. P. Johnson, Fallis Line., included her son-in-law and dughter, Mr. and Mrs. Clarence Jackson, of Toronto; Mr. and Mrs. H. G. Denyes of Napanee, and Maser Clifford Reynolds of Toronto, who is spending the summer vacation with his grandmother, and his uncle, Mr. A. Johnson.

Dr. T. W. Alvin Gray, who has been taking up post-graduate work in the hospitals of Edinburgh, Vienna and London, has returned to Canada, and visited his parents, Mr. and Mrs. Wentworth Gray, before joining his wife and little daughter, Ruth, at Sarnia. Dr. Gray and his wife spent over two years at the Church of England Mission Hospital, Haifa, Palestine, and since his resignation from that post has been taking up special studies in surgery.

Master Jack Lacheur of Peterborough, who has been visiting his cousins, David and Evans Hatherly, returned home at the end of the week.

Mrs. (Dr.) L. Rae, who has spent the month of July with her sister-in-law and nieces, Mrs. and the Misses Weldon, of Lindsay, at their summer home, Pleasant Point, Sturgeon Lake, returned home last week.

Mr. and Mrs. James Eagleson of Orono were guests of Miss Mary Eagleson, on Sunday, their niece who had visited Miss Eagleson for the past week, returning home with them.

Mr. and Mrs. Russell Howe, and two children, Peggy and June, of Toronto, with their nieces, Margaret McConnell and Mary Burnham, are camping at Gore's Landing, Rice Lake, leaving for their holiday outing on Saturday.

Mr. and Mrs. T. A. Skitch of Baliieboro were guests of his sister, Miss Mary Skitch, on Sunday.

Rev. R. J. Merriam and his daughter, Miss May Merriam, were guests of Mr. and Mrs. J. Albert Brown on Sunday, motoring from their summer home, Tower Farm, Rice Lake; Mr. Merriam taking charge of the morning service in Saint Andrew's United Church in the absence of the pastor.

Lang and Madill shipped a carload of cattle from Cavan station on Saturday; Mr. Lang going to Toronto on Monday morning to see to the disposal of the stock.

Dr. A. Jemison is taking his annual two weeks' vacation; a motor trip to the vicinity of Georgian Bay, and points north, being part of his holiday outing.

Mr. and Mrs. Walter Campbell of Toronto are visiting their daughter, Mrs. B. R. Richards.

Elaine And Her Ideas From Paris

To the One Who SEEKS HEALTH

PLEASE NOTE

The President of our Organization

M. H. THUNA

WILL BE AT OUR HERBAL STORE

183 Charlotte St. Peterboro

Phone 3248

THURSDAY & FRIDAY,

Aug. 14th and 15th

ORIGINATOR

DEPENDABLE HERBAL REMEDIES FOR

Over-Weight
Stomach
Kidneys
Bad Skin
Piles
Tonsils-Adenoids
Nerves
Catarrh
Hay Fever
Tapeworm
Rheumatism
Etc.

He will be pleased to interview anyone FREE OF CHARGE who desires information about our FAMOUS HERBAL REMEDIES for Various Human Ailments.

He speaks, in addition to English, German, Russian, Polish, Ukrainian, etc.

Your Health is assured if you get back to Nature for Help

Our Herbal Remedies have been before the public since 1888, and our organization has advanced to the stage where we now maintain 25 OF OUR OWN HERBAL STORES IN ONTARIO as well as distributing agencies throughout Canada. If you are ailing, see him while he is in Peterborough, and get started on the path back to Health.

TUESDAY, AUGUST 12, 1930

SPEAKING FOR OURSELVES.

Perhaps The Examiner may modestly claim a little credit for the success of Peterborough's moonlit vigil and community greeting to the British airship R-100.

Of all the cities and towns over which the big dirigible passed in its night flight, none was so alert and wide-awake and cordially responsive as Peterborough. Some of the cities nearby us were sound asleep, except for the night constable and a few bakers.

The Examiner confidently assumed that the people of this city were sufficiently interested not only in such a modern marvel as the R-100 but also in its British origin and its aspiration to form another link between the Motherland and Canada.

And the early morning enquiries and the thousands of people, including the little people, hurried heavy-eyed from warm beds to see the magic toy, and school boys and girls with their fresh and enquiring minds, all these awed and excited spectators confirmed The Examiner's estimate of their wishes and their intelligence.

Two weeks ago The Examiner provided a fast and complete news service of the election returns; and Monday morning, with the assistance of the Bell Telephone Company and the co-operation of Mayor Denne, The Examiner was the nucleus of the city's welcome to the R-100.

As to those other cities of Eastern Ontario that preferred the unconsciousness of sleep rather than bestir themselves, it may be said of them that apparently they have lost their enthusiasms and are more or less half-dead anyway. We don't envy them, and we shall never need to so long as we keep our interests keen and our community spirit strong and bright.

Incidentally the city owes an expression of appreciation to Col. C. H. Ackerman, who, it is understood, suggested switching on and off the street lighting system as the R-100 was overhead.

Squadron Leader R. Y. Booth and those in charge of the British airship will remember Peterborough by that salutation.

DR. SUTTON'S STATEMENT.

In calling attention to the evidences of the re-appearance of infantile paralysis, Dr. N. H. Sutton, medical officer of health for this district, speaks officially, and his advice or warning should not be deprecated as alarmist in its possible effect.

Medical science is no longer helpless in combatting this disease. It was active last summer along the upper St. Lawrence and the Ottawa valley. Statistics compiled by the Ontario Department of Health show that, in that area last year, out of every twenty children who were protected by convalescent serum in the pre-paralytic stage eighteen recovered complete health. But, out of twenty children who were not treated with serum only two regained health, while four died and fourteen received permanent deformity.

The convalescent serum can work near-miracles if used in time. There is plenty of it available from the medical authorities here. But parents must be warned of the presence of the danger so that they may not delay too long through ignorance of the symptoms and lack of knowledge regarding the presence of the disease.

Publicity, and that means newspaper publicity, should be the handmaiden of public health and of those who are charged with its protection. Parents should know the facts, and the medical authorities should see that the people are adequately informed at the first signs of danger. Surely the parents of to-day have passed the stage at which the mere mention of the signs of the disease may frighten them almost into a panic. No such criticism can be made of Dr. Sutton's statement.

It is regrettable that the concentrated effort made by the Ontario Department of Health last year did not have the effect of stamping out infantile paralysis; but when reports indicate that it is still present in the district the public should have that information, and also every possible protective advice and action which the local health authorities can render. Preventive measures should be prompt and thorough wherever they are found to be necessary.

A FRIEND IN HON. MR. STEVENS.

Peterborough may read with complacent indifference the reports of the home town receptions to the new Federal Ministers whom Premier Bennett has honored by selection as his Cabinet associates.

Central Ontario seems to be singularly disregarded possibly because of our deficiencies. We don't need to suggest what those deficiencies may be, but one of them is not disloyalty to the Conservative party.

True, there have been several Liberal patches on the political map of Central Ontario since July 28. Ontario County is one and Northumberland the other, and some other ridings have at times shown the same complexion. But the last term of the King Government the Conservative front was unbroken all through this section of the Province. Such dependable districts as that, and we exclude Toronto from this generalization, surely deserved some recognition in the inner council of the Bennett Government.

We can't plead that we have never had the chance of filling seats of the mighty. It is not so long ago that the ridings of Durham and Peterborough both had candidates who were Cabinet Ministers.

Adjoining ridings had the rare opportunity of electing Ministers, with or without portfolios. That never happened before and it may never come about again. If our elected members are passed over in the shuffle, year of 1930, nor did it in 1926. But in 1925 the neighboring ridings had the distinction of rejecting two Cabinet Ministers. We repeat that, because some day we may realize that such clusters are out of the ordinary.

Durham turned down the Hon. Vincent Massey and Peterborough the Hon G. N. Gordon. For the benefit of the younger generation who are just budding a political consciousness, it might be explained that the two Ministers were Liberals.

At present our nearest Cabinet representative is the Hon. E. B. Ryckman, of Toronto, who will probably take Peterborough under his wing, if we ever have to ask for something Toronto doesn't want.

Some years ago the people of Lindsay had a powerful friend at court in Sir Sam Hughes, but he was preoccupied with vaster responsibilities than local perquisites and kudos, although he did not neglect Victoria County's advantages.

However, if we won't elect a Cabinet Minister and if our elected members are passed over in the shuffle, we are not entirely out of the inner council, for we may lay some claim upon the affection of a former Peterborough man, the Hon. H. H. Stevens, even if he had to reach the Cabinet by Vancouver detours.

An occasion such as the appointment of a new Federal Cabinet tends to bring to the surface a selfish, perhaps parochial, spirit in the best of constituencies. The Border Cities Star of Windsor expresses a grievance that Essex County with its three Conservative members was overlooked by the Prime Minister, although one of them, the Hon. Dr. Morand, was a member without portfolio during Mr. Meighen's regime.

"There was every reason to expect," says the Star, "that Premier Bennett would be anxious to use the doctor's services in his Cabinet. But Essex County has again been passed by, just as it was neglected by Premier King. Dr. Donald Sutherland, of North Oxford, is the nearest Minister from a geographical standpoint, that we have, and North Oxford is a long distance from Windsor. We know little of Dr. Sutherland and we fancy that he knows little of us.

"Ottawa's indifference to the claims of the Border Cities and Essex County undoubtedly had much to do with the defeat of Liberal candidates here in the election of July 28. Is Mr. Bennett inviting the same result for his administration at the next election? Certainly we can see no good reason why Dr. Morand's high personal claims to Cabinet preferment should have been passed over, or why the importance of this community should continue to be ignored. Another phase worth mentioning is that the French-Canadians of Ontario—of whom there are many—have no representation in the new ministry. Dr. Morand's appointment would have given them representation. Mr. Meighen, as Prime Minister, saw the force of this; it is difficult to understand why Mr. Bennett has failed to."

No doubt Premier Bennett regrets as much as anyone, even the Border Cities Star, that he could not please everybody.

WAS IT HYPOCRISY?

Men and women in at least one respect always remain children. They never get away from make-believe. The recent general election had not been over two days before a vast and significant change was to be identified in the attitude of partisans toward each other, as well as in the tone of the public press in relation to the men and policies they had been opposing. Among individuals and the newspapers there was an immediate disposition to see something in the other fellow's point of view, in the virtues of political opponents, and in the merits of policies which had been uncompromisingly condemned a few days before.

What are we to say about this change? Was the high temper of the campaign and the positiveness of assertion and counter-assertion all a game of make-believe? Not wholly perhaps. Yet in large degree it was. In the heat of conflict men said things which they knew well could not be justified, and it is a poor comment on human nature to say that such tactics are inseparable from the game of politics. Why should frankness and sincerity be suspended virtues during an election campaign?

We are all too ready to put our worst side outermost when a party fight is on. Hypocrisy runs rampant. Frankness and truthfulness are subordinated to expediency. All this would be infinitely discouraging if it were not for the reversion to common sense and decency the moment the battle is over. If to-morrow everybody concerned with elections were to throw make-believe out the window, would anything awful happen? Quite to the contrary.—Brantford Expositor.

DECLINE OF BASEBALL.

In the current bulletin of Washington College, Chestertown, Md., appears the following brief announcement: "At a recent meeting of the athletic council of the college it was voted to do away with baseball and substitute therefor lacrosse. The change is to be made because baseball schedules and support have become unsatisfactory. The public is losing interest in college baseball. On the other hand, lacrosse is a coming game, particularly in Maryland, and the possibilities for our securing games with large institutions and of our doing well ourselves in the sport seem excellent. It is with regret, however, that we say good-bye to baseball."

This is all the more remarkable since this college has an ancient baseball tradition behind it, having consistently sent good teams on the diamond even when it was unable to do well on the gridiron. When it abandons a sport that has meant so much to it, the apathy it speaks of must be very marked, indeed. One suspects that it will be found in almost every college. Secretly, college men are bored by their baseball teams; no matter how well the boys play, they are only giving a pale imitation of what goes on in the big leagues; the sport, somehow, does not seem collegiate. Lacrosse, on the other hand, does. It is a rough, fast, exciting game, more in the campus tradition. As it is played in the spring, and thus is a competitor of baseball, it would not be surprising if it gained the ascendency.

Or is the real answer to be found in the waning of baseball itself, even professional baseball? There have been big crowds at various games this year, and yet one hears a fan every now and then idly ask: "How much longer is baseball going to last?" Many, apparently, are realizing that the show is exactly the same as it was thirty years ago, and thirty years is a long time for the public to remain loyal to anything without some sort of change.—New York World.

EDITORIAL NOTES AND COMMENT.

RAWDON COUNCIL SETS TAX RATES

County to Pay 18½ Mills, Township 7 and Special School 6—D. Cotton Collector.

ACCOUNTS PASSED.

BONARLAW, Aug. 12 (Examiner Correspondence). — Rawdon Council met on Saturday, with members all present.

Bateman-Thompson: That the minutes as read be adopted.

Bateman and Clancy: That the Belleville Hospital be paid $12.12, Rawdon's share of account. Carried.

Council adjourned for dinner and to inspect Huntingdon boundary south of the 8th Concession.

Council resumed.

Mr. Snider, representing the Adams Grader Co., consulted the Council regarding small grader blades, etc.

Mr. George Gordenier applied for work to be done on road, which was referred to superintendent.

The clerk was instructed to write F. M. Rutherford regarding the wages and burial of the late Mr. Williamson and the account was laid over for information.

By-laws were passed in regular order, levying rates as follows:

County, 18½ mills; township, 7 mills; special school, 6 mills. A by-law was also passed, appointing Dave Cotton collector.

Stiles and Bateman: That A. B. Fargey's pay sheet for $1,415.30 be passed.

The following accounts were duly passed and ordered to be paid: Belleville Hospital, account, $12.12; Stirling Agricultural Society, $15.00; A. B. Fargey, pay sheet, $1,415.30.

Council adjourned to meet Monday, October 6th, at 10 o'clock a.m., or at the call of the Reeve.

A Thought

DISINTERESTEDNESS

Disinterestedness is one of those rare attractive qualities of the mind which insures to the persons who are possessed of it the admiration and regard of all who knows them. —Millar.

What To-day Means To You.

"LEO."

If August 12th is your birthday, the best hours for you on this date are from 10 a.m. to 11 a.m., from 6 p.m. to 9:30 p.m. and 10.30 p.m. to 11.30 p.m. The danger periods are from 6 a.m. to 7 a.m. and 1 p.m. to 2 p.m.

An unfortunate morning is predicted for this date, time will be wasted, and energies used wrongly. Quarrels, contention and misunderstandings. Do not act in haste! Do not look for trouble unless you know what to do with it when you find it.

Children born on this August 12th will have considerable natural refinement, will be given a great amount of imitativeness, and a desire to study. They will have keen perceptive faculties, and will be cheerful and sociable. They will be in sympathy with family and relatives.

You possess many of the finer attributes given to persons born under the above sign. You love the things of daylight, and you scorn small and puny actions. You have a very open, frank and noble spirit. You have a quick temper when provoked, but your anger does not last long, and if you do not completely forego your revenge, you take it in a generous and open way. You may possibly get angry over trifles, but you never hold grudges—you settle your scores at once, and that ends them as far as you are concerned.

You have an abundance of energy, and an all consuming desire to do something, and to do it now—that is your complex. Your mind is never at rest except during your hours of sleep, and even then you have interesting and sometimes worrying dreams. Whatever you do, you do well, although you have a rapid mind and rapid fingers. Your very walk indicates that you are an energetic and ambitious person. You carry undertakings to their end, even at great personal risks. Wealth will come to you by personal merit and work, and also by relations, or by favor of rich patrons. Losses may occur through bad health or family troubles. You have the capacity of making friends easily, and you seldom feel alone, even in strange lands or with strange peoples. You have strong passions, well under control. Your enemies will have slight powers to hurt you.

(Copyright 1930, by the Bell Syn., Inc.)

TEMPLE TOWER

By "SAPPER"

(Continued from Saturday)

"The next solution that presented itself was that it wasn't a genuine signal at all, but the work of some boy with a developed film sense. A joke inspired by 'Dandy Dick'—the Cowboy's Terror,' or something of that sort. And leaving it at that, I fell asleep.

The next morning I was up early. A mist was lying over the Marsh which lifted after a while, and I took a squint over my two matches. They, of course, gave me the right direction, but not elevation. That I had to guess. As I've told you, there are very few houses about, and there was only one through which the line of my matches passed. Moreover, as far as I could judge, though things look very different by day to what they do at night, that house gave me approximately the right elevation. So I went downstairs and focussed my telescope on it.

"It was, as I expected, an ordinary farmhouse. There seemed to be a couple of outhouses and four or five big-gish trees. Moreover, the whole property stood isolated by itself, like a little island rising out of a lake. As far as I could judge, it stood about a quarter of a mile from the main road between Rye and New Romney, and was connected to it by a rough track. I could see no sign of life, until the front door opened and a woman with a pail in her hand came out and went into one of the outhouses. In every respect a peaceful country scene.

"However, I waylaid the postman that morning and got some more information from him. It appeared that the place was known as Spragge's Farm. It belonged to a man of that name, and had belonged to his father and grandfather before him. The present man lived there with his wife, and, I gathered, was not a popular individual. He was surely and morose, and had the reputation of being a miser. Apparently he was quite well off, but he refused to keep a servant, making his wife do all the menial work. He had a ferocious temper, and on two or three occasions had been run in before the local Bench for actual physical violence to one of his farm hands, the result being that now he could get no one to work for him. Following up my second theory I asked if he had any children, and was told that he hadn't. But, I gathered, he occasionally took in a lodger who wanted quiet and rest. I further gathered that the usual duration of the said lodger's stay was not extensive, as he got neither rest nor quiet for his money. I asked if he had one now, but that the postman couldn't tell me. He hadn't heard of one, but then, Spragge's Farm wasn't on his beat. So having found out mighty little, I thanked him and he went off. And then, after he'd gone a few yards he turned round and came back. It appeared that the cards which Spragg had put in one or two of the shops in Rye, advertising that he took in boarders, had been removed recently, the assumption being that possibly he had given up that side line. And that comprised all the information I got.

"Off and on through the morning I had a look at the place, but nothing of the slightest interest did I see. Once a man came out who I assumed was Spragge himself, and I saw the woman two or three times, but except for that there was no sign of life about the farm. And after a while I began to wonder if the whole thing wasn't capable of some perfectly ordinary explanation; or possibly that the farm itself was not the origin of the lights.

"And then, Peter, there occurred the thing which caused my letter to you and the departure of our womenkind to-day".

Hugh lit a cigarette, and I followed suit. Up to date it struck me that the doings had been hardly such as to awake feverish excitement in the breasts of the troops, but I knew my man. Domesticity might have dulled him a little but he could still spot the genuine article like a terrier spots a rat.

"We will now leave the Marsh," he continued, "and come to the higher ground where my house is. I've got no one near me—my next neighbour being about half a mile away. He too, commands a view right out to sea, but there all similarity ends between us, I trust. His name is Granger, and he's a gentleman I've got remarkably little use for. In appearance, he is small and measly looking, you see smaller editions in a bit of ripe Stilton. As far as I know he lives alone, save for two servants—one a great bullock of a man who looks like a prize-fighter, the other an elderly female who cooks. I got those details from my own staff, because I've never been inside his house myself. In fact, the only time I've met the blighter is occasionally out walking, when he is invariably accompanied by this professional pug. And it was on one such occasion that he stopped and spoke to me.

"'Captain Drummond, I believe,' he said.

"I admitted the soft impeachment, and wondered what was coming.

"'You and your wife must forgive my not calling on you,' he went on jerkily. 'I am a recluse, Captain Drummond, and my health is not of the best.'

"He rambled on, and when he'd finished I assured him that it did not matter in the least, and that we quite understood. I didn't add that the only thing we wouldn't forgive him for was if he did call, and we parted, leaving me with two very distinct impressions.

"The first was that, in spite of his name, the man was not pure English. There was a distinct trace of an accent in his voice, though I couldn't decide what. The second was that he was afraid of something. The whole time he was talking to me his eyes had been darting this way and that, as if he was perpetually on the lookout for some unexpected danger. Of course, it might have been only a mannerism, but that was the impression he gave me, and subsequent gossip confirmed my idea. The man was frightened, though whether of a specific individual or of people at large I didn't know.

"It appeared he had taken the house very soon after the war, and had immediately proceeded to fortify the place like a prison. There was already a high wall all round the house, and his first act was to have the top of it covered with a double row of long crossed steel spikes. His next performance was to have the existing open gates for the drive replaced by two heavy wooden ones whose tops were also covered with the same contraption of spikes. These were kept permanently locked, and the only way of getting in was through a small wicket let into one of them. But this was also kept locked, and before it could be opened a tremendous ceremony had to be gone through. My informant on all this once again was the postman. When the time came for the various errand boys to bring the provisions for the day, the prize-fighters took up his position by the wicket gate. When the bell rang he opened it and took the meat, or whatever it was, from the boy. Then everything was shut up again as before. The same with the postman, too. On the rare occasions when Mr. Granger got a letter he handed it to the bodyguard through the gate; he was never allowed to go up to the front door.

"But that wasn't all; I've only mentioned the outer line of defences up to date. The inner was just as thorough. Every window in the house was protected on the outside by iron bars, exactly like a prison cell. Even the attics had them; not only the ground floor rooms. That work was done by a local man, so the countryside got full information—but a London firm was employed for other things, of which only vague rumors got round. Burglar alarms of the most modern type were installed, and trip wires in the grounds which rang gongs, and the Lord knows what else.

"However, there is no good elaborating the details. I've told you enough already to show you that my neighbour not only resented intrusion, but was determined to stop it. Naturally, in a country place like this the inhabitants buzzed like a hive of bees with curiosity, though when I took my place three years after, the excitement had died down. They had become used to him, and the generally accepted theory was that he was an eccentric who lived in terror of burglars. colour was added to that idea by the doctor who, on one occasion was called in to see him. It appeared that everything short of blindfolding the medico was done to prevent him seeing anything. He was rushed from the wicket gate to the front door, through the hall and up to the bedroom. And when he got there the prize-fighter remained in the room. Mark you, Peter, the doctor man told me this himself.

"He waited for the servant to go, and when he showed every intention of staying, he stuck in his toes. He told Granger, who was in bed, that he was not in the habit of having a third person in the room when he was examining a patient unless that person was a qualified nurse. Granger answered very querulously that the man was his confidential valet and that he wished him to stay. The doctor replied to the effect that he didn't care a damn what he was, but that if he didn't clear out of the room Mr. Granger would have to obtain another doctor. Well, the long and short of it was, that after a while, and very reluctantly, the servant left the room, and the doctor got on with his job. As he said to me, he didn't really mind in the slightest if the man remained or if he didn't, but he was determined to see what would happen if he insisted.

"After he had made his examination, and prescribed something or other, he glanced round the room.

"'Lovely things you've got here, Mr. Granger,' he remarked casually.

"The invalid struck a little bell beside the bed, and the servant entered so quickly that he must have been just outside the door.

"'Show the doctor out,' said the sick man irritably. 'And I'll let you know, Doctor Sinclair, if I want you again.'

"Now the doctor, though one of the best, has the devil of a temper. And he let drive at that.

"'Your case is not one that I care to continue treating,' he said coldly. 'It is not your bodily health that requires attention, but your manners. My fee is half a guinea.'

"For a moment or two, so he told me, he thought the prize-fighter was going to strike him, but Granger pulled himself together.

(To be continued.)

NOTED ACTOR IS DEAD.

LOS ANGELES, Aug. 11 (C.P.). — William G. Glovin, 54, veteran actor of stage and screen, is dead. The actor, born in Sligo, Ireland, began his career at 20 in Toronto. For many seasons he toured the United States in Shakespearean repertoire.

Voice of the People

Letters to be printed in the Voice of the People column must be received at The Examiner Office on the day before it is desired to have them published.

CROP CONDITIONS

The Examiner has received the following letter from Mr. W. J. McGregor, of Hitchcock, Saskatchewan, which gives some idea as to the condition of the crops in this district:

The Peterborough Examiner,
Peterborough, Ontario.
Dear sirs:

We are in the middle of harvest. Just in our immediate neighborhood, the crops are quite varied in quality, and length of straw. The early seeded is nearly spoilt owing to hot dry winds, when it was coming into head. One neighbor is using a "header" on his wheat, while two others are busy with combines.

Two more weeks will see the most of the grain in this district cut, and threshing well under way.

We are having a very hot summer, with hot winds, and no rain to speak of. Gardens are not too bad, considering the weather, but a good rain would help.

I remain,
Yours sincerely,
W. J. McGREGOR.

A RECOGNITION.

To Editor of Examiner.
Dear sir:

On receipt of telephoned advice early yesterday morning that the R-100 had left Belleville and was heading towards Trenton I made up my mind that for some reason or other the Commander had decided to pass up Peterborough. It never occurred to me that the ship would closely follow the Trent Waterway route to Peterborough, but how significant it is though, that we should received advice from each of the Trent municipalities, Frankford, Campbellford and Hastings, that the ship had passed over and was heading towards Peterborough following the route first traversed some 300 years ago by Samuel de Champlain, another pioneer.

Peterborough must extend thanks to a handful of its prominent citizens for the visit last night of the R-100. The fact that Messrs. C. H. Ackerman, Gerald Wood, Ross Dobbin, A. L. Killaly and Mr. Edgar, the special representative of The Examiner, had visited the ship at St. Hubert Airport and established contacts with the ship's officers as well as with the officials of the Federal Aeronautical Department made it so much easier for the Chamber of negotiate with the interested officials and have the ship brought to Peterborough. We were in doubt up to the time that we actually saw the machine, from the roof of The Examiner Office, hovering over Rice Lake as the ship's officials had laid so much stress on possible weather conditions and its adverse effect.

I wish to pay tribute to the local Bell Telephone office for their effective and efficient follow-up of the R-100 once it left Belleville. We received, through the courtesy of the Bell Telephone Company, telephoned information from the points south and once we received word that the ship was over Campbellford we gave instructions to have the whistles blown. The Examiner News Staff was kept busy practically all evening answering telephone enquiries from interested citizens and their co-operation throughout the whole event made possible the perfecting of necessary arrangements to a high point of efficiency.

The Canadian General Electric Co. Ltd., the Quaker Oats Co., and the Dominion Woollens and Worsteds Ltd. made full use of their whistles as arranged and the Fire Department their siren. The Fire Chief's car was ordered out by His Worship, Mayor Denne, on our advising him that the ship was away ahead of schedule and some extra measure must need be taken to insure Peterborough people a full view of the ship. The Fire Chief's car literally scoured every section of the city and penetrated to all points with the siren.

The weather could not have been more perfect, what with the bright moon and almost entire absence of clouds it looks as if we got the best of the deal even though it was a night visit as reports this morning from Oshawa, Port Hope, Cobourg and Trenton stated that the ship travelled east from Toronto to Montreal between 10.30 and 11.15 far out over Lake Ontario and was not visible to the same extent that it was over Peterborough, where it turned off its course to give a broadside to Armour's Hill and passed over the business section towards Queen Mary School grounds and the hill back of the school grounds, where earlier advice had packed so many people and cars. In this respect I feel that the act of the Utilities Commission in saluting the ship several times when it was over the city by turning the street lights on and off was a very nice piece of staff work and it must have made an impression on the people of the ship, the R-100.

On leaving The Examiner Office at 3.15 a.m. I was much impressed on looking over Hunter street to see the cars returning from Armour's Hill four abreast.

Altogether, Peterborough should feel very happy about the visit of the R-100 as we are so far inland that it would have been a comparatively easy matter to pass us up in favor of the lakeshore route.

FRANK G. STINSON.

Iodine Given In Mistake To Little Bethany Girl

BETHANY, Aug. 12 (Examiner Correspondence)—A very serious accident was averted by the prompt attention given by Dr. Hamilton South Line, was given a dose of iodine in place of cascarra. The little on Friday when little Jean Thompson, daughter of Walter Thompson, girl was quite badly burned about the mouth but is reported as doing nicely.

Since an English historian recently found that William III, Queen Anne and all four of the Georges died on Saturday, many people in Britain anxiously look on that day of the week for news regarding King George.

CAR RUNS AMUCK MAN IS KILLED

Manitoba Driver Held in Montreal After Crash.

RUNS OVER SIDEWALK.

MONTREAL, Que., Aug. 12 (C.P.)—An automobile which drove onto a sidewalk and smashed a plate glass window here last night struck three persons, killing one and seriously injuring another.

D. Cigauchuck, 35, of Beauharnois, was killed, and Girard Russell, 14, of Montreal, is in hospital, suffering from a fracture of the left leg and left arm and a possible skull fracture.

The driver, who gave his name as Frank Woodman, 39, of Manitoba, was arrested and charged with driving without a license or registration card. He is being held for the coroner's inquest. Woodman, who did not say from what part of Manitoba he hails, claimed he had left the documents in his hotel room.

FINANCIAL NEWS AND BRIEFS

A SPECIAL SERVICE TO THE EXAMINER

Sales of Laura Secord Candy Shops in the month of July, 1930, were approximately 9 per cent below the total for the corresponding month of 1929 and the total for the first ten months of the company's fiscal year, from October 1 1929 to July 31, 1930, is down approximately 4.3 per cent. Sales of $156,001 for July compared with $172,316 in the previous year a drop of $15,314 and the figure of $1,818,702 for the first ten months compares with $1,899,954 in the corresponding period of 1929, a decrease of $81,251. The company will end its fiscal year on September 30, next and sales while expected to be below those of the 1928-1929 fiscal year, the best in history, will be over the $2,000,000 mark and compare very favorably with the total for the 1927-1928 period. During the past year, Laura Secord practically eliminated the entire preferred issue through conversion into common and operation of the sinking fund. This leaves the company with only the one class of stock outstanding and all earnings available for distribution on the ordinary shares of no-par value. In the year ended September 30, 1929, earnings on the ordinary shares, after all charges, were equal to $7.22 a share against the present annual dividend rate of $3. The drop of less than 5 per cent. in total sales to date should permit of profit close to that of the preceding year, but the fact that the common stock issue outstanding has been materially increased through the conversion of each share of preferred into three shares of common will tend to reduce the actual profit per share, yet permit of the earning of the dividend by a substantial margin.

Canadian Bond Market.

Brokers point out that there are no better channels for conservative investment than seasoned Canadian bonds. Matthews and Company say for the past few weeks, prices for high grade bonds have moved steadily forward and this price movement has been largely due to the steady demand from insurance companies and banks, rather than from that of the individual investor. As confidence increases, a general public participation in the bond market will be created, with a stronger and more active demand for high grade fixed income producing securities. As this public demand develops, it is probable that comparatively few offerings will be found at present levels. This increased demand should begin to make itself felt during the early autumn. Matthews and company, therefore hold the opinion that the investor will find it profitable to make commitments in the best grade of fixed income bearing securities at the present time, as the current situation, both in respect to credit conditions and commodity prices, is more definitely in favour of the high grade bond buyer than at any time during the past five years.

Repetition To-day.

The Wall Street market is offering nothing new to write about, brokerage letters this morning are taken up mostly with a repetition of what was said yesterday and a discussion of the U.S. and Canadian government crops. The brokers can find nothing bullish in daily developments and as one puts it: "News continues to hurt rather than aid the market." One well-known organization has given up trying to write intelligently about the market and says it would take a United States Senator in one of their favorite filibusters to talk about Monday's market. One wonders what the comment of this writer should have been had the New York market passed through a summer election and a change of government as did the Canadian exchanges.

The general tenor of opinions is one of cautiousness and one letter speaks of the market as having little ammunition on which to stage any advance. Accumulation of the high grade dividend paying securities at present levels is being stressed by a great many but the speculative trader can find very little encouragement in the days exhibition.

Selling on the part of nervous holders appears to have run its course on the local exchange in the market here has subsided into one of reduced volume while Montreal is experiencing increased activity through liquidation. Margin accounts in Toronto were well looked after some months ago and there is no necessity for distress selling a few who took on commitments following the June break became tired of hanging on for the upturn and let go of their holdings at the first sign of trouble, but the securities that were accumulated by investors for cash are still being held and there is small likelihood that they will be thrown back on the market at this stage. The local atmosphere is one of protection rather than buying and selling, the only demand being from investors and liquidation from weak holders whose patience has been tried. Speculative accounts have been thoroughly liquidated and securities passed into the hands of those who purchased with the intention of holding for an indefinite period knowing full well that even though it may take some time the market will improve when the present period of depression comes to an end.

FALCONBRIDGE SMELTER WORK TO PROCEED S OON AS POSSIBLE

Management Planning of Capacity of 1,000 Daily Tonnage By Early Spring.

FOUNDATION LAID.

TORONTO, Aug. 12 (Special to Examiner).—Reports from Sudbury state foundations have been poured and everything is in readiness to proceed as soon as desired at Falconbridge with the proposed new smelter addition. It is generally conceded, however, that the management will not be satisfied with merely doubling the present tonnage, bringing capacity to between 600 and 650 tons, but are planning on a daily tonnage of around 1,000 tons by early spring. Usually well-informed quarters claim the mine has enough ore to carry a 2,000-ton plant for at least ten years, and as soon as power is available it is considered altogether likely production will be stepped on to the economic limit.

Direct word from the west is that considerable improvement has been noted in the ore encountered a short time ago on the 975 level at San Antonio. Work has been progressing since the publication of the report of John Reid, consulting engineer, and the ore is said to be showing higher values over wider widths. Apparently no definite action has as yet been taken on Mr. Reid's recommendation that a small mill be built on the property.

Minister in North.

Now that the air has been fairly well cleared, residents in the mining districts of Northern Ontario are patting themselves on the back over the appointment of Wesley A. Gordon, M. P. elect for Timiskaming south, as Minister of Immigration, Colonization, and Mines in the new Federal cabinet. Mr. Gordon, a resident of Haileybury for over two decades, is in close touch with the needs of mining in the Dominion and his ability should guarantee the industry receiving every possible facility for progress from the department at Ottawa. Mr. Gordon's selection follows his first entry into the political field.

Apparently McIntyre Porcupine is not the only gold mining enterprise that has secured result from experiments with flotation in connection with the treatment of gold ores. A dispatch from Alamos, Colorado, states: "New flotation process plant in the Crestone mining district is expected to revive the industry there. The new process extracts 92 per cent. of the metals, mostly gold, as compared to 43 per cent. under the old process, assuring profitable operations of the rather low-grade mines in the district.

That a peculiar anomaly exists at present between the conditions of producing mines of the country and the state of the market for their securities, was the opinion expressed by a prominent mining man who has been connected with the industry for the past 25 years. This authority cannot recall at any previous time a situation paralleling the present, he points out, the bulk of news from the producing mines is constructive and yet the shares are selling at the lowest levels in years.

Treating the mines individually he emphasized his point with examples of favorable conditions. Many have expansion programs under way which should pave the way for larger earnings. Many are increasing output through treatment of a higher grade of ore. In the base metal groups many companies are operating profitably with the metal quotations at the lowest point in almost a decade. This, he points out, should be taken as an indication of what can be done when conditions improve.

NEW CANDY FACTORY.

TORONTO, Ont.—A new factory building is shortly to be erected for the Jenny Lind Candy Company on Lansdowne Avenue, Toronto, at a cost of about $85,000.

DISCUSS STANDARDIZATION OF THE LIMITATIONS ACT

TORONTO, Ont., Aug. 12 (C.P.)—Standardization of the Limitations Act in the various provinces is the main subject being discussed by the conference of commissioners on the uniformity of legislation in Canada. The conference is in session here this week in connection with the Canadian Bar Association.

Under existing laws, time limits within which actions may be brought under contracts and judgments vary with each province. While the greatest diversity is between the practice in the English-speaking provinces and Quebec as the Quebec civil law is based on that of France, there is considerable variation among the English-speaking provinces.

EXCHANGE SAME AS ON MONDAY

Trading Volume Continues Light While Price Changes Are Small.

SESSION FEATURELESS.

TORONTO, Aug. 12 (CP)—The complexion of the forenoon session of the Toronto Stock Exchange to-day failed to change from that of Monday with the volume light and price changes small and the trend slightly lower. There was nothing outstanding about trading and the market was absolutely featureless.

C.P.R. O.D. sank to a new low for the year for the second day in succession but on this occasion it was on two sales of single shares only at mid-day. The stock sold at 180 for a loss of 4.

Goodyear Tire came out for the first time in about a week and showed a loss of 5 at 125. Standard Paving dropped 1½ to 18 and elsewhere changes were fractional and irregular.

International Nickel held about the level of the preceding session and at mid-day showed no change at 21.

Among the oils, Imperial, British American and McColl-Frontenac were fractionally lower and International Petroleum and Supertest unchanged.

CLOUDBURST HITS SALT LAKE CITY

Torrent Rushes Out of Canyons Destroying Buildings, Killing Stock.

SEA OF MUD REMAINS.

SALT LAKE CITY, Utah, Aug. 12 (C.P.)—Homes, farmlands and highways were beneath a sea of mud today, washed upon them when cloudbursts sent floods roaring out of canyons into sections of the Salt Lake Valley yesterday.

At Bingham, site of the Utah Copper Company Mine, the flood swept down the town's long single street demolishing twenty homes, damaging many more and filling business houses with rocks and mud.

Centerville and Farmington, too, felt the full fury of the storm. Nearly a hundred farm residents were driven from their homes by torrents which rushed out of four canyons, killing livestock, tearing down buildings and endangering the lives of fleeing farmers. Only a few persons received injuries, none of which were serious.

TENDERS CALLED ON 'Y' BUILDING

Plans Are Complete and Are in the Hands of W. R. L. Blackwell.

CLOSE AUGUST 26.

Tenders were to-day sought by the Board of Directors of the Y.M.C.A. for the construction of the addition to the present building. Plans and specifications are ready and in the hands of W. R. L. Blackwell, architect, in the Bank of Commerce Building. Tuesday, August 26, is set as the closing date for the tenders.

A price will not only be sought on the original plans for expansion which provide for new lobby, bowling alleys, swimming pool, exercise room, dormitories, and dining-room, but also on an alternate plan which will allow for expansion on a greater scale, providing greater floor space, and among other features, a new auxiliary gymnasium. The board is considering such a plan on account of the success of the building fund campaign staged in May.

SURVEY STATUS OF 1,300 COMPANIES.

TORONTO, Ont.—The 1930 Financial Post Survey of Corporate Securities is now distributed, being a record of the status of some 1,300 companies in which there is an investment interest, and which forms something of a record of national progress. The volume is carefully indexed and its contents clear and compact in arrangement.

IMPROVED TONE ON MINE MARKET

Firmness Characterizes Trading in the Gold Section—Hargraves Up 2.

PRICE RANGE WIDER.

TORONTO, Aug. 12 (CP).—Accompanied by a substantial increase in volume, the market of the Standard Stock and Mining Exchange was irregular to-day. The price range was slightly wider.

International Nickel and Hudson Bay were each 10 higher, while Noranda was down 25, at $22.50; pressure was exerted on the Lindsley group, Ventures setting a new low, and the other stocks showing losses for the day; Ventures sold at 98, the lowest price of the year, and then recovered to 99, where it was off 6 points; Sherritt Gordon and Sudbury Basin were each off 3, the former at $1.32, and the latter at $1.45; Falconbridge was 5 lower at $2.20.

Firmness characterized the golds, Wright Hargreaves up 2, Howey 1, and Big Missouri 1; Teck Hughes slipped off 15, to sell at $6.30, while Siscoe was off 2, and Kirkland Lake 1; Premier, Vipond, Dome, and Lake Shore were all steady at previous closing levels. In the miscellaneous group, Waite Ackerman continued to exhibit strength, advancing 25 points to $3.65, while Abana was unchanged at 45. Pend Oreille went back 6 to $1.20, while Base Metals and Mining Corporation each suffered 5-point losses. Arno declined fractionally to 5.

Home Oil came back to-day, recovering to $2.38, up 7 points, while Alberta Pacific firmed 3, and Calmont 2. Ajax held unchanged, and Nordon went down 3 to 92.

'TREE-SITTING' IN CHEMONG PARK

Three Youths Spent Four Hours and One-half in Tree Yesterday.

RECORD FOR DISTRCT.

That the endurance "tree-sitting" mania has finally hit this district was demonstrated yesterday afternoon when a trio of local youths climbed a tree in Chemong Park, settled themselves in the branches, and stayed there for four and a half hours.

A record for the Kawartha region, where the insidious tree-sitting germ had not so far commenced its deadly work, the four-and-a-half hour sit is insignificant as compared with the amazing "marathons" reported from other parts of the continent. The boys know this, but regard yesterday's attempt only as practice. They will try again today in preparation for a determined assault on the record, they say.

Blankets, food, and bottles of water comprised the equipment which the boys took with them into the branches. The boys were "Gump" Gemmell, Ross Pulkinghorn, and Jim Thornburn. The tree was situated near the Gemmell cottage in the Park. Whether or not it was a Canada maple which was subjected to the humiliation of conquest, was not ascertained.

How long to-day's sit will last is not known, but it is reported that Messrs. Gemmell, Pulkinghorn, and Thorburn intend to take full advantage of the cool weather. The superiority of tree-sitting over flagpole-sitting however, is pointed out as lying in the comparative independence of the former from the hot rays of the summer sun.

What effect the sun's rays could have on heads capable of conceiving the idea of endurance sitting of any kind, is generally regarded as a matter of contention.

ENGLISH TOWN 1,000 YEARS OLD

Barnstaple Citizens Recall Pillaging By Danes Long Ago, in Celebration.

NOW CONSIDERED MATURE.

(By Thomas T. Champion C. P. Staff Correspondent)

LONDON, Eng., Aug. 11.—Even as English municipalities reckon their age the pleasant little town of Barnstaple is now entitled to consider itself mature this week, it is celebrating its thousandth birthday as a borough.

A thousand years back Barnstaple was pillaged and burned by the Danes. This week it is invaded by visitors, most of them in motor-cars, whose spending much good money within the ancient town adds greatly to the test with which the loyal townsmen embark upon their round of decorous birthday rejoicing.

Another birthday celebration this week is that of the Norwich diocese which boasts an existence of 1,300 years. Norwich itself has been the seat of the diocese for only 1,000 years for the earlier bishops had their seat in an area most of which in subsequent centuries was slowly swallowed by the sea.

NORFOLK LIBERAL WINS.

ST. THOMAS, Ont., Aug. 12 (C.P.).—The recount of the ballots cast in the riding of Norfolk-Elgin in the recent Federal election was concluded to-day before Judge Boles, and revealed the election of the former member, W. H. Taylor, Liberal, by a majority of 6 over J. L. Stansell, Conservative.

LIGHT ADVANCE IS REGISTERED AT NEW YORK

Favorable Weather Forecasts Improves Outlook For Seasonal Upswing in General Business.

CORPORATE NEWS MEAGRE.

July Sales Reports Continue Generally to Make Unfavorable Comparisons.

NEW YORK, N.Y., Aug. 12 (C.P.).—After a period of gloom over the Government crop reports, the stock market took a bullish tip from the weatherman to-day but was only moderately impressed with it.

The U. S. crop reporting board's estimate of deterioration of the corn crop since August 1 was not as bad as expected, and forecasts of showers and cooler weather over extensive areas was interpreted as improving the outlook for a seasonal upswing in general business.

The crop reports made after the close of the previous market were even less favorable than anticipated. A deterioration of nearly 600,000,000 bushels in the corn crop from July 1 to August 1 exceeded most private estimates, but the reporting board's estimate of a further drop of 100,000,000 bushels since August 1, appearing early this afternoon, was not as bad as Washington reports had led Wall Street to expect. An increase in the estimate of winter wheat more than offsetting the deterioration of the spring crop, was viewed as anything but favorable for the already excessive supply of the leading cash crop.

The day's corporate news was meagre, but the rumor crop was thriving. The heavy short covering and brisk rally in Warner Bros. which undoubtedly was an important influence in the mid-day rally, was based upon a report that the company was to be reorganized by one of the leading Wall Street private banking houses.

July sales reports continue generally to make unfavorable comparisons. Kroger Grocery's report for the five weeks ended August 2 showed a drop of nearly 12 per cent. from the like period of last year, as compared to a reduction of less than 6 per cent. for the entire first 30 weeks of the year. Furthermore, the report showed 5,237 stores in operation, a drop of 238 from last year.

Simmons Company's sales tumbled nearly 30 per cent in July, also more than twice the decline for the first seven months.

The rail shares failed to follow the mid-day rally, with the weekly car loadings reports showing sharp declines and the prospect of a reduced movement of crops, indicating further reduction in earnings. Farm implements continued under pressure, reflecting expectations of low farm purchasing power.

Money was a little more plentiful. Call money renewed at 2½ per cent, but was available in small amounts at 2 per cent in the outside market. Commercial paper and bankers' acceptances were in good demand at unchanged rates.

FREE TRADE IS NO COAL EXPORT AID

Trades Unions Benefit by Probe of Britain's Relations With Colonies.

Sanction Settlement Plan.

LONDON, England, August 12 (C.P.). — Lord Beaverbrook's gospel of Empire free trade cannot directly help the export coal trade. Right Hon. Thomas Richards told the annual conference of the Miners' Federation of Great Britain in the course of his presidential address.

Mr. Richards said, however, that he had no objection to the general council of the Trades Union Congress investigating the possibilities of Great Britain's industrial and economic relations with the Dominions and colonies. Such investigation would enable the Trades Union to form a judgment on any scheme for the mutual exchange of commodities, independent of tariffs, protective or retaliatory, he concluded.

Another Labor statement in regard to the Dominions comes from the Labor Herald, and is apropos of overseas settlement. The Daily Herald says one scheme has actually been formulated which would provide for the development of a great area in Western Australia. The guaranteed capital of this concern would be two million pounds sterling, and would provide opportunities for about five thousand men almost immediately.

The Herald adds that Canadian trade unions have given such settlement schemes their blessing in a general sense, but recognizes that the Labor of the Dominions desires guarantees that the ranks of their unemployed would not be augmented.

CELEBRATE RAISING SIEGE OF DERRY.

TORONTO, Ont., Aug. 12.—(C.P.)—Royal Black Knights of Ireland are celebrating at various Ontario points to-day the anniversary of the raising of the siege of Derry. It is 241 years since the armies of King James the Second abandoned their attack on the City of Londonderry in Northern Ireland, the inhabitants of which opposed the Stuarts in the civil war of 1688-9.

WINDSOR YOUTHS DESCRIBE FIGHT

Bulman's Fatal Wound Result of Direct Act of Violence.

CORONER'S JURY VERDICT.

WINDSOR, Ont., Aug. 12. (C.P.)—That Clarence Bulman, 20 years old, of this city, came to his death on Wednesday, August 6, as the result of a wound inflicted by a sharp instrument three days before in Amherstburg and that the wound was a direct act of violence was the verdict of a coroner's jury last night. Eight Windsor youths, companions of Bulman on the Sunday night drive to the down river town, described the manner in which the fatality occurred.

Two men, Joseph Martin and Frank Holdaway, both of Amherstburg are held on murder charges, and will appear in Sandwich police court on Thursday of this week for the preliminary hearing.

It is alleged that Martin dealt the fatal knife thrust which caused Bulman's death. Acording to the stories told by witnesses at the inquest Bulman and his companions saw that a fight was taking place. On their way to the scene they were accosted by a man who was running away and who stated that his name was Frank Roland. He explained that he had been attacked because of his attentions to Rhea Martin.

Continuing to the scene of the disturbance the two men, now held on the murder charge, were found beating the girl. Bulman asked him to stop and their attentions were turned to him. Holdaway, it is said, struck him and then dashed toward the house with Bulman in pursuit. Martin chased Bulman to the porch and plunged a knife into his body. The knife has not yet been located.

NORTHERN FARMS SUFFER FLOODS

Petition From District Near Sudbury Seeks Relief From Gov't.

TOBACCO CROPS HURT.

TORONTO, Ont., Aug. 12. (C.P.)—Farmers of Lorne and Nairn Townships near Sudbury have petitioned the Provincial Department of Agriculture for aid following destruction of their grain and vegetable crops by floods.

Officials of the Department point out that the superabundance of rain in some parts of Northern Ontario is in contrast to the exceptional dryness in southwestern counties of the Province where the fruit crop has been adversely affected both in quality and quantity. Tobacco crops in Norfolk, Essex, Kent and Elgin are in danger, according to J. B. Fairbairn, Deputy Minister.

AIRLINER LEAVES

(Continued from Page 1)

of the field was in operation as the valuable lifting gas was pumped into the ballonettes of the airship. Water, gasoline and hydrogen are al pumped into the ship through the mooring mast and pipes running through the coupling at the top of the tower.

Braving the wind, members of her rigging crew are making proper inspection of her control surfaces and fabric.

No more visitors will inspect the ship, it was announced. The crew is too busy within the hull to allow of such inspections. Mechanics are at work on the motor that gave out as she was landing last night. Her reduction gear was slightly impaired during the flight over Ontario, but is expected to be declared in perfect condition again before she casts off from her tower to-morrow night. Even without repairs to her defective motor the airship could make the ocean flight without difficulty on five motors instead of six, so great is her reserve of power.

Gifts of Peaches.

Bearing a gift of peaches from the Niagara fruit belt, Captain Leonard Tripp, flying instructor of St. Catharines Flying Club, accompanied by David Imrie, club air engineer, flew to St. Hubert airport this morning in one of the Club Moth planes. Two of the three cases of peaches in the plane were for the officers and the crew of the dirigible R-100. The third was addressed to H.R.H. the Prince of Wales, and will travel to England aboard the airship.

BUILDING PERMITS DROP.

OTTAWA—The value of the building permits issued by 61 cities during June was $17,935,478 this being a decrease of $1,685,824 or 8.6 per cent as compared with the May total of $19,621,302, while in comparison with June 1929 there was also a decline of $9,881,114 or 35 per cent, the value for that month having been $27,816,592. The aggregate for the first half of 1930, though lower than in 1929 and 1928, was nevertheless considerably above the average for the last ten years while the wholesale cost of building materials was lower than in most years of the record.

Foreign workers, including Poles, Belgians and Italians, to the number of 200,000 have been imported into France since the World war because of the shortage of iron, steel and metallurgical industries.

DOMINATING

(Continued from Page 1)

Carling Brewing Co. would like" to have it tried," said Hon. W. H. Price, when asked if he had intereferred in the matter as charged by the defence counsel. "But the Carling Brewing Co. is not running the Attorney General's Department."

Col. Price said the change of magistrates had not been made at his direction, but was the result of Magistrate Mikel's being taken ill during the 30 days which must elapse before disposition is made.

Because the brewery preferred a different magistrate was no reason for the Attorney General's Department granting such a request, Col. Price said.

VILLAGERS WAIT ANXIOUSLY BIRTH OF ROYAL HEIR

GLAMIS, Scotland, Aug. 12.—(CP)—The villagers hereabouts who are anxiously awaiting the birth of a new child in the family of the Duke and Duchess of York shook their heads this afternoon and sighed.

"Not to-day, but perhaps to-morrow."

They had two reasons for believing that the arrival of the Royal grandchild was not imminent. One was that the Duke of York left Glamis Castle to join a golf foursome; the other was that J. R. Clynes, who as Home Secretary is in the neighborhood to record the birth officially, spent the afternoon motoring.

RICHARD HALL Limited

MILLBROOK RATE SET AT 50 MILLS

Fire Protection in East End of Village Discussed by Council.

ACCOUNTS PASSED

MILLBROOK, Aug. 12.—(Examiner Correspondence.)— The regular session of the Municipal Council was held in the council chamber last week, members all present, and Reeve P. Stinson presiding.

A requisition from the School Board was read, to raise taxes to the sum of $4,159.12 for school purposes.

Councillor T. J. Lang introduced by-laws to levy rates and taxes for the current year, and after the requisite number of readings, on motion of Councillors Lang and Eakins, these were signed, sealed and numbered 576 and 577, striking a general village rate and school rate of 50 mills on the dollar.

The problem of water supply for fire purposes in the east end of the municipality was discussed at some length. Council left itself open for suggestions regarding a sufficient water supply for fire protection at the east end of the village.

The following accounts were presented and were ordered paid:

Canadian National Railways, freight and telegrams, $3.86; Hydro-Electric Power Commission, street lighting, $71.71, town hall current $3.28, total $74.45; Millbrook Telephone Company, acct. July, $4.95; Alex Wilson, work culverts, $3.00; W. Budd, work culverts, $3.30; H. C. Lord, cleaning catch basins, $2.25; B. Raper, catch basins, and cutting weeds, $27.75; S. Donnelly, drawing gravel, $73.50; W. G. Russell & Sons, cement, $3.10; H. Nattress, salary $25, cutting weeds $4, total $29.00; Workmen's Compensation Board, levy 1930, $9.93; P. Stinson, expenses re valuation, $8.40. Total $243.49.

HOME TOWNERS

Tidbits, Interesting and Humorous CAMPBELLFORD

Not many of the local residents saw the R-100 pass over Campbellford at about 1:30 a.m. Monday Some however, were lucky. It was reported that the airship was flying at an elevation of about five hundred feet, and running slow.

If you want a free tire look up the offer that Hall's Garage is giving the public. With every cash purchase of $1.00 during the month of August, each customer is entitled to a guess on the number of miles the Dominion tire, on display in their window, has run. There are no strings on this offer. The correct mileage is in a sealed envelope held by G. A. Kingston and will be opened on Sept. 1st. The person guessing the correct or nearest mileage will be given a tire up to size 30x4.50 or an allowance of $10.00 on any size tire.

DOROTHY SAGAR WINS HIGH HONOR

Highest Mark of Any Candidate in Dominion in Junior Singing Examinations.

PUPIL OF MRS. PARK

Miss Dorothy Sagar of Tweed, a student of the Peterborough Conservatory of Music and a pupil of Dorothy Allan Park, has received a letter from Dr. MacMillan, principal of the Toronto Conservatory of Music, informing her that she has been awarded the silver medal for obtaining the highest marks of any candidate in the whole Dominion of Canada in the recent junior singing examinations.

Dr. MacMillan in his letter of congratulation says: "An analysis of the markings in connection with our 1930 examinations for Toronto and throughout the Dominion, including both midwinter and midsummer examinations, reveals the fact that you have scored the highest number of marks awarded this season to any candidate in our junior singing examinations. You are therefore entitled to the Conservatory's junior singing medal, which will be forwarded to you in due course. I desire to congratulate you and also your teacher, on your deserved success, and trust that your musical studies may proceed as satisfactorily in the future as during the season which recently came to a close."

FENELLA W.M.S. HAS SPLENDID PROGRAM

Mrs. S. Leach Conducts Interesting Meeting—Social Hour Held.

FENELLA, Aug. 12 (Examiner Correspondence)—Mrs. James Knox entertained the Fenella W.M.S. for their regular monthly meeting on Wednesday afternoon, August 6. After the opening excercises and minutes and business period, Mrs. S. Leach had charge of the following program. Devotional leaflet "The quest for happiness," read by Mrs. Clark Jewell emphasized the fact that Jesus for all his sad and lonely life radiated happiness because he continually helped others, and was to be found where people were gathered for merrymaking. Leaflets were read by Mrs. S. Leach, Mrs. C. W. Macklin and Miss Mildred Barker, touched on the hymn study conducted later by Mrs. A. Nill. Mrs. M. Adams rendered a solo, "He knows it all," very effectively. A hymn study giving much interesting information, and relating many touching incidents about the authorship of many well known and favorite hymns.

The next meeting will be held at the home of Mrs. F. Down with Mrs. Clark Jewell in charge of the program. Collection for the day amounted to $1.50 with 50 cents handed in as a donation by a member absent from the July meeting.

Afternoon tea was served by the hostess and the usual social half hour enjoyed.

In a bouquet left by a woman visitor to a London hospital was an envelope containing $5,000 for the institution.

Clothing.

*Mrs. Reynolds, 190; Muriel Baker, 183; *Dorothy Allin, 180; Dorothy Morden, 180; *Helen Lewis, 180; *Marian Allin, 179; *Nora Gibson, 178; Gladys Ard, 177; Ruth Tully, 177.

Nutrition.

Ina Van der Horn, 187; *Mrs. Reynolds, 185; Dorothy Allin, 185; Helen Lewis, 184; Olive Smith, 181; *Mabel Dowson, 181; Marie Rundle, 181; *Dorothy Morden, 180; Sadie Allin, 180; *Nora Gibson, 178; Eva Smith, 178.

Mrs. Reynolds, of Port Hope, was the high girl of the competition, receiving a special prize of $5.00; she is also a member of the team chosen to represent Durham County at the C.N.E., each members of which is given $5.00 toward her expenses, free entry to the Exhibition, a ticket for the banquet given the county judging teams from the entire province, and seating on the grand stand, a section of which is reserved for these young guests of the Exhibition Board. The Durham team is: Mrs. R. J. Reynolds, Miss Dorothy Morden, Miss Hazel Armstrong; and as spares, Miss Van der Horne and Miss Ruby Dewell. Several of the girls paid the entry fee of fifty cents and had their names listed for the open competition which also features county events at the C.N.E.

The list of those enrolled on Saturday included: Marian Earle, Martha Earle, Margaret Brown, Hazel Armstrong, Muriel Ball, Anna Fair, Sadie and Anna Rowland, Vera Armstrong, Verna Fallis of Millbrook; Nora Gibson, Mabel Dowson, Marie Rundle, Florence Ashton, Dorothy Allin, Helen Trimm, Mrytle Brook, of Bowmanville; Mae Smith, Bethany; Audrey Larmer, Ruth Staples, Fraserville; Edna Hogg, Gladys Ard, Orono; Marian Allin, Newcastle; Bea Jones, Genevieve Ferguson, Marian Philp, Nestleton; Lillian Crocker, Pontypool; Ruth Thorndyke, Millbrook; Ruth McKessock, Muriel Baker, Margaret Scott, Vera Kesslake, Jean Hogarth, Nora Kesslake, Ruby Dewell, Hampton; Ferga Johnston, Burketon; Jessie Yellowless, Enniskillen; Lorna Hooper, Annie Gardiner, Ruby Virtue, Adelaide Annis, Tyronne; Dorothy Morden, Emma Fee, Sadie Allin, Ruth Tully, Mabel Eggleston, Ida; Olive Smith, Mildred Smith, Ina Van der Horne, Cavan; Ruth Dawson, Mildred Dawson, Dorothy Dawson, Myrtle Guyatt, Mabel Seens, Clara Seens, South Monaghan, and Iva Smith of Cavan.

The girls going to the C.N.E. will be coached by Miss Hopkins, in the Department of Agriculture office, Port Hope, next week in preparation for the final events at Toronto early in September.

Terrible Itching of

ECZEMA

Almost Drove Her Mad

Poor girl—if she only knew how one application of Peterson's Ointment immediately stops tantalizing itching and soreness—how the powerfully healing and soothing ingredients start right in to clear that repulsive, red, cracked, discharging skin!

So no matter how long you've been troubled with Eczema—a few days from now you'll be overjoyed with your enchantingly smooth, beautifully fresh, free from Eczema skin. A 50c box proves it—all drugstores.

H. A. Danick writes: "For 6 months I was so bothered with Eczema that I could tear my skin to pieces. I tried so many lotions but could get no relief until I saw your ad one night. I got a box of Peterson's Ointment and it was just like woman said in paper. In one night my Eczema almost disappeared. I'm never troubled any more."

L.T.B. LODGE HOLDS DECORATION SERVICE

Campbellford Brethren Decorate Graves at Mount Pleasant Cemetery Sunday Afternoon.

CAMPBELLFORD, Aug. 12. (By Examiner Staff Correspondent)—The members of the L.T.B. Lodge, No. 35, journeyed to the Mount Pleasant Cemetery on Sunday afternoon, and there held their annual decoration service. The ceremony was in charge of the Worshipful Master, George Webber.

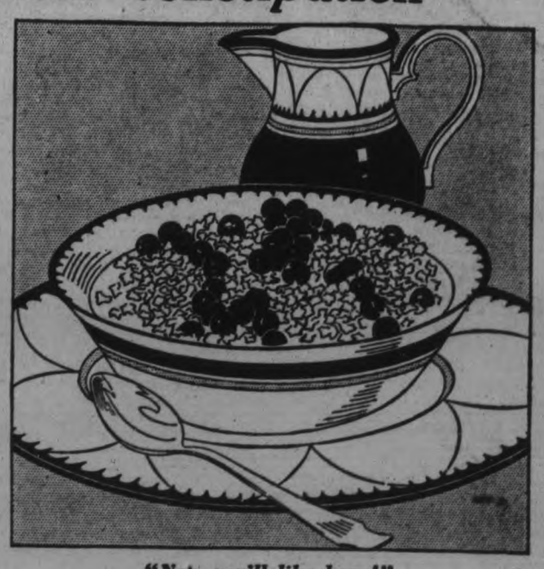
After a short service conducted by members of the lodge, each grave was visited and decorated, and a hymn sung by the members at each stop.

The names of members of the lodge interested in Mount Pleasant Cemetery are: Sam Frederick, Robert Linn, Martin Frederick, Capt. H. Hodge, John Free, William Hubble, William Phillips, Bert. Boyce, James Carruthers, John Thompson, Charles Ibey, William McKelvie, and Mrs. George Webber.

HAVELOCK

Mr. and Mrs. Arthur Bacchus of Toronto, and Ross of Bowmanville are summering at their cottage, Belmont Lake.

THE BULK OF BRAN to combat *constipation*



IN DELICIOUS FLAKES

to tempt the appetite

IT'S pleasant — this popular breakfast of Post's Bran Flakes with other parts of wheat. It's pleasant to eat, such a smacking good cereal of crisp flakes, and to know that every delicious mouthful is building for regularity, fitness and health.

Every day for two weeks, be one of those people enjoying the most popular bran cereal in the world. If you're like them, you'll like your breakfasts better — and you'll *feel* better. Millions prefer Post's Bran Flakes crisp in a bowl of cool milk or cream, with berries or fruit. It makes marvelous muffins. It's a real treat in bread. See the directions on the package.

Put Post's Bran Flakes on your shopping list, before you forget it!

"Now you'll like bran!"

Ordinary cases of constipation, associated with too little bulk in the diet, should yield to Post's Bran Flakes. If your case is abnormal, consult a competent physician at once and follow his advice.

BUFFALO LIVESTOCK

EAST BUFFALO, N. Y., Aug. 12.—Hogs 4,600; holdovers 200 above 150 lbs. strong to 10 higher, pigs draggy, bulk 160-200 lbs. 10.40; mostly 10.50; 220-250 lbs. 9.75-10.35, 250-290 lbs. 9.50-9.75; packing sows 7.50-8.00; pigs centering around 9.75.

Cattle 1,500, all grades fairly active, strong to 25 higher, bulk good yearlings 10.50-10.85; some held 11.00, heifers 10.25, weighty steers 9.50-9.65, fleshy grassers and short feds 7.75-9.00, common 6.00-7.50, fat cows 5.75-6.25, cutter grades 2.25-4.00.

Calves 1,300, vealers steady, good to choice 12.50, mostly 13.00. Common and medium 7.50-11.00.

Sheep 4,900, fat lambs scarce, better grades weak to 25 lower. Others 25 and more lower, good natives mostly 10.00. Strictly choice eligible above 10.25, medium and mixed lot 7.25-9.50, throwouts generally 6.50.

TORONTO LIVESTOCK

TORONTO, Ont., Aug. 12.—(CP)—Cattle trade on the Toronto Livestock Exchange opened very slow with bids 25 to 50 lower. Heavy beef steers brought $6.00 to $7.00. Bologna bulls ranged from $3.00 to $3.50.

Calves opened steady at $10.50 to $11.00 for choice with common selling downward to $5.00.

Hog market opened at an unsettled tone with prospects $12 f.o.b. for bacon or $13 off car.

No lambs sold up to noon. Packers were bidding $9 for best ewes and wethers.

Receipts 3,500 Trade very slow.

Heavy beefs steers, $7.25; butcher steers, good to choice $7.75;; butcher cows, medium, $4.75 to $5.25; calves, good to choice, $10 to $11; hogs, select, $12 to $13; good ewe lambs $9 to $9.50.

CHICAGO GRAIN

CHICAGO, Aug. 12. — Sensationally pessimistic unofficial field advices turned corn values upward late yesterday despite good rains in drought territory, and notwithstanding widespread relief from abnormal heat. Wheat values sympathized to some extent with the renewal of corn-price advances, but fell back again at the finish, dominated by general and correct belief that the Government crop report, due after the close, would make a bearish exhibit as to wheat. Besides, export demand yesterday for wheat from North America appeared to be at a standstill, and the United States visible supply total showed a fresh increase of 10,307,000 bushels.

WINNIPEG GRAIN.

WINNIPEG, Aug. 12.—Lack of foreign demand and the absence of speculative buying brought about lower grain prices here yesterday. The wheat market showed some recovery, after a sharply lower opening, late in the session, but dipped in the final 15 minutes to close 1⅝c to 1⅞c below Saturday's finish.

There was general selling during the first hour, but from then on offerings were light, but buying power was absent. Wheatrer conditions in Western Canada and in the United States showed improvement during the week-end, and this also had an effect on market sentiment. Export trade over the week-end was limited. Demand for cash wheat was indifferent, while trade in coarse grains was dull and featureless. Future prices followed the lower trend of wheat.

Futures—

	Open	High	Low	Close	Prev. Close

Dec.	0.44½	0.44½	0.43	0.43⅝	0.44⅛
May	0.47¼	0.47½	0.47	0.47⅛	a0.48⅛

MONTREAL PRODUCE.

MONTREAL, Aug. 12.— A feature of the trade in all lines of cash grain here yesterday was the weaker feeling that developed and values were reduced 2c. per bushel This was attributed to the weakness of the Winnipeg and Chicago markets.

The dairy and produce markets were generally active and firm. Eggs were advanced 1c per dozen, as forecast Friday. Receipts were 1,572 cases. The demand for butter was good and values were steady. Receipts were 11 boxes.

Cheese prices were fractionally higher. Receipts were 2,185 boxes.

Potatoes were quoted at 65c. to 70c. per 80-lb. bag for new locally grown stock.

District Markets

AT MILLBROOK

Beef, sirloin, 28-30c; round, 22-25c; roast, 20-25c; stew, 18-20c. Veal, 25-30c. Pork, 28-30c. Lamb chops, 30c a lb. Breakfast bacon, 45-50c. Butter creamery, 35c; dairy, 30c. Eggs, fresh 30c. Chicken, 25c-30c. Potatoes, 50c a peck.

Livestock and grain prices are:—Cattle, selects, 7¼ to 7¾ cents a pound; common butchers, 4½c. Hogs, live, thick smooth, $11.75 cwt; select grade, $1.00 cwt. per hog more than the bacon type; dressed head on, $16 cwt.; head of, $17 cwt.

Oats, 60c a bushel; wheat, 89c a bushel; barley, 70c a bushel. Hay $10 a ton.

Remarks: Tomatoes, howe grown, 10c a lb.; cucumbers, 5 and 10c each; fresh cabbages, 10c each; beets, 5c a bunch; peas, 10c a lb.; blue berries, 25c a lb.; raspberries, 20c a box; muskmelons, 25c each; light and heavy hogs are $2 a head less than the bacon hogs; the price quoted f.o.b. is $1.50.

WARSAW W.M.S. TALKS ON HYMNS

Interesting Discussion is Lead by Convenor, Mrs. A. Edwards.

MRS. A. WATT HONORED

WARSAW, Aug. 12 (Examiner Correspondence)—Mrs. Arthur Edwards, convenor of group B of the W.M.S. of the United Church gave a paper on hymns at the regular meeting held at the home of Mr. and Mrs. David Miller.

She spoke of hymn singing as ever an expression of joy. "In Egyptian ritual priests chanted praises at sunrise, noon, sunset and night. The oldest and finest specimen of choral song is said to be the song of Moses and Miriam after crossing the Red Sea. David gave hymns a permanent place in worship.

In the New Testament, the announcement of the birth of Jesus was made by an angelic host singing, Glory to God in the Highest.

There seems to be more German hymns than of any other language. Luther wrote many hymns, 'so that God might speak directly to them in His Word and that they might directly answer Him in their songs.'

The first hymn studied was Before Jehovah's Awful Throne, composed by Isaac Watts and published in 1719. The first verse has been left out, the second altered three times the words now used being given by John Wesley.

The first two verses of O God of Bethel were sung and the next two repeated as prayer. "It was written by the Rev. Philip Doddridge to follow a sermon on Jacob's vow. It was a favorite of David Livingstone and was used when his body was buried in Westminster Abbey.

Miss Phoebe Carey, born in Ohio wrote "One Sweetly Solemn Thought" when she was seventeen years of age.

Prince's Favorite.

Prince Consort Albert of England was very fond of Rock of Ages written by Toplady. Abide With Me, was written by Rev. Henry Francis Lyte, and "Nearer My God to Thee" by Sarah Flowers Adams, after being deeply impressed by the story of Jacob's vision at Bethel of the ladder ascending to heaven.

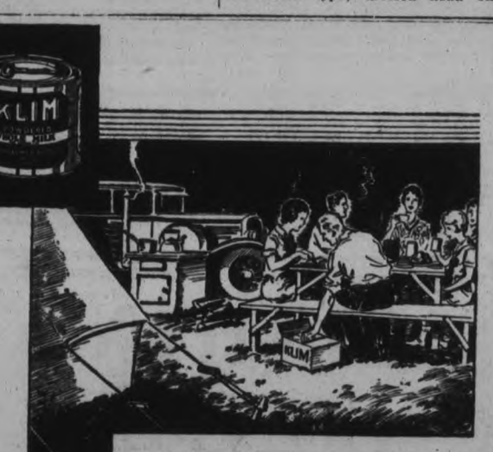
Joseph Scriven's hymn, "What a friend we have in Jesus" was the last taken. It was written to comfort his own mother in her great sorrow and sent to her in Ireland. He was educated in Trinity College, Dublin, and never married, after his fiancee was drowned. He gave up his profession as lawyer, came to Canada and settled near Port Hope where he devoted his life to Christ's work.

A splendid luncheon was served following the meeting, and a special feature was a birthday cake made by Mrs. Uriah Payne in honor of Mrs. Alex Watt's eighty-fourth birthday. Eighty-four was on the cake in little lighted candles. Mrs. Watts is a charter member of the W.M.S., and a life member as well as being the oldest member.

Norwood

Mr. and Mrs. Wesley Andrews of Old Colony fur farms enjoyed a very delightful afternoon on Sunday, Aug. 3rd, when a large party of friends visited their home in Norwood among whom were: Prof. and Mrs. Mason O.A.C. Guelph, Miss M. Till Edmonton Alta., Mr. and Mrs. L. Harley Woodstock, Ont., Mr. and Mrs. A. E. Young, Brantford, Ont.; Mr. and Mrs. E. Hill, Mrs. Martin, Mr. Prince, Mr. Splan all of Toronto, Mr. James Murray, Mr. and Mrs. W. Linder Sr., Mr. and Mrs. H. Linder Jr. and baby all of Hamilton. Of the party, Maud, Mrs. W. Linder Jr. and Sr., Miss M. Till, Mr. and Mrs. A. E. Young, and Mr. and Mrs. L. Harley are remaining for the week.

The Anglican Church Sunday School held their picnic on Wednesday at Rice Lake. A large crowd was in attendance and an enjoyable time spent.



KLIM MAKES IT SO EASY TO HAVE FRESH MILK

When you are away from home—enjoying the pleasures of the outdoors—is when you most need and appreciate an abundance of nature's greatest food, MILK. And KLIM makes it so easy for you to have it. No matter where you go, you can take KLIM along. It requires no ice. The changes of weather and the jolting of travel have no effect on it. For KLIM is in powder form. When you replace the water, you have rich, full-cream milk, with all the delightful flavor, all the healthful goodness of milk fresh from the dairy. KLIM takes up very little room and adds very little weight to your outfit. Once you have tried it, you'd never go away without it. Send us 10c for a trial tin.

Daughter Is Stronger Now

"My daughter Catherine is fifteen years old. She was very irregular, often sick at her stomach and had to stay in bed two or three days at a time. One of your booklets was sent to us by mail so I got her a bottle of Vegetable Compound. Catherine has been taking it regularly and she is gaining in weight and every way. I told the neighbors and four other girls are taking it with good results."—*Mrs. Clarence Jenkinson, Box 14, Thornloe, Ontario.*

LEAGUE MEMBERS GIVEN FINE PROGRAM

Missionary Convenor is in Charge at Regular Meeting at Zion.

PETHERICK'S CORNERS, Aug. 12 (Examiner Correspendonce) — Only twenty-four members of Zion League were in attendance at the postponed meeting held on Thursday evening, but a very fine program was presented under the guidance of the Missionary convener, Gladys Petherick with Mrs. Albert Petherick as leader.

Rev. Mr. MacTavish gave a very interesting talk on church conditions noticed on his recent trip in the northern districts. Readings were given by Laura Watson and Mrs. Lorne Barnum, a duet and encore with guitar accompaniment Misses Gladys and Cora Petherick and the topic of the evening by Gladys Petherick.

Personal

Miss Evelyn Barnum is spending a week visiting friends in Toronto.

Miss Laura Watson is entertaining her cousin, Miss Marjorie Hagerman, of Stirling for a few days.

Miss Hazel Brown, a former well-known figure in our community life, now resident in Rochester, N.Y., spent a few days last week with Mr. and Mrs. Fred Barnum.

Mr. and Mrs. Fred Barnum, Mr. and Mrs. Lindsay Watson, Rev. and Mrs. P. G. MacTavish and Mr. and Mrs. George Anderson motored to Kingston Friday for the excursion to the Thousand Islands.

AFTERNOON TEA

Proceeds From Gathering Donated to Havelock Vestry Building Fund.

HAVELOCK, Aug. 12 (Examiner Correspondence)—One of the most successful events of the season was an afternoon tea served at the home of Mrs. M. Isaac recently. Quite a large number attended this pleasant gathering and enjoyed the instrumental selections most capably presented by Miss Jean Anderson, A.T.C.M., as well as the vocal numbers admirably rendered by Mrs. (Rev.) P. C. Howard and Mrs. (Dr.) D. Holdcroft intermittently during the afternoon. Mrs. Isaac, as hostess, received her guests in her usual cordial manner, the latter being conducted to the spacious sitting room which was beautifully decorated with flowers and evergreens, giving the room a cool and cheerful appearance. Mrs. P. C. Howard poured tea at a daintily arranged table, while Mrs. H. W. Roche served the guests with the various delicious dainties provided for the occasion. Mrs. C. Dickenson and Miss Madge Curtis also gracefully assisted in arranging for the comfort of the guests. As this was a benefit tea and a small charge was made it is most gratifying to know that a handsome sum was realized and the amount applied to the Vestry Building of St. John's Church.

Third Game of Series Called at Dark With Score Tied

HARDILL AND CRARY KEEP THE HITS WELL SCATTERED; BOTH TEAMS GET PLENTY OF SCORING OPPORTUNITIES

Crescents and Canadian Generals Fail to Break a 3-All Deadlock.

FOURTH GAME THURSDAY

Each Team Secures Seven Hits, With Electrics Getting Two Extra Bases.

Crescents and Canadian Generals failed to reach a decision in their third championship playoff argument last evening, the teams being deadlocked at 3 to 3 with one gone in the ninth when the game was called on account of darkness. Hostilities will be resumed on Thursday when the fans will probably see Masterson and Utronki in another pitching duel.

The pitchers had the edge on the batters last evening breaking even with seven hits apiece against them. Crescents failed to hit for an extra base while Canadian Generals had a triple from Ash and a double from Johnston. Crary hung up a string of thirteen strikeouts but was liberal with seven passes while Hardill walked but two batsmen. Both teams had plenty of scoring opportunities, misplays creeping into the contest to make the burden harder for the twirlers, and add to the kick for which the series has been popular. Third Baseman Heard led the Crescents' attack with four hits and a run.

How Game Went.

Red Hollingsworth started the battle with a fly to Jones. Rose slashed a single through second and stole. Len Hollingsworth flew out to F. Jones and Crary threw out Utronki.

Joe Jones walked and stole. Sweetman struck out. Crary popped to Rose but Hickey singled between short and second to score Jones. Collins and Hardill were passed, the latter to get F. Jones and while Crary had to battle to get the left-fielder, he finally tossed him out on a grounder after a count of two and three.

The second saw Lebarr muff Ash's fly. Swanston dumped a short one in left and Beavis was passed to fill the bags. Johnston's best was a foul fly. Crary struckout and Hollingsworth fouled out to Heard.

For Crescents, Heard beat out a grounder down third and Lebarr sacrificed. J. Jones was safe when Johnston booted his grounder, and Hollingsworth made a neat catch of Sweetman's foul fly. Crary struckout.

C.G.E. tied the count in the third. Rose was safe when Hickey dropped a throw from Heard. L. Hollingsworth whistled one through short and when Utronki grounded to Hardill, the pitcher threw wide to third, allowing Rose to score. Fred Jones, besides taking Ash's fly held the runners. Swanston popped to Heard and Beavis fanned.

Cresents went out in order, Hickey grounding to Hollingsworth, Collins on a fly to Beavis and Hardill on his ground ball to Crary.

Johnston walked in the fourth and Crary fanned. Hollingsworth shot one at Hardill who got Johnston at second. With Rose up, Collins threw wide to second, allowing Hollingsworth to reach third. Rose drove the ball into Hardill's glove.

A pass to Fred Jones, Heard's single into middle, a pass to Lebarr and J. Jones' sacrifice fly gave Crescents a run and the lead. Sweetman and Crary went out swinging.

C.G.E. tied it up again with two down in the fifth, on Ash's triple to left and Swanston's single into left. Beavis fanned.

Crary struckout Hickey and Collins making it four in a row. He also threw out Hardill.

Hickey Drops Crary's Peg.

Hickey dropped a peg from Crary to let Johnston on in the sixth. Jack Crary popped a foul which Hardill took. Hollingsworth forced Johnston at second but regained the bag for the Generals on a steal. Rose lined out to Hickey.

F. Jones struckout. Heard singled through second, his third safety of the game. Lebarr fanned but Joe Jones came through with a single into left. Sweetman struckout.

C.G.E. went out quickly in the seventh. Crary threw out L. Hollingsworth, Hickey took Utronki's liner down first and Ash fanned.

With Crary and Hickey gone, Collins bounced one over the box for a hit and Hardill was deadheaded. Swanston lost the third strike on F. Jones, but got him easily at first.

Generals moved ahead in the eighth which Swanston opened with a grounder to Sweetman who nailed the runner neatly. On a roller down first Beavis was safe, Hardill fielding the ball and claiming a put-out on the line. Right on top of this argument the pitcher grooved one for Johnston who slammed out a long double between middle and right, scoring Beavis. Crary struck-out and Hollingsworth filed to F. Jones.

Heard's Fourth Hit.

Heard saved the day for Crescents by clouting out his fourth hit, a single to middle. Masterson batting for Lebarr failed to connect but J. Jones had better luck and drew a pass. Heard was well on his way to third when Sweetman's grounder went through Ash and Rose in turn, and he scored to sew up the game once more. Crary waited and walked to fill the bases but neither Hickey or Collins could punch out a hit, the former fanning while the catcher flew out to Beavis.

With Rose grounding out in the ninth and L. Hollingsworth coming up, the game was called on account of darkness.

The box score:

C.G.E.:	AB	R	H	PO	A	E
H. Hollingsworth, ss	5	0	0	1	7	0
Rose, 2b	4	1	1	1	1	0

* Batted for Lebarr in eighth.

By innings:

C.G.E. ..... 00101001—3
Crescents ..... 10010001—3

Three base hit—Ash. Two base hit—Johnston. Sacrifice hit—Lebarr. Sacrifice Fly—J. Jones. Stolen base—J. Jones 2, Rose, H. Hollingsworth. Struck out—by Hardill 6, by Crary 13. Base on balls—off Hardill 2 off Crary 7. Left on bases—C.G.E. 10, Crescents 14. Hit by pitcher—by Crary (Hardill). Umpires—Lebarr at plate, McCarney and Kay at bases.

"RED" FABER CURBS MACKS

Chicago Sox Takes Final Game of Series From Philadelphia.

YANKEES BEATEN.

NEW YORK, Aug. 12. (C.P.) — Washington's Senators picked up a game on the pace setting Athletics in the American league but the breach is still very wide. Washington clipped Cleveland 9 to 2 while old Red Faber and his spitball were taming the A's and Lefty Walberg 8 to 3. Goose Goslin hit a pair of homers to lead a St. Louis attack that halted the Yankee winning streak at six games 10 to 5. O'Rourke and Blue also hit home runs. Rip Collins gave eight passes but held the Yankees in the pinches. Blaeholders finished for him. The Browns hit Sherid, McEvoy and Carroll freely.

Danny MacFayden turned in the best pitching performance of the day letting Detroit down with three hits, two of them by Easterlin, as the Red Sox won 5 to 1. Ray Kolp also hurled well for Cincinnati, holding the slugging Phillies to six hits as the Reds won 4 to 2.

CAMPBELLFORD WINS FINAL LEAGUE GAME

Beat Bowmanville and Tie With Oshawa in C.O.T.A.—In Play-offs.

CAMPBELLFORD, Aug. 12 (By Examiner Staff Correspondent). — With a win of six events out of seven in a scheduled match between Campbellford and Bowmanville, staged at Campbellford on Saturday, the home club ties with Oshawa in leading Group 1 of the Central Ontario Tennis Association. It is expected that the play-off will be held at Peterborough on or about August 30th.

The games on Saturday, despite the one-sided count, were very keen and interesting. Keen and Todd for Bowmanville played a good combination in the only event that that club won over the home players.

The games and scores are as follows:—

First Men's Singles.—C. Weston, Campbellford, won from W. R. Strike, Bowmanville, 6—0, 6—0.

Second Men's Single.—H. Free, Campbellford, won from S. R. James, 7—3, 3—6, 6—4.

First Men's Doubles.—J. R. Smith and W. Kingston, Campbellford, won from E. H. Sisson and J. Alexander, 6—4, 6—2.

Second Men's Doubles—W. Todd and A. Kent, Bowmanville, won from S. Neale and R. J. Scott, 6—2, 5—7, 6—1.

Ladies' Singles—Eleanor Ferriz, Campbellford, won from H. Osborne, 6—1, 6—2.

Ladies' Doubles—Mrs. Douglas and Miss L. Smith, Campbellford, won from J. Mason and J. Ramsay, 6—1, 6—1.

Mixed Doubles—Dr. B. Longmore and Mrs. C. Weston won from C. H. Dudley and Aques Vanstone, 6—4, 6—4.

Because her husband had not spoken to her and refused to eat with her in nine years, Mrs Ada Collins, of Birmingham, England, has applied for a separation.

SKIPPER OF DEFEATED BOAT

Failing to hear starting gun, the yacht cup was defeated by the Thisbe. Quest, Canada's challenge boat for skipper, Norman Gooderham. Above cut shows the Quest and the

THISBE DEFEATS QUEST IN FIRST OF CANADA'S CUP RACES

Two Thousand People See Defender Take Verdict in Rochester Series.

FAIL TO HEAR GUN.

ROCHESTER, Aug. 12.—Over 2,000 people saw the Rochester, eight-metre boat Thisbe, win the first of a series of five races against the Canadian boat, Quest, yesterday afternoon off the Port of Rochester. Norman Gooderham was skipper of the Quest and William Barrows handled the Thisbe. The wind was strong out of the northwest, blowing eighteen and twenty miles per hour. The course consisted of a four and a half mile buck to weather and return, twice around, with all bucys left to starboard. The starting line was northeast of Rochester ,about a mile from the canal entrance.

The boats left their slips, each with one reef, about 11.15 a.m., and sailed out the canal. The Thisbe put in her appearance first, followed by the Quest. The race started at 12 o'clock noon. There was a fifteen minute gun, a five minute gun and the starting guns. With each gun a colored cylinder was hoisted on the starter's boat in the following order, white, yellow and blue.

With one minute to go before the start, both boats were running along the line on a port tack, Thisbe in the lead aid Quest slightly to leeward. When they swung around to come up on the starboard tack, Quest was close hauled and had all rights over the Thisbe. The Quest hit the weather end of the line right on the gun, with Thisbe two boat lengths astern and taking her back wind.

The Quest was designed by Fife of Fairlea, Scotland, and built in the Oakville, Ontario, yards. She is an international rule eight metre, 47.90 feet over all length and carries 847 square feet of working canvas. Her crew was: Douglas Addison, main sheet; Walter Windeyer, jibs and backstay; Robert Bartlett, light canvas ,and Robert Jarvis, cockpit.

The Thisbe was designed by Clinton Crane of New York and built by the Novins yards, Long Island. She is 48 feet over all and carries 868 feet of working canvas. Her crew was: John Taylor, main sheet; Taylor Howard, jibs and backkstay; Theodore Pickering, light canvas, and Teo Moline nad James Snell, cockpit.

The judges were Clifford D. Mallory of New York City, Harry A. Moore of Toronto and Charles Van Voorhis of Rochester.

The Canada's Cup was inaugurated in 1896 and named after the first winner, the cutter Canada. It was won by the Genesee of Rochester, in 1899, the Invader of 1901, the Irondequoit of Rochester in 1903, the Iroquois of Rochester in 1906, and the Seneca of Rochester in 1907.

Softball Notes.

Tonight marks the first game of the City Softball League playdowns when Belmonts and Sugar Bowl do battle. These teams finished first and second in the first half and are playing to-night in the first game of a three-game series to decide the winner.

Both teams will be at full strength for to-night's game and both are anxious to win. With a chance to get into the Ontario series at stake a good game can be assured.

The fixture will get away at 6:30 sharp and will be played at Central school grounds.

CHICAGO CUBS PASS DODGERS

Dramatic Defeat Deposes Brooklyn at St. Louis—Game Lost in Ninth.

KOLP BEATS PHILLIES.

NEW YORK, Aug. 12.—(CP)—The Chicago Cubs breathed deeply to-day of the dustless air at the head of the procession—leaders of the National League parade once more, thanks to the skill of a young left-hander, the ferocity of the St. Louis Cardinals and the impotency of the Boston Braves.

In second place, crestfallen and perhaps just a bit weary of all the frantic struggling that is marking the final drive for the flag, are the Brooklyn Robins, victims of all the nice things happening to the Cubs, out of first place, with the exception of a couple of one day lapses, for the first time since June.

The margin is only a point, but it is a margin, and the worst is yet to come for the failing flock of Uncle Wilbert Robinson. Instead of being able to flutter away somewhere for a few hours to rest and think it over the Robins must face the battling Cubs themselves in a four game series that opens to-day in the backyard of the 1929 champions.

The Cardinals dealt their final blow in the overthrow of Brooklyn yesterday, coming from behind in the ninth to score three runs and whip the Robins for the third straight time 7 to 6, while Young Buddy Teachout, freshman southpaw of the Cubs, was taming the Boston Braves 4 to 2, the third time McCarthy's warriors have turned that trick in two days. Thus did the last of a three-game margin the Robins held over the Cubs two days ago topple into a deficit and the head of the National League procession today read:

	Won	Lost	Pct.
Chicago	65	44	.596
Brooklyn	66	45	.595
New York	61	47	.565

More woeful even that the precipitous drop of the Robins in the past 48 hours is the record of the flock against the Cubs themseves. Brooklyn has beaten Chicago only four times against 11 defeats. To even the most rabid of the Robins faithful, it is obvious that pennants are not won with records like that against the leading opposition.

The goat of the Cardinal conquest yesterday was Del Ennsanette, lanky French Canadian who first bases for the flock. Pitching nicely after surviving a four run outburst in the second inning, Hollis Thurston went into the ninth with a 6 to 4 lead, thanks to Babe Herman's 27th homer, another by Johnny Frederick, and other timely clouting against Johnson and Grabowski. Then Hafey and Watkins singled, Bissonette hit Watkins in the back trying for a forceout on Fisher's grounder, and two runs scored. Del missed Gelbert's foul, threw late to catch Fisher at third and Gelbert hit to him again, and a pass filled the bases. Thurston left and Babe Phelps came in. He got two out but Frankie Frisch, who would like to play in Brooklyn next season, singled home the winning run.

The Cubs tussle with the Braves was a simple thing with Teachout allowing but six hits. Wallie Berger got his 29th homer but Cantwell was hit freely, Stephenson and English leading the Cubs attack.

The Pittsburgh Pirates beat the Giants 8 to 5 and kept them from gaining precious ground. Larry French pitched nice ball to halt a pirate losing streak that had reached five straight. Bill Terry did most of the Giant hitting with a homer, double and single and French helped his own cause with three hits.

GREENE HOLDS TORONTO LEAFS IN FINAL OF READING SERIES

Loose Fielding and Poor Baserunning Also Factor in Toronto's Defeat.

49TH HOMER FOR HAUSER.

READING, Aug. 12.—Toronto lost more ground in the International League flag chase yesterday when the Leafs dropped the final of the five-game series with the Reading Keystones 8 to 2. The victory gave Reading the series by three games to two.

Nelson ("Turkey") Greene, Reading left-hander, was too much for the Maple Leafs. He allowed only seven hits, four of which were grouped in the eighth inning, when Toronto scored their two runs to avert a shut-out. Up to the eighth only one Toronto runner progressed so far as second base and this was the result of an error.

While Greene was restricting the Leafs to seven blows, Phil Page, former Detroit left-hander, was being touched for 13. It was to be said in Page's favor that the "breaks" went against him, for the Keys came through with several lucky hits, while five errors committed by his mates also did the Toronto pitcher no good.

TORONTO, Aug. 2 (C.P.)—The all-important series between Rochester and Baltimore has ended without doing much to settle the International League pennant race other than to prove that the Orioles will have a hard job overtaking the pace-setting Redwings.

Five games were played with the Orioles managing to take three of the quintet by reason of an 8 to 6 victory yesterday. The victory left Baltimore trailing the champions by five games. Joe Hauser, who has been on a home run spree this year, chose the ninth inning to pole out his forty-ninth homer of the season with the result the Orioles broke the deadlock and won. Southworth and Collins cracked out circuit blows for the Redwings while a near first-fight between McGowan and Derringer in the ninth added spice to the game.

After taking five straight from the Buffalo Bisons, the Newark Bears lost a night contest, 9 to 1, following their 8 to 5 triumph in the afternoon. Jess Petty, former major leaguer, was responsible for the Bears' daytime victory, but Wilson was too much for them under the lights.

Playing under Joe Tinker, successor to Nick Allen, who resigned as Jersey City manager yesterday, the Skeeters lost to Montreal 7 to 2 in a night game. Buckalew kept the Skeeters eight hits well scattered while the Royals fell on Moore and Guise for 14 blows.

MOUND REGATTA HELD WEDNESDAY

Last Regatta of the Season Will Be Held on Wednesday Afternoon.

On Wednesday afternoon the Serpent's Mound regatta will be held on the banks of Rice Lake just south of the village of Keene. There is no place in this vicinity which is more suitable for the holding of a regatta as the beautiful mounds form a splendid grandstand from which to watch the various events taking place.

The regatta racesare always keenly contested on account of the great interest that in the Hiawatha Indians take in them and this year several new features have been added by the committee in charge. The outboard motor races which have been a big drawing card in the past will again be a feature of the day.

HARRISONS WIN SECOND PLACE

Montgomery and Simmons Hook-up in Pitching Duel in Softball Contest.

FINAL COUNT 7-6.

Harrisons' won second place in the second half of the softball league by defeating the Sugar Bowl 7-6. The game was one of the fastest and best-played of the season. It took only forty minutes to complete the nine innings.

Montgomery and Simmons engaged in a pitching duel and the honors were about even, the former getting a little better support.

The game was practically erroriess with the exception of a couple of misses by the Bowlrites outfield, which were damaging, one dropped fly letting in two runs.

"Red" Dallin with three hits and "Lefty" Smith with three were the batting stars of the fixture. Dobson collected the only circuit clout of the evening.

The line ups,

Harrison—Willshaw, 3b; Calladine, 2d; Parsons, ss; Dobson, c; Smith, 1b; Playford, cf; Montgomery, p; Clarke, rf; Vinette, lf.

Sugar Bowl—Dormer, ss; Weese, 2b; Dallin, lf; Gillespie, cf; Maudsley, 1b; Bradshaw, 3b; Forsythe, rf; Connors, c; Simmons, p.

Umpires—Galbraith and Laing.

When city officials of Dugannon, Ireland, prepared to start construction of a number of municipal houses they found that plans called for upper stories wider than those below, and had to have the plans redrafted.

SOCCER NOTES.

To-night, on King Edward Park, at 6.45, the Brinton Athletic meet the Canadian General in the final of the White Challenge Cup. This will be a real battle between two fast aggregations.

All C.P.C. players and members please meet in dressing room at the plant at 8 o'clock to-night (Tuesday). Business important.

LAUREL & HARDY in "HOG WILD"

LARRY LABELLE IN SEMI-FINALS

Move Necessary Due to Large Entry List For Aspirants For Canadian Titles.

CLOSE COMPETITION.

TORONTO, Ont., Aug. 12. (C.P.)—Another long stretch of preliminary stones will be laid in the pathway of the semi-final and final matches, when the second round of the Canadian amateur wrestling championships is resumed here this evening.

Only a little more than half of last night's program could be completed owing to the long list of entries, even though the aspirants to the Canadian titles and British Empire games competition, battled into the early hours this morning.

A single class—the 158-pound—reached the semi-final stage and this was accomplished only by the stamina of the husky Larry Labelle, Toronto, who managed to first secure a verdict over Gordon H. McMahon, Kingston, and then downed another local boy, Harry Jeffers.

There was still a long string of bouts to be run off in the 145-pound ranks and in the heavyweight class, of which the hefty Hans Lindberg, Port Arthur, holds the crown. Lindberg, however, has not entered the fray, which now looms between Aram Salisiam, New York and Iris John MacDonald, Toronto. Howie Thomas, stocky Montrealer, present holder of the 145-pound honors, frustrated the first attack on his throne by downing George Daly, of Toronto. The only other member of the Quebec aggregation to escape elimination was Dave MacCallum, Montreal. M. E. Letchford and H. A. Crompton and K. C. Smith, all went down in defeat. George Hennessey, Hamilton, accounted for Smith, felling the Montrealer twice within six minutes and 35 seconds. Letchford lost a decision to Reg. Priestly, Toronto, while George Pashayan New York, eliminated Crompton in almost half the alotted time of 15 minutes.

A formidable aggregation from Western Ontario made an impressive start, featured by the remarkable prowess of seventeen-year-old Charley Vendaudenard, of Kitchener, who lost a hard struggle to the heavier and more experienced Louis Gathier of Kenora. A club mate of Vendaudenard's, Hanz Bochen, present holder of the Ontario 158-pound championship, lost to Reg. Forbes, Toronto.

To Contest Game

A. Hillhouse of Melbourne, Australia, six-mile champion, who is in Hamilton, Ont., for the British Empire games.

League Leaders.

The following statistics, compiled by United Press, include games of Aug. 11:

Leading Hitters.

	G.	A.B.	R.	H.	P.C.
Terry, Giants	108	442	105	181	.410
Klein, Phillies	108	447	115	180	.403
Herman, Robins	110	444	108	177	.399
O'Doul, Phillies	103	412	99	162	.393
Gehrig, Yankees	114	425	110	164	.386

Home runs—Ruth, Yankees, 42; Wilson, Cubs, 39; Gehrig, Yankees, 33; Foxx, Athletics, 32; Klein, Phillies, 29; Berger, Braves, 29.

Runs batted in—Gehrig, Yankees, 140; Klein, Phillies, 124; Foxx, Athletics, 122; Simmons, Athletics, 120; Wilson, Cubs, 118; Ruth, Yankees, 118; Klein, Phillies, 115; Simmons, Athletics, 112; Wilson, Cubs, 110; Gehrig, Yankees, 110.

Stolen bases—Cuyler, Cubs 27; Herman, Robins, 16; McManus, Tigers, 16; Gehringer, Tigers, 16; Cissell, White Sox, 14.

Hits—Terry, Giants, 181; Klein, Phillies, 180; Herman, Robins, 177; Frederick, Robins, 170; Gehrig, Yankees, 164.

KIWANIS AWAY ON WEDNESDAY

Local Junior Squad to Meet Belleville on Latter's Home Field.

LEAVES HERE 1 P.M.

Given a few of the baseball "breaks" in to-morrow's game at Belleville with the Moose juniors of that city, the local Kiwanis squad should cop off a win and make a third game necessary in the first series of the O.B.A.A. playdowns. Through nervousness on the part of the infielders in the game here on Saturday, the clubmen dropped an 8-3 decision despite effective work by Cripps, who hooked up in a pitching duel with the opposing moundsman.

The team leaves here at 1.30 Wednesday afternoon and will play a twilight game in the Bay of Quinte city. Travelling with the squad are the best wishes of local junior ball fans for a Kiwanis victory.

C.P.C.-BRINTON MUST PLAY GAME

Referee's Report Shows That Six Minutes Had to Go—Other Fixtures Scheduled.

SOCCER NOTES.

When the referee's report of the last game between Canadian Packing and Brinton Athletic was read last evening at the meeting of the P. and D.F.A., it revealed the fact that the game didn't go the full ninety minutes as stipulated under the ruling of the Federation of Football, therefore the executive had no other alternative but declare the game unfinished, and that the two contestants play another league match.

The C.P.C. representative declared that his team was entitled to the full points and took an attitude unfavorable to the ruling.

Schedule Games.

Thursday night, August 14—Caledonians vs. Canadian General, in a Packing. Kick-off at 3 o'clock. Referee, James Hawthorne. To be played on King Edward Park.

Saturday afternoon—In a league game, on King Edward Park, the Caledonians meet the Canadian Packing. Kick-off at 3 o'clock. Referee, Alexander McKinley.

Peck Cup Draw.

The draw for the Peck Cup resulted as follows:

Tuesday evening, August 19 — In Peck Cup, Brinton Athletic vs. Canadian Packing, on the Brinton club ground. Kick-off at 6.15 prompt.

Thursday evening, August 21 — In Peck Cup, Canadian General vs. Caledonians. Kick-off at 6.15. To be played on King Edward Park.

KING EDWARD SENIOR BOYS WIN PLAYGROUND HONORS BY DEFEATING CENTRAL NINE 9-8

Lusty Triple and Single From Southerners' Bats Decides Issue Yesterday.

HEAVY HITTING.

Junior Game Called on Account of Darkness With Score Standing 10-10.

By a one-run margin over Central yesterday afternoon the King Edward Senior Boys romped off with the championship of the City Playgrounds Softball League. The Central boys, who, after dropping the first four games to King Edward, had shown vastly improved form to take the next three, made a gallant bid yesterday to take the final scheduled contest and tie up the standing, but a lusty triple and a timely single from the South-enders' bats in the final frame decided the issue for King Edward. The count was 9-8.

After an unsteady start, Chambo—on the mound for Central—pitched steady ball until the final outburst in the fatal seventh. LeBarr at third shone defensively for Central, with Fleming and Stabler also turning in good performances.

Gordon pitched a nice game for King Edward, with fine support from Mowry behind the bag and McGovarin in the field.

The box score:

Central.	AB	R	H	PO	A	E
LeBarr, 3b	4	0	1	1	6	0
Fleming, c	3	0	1	4	0	0
Downer, 2b	4	1	1	1	2	1
Chambo, p	4	0	2	4	4	0
Stabler, 1b	4	2	2	7	0	0
Whatman, ss	4	2	2	1	2	0
Bennett, cf	3	2	2	1	2	2
Jemieson, lf	3	0	1	0	1	0
Depellaro, rf	3	1	1	1	0	0
*Collins, c	1	0	0	1	0	0
	32	8	13	20	17	3

* Replaced Fleming in 5th.

King Edward.	AB	R	H	PO	A	E
Gordon, p	4	1	1	4	3	0
Ridley, 3b	4	1	2	1	4	3
McGovarin, 1b	4	2	2	5	0	0
Balfs, cf	4	2	4	0	0	0
Todd, ss	4	0	1	0	4	0
Mowry, c	4	2	2	3	1	1
Crowe, 2b	3	0	1	4	3	0
Giardino, rf	3	0	1	0	0	0
Rivard, lf	3	1	2	0	0	0
	33	9	16	17	15	4

Score by innings:

Central ..... 0410021—8

King Edward ..... 4300002—9

In the Junior boys' fixture the game was called, due to the late hour, with the score standing at 10-10. The batteries in this affair were: For Central, Downer, Thomas and Harris; for King Edward, Ridley and Castle.

The Central Girls closed their schedule with a 16-5 victory, making a clean sweep of their series with King Edward.

The score by innings of the girls' fracas:

Central ..... 48013—16

King Edward ..... 02102— 5

Batteries: For Central, E. Rogow and F. Patterson; for King Edward, D. Routley and L. Lowes.

Final Standings.

Senior Boys.

	Won	Lost	P.C.
King Edward	5	3	.625
Central	3	5	.375

Junior Boys.

King Edward	6	1	.857
Central	1	6	.143

One tie game.

Girls.

Central	6	0	1.000
King Edward	0	6	.000

The city playgrounds picnic will be held at King Edward Park on Thursday afternoon of this week. Exhibition softball games horseshoe pitching, and a checker tournament will feature the event.

Helen Moody Will Not Defend National Title

SAN FRANCISCO, Aug. 12. (C.P.)—Helen Wills Moody has decided she will not defend her National women's tennis title this month at Forest Hills, N.Y.

The champion gave unwillingness to leave her husband, home and relatives so shortly after her long trip to Wimbledon, England, as the reason for decision.

"I have decided to stay at home with my husband and relatives for a time" the tennis champion said. "It wouldn't be right for me to go away again so soon when I have just returned from a long trip.

BELLEVILLE HOTEL UNDER NEW OWNER

Mrs. Munro Byles Purchases the Chrystal Hotel in Belleville.

Mrs. Munro Byles, well-known to the travelling public of Central Ontario, having kept the Munro Hotel in this city for seventeen years, has recently taken over the Chrystal Hotel in Belleville, formerly owned by Mr. Kingsley.

Since leaving this city seven years ago, Mrs. Byles established the Munro Hotel in Windsor, which is still operating under that name. She left Windsor four years ago and lived for the past two years in Toronto in retirement. Her re-entry to the hotel business was made when she purchased a summer lodge at the head of Loon Lake near Apsley, which Mrs. Byles informs The Examiner she is now operating with great success. "Situated as it is in the highlands of Peterborough County, it is finding great favor with many local people," she declared.

Mrs. Byles is a sister of Mrs. Fisher, wife of the proprietor of the New Royal Hotel, Cobourg.

Softball Notes.

Wednesday night Westclox and Harrison's hook up. These two teams finished first and second in the second half. This game will be played at Central and will start at 6.30.

On Thursday night Sugar Bowl and Belmonts play again, and on Friday Westclox and Harrison's.

All games this week will be playoff games and should provide the fans with good softball. The first and second team in each half play off and the two winners meet in the finals. Best two out of three is the arrangement.

International Yachts in Second Race To-day

ROCHESTER, N.Y., Aug. 12. (C.P.) With the first of the races for the historic Canada's cup in her favor, the defending Thisbe of the Rochester yacht club will engage again today with the Quest of Toronto for the second of the series over a 21-mile triangular course off Summerville, seven miles north of here.

The Thisbe showed her heels yesterday to the Quest in a rough and tumble race in an 18-knot breeze, winning by a 5 second margin over the entry of the Royal Canadian Yacht Club.

The Thisbe surprised her owners and crew by taking the lead early in the race and winning by a 150-yard margin after starting in a breeze that was generally considered as favorable for the Candian boat.

Both yachts are of the international eight-metre class and the trophy they are contending for is the Canada's cup, the coveted prize of fresh water sailing yachts since 1896. It is Canada's fourth attempt to lift the trophy.

19 MEMBERS ARE ON BRITISH TEAM

Members After Games at Hamilton Will Go to Chicago Seeking Further Laurels.

STRONG ENTRY LIST

HAMILTON, Aug. 12.—Everybody available, with any possible claim for inclusion, except, of course, one or two unable to make the trip for various solid reasons, is included in the British A.A.A. team for the British Empire Games here August 16 to 23, according to H. M. Abrahams, former British Olympic Champion. Nineteen individual events and two relays on the track and field program will be challenged by the Britishers, and it is interesting to note that Abrahams does not lay claim to victory in each instance.

The English team was selected not alone for the great competition here, but also to provide a strong nucleus for the British Empire team that will compete against the United States selections at Chicago following the big project here.

"We promised Canada that we would send a full team," says Abrahams, "and we have fulfilled our promise unsparingly."

The great proportion of the material to carry England's colors is first class and in the majority of events will be well placed, is the consensus of opinion among English critics. In the sprints Englehart and Page are expected to give splendid accounts of themselves, although it is readily admitted that Williams, Miller and Fitzpatrick of Canada, Legg of South Africa, and others, some of whom figured in the Olympic dashes, are likely to stand out. Ball, Wilson and other Canadian quarter milers are rated superior to the English entrants, but stern opposition is likely to develop from South Africa and Australia. It is in the middle distances that England hopes to shine, with Hampson and Thomas being prominently placed.

Thomas, in the mile, will carry heavy favor. Not forgetting the fact that Jack Walter, Canadian who has been attending Marquette University at Milwaukee, recently was clocked in 4.18 1-5 for the mile, Thomas is nevertheless likely to prove one of the strongest competitors in this event.

In the three and six miles events, England's hopes are very strong and there seems to be little doubt, in the Old Country, but that Lord David Burghley will account for the 120 and 440 yards hurdles, although consideration is given the South African stars, particularly, Davies who is rated best of all 120 yards hurdles men at the preesnt time.

England has designs on the running broad jump, the shot put and several other field events, looking to Howard to take the shot put and rating Nokes outstanding in the hammer throw.

A sound all-round team, sufficiently strong to account for many laurels, will carry the British hopes in the Empire Games, and even in the event the team does not gain the victories hoped for it will at least offer as powerful opposition as will come from any country entered.

RECEIVE ENTRIES ON THURSDAY EVENING

All Those Interested Asked to Take Part in Flower Show.

On Thursday evening, August 14, the Canadian Legion Hall will be open for receiving entries which will be received and staged by a committee for that purpose. Some time on Friday these will be judged by G. Baldwin, F.R.H.S., of Toronto, an official judge of the Department of Horticulture. The show will carry on until late Saturday evening, when the draw will take place for the lucky number prizes. The committee will welcome any exhibit which may be put up by our local professional florists or by any one interested in horticulture, who may have something to display. There is no entry fee in any section.

Competitors for the prize awards should note how many blooms or spikes are called for. There may be less but not more. Cut your gladiolus with a long stem, and do no pull off any the wilted blooms. Annual phlox Drummondi look very nice when made up into little trusses, which is made up by matching the blooms and tying them together to make them look like one bloom. Bring your own containers. Bring something any way and make this a show to be remembered. The committee feel sure it will be successful.

Vancouver is all set to uncork another Canadian champion in the person of George Burrows, 22-year-old lad who shows more than ordinary promise in long distance races. In fact, according to the sport scribes from the coast, he is one of the best prospects ever developed in the Pacific Northwest. Recently at Vancouver trials, Burrows made the rest of the field sea-sick with his back wash and incidentally was selected to represent British Columbia at the Canadian championships in Toronto.

Burrows won the Through-Victoria three-mile swim for the second consecutive year setting a new record of 55 minutes and 19 4-5 seconds, and that's not loafing. Aside from this, he holds the British Columbia record for 220 yards free style.

WESTERN TEAMS OUTCLASS EAST

Carry Off First and Second Honors in Dominion of Canada Rifle Meet.

CALGARY WINS MINIATURE.

CONNAUGHT RIFLE RANGES, Ottawa, Ont., Aug. 12 (By Jack Hambleton, C.P. Staff Writer). — Two great rifle teams from the West upset all precedent at the Dominion of Canada Rifle Association meeting here yesterday. Fighting a dramatic battle with the elements, they totally outclassed the best eastern Canada school teams, carried off first and second honors in the Cadet match, and then, while other marksmen followed every shot, wound up in a rousing tie finish which was only decided by a technicality.

Galgary High School and Winnipeg Highland Cadets were the two teams which battled it out to decide ownership of the famous White Clock won five years in a row by Hamilton, Ont., Central Collegiate. Calgary High will carry a miniature of the clock back to the West with them, although their total score of 246 was equalled by Winnipeg Highlanders. But the Calgarians had three less "magpies" than the Winnipeggers, and their shots were just a trifle better distributed.

Behind them came the Imperial Cadets "A" team from England, with 244, and in fourth place were the four representatives of Hamilton Central's "A" team, tried veterans of the range, who this year slipped badly. Ottawa Glebe were fifth and Hamilton Central's "B" team in sixth place.

The Cadet match is an individual and team affair, and is fired at 200 and 500 yards, seven shots at each range. In addition to the team prize, there is a cadet medal given by the D.C.R.A., and $160 in cash prizes. Results of the individual scoring were not available early to-day.

Almost every possible kind of weather faced the marksmen Monday. Early in the morning, a stiff wind blew across the ranges. Later, the wind switched to the north, and swept into the faces of the marksmen. It switched west again in the afternoon, and brought rain with it. All day, too, it was very cold, and the sharpshooters trembled and found it hard to hold steady.

In spite of the weather, however, scores were remarkably high in all matches.

In the McDougall, feature of the individual events, Major T. Spittal, Montreal; Sgt. J. L. Ward, Saint John, N.B., and Lt. J. T. Downey, also of Saint John, all emerged with perfect scores of 70. Lt. Downey was eliminated in a shoot-off, but Major Spittal and Sgt. Ward have still to decide supremacies.

Sales of automobiles and trucks in Denmark this year are one-fourth greater than a year ago.

C.G.E. CRICKETERS ARE EASILY BEATEN

Jefferson an dSmith Give Fine Batting Display in Local Fixture.

The Peterborough C. C. easily defeated a team representing the C.G.E. on Saturday afternoon by 5 wickets and 74 runs. C.G.E. batted first, but could do little with the bowling of F. Dyer and Jefferson and were out for the small score of 44; Martin being the only one to reach double figures.

The visitors lost two good wickets for 16 runs, the next two wickets also fell cheaply, but then Jefferson and Smith set about the bowling and scored at a rapid rate, bringing the score to 101 before being separated; Jefferson being then out to a catch by Leach, having scoring 36 runs. Thorpe joined Smith and these two were still together when stumps were drown, the former being not out 35 and the latter 13 not out.

For Peterborough F. Dyer took 6 wickets for 18 runs and Jefferson 3 for 19 runs.

NICK ALLEN RESIGNS.

JERSEY CITY, N.J., Aug. 12 (C.P.).—Nick Allen, well-known as a minor league manager and formerly major league player, has resigned as the manager of the Jersey City Club of the International League. Allen could not get the club into the winning class, its percentage being .407 when he gave up the reins.

NEW DRIVING RANGE AT MITE-TEE GREEN

New Feature is Added to Peterborough's First Miniature Golf Course.

Claiming the distinction of being the first to introduce the joys of the miniature golf course to the Peterborough public, Ray Paquette, proprietor of the Mite-Tee Green, inaugurated a new feature last evening, in the form of a driving range.

Mr. Paquette claims that the driving range on his miniature course is unique. It certainly is a feature which could claim considerable attention from the majority of golfing enthusiasts in the city, affording as it does a splendid means of attaining proficiency in long driving without the necessity of tramping after the ball as would be the case on the open links. Furthermore it's convenient location in the heart of the city places it as the disposal of of the busy man, who can only find time at the week-ends to indulge in the golfing pastime.

Seeking for a means to incorporate all the features of golf in his miniature course in addition to mere putting, Mr. Paquette says he toured a large section of the continent in search of new ideas, without any result. "The present driving range is a child of my own imagination", he commented.

Consisting of a large canvas back drop on which is marked from sixty to seventy squares, the driving range somewhat resembles a large target in principle. The players standing at a distance of 120 feet are thus enabled to drive the ball to the target and can readily register their accuracy or otherwise. A large black square in the centre of the canvas is the bull's eye and ability to hit it nine times out of ten, would denote considerable proficiency in the art of driving.

For a moderate fee one may now play on the Mite-Tee Green, making use of all the clubs used in the game including the mashie, driver, putter and midiron.

The course is well lighted and is open each night until twelve o'clock.

The wheel of an automobile, speeding through Scotstoun, Scotland, recently, became detached and knocked down Sarah and Caroline Kinloch, three-year-old twins, Sarah being seriously injured.

W. I. LADIES HEAR TALK ON BLIND

Havelock Members Ask to Aid in Beautifying Hall With Bulbs.

WEEDS DISCUSSED

HAVELOCK, Aug. 12 (Examiner Correspondence)—The regular meeting of Havelock Women's Institute was held in the Council Chamber on Monday, August 4th, at 2.30 p.m.

The president Mrs. C. Hubel occupied the chair and opened the meeting with the Institute Ode and the Lord's Prayer in unison. The roll call was responded to by Household Helps, and some very interesting responses were made. The minutes of the last regular meeting were read and approved.

A number of communications were read. One of these had to do with the short course in sewing which is to be conducted here in the early fall. Miss E. M. Collins is to be instructress.

There was also a communication regarding the Dental Clinic which is contemplated for Havelock. The ladies were asked to give all particulars regarding the accommodation for such a clinic in the school or elsewhere. The secretary was instructed to write the Department and give the information asked for.

A communication from the Department of Agriculture re the destruction of weeds was read. The president asked any of the members knowing of any vacant lot requiring the weeds to be cut, to advise the secretary.

A communication regarding the travelling library as read, but no motion. This was left over for another meeting, as there were so few members out.

A few small accounts were received and on motion they were ordered paid.

The committee appointed to interview Mr. A. Spencer regarding the erection of a lattice at the west side of the hall reported that the fence will be erected as once. The president asked any members who had plants or bulbs to spare to bring them to the next meeting, following the completion of the lattice.

The first Monday in September being Labor Day, it was decided to postpone the regular meeting until the day the village council meets.

The secretary was instructed to write the secretary of the Junior W. I. regarding the sewing class, and ascertain if there are any of the Junior members anxious to take the course. These names are to be forwarded as soon as possible.

Rev. M. A. Pickering Speaks.

Rev. M. A. Pickering who is blind, addressed the meeting on behalf of the Canadian National Institute for the Blind. He explained how easily this affliction can be brought on by carelessness, neglect, or through ignorance, or otherwise. He explained that the Canadian National Institute will furnish first class treatment free to any one so afflicted, who is unable to pay for the same. He told of a magazine which is printed and published by the blind, for those similarly afflicted. This will be sent free of charge to any blind person who applies for it. He also said that blind persons will be supplied with radio sets, at a reduction of 50 per cent through the medium of the Infor Blind. The members expressed the wish that the ladies would undertake the responsibility of a Tag Day to raise funds for the Institute for Blind. The members expressed their willingness to assist in any way possible.

Mrs. Lancaster was present to give a demonstration in bandaging and First Aid. As there were only about twelve members out to the meeting it was decided to postpone the demonstration until a later date. It was felt that the other members who were entertaining holiday guests, would be very sorry to miss the demonstration, and Mrs. Lancaster graciously consented to give it at the next meeting.

There was no programme given outside of the regular business, and the meeting closed with singing of the National Anthem.

HEADACHES

Rheumatism
Neuralgia
Lumbago
Neuritis
—here's *quick* Relief!

YOU can't always stop work and give-in to a headache, but you can always get relief from such suffering! A tablet or two of Aspirin will ease an aching head every time. Perfectly harmless; prescribed by thousands of doctors. An effective antidote for pain, taken by millions of men and women whenever they've a cold, headache; neuralgia or neuritis; rheumatism, lumbago, sore joints, etc. Read the proven directions that come with Aspirin and realize how much suffering these tablets can spare you. Aspirin has medical endorsement. It doesn't depress the heart. You know what you are taking. The box bears the word *genuine* in red.

TRADE MARK REG. BAYER ASPIRIN

EARLY EDUCATION ACROSS DISTRICT

Early Northumberland and Durham Settlers Had Little Chance of Schooling.

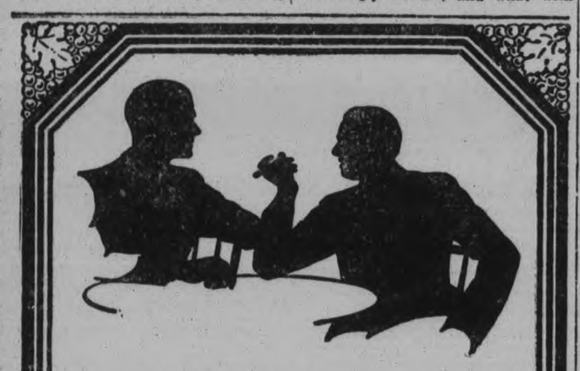
VAST CHANGE TO-DAY

TRENT RIVER, Aug. 12 (Examiner Correspondence).—The majority of early settlers possessed but very limited education. There was always a small number whose education was even excellent, but the great bulk of the early pioneers had not enjoyed opportunities for a common education. The state of society for many years prevented the teaching of youth. The chances for learning had been exceedingly slender, and what with the early struggles for existence and to hew out a home in the forest, there was not the time to acquire an education.

Among many of the old sturdy farmers who themselves had no learning and who had got along without much, if any, and had no books to read, there obtained a belief that it was not only unnecessary, but was likely to have a bad effect upon their sons, disqualifying them for the plain duties of husbandry. If one could read, sign his name and cast interest it was looked upon as sufficient for a farmer. But what a change has time brought about, from the uncertainty of securing an education then to the present school system of to-day!

108 Schools in Durham.

In the county of Durham in 1876 there were about 108 school sections; 62 brick, 1 stone, 1 concrete, 35 frame and two log school houses. The sum paid for teachers' salaries amounted to $35,183. Prizes to the value of $960 were given in connection for public school libraries, and there were two teachers' associations, one for the east and one for the west riding of Durham, and a teachers' library in connection with the former. In Northumberland there were 123 schools, and the figures for salaries, etc., exceeded those for Durham. The general character of the schools, their qualifications and efficiency of the teachers were yearly improving and on the increase.



How the Story of ENO Goes Around the World

By word of mouth—from one man to another . . . by the millions of active, vigorous bodies and bright faces that owe their look of good health to the daily dash of ENO in a glass of water . . .

. . . In this way has the fame of this sparkling, refreshing health drink spread round the world.

Just a few days' trial will convince you, too, that this non-habit-forming laxative will keep you alert in body and keen in mind.

LAKEFIELD W. I. PICNICS

Over 100 Respond to Invitation Extended by Mr. and Mrs. D. Elliott.

LAKEFIELD, August 12 (Examiner Correspondence). — More than one hundred responded to the invitation given by Mr. and Mrs. Isaac Elliott and Miss Emma Elliott to the Woman's Institute of Lakefield and district to a picnic held at their farm in Smith on Thursday afternoon and evening. The ladies brought their husbands and families and made it a real community gathering with the flavor of the old days of real sport, for there was a good time for old and young. Sloping gently donw to the shore of Lake Chemong, it was an ideal place for such a gathering, shade trees were numerous, and the ladies gathered in the shade to visit while the children soon donned bathing suits and were disporting themselves in the lake. Softball and horse shoe pitching gave the men lots of fun and the time passed very pleasantly till the supper call brought a hungry throng, who sat down at tables set in the shade of giant trees, and partook of the feast of good things provided.

The Women's Institute is noted for its generous provision and the excellent quality of its cuisine and the picnic was no exception to the rule. A hearty vote of thanks, augmented by three lusty cheers and singing, told Mr. and Mrs. Elliott and their family that the invitation was appreciated and there was more than one to hope it might be repeated next year as everyone enjoyed it and helped by co-operation to make the day a memorable one.

Mrs. D. W. Blewett, who is 84 years of age, probably was the oldest person present and no one enjoyed it more than this lady, who is so bright and alert that one cannot realize that she had reached the octogenarian group. Who was the youngest present? That is hard to say, but there were many very young people, and their enjoyment goes without saying.

Glorious moonlight made an appropriate ending to an ideal summer day, in which the Institute motto, "In Home and Country," was well exemplified.

TRENT RIVER.

A meeting of the Fish and Game Protective Association will be held Wednesday, August 13, at 8 p.m., at the home of John Ruttan. Business of importance to transact.

Mrs. Luck and family left Saturday for Toronto after spending a few weeks at "Luck's Haven."

Mr. and Mrs. H. E. Robb, of Cleveland, Ohio, are at Luck's Haven for two weeks.

Mr. A. W. C. Goodman, of Toronto, spent the week-end with Mrs. Goodman at their summer home.

Annaghmore, Ireland, has just found that many young men in the vicinity are drawing unemployment benefits for not working during the day, but have night jobs.

LOADED WITH DEADLY GERMS • SPREADING DISEASE • CONTAMINATING ANYTHING TOUCHED

THE FEARFUL 7

Scientists say flies transmit thirty different diseases. Kill them NOW. In a single season a pair of flies can produce over five trillion descendants. Each one carries deadly bacteria, each aflame with burning torment!

FLY-TOX KILLS THEM ALL

Flies, reeking with germs, are the filthiest of the Fearful Seven. They contaminate everything they touch. Don't risk disease from the taint of flies. Kill them. Use pure, stainless FLY-TOX. Developed at Mellon Institute of Industrial Research by Rex Research Fellowship. Refuse substitutes.

FLY-TOX *is manufactured by* Canada Rex Spray Co., Limited, Brighton, Ont.

Two Fine Bass Caught By Two Little Maidens

Two little maids, equipped with improvised fishing lines made of pieces of string, hooks and sinkers, lured two fine small-mouthed black bass to an untimely end on Saturday morning last at Campbelltown, and have entered their trophies in The Examiner Fishing Competition.

To Anne Kay, of 536 Chamberlain Street, goes the credit for the largest of the two fish, which weighs two and a quarter pounds, with a length of sixteen inches and girth eleven inches, while her ten-year-old sister Alice landed a specimen weighing two pounds and measuring seventeen inches with a girth of ten and three-quarter inches.

HOOVER PLANNING DROUGHT RELIEF

Agriculture Department Reports Crop Prospects Drop 7 Per Cent.

RAILWAYS CUT RATES.

WASHINGTON, Aug. 12 (C.P.) — The seriousness of the drought situation in certain areas was emphasized to President Hoover yesterday by a long line of callers, including Chairman Payne of the American Red Cross, while the Department of Agriculture reported that crop prospects had declined almost 7 per cent in July as a result of the protracted dry weather.

Railway executives continued to offer aid through reduced freight rates and Alfred P. Thoms, General Counsel for the Association of Railway Executives, called at the White House to determine the President's plans.

Secretary Hyde conferred with Mr. Hoover late in the day, and went over details for the conference of Governors of twelve States here on Thursday.

KINGSTON COUPLE FIFTY YEARS WED

Rev. W. G. and Mrs. Jordan Celebrate Their Fiftieth Wedding Anniversary.

PROFESSOR EMERITUS

(Special To The Examiner)

KINGSTON, Aug. 12.—Rev. W. G. Jordan, B.A., D.D., and Mrs. Jordan, celebrated in a quiet way their fiftieth wedding anniversary. It took place at the family camp, on Wolfe Island on Saturday and was attended by the children of the venerable couple.

Dr. Jordan is an emeritus professor of Queen's University, a man who has done much in the last generation to breathe a soul into Queen's University. He is now over seventy years of age and was born in the ancient town of Whitby, Yorkshire, England.

Dr. Jordan is one of the most accomplished Hebraists in Canada and scholars say he "had got to the heart of the Old Testament and was able to interpret it in terms of life." His first ministry was at Dudley, Eng., where he became an ardent Liberal—a Gladstonian Liberal, his gift of ready speech made him a valuable asset to the Party. During his English ministry, he was married to the gracious lady, whom generations of Queen's men have learned to love and honour.

At Strathroy, Ont., he began one of the happiest and most fruitful ministries known to the Canadian Presbyterian Church. Later, he was led to accept the office in Queen's University, due to the discernment of Principal Grant. Dr. Jordan has been with Queen's for over 40 years, succeeding Dr. Mowat, the venerable Hebrew Professor.

Dr. Jordan is an eminent writer on Old Testament History, chiefly showing its bearing on present day life. He has lived chiefly in his work but also, is alert on all public questions affecting Canada or the land of his birth. He delights in social functions and is a wise counsellor. Whatever trouble may arise, among Queen's men or women, they instinctively turn to Dr. Jordan for help and in him, they find a gentle and understanding judge. One of the highest places on the roll of "Makers of Queen's" is assigned by thousands of Queen's graduates to Dr. Jordan. They regard him as one of the genuine thinkers associated with the College.

TORONTO MAN HURT IN CRASH

Automobile Runs Into Ditch When Driver Goes to Sleep.

IN LINDSAY HOSPITAL

LINDSAY, Ont., August 12 (Examiner Correspondence). — George Arbuckle, of Toronto, is resting in the Ross Memorial Hospital with a severe body bruising after going to sleep at the wheel of his car, in which he was driving from Toronto to his summer home at Coboconk, and running into the ditch on the south side of the road about half a mile outside of Oakwood around 6.15 on Sunday morning. The car, an expensive eight-cylinder sedan, was almost a complete wreck, and was towed to Oakwood Garage. Mr. Arbuckle was knocked unconscious. Dr. M. F. White, of town, sent the ambulance out and brought the injured man to the hospital.

RE-INFORCEMENTS MOVED INTO THE PESHAWAR AREA

BOMBAY, India, August 12 (C.P.) —Strong reinforcements were sent to-day to the Peshawar area to be used if necessary to combat Afridi tribesmen who have been engaged in an attack on that city.

An armored train, fully manned by troops, left this morning for Rawal Pindi, a Punjab stronghold 90 miles south-east of Peshawar, from where they may be moved up immediately toward Pershawar.

CANADIAN LEGION B.E.S.L. Peterborough Branch

Flower Show at Canadian Legion Hall.

All members of the Canadian Legion, and returned men of the city are asked to kindly attend the Flower Show and Carnival to be held at the Canadian Hall, August 14th, 15th and 16th, under the auspices of the Canadian Legion branch and city and Canadian General Horticultural Societies. We ask the co-operation also of the citizens of Peterborough to make this a huge success. There will also be all the fun of the fair at the carnival, plenty of amusement for everybody. Tickets on sale now, they may also be had at the door, so reserve the dates and help make this a yearly event.

"FLOWERS"

How the Universal heart of man blesses flowers.

They are wreathed round the Cradle and the Marriage Altar and the Tomb.

The Natives of the far East delight in their Perfume and write their love in Nosegays;

The Indian Child of the far West claps his hands with glee as he gathers the abundant blossoms—The illuminated Scripture of the Prairies;

Flowers garland the Grecian Altar, and hand in wreath before the Christian Shrine.

All these are appropriate uses. They festoon the Altar, for their Fragrance and their Beauty ascend in perpetual worship before our Great Master.

J. Abraham, President Branch 52.

THE CAMP AT GILWELL.

News has reached the city from the representative of Peterborough Scouts in the person of S. M. Garfield Johnson, of St. John's Troop, at Ebor Park, near Brantford (Gilwell Camp, named in honor of the great English grounds of that title). It will be recalled by Scouts that Gilwell Park, near Birkenhead, was the scene of the great jamboree held last year, when 50,000 Scouts met to do honor to Chief Scout R. S. S. Baden Powell.

At the Camp.

At Ebor Park are assembled 20 Scoutmasters for a special course of training to better fit them for their positions as Scoutmasters, which tuition will in time be inculcated into the minds of the young Scouts under their charge.

They had swung into the life of the camp from the outset on Thursday last, amid ideal surroundings, and in perfect weather, a trifle warm, mayhap.

Chief Frank C. Irwin, whom most of the Scouts remember as an enthusiast of high rank, who was in the city at the recent jamboree, May 24, had the camp under way on Tuesday for their first rally at 2.15 p.m., when nearly all the class assembled from homes in various parts of the province. A tour of the grounds was held to let the Scouts "know the ropes," as it were, which was followed by 'school" to have their duties explained by the Camp Chief, and what would be expected during the two weeks at Ebor Park.

Everything Ship-shape.

Gathering the tents and equipment the patrols were soon busy erecting their homes and making them presentable. The adage, "Everything in its place and a place for everything," is evidently foremost in the minds of the lads of each unit, as inspection on Wednesday morning found a wonderful revelation in the spic-and-span appearance of the "homes" erected. The clean-up of the camp and the number of new camp gadgets which make their debut each day causes one to wonder what would happen if the camp was continued for one month.

Win Inspection Flag.

The White-Throated Sparrows started the camp off right by winning the daily competition flag at the first inspection on Wednesday morning. There is bound to be keen competition, and the Sparorws will have to be "on their toes" to hold the flag. Incidentally, it might be mentioned S. M. Johnson is one of the White-Throated Sparrows.

It will be of interest to note that at the opening of the Council Fire of Ebor Park Gilwell Camp on Tuesday Herbert Greenaway presented to Chief F. C. Irwin a replica of the Koodu Horn, used by Chief Scout Lord R. S. S. Baden Powell at the first Scout camp held at Brownsea Island in 1908. Mr. Greenaway presented the horn on behalf of the Dominion Camp Chief for the use of Ebor Park.

Norman H. Saunders, who also was a visitor to Peterborough Jamboree on May 24, is assistant to Camp Chief Frank C. Irwin at Ebor Park Scout Leaders' Training Camp.

Forty Lone Scouts are in session at Ebor Park. They have the privilege of a newspaper of daily issue, "The Lonesome Pine," with caustic comments anent each and every Lonie in the compound.

9 Bombs Dropped On Mine Property

PROVIDENCE, Ky., August 12 (C.P.). — A series of disorders in the Webster County coalfields culminated yesterday in the bombing of mine properties from an airplane. Nine bombs were dropped from an orange colored plane, believed to have carried two men, which flew over the town this morning as miners were going to work. Four bombs failed to explode. The five that did explode injured no one and damaged no property, but tore large holes in the ground. The bomber was described as a monoplane.

SECOND ATTEMPT ENDS IN FAILURE

Carter Brothers Forced to Abandon Endurance Attempt After 22 Hours on Water.

The second attempt of the Carter brothers to break the world's outboard motorboat endurance record of 239 hours at South Beach, Clear Lake, ended in failure this morning at 9.45 o'clock due to spark plug trouble, 21½ hours having been completed since the start made at 12.15 o'clock yesterday noon. A new start will be made this afternoon.

"We're going to set a record if we have to stay until the lake freezes over," D'Arcy Carter, who is supervising the attempt, claimed this morning. He said that Joe and Bob Carter, who are driving the endurance boat, have stood the strain well, and will be prepared to go on. They drive for alternate periods of six hours, each sleeping in the boat when off duty.

Refuelling operations were carried out successfully by D'Arcy Carter and Claire Brooks, who used another fast boat. Two auxiliary tanks holding ten gallons each are built into the endurance boat and gasoline is strained through special filters. Otherwise the outfit, motor and boat, is stock.

The first attempt at a record, begun on Saturday night, ended twelve hours later when the motor shaft broke.

ENGLISH JURISTS ARRIVAL IS DELAYED BY STORMS

QUEBEC, Que., August 12 (C.P.). —The arrival of the party of English jurists, which includes Sir John Simon and many other famous lawyers, has been delayed by bad weather encountered by the liner Duchess of Atholl. The party was due to reach here early to-morrow morning, but is now expected at 9 o'clock to-morrow night.

The party is on its way to the meeting of the Canadian Bar Association, which opens at Toronto on Friday.

ONTARIO HARVEST ABOUT COMPLETE

Wheat Harvest in Parts Averages 40-50 Bushels to Acre, Oats 70.

CORN AT STANDSTILL.

TORONTO, Ont., Aug. 12.—Fall wheat, barley and oats have been harvested complete almost, according to the weekly crop report of the Ontario Department of Agriculture, issued to-day. The yield has been exceptionally good generally, in some parts reaching 40 to 50 bushels to the acre for wheat, and as high as 70 for oats.

Corn and root crops are practically at a standstill, the report says, with the outlook for those crops far from promising owing to the prolonged drought and it is feared rain coming now will be too late to counteract the effects of the heat wave.

Pessimism has also been caused by the long dry spell among the fruit growers of Ontario particularly as the heavy crop of fruit, especially plums and peaches, will be small unless rain comes soon, grapes are also in need of rain.

Supplies of milk are showing considerable decline with the quality deteriorating in some sections of the province owing to poor pasturage. Some farmers are feeding their cattle practically on the same basis as winter feeding owing to the disastrous effects of the heat and lack of moisture in their pasturage.

SALESMEN WANTED

Well known Firm of Dominion-wide reputation in footwear of exacting Dealer Representation qualified to sell a range of heavy Manufacturing including Washing Machines, Cream Separators, Radios, Electric Irons, Electrical Appliances and other household needs. TARZAN OF THE APES No. 34 (Metropolitan Newspaper Feature Service, Inc.) By Edgar Rice Burroughs

Meanwhile, the cowardly crew of the "Arrow" pulled rapidly for the ship. Tarzan watched. The most wonderful sight of all to him was the face of the beautiful white girl. Here at last was one of his own kind. He decided to follow the young Clayton and learn his errand.

Presently Tarzan came up with him. Clayton was lost. At intervals he called aloud. Tarzan decided he was searching for the old man. Suddenly Tarzan caught the yellow glint of a sleek hide moving cautiously toward the unsuspecting young man. It was Sheeta, the leopard, crouching for the spring!

And then, shrill and horrible, there rose upon the jungle stillness the awful cry of the challenging ape. Sheeta hesitated, and turned, crashing into the underbrush. Clayton's blood ran cold—he felt the icy fingers of fear upon his heart. Never had so fearful a sound smote upon his ears.

Clayton could not know that to that very voice he owned his life nor was the creature who hurled it forth was his own cousin—the real Lord Greystoke. He started stumbling back to where he thought the cabin lay. Darkness was quickly setting in. Heavens!—to die here alone!

Presently he heard a faint sound. Then he saw it! The lithe body of a huge lion. Agonized he watched—powerless to fly. Came a noise above him, an arrow hit the beast, who sprang in pain and terror. Then a naked giant dropped from the tree above—squarely on the brute's back!

Camp Inglestane.

"Is there room for one more?" has been a popular question asked regarding Camp. The first of August saw the sad departure of Miss Marion Walker, director, and Miss E. Wilde, councillor, and Miss E. Kennedy and Miss S. Shearsmith taking over the reins of directorship and councillor.

The many activities such as stunt parties, treasure hunts, bonfires, kids' party, nature study, bonfires, singsongs, swimming, rowing and trips at Juniper Island and McCracken's Landing. Several of the girl were entrants in the events, bringing trophies back to Camp. Miss R. Sutton winning the swimming prize, and Miss G. Sorby coming third in the same race, while Misses V. Davidson and G. Sorby brought the second in ladies' tandem canoe race.

A week ago Tuesday, Camp had a most enjoyable trip to Gilchrist Bay where a jolly bonfire was made and the wilde around White Lake explored. Friday several campers made the trip to Bobcaygeon on steamer Stoney Lake. The weather was not the best to enjoy the trip, but a merry group will enjoy a trip, rain or shine.

THREE YOUTHS GIVEN 3 YEARS FOR HOLD-UP

TORONTO, Ont., August 12 (C.P.) —Roy Judges, 16, John Baersley, and Fred Shepherd, slightly older, were sentenced to two years less one day plus one year indeterminate in the Ontario reformatory by a police magistrate here yesterday after the trio had been convicted of holding up a restaurant proprietor at the point of a gun and taking the contents of the till. Police were commended for capturing the men within an hour of the robbery.

Thursday, Aug. 14. Supply your own containers. 3d-38-2548

THISBE FORCED OUT OF RACE

Quest Will Be Named To-day's Winner if Course Made in Time Limit.

21 MILE TRACK

ROCHESTER, Aug. 12 (C.P.). — Thisbe, victor of the first race for the Canada's Cup, was forced out of competition to-day soon after the start of the second brush with the Quest, the Canadian challenger, when the main spreader broke on the defender.

Three minutes after she had trailed the Quest over the starting line by forty yards, Thisbe's main spreader gave way, throwing a terrific strain on the fifty-six-foot mast. It took careful manoeuvering on the part of Skipper William P. Barrows to keep her from losing the stick.

Barrows' crew quickly hauled down the main sheet and jib, and a coastguard cutter stood by to tow her into the Rochester Yacht Club basin.

Quest, at the command of the judges, continued her solo sail around the triangular course, each leg of which is three and a half miles. This course must be covered twice, and the Canadian challenger will win to-day's race if she covers the 21 miles over the designated course within the five and a half-hour time limit.

The start was made at noon (D.S.T.) in a twelve-mile breeze that kicked up a rough, choppy sea.

Barrows announced that repairs would be started immediately, and that he was confident the Thisbe would be ready for the third of the cup series to-morrow.

REDUCTION NOTICED IN ONTARIO SEED CROPS

OTTAWA, Ont., August 12 (C.P.). —A considerable reduction in the seed crop of alsike and red clover, with an increased area of alfalfa being held for seed, is forecast for 1930 by the Seed Branch of the Dominion Department of Agriculture.

Ontario production of red clover seed is expected not to exceed 75 per cent. of normal largely on account of fairly extensive winter killing.

An increased acreage of alfalfa is being held for seed, particularly throughout Ontario. There was practically no carryover of alfalfa seed, and owing to the extent to which this year's crop was winter killed, it is expected there will be a good demand for alfalfa seed during the coming season.

BEATTY COMMISSION CONTINUES

OTTAWA, Ont., Aug. 11 (C.P.) — The Beatty Commission appointed to investigate the salaries of technical and professional civil servants, has been asked to continue its work and make a survey of other branches of the service. The request for the Commission to proceed further with its survey was made by Premier R. B. Bennett, who announced last evening the action he had taken.

400 Day Clocks

We have just received another shipment of 400 Day Clocks.

These Clocks will run for 400 days with only one winding.

A very fine appearance, lacquered brass movements with highly polished steel pinions and glass dust-proof covers. These clocks give good satisfaction and keep good time.

JOSEPH JACKSON BAILED FOR TRIAL

Bail on Criminal Negligence Charge is Set at $4,000.

MONTH FOR RECEIVING.

Pleading guilty to an intoxication charge, Edward King was fined $50 and costs in Police Court this morning. It was his second offence of the same nature. George Hamilton, a local young man, already on suspended sentence for theft, was given one month in jail for receiving stolen goods, which were taken from a warehouse of H. J. Boyle. On a charge of breaking and entering and theft in the same case, a 17-year-old lad was allowed to go on suspended sentence, having pleaded guilty when first brought up.

Following a preliminary hearing of the case of Joseph Jackson, charged with criminal negligence in connection with the accident last Wednesday on the highway near Monaghan Road, Jackson was bailed for trial. Bail was again set at $4,000.

In the hearing, Traffic Officer Hornick was called and testified regarding the positions of the cars after the accident, and stated that, according to marks on the road, Jackson had applied the brakes of his car for 93 feet before the crash. The marks indicated that Jackson's car was on the wrong side of the road throughout the course of the 93 feet.

In the accident, Victor Miccoli sustained injuries that necessitated his removal to the hospital.

Having liquor in a truck on the Port Hope highway on July 30 cost Walter Gillespie $100 and costs, with the option of three months in jail.

Pleading guilty to the charge of stealing a canoe, an immigrant boy, 17 years of age, was put on probation, sentence suspended.

WEDDING BELLS

HANNA—CLEMENS.

CAMPBELLFORD, August 12. — The wedding of Geraldine, daughter of Mr. A. W. Clemens and the late Mrs. A. W. Clemens, of Tyrone, to Oliver S. Hanna, Toronto, son of the late Mr. and Mrs. Thomas Hanna, of Albion, took place on Saturday afternoon at St. Andrew's Presbyterian Church, Campbellford. The bride's attendants were Miss Margaret Hanna and Miss Edythe Clemens. Mr. Jack Hanna was best man and Mr. Dickson Dawson and Mr. Frank Raymant ushers. Rev. Dr. W. J. Mark officiated. Mr. Collison played the wedding music, and during the signing of the register Mrs. (Dr.) Fred Free sang. Following the ceremony, a reception was held at the home of the bride's grandparents, Mr. and Mrs. Charles Dawson, Campbellford. Among the out-of-town guests were: Mr. and Mrs. Fred Knox and Miss Dorothy Knox, Mr. Alexander McGregor, Mr. and Mrs. A. W. Clemens, Mr. and Mrs. H. D. Clemens and Mr. Irving Clemens, Bowmanville; Miss Elsie Ross, Mr. Earl Anderson, Mr. Frank Raymant, Oshawa, Mr. and Mrs. Kenneth Heard, and Master Douglas Heard, Dr. and Mrs. Angus McKay, Master Ross McKay and Miss Betty Anne McKay, Miss Margaret Hanna, Miss M. Hanna, Mr. and Mrs. W. A. Hanna, Mr. Bruce Hanna, Miss Virginia Hanna, Mr. Jack Hanna, Mr. and Mrs. Rae Phillips, Miss Vi McKelvyez, Mr. and Mrs. Harry Kennedy, Miss Evelyn Cudmore, Mrs. W. R. Clemens, Mr. Bruce Honeywell, Miss Edythe Clemens, Toronto; Mr. and Mrs. Hyme Ryerson, Brantford; Mr. and Mrs. P. Dawson, Vancouver; Mr. and Mrs. George Dawson, Montreal; Mr. and Mrs. C. N. Dawson, Windsor; Mr. and Mrs. William Burgess, Norwood; Dr. and Mrs. Fred Free, Miss Eleanor Ferris, Miss Eleanor Dawson, Mr. Dickson Dawson, Campbellford.

BORN

BROWN.—To Mr. and Mrs. Maxwell Brown, Norwood, at Nicholls Hospital, on Monday, August 11th, a son.

HUGGINS.—At Dr. Turner's private hospital, Millbrook, on Saturday, Aug. 9th, to Mr. and Mrs. Karl Huggins (nee Emma Tate), South Monaghan, a son.

MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

FIRE AT C.P.C.

Very slight damage was caused by a fire which broke out on the roof of the Canadian Packing Company's plant here at 8.3? this morning. The City Fire Department dealt with the outbreak speedily and efficiently and were assisted by the factory employees who commissioned a short line of hose, part of the company's fire-fighting equipment.

UP-TO-THE-MINUTE

His was an aesthetic figure. He might have been thought to have been a lady, such is the versatility of modern wearing apparel. But a virile countenance belied the impression received from the rear. He wore brown plus fours that belied generously about his knees, with brown brogues and cream hose. His silk knit jersey was light cream, with a soft white collar and yellow tie. His jaunty beret was of navy blde and a crowning touch was a pair of short brown gloves. He was "le dernier cri" as our French cousins would phrase it, when it came to up-to-the-minute clothes for masculine tourists.

COMPLETE THEORY COURSE.

District Orders recently issued from M.D. 3, Kingston, intimate that Lt.-Colonel M. H. Park, V.D., and Major G. G. Winterbottom, M.C., D.C.M., of the Peterborough Rangers Regiment, have completed qualificat'on in the theoretical portion of the Mil t'a Staff Course.

THEFTS FROM BOATS

Numerous complaints have reached the local officers of the Provincial Police recently, respecting promiscuous thefts which are becoming sadly frequent from boats tied up on the banks of the Otonabee River.

"This has to stop," said Provincial Police Constable Harry Thompson in asking The Examiner to issue a warning through its columns that such cases will be prosecuted to the utmost extent of the law.

Constable Thompson added that on occasions even boats have been stolen besides paddles, oars and cushions which are often found broken-up and abandoned at various points along the river.

FAMOUS BRITISH

(Continued from Page 1)

ed praise on Smith-Dorrien, giving him credit for saving the whole British Army in Belgium, and in his Operations Report drawing attention to the valuable services rendered by him. But when French and Smith-Dorrien had been withdrawn to England, the former to assume command of the Home Forces, and the latter to take over the direction of the campaign in East Africa, the extent of their disagreement became manifest, and an open breach followed which continued right up to the end of their lives, and to some extent beclouded the glories to which each was unreservedly entitled.

Le Cateau was fought three weeks after the declaration of war on Germany. Sir John French was Field Marshal commanding the British Expeditionary Force which comprised two Corps, the I. and II, and a division of cavalry, Sir Horace Smith-Dorrien was in leadership of the II corps which embraced two divisions of infantry and artillery.

The retirement of the whole British Army from the vicinity of Mons had commenced on the evening of Aug. 23, 1914, and had continued in a southerly direction for two days. The night of Aug. 25 found the British in the neighborhood of the Mormal Forest, and the Field Marshal deliberating whether to order a continuation of the retreat for the next day or attempt to check the advancing Germans on the line LeCateau—Cambrai. He decided on the former and his orders were issued to that effect. First Corps, commanded by Sir Douglas Haig, who later succeeded French as Commander-in-Chief, complied with the instructions, but the II Corps, upon whom the brunt of the fighting had fallen, were not, in the opinion of Smith-Dorrien, fit to continue the withdrawal. It was shortly after midnight on the night of Aug. 25-26 that Sir Horace Smith-Dorrien decided to ignore the instructions. Many of his troops had just come in after more than 20 hours of fighting and marching, the enemy were in close pursuit and in contact with him, and he felt it to be entirely out of the question to proceed at dawn with the retreat. He issued orders to fight on the Le Cateau—Cambrai line.

The Germans under General von Kluck attacked shortly after daybreak. Some confused fighting ensued over the whole length of the line, but this was preliminary only to the terrific bombardment which later in the day the enemy developed upon the British. The engagement continued throughout the forenoon with the Germans held everywhere in check, but the superiority in numbers enjoyed by von Kluck brought about an encircling movement which Smith-Dorrien had to avoid.

Sir John French in his Report of Sept. 10, 1914, deals with this phase of the battle as follows:

"Finally it became apparent that if complete annihilation was to be avoided a retirement must be attempted and an order was given to commence it at 3.30 o'clock in the afternoon. The movement was covered with the most devoted intrepidity and determination by the artillery, which had suffered heavily, and the fine work of the cavalry assisted materially in the completion of this most difficult and dangerous operation. Fortunately the enemy had suffered too heavily to engage in energetic pursuit."

The Germans failed utterly to exploit what was actualy a great success and II Corps escaped safely by swift marches across the Somme.

Of Sir Horace Smith-Dorrien's actions in this engagement, Sir John French said:

"I cannot close my brief account of this glorious stand of the British without recording deep appreciation of the valuable services rendered by Sir Horace Smith-Dorrien.

"I say without hesitation that the saving of the left wing of the army under my command on the morning of the 26th could never have been accomplished unless a commander of rare and unusual coolness, intrepidity and determination had been present to personally conduct operations".

With Kitchener

Still fresh in the memory of the present generation, the famous "Fashoda Incident" of 1898 was one in which Smith-Dorrien also figured, but this time as an officer extremely junior to Kitchener, at that time Sirdar of the Egyptian Army.

The Fashoda Incident brought Great Britain and France into strong disagreement and produced a tension between these two countries that threatened for a time to break into an open rupture. As it was, the bad blood engendered was not clarified until years later when, through the efforts of that great diplomat, King Edward VII, the "Entente Cordiale" dissipated the misunderstanding.

Smith-Dorrien was one of the leaders of the detachment that was despatched up the White Nile under Lord Kitchener to Fashoda, a native village about 600 miles south of Khartoum and near the border of Abyssinia. The event followed close on the heels of the Battle of Omdurman, which had taken place on Sept. 2 of that year (1898) and enroute the British detachment had to suppress numerous small bodies of dervishes. At Fashoda Commandant Marchand of the French Army had planted the tri-color on July 10 and he was busily engaged in extending France's Sahara empire to the eastward. At the same time with his small force of 120 Senegalese troops he was kept occupied in warding off threatened annihilation by the followers of the Khalifa. The arrival of Kitchener's troops undoubtedly saved the French force from extinction.

In his "Memoirs" published in 1925, Smith-Dorrien discusses the delicacy of the situation, and he throws a strong light on the methods employed by Kitchener to meet it.

"He (Kitchener) had prepared for all eventualities which might occur," says Smith-Dorrien, "and told me how he wished me to act. He was most emphatic in impressing on me that I would get no further instructions, but must myself watch, form my own conclusions, and act."

It was on Sept. 14 when the five gunboats conveying Kitchener's troops anchored off Fashoda. The British found Marchand strongly entrenched, bu fortunately there was no need for action. Marchand yielded to "force majeure" and after much deliberation in which it was decided to let the home administrations unravel the tangle, he withdrew, leaving Fashoda, Dec. 11, via Abyssinia.

Smith-Dorrien's whole career was full of color. His early years in the army were spent in the days when the Empire was little better than a "far-flung battle line", when Grent Britain found the "White Man's Burden" weighing heavily on the nation's shoulders, particularly when that burden was interpreted in terms of lives and money. Innumerable frontier wars were the Empire's daily portion, conflicts in India, Egypt, the Ashanti and Zululand. This was the period into which Smith-Dorrien was born and which gave him his introduction to warfare. There were no artillery, aeroplanes, tanks, gas, or wireless communications at Isandhlwana during the Zulu war of 1879. And it was there that he received his "batteme de feu," if the value of the term can be widened to include assegais, bull-hide shields and knobkerries. He was a subaltern officer in the 2nd Battalion Sherwood Foresters at Isandhlwana on Jan. 22 of that year, and he just escaped the massacre by hanging on to the tail of a horse and being towed across the Buffalo River, which at that point was in high flood and 240 feet wide. History recalls that it was at Isandhlwana that Lieutenants Melville and Coghill were slain while attempting to save the colors of the 24th Regiment, while the Prince Imperial was also a victim of the massacre. Smith-Dorrien later took part in the defence of Rorke's Drift with Lord Chelmsford's forces.

In the Dervish uprising a few years later he again experienced the thrills of unconventional warfare under Sir Evelyn Wood. It was he who organized a detachment of Mounted Infantry to combat the "Fuzzies", and he was commended highly for his reconnaissance work prior to the battle of Tel-el-Kebir.

Awarded D. S. O.

He took part in the later operations at Suakim and was awarded the Distinguished Service Order for his share in the attack at Ginniss. Smith-Dorrien was then operating with the Frontier Force under the command of Sir Frederick Stephenson, and the action at Ginniss was undertaken against the forces of Mohammed el Keir, the dervish emir of Dongola, a follower of the Mahdi. Stephenson's troops attached the enemy at Ginniss on December 30, 1885, and completely defeated them, capturing two guns and 20 banners. "The Stout Man of Ginniss" was how General Butler, Smith-Dorrien's immediate commander, referred to him after Lord Wolseley, who was in command of the entire operations, had requested him to convey to "Major Smith-Dorrien the expression of his satisfaction at the able and successful manner in which orders have been carried out." Ginniss was the most thorough piece of work that the Egyptian troops of Great Britain put through before Lord Kitchener took command, and it was Smith-Dorrien's handling of his Mounted Infantry in pursuit of the enemy that brought Wolseley's commendation.

Smith-Dorrien's next active service was on the north-west frontier of India, during the campaign of 1897, in the Tirah and the Chitral. This was an expedition under Sir William Lockhart, undertaken to subdue the rebellious Afridis and Mohmands of the Kyber Pass. At year later he was again in Egypt at the head of the 13th Sudanese Battalion in operation against the Khalifa. His work at Omdurman and the Nile Expedition which followed brought him a brevet-colonelcy.

During the South African War of 1899-1902, Smith-Dorrien was one of the few senior officers who was able to emerge with an enhanced reputation. As Brigadier-General he led his troops in masterly fashion, and his brigade played a conspicuous part following Magersfontein, in the rounding up of Cronje at Paardeberg. He here commanded the Canadian contingent, and ever after a warm relationship existed between him and his men from the Dominion. He was later promoted to the rank of Major-General, and given command of the 10th Division.

Commanded 2nd Corps.

Apart from a brief period he spent in India as Adjutant-General, his later service prior to the European War was performed in England. At the outbreak of the conflict in France and Belgium he succeeded Sir James Grierson, who died in August, 1914, in command of the II. Corps, later being promoted to the command of the Second Army. His work in the early part of the war was expressive of great energy and a bright optimism. To Canadians he is again recalled by the address he delivered to the 1st Canadian Division prior to the Battle of Neuve Chapelle, wherein he predicted that the war would not undergo another winter campaign. This was in March, 1915. His prediction was wrong, but his optimism was a valuable asset.

In December, 1915, Smith-Dorrien was appointed to the supreme command of the army in German East Africa, but this he held for only a short period, being succeeded by General Jan Christian Smuts.

His military career ended in 1923 when he entered into retirement after 47 years' service.

Horace Lockwood Smith-Dorrien was born in 1858, the 11th of 15 children of the late Colonel R. A. Smith-Dorrien. He was educated at Harrow and Sandhurst, and obtained his commission in the 95th Regiment of Foot (2nd Battalion Sherwood Foresters) in 1877.

He was a man who had had many honors conferred on him. He was mentioned in Lord Chelmsford's despatches for his conduct in the Zulu War of 1879, and had the Medal and Khedive's Star for the Egyptian War of 1882, in addition to the clasp for the Sudan Campaign of 1886. For his work with the Sudan Frontier Force he was awarded the D.S.O., was mentioned in despatches and awarded the Order of the Medjidie (Fourth Class), and the Fourth Class Osmanieh. Promoted Brevet-Lieut.-Colonel in the Tirah, he was made Brevet-Colonel for his share in the Nile Expedition. In the South African War he had the Queen's Medal with five clasps, and was promoted Major-General. In 1904 he was made Knight-Commander of the Bath, and in 1912 was awarded the Grand Cross of the same Order.

TWO BARNS BURNED.

STRATFORD, Ont., Aug. 12.—(C. P.)—Fanned by a strong wind, fire believed to have started from a threshing machine destroyed large barns on the farms of Charles Keller and John Rose with most of this year's crop at North East Hope today. The fire started on the farm of Rose and spread to the adjoining property. Damage is estimated at $30,000.

FLOWER SHOW WILL BE HELD THIS WEEK

Prizes For Lucky Numbers on Exhibit at Grant and Thorpe's Store.

The Canadian General Electric Co. Horticultural Society, which is holding its first Annual Exhibition in the Canadian Legion Hall on Thursday, Friday and Saturday of this week, has done good work this year in urging the cultivation of flowers throughout the city and the bloom on exhibition at their show will give evidence of some of the results.

The public will no doubt appreciate these efforts by a large attendance at the show, the admission is only 25c and these is a fine selection of prizes for lucky tickets each evening. The proceeds are to go to the winter fund of the Canadian Legion, which makes the show all the more desirable to attend.

PUBLIC OWNERSHIP OF RAILROADS

UNIVERSITY, Va., Aug. 12. (C.P.) A new national economic program, involving government ownership of railroads, pipe lines and coal mines, was advanced to-day as a compelling trend of the times by Oswald Garrison Villard, editor of the Nation, in an address at the Institute of Public Affairs.

In his recommendation, he asked attention to the Inland Water Corporation, "an agency of the War Department" which he said to-day is paying a profit of $125,000 annually into the national treasury.

VOL. LXV., No. 36 — PETERBOROUGH, ONTARIO, CANADA, WEDNESDAY, AUGUST 13, 1930 — PRICE THREE CENTS

YOUNG IMMIGRANT IS FEARED MURDERED

Farm Hand's Body Is Found In Lake South Of Tweed

George White, 23 Year Old Scottish Immigrant, is Found in Stoco Lake, Near Tweed, With Head and Face Badly Battered.

RAILWAY SECTION MAN WALKING ALONG TRACK NOTICED BODY THIS MORNING AND GAVE ALARM

Young Man Has Been Employed For Past Three Years on Various Farms in Vicinity— Dressed in Good Clothes Left Farm of John Countryman on Sunday.

TWEED, August 13 (Special to The Examiner). — With the head and face battered almost beyond recognition, the body of George White, 23-year-old Scottish immigrant farm hand, was found at nine o'clock this morning in the waters of Stoco Lake, one mile south of Tweed. The condition of the body pointed to foul play.

The youth had either been thrown or had fallen from the West Branch Bridge of the C.N.R., which crosses the lake near the spot where the body was found, according to the opinion of the authorities. A railway section man walking along the tracks spied the body this morning, and raised the alarm.

The young man has been employed for the past three years on various farms in the vicinity. On Sunday morning he put on his best clothes and left the farm of John Countryman, where he has worked for some time, declaring that he was "just going out."

He was not seen again until the body was found this morning. Dr. Mathes, the coroner, believed that the young man had been dead since Sunday.

The Provincial Police are at present working on the case. A preliminary inquest has been ordered by the coroner to be held in Tweed to-night.

CHICKEN THIEVES LOOT BEETON PEN

Proprietress Wielding Revolver Loses Out in Chase After Truck.

HEN HOUSE BURNED.

BEETON, Ont., Aug. 13. —(CP)— Two thieves escaped today with 700 pedigreed Wyandotte pullets from the farm of Mrs. K. M. Aitken, although pursued with rifle fire by the proprietress. The marauders also set fire to the hen-house which was completely destroyed.

Mrs. Aitken who was alone in her house awoke to hear the robbers at work early in the morning, when she discovered their truck loaded with poultry she fired with her revolver but the thieves' truck proved too fast for the one in which Mrs. Aitken took up the chase.

Mrs. Aitken is internationally known as a chicken raiser.

WAR RUMORS UNFOUNDED

ANGORA, Turkey, Aug. 13 (C.P.)— The Anatolie Agency to-day says that reports of tension between the Turkish and Persian Governments are without foundation. The agency declares the relations between the two Governments are friendly.

Friction between the Turks and Persians over incursions by Kurdish tribesmen into the Ararat region, crossing Persian territory to reach Turkey had been rumored.

FAMOUS BRITISH LAWYERS ARRIVE FOR BAR SESSION

Sir John Simon Expresses Pleasure at Renewing Contact With Canada.

300 DELEGATES.

Attend Convocation of McGill University For Conferring Honorary Degrees.

QUEBEC, Que., Aug. 13. (C.P.)— Sincere satisfaction at renewing contact with Canada, after an interval of nine years, was voiced this morning, on the arrival of the Canadian Pacific liner "Duchess of Atholl by Sir John Simon G.C.S.I., K.C.V.O., O.B.E., K.C., M.P., famous British lawyer and politician, and preminently in the public eye at present as the Chairman of the Indian Statutory Commission whose unanimous report on conditions in India and recommendations for their betterment, was recently presented to the Imperial Government.

Sir John Well Known

Sir John, who is specially well known to Canadians through many appearances before the Privy Council, is an outstanding figure in the British delegation to the convention of the Canadian Bar Association, in Toronto on Aug. 14 and 16, and the American Bar convention in Chicago later in the month.

Delegates numbering some 300 arrived on the "Duchess of Atholl"— from Britain, the Irish Free State and France.

The Canadian Bar Association greeted its guests at Father Point, by means of a delegation consisting of Louis St. Laurent, K.C., of Quebec, Dominion Vice-President, acting in the unavoidable absence of the President, Hon. R. B. Bennett, E. H. Coleman, K.C., of Winnipeg Secretary Treasurer and G. L. Couseley, also of Winnipeg, Assistant Secretary E. K. William, K.C., also of Winnipeg, accompanied the party across the Atlantic.

The guests of the Canadian and American Bar Associations, many of whom are accompanied by their

FIRE RAGES UNCHECKED ACROSS QUEBEC HAMLET

Fifty Homes, Half Dozen Business Houses and Church Already Razed as Disastrous Blaze Spreads From Start in Pool Room—Aid Rushed in Vain From Ottawa and Neighboring Towns.

MASSON, Que., Aug. 13 (C.P.) — Approximately 50 houses and a half dozen business and other structures had been laid waste by fire at 2 o'clock here this afternoon. Despite the efforts of fire forces rushed from other cities and towns, and the assistance of every able-bodied man in the district, the flames had not been brought under control at that hour. More than half the village, comprised largely of frame structures, had been laid waste three and one-half hours after the blaze was discovered.

No loss of life or human injury has been reported.

As there is no water service in the village or no fire pump the residents had little success in fighting the roaring flames driven on by the fresh wind.

The situation was somewhat ameliorated by the presence of trucks from the fire departments of Ottawa, Buckingham and Hull. Their pumps drew water from the Lievre River by means of several thousand feet of hose, and steady streams of water were poured on the burning buildings.

The first first originated in the store of Hector Larose, who operates a grocery business and pool room. Of unknown origin, the flames rapidly swept to the sky and, helped by the wind, were carried to neighboring buildings and also to those located on the other side of the road.

The Roman Catholic Church was the fourth building in the village falling victim of the fire. C. Daoust, head of the Masson Fire Brigade, realized the danger of the situation upon arriving on the scene and his first steps were to call in additional assistance from neighboring settle-

SOVIET REGIME THREATENS CHINA

Expectant Babe Revives Ancient Custom

DUKE & DUCHESS of YORK. KING GEORGE V

While the Royal family awaits word from Glamis Castle as to the arrival of a new brother or sister to Princess Elizabeth, Rt. Hon. J. R. Clynes, Secretary of State for Home Affairs, is in attendance at the Castle ready to attest the birth as required by an old custom. If a boy, the child will be third in line of succession to the throne, the Prince of Wales and Duke of York standing first and second respectively.

GANDHI PARLEYS WITH HIS CHIEFS IN YERODA PRISON

Mrs. Naidu, Noted Woman Leader, Attends Deliberations.

SESSION REGARDED VITAL.

Discuss Possibility of Ending Campaign Before London Conference.

POONA, India, Aug. 13. (A.P.)— The most prominent leaders in the civil disobedience movement in India met in Yeroda jail to-day and discussed with Mahatma Gandhi the possibilities of ending their activities pending the forthcoming Round Table Conference in London.

Mrs Naidu Called

Mrs. Sarojini Naidu, foremost woman leader in the Congress movement, was called in to-day to participate in the deliberations with the Mahatma and Mrs. Naidu were Pandits Motilal and Jawaralal Nehru Sir Tej Bahadur Sapru and M. Jayakar.

Sir Tej and his companions, classed as moderates, joined the Pandits and Gandhi and later Vallabhai Patel, also a prisoner in Yeroda jail came into the conference.

Mrs. Naidu, who was arrested May 21, when she was in command of the salt raiders as "Gandhi No. 3" was summoned to the meeting only half an hour before the conclusion of to-day's session. Her advent in the deliberations

HOTEL CLERK SURRENDERS AFTER STEALING $500

NEW YORK, N.Y., Aug. 13. — The manager of the Whitehall Hotel said to-day that Ernest Kirkland, who surrendered to Montreal police and said he had stolen $500 of the hotel's money, disappeared on July 23 with funds which had come into his possession as a clerk at the hotel.

Kirkland left, the manager said, shortly before the monthly accounting at which the books of employees intrusted with funds are checked over. A bonding company made good the loss to the hotel.

All lines of the Polish National Railways in the Danzig territory are near capacity in handling transportation, and plans to relieve the congestion are being considered.

Canadian is Ready For Pacific Flight

TOKYO, Japan, Aug. 13. (C.P.) All official obstacles having been removed Lieutenant Harold Bromley, Canadian aviator, today said he hoped to start his non-stop trans-Pacific flight from Kasumigaura airdrome, near Tokyo within a week.

Kasumigaura field, a naval air base which the Graf Zeppelin last year started its trans-Pacific flight has a 1,900 meter runway.

Government officials gave the fliers permission to fly their plane from Yokohama, where it was unloaded from the steamer President Lincoln, to the field of this choice.

TORONTO FLYER'S BODY IS FOUND

"Jerry" Fitton's Remains Taken From Wataers of Lake Ontario.

NO INQUEST.

COBOURG, Aug. 13.—The body of a man was taken from the waters of Lake Ontario, four miles out from the village of Consecon yesterday afternoon by a fisherman, and a wrist watch and ring indicate that it is that of "Jerry" Flitton, air pilot, who was drowned a week ago. The remains are now at the undertaking rooms of F. McArthur, Brighton, awaiting positive identification by a cousin, who has been in this vicinity prosecuting the search for the body. Coroner Thompson of Consecon said last night that there is no doubt in his mind about the body being that of Jerry Flitton, and has notified the father at Exeter, where interment will take place. No inquest will be held.

The Weather

The thermometer marked 41 degrees as the lowest point last night. This was two degrees lower than yesterday morning. White frost was visible in places. These early cold days usually come about the 25th of the month. Another warm wave is on the way.—W.P.

Miss Winifred Spooner, the British air woman, was among the entrants in the All-Italy race for light airplanes this year.

1,500 ARE SLAIN IN RED ATTACK UPON CHANGSHA

Well Co-ordinated Movement Planned to Oust Foreigners in China.

WOMEN JOIN REDS.

Improvement of Lot of Laboring Class and Other Soviet Ideas on Program.

SHANGHAI, China, August 13 (C.P.). — Estimates indicating 1,500 persons were slaughtered during the sacking of Changsha, and reports charging the Red attack was part of a well co-ordinated revolutionary movement to oust foreigners, overthrow the Government, and establish a Soviet regime throughout China reached here to-day.

Overthrow Foreign Influence.

The Communist goal, as investigators of the situation saw it, was the overthrow of all foreign influence, destruction of the Nationalist Government, downfall of the Chinese militarists, such as the northern commanders now making war on the Nanking regime, and establishment of Soviet rule throughout the country.

Improvement of the lot of the laboring classes and other characteristics of the Soviet program, including establishment of proletarian governments throughout the world were embraced in the alleged aims of the invaders.

It was widely reported 1,000 women and girls of Changsha joined the Reds' ranks, which prior to their arrival in the Hunan capital included many women.

Governor Is Blamed.

Feeling against Ho Chein, governor of Hunan Province, was intense in some quarters, where he was blamed as being primarily responsible or permitting Communists to enter the rich city.

Ho fled from Changsha as the for permitting Communists to enter city with little means of defence. Nationalist troops previously had been withdrawn despite the plea of provincial authorities.

Bankers said Ho Chein, immediately upon his return to the ruined city, had demanded $400,000, presumably to pay his troops. The troops nevertheless were quoted as saying they had received no money for three months. Already taxed to the utmost, the bankers were said to be attempting to raise the money.

Mothers' Darlings, Henpecked Hubbies

LONDON, August 13. — Henpecked husbands are that way because they like it. It is the mother's darling that grows up to be the hen-pecked husband.

These were the assertions today of Dr. C. W. Kimmins, a children's authority at the Cambridge Summer School. Said the doctor:

"It is a case of the husband transferring his dependence from his mother to his wife. Most hen-pecked husbands are hen-pecked because they prefer it."

Furthermore, he averred, hen-pecked husbands live longer than the dominant male because they have a sheltered existence.

HEARING NOISE, MERCHANT NABS TWO MISCREANTS

Roland Windover, Buckhorn, Prevents Youths From Breaking Into His Store.

HELD FOR POLICE.

Boys Who Came From Toronto Are Told By Magistrate to Leave City.

(Examiner Correspondence)

BUCKHORN, Aug. 13.—Aroused by a noise in his store downstairs very early this morning at Buckhorn, Roland Windover went to investigate about 2 o'clock and found two young lads trying to break in. He caught both of them and held them until the police came and arrested them.

As a result they appeared before Magistrate Langley in Police Court this morning on a charge of vagrancy. They were John Allen and Ralph Smith and said that their homes are in Toronto. On questioning they told the Magistrate that they were out of work and went into Burleigh township in search of work in the lumbering camp. Not finding any work they begged for food at a couple of farmhouses and were refused so last night they tried to get some in Mr. Windover's store. Not having succeeded in getting in, they escaped a more serious charge.

Warning them that they must go back to Toronto or get work immediately, they were allowed to go by the Magistrate.

TRENT WATERWAY IS RESORT FOR BORDER CITIES OF U. S.

Commodore of the Buffalo Yacht Club Visits Peterborough.

SHOULD COMPLETE CANAL.

"If you want to make a national highway redounding to the pleasure of the adventurer and the profit of your country, the completion of the Severn Division of the Trent Waterway is the best investment your government could make." This was the statement made to The Examiner yesterday afternoon by Dr. E. J. Meyer, Commodore of the Buffalo Yacht Club, whose luxurious 60-foot cruiser, "Riette," tied up at George street wharf late Monday in the course of a tour of the Trent system.

"It is a resort for all the border cities of the States," maintained Dr. Meyer, who has for some time been the commodore of the Buffalo Yacht Club and has been one of America's leading yachtsmen for 41 years.

Dr. Meyer asserted, however, that the system could not become a profitable institution until the marine railways on the Severn had either been enlarged to accommodate 125-boats, or had been supplanted by locks. He felt that the latter course was the only sane one.

"I can guarantee fifty boats a year from Buffalo alone," he stated, "if this project is completed." Chicago and Detroit, he pointed out, the yachting centres of North America, were adjacent to the northern end of the Trent, and it was only the yachtsman's aversion to the marine railways which prevented hundreds of fine American craft from cruising down from Georgian Bay to Lake Ontario every year and spending thousands of dollars en route. He spoke, too, of conversations with prominent Toronto and Montreal yachting enthusiasts who were annually deferring their trip through the Trent until the Severn Division was completed.

Dr. Meyer spoke in the highest

New N. S. Premier

HON. G. S. HARRINGTON

Who was called upon to head the Government of Nova Scotia after the resignation of Hon. E. N. Rhodes, now a member of the Federal Cabinet.

LORD DAWSON ENTERTAINED BY GOVERNOR-GENERAL

Ottawa, Ont., Aug. 13.—Lord Dawson of Penn, physician to His Majesty King George, is the guest at Rideau Hall to-day of the Governor General and Viscountess Willingdon. Enroute to attend the meeting at Winnipeg of the British Medical Association, Lord Dawson arrived in the Capital last night and was whisked immediately from the station to the Vice-Regal residence. Fatigue compelled him to refuse newspapermen an interview.

Lord Dawson is to address the Ottawa Canadian Club luncheon.

OLD PETERBOROUGH BOY MAY END MOST BRILLIANT PUBLIC CAREER IN WEST AS LIEUTENANT-GOVERNOR

General Passes

SIR HORACE SMITH-DORRIEN.. Noted British general and former aide-de-camp to the King, who is dead in England in his 72nd year as result of injuries received in motor accident.

Sir Frederick Haultain is Mentioned as King's Representative in Saskatchewan.

Attended Collegiate Here.

Father Twice Represented Peterborough in United Parliament.

As the crowning achievement in an illustrious and brilliant career, Sir Frederick Haultain, Chief Justice of the Appeal Court of Saskatchewan, and at one time Premier of the North-West Territories, is expected to become Lieutenant-Governor of the Province of Saskatchewan, according to reports received from Regina.

Born at Woolwich, England, on November 25th, 1857, the second son of Lieut.-Colonel F. W. Haultain, R.A., and Lucinde Helen Haultain, he came to Canada as a boy, receiving his early education at Peterborough Collegiate Institute, and afterwards taking his B.A. and LL.D. degrees at Toronto University. He was called to the Ontario Bar in 1882, and was created K.C. in 1902. Taking up a practice at Macleod, Alberta, in 1884, Sir Frederick was appointed a member of the North-West Council, 1887-88, and was a member of the North-West Legislative Assembly, 1888-1905. In December, 1891, he was called upon by the Lieutenant-Governor to form the first executive committee of the North-West Territories, and remained leader of the committee until 1897, when by a Federal Act, provision was made for an Executive Council. Until the Province of Saskatchewan was established in 1905, Sir Frederick also occupied the positions as Premier, Attorney-General and Commissioner of Education for the North-West Territories, and from 1905-1912 was member of the Saskatchewan Legislature and Leader of Provincial Rights Party.

At the Coronation of His late Majesty King Edward VII., in 1902, he represented the North-West Territories.

Chief Justice in 1912.

Appointed Chief Justice of the

R-100 AWAITING SIGNAL TO START

Favorable Weather Conditions Over Atlantic Are Reported.

DEPEND ON 5 MOTORS.

ST. HUBERT AIRPORT, Montreal, Que., Aug. 13. — (By Wallace H. Ward, C. P. Staff Writer.)—Her gasoline tanks filled, the R-100, world's largest dirigible, is ready for the long flight home to Cardington, England. Her officers are in Montreal filling final engagements prior to her departure for home. Wing Commander R. B. B. Colmore, director of airship development and Major G. H. Scott, official observer of the Air Ministry, are in Ottawa, and will fly to the field this afternoon.

Government meteorological officers report favorable weather conditions for the long flight over the Atlantic, which is scheduled to begin at ten oclock to-night when the airship severs contact with her mooring mast here for the homeward journey.

Abandon Repairs to Motor.

Officers have abandoned repairs to the faulky starboard forward engine, and the dirigible will travel to England on five motors. Fulled, gassed and provisioned, the airship is awaiting the word of her commander to cast off.

It is unofficially rumored that the big airship will follow a course straight down the St. Lawrence,

(Turn to Page 16, please)

PARALYSIS TAKES OSHAWA YOUTHS

Two Boys of 10 Succumb to Dread Disease—Funeral To-day.

12 OTHER CASES.

OSHAWA, Ont., Aug. 13 (C.P.). — Two deaths from infantile paralysis were reported by the health authorities here this morning. The victims were Eddie Curtin, 10, son of Mrs. S. E. Curtin, and Albert Ferguson, the same age, son of Mr. and Mrs. Ferguson.

Both lads were buried to-day, the Curtin boy in St. Gregory's Roman Catholic Cemetery, and young Ferguson in the Oshawa Union Cemetery.

No new cases have been reported by medical officials today, and the number now remains at 12. There has been no change in the situation in East Whitby Township.

VAGRANT IN LOCAL CELLS PROVING POLICE PUZZLE

Unknown Man Picked Up in Empty Railway Car at Havelock Apparently Deaf and Dumb, Fails to Respond to Signs. But Smokes and Eats Well.

The police are in a quandry. They have a man in the cells at the Police Station on a charge of vagrancy, but they don't know his name or where he comes from, and they can't find out. He is apparently deaf and dumb.

He was picked up on Monday in an empty railway coach in the C.P.R. yards at Havelock by a C.P.R. constable and a village constable. How he got there they have no idea. He has been brought to Peterborough and is faced with a charge of vagrancy. Not being able to give his name, he appeared before Magistrate Langley under the name "John Doe," but no headway was made as he didn't seem to understand what it was all about, and, much less, he couldn't plead.

Although apparently deaf, dumb and generally helpless, he can readily beckon for a match and light a pipe or cigarette, and he puts away his meals in great style. He seems to understand a policeman when he says something such as "Come here" or "Come along," but when asked anything more difficult, he merely smiles inanely. Unsuccessful attempts to communicate with him by the deaf and dumb alphabet and by pencil and paper have been made.

Police are led to believe that he wandered away from some home or asylum. If such is the case, some reader of The Examiner may be of assistance in identifying the unfortunate man. He is about five feet seven inches in height, weighing 140 pounds. He has a few days' growth of beard. He wears a large straw hat, a blue denim smock, black duck pants and very heavy boots. In his pockets were found part of a plug of chewing tobacco and a new package of pipe tobacco.

There is no mark of identification on his clothing.

War Looms Between Turkey And Persia

TURKISH TROOPS CROSS FRONTIER DESPITE WARNING

Infantry, Cavalry and Plane Squadron Pursue Kurdish Raiders.

SOUTH OF MOUNT ARARAT.

Believe Russian Gov't Trying to Revive Old Trouble For Turks.

LONDON, August 13. — The Daily Express to-day features a report that Turkish troops, in defiance of the Persian Government's warning, have crossed the Persian frontier in pursuit of Kurdish raiders, and an official statement concerning the outbreak of war between Turkey and Persia may be expected at any moment.

The invasion, according to the Daily Express report, was made by Turkish infantry, supported by cavalry, gendarmerie, and a squadron of arplanes at Azerbaldjan, northeast of Lake Van, in the salient of the mountain range south of Mount Ararat.

Head for Railway.

The objective is the occupation of a triangle of Persian territory northwest of Urumaya, lying across the railway between Erivan and Djoulfa.

Connection is seen between the Russian-fomented trouble in Kurdistan and disturbances on the Northwest Frontier of India. For some time, says the Express, it has been known in official circles that the Russian Government had been busy in Kurdistan trying to revive trouble which the Turks once managed to quell.

Turkey alleges that Persia also is behind the Kurds, and the charge led to an acrimonious exchange of diplomatic notes.

Occupation of Persian territory is held to be in the nature of reprisal.

SAUVE STATES STAND IN OFFICE

Justice, Honesty and Economy Policy in Post Office Department.

NO RACIAL FAVORS.

OTTAWA, Ont., August 13 (C.P.). —Hon. Arthur Sauve, Postmaster-General, in a statement issued late yesterday declared "justice, honesty, and economy" would be his policy in administering the Post Office Department.

The text of the statement of the Postmaster-General reads in part:

"Racial, religious, or political fanaticism shall never prevail with us. I shall continue to consider them as the most dangerous enemies of the country.

"The employees who have without reserve conformed to the law, understood their duty in their observance of impartiality and who have impartially shown the respect due to the political authorities or their accredited representatives, have nothing to fear from me."

ONTARIO'S WILD GAME MAY BE INVESTIGATED

TORONTO, Ont., Aug. 13.—Announcement is expected shortly of the appointment of a special committee to investigate Ontario's wild game question. The committee will be comprised of members of the Legislature and will be headed by Hon. William D. Black, former Speaker of the House, appointment of this committee was forecast in the last session of the Legislature.

HAWKS AFTER NEW MARK

GLENDALE, Calif., Aug. 13. — Frank Hawks, holder of the East-West trans-continental speed mark for airplanes, took off from Grand Central air terminal at 2.16.27 a.m. to-day in an effort to better the Pacific-to-Atlantic speed record held by Col. and Mrs. Charles A. Lindbergh.

Human Toys of Earthquake's Tragic Pranks

With their worldly goods piled in disorder about them, these harried victims of Italy's earthquake disaster were still able to preserve traces of their sunny Italian smile. Throughout the stricken area, for days following the catastrophe, refugees wandered aimlessly, homeless and not knowing which way to turn.

DOMINION GOV'T VERY RETICENT ON POOL TALKS

No Question of Dominion Authorities Extending Any Guarantees.

CONFERENCE ENDS.

Bankers or Provinces to Make Statements on Marketing 1930 Crop.

OTTAWA, Ont., Aug. 13 (C.P.). — The Dominion Government continues to maintain an attitude of reticence on the conferences respecting the marketing of the 1930 crop. The meetings, attended by the Premiers of the three Prairie Provinces and representative bankers, together with officials of the Wheat Pool, concluded yesterday.

It was made clear by the Government, however, that there was no question of the Dominion authorities extending any guarantees to the Pool. The three Western Provinces, by virtue of their guarantees to the Pool, and the bankers are the chief parties to the marketing of the crop; but the Dominion administration is concerned as administrators of the Canadian Banking Act. For this reason, it is understood, the Dominion authorities take the attitude that any statement to be made should come from the Provinces or the bankers.

TO BRIGHTEN UP AUTO MARKERS

Black and White to Give Way to Black and Old Gold.

LETTERING IN BLACK.

TORONTO, Aug. 13. — After the formal black and white of this year's license markers, Ontario motorists will be introduced in 1931 to something a little jazzier, black and old gold.

At least, Hon. George S. Henry, Minister of Highways, who had sample plates in his office yesterday, claims the background is old gold. But Hamilton motorists are sure to recognize in them the familiar yellow-and-black of the famed Tigers.

The lettering will be black on old gold—or yellow—background, just the same as Quebec's markers this year. There will be no change in the system of letters and numbers.

Outside the color change, the only variation from this year's markers will be that the name of the province and the year—it will read 'Ont. 1931" —will appear at the top of the marker. This year it is at the bottom and traffic officers claim that it interferes with the legibility of the marker's number. The bolt holes, too, will be at the top.

INJURIES PROVE FATAL.

CAMBRIDGE, Mass., Aug. 13. — (C.P.).—Allen T. McPherson, formerly of Hampton, N.B., died yesterday of injuries received a week ago at the hands of rowdies when he went to the assistance of a police officer who sought to arrest a man for drunkenness.

Police arrested John J. Donahue and his brother, Martin, who were released in bonds last Friday for assaulting McPherson.

McPherson leaves a widow, two small children and his parents, Mr. and Mrs. Frank McPherson, of Hampton.

REDS THREATEN CHANGSHA CITY FOR EXECUTIONS

Intend to Murder All Between Ages of 15 and 36, Then Burn Town.

POPULACE FLEEING.

Hordes Sweep Down to Avenge Slaughtering of Communist Suspects.

HANKOW, China, Aug. 13. (C.P.)— Terror prevailed in Changsha to-day as the Communist horde that recently sacked and burned the city was reported returning with threats to murder everyone between the ages of 15 and 36.

Thousands of Chinese fled from the Hunan Province Capital to escape Red vengeance for wholesale executions of Communists by Provincial authorities. Governor Ho Chien was said to have directed the torture and killing of approximately 250 Communist suspects daily.

Fears were felt that Provincial troops could not hold the city walls against the Reds, reported only five miles away.

Men said to be Communists were hunted down by troops and quickly executed. The few foreigners remaining at Changsha stayed aboard foreign gunboats.

AGED LADY INJURED IN CAR ACCIDENT

Mrs. James Leask, of Greenbank, is Taken to Port Perry Hospital.

LINDSAY, August 13 (Special to The Examiner).—Mrs. James Leask of Greenbank is in the Port Perry Hospital as a result of serious, if not fatal, injuries sustained in an accident on the Lindsay-Whitby highway.

The aged woman was returning from Port Perry to her home by transport bus and while endeavoring to cross the road in rear of the bus, was hit by an oncoming car. When rushed to the hospital it was found that she sustained a broken collar bone. Her arm as well as leg were also broken in two places and she received a bad gash in her head which required several stitches. No blame is attached to the driver of the car.

Twelve thousand Finnish peasants recently took part in an anti-Communist parade in Helsingfors.

NEW TRIBES JOIN AFRIDI HILLSMEN IN BORDER RAIDS

News Prints Are Attached as Warriors Withdraw From Peshawar.

FRESH TROOPS ARRIVE.

Squadrons of Army Planes Scatter Many Assaults With Bombs.

PESHAWAR, Inda, August 13. — The spirit of tribal unrest appears to be spreading on the North-west Frontier, with British forces tightening the defence by increasing aerial bombing operations and running fresh troops northward.

Most of the Afridis who have been besieging this strategic city for a week have withdrawn under constant bombing, but meagre reports from the countryside indicate that they have spread in all directions, and that all branches of the tribe have taken up arms.

An indeterminate number of Orakazis have joined the Afridis. A party identified as Massozais attacked Badama Post on Saturday, and the Chamkennis were on the warpath until the Air Force informed them that their own villages would be bombed unless they ceased their depredations.

More Troops Arrive.

Meanwhile, fresh troops arrived today on board an armored train from Lahore. The city gates were opened for it, but ordinary trains must stop at Nowshera and the passengers continue here by taxicab.

Telegraphic communication to Lahore was restored yesterday, but Charsadda is still cut off.

The six squadrons of army airplanes on duty in the sector are credited with breaking up the plans for a mass attack on Peshawar. In one day these machines dropped 5,000 small bombs, and they have made daily attacks on various groups. As one instance, they spotted the 1,500 Massozais who attacked Badama Post and wounded 20 of them.

The air force assisted one beleaguered place, Pahachinar, by evacuating the women yesterday. Pahachinar is a lonely outpost, about 80 miles by air line west of Peshawar, and 100 by road.

Twenty miles to the south of Peshawar, Kohat is under attack.

Parties of tribesmen hidden in the ditches south of Sorozai were shelled heavily and effectively yesterday, but another force was reported attacking Chichas village at about the same time. Two villages were killed and three militiamen, while one militiamen was wounded.

PECK'S MAJORITY SHOWS INCREASE

Conservative Candidate Was Elected in Peterborough West By 1,761 Votes.

MISTAKE IN COPYING.

Although declared elected as member for Peterborough West by a majority of 1,587 E. A. Peck, Conservative candidate, finds that his majority has been increased to 1,761.

The error was just discovered this week-end and a final check up was made yesterday afternoon by S. Whatley the returning officer. The mistake occurred with the election results of Polling Subdivision Number 67 held at Higgin's house in the township of Smith. Here the election clerk in copying the final returns credited to Mr. Peck the vote Mr. Duffus got and the vote Mr. Peck got was credited to Mr. Duffus. Mr. Peck at this poll should have been credited with 132 votes and Mr. Duffus 45 votes.

In conversation with The Examiner, S. Whatley, Returning Officer said, "It is purely a mistake in entering the figures, which were called off by myself and entered by the election clerk. On being called to my attention I had the error corrected and have left the revised copy of the returns with Mr. Peck.

The correct vote as given The Examiner by Mr. Whatley is as follows:

E. A. Peck	9663	
J. J. Duffus	7902	
Majority E. A. Peck	1761	
Urban Area		
Polls 1 to 52 inclusive, E. A. Peck	6468	
Polls 1 to 52 inclusive, J. Duffus	4482	
Urban Majority, E. A. Peck		1986
Rural Districts		
Polls 53 to 93 inclusive, J. J. Duffus	3420	
Polls 53 to 93, E. A. Peck	3195	
Rural majority J. J. Duffus	225	225
Actual majority E. A. Peck		1761

ADVERTISE IN THE EXAMINER

Unhorsing Officer Has Dire Results

TORONTO, Ont., Aug. 13.—Malcolm Franklin cranked his car. The car was in gear. The net result was a policeman unhorsed and bruised, Franklin cut and bruised and Ernest Howard pinned against a pole which brought the runaway vehicle to a halt. Howard was seriously injured and taken to hospital. Franklin was arrested on a charge of criminal negligence.

LIBERAL WILL LOSE DEPOSIT

Dr. A. T. Embury's Majority in Hastings-Peterborough is 3,994.

4,117 IN 1926.

MADOC, Aug. 13 (Examiner Correspondence).—Returns officially declared on Saturday last by E. C. Tufts, Chief Returning Officer for Hastings-Peterborough Riding give Dr. A. T. Embury a gross majority of 3,994 votes.

Official Declaration

Dr. A. T. Embury, Cons.	6,993
Fraser Aylesworth, Lib.	2,999
Majority for Dr. Embury	3,994

In the 1926 election, in which the riding was contested by Dr. Embury and Mr. Marshall, the former's majority was then 4,117.

Although Dr. Embury's majority was cut down by 123 on the recent occasion, it is pointed out that he and also his opponent polled more votes than at the 1926 election, a fact which shows the interest which voters showed in the big issues of the day. The increase in the number of voters making use of their franchise was 515.

Total votes polled by Dr. Embury, Cons., 1930	6,993
Total votes polled by Dr. Embury, Cons., 1926	6,797
Increase	196
Total votes polled by Mr. Aylesworth, Lib., 1930	2,999
Total votes polled by Mr. Marshall, Lib., 1926	2,680
Increase	319

In attempting to catch a litter of wild pigs, a youth at Frammerbach, Germany, was attacked by the mother and compelled to climb a tree, where he was held prisoner for several hours until a policeman rescued him.

HUGE AIRSHIPS MAY BE BUILT BY DOMINION

New Liners Be Twice Size of R-100 Burney States.

INTERVIEWS BENNETT.

Outcome Enables Sir Denistoun to Put Plan Before British Gov't.

OTTAWA, Ont., August 13 (C.P.). —Sir Dennistoun Burney, Bart., designer of the -100, had another meeting with Premier Richard B. Bennett yesterday, at which plans were discussed for the establishment of a regular airship service between the Motherland and Canada. Following the interview with the Prime Minister, Sir Dennistoun intimated that the construction of airships in Canada within the near future is not improbable.

Sir Dennistoun indicated that he is now in a position, when he returns to England on the R-100 this week, to discuss further the matter with the British Government.

The memorandum left by Sir Dennistoun with Premier Bennett is understood to follow more or less closely the proposals outlined by Sir Dennistoun in addressing the Toronto Canadian Club last week, to the effect that the Canadian and British Governments should advance 75 per cent. of the construction cost of the new Atlantic type of airship, twice the size of the R-100, at low rates of interest, and also that each Government should undertake contracts for the transport of six tons of mail per week at $5,000 per ton, making the postal rates about 8 to 10 cents per letter. Trial flights by the proposed Atlantic type of airship are necessary to demonstrate the feasibility and practical value of the regular service later to be established.

OPENING POSTPONED.

OTTAWA, Ont. August 13 (C.P.). —The opening of the Welland Ship Canal for use by large upper lake freight vessels will be postponed until the spring of 1931, it was announced by Hon. R. J. Manion, Minister of Railways and Canals, late yesterday.

Canada's New Premier and His Sister

The photographs reproduced above are very interesting camera studies of Hon. R. B. Bennett, Canada's new Conservative prime minister, who has formed his cabinet at Ottawa, and his charming sister, Miss Bennett, as they were seen at Ottawa. Mr. Bennett was born in Moncton and he is the first premier New Brunswick has given to the Dominion.

THE HOUSEWIFE SAID:—

"I RENTED my extra room"

"We've had that spare room right along of course, but it just occurred to me that I might be able to rent it, and use the "rent money" to pay part of the grocery bill—so I put a small Want-Ad in The Examiner and presto, the room was rented."

Perhaps this is a suggestion for YOU.

MURDER CHARGED TO YOUNG MAID

Claims She Was Assaulted Before Unknown Man Killed Mistress.

COMPANION HELD.

FREDERICTON, N.B., August 13 (C.P.). — Information charging Isabel Carr of Geary, Sunbury Co., N.B., with the murder of ninety-year-old Mrs. Charles N. Clark, in whose home the Carr girl was employed as a domestic, was laid before Police Magistrate Walter Limerick yesterday by Chief of Police Nathaniel Jones. Yesterday's developments followed the inquest, which was completed behind closed doors on Sunday night, during which the accused girl declared she had been criminally assaulted by a man whose name was unknown to her, on Thursday afternoon, the day the aged woman was killed.

She had left the house, she said, as this unidentified person was attaking her aged mistress. Barry McHatton, companion of the 18-year-old girl, when she returned to the house later that afternoon and discovered Mrs. Clark lying in a pool of blood in the kitchen, is being held as a material witness.

To-day the girl will go before Police Magistrate Limerick on a formal charge of murder.

Mrs. Clark was killed with a hatchet some time between noon and three o'clock last Thursday by an assailant who escaped with $45.00 from a purse found in the house.

PARIS REBELS AGAINST RUDE

Return to Polite Manners is Sought in Place of To-day's "Frank Rudeness."

ESTABLISH SOCIETY

PARIS, August 13 (By Josephine Hambleton, Canadian Press Staff Correspondent). — It is no longer smart to be rude. The "Group of Thirty," the occult power which decides for Paris and the world of fashion what is a la mode and what is not, have put the ban on American importations in manners, and especially on the cocktail.

This group has a single honor member S.A.R., the Prince Sixte de Bourbon, famous African explorer, and a life secretary, M. Curmonsky, prince of epicures, to modern Paris what Brillat-Savarin was to the Paris of his day. They meet secretly in an old Louis XIV. house in the shadow of the Louvre.

"There are millions of people," states one of these psychologists of good taste, "who would be polite if they dared. To-day it is not enough to say the fashion of politeness has passed. The fashion of being rude has been established. At every step we meet people who aggravate their natural vulgarity to show us that they consider themselves inferior to none.

"What occult manner has introduced into France contortions from the dens of San Francisco and Buenos Aires under the name of dances? Who is responsible for the cocktail and the family bar,

"French taste believes in embellishing life not in degrading it."

A widespread press campaign is directed chiefly against the cocktail.

"Put up your shaker, madame," comments the Boulevardier, "keep the smart cubist silver and crystal service, but dismantle the bar in your apartment. It has a vague odor of a bad taste. Serve your charming self, madame, and us, as your grandmothers used to do so gracefully, with chocolate or a cafe glace."

A curious offspring of this revival of good manners is a club, formed among the ultra-smart of Paris. Its name would warm the hearts of the early Victorians. It is the "League of Well Brought Up Young People." It is already the recipient of much good advice.

"Let us hope," remarks one enthusiast regarding the club, "that these well brought up young people will form a police force, like that of which the League of Nations has so great a need. To impose politeness let them above all recruit their members from champion athletes, for Right still requires Force."

"Skinny" Run-down Violinist Gains Pep 10 Lbs. in 4 Weeks

WEIDEN, MAN.—Mr. Fred Duneluke, well known violinist, says: "Was badly run-down for months. Then tried Ironized Yeast. New pep at once. Gained 10 lbs. in 4 weeks."

Ironized Yeast adds 5 to 15 lbs in 3 weeks. Ugly hollows, bony limbs, fill out. Blemished skin clears right up. "Nerves," indigestion, constipation end overnight. Avoids danger of serious ills. New pep first day.

Ironized Yeast is two great tonics in one. Weight-building brewer's Yeast plus strengthening, blood-enriching Iron. Many times more effective than unmedicated yeast. Results in half the time.

Gain weight, health quick. Avoid risk of serious ills. Take these pleasant little tablets. No yeasty taste; no gas. If not delighted with quick gains, manufacturer refunds money. Get Ironized Yeast from druggist today. Feel great tomorrow. New pounds quick.

CONGREGATIONS HEAR TEMPERANCE TALKS

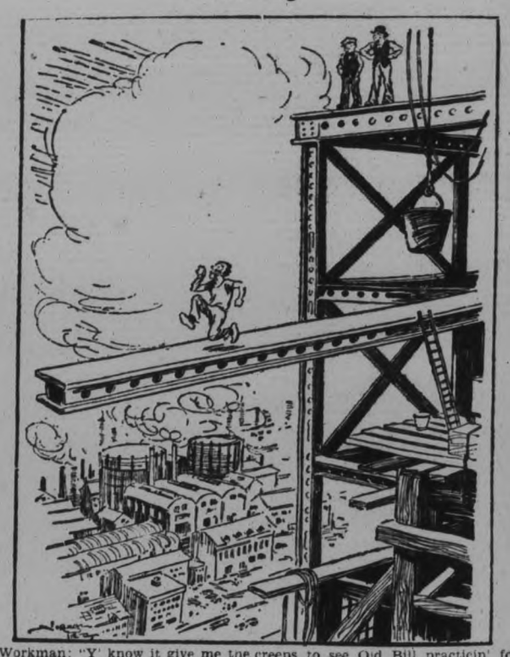
Rev. Mr. Whalam Speaks at Bethel, Carmel and Warsaw.

WARSAW, Aug. 13.—(Examiner Correspondence).—The Rev. Mr. Whalam, speaker for temperance work, gave very interesting talks on temperance at Bethel, Carmel and Warsaw.

He showed the harm alcohol as a beverage is doing to young people, even girls, and young married women get permits. "A large proportion of the motor accidents are caused by its use." He did not say the drivers were drunk, but had taken a little, enough to make them think a little more slowly.

He did not think there could be such very hard times when there were so many permits and so many people using them. "No country can be at its best if a large proportion of its people drink alcoholic drinks. Pledges are needed. Bands of Hope and other temperance organizations are needed." Propaganda is needed and no matter how black things look the speaker felt he could not fail so long as he had God's warrant for what he was doing.

In Training



Workman: "Y' know it give me the creeps to see Old Bill practicin' for the 'undred yards. 'E might forget an' think 'e's in for the quarter mile." —From London Opinion.

TWO SUSPECTS HELD FOR BUTCHER'S DEATH

QUEBEC, Que., Aug. 13 (C.P.). — Two young residents of St. Anne De La Pocatiere were to-day held at the Riviere Du Loup Jail as chief witnesses for the Coroner's inquest over the death of Louis Bouchard, a butcher of St. Onesime, Kamouraska, who succumbed Monday to wounds inflicted by unknown bandits who robbed him and left him in a dying condition on the road to St. Anne last Saturday night.

The two youths, still in their teens, were arrested this afternoon by Provincial detectives and will appear at the coroner's inquest to-morrow morning.

HYDRO LINE DISAPPEARS

NIAGARA FALLS, Ont., Aug. 12.—(CP)—Provincial Police are investigating the disappearance of a "dead" Hydro line in Stamford township 14,000 feet long which was stripped from the poles last night. The aluminum cable is worth $1,500. The wire was cut with a pair of heavy pliers, it is said.

HANKOW IS READY TO BATTLE REDS

Thousands of Refugees From Outside District Flock Into City.

GUNBOATS STAND BY.

HANKOW, China, Aug. 13 (A.P.)—Hankow took on the appearance of a beleaguered city to-day as authorities tightened up their defenses against the threatened Communistic attack.

Unverified but persistent reports said the Reds had re-entered Changsha, wealthy capital of Hunan Province, which recently was sacked and burned by Communist bands.

Sandbag defenses were erected at all strategic points in the native section of Hankow and machine guns were mounted for action, giving rise to the belief authorities were anticipating a heavy Communist thrust.

Thousands of refugees from the surrounding countryside poured into Hankow. The evacuation from Wuchang and Hanyang, the safest of three cities because of the presence here of many foreign gunboats.

The roundup and execution of alleged Reds continued unabated. Many were put to death.

Foreigners here were not considered in great danger because in case of disorders they could be easily evacuated by the foreign gunboats. Scores of Commercial vessels also were available.

MORE PARALYSIS CASES REPORTED

Oshawa and Toronto Each Have Four New Victims.

ALL PRECAUTIONS TAKEN.

TORONTO, Ont., Aug. 13 (C.P.).—Eight new cases of infantile paralysis were reported for Ontario yesterday, despite the efforts of the Department of Health to prevent the spread of the disease.

Oshawa and Toronto each reported four cases to-day, bringing the total in the former city to 14, while the latter's total for the present month stands at eight. Toronto had six cases in July, of which one proved fatal.

Bowmanville, Peterborough, Lindsay and Brantford are the other districts harboring cases of the malady, but at a late hour last night no reports had been received of additional cases.

HAROLD BAPTIE IS CHOSEN COLLECTOR

Communications Read at Regular Meeting of North Monaghan Council.

The North Monaghan Council held its regular meeting at the Court House on Monday afternoon, all the members being present.

The following applications were received for tax collector for the year 1930 at a salary of $250 pre annum: Thomas G. Price, Clarence Laing, and Harold Baptie. C. B. Adair made application for the position of tax collector at the same salary as paid last year.

A resolution was passed that Harold Baptie be appointed tax collecter for 1930, and by-law No. 947 was introduced and read appointing Harold Baptie tax collector.

A letter was read from the Ontario Municipal Association asking the council to appoint representatives to the annual meeting.

The following accounts for cutting weeds on private property was passed for payment: David Huggins, $28.20; W. Mallice, $1.50. The following road accounts were passed for payment: David Huggins, shoes for mower, $1; Walter Burns, repairs for mower, $1.25; Imperial Oil, gasoline and oil, $30.60; Archie Patterson, express, 65c; C. A. White, repairing mower, $8.75; Sawyer-Massey Co., repairs, $3.84.

T. B. Henry, township relief officer, came in to the meeting and discussed with the council various persons receiving charity, after which the following charity accounts were passed for payment: A. Reynolds, provisions, $23.70; A. Cheyne, milk, $3.60; A. E. Saunders, provisions, $6.30 and $3.72; also that T. B. Henry be paid $1.25 for filling hole on lane north of Romaine street.

The following sidewalk accounts were passed for payment: For sidewalks on Fradette avenue: Canadian Alladin, $2.05; Kingan Hardware Co., $4.49; H. T. Hickey, $5.16; Peterborough Hardware, $168.34; Peterborough Hardware, $150.60; A. W. Patterson, $12; George Martin, 50c; Robert Byers, 38 loads of gravel, $76; John Corkery, 17 loads, $34; A. E. Deck, 16 loads, $32; H. F. Doig, lumber, $7.65; Peterborough Utilities Commission, water, $6; P. D. McIntyre, use of tank, $4.

The following general accounts were passed for payment: The Registrar of Deeds, $1.30; Bruce Johnston, expenses to Toronto, $5.95; John McIntosh, expenses to Toronto, $4.90; John Whitfield was authorized to have the brush cut out of the T.A.S. park drain.

A resolution was passed that T. B. Henry, sanitary inspector, hereby authorized to take legal proceedings against all offenders against the sanitary by-law of the township, and the province relating to septic tanks.

The meeting adjourned, a special meeting to be held at the call of the reeve.

BROKERS REMAIN IN OTTAWA JAIL

Mowat and MacGillivray Make No Move to Secure Bail.

HULL POLICE WAIT.

OTTAWA, Ont., Aug. 13. (C.P.)—There had been no move up until today by defense counsel to secure freedom on bail for R. Harold Mowat and Duncan MacGillivray, former stockbrokers committed for trial on five criminal counts, arising out of the conduct of their business. Tuesday night the brokers spent their second night behind the bars while Hull police watched for an opportunity to serve warrants they hold against the accused pair.

Before committal for trial last Monday Mowat and MacGillivray had been free on $50,000 bail but no effort to renew the bond has since been made. The Hull warrant cannot be served until the brokers secure at least temporary freedom from Ottawa jail.

DEPARTMENT WILL FINISH DREDGING

Removing Shoals in Brockville Narrows to Provide Deep Waterway to Prescott.

OTTAWA, Ont., Aug. 13.—(CP)—Removal of the shoals in the Brockville Narrows in order to provide a deep waterway to Prescott will be completed this fall, it was stated by the Department of Public Works yesterday. It had been feared the recent disaster when the big drill boat was blown up with heavy loss of life would make it impossible to complete the work this fall, but the progress has been so satisfactory since that completion is expected before the freeze-up.

Britain's Mammoth of the Air Cruising Over the Downtown Section of Toronto

The photograph reproduced above gives a striking view of the giant dirigible R-100 as it cruised above Toronto on Aug. 11. In its flight over the city the airship manoeuvred at quite low altitude, thus affording citizens an excellent view from various angles of the flight. The photograph shows a large section of downtown Toronto, over which the dirigible made an impressive course. The city hall and parliament buildings are plainly visible, and in the foreground may be seen crowds on top of the Concourse building watching progress of the aerial visitor.

Mrs. Brown, Executive

Mrs. Brown, housekeeper of scarcely more than a generation ago, was a skilled laborer. The Mrs. Brown of to-day is an executive.

She has turned over much of her work to mechanical appliances. Much of her cooking has been placed in the hands of manufacturers of foods. Most of her sewing is done for her by the makers of clothing and household furnishings. Freed from drudgery by modern inventions, she has become a manager.

The advertisements in her daily newspaper have enabled her to be a better director of the affairs of her home than any woman of any past generation. She is primarily an intelligent buyer. She spends 85% of the family income. The care with which she reads the advertisements and the wisdom with which she acts on them determine the health, happiness and prosperity of her household.

She studies every new and every accepted product that might benefit her in her business of home management. She compares values. She is an expert in getting one hundred cents' worth of comfort, protection and satisfaction for every dollar she spends. She reads the advertisements every day. On them Mrs. Brown's efficiency depends.

WEDNESDAY, AUGUST 13, 1930

THE MINISTER OF NATIONAL DEFENSE.

Woodstock's splendid reception last night to Hon. Dr. Donald M. Sutherland, M.P., recalls to public memory the enviable overseas record and the consequent qualifications of Canada's new Minister of National Defense.

Colonel Sutherland was elected in the riding of North Oxford, where he was born at Norwich in 1879. He graduated in medicine at the University of Toronto in 1903, and began the practice of his profession at Princeton.

It is said of him that he was probably the first Oxford County man to enlist in August, 1914, and his military record tells us that he was wounded at Ypres in 1915, invalided home to Canada. He then organized the 71st Battalion, which he took overseas, and was transferred to the command of the 52nd Battalion. He was wounded again at the Somme in 1916, but remained at the front, and was among the last to be demobilized in 1919.

These bare facts tell nothing of the bravery which won him the Distinguished Service Order, nor of the many unrecorded incidents of his years in France which, like the valorous deeds of so many other soldiers, went unnoticed except by their companions.

His political career dates from 1917 when he was defeated by the Unionist candidate, E. W. Nesbitt. Resuming his medical practice in Woodstock at the close of the war, Col. Sutherland was elected in 1925, but in the following year was defeated by Hugh Allen, who was his opponent also a few weeks ago.

Liberals of North Oxford joined with Conservatives in the tribute to the new Minister, and prominent in the public welcome was Mr. Allen, who yielded the constituency to him in the recent elections.

Col. Sutherland's long and active military experience overseas commends him most highly to the people of Canada in his responsibility as the Defense Minister of the new Bennett Cabinet.

RESOLUTION NOT SUFFICIENT.

The appeal of the City Council to Premier Bennett to proceed with the construction of the federal building which was proposed for Peterborough fifteen years ago is no idle gesture.

Mayor Denne and his associate aldermen have heard many appeals for work since the spring boom flattened out. They know very definitely that there are many citizens who want work and not charity, and because of the extent of this unemployment, to which Mayor Denne referred during the election campaign, the City Council has been carrying on certain public improvements as a means of helping its unemployed people.

The Council has dealt with this emergent problem with commendable promptness, and both because it still exists and is likely to continue more or less indefinitely, and also because of the new Government's promise to relieve unemployment, the Council has turned hopefully to Premier Bennett for assistance.

During the absence of E. A. Peck, M.P., enjoying a well-earned relaxation at Ketchecum Lake, the Council could not send a deputation to Ottawa without the local member, but as soon as possible the Council should follow up its formal resolution by a personal petition to the Premier. They will undoubtedly find that others have been ahead of them, but at any rate an unsupported and unattended letter carries scant weight.

Newspaper reports indicate that western municipalities are already being considered in Premier Bennett's relief measures. He might have taken the position that the approaching harvest would occupy the unemployed in the western cities almost until the snow comes.

But, Mr. Bennett is explicitly pledged to assist the West, and he realizes that the harvest is only a temporary occupation. As another consideration there is the probability that the new farm machinery will again reduce the man-power required for this season's operations.

Premier Bennett's promise to relieve unemployment was not given only to the West. It was general in its contemplation, and for that reason Peterborough's Council has the soundest warrant for its appeal for the institution of work here in this city.

If the Council is going to ask for aid, and its members know best the need, then it should ask promptly and with all the force and earnestness and persuasiveness it can command. Premier Bennett's election campaign disclosed his predilection for boldness and force.

The Council has acted promptly, but it will not produce much effect at long range.

RETURNING OPPORTUNELY.

The thousands of Canadians returning to the Province of Quebec and the other thousands coming back to Ontario from the United States are probably unaware of their good fortune.

Possibly they think that the "breaks" have gone against them and that President Hoover and his administration let them down from the agreeable and busy plane which Calvin Coolidge was given the credit for maintaining. If a seemingly baleful fate has sent them back to their own country, and from present indications there will be more of them back on their native heath before the May flowers bloom again, these Canadians should be told their luck, for they may not be able to perceive or visualize it themselves.

They should know that they have come back to a new Federal Government whose constituent members have been bewailing their going during the last nine years, and who will see to it that there shall be no occasion for them again to turn their eyes toward Michigan or Ohio, New York or Pennsylvania.

Premier Bennett and Dr. Manion and Hugh Guthrie and E. A. Peck are only a section of the reception committee which some time or another, possibly by September or October, will get around to the killing of the fatted calf for these prodigals who sought the plump pay envelopes Uncle Sam has been handing out during those nine years.

If any of them are worrying about the solicitude of Premier Bennett and Premier Ferguson for their well-being, they have only to look back over Hansard since 1921 or the files of the newspapers to find the most reassuring declarations that they were not forgotten.

Mackenzie King and James Robb, we were told, had driven these Canadians from their homes, and worse than that, we were led to believe that they were lost for good.

But, here they are coming back, thousand sof them. Around Peterborough there are hundreds who had temporarily deserted us. Their return could not have been better timed for themselves and for Canada. They have come back when the fortunes of this country are about to start on the upbound, and under the new dispensation at Ottawa they are going to forget that there ever were such places as Detroit and Flint and Cleveland and Buffalo.

Mackenzie King may have been utterly indifferent to the problems and ambitions of these Canadians, as we were so frequently reminded during those nine years, but they are now under the warm and capacious wings of Premier Bennett and Premier Ferguson, and they should know that their worries and their travels are over.

Some people never appreciate their luck. They are well off even when they imagine that destiny has turned against them. Some of our returning citizens may be in that category, and they should be shown the light. They are wanted here in Canada, and they are not going to find it easy evading Premier Bennett and Dr. Manion by the time Mr. Hoover gets his ship of state out of its present doldrums. By that time it is possible Uncle Sam may have applied the quota against Canada, which he has been again hinting of late. But there will be no need of quotas. Premier Bennett is going to anticipate such an American instrument as that by keeping Canadians here at home, busy and contented and through with the wanderlust.

THAT AUTOMOBILE HORN.

Any one who has been roused by the horrible honking as the boy friend announces to his girl and to the neighborhood that he has arrived will feel like giving three rousing cheers for Milwaukee's Chief of Police Laubenheimer. Chief Laubenheimer has announced that the unnecessary use of an automobile horn is a public nuisance, not to say a pest, and that Milwaukee will have no more of it.

The police have been told to arrest any person disturbing the neighborhood peace by using an automobile horn as a summons rather than as the warning for which it was intended.

That applies not only to the thoughtless and selfish one who upsets the customary quiet of the home by curbstone honking, but also to the merchant who mistakenly believes that a noisy parade through the main street is good advertising and to the jokers who feel that every wedding must be the occasion for pursuing the embarrassed bride through the streets to the tune of automobile horns, cowbells and dishpans.

"Take no excuses; arrest the offenders," the Milwaukee chief has told his men. This is an experiment entitled to be called noble. If he puts an end to this nuisance, Chief Laubenheimer will have endeared himself to the home folks and set another precedent in which Milwaukee can well be followed.—Chicago Tribune.

WOMEN AND PARLIAMENT.

It is quite apparent that the people of Canada do not take kindly to the presence of women in Parliament. In the last election there were nearly a dozen women appealing for the franchise of the people, but Miss Agnes McPhail, the first woman member of the House, was the only one to receive favorable consideration. Even in her case the majority was greatly reduced, showing that she is not as popular as she was at the time of the last election. All of the others were badly defeated. In the whole of Canada there are but three women representatives in the halls of parliament, one in the House of Commons and one each in the Legislatures of Alberta and Manitoba.

It would appear as if the people think that woman's place is in the home, but not the House.

As the London Free Press says, "we talk of the old land being slow and more conservative and we think of the women having more rights and being more advanced in this country, and yet they are far more progressive as far as women are concerned in Great Britain, where there are nearly a score of women members in the British House and even a woman Cabinet Minister."

There is no doubt that there are women in this country who are equal, and even the superiors of many men who get elected to Parliament, but either they make a poor selection when they pick the ones to run for Parliament or the people themselves are not yet fully convinced that Parliament is a place for women.—Chatham News.

CAN'T BE RUSHED INTO IT.

The Montreal Gazette is authority for the report that a meeting of Canadian manufacturers has been called with the purpose of asking Premier Bennett to immediately increase the Canadian tariff ten per cent. It is stated this is to be a temporary measure, to remain effective until there is time to go over the various items in detail and make adjustments that are considered necessary. There may be much, little or no authority for the report to which the Gazette gives circulation.

An immediate ten per cent. increase in the Canadian tariff is not sound advice; it is not a method that gives intelligent consideration to the most important matter that will come before the Government at Ottawa. It would look too much like rushing in to take a general advantage of a situation.

The tariff must be carefully dealt with. There are items which do not need more increases, and it would endanger public support to put through a flat increase of ten per cent.

The idea of tariff needs to be carefully sold to the Canadian people. It must be demonstrated to them that it is not going to impose burdens on the people who buy in a protected market. It must be shown that it is going to provide for Canadian development and for the future of Canadian workers and agriculturists.

These things cannot be accomplished at one stroke of the pen, and it is very unlikely that Mr. Bennett would be influenced by the presentation of such an idea.—

Voice of the People

A CORRECTION.

Peterborough, Aug. 11, 1930.

The Editor, The Examiner.

Sir,—A few days ago I submitted a new version of "O Canada," written by Dr. C. V. Pilcher, which was printed in your columns.

However, through a typographical error in the second line "sought" was written for "bought." Obviously this ruins the sense. With this correction the verse should read as follows:

O Canada, our land, our love, our pride—
Bought by the blood of men who dared and died—
From East to West we loyal stand,
By prairie, lake, and sea,
And pledge with joy both heart and hand
To God, to King, to thee!
Steadfast in mind, stand we combined,
Mighty to serve our Country, serve Mankind.

If this correction is published, I feel sure that the song will receive public approval. Sincerely,

"SAM."

WHERE ARE WE NOW?

To the Editor of The Examiner.

Dear sir:

If we go right back to the basis of the world of humanity and human endeavor we shall find that people are to be considered in two lights and two lights only that is as individuals, each going his and her own way, or as a united body in which all the possessions and all the work of the individuals are the possessions and work of the whole.

The new measure of Mr. Bennett by which he proposes to back with the resources of Canada the growers of wheat in the West simply means that in the last analysis the whole of Canada has got to back anyone part of it and any branch of industry.

It will be seen at once that this means taking control of it because handing out money on security without any control would be absurd. Taking control of the products means taking control of the men and machinery which produces it. This is the Russian idea. The taking by the State or Government of the surplus (after labor cost) value of products for the benefit of all is the only web and woof of marxism and of Russian sovietism.

We are a funny people surely. Our education does not go far enough. It certainly has produced at last in Canada 'the man who fell into a pit which he digged himself.' The next three months will be interesting.

J. H. BURNHAM.

CONCERTED ACTION NEEDED

To the Editor, The Examiner.

Dear sir:

A great amount of relief could be given the unemployed of Peterborough if concerted action was taken by the citizens as a whole combined with the service clubs of the city. In these times of great unemployment if citizens who are in the habit of doing the various odd jobs around the house and shop, who can afford to do so, would hire one of the unemployed at a reasonable hourly rate to do the work it would afford considerable relief. Among the jobs that come to mind are washing windows, taking down screens, painting and putting up storm windows, polishing hard wood floors, mowing lawns, cleaning up cellars, sifting ashes, shovelling snow, washing automobiles, and dozens of other necessary household jobs that would provide work and a little money to men who are looking for work and not charity. The services of the Ontario Government employment office could be used in this regard as a clearing house for both citizens with jobs to be done and for the men who want jobs to do. The citizens could phone in and tell the nature of the work and the office would provide the most suitable man for the work. The men who are unemployed could register at the office and by keeping in touch with it would secure some hours of work each week which if not providing a luxurious living would at least save many a man from seeking charity.

The service clubs are in touch with citizens of all walks of life and if they combined with some co-operation from The Examiner would put their shoulders to the wheel a great many struggling families would receive a measure of sustenance honestly worked for and would thus be saved the embarrassment of seeking charity.

Yours truly,

CITIZEN.

EMBARRASSING MOMENTS

TEMPLE TOWER

By "SAPPER"

(Continued from yesterday.)

"'Forgive me, doctor,' he said. 'I'm not feeling my best to-day. Yes, there are some lovely things in this room, and, in fact, all over the house. That is why I have taken these somewhat elaborate precautions against unauthorized people gaining an entrance. A burglar's paradise, my dear sir; a burglar's paradise. I trust you will forgive my momentary irritability, and continue as my medical attendant.'

"By that time Sinclair's anger had evaporated, and he said no more. And when he did go back next day the valet made no attempt to remain in the room. Even the precautions of the first day were relaxed a little, and he didn't have the impression that he was being marched along under an armed guard. But no time was wasted lingering about the house, and no further mention was made of what was in it.

"This yarn of the doctor's, as I say, was taken by most people to conform the theory that Granger was frightened of burglars. And one has certainly heard of cased where miserly eccentrics have lived for years surrounded by their treasures, and protected by every sort of mechanical device. But though I said nothing about it at the time the solution didn't quite satisfy me. Even the most suspicious recluse would hardly suspect a respectable medical man of any desire to steal the spoons. So, why these elaborate precautions on the occasion of his visit? Was it eccentricity on Granger's part which was almost akin to insanity: the result of a fear so great that he suspected any and everyone without exception? Or was it something deeper than that; and if so, what?

"Well, I set to work to puzzle it out. The first idea that occurred to me was that he was afraid for his life. That, again, was open to the same objection. You don't expect a doctor to pinch your spoons, but even less do you anticipate that he will murder you. So I dismissed that theory, and tried another. Was there something to conceal in the house which he didn't wish the doctor to see? Remember, the doctor is the only human being, as far as I know, who has ever been in the house from the outside world. I worked along that line for a bit, saying nothing to anybody, and the more I thought of it the more did I become convinced that I was on the right track. Of course, it was possible that he was afraid that the doctor might spot some of the inner secrets of his defences, but again the same darned old objection. If he did he was hardly likely to run round revealing his discovery to bands of burglars. So what was the mystery? If I was right, what was hidden inside? Was it a human being? Possibly, but the idea presented difficulties. Remember, Granger has been there for six years, and, in spite of all his safeguards, it would have been difficult to keep a fourth person in the house for all that time without someone spotting it. And if it wasn't a human being it must be some object. But surely it would have been perfectly simple to hide it away so that the doctor couldn't see it during his quick walk through the house. So there I was up against a blank wall once more. And after a while I gave up worrying over the blamed thing; it wasn't worth it. Perhaps someday the the mystery, if any, would come out, and in the meantine I, outwardly, at any rate, subscribed to the theory that Mr. Granger was an eccentric old man who did not want to be disturbed, and had taken damned good care that he shouldn't be. Sorry for all this hot air, Peter, but I had to make it clear to you. We will now get on a bit quicker. The morning after I had seen the lights on the Marsh I went out for a stroll to the village. And that meant I had to go past Granger's house. Now don't forget that all my cogitations on his menage had taken place months ago: I had long given up worrying my head about it. So that what happened cannot be fancy or imagination due to my suspicions. About a quarter of a mile before I got to his gates who should I see coming along the road, but the man himself and his tame bruiser. Now on the rare occasions when I had met him we had always stopped and had a few words—generally platitudes about the weather. And as usual I halted as I came abreast of him and passed the time of day. He was a bit more affable than usual for some reason: in fact, he even managed to crack a smile over something that I said. And then, for some unknown reason, I mentioned the lights I'd seen on the Marsh. It was just a sudden impulse said without thought.

"Good Lord! Peter, I thought the man had gone mad. He stared at me with dilated eyes, and his lower jaw was shaking like a man with ague. And the pug wasn't much better.

"'Red and blue lights,' he stammered foolishly. 'Red and blue lights.'

"He was croaking in his agitation, and clutching the valet's arm with two trembling hands.

"'Where did you see them, Captain Drummond—those lights?'

"But by that time I'd taken a pull at myself: evidently there was a mystery in the offing, and I wasn't going to be too specific.

"'Somewhere on Romney Marsh,' I said vaguely. 'Why? What's all the excitement about?'

"'Red and blue,' he almost screamed to the valet. 'Santa Maria! Gaspard—it is he.'

"'Shut up,' growled the pug, though his own forehead was wet with sweat.

"But the other was beyond hope: he was in a state of gibbering terror.

"'Back to the house,' he kept on muttering. 'Hurry—for the love of the Virgin.'

"And away the pair of them went down the road with Granger clawing at the valet, and the valet glancing this way and that over his shoulder, as if he expected someone to materialise out of the hedge. For a while I stood staring after them foolishly: the whole thing was so totally unexpected. Then I followed them at a discreet distance, feeling a strong desire to laugh. They looked so damned ridiculous. Granger, as I think I've mentioned, is a little man, and to see him hopping along beside that vast bullock of a valet who every now and then broke into a shambling run had its humorous aspect. They reached their front gate, and while the pug was fumbling with his key to open the wicket Granger kept dancing about in his agitation. Then they disappeared, and I heard an iron bar clang home. The fortress had been reached in safety."

Hugh paused and looked at me with a grin.

"Getting a bit nearer the meat juice, ain't we, Peter? Why should the fact that a red and blue light had been flashed on Romney Marsh inspire terror in the breasts of our Mr. Granger and his pugilistic companion? And no mild form of terror either. For if I'm a judge that man was sick with fear for his life.

"It would seem," I murmured mildly, "that the problem is one which can hardly be solved on paper. And since our wives are at Le Touquet, it might help to pass the agonising time till they rejoin us, if we——"

"Good lad," he laughed. "I know you would."

"But, look here, Hugh," I said, "has nothing more happened? Have you seen the lights again?"

"Only once—three nights ago."

"And you haven't been down to this place—Sprague's Farm?"

He shook his head.

"I thought I'd wait for you, Peter. It seemed a crime to keep a thing like this to oneself."

"Just one small point, old man," I put in. "What about the police? If your surmise is right: if this man Granger is in fear of his life why hasn't he told the police about it? Or has he? Because if so——"

"He hasn't, Peter," he interrupted. "That I know. The local inspector is a great pal of mine. And since that very objection occurred to me, I made a point of meeting him. I brought the conversation round to Granger—never a difficult thing to do. And I'm convinced that if he had asked for police protection I should have heard of it. Therefore he hasn't. Why not? Because, laddie, he dare not. That's my answer to it. It's what I have thought all along. There is something that man has got to conceal, and he dare not run the risk of bringing the police in."

"It sounds feasible," I agreed. "Anyway what's the next move?"

"A couple of short ones. Then lunch. And after that we'll lay out a plan of campaign."

He led the way and I followed: thus it had always been in the past.

(Contined.

STIRLING

Miss Margaret Anderson, nurse-in-training at the Memorial Hospital, St. Thomas, is holidaying at the home of her parents, Mr. and Mrs. W. L. Anderson on Mill street.

Miss Altha Hatton, R.N., of Rhode Island Hospital, U.S., is spending her vacation with her parents, Mr. and Mrs. S. Hatton, John street.

Miss Grace Wheeler of the Buffalo City Hospital is visiting relatives in town.

Mr and Mrs. A. Hammond spent a few days at Crowe Lake last week.

Mrs. W. Morton was a visitor last week at the home of her niece, Mrs. Robt. Matthews, Wellman's Corners.

Mrs. Biesonnette and Miss Hume were guests of Mrs. R. Matthews on Wednesday when she entertained a number of old acquaintances.

Mrs. J. Sarles is visiting her daughter in Detroit, Mrs. Harry Roberts.

Mr. Ham Johnston left on Saturday to visit his nephew in Montreal.

Mrs. H. Sills and children of Belleville were guests of her sister, Mrs. H. Rollins on Sunday.

Mr. and Mrs. Halpenny and two children of Aylmer spent a few days with Mr. and Mrs. J. B. Belshaw, while on their way home from visiting the former's mother at Kemptville. Mr. Halpenny was for several years principal of Stirling High School.

Mr. and Mrs. A. Shaw motored to Cobourg on Sunday.

Mrs. Matilda Sine is the guest of her nephew, Morley Sine of the 6th concession of Sidney.

Mrs. Louis Desrochers and sons Douglas and George of Montreal arrived on Sunday to spend a few weeks with her sister, Mrs. Albert Hammond.

A "Buy Home Goods" newspaper advertising campaign has been started in New Zealand.

A Thought

DUTY.

What is needed among us more than the insistence of rights is the enforcement of duty. It should be impressed upon the hearts of all that a right is not something merely to secure, to rejoice in, and to use at pleasure, but rather a solemn trust to hold, an obligation to fulfil, a power to wield, a responsibility for which each who possess it is accountable. The question so often asked, "Am I receiving all the rights to which I am entitled?" should be couple with the more important and searching ones, "Am I using all the rights with which I am invested for the best good of society? Am I giving to others all the rights which belong to them, so far as my power extends?" It is this attitude of mind which gives breath and dignity to life, and raises justice and generosity to their rightful place in society.

What To-day Means To You.

"LEO."

If August 13th is your birthday the best hours for you on this date are from 6 a.m. to 7 a.m., from 3 p.m. to 4:30 p.m. and 11 p.m. to midnight. The danger periods are from 11 a.m. to noon and 5 p.m. to 6:30 p.m.

Only mind-control can offset the disheartening influences on this date. An Arab proverb says, "Dwell not upon thy weariness; thy strength is in the measure of thy desire." Apply this principle on your "to-day's" business, and failures may be turned into success. Opposition from an elderly person.

The child born on this August 13th will be shy, reserved, studious, and interested in scientific pursuits. It will seldom show its inner nature and will have a reverential disposition. It will not be an early riser from choice. It will be a most faithful and loyal friend.

You need to fight the procastination habit. It is so easy for you to put off until to-morrow what can and should be done to-day. You live in a blind hope that things will be easier later on. You lack the push and courage to clean each day's slate as it comes. The postponed task is often the undone duty, and your intentions become, many times, only inactive thoughts. The world will never know what a good fellow you intend to be. You think too much about what you have to do, instead of going at it and getting the immediate job done.

You have a compassionate nature, and a desire to do good. You associate readily with other people, are friendly and companionable and dislike loneliness Companionship is most essential to one of your temperament, and you must never live or travel by yourself. You get strong intuitional impressions, which you are advised to heed. They will lead you less astray than logic and reason in your case. You have refined tastes and considerable personal pride. You are obscurantist enough to believe in real love, and you do not waste lightly that which nature and honor intended you should keep for one man or woman. Given the opportunity of study, and the determination to make good, you could make a decided figure in the direction of the drama or music. A lack of self-confidence is a drawback to you in any career.

BUTCHER DIES AFTER ATTACK

St. Ann de la Pocatiere District Being Combed For Unknown Men.

ROBBED OF $150.

QUEBEC, Que., Aug. 13. (C.P.)—Provincial police yesterday were combing the vicinity of St. Ann De La Locattere in search of two unknown men who are responsible for the killing of Louis Bouchard, a butcher of St. Onesime, Kamouraska. Bouchard succumbed Monday in a local hospital from wounds received last Saturday night when he was attacked and robbed on the road to St. Ann.

Assaulted while he was coming home alone after a day's work at St. Ann de la Pocatiere, Bouchard was severely beaten, robbed of $150 he was carrying and left unconscious along the roadside where he was picked up the following morning, by passers-by. Rushed to a Quebec hospital, the victim regined consciousness before dying there yesterday and told of being attacked and robbed by two men but was too weak to give more details.

WARSAW

Miss Della Tucker has returned from a visit to Buffalo.

Mr. and Mrs. Fred Crowe arrived home on Thursday after a honeymoon spent on a tour of Canada, to the coast and returning through the States. They will live on a farm in Douro.

Mrs. John L. Kidd has moved into part of J. A. Crowe's house in the village.

Mrs. Henry Batten will take the topic Education at the next meeting of the Women's Institute which is being held on Thursday. Some of the members cleaned the old school on Tuesday and a large sofa has been loaned by Mrs. A. F. Choate.

Mr. and Mrs. Thomas Miller, Jr., returned to Toronto on Friday afternoon.

Master Bobby McClure, Toronto, is the guest of Mr. and Mrs. David Drain.

Mr. Hilliard Darling took a motor trip to Buffalo and return this week.

The annual meeting of the Bible Society will be held in the Presbyterian Church on Thursday evening, when the Rev. Mr Craw will speak.

The rain which came on Friday was very much needed in Warsaw. Pastures were drying and most gardens and root crops were badly in need of rain.

POWER CONTRACT LET

TORONTO, Ont., Aug. 12. (C.P.)—The Dominion Construction Company it was learned here to-day, has been awarded the $20,000,000 power development contract on the Abitibi Canyon site, about 64 miles north of Cochrane on the Temiskaming and Northern Railway.

It is expected the development will furnish additional electric power to the extent of 275,000 horsepower for the north country with the completion scheduled for 1932.

BEAUHARNOIS STILL REPLACING RODERS

Corporation Lets Two Sub-Contracts For Excavation Work —Increases Payroll.

MONTREAL.—While it is not intended to increase the present payroll engaged on the Beauharnois power undertaking, the Beauharnois Power Corporation has placed two sub-contracts for excavation work, and in addition will place shortly further orders in Canada for both electrical and construction equipment, thus increasing further the number of those employed directly and indirectly by the undertaking. The payroll at present numbers some 2,000 men.

The larger orders which soon are to be placed, include structural and reinforcing steel, cranes and the step-up transformers for the high tension lines.

The first sub-contract to be placed is for the diversion of the little St. Louis River, which runs for a short distance along the route chosen for the new power canal, and the second is for the removal of the over-burden at the tail-race site.

In carrying out the work, the Beauharnois Construction Company will not place any major portion of the work in the hands of sub-contractors. The sub-contracts already placed have been for work of an auxiliary character; thus permitting the large scale and costly equipment of the corporation to operate 24 hours a day on the main work of linking Lake St. Louis with Lake St. Francis. Such a program allows the large scale operations to proceed without interruption on the most efficient basis.

MASSEY TO SEE BENNETT

OTTAWA, Ont., Aug. 13. (C.P.)—Hon. Vincent Massey is understood to have an appointment with Premier R. B. Bennett for this afternoon. The post of Canadian High Commissioner in London may be discussed. Mr. Massey arrived in the capital this morning.

AT WINNIPEG

WINNIPEG, Man., Aug. 13.—(CP)—Wheat: Oct. ½ to 1¼ lower at 96⅛ to 96¾; Dec. ½ to 1¾ lower at 97½ to 97; May ⅞ to 1⅝ lower at 104 to 103¼.

CHICAGO, Aug. 13.—(CP)— Wheat Sept 90⅜-91¼, Dec. 95⅝-96¼, Mar. 1.00¼-⅜; May 1.03⅞.

Corn—Sept. 97½, Dec. 93⅛-94; Mar. 95⅝-96; May 97⅝-¾.

Oats—Sept 40⅝; Dec. 43⅞-44¼; Mar. 46¾; May 48.

DIPLOMATIC CORPS CALLS ON PREMIER

H. H. Hadow, Acting High Commissioner For Britain, is First.

OTTAWA, Ont., Aug. 13 (C.P.)—Members of the diplomatic corps in the capital called upon Premier R. B. Bennett this morning and paid their respects. Acting High Commissioner for Great Britain H. H. Hadow was the first to visit the new Prime Minister in the east block. Shortly afterwards, the Chancellor for the French Legation, Yves Corson; the United States Charge d'Affaires, B. A. Briggs, and Hon. I. Tokugawa, Japanese Minister to Canada, called and engaged in conversation with Premier Bennett for some time.

INTER-LISTED MINE STOCKS BEAR BRUNT OF HEAVY SELLING

Toronto Trading Reflects Action on New York and Other Exchanges.

GOLD STOCKS IMPRESSIVE.

TORONTO, Aug. 13, (Special to Examiner.)—The mining list continues to display softness, apparently taking its cue from New York and other local exchanges. With almost all classes of securities suffering under renewed selling pressure it is not to be wondered at mine and oil issues should receive little favorable attention at this time. Analyzing price movement on the mining market, however, it is evident the inter-listed stocks are bearing the brunt of the weakness, with the base metal stocks leading the downward trend.

In several respects the gold stocks have acted more impressively than the general run of mining issues. The Dominion Bureau of Statistics index number of seventeen mining stocks for the week ending August 7, was down from 69.1 to 68.9 while gold stocks held unchanged at 6.14. The general index compares with a record low of 68 whereas the gold stocks index is well above the low of 54.2. The relative decline from the high levels prevailing in 1928 has also been smaller for the golds than for the copper, silver and miscellaneous issues.

Stock Loaning Post.

The recent announcement that the Vancouver Stock Exchange has established a stock loaning post on the floor of the exchange and that facilities will be available for the public to take a short position in the market has created some interest locally. Officials of the standard have had similar project in mind for some time and will watch the results of the western innovation carefully. It is believed there would be little difficulty experienced in instituting similar practice in Toronto and that the whole matter could be handled readily through the exchange clearing house.

A wire from officials of Nordon corporation states the well in the Button Willow field has now been cemented to a depth of 4,700 feet, with gas and water difficulties encountered in the upper horizons entirely overcome. Drilling will probably be resumed within the next week or ten days. It is intimated engineers representing the British Oil Development Company, who recently inspected Nordon acreage in Western Canada were favorably impressed with the possibilities and that the deal is now awaiting the decision of their directors.

The Toronto office of Barry Hollinger is expecting news any time now that the ore body has been entered on the 1,750 level. The last rounds taken out showed considerably improved conditions, and it is anticipated the drift will be into the downward extension on the ore in the course of the next few shots.

Drilling at Brownlee is held up temporarily pending the replacement of present equipment with heavier machinery, one hole, put down to a depth of 1,300 ft., cut favorable geological conditions but failed to reach the ore as machinery on hand was inadequate to carry it further. Surface work is being carried out on the new gold discovery made at a point of 2,200 feet to the west of the drill location. Values so far secured, have been unusually encouraging, officials state.

WESTERN BUSINESS GENERALLY ACTIVE

Manitoba Board Chairman Says All Industries Except Those Depending on Agriculture Doing Good Business.

WINNIPEG, Aug. 13 (By The Canadian Press).—Manitoba does not expect that as many new industries will locate within her borders during the current twelve months as in the past few years, according to a statement issued by Theodore Kipp, new chairman of the Industrial Development Board of Manitoba.

"Factories in the East and elsewhere are not, generally speaking, bringing their plans for expansion to a head in the meantime," he said, "and consequently we cannot expect a large increase in the roll of provincial industries until their plans are altered with better times. But the Board is working steadily upon its programme for interesting outside concerns and in building the interest already gained, so that we shall be in a position to take full advantage of better prospects when they arrive."

Until better prospects are accepted generally as being at hand, however, the Board is devoting much of its energy to the assistance of industries already established where such assistance is needed. "At times," Mr. Kipp explained, "smaller industries are established by men who, while possessing the requisite technical knowledge, have not had a great deal of business training, and where such an industry has no progressed, we place our help at its disposal. We believe that, especialty under present conditions, a bird in the hand is worth two in the bush, and that the sure development of our existing concerns is of even greater importance than the attraction of new industries. With this end in view, we are making a careful survey of the smaller factories, and we find that the officers are invariably anxious to avail themselves of the experience and advice we can place at their disposal. Where we meet a problem which we do not feel competent to solve, we call upon one of the leading business men in Winnipeg who has experience in the line of business concerned."

Speaking of the Board's efforts to encourage consumption of the home-made article, Mr. Kipp mentioned that it is intended to extend this to a "Made-in-the-West" movement gradually, and that during the new year an opportunity will be given to Western manufacturers to show Winnipeg consumers just what they can produce. "We believe that, when we help the rest of the West, we are helping ourselves to a better market," he explained, adding that the Board had worked last year in getting a better reception for Alberta coal in Manitoba.

Lord Birkenhead Ill

The Earl of Birkenhead, one of the leading figures in British legal and political life, is seriously sick with bronchial pneumonia at his home in London. He is now 58 years old.

GENERAL TREND CONTINUES LOW

C. P. R. Old Registers Decline of Three Points to 178.

TRACTION RESISTS.

TORONTO, Ont., Aug. 13. (C.P.)—There was no improvement in the forenoon session on the Toronto Stock Exchange to-day and the general trend was lower with losses ranging from fractions to one of three points. Here and there declines of a point or more were experienced but the general body of stocks held well on a light turnover.

C.P.R. continued the bad actor with a new low and a decline of 30 to 178. Brazilian Traction continued to offer stubborn resistance and at midday displayed a gain of 5-8. International Nickel broke through 21 and moved within a fractional range for slight loss. Bell Telephone, International Utilities "A" and Page Hersey Tubes, were down a point or more and Ford, Steel of Canada, Loblaw, Massey-Harris and Weston fractionally. Walker firmed slightly to 83¼.

The oils performed better and steadied down after the late weakness of Tuesday. British American was up ¼, Imperial 1-8 and International Petroleum down 1-8 and Supertest and Canadian Oil unchanged.

THISBE AGAIN TAKES THE LEAD

American Defender of Canada's Cup Leading By Ten Boat Lengths.

ROCHESTER, N.Y., August 13 (C.P.).—Fifteen minutes after the start of to-day's race for the Canada's Cup Thisbe, the American craft, with new spreaders to replace yesterday's damage, had run her initial advantage over Norman Goodderham's Canadian challenger Quest to ten boat lengths.

The weather is unequal and the wind seems to play unevenly over the triangular course. As the crafts came to the starting line the series stood at one victory apiece, and both skippers hoped for the previous lead that will probably mean all.

The course is north-east for the first leg, west for the second leg, south-south-east for the third leg. The last leg is a beat.

BRIDGENORTH

BRIDGENORTH, Aug. 13.— A meeting of the Bridgenorth Community Park Association was held Monday evening at the home of William J. Telford. Among those present were R. J. Petersone, Eli Burston, W. A. Sidey, James Jopling, M. McWilliams and P. T. Udy.

R. T. Petersone was appointed chairman and Melville McWilliams secretary.

It was decided to hold a softball and horseshoe pitching tournament on Labor Day. Mr. McWilliam was appointed to secure two senior teams and four local teams for the softball tournament. James Jopling and Wallace Nicholl's were appointed a committee to look after the horseshoe tournament.

It was decided to have the ladies provide refreshments at the grounds. George Ball and R. J. Petersone were given charge of the children's races.

The members of the Community Park Association are endeavoring to make this one of the best sports event held in Bridgenorth.

Beauharnois Power To Fill Contract in 1932

TORONTO, Ont., Aug. 13. (C.P.)—The Beauharnois Power Corporation will deliver its first block of power October 1, 1932 said R. O. Sweezey, president, in an interview here to-day. The complete block of 500,000 horsepower output of the development at that date has been sold, he said.

Dominion and provincial governments will be asked to co-operate in the plan of keeping the canal work going, added Mr. Sweezey.

COUPLE OBSERVES 67 ANNIVERSARY

Mr. and Mrs. Frederick Burrows Have Held Silver, Golden and Diamond Weddings.

ENJOY GOOD HEALTH.

KINGSTON, Aug. 13.—(Special to The Examiner.)—Mr. and Mrs. Frederick Burrows, in excellent health and aged 89 and 86 respectively, recently celebrated their sixty-seventh wedding anniversary at their home in Toronto "We have had our silver, golden and diamond weddings and what more are there" asked Mr Burrows. It was in 1863 when the Burrows' nuptials were performed at Wolfe Island. The bride was Lucinda Barrett, daughter of Captain Tyler Barrett. Mr. Burrows had made her acquaintance while teaching school on both Garden and Wolfe Island. For ten years he was a teacher in the Bath Academy.

In 1871 while a teacher there, he received the appointment of school inspector of Lennox and Addington counties, which position he held for thirty-seven years. He was then thirty years of age and was the youngest of the first seventy-one inspectors to be appointed in Ontario by the late Dr. Egerton Ryerson. He is now the sole survivor of the seventy-one inspectors. On retirement Mr. and rMs. Burrows moved to Toronto, his native city. Four of their seven children are still living. Alfred, only one located in Toronto, is head of the geological staff at the Provincial Bureau of Mines; George is a medical practitioner at Marlbank; Arthur is in Vancouver and their only surviving daughter, now Mrs. Sexsmith, is also in Vancouver. The last two named, owing to the distance were not at their parents' home for the anniversary. Both sent congratulations and best wishes to the worthy couple. Mr. Burroys regrets that most of his former pupils are scattered over the globe, but he always took an interest in anyone, who came under his notice, and has kept track of as many as he possibly could.

HAMILTON MAN PLEADS GUILTY

J. Overand Sentenced Thursday For Attempt to Swindle Royal Bank.

CONFESSION READ.

HAMILTON, Ont., Aug. 13 (C.P.)—"Guilty" Your Worship," replied James Overand in Police Court this morning when he was charged with forgery and uttering in connection with the attempt to swindle the Royal Bank. He was remanded till to-morrow for sentence. Overand's wife, Florence, and Gerald Flynn faced three charges each, two of forgery and uttering, and one of conspiracy, but the Crown's case against Mrs. Overand was weak and all charges were dropped. This freed Flynn of the conspiracy charge, as it removed the individual he was alleged to have conspired with. He elected to be tried in a higher court on the other counts and was committed.

Detective Speakman read to the courth a written confession by Overand. This document declared that he had met Flynn in a pool room and that shortly after the latter had asked if he knew any way to make money. The pair went to the bank, where Overand was employed and examined the ledger. Flynn chose the name at random. It turned out to be M. Bradley, an employee of the Royal Connaught Hotel.

Flynn Poor Imitator.

The confession then declared that Flynn took a blank cheque and piece of carbon paper and attempted to duplicate Bradley's signature. This effort was poor, and he was suggested that Overand try it. He did so, and the results were so good in fact that later Bradley was unable to tell the difference between the forgery and his name as signed by himself.

The cheque was cashed for $2,500 on Bradley's account on March 15 last.

Continuing, Overand alleged blackmail on Flynn's part. He claimed that when he hesitated to have anything to do with the affair Flynn threatened to expose his (Overand's) marriage.

Then the confession told of the attempt to extract $2,975 from the account of William Carroll, well-known chain store proprietor. This effort at forgery ended in the apprehension of the accused.

OWEN SLUND ONT.

B.A. oil 16, Int. Nickel, 21; Twin City, Canada Cement, Int. Pete, 18 1-8; McIntyre, Duprat, Imp. Oil 19 1-8; U.S. Steel, 155¾.

Nearly 400,000 persons attended the Housing and Home Exhibition in Glasgow, Scotland, this year.

BRITISH PLANES REPULSE AFRIDIS

Active Assistance of Peshawar Natives to Hillsmen Decreases.

SOME DISAFFECTION.

PESHAWAR, India, Aug. 13 (C.P.).—Authentic reports from the north-western frontier indicate that the activities of British bombing planes and ground troops have cut great holes in the ranks of the hostile Afridi tribesmen who menaced the area this week.

Many of the force, which at first was estimated at 10,000 and crew, with the addition of other tribes, have withdrawn after heavy casualties had been inflicted.

Last night only about 1,200 Khilafatists were left in the Peshawar district, while in the caves of Khajuli Plain only about 3,000 of the original Afghan force remained. This last included 800 new arrivals, Rajgul Kuki Khels, who had joined the movement because they were unable to resist the pressure of their tribal neighbors.

Disaffection in other tribes was reported this week, but to-day it was stated that no developments among the Mohmands had been learned.

Government reports said that the active assistance of Peshawar natives to the Afridis was on the decrease, although sympathy with the movement continues strong in the city.

Meanwhile reports flow in constantly telling of casualties to the hillsmen from bombing.

Peshawar has been strengthened by reinforcements of troops and war materials, and no fear is felt for the city.

In Police Court

Magistrate Langley believes that "necking" and auto driving should not be mixed. In substance, that is what he told a local young man in Police Court this morning when he pleaded guilty to a charge of reckless driving on the Port Hope Highway.

Said Traffic Officer Hornick: "Your Worship, he was travelling at 45 miles per hour on the highway this side of Watering Trough Hill. A girl was beside him and she had both arms around his neck. She hung on as though she were saving herself from drowning, and it looked as though she was trying to choke him."

"I would say that it would have been better to pull off the road and park," the traffic officer hazarded, and was rewarded with a nod of approval from the bench.

"You are not married?" asked the Magistrate dubiously.

"No."

"Perhaps he is going to marry the girl," the Magistrate suggested.

A ten dollar fine, and costs, were levied, and the offender's driving permit was suspended for three days. "It isn't that youth can't do that sort of thing—putting arms around each other's necks—but it must not be done while driving," was the edict from the bench.

Failure to produce a driver's license when called upon to do so by an officer of the law cost Clifford Robbins of this city $3.00, and $3.90 costs. Leopold of Toronto passed another car on the highway when the road wasn't clear to the left and front. He was requested to chuck into the county coffers with $10.00, and costs.

A Toronto lawyer was charged with having liquor illegally in a place other than a private residence in which he resided. He pleaded not guilty, and, electing summary trial, conducted his own case successfully. The case fas dismissed by the Magistrate.

The case of Fred Imming, on remand on a charge of arson, was adjourned until to-morrow. He will then come up for preliminary hearing.

Having no permit for driving, Harry Farrance was fined $10.00, and costs.

SHELL EXPLODES WOUNDING YOUTH

Eleven-year-old Dayton Lad Passes in Front as Gun Goes Off.

IN DYING CONDITION.

SAULT STE. MARIE, Ont., Aug. 13.—(C.P.)—John, the 11 year old son of Mr. and Mrs. John Rogers, of Dayton, east of the Sault, is in the Red Cross Hospital at Thessalon in a dying condition as the result of an accident at the farm home about 1.20 o'clock yesterday afternoon.

A man employed at the farm, whose name is unknown, was cleaning a .22 calibre rifle, and had placed a shell in it. The shell failing to explode the man sent the boy for another and as he was passing in front of the gun the shell, believed defective, was exploded, the bullet entering the boy's abdomen and passing completely through his body.

Dr. W. B. Sproule of Thessalon, was summoned immediately by phone and lost no time motoring to the farm, a distance of 12 miles, and taking th boy to the hospital.

Miss Ida Rogers and Mrs. Frank Burdon, Sault, are sisters.

Daily air passenger service has been established between Monterey, Mexico, and San Antonio, Texas.

STANDARD LIST TURNS IRREGULAR AFTER FIRM OPENING SESSION

Decline in Ajax Oil Held Largely Responsible For Sudden Drop.

NICKEL EASIER.

TORONTO, Ont., Aug. 13. (C.P.)—The market turned irregular on the Standard Stock and Mining Exchange to-day after a firm opening. Largely responsible for this was the decline in Ajax Oil, and the softening tendencies of the other exchanges. Ajax which opened at $1.95 off a point, jumped to $2.00, and then dropped to $1.87 on the next transaction. A selling wave carried the stock down to $1.74 before any real resistance was offered. At this latter price Ajax was off 25 points from the previous closing price.

International Nickel was fractionally easier, while Noranda was off 50 at 122 Hudson Bay did not sell, but bid and ask quotes revealed little change.

Lindsleys Soften.

The Lindsleys started off well, but softened later, and at noon Ventures was off 4, Sudbury Basin 3 and Sherritt, which was up 8 in early sales, only showed a two-point advance. Falconbridge held an early gain of 4 at $2.05.

Golds were quiet and price changes were not large. Hollingers, Teck Hughes and Big Missouri were unchanged, while Vipond lost 5, Sisco 2, Premier and Wright Hargreaves 1, Howey was 2 higher at 38.

Waite Ackerman showed a loss of 19 at noon, selling down from $3.50 to $3.31 during the morning. Mining Corporation was up 5, and Abana 2, while Amulet and Nipissing were firm at previous closing levels, Amity, Newbec and Arno were unchanged and Bidgood went up fractionally.

The rest of the oils were not influenced at the start by weakness in Ajax, but later turned sympathetically downward, and at noon Calmont was off 2, East Crest 1, Home 5 and Nordon 3, with Associated and Mayland barely holding unchanged.

TIE RESULTS IN FOOTBALL LEAGUE

Central Playground Boys Defeat King Edward 2-0 in Loop Fixture.

By defeating King Edward 2-0 in a football game yesterday afternoon, Central boys created a tie in the City Playgrounds Association Football League. Both teams have now taken two and dropped two of the four tilts to date, and the final game, which it is expected will be played at the annual picnic tomorrow, will decide the issue as to which playground is to receive the cresta emblematic of the championship.

Downar and Whatman at fullback for Central presented an air-tight defence in yesterday's encounter and many promising King Edward sallies. Both of Central's goals were scored by Downer, the lively centre forward for the north-enders. In the first one he was assisted by Thomas, and in the second by Harris. Murney in goal starred for the winners.

For King Edward, Todds, Castle, and Fields worked hard on the forward line but struck a stonewall in the Central defence.

The fine work of Castle in goal was responsible for the fact that Central's total did not reached a higher figure.

The line-ups:

Central

Goal, Murney; Full backs, Downer, Whatman; half backs, Lustic, Flynn, Lustic; forwards, Brown, Sexon, Downer, Thomas, Harris; spares, Sedgwick, Halcrow, Abraham, Blade.

King Edward

Goal, Castle; full backs, Frost, McGovarin; half backs, Gordon, Jemieson, Gordon; forwards, Todd, Heales, Castle, Mowry, Fields; spares, Mackness, Ridley, Cunningham.

Referee—Mr. F. Downer.

REPAIRS TO R-100 ARE COMPLETED

Airliner Will Start For England Though One Engine Not Working.

REPORTERS TO MAKE TRIP.

ST. HUBERT AIRPORT, Montreal, Que., Aug. 13 (C.P.)—The following statement in connection with the airship R-100 was issued last night by W. A. Lawrence, press liaison officer;

"Minor damage to R-100 which occurred during flight over Ontario and return has now been made good, with the exception of one of the engines. It is not proposed to change this engine and the ship is now ready for flight, and it is proposed to leave Wednesday night as announced."

The dirigible will leave Montreal at 10 o'clock (E.D.S.T.), carrying, in addition to her crew, at least one Canadian technical officer and representatives of Canadian and British newspapers, probably nine or ten in number.

GENERAL'S ORDER SAVED THE WAR

Credit Given Smith-Dorrien By Field Marshal Von Kluck.

DISOBEYED FRENCH.

(By Thomas T. Champion C. P. Staff Correspondent)

LONDON, Eng., Aug. 13.—"Smith-Dorrien saved the war for the Entente by disobeying orders". This was the verdict of the formidable German Commander, Field Marshal Von Kluck, on the action of a General who opposed him in the early days of the war.

On the death of Sir James Grierson in August, 1914, General Sir Horace Smith-Dorrien was appointed Commander of the second army corps which received the brunt of the German attack on Mons. The General gave a "stand and fight" decision when Sir John French, then British Commander in France had ordered a retreat from Le Gateau.

Sir Horace thought the order, if carried out, would mean disaster and his sentence to his staff in a little room at Bertry: "Very well, gentlemen, we will fight", made military history.

Sir John French, after the battle, commended Smith-Dorrien in notable terms but he afterwards appeared to change his mind asserting the stand at Lecatreau was made unnecessarily and against orders. The British official history of the war, nevertheless, supports the action of Smith-Dorrien and the most prominent German commanders agree with the verdict of Von Kluck.

BARN LOST IN FIRE

STRATFORD, Ont., Aug. 13 (C.P.).—Fire early this morning entirely destroyed the barn and contents on the farm of Donald Robertson Nithburg on the township line between Northeasthope and Wellsley. Threshing operations were in progress and the fire originated in the straw stack. The loss is estimated at $3,000, partly covered by insurance.

FIRE RAGES UNCHECKED

(Continued from Page 1)

ments. Headed by Chief Emile Brisebois, a number of volunteer firefighters from Buckingham soon arrived on the scene.

The fire-fighters were given help by groups of citizens from Montebello, Thurso, Papineauville and Angers.

Rev. J. B. Routhier, Parist Priest, save the sacred vessels from the church.

Vessels Are Saved

Father Routhier expressed determination to stay with his church until the last. It was soon seen however, the beautiful white structure couldn't be saved but he was not persuaded to leave until the flames literally were licking at the door of the church. All sacred vessels and much of the church furniture had been removed from the edifice before the structure collapsed, a mass of twisted and charred wreckage.

Archbishop Forbes, head of the Ottawa Roman Catholic archdiocese, rushed from the capital to the burning settlement on being advised of the wide extent of the damage.

Flames leaped from every window of the church fifteen minutes after Father Routheir quit his post. Huge billows of smoke spead over the village, covering the disastrous progress of the blaze and the scene was one of vast destruction. Men working on a construction job outside the town dropped their tools and rushed into the centre of the destroyed area to lend a hand. Everyone who could carry water was employed in the task to supplement the work of the fire brigades who were hampered by low water pressure from the Lievre. Dynamite was used to block the path of the madly rushing flames but they had soon jumped the gap and contined their uncontrolled march.

Quarter Million Damage.

Early estimates were that damage three hours after the outbreak totalled approximately a quarter million dollars. The church was valued at $40,000. The convent accommodated 400 girls.

Among business properties which fell prey were: Mongeot's general store, Joseph Desrosiere, shoe repair, Hector Larose, pool room and grocery, H. Charlebois bakeshop.

The wooden construction of the dwellings and other structures in the village afforded the fire an easy task in its rapid march. Once the flames had eaten their way into the interior of the buildings, the walls usually collapsed like bellows and the eastern section of the town in which the flames first broke out, was practically levelled to a smoking mass of charred timbers.

TORONTO MEN TO OUTLINE UNEMPLOYMENT CASE

TORONTO, Ont., Aug. 1.—(CP)—Toronto's Mayor and Controllers plan to visit Ottawa shortly to submit to the Dominion Cabinet an account of the unemployment situation here. Preparation of the city's case will be made at a civic unemployment conference tomorrow. At the same time information will be secured regarding the problem for Hon. G. D. Robertson Minister of Labor, who has asked for detailed information for use at the Unemployment Service Council of Canada August 21.

FINANCIAL NEWS AND BRIEFS

A SPECIAL SERVICE TO THE EXAMINER

Declining prices in the stock markets failed to create the same interest as did development in wheat. The conference at Ottawa concluded without a definite decision being arrived at. The Canadian banks have a huge sum of money tied up in wheat with the time at hand for the financing of the new crop and with the pool wishing to make an initial payment of 70 cents a bushel and the banks only willing to finance to the extent of 60 cents the Federal government is understood to have declined to afford any guarantee. Pool officials and banking directors have returned to their respective cities to confer with others and it is expected that a decision will be arrived at shortly and announcement of initial payment to be made for the new crop made within a few days. In the meantime many see advantage to the Dominion in the situation across the border. The department of agriculture of the United States does not look for any surplus of wheat for export and believes the entire wheat crop of the country together with last year's carry over will be required to maintain what will be required to meet domestic and farm animals and meet the needs of human consumption. This state of affairs and poor crops in some parts of Europe is expected to provide a market for Canada's large exportable surplus of wheat.

C.P.R. Drops to New Low.

Canadian Pacific old stock sold to another new low for the year fractionally below 180 at the opening of the Toronto Stock Exchange to-day. The depreciation in the market value of this issue is due to a number of circumstances. Listed on the New York stock exchange, C.P.R. moves in sympathy with the American group of railroad securities and as the U.S. roads are cutting freight rates to afford relief for the drought area all the rails in that market, including C.P.R. have been subjected to selling pressure. The slow movement of grain from Western Canada and the large carry over naturally effected the earnings of the Canadian road and there is doubt that the company will fully earn the 10 per cent dividend of the common shares, but there is no doubts of the roads ability to pay this disbursements meeting the deficit out of surplus until such time as business improves. At 180 the stock returns a yield of 5.55 per cent, the most liberal in some time and with the proposed split of four for one the security is now within the reach of all classes of investors.

Financial Review.

The Canadian annual financial review for 1930, generally called the "Blue Book", published and compiled by W. R. Houston, of Toronto, is ready for distribution. The publication this year is a much enlarged volume comprising approximately 1,150 pages and according to the publisher is a carefully revised precise of facts regarding Canadian securities. Most recent financial statements of Canadian corporations having securities listed on the Canadian exchanges are contained therein together with the high and low prices for securities for years back, dividend records and the officers and members of the Toronto and Montreal stock exchanges.

SECOND HEAT IS GIVEN CONTEST

Village Name Committee Will Receive Entries Up Until Saturday Night.

RESULT KNOWN MONDAY

The race for the honour of naming the City's south-east suburb and winning a generous prize is to have a second heat, due to urgent requests to the effect that more intelligent rivalry and wider participation among the higher-grade students would result. Many parents of absentee pupils joined in the request for another week.

The "Village Name Committee" met last Saturday evening to open the letters which brought a number of excellent suggestions. The members were impressed by the seriousness given the subject and unanimously agreed to a second week for initiative and intense study by contestants.

The prizes tendered by the "Village Name Committee" are $10 for an acceptable name; $7.50 for the second best suggestion and $5 for the third runner in the Name Race.

The Examiner learned on good authority that out of the mass of names sent in a few were peculiarly appropriate. This week may give the First Prize to the contestant that sends in a name that is preeminently fitting.

The committee in charge of the Name Race is composed of gentlemen who are either resident or interested in the extensive community along the south-east boundary of the City of which Downers Corners, near the lower Peterborough Falls and Lock, is the centre.

They voted unanimously to extend the competition until noon next Saturday, 16th inst. when the goal will have have been won by initiative and intensive study of the subject.

The opportunity is open to all, but more especially to the pupils above primary grades of Public and Parochial Schools. Contestants are requested to address sealed letters to the "Village Name Committee" care of Examiner Office (on or before Saturday noon August 16th) with signature in full, local school, grade, age and postal address.

The committee will give precedence to initiative and originality but they desire a simple, short, euphonic name of historic, traditional or local significance.

The first prize will go to the person who suggests such a name or one that, in itself, belongs to and designates the village of lovely homes and gardens, playgrounds and social contentment.

The names received will be judged on their merits by the Committee in session (Saturday evening, August 16th.)

Awards will be made public in the Examiner on Monday, August 18th, in event that an acceptable name shall then have been chosen.

DISTRICT NOTES from Villages and Towns in District

(BY CORRESPONDENTS OF THE EXAMINER)

ENNISMORE.

Miss Margaret Mulvihill of Lindsay spent a few days recently the guest of Miss Nellie Conway.

Miss Harriett Matthews of Toronto spent a few days last week with Mrs. F. Cavanagh.

Mr. Gerard Scollard of North Bay spent the week end with his parents, Mr. and Mrs. W. J. Scollard.

Messrs. John Cavanagh and Wm Murphy spent Sunday with friends in Lindsay.

Mrs. Noonan and family of Perth are visiting the former's parents, Mr. and Mrs. John Gannon.

Miss Irene Kearns, R.N., spent Sunday with friends in Marmora.

Mr. and Mrs. Thomas Cavanagh visited Mr. J. R. Hickson of Lindsay on Sunday.

Messrs. Sam and Sherman Killen of Peterborough spent a few days recently with friends here.

Mr. P. Twomey of Detroit is spending a few holidays with friends here.

Mr. D. Perdue of Toronto spent Sunday with friends here.

Mr. F. Cain of Lindsay visited friends here on Friday evening.

Mr. and Mrs. Fred Twomey and family spent Sunday with Mr. and Mrs. E. Curtain of Lindsay.

TWEED.

The lawn social in aid of St. Carthage's Church was held on Wednesday evening and was largely attended. A fowl supper was served from six until ten o'clock.

Dr. Gray has not fully decided where he will locate permanently and continue his medical practice, but it may possibly be in New York.

Mr. John Gray is building a bungalow on his property, Main Street, where his previous residence was burned down some two years ago.

Mrs. William Sanderson and two daughters, Helen and Janet, of St. Catharines, are visiting his parents, Mr. and Mrs. W. H. Bingham.

Miss Myrtel Russell, of Toronto, has been a recent visitor in town the guest of her aunt, Miss B. McCorry.

Miss Gertrude Spence, of Toronto, is spending the months of July and August with her parents, Mr. and Mrs. John Spence.

FENELLA

Recent visitors at the home of Mr. and Mrs. W. H. Sandercock were: Mr. and Mrs. William Brisbin and son Vance of Cobourg; Mr. and Mrs. J. Oakley and three children, Mrs. Elton Gillespie and two children of Toronto, and Rev. J. N. and Mrs. Lovelace and children, Evely, Beatrice, Marian and Bertha of Ivanhoe, who are holidaying at their cottage at Rice Lake.

Miss Lenore Leach has returned from a pleasant holiday at the home of her uncle, Mr. Archie Campbell, Roseneath.

Harold Bethswereck, of Montreal, visited his aunt, Mrs. Leach during the past week.

Mr. and Mrs. L. Sherwin and family of Cobourg visited their relatives, Mr. and Mrs. Phineas Warner on Friday.

Mr. and Mrs. H. Bethswerick of Warkworth and son Harold, of Montreal, Mr. and Mrs. N. C. Leach, and children Lenore and Don, Mr. and Mrs. S. Leach and nephew, Whitney Leach of Hamilton, and Mr. and Mrs. R. Baptist and son and daughter Janet, and Mr. Mellville Baptist held a reunion picnic in Victoria Park, Cobourg on Sunday last.

Mr. and Mrs. Joseph Lundy and son Donald of Syracuse, N.Y. are visiting at the home of their cousins, Mr. and Mrs. John Herrington.

BLAIRTON

Miss Mabel Bonar of Peterborough is spending her vacation with her parents here.

Mr. and Mrs. Kenneth Walbridge and son Glenn of Cobourg spent the week-end with the former's parents, Mr. and Mrs. Allan Walbridge.

Mr. Raymond Collett and Clarence Walbridge took in the excursion to Orillia on Thursday last.

Mr. and Mrs. Ross Loveless and Marie of Marmora spent Sunday afternoon in Blairton.

Saturday visitors at the home of Mr. and Mrs. Allan Walbridge were Mr. and Mrs. Robt. Milsap and Mrs. William Close of Napanee, Miss Susan Johnston of Winnipeg and Mr. and Mrs. Percy MacMullen and children also Mr. Edward Montgomery all of Wellman's Corners.

Miss Edith Cole spent Thursday evening in Marmora.

Mr. and Mrs. James McKeown and daughter Olive of Stanwood spent Sunday with the latter's brother, Mr. James Russel.

TRENT RIVER.

The Ladies' Aid of the United Church held a lawn social at the residence of Mr. James Longmuir, Havelock Road, on Wednesday, August 13.

Messrs. Thomas Wilkinson and John Leach, of Toronto, were over Sunday visitors with Mr. and Mrs. Stanley Carnrite.

Master Clayton Revoir has returned from spending a week at Cobourg with his sister, Mrs. N. Frank, and family.

Mr. Thomas Tyler has been confined to bed through illness.

Mrs. W. W. Redden has made a good recovery from the effects of her recent operation in a Toronto hospital, and has returned to her home.

Leaders in the Great Empire Games

These are big days for the "city under the hill" with the British Empire games imminent and athletes from all over the map congregating in droves. Not only the active participants themselves but many officials are also located in the sporty little burg, some of whom are shown above. They are, reading from left to right: W. H. Childs, honorary secretary of the British Empire games; R. J. Hobbs, manager of the New Zealand squad; Robert Hunter, hon. coach of the Leander Rowing Club, Hamilton; H. Ayres, hon. coach of the New Zealand rowing contingent, and Dr. J. W. Tice of the Leander club.

Applications of nurses, who are receiving from $125 to $300 a year, for salary increases have just been denied by Colerame, Ireland, workhouse officials.

Japan may extend its campaign for encouragement of home industries to giving preferred treatment to companies having majority Japanese capital and management.

Umpires' stands at important tennis matches in England have been equipped with telephones for use in case of emergency or to make important announcements.

GUARDSMEN FIND DISABLED YACHT

Vessel Lost in Squall After Crew Goes to Rescue of Boy.

ALL ARE SAVED.

NEWPORT, R.I., Aug. 13 (C.P.) — The auxiliary schooner yacht Wanderer IX, was towed into this harbor early to-day after an all-night search had been made for her by Coastguardsmen. A boy who had fallen overboard and two men who had left the schooner to rescue him came ashore in a small boat. Three other men had remained aboard the craft which became disabled in a squall.

The boy, Thomas Witherbe, 15, of Narragansett, was rescued by a man in the party, who dove after him, and the two were picked up in a small boat by A. G. Pendleton, another of the party.

GOODRICH TIRE CO. WINS BIG LAWSUIT

Recent Decision Has Saved Motorists of Country Millions.

Millions of dollars were saved to the motorists of the country in a recent decision handed down by the United States Circuit Court of Appeals in favor of The B. F. Goodrich Rubber Company, the parent firm of Canadian Goodrich Company Limited, in the balloon tire patent infringement suit which was instituted against it by The Steel Wheel Corporation of Detroit.

The suit was originally brought in the Federal Court at Detroit on the Putnam "Balloon Tire" patent which purported to cover all tires of large size in proportion to their load and having thin side-walls and designed to operate with low air pressure.

The defence produced evidence showing that as far back as 1910 the B. F. Goodrich Rubber Company had introduced cord tires in this country answering to all the specifications of the patent. Incidentally it was brought out that such "balloon tires" were used and have continued to be used since that time by the King of Great Britain on his personal cars.

NOW is the time to Lock your Barn Roof against Fire and Weather

Brantford Arro-Lock Slates have a special interlocking feature that fastens all the slates together to form a ONE-PIECE roof.

The heaviest rain cannot penetrate. Wind cannot carry off single slates, nor can sun, hail or snow cause damage.

Brantford Arro-Lock Slates are permanent protection. They cost less to buy, less to lay, nothing for upkeep, and can be laid right on top of old wood shingles, during harvest-time if necessary!

Their colours are fadeless Red, Green and Blue-Black, or the new blended shades "Dorset" and "Cornwall" for striking appearance.

See the Brantford dealer now while labour is plentiful and get a first-class roof on at lowest cost.

Brantford ARRO-LOCK Slates

158 Brantford Roofing Co., Limited, Head Office and Factory: Brantford, Ont.
Branches and Warehouses at: Toronto, Windsor, Winnipeg, Montreal, Halifax, Saint John, N.B. and St. John's, Nfld.

CASTROL users are *thrifty* people

COOL DRIVING THESE HOT DAYS

Hot months can be expensive months for motorists who depend on inferior lubricants.

Play safe! Castrol not only slashes your oil bills but protects the engine from excessive heat... reduces repairs... makes possible the utmost in motoring comfort! Watch for the Castrol Sign!

YOU would not buy tires good for only 5,000 miles! You would not use a gasoline that gave only 5 miles to the gallon! Then, why use a motor oil that gives only 500 miles before a change is necessary? Castrol gives up to FOUR TIMES the mileage of an ordinary oil... 2,000 miles without change.

An ordinary oil costs you, say, $1.40 (for a four-quart filling) every 500 miles you drive. Castrol actually costs you only 50c for the same mileage! A saving over the cheaper *per quart* oil of exactly 90c. The more you drive in a year's time the greater the saving!

RANSOM

by RAFAEL SABATINI

Illustrated by A. SPERRY

"My lord, I fear you nave not quite understood. This old Flemish custom, to the exercise of which you wisely consented, runs that a marriage-knot tied at the gallows rescues a doomed neck at the halter."

Gently, tenderly smiling, she confronted him. "Will you deny me my wish, Sir Tristan? Will you shame me by refusing me here before all these?"

THE sire of Tristan de Beloeil, standing upon the threshold of eternity, considered perhaps for the first time since his birth, twenty-five years ago, how much there was in life which could not be left without regret.

Well-born and well-dowered, comely of face and tall and vigorous of body, the world's best gifts had lain within his easy reach and there had been on his part no reluctance or niggardliness in making them his own. For his own part he was content enough with the world of men, and would prefer to continue to inhabit it, postponing until much later the delights of paradise to which the hangman was to despatch him in the morning.

He leaned on the stone sill of the solidly-barred window of his prison in the Gravensteen of Ghent, and contemplated a sunset for the last time, bewailing that he lacked the power of Joshua to arrest the sun in its course and so postpone the doom which its circling would bring him in the next twelve hours.

Never had life seemed so sweet and desirable as now that by the justice of the great Duke of Burgundy he was to forfeit it. This justice, he thought, had been too harshly administered by the Ducal Lieutenant in Ghent.

It was true that the Sir Tristan had grievously wounded a man; and equally true that deeds of blood were of all offenses those which the ducal lieutenants, operating so briskly with sack and cord throughout the Duke's wide dominions, were instructed to punish most rigorously. But, after all, this had been no act of brigandage. It had been something done in the way of honor. The Sire Tristan had fought honorably with Conrad van der Schuylen, and it was monstrous that he should be required to pay for it by dying a felon's death.

Yet if the Ducal Lieutenant of Ghent, the wooden-faced Sire de Vauvenargues, had confined himself in his judgment to the fact itself and taken no account of the circumstances, the fault was largely the Sire Tristan's own. He had stubbornly refused to inform the court of the grounds of the quarrel, arrogantly claiming that he was within his rights to engage in single combat whenever honor should demand it.

"How," the Ducal Lieutenant had asked him, not unreasonably, "are we to judge that honor demanded it in this instance unless you state the grounds upon which you quarrelled?"

Marching to His Doom

THE Sire Tristan, however, would not yield the point. "It is a gentleman's right to quarrel upon any grounds he pleases. The grounds of this quarrel are such as I cannot publish without disloyalty to its cause. It is in your knowledge that I did not fall upon Messire van der Schuylen unawares, like an assassin; therefore you cannot deal with me as with a common murderer."

But the court showed him that it could. If he would not defend himself in what the court accounted proper terms, the court must assume that he had no proper defence. Van der Schuylen's turn would come later when and if he recovered sufficiently to stand his trial. Thus the Ducal Lieutenant, who thereupon proceeded calmly to pass sentence of death upon the Sire Tristan de Beloeil as an example to all men who might be disposed to practice turbulence within the ducal dominions.

The Sire Tristan was sprung from a family of some consequence, and this family exerted itself vigorously, urging as a last plea its ancient blood as a reason why execution should be stayed until appeal could be made to the Duke's Highness in person. But the Ducal Lieutenant met the plea with that monstrous falsehood of all time that in the eyes of the law all men are equal, and that, therefore, no appeal to the Duke could avail.

Thereafter, an advocate had arisen in the gray justice chamber of the Gravensteen to offer on behalf of some person or persons unnamed to ransom the prisoner by the payment of any reasonable fine which the Ducal Lieutenant might see fit to impose as an alternative.

He was curtly informed that the justice of Burgundy was not for sale, and the Sire Tristan was conducted back to his prison there to prepare himself for his end. He was not even to have the satisfaction of knowing what stout generous friend had sent that advocate before the court with his amazing offer. The Sir Tristan possessed many friends; but he could think of none whose love for him would have gone such lengths.

They kept him waiting until noon next day, thereby subjecting him to a torment of hope. He perceived one reason when at last they brought him forth from the palace-fortress and led him through the mean alleys of the Oudeburg to the great square where the scaffold was erected. They had chosen the hour when the noon bell summoned the forty thousand weavers of Ghent from their looms to the midday meal. The hour of deserted looms was deliberately chosen so that all Ghent might be free to witness the operation of Burgundian justice upon a disturber of the peace.

Under a strong guard of archers in white surcoats over their hauberks came the Sire Tristan de Beloeil marching briskly to his doom. He carried himself erect, his face composed, if pale, and he had dressed himself in his best, as if for a bridal, accounting that his birth and blood demanded that he should make as brave a show as possible on this his last appearance.

Reaching the Gallows

BEHOLDING him so young and comely, so elegant and intrepid, the crowd was moved to general compassion, whilst here and there indignation rose that he should suffer a felon's death for a deed which no equitable justice would have regarded as felonious.

The Sire Tristan was bareheaded, and the abundant hair which hung to the nape of his neck was so lustrously golden that it reflected the sunlight of that fair April noon, so that an aureole of light seemed to glow about it. This was observed by some and pointed out as a portent, a sign of heavenly grace, a prognostic of beatitude to be earned him by his approaching martyrdom. A woman was the first to voice it.

"There is a nimbus about his head!" she cried. "It is a sign!"

Another took up the cry and amplified it: "There is a throne awaiting him in heaven, the dear young saint."

The people began to mutter, to protest against this hanging, and, at last, to jostle and hinder the archers of the guard, so that these were forced to employ their staves to thrust back the press and open a way to the gallows prepared for the execution.

Under the shadow of the crossbeam, from which the noosed rope of yellow hemp was dangling ominously, the Sire Tristan stood to address the people, as was the right of every man in his parlous case. His face was gray; the brave smile on his lips was stiff, frozen and lifeless. A sort of paralysis held him. Neither his mind could conceive nor his lips articulate any valedictory words for the people, upon whom a hush of piteous attention had now fallen. But before the perception of his plight had time to arise, the general silence was broken by a cry, followed by a rapidly spreading turmoil.

It began at a corner of the square, and appeared to have as its source a lady on a richly caparisoned white horse, for whom a number of grooms were laboring to open a way through the crowd, a way which opened of itself rapidly enough and almost joyously once her identity became known and her object, or at least some part of it, suspected.

She was the Lady Margaret of Saint-Gilles, the daughter of an opulent Flemish nobleman of Waes, sharing the esteem and effection in which her father was held throughout Flanders, adding to it even by her own natural endowments. She was unknown to the Sire de Vauvenargues, who was a Burgundian. But there was in her commanding beauty a passport to the favor of any man who was not withered to the marrow. And the Sire de Vauvenargues, for all his cold austerity of manner and lean gravity of countenance, was still on the young side of forty and far from insensible.

Disturbed though he might be again by the growing murmurs of the populace, yet the greater part of his attention at the moment was for this splendid figure in a trailing riding-dress of mulberry velvet, mounted on that richly caparisoned horse. She carried her head proudly, he observed, and as she neared the low balcony he occupied he was dazzled almost by the effulgence of the dark blue eyes which glowed in a face as pale as ivory. Her head was crowned by the tall steeple-shaped hennin, from which floated a misty veil of blue, and a jewel of price gleamed in the black frontlet across her brow, as if to proclaim her rank.

A Dramatic Appeal

WHEN first the eyes of the Sire Tristan beheld her, a tremor ran through his limbs, a tinge of color crept into his pallid cheeks and life returned to his gaze.

Now the attention of the captain of the archers, of hangman and even of priest, like that of the multitude, was transferred from the doomed man to the lady on the white palfrey. The Sire Tristan had suddenly ceased to be the chief actor in this grim scene.

She had drawn rein immediately under that low balcony whence the Ducal Lieutenant in his furred gown and chain of office observed her, with the Burgomaster van Genck and a group of attendant officers. She lifted up her voice, a voice rich, sonorous and musical, to match her splendid personality.

"A boon, my lord lieutenant! I ask as a boon what, by our ancient Flemish customs, I might claim as a right: That I may be married to this man whom the duke's justice has brought here to hang."

It occurred then to Tristan de Beloeil, who had missed no word of it, that all this was not real; that it was not happening at all; that he was still in his prison asleep, and so dreaming of this incredible thing. The Sire de Vauvenargues, ignorant of the ancient Flemish custom to which she appealed, may have had some similar thought. He flushed and scowled. He turned to the lady with a curt, contemptuous dismissal, but her beauty withered it on his lips. He had to content himself with a cold announcement that what the lady asked was impossible.

The ducal lieutenant's answer came harsh and impatient. "The request is unexampled, an effrontery! You delay the duke's justice frivolously, madame. It is unheard of!"

Impulsively he raised his hand to signal to the captain of the archers, but found his arm caught in the grasp of the burgomaster, whose face was very grave, his eyes almost scared.

The applause below had suddenly changed to angry murmurs, which grew as they rippled through the ranks of the multitude. Clear above the inarticulate mutter of indignation came the shouted words:

"It is an honored Flemish custom, lord lietenant!"

"The Duke of Burgundy would not trample on our rights and privileges!"

"You are false to your trust, lord lieutenant, if you deny this lady!"

Despotic, cold and arrogant, the Sire de Vauvenargues might be; but he was not a fool: indeed, he was a man of some acuteness, else he would not have been raised by Charles of Burgundy to the eminence he occupied.

He turned for guidance to the burgomaster.

"What is this, sir, of a custom, a right, a privilege?"

"It is as they tell you, my lord. It is an old Flemish custom which gives any woman the right to marry a doomed man on the scaffold, provided that he is marriageable."

Married on the Scaffold

THE lieutenant's lip curled. "A gruesome custom that, faith, and a stupid. But I'll not provoke a riot by refusing them so barren a favor."

He leaned from the balcony. His harsh, penetrating voice rang clear. "I bow to your Flemish privileges, madame. Your request is granted in the duke's name. I beg that you will make haste, so that we may conclude the business upon which we are here."

Lady Margaret thanked him snortly, and wheeled her horse about.

The crowd fell back readily enough and amid acclamations and laughter, she came to alight at the foot of the scaffold and to mount its steps to where the Sire Tristan waited. Gently, tenderly smiling, she confronted him.

"Do you take me to wife, Sire Tristan?" she softly asked him.

Sire Tristan sought her glance and fled from it; he made a convulsive movement of his arms.

"Madame! Madame! Bethink you of yourself. I am not worthy that you should do this."

"It is for me to be the judge of that," she answered him. "It is my wish. Will you deny me? Will you shame me by refusing me here before all these? That were to make me a subject of mockery for all the days of my life."

He lowered his head, his face flaming scarlet. Subduing his voice so that only she might hear him, he made his almost agonized protest. "You should not——" he was beginning when she interrupted him, sensing what he was about to say.

"Perhaps I should not." Her voice was almost wistful now. "But it is done. I am committed to it." A great sadness seemed to overwhelm her. "Dismiss me if you will . . ."

He fell on his knees before her there in the sight of all, and it was a spectacle that thrilled the audience with delight.

"Lady, my worthlessness is the only barrier."

With one hand she raised him, with the other she beckoned forward the priest.

Messire Tristan protested no more. He could not make a mock of her by refusing this precious gift of herself which he knew she must offer out of pity for him. Swiftly the vows exchanged, the words of the nuptial blessing uttered, binding them irrevocably, and already to the wild acclamations of the crowd she was leading him by the hand to the steps of the scaffold, when the Burgundian captain intervened.

"Gently, gently, lady!" His gauntleted hand closed upon the arm of Sire Tristain as he gave the order: "You'll leave your husband with us, if you please."

The crowd percieved his action, those nearest even overheard his words, and he was answered instantly by a howl of fury from a thousand throats.

At the head of the steps, the Lady Margaret and her bridegroom stood arrested, waiting.

Escaping a Riot

IN the balcony the Sire de Vauvenargues was expressing his indignation to the Burgomaster.

"What is this? I accord the boon, I bow to your absurd Flemish custom, and this is how your people requite me. If subordination of the Duke's——"

The Burgomaster interrupted him. There was almost a sly humor about the sleek little man.

"My lord, I fear you have not quite understood. This old Flemish custom to the exercise of which you wisely consented, runs that a marriage-knot tied at the gallows rescues a doomed neck at the halter."

"Ventre dieu!" swore the Ducal Lieutenant in his amazement. Then his anger mounted again. "Why did you not tell me of this?"

"I did not think there was the need. The inference seemed plain. What point else would there be in such a marriage?"

"Did you not hear me complain that I found it pointless? I am not a man to be easily fooled, nor is Burgundian justice so easily to be cozened. That man hangs as surely as——"

"In heaven's name!" The Burgomaster was trembling with dread and horror. "You might have escaped a riot by firmness before. You cannot now. You might have refused to admit the custom. Having admitted it, you cannot trample upon it. You must perceive this, my lord."

Thus the Ducal Lieutenant swallowed his pride and arrogance, to make the announcement.

He confessed that he had not been aware of the full import of the custom when he gave his consent to the marriage. But that, having given it, he could not well do violence to Flemish privileges by insisting upon the execution of the just sentence passed yesterday in his court upon the Sire Tristan de Beloeil. Applause broke out at this, and he was forced to pause until it had subsided before adding that, being no more a servant and mouthpiece of his highness the Duke of Burgundy, whose loyal, faithful subjects they all were, it was not in his power to do violence to Burgundian justice by allowing the prisoner to go free. He was interrupted again, this time by a storm of angry protests and even threats. In resuming presently, he made an even further immolation of his pride. He cast himself as it were upon the mercy of the people.

That same afternoon, the Sire de Vauvenargues set out for Brussels with his prisoner and a strong escort of fifty Burgundian lances. He suffered the Lady Margaret to attach herself and her attendants to his train, since it was not really in his power to prevent it. But he bore the Lady Margaret no love for the difficulty in which she placed him, and he refused her permission to communicate in any way with his prisoner, however much that same prisoner might now be her husband.

This was distressing not only to her, but also to Sire Tristan, who was still bemused and bewildered by the event, and desired at least an opportunity of expressing his gratitude and other things to her before they strung him up, as he was quite convinced they would do once Brussels and the Duke of Burgundy were reached.

"They Will Hang Me"

BETIMES next day Sire de Vauvenargues presented himself for the bad quarter of an hour with the Duke which he had every reason to expect. He was introduced to the duke's study and received with a scowl such as that with which he, himself, was in the habit of intimidating suppliants.

"By what authority, sir, do you leave your government?"

The Sire de Vauvenargues bent himself almost double. "I trust the case, when your highness shall have heard it, will justify me."

"Is there a revolt among these mutinous Ghenters?" The duke detested all Flemings, and of all Flemings he detested the Ghenters most, having had a taste of their insubordinate quality. "There might have been had I not decided to seek the guidance of your highness."

"So, so!" The young duke heaved himself up.

The ducal lieutenant told his tale none too well. The duke's manner was not conducive to lucidity. It was some little time before his highness caught the drift of it. When at last he did, he laughed ferociously.

"So that the threatened revolt was of your own making, sir lieutenant?"

"Of my making, highness! I did not know——"

"Just so; you did not know, and you had not the wit to inform yourself, nor indeed, it seems, the wit to discharge any part of your duties. First you choose to make a public show of this hanging, appointing for it the hour when the looms are deserted and all these mutinous weavers are in the streets; then you pledge me to a crazy custom which makes a mock of my justice. But my justice, I tell you, is not to be mocked So you will get you back to Ghent with your prisoner and there execute the sentence you passed upon him in my name."

The lieutenant was aghast. "If I hang him, the Ghenters will certainly hang me afterward."

"Heaven give them joy of it," said the duke. "What else are you fit for?"

"Nothing else if your highness thinks so. But to hand me is, after all, in a sense to hang your highness, since I am your highness' representative."

The duke sneered at him. "I could bear to be hanged by proxy. Indeed, it will be a satisfaction to be hanged by proxy if you are the proxy. And it will give me the right to read those Ghenters a sharp lesson in submission, which they appear to need. I will avenge you roundly. Be comforted by that."

The Duke's Verdict

BUT the Sire de Vauvenargues was not so easily comforted. Far from it, he was driven now to become in earnest the advocate of the Sire Tristan.

"Highness, if I dare presume so far, since the error is committed, is it prudent, or—— or—— expedient to permit the life of one man to—— to——"

The glare of the ducal eye brought him faltering into silence, and he heard the royal verdict:

"It is not the life of a man that is in question. Your blundering gives me to choose between a riot, perhaps a revolt, in Ghent and the flouting of my authority. There can be no hesitation for me. This man of yours must hang, whatever the consequences and in spite of all Flemish customs." Then, contemptuously: "Show me how to avoid it, and I will overlook your wooden-headed blundering which is responsible."

If the Sire de Vauvenargues felt, as many another felt, that the service of princes is the service of the ungrateful, he choked the feeling down to apply his wits to discovering the way of escape for himself from royal punishment.

"If, highness," he suggested, "in your revision of the case, you were to discover that my sentence had been unduly severe, there would no longer be any question of pardoning the offender or bowing to any custom. Your highness would simply cancel my sentence and reprimand me."

The duke raised his black brows: his eyes gleamed momentarily from some inward quickening Then he was frowning again.

"What was the man's offence?" he asked.

The Sire de Vauvenargues informed him exactly. There was a pause, in which the duke's dark eyes pondered his lieutenant inscrutably. Suddenly they blazed, and his harsh voice was raised.

"By St. George!" he swore. "And you sentence men of birth to death in Ghent upon no better grounds?" He raged on from that, heaping invective upon the head of the unfortunate lieutenant, who could not be sure whether his highness were acting or not in his doubt he found it necessary to defend himself.

"The orders of your highness for such cases left me no doubt or choice——"

"Will you argue with me, woodenhead?" The duke's fury lashed him. "Get you back to Ghent, and remember what I have said. I will deal, myself, with this prisoner of yours."

The Sire de Vauvenargues went out backwards, glad to make his escape, certain that the duke's anger was so much make-believe, and more persuaded than ever that the service of princes was as thankless as it was perilous.

An Astonishing Revelation

THE Sire Tristan de Beloeil, brought before the duke, was clearly informed that his highness, having sifted the matter of his offence, had reached the conclusion that the ducal lieutenant in Ghent had used him with excessive rigor in sentencing him to death. It was because of this, and because of this only, and not out of deference to any plaguey Flesh customs, that he was permitted to go free and rejoin the lady who had taken him to husband.

The lady Sire Tristan, found at the "Lion of Brabant" when presently he came there, conducted by one of her attendants whom he found waiting for him in the courtyard of the "Cour des Princes." Of all the trials and anxieties that had been his since he was sentenced, this was by no means the least. He entered her presence in trepidation. She rose in a trepidation still deeper to receive him.

For a long moment they just stared at each other across the width of the room in which they found themselves alone together.

"Madame," he said, between plaintiveness and reproach, "why have you done this?"

"Surely, surely, sir, the reason is plain. It is in the consequences. To save your life. I know I forced it upon you. You could not humiliate me by preferring the hangman's knot to mine. You were too gallant for that. But I hoped life would tempt you; that you would choose to avoid the bitterness of death at any price."

"At any price!" he echoed, with a little twisted smile on his pale lips. "Yes. At any price to myself. But not at any price to you, madame."

He saw her eyes quicken at that, saw the flush that crept into her pallid cheeks. "But if I was glad to pay the price?"

At that he fell to trembling. "It is not possible, madame."

"Is it not?" She laughed a little, but sadly. "Does it need that I tell you what it was that urged me to save your life; must I remind you that it is no habit of mine to rescue men from hanging by marrying them? Although I am your reluctantly espoused wife, I beg that you will spare me a deeper avowal."

He just stared, bewildered at this lovely lady whom he had silently worshiped in the past, but to whom no single word of love had been uttered on his part. She hung her head, her trouble deepened by his silence.

"I cannot have done you a great wrong," she murmured. "At least you have your life. Surely it is better to live even in a wedlock that is not of your own choosing than not to live at all. I implore you to say at least so much."

What he said was something very different. "You know," he asked her, "why I was to have been hanged?"

She looked at him, a puzzled frown between her fine brows.

"Because you wounded Messiro van dor Schuylen in an irregular duel which had no proper witnesses."

"Ah, yes. But why I fought him?"

"How could I know that, since you refused to disclose it even at your trial? It was your refusal to do so that provoked your sentence."

He smiled now, and advanced a little. "You do not ask. Have you no curiosity? It was because he spoke lightly of you, madame."

It was her turn to tremble. He saw the color fade again from her cheeks, the widening stare of her eyes and the tumult at her breast.

"Of me?" She pressed a hand to her heart. "It was for that—for me, you fought? Why?"

"Margaret, must you be asking? Do you not know the answer? For the same reason that you rescued me from hanging."

They remained a long moment gazing at each other. Then they fell to laughing, joyously, as children laugh.

If there had been between them no wooing such as normally precedes a marriage, they made ample amends now that they were man and wife.

How the Diamond Industry Was Started by Cecil Rhodes

New to South Africa, He Got a Map That Led Him to a Field Rich in Diamonds — Find Made Him a Millionaire

A YOUNG man whose health was none of the best went out to South Africa to see if the warmth and sunshine, which were far more common there than in England, would do him any good.

He arrived in due course at Cape Town, and had not been there long before he already felt better and fit for any adventure.

On day he met a lawyer who showed him a map that had been found among the papers of a deceased client. This client was a missionary who had worked among the natives in the Orange River district, and the map, very roughly drawn, was of the district between the Orange and Modder rivers.

The only interesting thing on the map was a note in one corner which said: "Diamonds may be found here."

This stirred the imagination of the young man, and he and the lawyer decided to go to the spot together. Neither had ever seen a diamond in the rough and would be quite incapable of saying whether a dull white stone picked up on the ground were a diamond or not. They therefore took an experienced mineralogist with them, and after a tiring journey came to the place that had been indicated on the map.

It was not pleasing country. For miles around stretched a dreary waste, and the only human habitations were two or three native huts built of mud.

The prospectors pitched their tents near one of the native huts, and then the lawyer filled his pipe with tobacco and, taking a match, struck it on the sun-dried wall of the hut. The match ignited rapidly, for it had struck a pebble that lay buried in the wall. Taking his knife, the lawyer cut the stone from the dried clay and handed it to the mineralogist.

"That's a diamond," said the expert after a careful examination.

"Then let us find where the mud came from, and go and search the place," said the young man from England.

They made inquiries and found that the mud used for the walls of the hut had come from a water hole not far away.

The three men went down to the place and obtained a bucketful of mud and stones. Then they washed the mass carefully and found that they had obtained several more diamonds.

At once they pegged out their claims and returned to get them properly registered.

In a few years' time they were millionaires and the great diamond industry of South Africa had been established.

The sick young man from England was Cecil Rhodes, the famous empire builder.—From This and That.

TAUGHT CANARY TO SING NEW SONG

German Bird-Wizard Made Yellow Warblers Copy Nightingales

FOOD WAS FACTOR

Found That Nightingale Sang Only When He Was in Love

AFTER fifteen years' patient experimenting, Mr. Karl Reich, of Bremen, Germany, has taught canaries to sing like nightingales. He has produced a new species of canary which sings with all the classic beauty of Philomel.

In doing this he has proved the poets to be both right and wrong. It is true that nightingales sing only when they are in love, but Mr. Reich discovered that their song can be stimulated by the cruelly prosaic method of high living. Nightingales will sing nearly all the year round—if they can get enough bran, seeds, and berries.

Mr. Reich, on a visit to London, told a representative of the "Star" how he accomplished this transformation of the canary's song.

"As a musician," he said, "I considered that the canary's song was monotonous, and lacked spontaneous rhythm. It was very poor bird music, and I therefore hit on an idea of improving it. I stocked my bedroom with nightingales and breeding pairs of canaries. The moment a brood of canaries appeared I took away the male birds, so that the young canaries should hear only the song of the nightingales.

"This was an excellent plan, but the rare intervals at which nightingales sing presented a serious difficulty. The poets are right. Nightingales sing only when they are in love, and their love-making occupies not more than two months in the year. How was I to induce my nightingales to be continually in love and always singing?

"Alas for the poets! I found that the sublime 'soulfulness' of the nightingales is very easily controlled through their stomachs. By a special diet of rich food I brought them quickly to the moult after each period of love-making. As soon as they had recovered they began to sing again. In the end they were singing nearly all the year round—for bran.

"My bedroom was thus converted into a singing academy for canaries, with the nightingales as their singing masters. Very soon nightingale notes and sequences began to creep into the songs of the young canaries. The hen birds used to listen to them with obvious amazement.

"But many generations passed before the song of the canaries came definitely to resemble the nightingales'. Canaries are as temperamental as operatic sopranos. You would not believe the fits and tantrums they get into."

A QUEER BARGAIN

WHEN in 1920 a restaurant-keeper in in Budapest bought a house for a comparatively small sum from a man named Andras Csepi, he undertook to provide the former owner with dinner every day for the rest of his life.

He did this for two years. Then they quarrelled and he refused to provide any more meals. On the ground that an important condition of the sale was not fulfilled, Csepi started a lawsuit to annul the sale of the house. The defence was that the provision of dinner was an act of charity and was only stopped because of Csepi's behavior.

Only recently has a decision been reached—in favor of Csepi. The restaurant-keeper has been ordered to pay for all the dinners he had omitted to provide since 1922, and to see that they are furnished in the future.—From "Tit-Bits."

THE SUBSTITUTE

IT was after dinner; father and son were left alone.

"Well, guv'nor," asked the young man, "do you think they'll ever find a substitute for petrol?"

"They have one now," said the father. "I wish you'd give it a trial."

"Really?" queried the youth. "I've never heard of it. What is the new idea?"

THE record for being the smokiest place in England is held by Newcastle-on-Tyne, where about 900 tons of dust, ash, and tar settle on a square mile of the city in twelve months. Burnley and Rochdale come next, with London fourth on the list.

WEAK eyes: Many a man who believed in love at first sight wears spectacles when he is married.

Gold Mines Have Been Found In the Mountains of Wales

There Has Been One Miniature "Klondike Rush" in the History of the Little Principality and We May See Another in the Near Future

WHEN gold-mines are mentioned our thoughts naturally turn to distant lands—to the Transvaal, to Australia, to the North American Continent. But there is gold—real gold—much nearer home than that.

Many people learned this for the first time the other day, when a public meeting was held at Dolgelly, in Wales, to consider what steps could be taken to reopen the gold and copper mines of the district. At this meeting it was stated that no less than £370,000 worth of gold was extracted from Dolgelly mines between 1888 and 1911.

This is, of course, a very small amount as compared with a single year's output of any one of the big Empire gold-fields, but few people in this country have ever realized that there was so much of the precious metal to be won from the earth in our own land.

The history of the Welsh gold mining industry has been a chequered one. Mines have been worked and then abandoned. Then activity has been renewed by a surface find that has again awakened dreams of wealth.

One of the stories that is often recalled when Welsh gold-mines are discussed is that of the prospecting adventures of a Mr. Williams and his manager, John Parry. Mr. Williams had bought the Vigra and Clogau, which had formerly been worked for copper. But it was for gold that he was prospecting.

The precious metal proved elusive, however, and the prospectors had abandoned hope, and decided to give up the fruitless search, when Parry discovered a pocket of gold worth £6,000. A miniatur gold-rush followed, and other mines were opened; but Parry's find was not repeated by any of the other prospectors of the 'sixties.

To-day there are again high hopes of big results from the Welsh gold mines, and we may hear news of another period of activity soon—perhaps of some spectacular discoveries.

August Clean Up

Summer Frocks and Ensembles

In keeping with our policy to dispose of all goods at the end of each season, we have gone through our stock thoroughly and re-marked every remaining summer garment, regardless of former selling price. By shopping here this month, you'll find it possible to purchase up-to-date dresses of exceptional beauty in style and colouring at worth-while savings.

SMARTLY STYLED

DRESSES

REDUCED TO

$8.95

There are still many warm days left this season when one of these delightfully cool, correctly fashioned Crepe Dresses will be the most suitable garment. They are here in white and in pretty pastel shades. Some embroidered, others trimmed in fascinating pleating effects. Worth up to $14.90.

FULL-FASHIONED SILK HOSE

Stockings in both service and chiffon weights. Some perfects, some irregulars. They are of good appearance and are shown in a splendid range of fashionable colours. Pair..... **89c**

Ensembles and Dresses

$15.00

Decidedly chic modes that will not only outlast the Summer season in smartness but will endure late into the Fall, because they are right in line, in colour and in fabric. Some ensemble models of soft crepes, some of flowered chiffon with jacket to match, and others of georgette. Sizes up to 44.

GOOD LOOKING

FROCKS

REDUCED TO

$3.95

For afternoons or general wear, these dainty Dresses will answer your apparel problem. The assortment includes Frocks of prettily patterned voiles, Silknit Dresses in floral designs, celanese in plain shades and wash silks in a variety of patterns and colorings. Originally marked as high as $6.95.

LISLE AND SUEDE FABRIC GLOVES

No Summer costume is complete without Gloves. In this grouping are Gloves of Summer weight, in both lisle and suede fabrics, in shades of sand, beige, grey, etc. Per pair..... **98c**

New Pullover Sweaters

$4.95

In this group are Pullovers which have been originally marked as high as $7.90. They are well made, some plain, but most of them show fancy knits and modernistic designs. Colours: blue, green, red, canary, beige, sand, rust and rose, as well as some colour combinations. For sports, business or general wear.

RICHARD HALL Limited

CATTLE, GRAIN, PRODUCE

TORONTO LIVESTOCK

TORONTO, Aug. 13.—Receipts of cattle at the Union Stock Yards yesterday morning were 1,080; 475 calves, 830 hogs, and 1,450 sheep and lambs. There were 600 cattle, incluing bologna bulls and stores, held over from Monday, in addition to the fresh supply in the offering at the opening of the market yesterday. Trade opened slow, with the bids steady at Monday's slight decline on butcher cattle, and down 25 cents a cwt. for the week on bulls and cows.

A few butcher steers sold at a range of 6½ to 7½ cents a pound, and a few baby beeves sold steady at 9 to 11 cents. Store cattle trade is very draggy, with no sales up to 11 o'clock. The milker and springer trade sells at $60 to $80 each for good cows.

The calf market is steady on a light offering, with good veals bringing 10½ to 11 cents a pound, to tops at 11½ cents. Plain veals are selling downward to 7 cents a pound, and most grassers at 5 cents. Lambs are steady at Monday's dollar a cwt. decline, with good ewes and wethers making 9 cents, and culls and buck lambs 7 cents a pound. Sheep are selling at from 2 to 5 cents a pound a half-cent lower than the top of this price Monday.

Packers' bids on hogs are 25 cents a cwt. lower than Monday's top sales, the bid on yesterday's offering being 11¾ cents g.o.b. and 12¾ cents w.o.c. for bacons. Bids for yesterday loading are 50 cents a cwt. lower.

CHICAGO GRAIN.

CHICAGO, Aug. 13.— Rapidity of action by the corn market yesterday fulfilled everything expected, but took the form of a 5-cent break in prices rather than a 5-cent jump. A big rush of buying, which had been looked for as a result of the Government report confirming drought losses of 600,000,000 to 700,000,000 bushels in the corn crop during the last month, was met by eleventh-hour profit-taking on a huge scale. The result was to force a 5-cent tumble in corn values after a maximum advance of 3 cents.

MONTREAL PRODUCE.

MONTREAL, Aug. 13.— An easier feeling developed for some lines of cash grain here yesterday, and prices for wheat, oats and barley were reduced three, two and one cent per bushel, respectively.

The dairy and produce markets were generally unchanged. The demand for butter was fair and values were steady. Receipts were 13 boxes.

The trade in cheese continued quiet, but the undertone to the market was firm. Receipts were 8,369 boxes.

The egg market was steady. Receipts were 2,979 cases.

Potatoes sold at 65c. to 70c. per bag of 80 pounds, new, locally grown stock.

WINNIPEG WHEAT.

WINNIPEG, August 13. — Wheat was under quite heavy selling pressure most of yesterday's session and values at the close of trading showed net losses of 3¼c to 3⅝c a bushel. Indifferent cables from Liverpool, lack of export demand, and very limited buying by other outside interests, along with continued cool weather in the Canadian and United States grain belts, created a distinctly bearish sentiment. Offerings appeared plentiful on the breaks, and the moderate buying power failed to influence the price range. Crop reports also were ignored by the trade.

There was an indifferent demand for cash wheat, while sales of coarse grains were confined entirely to oats and barley for domestic use. Values dropped considerably in sympathy with wheat. Flax showed heavy recessions, dropping more than 6 cents a bushel.

Futures:

	Open	High	Low	Close	Prev. Close
Wheat—					
Oct.	1.00	1.00	0.96⅝	0.97	1.00¼
Dec.	1.01⅛	1.01⅛	0.97⅝	0.98	1.01⅝
May	1.08	1.08	1.04½	1.04⅞	1.08⅛
Oats—					
Oct.	0.44½	0.44½	0.41½	0.41⅝	0.44⅝
Dec.	0.43½	0.43½	0.41¼	0.41¼	0.43⅜
May	0.47¼	0.47¼	0.44⅞	0.44⅞	0.47¼

TORONTO PRODUCE

TORONTO, Aug. 13—The local butter market was a shade firmer yesterday, with offerings of No. 1 Ontario creamery solids clearing readily at 28 to 28¼c per pound, or a quarter higher than on the day previous at the low of the spread. Large job lots such as were in demand at the top price were scarce. No. 2 grade Ontario butter was fairly active at a steady 27 to 27¼c for anything scoring 38 points or better for flavor, but there was practically no demand for low scoring No. 2 and poorer stock, which was a negligible offering. Receipts of all grades of solids were light, and reduction in the Ontario output was reflected in a firmer feeling with regard to prints, wholesalers advancing their quotations to the retail trade a cent per pound on No. 2 grade creamery. The preliminary report of storage holdings of butter in the Dominion on Aug. 1 showed an increase of 12,000,000 pounds over a year ago and of 10,000,000 pounds in the month of July, but dealers regarded the undertone of the market as firm in view of seasonal decline in home production.

Churning cream prices to shippers were unchanged yesterday at 28c per pound butter-fat for No. 1 grade cream, f.o.b. shipping points.

Cheese Market Easier

Very little volume of movement of cheese was accomplished at a decline of a quarter of a cent in price at the top. Nothing higher than 16¾c per pound was paid for No. 1 large colored, waxed and graded new cheese, delivered, in sales of small jobbing lots. Wholesalers reduced quotations to the retail trade half a cent per pound on new cheese, large, twins and triplets.

With receipts continuing to show a slight increase, the jobbing market for graded eggs displayed a somewhat firmer tone, though no actual advance in price was registered.

HOME TOWNERS

Tidbits, Interesting and Humorous CAMPBELLFORD

Monday witnessed an exodus of citizens from the town, who scattered to several different points of the country to see the passing of the R-100. Coming as it did in the early hours of the morning many people were disappointed, as they did not know the time of its passing. However, the majority of the citizens who went, saw.

Which reminds us, that some local men demonstrated their ability as climbers on Monday by ascending to the top of the bridge in readiness for the coming of the airliner. They aspired to great heights.

On Thursday, Coral Gables" Trent River, will stage an evening of Old Time dancing. This program should draw both young and old.

And we have this week's laugh:

Editor—"Well, what happened to McTavish?"

Reporter—"Someone told him he could get his pants pressed free by putting them under a steam roller."

Editor—"But surely that did not kill him?"

Reporter—"Sure it did, he forgot to take himself out."

Mrs. J. Kerr and daughter Ruth left on Monday to join Mr. Kerr at Picton. Mr. Kerr recently took over the Globe Hotel at that place.

Mrs. T. McMurty, Midland, Mr. and Mrs. W. J. Crawford, Midland, and Mr. and Mrs. Myriam Froats, Santa Monica, Cal., U.S.A., were the guests of Mr. and Mrs. T. J. Craighead over the week-end. They all returned to Midland on Monday.

Dr. and Mrs. A. Haig have as their guest for the holidays their son, Mr. Jack Haig.

Mr. and Mrs. T. J. Craighead and visitors spent Sunday at Kingston.

Mrs. Narraway of Dunnville and Miss Ina Carr of Midland, who have been the guests of Mr. and Mrs. T. —. Craighead have returned to their respective homes.

Mr. and Mrs. J. F. McGregor and Mr. H. Petherick were visitors to Toronto, returning on Monday. While there they were able to obtain a good view of the R-100.

Mrs. Eleanor Hardy and daughter Marie of Ranney street, have returned to town after spending their holiday in Toronto.

Mr. and Mrs. Alfred West of Toronto spent the week-end with the latter's mother, Mrs. J. E. Owens, Ranney street. Little Jack Owens, the grandson also accompanied them.

Miss Lily Poulton and her two brothers spent the week-end with her sister, Mrs. Joe Owens at Toronto.

Mr. Walter Bibby, son of Mr. and Mrs. R. J. Bibby, is suffering from a fractured collar bone.

Mr. and Mrs. F. St. John, son Clifford and grandson William of Glen's Falls., N.Y., are the guests of Mrs. St. John's sister, Mrs. C. L. Owens, Frank street. Mr. St. John, who is on the police force at Glenn's Falls and has been connected with the force in the States since 1902, spoke nothing but praise of the policemen and methods in this country.

Mr. and Mrs. Arthur Sharpe of Hoards and Mrs. William Grills and daughter Luella of town attended the Grills' reunion at Twelve o'Clock Point, Frankford, on Wednesday.

Mrs. J. E. Owens returned with Mr. and Mrs. Alfred West to Toronto on Monday, where she expects to spend a short holiday.

ROSENEATH

Mr. and Mrs. Thomas Hambly and family, Cecil, Bob, Walter and Bill of North Bay paid a visit to friends and relatives in this community during the past week. On their return home they were accompanied by Mr. and Mrs. Thomas McCracken who will visit his sister, Mrs. Christina Beatty at North Bay and other relatives in that district.

Miss Pearl Thomas of Peterborough spent the week-end with her grandparents, Mr. and Mrs. S. Herrington.

Mr. and Mrs. William Wallace and son, James of Goderich, Ont., and Mrs. McSween of Niagara Falls, Ont., are guests with Rev. and Mrs. R. W. Paton.

Miss Lenora Leach has returned to her home near Fenella, after holidaying with relatives here and guest of Mr. and Mrs. Archie Campbell.

The many friends of little Gwendolyn Varcoe will be pleased that she has recovered after several weeks in bed suffering the effects of a bad scald.

Mr. Wilfred Davey has returned home after attending the summer school at Guelph.

Mr. and Mrs. Leslie Sherwin and son, Kenneth, and Mr. and Mrs. Charles Sherwin visited friends at Grafton on Sunday.

Miss Helen Campbell of Harwood spent Saturday with Miss M. McDowell.

REBUILDING STARTS ON McKEE BUILDING

Property at Stirling Will Be Used as Up-to-Date Service Station.

STIRLING, Aug. 13.—(Examiner Correspondence).—The walls of the McKee building, corner Mill and Front streets were torn down last week and the work of rebuilding has begun on what will be an up-to-date service station. The building that has disappeared was built half a century or more, had seen two fires and had been occupied by several owners through the years of existence.

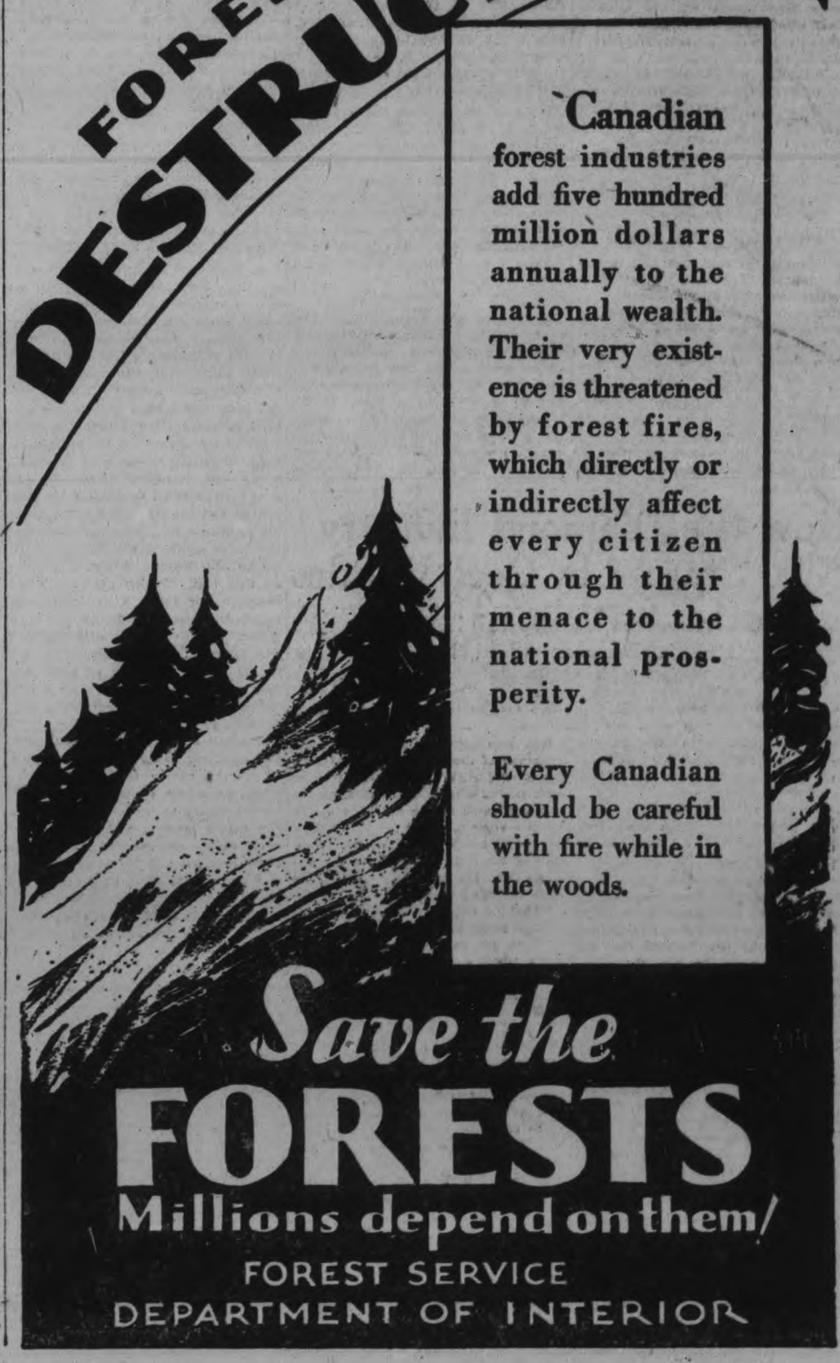
The late Thomas H. McKee was the owner for a number of years. Fred McKee succeeded his father in business and having disposed of the old block is getting settled across the street in part of what was Morton's drug store, where he is making necessary changes to suit his business.

A great many from here went to Belleville Monday morning to see the dirigible R-100. Several saw it as it passed over here during Sunday night.

Chinese dramatic thrillers savouring of the supernatural or mysterious, have become the most popular films shown in West China.

YOU CAN PREVENT FOREST FIRES

Check FOREST DESTRUCTION



Canadian forest industries add five hundred million dollars annually to the national wealth. Their very existence is threatened by forest fires, which directly or indirectly affect every citizen through their menace to the national prosperity.

Every Canadian should be careful with fire while in the woods.

DEPARTMENT OF INTERIOR

EPIDEMIC OF INFANTILE PARALYSIS SEASON OUTBREAK SAYS DOCTOR

Every Precaution is Being Taken to Prevent Spread of Disease.

14 CASES AT OSHAWA.

(Special To The Examiner)

TORONTO, Ont., Aug. 12.—Every precaution is being taken by the Provincial Department of Health to prevent the spread of infantile paralysis and spinal meningitis epidemics, which are afflicting Brantford, Oshawa, Bowmanville and neighboring towns, it was stated yesterday by Dr. Al. McKay, Director of the Division of Prevention of Diseases at Queen's Park.

The epidemic of infantile paralysis is less serious than the epidemic at the same season last year Dr. McKay said. Every year at this time cases of the disease occur in various parts of the province.

It is a seasonal outbreak and there are no undue number of cases, stated Dr. McKay. The 15 cases of spinal meningitis at Brantford form a local outbreak and there is no reason to believe it will spread to other parts.

The branch laboratory at Peterborough has dispatched a plentiful supply of serum for both diseases to the towns where cases have occurred.

Eight Year Old Girl Dies

Infantile paralysis at Burlington claimed a life early to-day, when Dorothy Naisbitt, eight year old daughter of Frank Naisbitt of Burlington died at her home.

She was the only child. A serum supply was obtained from the Provincial Department of Health but the young patient failed to respond to this treatment.

At Oshawa latest reports stated that there were fourteen cases of infantile paralysis, three new cases having been reported since yesterday. The disease is still spreading in spite of every effort, but local health officers hope that they can check it without fatality. Only seven of the cases are really serious.

District Churches

ST. ANDREW'S UNITED CHURCH

MILLBROOK, Aug. 13.—(Examiner Correspondence).—Rev. R. J. Merriam, of Myrtle, who is spending the month of August at his summer home, Tower Farm, Rice Lake, conducted morning worship in St. Andrew's United church on Sunday, August 10, the pastor, Rev. W. W. Jones, B.D., being still on his holidays.

There was a large congregation for the summer season, and the service proved inspiring throughout. Miss Estelle Hetherington presided at the pipe organ, and the hymns chosen, according to announcement by the minister, had special reference to the beauty of nature, and the joy of the harvest at this particular season.

"A Little Lad's Gift" was the subject of Rev. Mr. Merriam's comparatively brief address, the scripture passage read for the second lesson, and forming the basis of the sermon, being taken from John 6:1-14.

A vivid word picture of the friendship of the little lad of the story with Andrew, and how he came to offer his lunch to Jesus to feed the hungry multitude, preceded an earnest appeal to the boys and girls present not to make the mistake of thinking they must wait until grown to manhood or womanhood before becoming followers of the Saviour.

"The boy gave all he had; it looked totally inadequate for the work it was expected to do, but in the hands of God it was enough. God will not leave Himself in debt to any one, and as in this instance there were twelve baskets full gathered up after all had been fully satisfied, so He will always return twelve, twenty, thirty, or a hundred fold. To choose to keep time, and health, and talents all for oneself is paying the price of the loss of real satisfaction in this life, and losing thereby the life which is eternal."

Mentioning the careful manner in which people choose only the banks which they think will not fail whereing to deposit their substance, the minister urged consideration of the fact that equal care be given to the choice of the "the bank of service to Almighty God in which to lay up spiritual treasure, for there is no failure possible to that bank, which pays dividends both here and hereafter."

"If children will realize they are big enough to serve Him, giving Him all they have to love, health, and joyous youth, just as the lad gave all he had to Jesus, they will find it the wisest things and the gladdest they have ever done."

Referring to the action of Jesus in sending the disciples across the sea in their boat because they were in sympathy with the popular movement to take Him by force and make Him a king, the speaker made it clear that in the time of extremity, when the heart cries out for help as did the twelve laboring in the storm on the lake, Christ Himself comes and there is light and calm.

"Why should He send his followers on the sea when He knew the storm was coming? Because He would teach them they could rely upon Him even when they could not see Him; He was preparing them for days ahead when He would be no longer with them in the flesh, when opposition and persecution would arise, yet through prayer the heavens would be opened and they would see Him ready to hear and save. His church should never forget this lesson, for Christ stands ever ready to respond to the appeal of the heart for relief and guidance in difficulty." There can be no struggle without victory when He is the helper, ever near at hand."

SWORE IN CABINET

E. J. Lemaire, Clerk of the Privy Council, who administered the oath of office to the new Cabinet Ministers.

Many Residents See Giant British Dirigible From Top of Allen's Hill.

AWAKENED BY MOTORS

MILLBROOK, Aug. 13.—(Examiner Correspondence).—Several local citizens had a view of the R-100 as it passed over north of the village about 2.30 a.m. on Monday, some going to the top of Allen's hill where they remained watching until they had a sight of the giant dirigible. Others wakened from sleep by the roar of the motors, and saw the lighted ship from the upstairs windows, or the verandahs of their homes. Many more would have seen the big black and silver ship, but from the last news broadcast over the radios on Sunday evening were given to understand it would be four or five o'clock in the morning before it was likely to be visible in this section, provided this part of the country proved its route to Toronto at all.

Many cars left the village on Monday round nine o'clock their owners driving to Perrytown hill some miles south, where they had a distant view of the R-100 as it was on its way over Lake Ontario, making the return journey from Toronto. Those who started earlier and went on to Port Hope had a clear sight of the giant air-liner, feeling well repaid for the effort made to be as close as possible when the big British dirigible was headed back after its visit to the Queen City.

SEEN AT BAILIEBORO

BAILIEBORO, Aug. 13 (Examiner Correspondence) — During the past few days many unofficial reports have been noised abroad concerning the flight of the giant dirigible and her trip to Toronto, Hamilton and Niagara Falls.

Sunday night residents in this vicinity retired with the hope of waking about 4 a.m. to watch for the R-100's coming. Many, however were doomed to disappointment for in the stillness of the beautiful moonlight, during the early morning hours, the huge structure passed along in its course, enroute to points west.

While some of the sleepers were not aroused by the sound, many were awakened by the thunderous roar of the dirigible's powerful motors, and with unexceeded interest people watched the ship pass through the sky like a huge cloud which stood out clearly against the starlit sky.

About 10:30 a.m. the R-100 was seen passing along the Lake front by Port Hope and Cobourg on her return trip to Montreal.

This event has caused much interest throughout Quebec and Ontario during the past two weeks and it is to be hoped that the airship will reach its destination in England in even better condition than when it anchored at the mooring mast on the field of St. Hubert's, Montreal.

PETITIONS HEARD DRAIN CONNECTIONS

Other Business Transacted at Regular Meeting of Tweed Town Council.

TWEED, Aug. 13—(Examiner Correspondence).—At the recent meeting of Tweed Council, Harry Grier presented a petition for water and sewer connections for North Victoria street, north of Bridge street. This was laid over until the next meeting.

Edward Fitchett asked for the interest to be thrown off the overdue taxes on the Lumb property. No action was taken on this. Ed. Wright asked for water and sewer services connected from the S.A. Barracks. This was also laid over.

S. B. Rollins is to be billed for 32 loads of earth which were removed from the street, on motion of Cayers and Blakely.

A by-law authorizing the levy for taxes for 1930 amounting to 43¼ mills for public school supporters and 47 mills for separate school supporters.

The dog tax billed to Hannah Cameron is to be rebated.

The following accounts were ordered paid: Bell Telephone Co., $2.50; Pat Brennan, $23.40; A. McTaggart, $4.20; Bert Johnston, $17.50; William Vilneff, $11; Wilson Sherry, $3.50; Russell Terry, $2; M. Prindle, $6; C.P.R. freight, $8.03; C.P.R. express, $8.48; Gordon Steel Works, $40.08.

PILOT HELD FOR BOMBING

MURPHYSBORO, Ills., Aug. 12.—Paul Montgomery, local aviator, was arrested here at 10 a.m. to-day for investigation in connection with the airplane bombing of mining properties in the vicinity of Providence, Ky., yesterday.

ROBBERY SUSPECT HELD.

HAMILTON, Ont., Aug. 12 (C.P.).—Leslie Webb, Caledonia cattle dealer, who reported yesterday that he had been beaten and robbed of $1,167 by armed thugs on the Dundas Highway, was summoned to Toronto police headquarters to view a suspect, according to his father, William Webb.

Leslie Webb, although said to be still suffering from shock, left Caledonia for Toronto after receiving the message.

Queen Given I.O.D.E. Life Membership Badge.

News has just been received to the effect that Her Majesty, Queen Mary, has graciously consented to accept a life membership badge of the I.O.D.E. in Kitchener, Ont. The Chapter was named after her majesty, who recently sent a signed photograph to Mrs. Heather, who is regent of the chapter. Mrs. Heather was guest at the ceremonial of the presentation of purses at Queen Mary's hospital for the East End, and was presented to her majesty by the Dowager Countess of Minto.

WELLAND CANAL TO OPEN SOON

"The Big Ditch" Nears Completion After Seventeen Years' Labor.

SEVEN LOCKS

TORONTO, Ont., Aug. 13.—(CP)—Canada's greatest man-made waterway, the Welland Ship Canal, which will be officially opened soon, represents some of the greatest engineering achievements of the age. In many respects, the engineers on the "Big Ditch" faced difficulties which seemed insurmountable, and the fact that the canal is now open for traffic speaks volumes for the ability of those engaged in its construction.

The canal, cut through the Niagara Peninsula from Lake Ontario to Lake Erie, elevates vessels passing through it a total distance of 326½ feet, representing the difference in level of the two lakes. Seven locks, each having a lift of 46½ feet, will overcome this distance in level. In addition, there is an eighth lock, which is a safety feature, to be used if one of the other seven is inoperative.

The direct line of the Canal down the face of the escarpment and the topography of the lower plateau, permitted the adoption of the 46½ foot lifts, which constitute a peculiar feature of the design of the canal and has no precedent in actual construction for locks of their size.

Owing to the World War, work on the Canal, which was begun in 1913, practically ceased in 1916 and 1918. After the Armistice, however, the government decided to resume work on a small scale and arranged with the original contractors for the resumption of work on their former contracts for four sections. From January, 1919, the work was carried on under a cost plus percentage basis in a more or less intermittent manner, due to labor troubles and other causes, until 1921 and 1922, when the cost plus percentage contracts were cancelled and the work relet under unit price contracts.

Some idea of the immensity of the undertaking may be gained from figures contained in the Chief Engineers report, issued recently. The report shows that rock estimated at 8,961,000 cubic yards was excavated. Earth excavation reached the tremendous total of 50,[illegible]1,000 cubic yards. Watertight embankments required 4,771,000 cubic yards of excavation. All classes of concrete used on the canal reached 3,516,000 cubic yards. Reinforcing steel used amounted to 28,701,000 pounds, while sheet steel piling required 37,590,000 pounds.

Locks 4, 5 and 6 are twin locks in one flight, with a total aggregate lift of 139½ feet. They are similar to the Gatun Locks of the Panama Canal, which, though of somewhat larger dimensions, have only an aggregate lift of 85 feet.

Chippawa Creek crosses under the present canal in a concrete inverted syphon culvert, consisting of six barrel tubes with vertical end shafts, another unusual feature of this Canal. There was considerably difficulty in carrying out the work of building this new culvert, but by using 15,819,000 pounds of sheet piling, and 3,388,000 board feet of timber bracing, the sides of the excavation were supported.

The foundations of this culvert, by the way, are 75 feet below normal water level of the Canal. In order to allow navigation on the Third Canal to continue, a special cofferdam was built with steel sheet piling driven in a series of cells interlocked with one another and filled with clay, in which the new culvert was built.

Lock No. 8, 1,380 feet long between the inner gates, is the longest lock in the world, being only approached by two locks on the American side at Sault Ste. Marie, both being 1,350 feet long. It is situated about a mile above lock 7 and is necessary as a safety measure to hold back the water on the summit level should any accident occur to the gates on Lock 7 or the flight locks.

The disposal of excavated material presented a knotty problem to the engineers who constructed the new canal, but many thousands of cubic feet of rock and earth were dumped into Lake Ontario, while many more thousands were used to construct the artificial harbor at Port Weller, Eastern terminus of the "Big Ditch". Two embankments, extending into Lake Ontario for nearly 1½ miles, were made. The entrance to the harbor is 400 feet wide and widens out to a bottom width of 800 feet at the harbor. The harbor itself is just over a mile long and covers an area of about 150 acres.

A large part of the surface of the embankments had been graded, sodded and macadamized and a considerable area of the inner end of the embankment has been cultivated as a planting bed for cuttings and seeding trees.

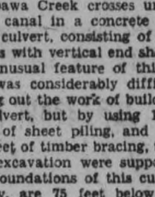
PLANES ROUT AFRIDIS

SIMLA, India, Aug. 12 (C.P.) — Afridi tribesmen withdrew in considerable numbers from the Pashawar district and from Kahajull Plain toward tribal territory to-day under fire of Royal Air Force bombers.

DURING BABY'S TEETHING TIME

The Bowels Become Loose

Diarrhoea, dysentery, colic, cramps, etc., manifest themselves; the gums become swollen, and cankers form in the mouth. This is the time when the mother should use



and perhaps save the baby's life.

On the market for 80 years.

Price, 50c. a bottle at all druggists or dealers.

That Body of Yours

By James W. Barton, M.D.

WORKING OVERTIME DEMANDS EXTRA SLEEP.

The longest game of hockey ever played by two professional teams was that between the Canadians of Montreal, and the Rangers of New York last winter in Montreal.

The two teams played the usual three periods of twenty minutes each with the ten minutes rest between second and third periods, with score tied, and then after another ten minutes rest played an extra ten minutes overtime. After ten minutes rest they played another hour and eight minutes with the usual ten-minute rest periods.

The two teams were to play in New York the second night following.

Early next morning, 6 o'clock, the New York teams were aroused and put on a train for New York, a day coach, by the way, and when they arrived in New York they were an exhausted crowd.

However, their management had apparently acted wisely because this arrangement gave the players a night's rest in their own home beds instead of a night's travelling by train. And there is no question but that your own bed means sounder sleep.

Yet was it the best arrangement?

The players were sleeping soundly after the most exhausting game in hockey history when after only half or less of their usual night's sleep they were awakened and took a night's trip of 500 miles in day coaches—no sleeping cars on that train.

This meant that the fatigue products resulting from previous night's game were still in considerable quantity in their blood as they started the trip to New York.

On the train it meant that these fatigue products got very little chance to be removed from the blood as the players sat in the coaches, with the usual jars and jolts keeping their bodies tensed, with little chance to sleep as they thought and talked of the previous night's game and the one ahead of them.

Of course, they had their own beds that night, but the long game, the very short sleep after it, and the long train day journey with its physical and mental alertness, meant that one night's sleep even in their own bed could not rid them of all the fatigue products that had been manufactured.

Had they slept all night of the first game, and most of the next day they would have been rid of these products, even if they had not slept so well on the train.

The New York team admit that even with all the rest they needed after the first game, they could not have defeated the Canadians in the second game because the Canadians played inspired hockey, in fact their best hockey of the year.

However, my point is this: If you get overtired, get just a little rest, and then have to work soon again, it means that you are trying to work or play with your blood almost full of fatigue products. This is the reason that an hour before midnight is worth two afterwards; you are not piling up too much waste or fatigue products at one time. Try and get your regular amount of sleep. It takes 20 to 40 per cent. more time afterwards to rid your body of fatigue products when you work overtime.

Crepe Satin Sponsored for Autumn Evening Gown

Almost Grecian in line is the satin evening gown worn by Marion Davies pictured at the left above. This shows the trend of the season. The gown is in peach shade, and the only ornament is a jewele buckle at the belted waist-line. An exceptionally wise beginning for the evening wardrobe of the sub-debutante and the debutante is the Vogue gown at the right above. Since dull surfaces will make way to luminous ones, this autumn white crepe satin is sponsored. The bodice is of simple cut with shirring softening the shoulders and a low oval decollettage in back. Shaped circular sections give restrained bouffancy to the long, even skirt. Three pink camelias are added to the waist-line, which is one of the smarest places to wear flowers, both real and artificial, this season. An evening bag that will complement many gowns is made of antique brocade with a small jewelled clasp. It is a small pouched model. Note the opera pump in the sketch, which is popular.—Sketch is by Vogue.

WEDDING BELLS

SMITH—BAILEY.

MARMORA, August 13 (Examiner Correspondence). — A very pretty wedding was solemnized at St. Paul's Church at 10 a.m. on Tuesday, the contracting parties being Margaret Greta, daughter of Mr. James Bailey, and Gerald, son of Mrs. Arthur Smith, both of this village. The church was tastily decorated for the occasion with a profusion of summer blooms. The officiating clergyman was the rector, Rev. A. B. Caldwell. The bride was given in marriage by her sister. She was daintily gowned in white moire and satin, with shoes and hose to match. She wore a white veil draped with orange blossom and carried a bouquet of pink roses and baby's breath She was attended by her sister, Miss Annie Bailey, who wore pink taffeta empire dress with white picture hat and shoes to match, and carried a bouquet of tea roses and baby's breath. Mr. Gordon Gray ably discharged the duties of best man. Wedding music was played by the organist of the church, Mrs. W. H. Litt. The groom's gift to the bride was a white gold watch, to the bridesmaid a gold compact, and to the best man a set of military brushes. The wedding breakfast was served at the home of the bride at high noon, the immediate relatives being present. Later in the day the happy couple left for Montreal, where the honeymoon is being spent. The bride's travelling costume was a brown crepe silk suit, with hat, shoes, and bag to match. Upon their return they will reside in Marmora.

More thn 13,000 tons of olive oil were produced in the Smyrna district of Turkey this year.

Lace Adds to Effect of Chiffon Afternoon Frock

The grace of the black chiffon afternoon frock in the picture above is heightened with the yoke of lace and the tiny flaring sleeves which give a cape effect. The bipline is moulded and the skirt full and the final touch is the rhinestone buckle fastening the belt. At the right, in the Vogue sketch the mission of providing infinite chic for milady is carried out successfully by the use of the scarf. Some new types of scarves are shown, also some new ways of using them. An ensemble in the combination of navy blue and white has an ermine-faced scarf collar on its coat with rounded edge. In the centre of the sketch is a red tweed dress with a silk crepe scarf striped in red and cream-white. This emerges from the overlapping closing of the blouse, circles the neck loosely and slips through itself to fall in one long end to the hem-line of the blouse. Most ingenious of all is the bottom illustration in which a black satin handkerchief and a white one are knotted together as a scarf and passed through a buttoned tab on the skirt of the costume.—Sketch is by Vogue.

A BEDTIME STORY

by Howard R. Garis

UNCLE WIGGILY'S FUNNY CONCERT.

The night after Uncle Wiggily gave his moonlight party on his bungalow lawn without a moon something else happened. It may seem queer to you that a rabbit gentleman could have a moonlight party without a moon. But the way Uncle Wiggily did it was this: Thousands of kind lightning bugs perched in trees and they made an illumination almost as bright as the moon. Then all the animal children could see to eat the ice-cream and cake.

But the night after that, all of a sudden, as Uncle Wiggily was trying to go to sleep in his bungalow, he heard a dog loudly howling not far away.

"What's that?" asked the rabbit gentleman, sitting up in bed.

"That's either Jackie or Peetie Bow Wow barking and howling," said Mrs. Longears.

"What are those dogs howling at?" asked the rabbit.

"At the moon, I guess," answered his

He stubbed his paw and it hurt.

wife. "The moon is shining bright tonight, though the clouds hid it last night when you wanted it to glow for your party. Dogs always bark and howl when the moon shines, you know."

"Well, I wish they'd keep quiet and let me sleep," murmured Mr. Longears as he turned over. For a time Jackie and Peetie were quiet and then, all of a sudden, somewhere, some cats began to yowl and howl.

"What's that!" exclaimed the rabbit gentleman again sitting up in bed.

"That must be Tommie, Joie and Kittie Kat singing to the moon," said Mrs. Longears. "It sounds like a concert."

"A funny concert!" murmured Uncle Wiggily pulling the covers up over his long ears and trying to go to sleep. The cats stopped yowling for a time, but something else happened.

"Quack! Quack! Quack!" screamed some voices down by the brook.

"What in the world is that?" asked Uncle Wiggily, twinkling his pink nose in the dark like a flashlight on a strawberry short cake.

"That must be Lulu, Alice and Jimmie Wibblewobble, the ducks," answered Mrs. Longears. "Will you please go to sleep, my dear!"

"How can I sleep with all this racket?" sighed Mr. Longears. "I wonder why all the animal children are so noisy tonight?"

"It's because of the full moon, my dear," said his rabbit wife. "The moon is full of light and the ducks, cats and dogs are full of music, I guess."

"Ha! Ha!" laughed Uncle Wiggily, trying not to be cross. "I guess so. But there—the ducks have stopped quacking and I can sleep," he said. "Good night!"

"Good night!" murmured Mrs. Longears, turning over. But the quiet did not last very long, for, all of a sudden sounded:

"Ker ump! Ker ump! Ker ump!"

"What in the world is that?" cried Mr. Longears, sitting up so suddenly that he fell out of bed and bumped on the floor, making another noise. "What's that?"

"I guess Bully and Bawly No Tail, the frog boys, are singing a duet," said the rabbit lady, patiently.

"Singing! My goodness! To call that singing!" cried Uncle Wiggily. "Something must be done about this!"

"Oh, I wouldn't let it bother me," said Mrs. Longears. "Try to go to sleep, my dear!"

"With all that noise? Impossible!" said Uncle Wiggily. "I'm going to put on my rubber boots and wade out in the pond until I find those frog boys and I'll make them keep quiet."

But when Uncle Wiggily hopped around trying to find his rubber boots he stubbed his paw on a chair leg and it hurt him so he had to go to bed again. And by that time Bully and Bawly had stopped croaking.

"Well, now it's quiet," said the rabbit gentleman. "I guess I can go to sleep. My! How bright the moon is!" he said as he saw it shining from his window. Hardly had he stretched out in bed than he heard:

"Woo! Wu! To woo!"

"That's old Mr. Owl," said Mrs. Longears.

"Yes, I know it is!" answered her husband. "But it seems to me he could sing somewhere else than near my window. Hello, out there, Mr. Owl!" cried the rabbit gentleman. "Would you mind hooting farther off?"

"Too woo! Whoo! Zoo!" cried the owl bird as he flapped away. Uncle Wiggily was just going to sleep when he heard:

"Maa! Maa! Blaaa! Baa! Blaa!"

"The goats!" cried the rabbit. "Now Nannie and Billie Wagtail have started! Oh, what a funny moonlight concert this has been! I might as well dress and sit up the rest of the night! The moon seems to make all my animal friends wakeful." So Uncle Wiggily put on his clothes and sat out under the trees. The moon shone bright. The dogs barked, the pussy cats mewed, the ducks quacked, the frogs croaked, the owls hooted and the goats bleated, all together, making fine concert music. And then the moon hid behind a cloud, all the music stopped, the singing animal children went to bed and so did Mr. Longears.

PRINCE OF WALES' GUIDE DIES.

Peter Pearson, the government game ranger who accompanied the Prince of Wales last year on his hunting trip in Africa, died recently at Uganda. Pearson was one of the few survivors of the hunters who made early history in the darkest parts of Africa. He worked in the Intelligence service during the World war, and later entered the Uganda government service as game ranger and elephant hunter. He had hunted big game in all parts of Africa.

Yemen, in southwestern Arabia, has one automobile to every 104,166 persons.

STOP WOMEN'S ACHES & PAINS

Thousands of women are getting quick relief from those distressing periodic aches and pains by taking ZUTOO TABLETS. Harmless but effective, they bring immediate relief. Women who thus suffer, are suffering needless pain, for one or two of these harmless little tablets will certainly stop the pain.

ARSENAL ISSUE BOTHERS LINDSAY

Will New Government Open Lindsay Arsenal? Is Foremost Question.

BUILT DURING WAR

LINDSAY, Aug. 13 (Examiner Correspondence).—Will the new Conservative Government at Ottawa open up the Lindsay arsenal?

This question is uppermost in the minds of the citizens of this town since election day, and there are some who are hopeful that the big plant will run again now that the representative from this riding is on the government side.

This arsenal was built during the period of the war at a cost of one million dollars and was secured for Lindsay through the good offices of the late Sir Sam Hughes. During the period of its construction and while it was in operation Lindsay citizens were assured that the plant would be a permanent one. As a result the town undertook the construction of a sewer, permanent roadway, etc., to the plant. Houses were at a premium as many families had moved in. A great many of the employes of the plant were from Quebec, and it looked as if Lindsay was about to enjoy a boom unprecedented in its history. At the close of the war, however, the plant closed down and has not been operated since. A great deal of the machinery was moved to the Dominion Arsenal at Quebec and a portion of the plant is now used for the store of military supplies.

The question of the re-opening of the plant has been an issue during the past three general elections. Mr. J. J. Thurston, who was Federal member for this riding for four years, and who was elected on the Progressive platform, went on record as being opposed to the operation of this or any other arsenal in Canada. The Conservatives claimed that the people could never hope to see the arsenal opened up as long as the Liberal party was in power as it would mean the closing down of the arsenal at Quebec, and such a move would be fought by the Liberal bloc from Quebec. However, a couple of deputations visited the Capital from Lindsay during the past few years and petitioned the government to reopen the plant. The deputations were informed that owing to financial conditions following the war the Government was not in a position to operate the plant.

The arsenal plant in Quebec city, is at present in a dilapidated condition. The property, it is understood, has been appropriated by the Federal Parks Commission, and this fact has rekindled hope in the breast of Lindsay citizens that the Government will transfer the arsenal to the modern plant in this town. It is pointed out that the old arsenal at Quebec is in an exposed position while the Lindsay plant is isolated.

The fact that the Conservatives made inroads on the Liberal bloc in Quebec on the occasion of the recent election has opened up the arsenal question in real earnest. It is claimed that a great deal of the opposition to the removal of the plant from that province has been removed, but fear is also expressed that Conservative representation is also strong enough to make its influence felt on the new government should any such move be undertaken.

The future of the Lindsay arsenal was discussed on many platforms in this riding during the recent election, both candidates pledging to do their utmost, if elected, to have the plant resume operations.

You can stop that **HAY FEVER** or Summer Asthma before it starts; take RAZ-MAH CAPSULES. Harmless. Relief from one ill hour or money back. Wonderful! 141

BLAME DEATH ON CANNED HEAT

Chatham Man Staggering Outside Shack Tells Police of Pal.

DIES IN HOSPITAL.

CHATHAM, Ont., August 13 (C. P.). — Canned heat is blamed for the death in the Public General Hospital early to-day of Alexander Cameron, Sarnia. Coroner T. L. McRitchie has opened an inquest.

Late last night city and Provincial police came across a man staggering in the vicinity of the Pere Marquette Bridge and he informed them that he had a pal who was ill in a nearby shack. The man prior to his removal to the hospital said he had been drinking canned heat. He died at 1.30.

The man accosted by the police gave his name as Robert Stauffer, of Sarnia. He is being held on a vagrancy charge.

OBITUARY

MRS. BRIDGET DOHERTY.

The funeral of the late Mrs. Bridget Doherty took place on Wednesday morning from the residence of her daughter, Mrs. George Emery, 495 Rogers Street, to the Immeculate Conception Church, where Requiem High Mass was said by Rev. Father Carroll, and thence to Our Lady of Mount Carmel Cemetery, Hastings, where interment took place.

The pall-bearers were Messrs. J. Menogue, J. Grady, W. Ranger, A. Madden, W. J. Gallaher, J. J. Devlin. The deceased is survived by one son, Joseph Doherty, of 105 McDonnel Street, and three daughters, Mrs. R. Walsh, Hastings, Mrs. E. Wigg, Toronto, and Mrs. G. Emery, of this city. She was predeceased by her husband twenty-two years ago, also one son John, who was killed in the Great War.

SHE THOUGHT:
"You'll never be lucky in love until you end 'B.O.'"
Yet, to be polite,
SHE SAID:
"Your heart line shows many difficulties ahead."

"Luck" was always against him... *until he ended "B.O."*
(Body Odour)

Someone else got the job he wanted. Someone else won the girl he admired. "Bad luck," he called it. *But the real reason was "B.O."!*

One day a close friend told him what his fault was, and how to correct it. Today he is forging ahead in business—a favorite socially. "B.O."—*body odour*—no longer handicaps him.

• • •

Often we wonder why we don't succeed faster—make friends easier. "B.O." may be the unsuspected cause.

For everyone perspires. Science declares that even on cool days pores give off a quart of odour-causing waste. Unnoticed by us, because we soon become accustomed to it, this ever-present odour may be a constant annoyance to others.

Don't take chances. Adopt the simple precaution of millions of particular men and women. Wash and bathe regularly with Lifebuoy. Its gentle, creamy, antiseptic lather *purifies* pores so deeply that "B.O." completely vanishes. And how gloriously fresh—how satisfyingly *clean* you feel!

Keeps complexions youthful

Clogged pores stifle complexion beauty. Lifebuoy's soothing, penetrating lather gently frees pores of impurities—makes dull skins bloom with healthy, youthful radiance. Its pleasant *extra-clean* scent—that vanishes as you rinse—tells you Lifebuoy *purifies*. Adopt Lifebuoy today.

320

Men! *Try* LIFEBUOY SHAVING CREAM

Its rich, creamy, double-dense lather lubricates the skin. No tenderface after shaving with this soothing lather. Sample free.

Mr. James Drain celebrates a birthday anniversary to-day.

• • •

Mr. and Mrs. C. Wiley, Park street, have returned home from a holiday spent at Chemong Park, at Mrs. M. Pope's house.

• • •

Mrs. H. Ryley of Bethany, is visiting her daughter, Mrs. J. Turnbull, Gilmour street.

• • •

Mr. James Price, Rink street, has returned home after spending his holidays with Mr. Oscar Sloan at Mississauga Cottage, Buckhorn.

• • •

Mr. and Mrs. J. Dixon and family, of Rochester, N.Y., are visiting the latter's parents, Mr. and Mrs. J. Bestard, on the Provincial Highway.

• • •

Jack Lacheur has returned home after visiting his cousins in Millbrook.

• • •

Miss Dorothy Sager of Tweed, a pupils of Mrs. Dorohty Allan Park, and a singer who made a splendid impression on her audience at a recent vocal recital in the Conservatory of Music, has received word from Toronto, along with a congratulatory letter from Dr. MacMillan, principal of the Conservatory of Music there, that she has been awarded a silver medal for obtaining the highest marks of any candidate in the Dominion of Canada in recent Junior Singing examinations.

• • •

Mr. James Dutton was in Hastings on Sunday to take charge of the morning services in St. Andrew's Presbyterian Church.

• • •

Yesterday, Miss Muriel Killingbeck of Townsend street was surprised by a number of her friends who gathered at her home to celebrate the fifteenth anniversary of her birth. A jolly time was spent in dancing and playing games and the presentation of a number of beautiful gifts to the young hostess, after which dainty refreshments were served. Those present were the Misses Harriette Williams, Annie Williams, Clara Foy, Ruby Foy, Helen Smithson, Grace Olavenson, Grace White, Ethel Wauby, Mary Bartley, Florence Hatley, Marjorie Wood and Norma Killingbeck.

• • •

Mr. Edwin Bickell spent his holidays with his parents in Smith.

• • •

Monsignor W. J. McColl of Lindsay was in the city last evening for the annual social of the Immaculate Conception parish.

• • •

Mrs. R. Gunn is visiting her daughter, and son-in-law, Mr. and Mrs. W. Scriver, in Hastings.

• • •

Mr. and Mrs. Robert Poulzon and Mrs. Bert Patton, of Peterborough, were among the guests who attended the wedding and reception of Lt. Gertrude Leggott and Capt. Wilfrid Yurgensen.

• • •

Mr. and Mrs. Lyall Willison of Toronto were guests yesterday of Mrs. A. B. Ross, Sherbrooke street. Mr. Willison, who was formerly a manager of the Loblaw Groceteria here, passed through the city on his way to Montreal, with Mrs. Willison, to spend their vacation.

• • •

Mrs. J. H. Pilling and Miss Edith Pilling, Chamberlain street, have returned home after spending several days in Toronto.

• • •

Rev. James Guiry of Port Hope attended the annual social last evening of the parish of the Immaculate Conception.

• • •

Mrs. J. W. Garvin is returning to Toronto from the Kawartha Lakes, this week.

• • •

Mr. and Mrs. A. Doxsee, Mr. Arnold Parsons and Miss Rhoda Cullen have returned home after a motor trip and vacation in Detroit, where they were the guests of Mr. and Mrs. Jack Parsons. Mrs. R. Hayden of Port Hope and Mrs. J. Stoff of Brantford also accompanied the party.

• • •

The engagement is announced of Mary Chipman, daughter of Mr. and Mrs. Louis Harris of Cobourg, to Dr. Philip H. Greey, son of the late Mr. and Mrs. John G. Greey of Toronto, the wedding to take place September 6th.

• • •

Vincent Cookman of the DeLaval staff is spending his vacation in Toronto.

• • •

Mr. Fred Long, with his son and daughter-in-law, Mr. and Mrs Harvey Long, of Windsor, are visiting the former's daughter and son-in-law, Mr and Mrs. Alfred Brisco, Frank street.

• • •

Miss Marjorie Self of Lansdowne street has returned home after spending the past five weeks in Toronto and touring through the Niagara Falls and St. Catharines district, with her aunt, Mrs. N. Johnson.

• • •

Mrs. P. Sollitt left today on a holiday trip to Cobourg, where she will visit friends during the coming week.

• • •

Mr. and Mrs. W. R. Shield have returned from a pleasant week end visit at the summer home of Mr. and Mrs. Thomas Webster near Brockville, where Mr. and Mrs. Webster entertained the executive of the United Dairymen Co-Operative Company and their wives.

• • •

Mr. Byron Leggott of Chemong Road, who officiated as usher at the wedding of his sister, Lt. Gertrude Leggott, to Capt. Wilfred Yurgensen, spent the week-end with the bride and bridegroom at their camp near Chemong Park.

• • •

The Rev. A. B. Cote of Providence, R.I., formerly of Peterborough, who is at present visiting his parents in Lindsay, was in the city last evening for the Immaculate Conception parish social.

• • •

Sheriff and Mrs. F. J. A. Hall are in Detroit and are returning home on Friday.

• • •

Mrs. E. H. Wood was in charge yesterday of the golf competitions at the Links, in connection with the weekly Field Day of the Ladies' Golf Club. Mrs. Wood won both prizes for competitions; one for the approach on the third hole and the second for the best medal round.

• • •

Miss Ivy Kite of St. Catharines is the guest of Miss Clara Barnes, during her stay in the city.

• • •

Miss Edith Pilling of Chamberlain street, whose wedding takes place this month, was guest of honor at a miscellaneous shower recently given in her honor in Toronto by her aunt Mrs. W. T. Barrie of Palmerston Boulevard. Relatives and friends were in attendance and a large number of pretty gifts were received by the bride-elect.

• • •

Mr. and Mrs. P. B. MacQueen of Paris, Ont., announce the engagement of their only daughter, Mary Isobel, to Mr. J. Wesley Collins, son of Mr. and Mrs. W. J. Collins, of Peterborough. The marriage to take place early in September.

FASHION SERVICE

A jaunty red and white linen print that you'll find so useful for all-day occasions for mid-summer, can be copied for a very small amount.

The becoming scarf collar of white linen with plain red gives it a sportive air.

Style No. 2961 affects Princess shaping through the moulded bodice and cleverly low placed fulness of the circular skirt.

It can be had in sizes 16, 18 years, 36, 38, 40 and 42 inches bust. The medium size takes but 3 1-8 yards of 39-inch material with ½ yard of 35-inch contrasting for collar with ½ yard of 35-inch binding bias for skirt hem, cuffs and collar trim.

Peach shantung with collar of self-fabric is chic.

Shell pink flat washable crepe, yellow and white dotted pique, orchid and white printed batiste and nile green silk shirting in candy stripe are attractive suggestions.

Pattern price 15 cents in stamps or coin (coin preferred). Be sure to fill in size of pattern.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

HAVE you ever been away and received a letter from a small child? If you have you know how delightful it is to receive this little labor of love.

• • • • • •

The spontaneous letters of children are delightful! But those in which the direction dictation, or suggestion of adults can be detected loose their flavor.

• • • • • •

It is true that a letter from a child is, and should be, received with appreciation. It is indeed a labor of love for the youngster to compose and complete one.

• • • • • •

If possible let the idea of writing the letter spring from the child. It never will, however, unless the little folk can write anything they feel like saying, and stop when the desire ceases, which may be after one or two sentences have been composed!

• • • • • •

Of course, Mother should see that the letter is ended, if only with the two words, lovingly, Betty or Johnny, or whatever the child's name is. The letter will never be finished otherwise. Then she can direct the envelope and get the child to stick on the stamp and mail it, which he will be sure to enjoy doing.

• • • • • •

The mother may not actually say to her child that it would be nice if grandmother got a letter, or that Aunt Mary would feel badly if she didn't get a letter. There are ways, however, of making a child think of the person and of what this adult would enjoy knowing.

• • • • • •

It takes tact, but then tact is needed in the bringing up of children and mothers who enjoy the companionship of their children must use it.

• • • • • •

The mother can stimulate interest by providing the child with ornamental letter paper. The more space the decorative heading takes up the better.

• • • • • •

On such paper a short letter will appear sufficiently long. A few sentences will cover two pages or more.

• • • • • •

But if the child faces ordinary letter paper, he is appalled by the seemingly vast amount of paper to be covered with the few things he has to say. Make the letter writing as easy as you can if you would tempt a child to write.

• • • • • •

It may be added that in later years whenever an adult discovers one of his letters, he is delighted when it reflects his own childish ideas. It matters not if he says, "I must stop now for I haven't anything else to say,"—most children's letters have this self-same expression. You've seem them, haven't you?

• • • • • •

Then there are the comments so frankly given that show insight and references that recall things cherished in one's youth. Such letters help one to understand one's self in childhood days. They are really illuminating.

OLD SONGS

THAT PIECE OF SONG,
That old and antique song we heard, last night.

TIM FLAHERTY
(Contributed by Beatrice)

I'm a light-hearted Paddy,
A rale Irish laddy,
I came to this country
Strange wonders to see;
I sailed from dear Cork,
For the port of New York,
I was eighteen long days a-crossing
the say;
When I arrived in the land,
I was tuck by the hand
By a blaggard who says,
"Paddy, come go with me;
"I will show you the city, the sights
are so pretty."
He says, "What's your name?"
Says I, "Tim Flaherty."

Chorus

I'm Tim Flaherty,
Arrah gaze upon me,
A light-hearted Paddy
Is Tim Flaherty.

He showed me around,
The sights were soon found,
I viewed them with wonder
And astonishment;
When he bade me good-bye
Tears came in my eye,
I found he'd been through me, and
took every cint.
What to do didn't know,
Where was I to go?
So I wint to the court
And explained to the judge.
He called me a pauper, a vagrant, and
loafer,
And gave me six months in the
Island above.

SEEK TO AID MINERS.

GLACE BAY, N.S., Aug. 13.—Hon. Gideon Robertson, Minister of Labour in the Federal Government, has wired President D. W. Morrison of the United Mine Workers, District 26, for all available information on the unemployment situation in the Glace Bay district for use at a forthcoming conference on unemployment. It is estimated that at the present time from two to three hundred are without work in the colliery district.

Within three hours 5,000 Americans disembarked at Southampton, England, recently.

LAWN SOCIAL IS VERY SUCCESSFUL

Many Attend Annual Lawn Social of Immaculate Conception Parish.

GAMES WELL PATRONIZED.

The annual social of the parish of the Immaculate Conception was a very successful affair of last evening. There was a good attendance for supper, which was served on long tables decorated with flowers and placed on the lawn adjoining the church. The small booths which were garnished with streamers of blue and white paper, were filled with a profusion of pretty and useful things in plain and fancy articles, novelties of all kinds and lovely fancy work. There was a sale of home-made candy, a hot dog stand, and a Country Store that had a steady patronage under the energetic direction of Thomas Deforge, manipulating the wheel, and his bevy of energetic assistants. The games also had a splendid patronage. There was a target game, a steeplechase, and a City Service store where up-to-the-minute novelties were miniature dirigibles, with "R-100" painted on their sides.

Men and women and the younger people of the parish united in making their annual social a very entertaining and happy event which proved a pleasant gathering for the scores of people in attendance.

The following were in charge of various sections of the work: Erecting booths: Vernon O'Dette, P. J. Devlin, J. Sullivan, William Crowe, Robert Gilman, William Mohar. Table committee: Mrs. James Flynn, Mrs. Margaret Murphy, Mrs. D. Hummell, Mrs. L. Moloney, Mrs. John Torpey. Assisting at dining room: D. Holland, William Perdue, Robert Gilman, P. O'Toole. Country Store Collectors: Mrs. Redmond McAuliffe, Mrs. Richard Sullivan, Mrs. Vincent McCarthy, Mrs. Hanrahan, Mrs. Robert Allen, Mrs. Joseph McCarthy, Mrs. Hogan, Mrs. Francis Kearney, Mrs. William Young, Miss Nora Devlin, Miss May Sullivan, Miss Mary Leahy, Miss Daisy O'Heron. Ticket sellers at Country Store: Jack Sullivan, Vernon O'Dette, Leo Sullivan, Joseph Jacques, James Garvey, A. Malane, Thomas Ryan. Refreshment Booth (Sodality): the Misses Louise Flynn, Leona Hummel, Hazel Guerin, Helen Collins. Hot dog stand and soft drinks: Mrs. W. Moher. Target game: Frank Kearney, D. Kennedy. Steeplechase: Joseph Jacques. City Service Store: Jack Primeau, Don McKinnon, John Madden. Novelty Booth: Mrs. M. Mulcahy.

Ticket sellers for a silver tea set included the Misses Peggy Roche, Helen Hennessey, Dorothy Theobald, Sadie Flynn, Mildred Butler, Marie Flynn, Stella Brady. Ticket sellers for the grand drawing for prizes were the Misses Gladys Perdue, Berenice Flynn, Isabel Malane, Laura Hogan, Agnes Murphy, Loretto Devlin.

On Friday evening of this week, the drawing for prizes will take place in the Community Hall, Ashburnham. At the same time, the prize will be presented to the team having the highest number of points in the Sodality competition for ticket-selling in connection with the silver tea service.

Elaine And Her Ideas From Paris

The Enlightening

Farm Girl: "What are you doing there?"
Short-sighted Individual: 'Er—I'm getting my hat."
Farm Girl. "Your hat—that's our old black hen you're chasing."

Bernice Peel, 3; Margaret Ryan, C; Agnes Scollard, C; Marita Shaughnessy, 2; Aileen Sullivan, C.

AUXILIARY MEETS IN WESLEY HALL

Good Program Provided at Regular Meeting of St. James' Church Society.

Following the holiday custom of holding all meetings in the evening, St. James' Auxiliary of the W.M.S. had a successful service in Wesley Hall on Tuesday evening. Mrs. E. L. Woodley presided during the first part of the program, which was opened with singing the consecration song "Take my life." Prayer was offered by Mrs. Woodley, the congregation all uniting in the Lord's Prayer. The business consisted of reading minutes and reports, with plans for the beginning of fall work, such as packing the bale of supplies, appointing a supply committee (Mrs. Woodley, Mrs. Ingham, and Mrs. English), and many minor details. The Scripture lesson was the 103rd Psalm read responsively, with Mrs. Carter as leader. Mrs. Beavis gave a very interesting and inspirational reading with "Pentecostal Power" as her subject. The roll was called by the secretary, to which a large membership responded with a verse of Scripture and prayer was led by Mrs. Beavis. Mrs. McKinstry and Mrs. Monks contributed a pleasing and appropriate duet, "Remember Me, O Mighty One."

Secretaries of departments of the W.M.S. reported the work being accomplished under their supervision. Mrs. F. Armstrong told of applying "Christian Stewardship" in a very practical way in her story of "Mrs. Morgan's Quarter." Mrs. Copson reported on the department of "Baby Bands" which she capably superintends, and which shows many encouraging features. Heralds on the Watch Tower were Mrs. May, who gave a very helpful report on her special field China, with Mrs. Dunmit telling the needs of Africa.

This part of the program was concluded with the singing of "Jesus, Lover of My Soul," when Mrs. Payne, convenor of the group responsible for the August program, was given charge. Mrs. Payne introduced her topic as "The old familiar and much loved hymns of our church." Giving a brief outline of the history of each hymn, as well as the name and history of its author, she brought to her audience a clearer and better understanding of the hymns so well known by rote. Among these was Isaac Watts' "Before Jehovah's awful throne," which in course of time was changed almost beyond recognition. The concluding stanza of the hymn as it now stands was written in 1761 by John Wesley. Rev. Philip Doddridge was the author of another old-time favorite, "O God of Bethel," one verse of which all joined in singing, while two verses were recited in unison as a prayer. "One Sweetly Solemn Thought," the work of Phoebe Carey in 1871, was sung as a solo by Mrs. William Fell with fine expression. "Rock of Ages" and "Abide with Me" were also sung and commented upon. "What a Friend we have in Jesus," one of Joseph Scriven's hymns, written under peculiarly sad circumstances, was sung softly and sweetly in the spirit in which it was written. A monument to the memory of this author stands on the Peterborough-Port Hope Highway, and is visited by many passers-by. Sarah Flower Adams, in 1841, deeply impressed by the story of Jacob's vision at Bethel of the ladder to heaven, wrote the hymn "Nearer, my God to Thee" that has since become so universally popular and helpful. All bowed in consecration while the pianist softly played this hymn, and the service closed with the Mizpah benediction.

Miss Aileen Rose assisted the leader, Mrs. Payne, throughout with her sympathetic accompaniments to the sweet old hymns.

THE DUMMIE OPTIMIST

By Alice Michaelis

FRAGMENTS

Oh, it was sweet beyond belief,
the season of our bliss, and yet it
was a thing as brief as is the breeze's
kiss. Too soon the shining glory
waned, too soon the rapture passed;
but from the loss one prize was gained,
one joy that still shall last. Oh,
it was beautiful and brave, the splendid dream we dreamed; we raised
fair wall and architrave whereon the
sunlight gleamed! To be a refuge
and a shrine, we fashioned it so well,
all flawless seemed the fair design;
yet wall and rafter fell. But from
the wreck one gleam remains to
light us through the years, all unobscured by time's dark stains of terror and of tears. And thus we can
forget to grieve at all life's cheap alloys as daily in its web we weave the
fragments of our joys.

Madame Marie

Distinguished Beauty Specialist, who conducts her own offices in Paris, London, U. S. A. and Canada will be at

Bond's Drug Store
THURSDAY
FRIDAY
SATURDAY

Of this week, showing her own line of French Beautifiers.

This is Madame Marie's first appearance in this city.

Do not fail to consult her

Mme Marie

AT LAST

Miss Grace Cowan

The well known New York Beauty Specialist

(Representing A'Lure Toiletries)

at Bond's Drug Store

Week of Aug. 12th, only

Miss Cowan will give you Absolutely Free a half hour and complete analysis of your skin.

Phone early 327 or 3327 for appointment
Private room is provided
You may be making serious mistakes. See her

C. G. E. Defeats Brinton 3-1 In Soccer Fixture

GENERALS WIN WHITE TROPHY FROM BRINTON

Jack Chambers, Canadian General Centre Forward, is Star Marksman.

BOTH TEAMS GOOD.

Large Crowd Sees Good Display of Scientific Soccer Code.

One of the largest soccer crowds this season, witnessed the Brinton Athletic go down to defeat to the Canadian General, for possession of the White Challenge Cup, last evening, on King Edward Park, by the score of three goals t one. Excellent performances of the scientific code pleased the fans and the sportsmanship shown by the participants was well worth going to see.

Cup Presented.

At the conclusion of the game, Fred Sutcliffe presented the trophy to Captain Ben McMaster of the C.G.E. team, who responded with an appropriate speech. Captain Westwood replying on behalf of the Brinton team.

Prizes Given Away.

The first prize of a casserole went to Leo Martin, 131 Lock street, who held admission ticket 131. Second prize, Jack Hodson, a pen and pencil. Third prize, J. Boon, a pair of cuff links, who played at outside right for Brinton.

First Half.

The toss of the coin went against Captain Robb of the C.G.E., who sent his forwards into the Brinton territory from the kick-off. Raid after raid by the Electric boys was repulsed by Wilf Jones and David Green on the full-back department. The C.G.E. were the first to settle down to the hard grind, thereby making good use of the openings presented by the half-backs, after they had broken up an opponents attack. Westwood, working like a Trojan at centre half, tried to set the pace at the other end, where Anderson indulged in the finer points of the code that pleased the crowd; in fact, he was the box of tricks while in possession of the ball. Also his solo run, finished with a lightning drive, deserved a better reward. Too much individual play crept into the play thereafter without any positive progress being made around the shooting zone, although Westwoods effort that was diverted out of danger by Blower's head, saved a sure count. Getting acquainted with his position, Stannard at centre-half for C. G. E. broke up well-planned attacks led by Jones at centre forward for Brinton, and whenever he got hold of the ball, the opposition realized the danger. He sent a pass up the centre of the field to Ben McMaster who dribbled his way through the defense to conclude with a rising shot that went sky-wards. On mid-field play, Chambers gained possession on a tackle, and beat man after man, as he travelled towards goal. He outwitted the full-backs cleverly with a feint body move that never took place but a smart run with the ball into the far corner for the opening tally. Two minutes later, Jack McMaster enacted the same performance, as he left the opposing defense at a standstill, and landed the ball in the back of the net. The Brinton now came into the picture in real earnest to keep the Canadian General in their own half of the field until the interval. This bombardment brought out the qualities of Grant and Blowers as a perfect defense. Great applause greeted Anderson when he introduced the tricky play that was accompanied with clean and fast tackling as long as he had possession of the sphere. Never giving up trying at every opportunity, he about got the measure of Daynes when he compelled the C.G.E. custodian to throw himself the full length of the goal to save his charge. At last success crowned their efforts when Boon evaded the full back at close range and James accepting the opening with a rocket drive inside the upright just five minutes before the interval. Canadian General 2, Brinton 1.

HALF TIME.

On resuming, the players set a terrific race that was sure to wilt as time rolled along. In this respect, the Brinton were more aggressive around the goal area but score they could not do, because the tackling was keen and perfect in every detail at all times. Credit must be given to Daynes, the C.G.E. goalkeeper, who gave one of the best exhibitions of goal-keeping seen in this city for a long while. There was no choice in the argument of a better team being present because one was as good as the other, although the Electric boys displayed a more accurate understanding to introduce the combination when hard pressed with the opposition. A sudden lull by the losers permitted the C.G.E. front rank to take up the attack in the Brinton area where Mitchell slammed a grounder over to Chambers who, lying uncovered, uncorked a rocket drive inside the upright for number three. At this point, the players were taking everything in no matter-of-form way, giving legitimate bumps and stepping right into it with accuracy to put the tackled player off his stride. Again another bombardment by the Brinton failed to get a counter recorded because Daynes held the key to the situation. On a raid at his citadel, Jones sent a lightning drive in below the bar, he pulled the ball out of danger to kick clear, but the return shot found him right there to fist out. Westwood rapped it back again to witness Daynes fist out with two outstretched arms, then he was injured in a melee in front of goal but resumed after receiving attention to his shoulder. Exchanges continued on an even basis with each team trying to make inroads on the full backs but there was no latitude permitted by either side while the ball hung in the vicinity of the shooting zone. Give and take play ended a thriller of a cup tie as the Canadian General walked off the field winners by the score of three goals to one. C.G.E. 3, Brinton 1.

Goal-scorers— Canadian General, Jack Chambers (2) and Jack McMaster. Brinton, W. Jones.

Canadian General—J. Daynes, goal; D. Grant and G. Blowers, full-backs; W. Robb, J. Stannard and A. Burgess, halves; J. Mitchell, J. McMaster, J. Chambers, B. McMaster and H. Darling, forwards.

Brinton Athletic—W. Curtis, goal; W. Jones and D. Green, full-backs; J. O'Halloran, T. Westwood and E. A. Baylis, halves; J. Boon, W. James, E. Jones, J. Anderson and E. Hanson, forwards.

Referee — Alexander McKinley. Linesmen — J. Hodson and James Hawthorne.

SAILOR'S STORY IS QUESTIONED

Vessel He Claims is Abandoned Found Carrying Lumber.

STICKS TO YARN.

HALIFAX, N.S., Aug. 13.—(C.P.)—Joseph Sampson, who appeared in Boston over a week ago claiming to have been rescued by the schooner Mary Goulart and landed at Provincetown after abandoning the schooner "Whiteway" and drifting alone for five days, is in Halifax, having been sent back to Nova Scotia by the British Consulate. Despite the fact that the only "Whiteway" registered in Canada is still carrying lumber and is unquestionably afloat, Sampson sticks to his story, that he was a member of the crew of a Nova Scotia schooner of that name which sprang a leak and was abandoned several days out of Halifax. In a single dory he became separated from the rest of the crew soon after leaving the vessel he says.

Softball Notes.

Tonight at Central School grounds Harrison's and Westclox will provide the fans with the softball bill. This game is one of a three-game to decide the second half winner, and should prove a wow.

Both teams will be at full strength and rarin' to go. Darling will twirl for the Clockmakers, while Montgomery will likely toss them in for the Northenders.

The game will get away at 6.30 o'clock.

Tomorrow night Sugar Bowl and Belmonts will meet in the second game of their series.

BASEBALL STANDING.

PERCY WILLIAMS BREASTS TAPE IN WORLD'S RECORD TIME FOR 100 METRES

The final of the 100 metres sprint at Varsity Stadium, Toronto, recently, in the Canadian track and field championships and the British Empire trials. Six runners faced Starter "Duke" McGarry at the far mark to make the bid for the championship title for 1930 and for an opportunity to represent Canada at the British Empire games at Hamilton which start this coming Saturday. The runners who dug their holes for this final were Bert Pearson, the 16-year-old Hamilton youngster, who made history by securing a place in this classic final. He is shown on the extreme left in the photograph above. Next to him is Nap Bordeau, the flying Montreal bobbie, who won the sprints at the Canadian police games just three days before the Canadian A.A.U. championships. Next to him again is Johnny Fitzpatrick of Hamilton, the boy who ran second to Percy Williams more frequently than any other sprinter. He did the same thing in this final. Alongside of Fitzpatrick is Buster Brown, the Edmonton boy who eliminated Leigh Miller by forcing him to take third place to his second in the semi-final. On the fifth lane is Ralph Adams of Hamilton, a chum of Fitzpatrick, who finished third in Saturday's stirring 100 final. On the extreme right is Percy Williams himself. Take a peek at the effort he is putting into the race and you will realize the determination of the Olympic champion in this race. The photograph gives you some idea of the position of the runners and of the real lead that Williams had over Fitzpatrick. What would have happened if Williams had been forced toward the end of this 100 metres is something to think about. As it was, he was not pressed during the entire journey but travelled out in front alone from the first three steps of the trip down Varsity's cinder path to victory and a new world's record—10 and 3/10 seconds.

CLUBMEN'S MISPLAYS ARE FEATURE OF FIRST GAME

Len Forsythe Twirls Brilliant Ball For Victors, Has Eleven Strikeouts.

SCORE IN FOURTH.

Galbraith on Mound For Clubmen is Touched For Ten Direct Hits.

Combining ten hits with ten misplays on the part of the Belmonts, Sugar Bowl won the first game in the City Softball League playoffs by a score of 12-0. The game was far faster than the score indicates, thirteen frames being scoreless ones.

Len Forsythe twirled brilliant ball for the Bowlrites, being in rare form. He let the Clubmen down with only four hits and sent eleven of them back via the strikeout route. He also gained the distinction of twirling the first shutout game, of the season. It was a grand display of pitching and to Forsyteh goes most of the credit for the win. His teammates backed him up with airtight support only one error being registered against them, and that was a fly to left which Dallin just managed to get his hands on. The sun was blinding in left field.

Galbraith twirled good ball for the Belmonts, but was awarded miserable support in the latter stages of the game. The Clubmen made ten errors behind him. He was touched for ten hits and fanned one.

Bowlrites Open Scoring in Fourth

The Sugar Bowl got three in the fourth. Gillespie got one when Board lost his fly. Forsyth flied out to Osterland. G. Dormer was safe when Frick lost his roller. Weese singled to right to score Gillespie and Dormer. Bradshaw cut a hit to left to score Weese. When Connors hit to Holyman Bradshaw was doubled off second.

One more was registered in the fifth. H. Dormer walked and scored on two errors.

The Bowlrites got two more in the sixth. G. Dormer led off with a home run, Osterland playing the hit badly. Bradshaw flied out to Osterland. Connors was safe on Batten's error. Maudsley singled to right. Connors scored on Dallin's hit.

In the eighth Weese opened up by grounding out to Batten. Bradshaw tripled to left. Connors walked and stole second. Both scored on Maudsley's hit.

The Bowlrites got four more in their half of the ninth. Dallin opened by doubling to centre. Gillespie was safe on Holyman's error. Forsythe singled to right, scoring Dallin and Gillespie. G. Dormer flew out to right. Weese's fly was taken by Ward. Bradshaw was safe on Frick's error, Forsyth counting. Bradshaw scored when Delahaye threw wild to Frick on Connors' roller. Maudsley struck out.

The box score:

Sugar Bowl:	AB	R	H	PO	A	E
Maudsley, 1b	5	0	2	4	0	0
H. Dormer, rf	3	1	0	1	0	0
Dallin, lf	5	1	2	1	0	1
Gillespie, cf	4	2	1	3	0	0
Forsyth, p	5	1	1	1	1	0
G. Dormer, ss	5	2	1	2	0	0
Weese, 2b	5	1	1	2	1	0
Bradshaw, 3b	5	2	2	2	1	0
Connors, c	4	2	0	11	0	0
	41	12	10	27	3	1

Belmonts:	AB	R	H	PO	A	E
Ward, cf	4	0	0	6	1	0
Delahaye, 3b	4	0	0	0	2	1
Batten, 2b	4	0	1	1	1	1
Frick, 1b	3	0	0	6	0	4
Haskill, c	4	0	0	4	0	0
Galbraith, p	4	0	0	1	0	0
Holyman, ss	4	0	2	4	3	1
Board, lf	2	0	1	0	0	1
Osterland, rf	3	0	0	5	0	1
	32	0	4	27	7	10

By innings:

Sugar Bowl	0	0	0	3	2	0	4	—	12	10	1
Belmonts	0	0	0	0	0	0	0	—	0	4	10

Home run—G. Dormer. Three base hit—Bradshaw. Two base hit—Dallin, Batten. Sacrifice hits—Maudsley. Struck out—by Forsythe 11, by Galbraith 1. Base on ball—off Galbraith 4, off Forsythe 2. Left on bases—Sugar Bowl 7, Belmonts 7. Umpires—Coursey, LeBarr and Webb.

TORONTO LEAFS DROP 1ST NIGHT GAME TO PESTS

Sixteen O'Neill Runners Stranded on Bases as Skeeters Win 6-3 Decision.

EQUAL 1929 MARK.

Orioles Stage Slugging Bee to Defeat Bufaflo Bisons 22 to 4.

JERSEY CITY, N.J., Aug. 13. — While the Detroit American League players looked on, the Leafs, playing their first game here under the floodlights, were beaten by the Skeeters, 6 to 3, though they got to John Allen for ten hits and had men on the bases in all nine of the innings. Allen was wild, too, and got miserable support, but was strong in the crists, as is evidenced by the fact he left 16 men on the bases.

Frank Barnes went the route for the O'Neill men, not being as effective as usual. In the two big Jersey City scoring innings, though, Frank was poorly supported, Joe Rabbitt dropping a pair of fly balls that ruined Toronto's chances of victory.

Allen fanned ten men, Kunesch being his victim three times.

This was Jersey City's first victory under Joe Tinker, and the win incidentally, gave the Skeeters the same number of triumphs as they had in 1929.

A wild first inning brought each team two runs. The Pests erred three times behind Allen, while Rogell, Harris and Kunesch were making hits. The Leaf misplay was a muffed fly by Joe Rabbitt in the wake of safeties by Walker and West.

In Sudbury Scandal

Facing trial at Sudbury on a charge of disturbing a religious assembly, Miss Sophia Linkovitch is alleged to have left her child on the altar of the Greek Orthodox Church, while Rev. Father N. J. Bartman (above) was conducting mass.

It cost a score, Keesey, who is no sprinter, going from first to the plate on the misplay. Toronto picked up a cheap run in the second. Barnes singling to left and being pushed to third on passes handed to Rabbitt and Cole. Allen's wild pitch brought Frank home.

Baltimore may be five games out of place in the International League, but now and then the Orioles burst out with a slugging attack that makes them look like a major league outfit. Yesterday was one of those days. With every member of the team getting at least two hits and two runs each and Joe Hauser connecting with his fiftieth home run of the season, the Orioles defeated the Buffalo Bisons 22 to 4. Twenty-six safe blows rang off the victors' bats while Roy was breezing along by scattering the Bisons' thirteen. The 22 runs were collected in five innings, 15 being garnered in the second and seventh sessions.

But the Orioles failed to gain on Rochester, for the Redwings took an 8 to 5 night decision from the Newark Bears. It took a four-run rally in the ninth inning, however, to put the champions over, the Bears scoring twice in each of the eighth and ninth frames.

LeRoy Herrman, Reading right-hander, had the best of a pitching argument with Marty Griffin of Montreal, but erratic fielding gave the Royals the decision, 5 to 2. Herrman held Montreal to seven hits but his teammates piled up six errors to give the game away.

GRADE CROSSING ACTION IS URGED

Work on 15 Separations and 8 Railway Crossing Eliminations is Needed.

RELIEVE UNEMPLOYMENT.

TORONTO, Ont., Aug. 13.—(CP)—Fifteen grade separations and eight railway crossing eliminations are now contemplated by the Ontario Department of Highways and if ordered by the Dominion Railway Board, will play an important part in the Provincial Government's plans for unemployment relief, Hon. George S. Henry stated yesterday.

Mr. Henry said he intended to confer with Premier R. B. Bennett this week-end and would urge upon the Dominion Government head the need for greater activity in crossing elimination and grade separations.

At the present time there are seven grade separations in the course of construction.

CUBS DEFEAT BROOKLYN TO EXTEND LEAD

Fred Blake Wins Long Mound Duel Against Dazzy Vance.

PIRATES DOWN PHILLIES.

Two First Inning Errors By Flowers Gives Chicago Early Lead.

NEW YORK, August 13 (C.P.).—The opening of the "crucial" National League series between the Chicago Cubs and Brooklyn Robins fulfilled all advance notices in thrills, a pitching duel between Fred Blake and Dazzy Vance, highly productive of hits but not of runs, lasted eleven innings before Chicago gained a 3 to 2 victory and increased its lead to a full game. Two first inning errors by Jake Flowers gave the Cubs two runs and forced Brooklyn into an unsuccessful uphill battle in its effort to regain the lead. It was not until the eleventh that the Cubs were able to bunch enough hits off Vance to score the odd run.

Pirates Gain.

With New York and Cincinnati idle, the Pittsburgh Pirates registered the big gain in the lower part of the National League standing and the St. Louis Cardinals made a lesser one. The Pirates downed the Phillies in both halves of a double-header. They had to go 14 innings to win the first game 8 to 7, scoring two runs in their half of the inning on three solid hits after the Phillies had forged ahead, but the second contest produced an easy 8 to 3 victory, as Glenn Spencer allowed Philadelphia only five hits.

St. Louis, although outhit 10-8, made good use of its blows to defeat the Boston Braves 4 to 2. It was the fifth straight victory for the Cards and the fifth defeat for the Braves. Another Boston-St. Louis clash went the other way as the Red Sox gained a 5 to 4 decision over the Browns on the strength of Bob Reeves' single with two out in the ninth.

RUTH CONNECTS WITH 43 HOMER TO END RALLY

Interesting Battle For Fourth Place Continues Between Tigers and Indians.

YANKEES WIN 6-5.

While Philadelphia Athletics Take Double-header From Cleveland Club.

NEW YORK, Aug. 13. (C.P.)—Almost obscured in the struggles of the might around the top positions in the major league standings, the Detroit Tigers have been putting on a spurt that has carried them almost into the first division of the American league. The Tigers are only one and one half games behind the fourth place Cleveland Indians to-day, despite their inability to cope with the heroic gestures of Babe Ruth in their opening clash with the New York Yankees yesterday.

While the Tigers were losing the game, due to Ruth's demonstration of the reasons for his great reputation, Cleveland was dropping two to the Philadelphia Athletics to make the fourth-place struggle more interesting. The Tiger record for the past month has been of first-division calibre, 18 victories and 12 defeats for an average of .600. In the same period only the rampant Athletics and the Yankees have done better than that.

The Yankees stopped the Detroit climb for a while yesterday but only after Ruth had put on a great performance to win a 6 to 5 decision in a close battle. The Babe clouted his 43rd homer in the third inning with his mascot, Jimmy Reese on base, to climax a big Yankee rally, then drove in the winning run in the ninth at the highly crucial moment when there were two out and two strikes on him.

Hold Third Place

The victory was not of much use to the Yanks except to hold them in their position behind Philadelphia and Washington without a serious loss. With Mose Grove and Bill Shores pitching a pair of good games, the Athletics twice trounced the Cleveland Indians by scores of 9 to 1 and 7 to 0. Washington held second place a game ahead of the Yanks by scoring four runs off Ted Lyons in the third inning to take a speedy game from the Chicago White Sox 5 to 4. The contest lasted only an hour and 22 minutes.

Trent River Plans To Hold Big Field Day

Softball Game With Outstanding Leaders and Many Races Featured.

CAMPBELLFORD, August 13 (Examiner Staff Correspondence).—Another gigantic field day is being planned by the Trent River Park Commission to be staged on Wednesday afternoon, August 20, in Trent River Park. This function, which begins at 1.30 sharp, will feature many attractions. A softball game will be played, the two contesting teams being in charge of Harold Cotton of the Toronto Maple Leafs, and Lionel Connacher, manager of the New York Americans, respectively. This should be an interesting game and one with lots of thrills and speed.

Catching the greasy pig and a tug-of-war will also be featured. The races include the fat men's race, 180 pounds and over, the lean men's race, girls' race, 12 years and over, girls' race, under 12, boys' race, 12 years and over, boys' race, under 12, sack race, three-legged race, and many other events. Refreshments will be served on the grounds. All children will get free admission, and the evening will be finished with a dance at Coral Gables Casino, commencing at 8.30 sharp.

Bermuda Athletes Arrive In Canada

ST. JOHN, N.B., August 13 (C.P.). — Among the passengers arriving on the Canadian National ss Lady Drake yesterday were several entries from Bermuda for the British Empire Games to be held in Hamilton August 16-23. In the swimming contests are W. G. Gleason, 1,500 yards E. G. Moss, L. A. Taylor, R. A. Taylor, A. D. Spurling, 100 yards.

A. A. Taylor is Bermuda champion in the 100 yards class. Two other contestants from Bermuda are already in Hamilton—D. Deisenbruck, swimming, and G. Bellvin, track.

TEAMS TANGLE AGAIN THURSDAY TO DECIDE LOOP CHAMPIONSHIP

Crescents Have Combined Batting Average of .353 and Fielding of .932, While the Generals' Batting Strength is .194 And Fielding .933.

HARDILL HAS FOURTEEN STRIKE-OUT RECORD.

Batting and fielding averages for players taking part in one or more games in the East Peterborough League finals are given herewith. Crescents lead in extra bases with a homer, three triples and three doubles, as against three triples and three doubles for Canadian Generals.

Crescents have had twenty-five runners left stranded on the bags or four more than their opponents.

Hardill who alone has pitched two full games struckout fourteen batters, walked three and allowed twelve hits, two of them triples and one a double.

Crescents have a combined batting average of .353 and a fielding average of .932. The Canadian Generals' team batting strength is .194 and the fielding .933.

FOURTH GAME THURSDAY EVENING

With fair and warm weather promised for Thursday when the fourth game in the series will be played the teams are likely to reach a verdict, but if the contest should be tied, the fans can look for a game on Saturday afternoon. A winner must be declared and in readiness for the O.B.A.A. semi-finals with the Point Anne club on Saturday August 23rd.

Cornwall Will Enter Quebec Rugby Union

CORNWALL, Ont., August 13 (C.P.). — Cornwall will return to the gridiron wars this fall with a team in the Quebec Rugby Football Union. Decision to formally enter the union was reached by the local club last night after possibilities of drawing up a strong team had been thoroughly reviewed. Loyola, Westwards, and Canadan National Railways Clubs of Montreal, and New Edinburghs of Ottawa, will likely also have teams in the union.

Vince Monohan, who starred on the line for both Queen's University and Ottawa Senators in past seasons, will probably be on the Cornwall team. The big Irish athlete is stationed here as a member of the Customs preventive force.

New Blood Demanded On Test Match Team

Captain A. P. F. Chapman To Be Supplanted By R. E. S. Wyatt.

LONDON, August 13 (C.P. Cable) —Trouble in the camp of the Selection Committee, which selects the English cricket test match teams, is indicated by an article in the News-Chronicle to-day. The paper announces A. P. F. Chapman, who captained the English eleven so successfully in Australia in 1928-29, and won the first match of the tests in England this summer, will be supplanted by R. E. S. Wyatt. It is understood that Mr. Chapman did not attend a meeting of the selectors held over the week-end.

The last test match of the series will begin at the Oval on Saturday next. So far both England and Australia have won a match and two have been drawn. In both the undecided encounters England made a poor showing and Mr. Chapman's tactics were criticized, though his own contribution to the batting in the first of the drawn games was a timely century and his fielding has been remarkable throughout the series.

Critics have not ceased to demand the introduction of new and younger blood into England's test match team. Several newcomers have appeared, particularly in the fourth game, but England still appeared to lack the required punch.

The match, which begins next Saturday, will be played to a finish, and it will decide who is to be custodian of "the ashes," mythical emblem of the Anglo-Australian championship.

Wyatt is an aggressive skipper, and a fine batsman and change bowler. He has played on English teams against South Africa with considerable success.

COD FISHING FAILS.

ST. JOHN'S, Nfld., August 13 (C.P.). — In Burin East and parts of Burin West, that section of the Newfoundland coast most seriously affected by the tidal wave of last November, the cod fishery is a complete failure, according to Hon. H. B. C. Lake, Minister of Marine and Fisheries.

TORONTO HIGHLAND REGIMENT WINS AYLMER-GUARD TROPHY

Victors For Team Competition in Connection With Bankers' Match of D.C.R.A.

OTHER AWARDS.

(By Jack Hambleton, C.P. Staff Writer.)

CONNAUGHT RIFLE RANGES, Ottawa, Ont., Aug. 13—The 48th Highlanders of Toronto won the Aylmer-Guard Cup for team competition in connection with the Bankers' match at the Dominion of Canada Rifle Association meeting yesterday, according to results issued today. The Scotsmen scored 377 to win the trophy for the second year in succession. Last year the same team scored 383. Canadian Scottish, Victoria, B.C., were second with 375; Queen's Own Rifle, Toronto, third, with 374, and Sherbrooke Regiment, Sherbrooke, Que., in last place with 372. By their victory 48th Highlanders retain the Challenge Cup presented by Maj.-Gen. Lord Aylmer and Anson A. Gard, Esq., for team competition.

Governor General's Foot Guards, Ottawa (B) team, won the British Challenge Shield, awarded to the team making the highest combined score in the Gzowski and Dundonald matches, with an aggregate score of 429. The team scored 339 in the Gzowski and 90 in the Dundonald. Next in order were Royal Hamilton Light Infantry, 416; Queen's Own Rifles, Toronto, 411; and Governor General's Foot Guards "A" team, 396.

Win Victoria Trophy

Governor General's Foot Guards also annexed the Victoria Rifles of Canada trophy, awarded to the team making the highest aggregate scores at 500 and 600 yards in the Tyro, MacDougall and Bankers' competitions. Seventh Battalion Canadian Machine Gun Corps, Saint John, N.B., were second with 749, 22 points behind the winners. Queen's Own Rifles, Toronto, were third with 732, and Queen's Own Cameron Highlanders of Canada, Winnipeg, Man., last with 713.

G. Q.M.S. Opperman, Hamilton, Ont., won the Tilton judging distance competition held Monday, with C.S.M. T. H. Kerr, also of Hamilton, in second place, and Sgt. F. H. Brooks, Ottawa, third. Competitors in this event estimate the distance to objects selected by a range officer and points are counted for the closest estimates.

The Walker match commenced yesterday will be completed this morning. The match is fired at 300 and 500 yards, seven shots at each distance. The major trophy is a challenge cup presented by Hiram Walker and Sons, and there is $700 added by the D.C.R.A. This, too, is an individual and team match, with the cup going to the winning team.

The Macdonald Brier will commence this morning with the second stage being fired this afternoon, followed by the Borden, Lewis gun, Service revolver championship, and the James Boa revolver team trophy.

The weather was fine for shooting when the extra series and practice shots were fired at 8 o'clock this morning. A slight breeze barely disturbed the wind indicators on the range, and the sun flooded the ranges with light.

MURDER OR SUICIDE?

TORONTO, Ont., Aug. 13 (C.P.)— Finding the body of a Chinese hanging by a rope, his eyes blindfolded, feet almost touching the floor, has set the police here a problem to decide whether Mark Chong, aged 30 to 35, committed suicide or was murdered.

FOUR MORE MAT TITLES WILL BE DECIDED ON TO-NIGHT'S CARD

Hennessey, Trifunova and Chilcott Capture Canadian Crowns.

FEATURE BATTLES.

TORONTO, Ont., Aug. 13. (C.P.)— A second night of hectic battles upon the mat, left the third evening's program of the Dominion amateur wrestling championships, with still four titles to be disputed. Even after running the matches well into the morning, officials were forced to carry the lengthy program over an extra evening.

To-night will see the award of four more crowns and four more grapplers given the right to enter competition at the British Empire games. That doesn't mean to say, however, that the four champions will be present at Hamilton. For entered in the final of the welterweight class is the wily Charles Humbert, of New York, who to-night will bid for the Canadian honor, against Reg. Preistly, of Toronto. The Toronto boy, however, has overcome his obstacles to reach his present destination, more easily than the American, and it is expected the visitors will find the 15 minute periods a little severe.

Feature Battles

The only title-holder to enter this year's contests, Howie Thomas, of Montreal, is to-night pitted against Big Jack Herold, Toronto. On his performances of the past two nights, the bronzed Montreal has given no indication that he will relinquish his right to the lightweight throne. Another Montrealer, D. MacCallum, is lined up in the middle weight class against Mike Chepesuik, Toronto, who last night defeated the veteran J. H. Paddison of Winnipeg. The Manitoba capital and Toronto clash again to-night when Big Bill McIntyre of the Prairie city, and George Smith battle for the title in the light heavyweight group.

The decision of the other four titles last night ended two nights of hard struggling over rough battlefields. It was a hard blow to some who grappled their way through a long series of preliminaries and then went down in the final round. Such a lot befell the youthful Dr. D'Arcy Hilliard, of Kitchener who, after scoring impressive victories in his previous bouts was overwhelmed by the cat-like Harold Hennessey, Hamilton, who twice downed the doctor in less than eight minutes, to win the 118-pound title. The lithe Jimmy Trifunov, of Regina Sask., continued his string of victories to claim the bantamweight title, by gaining a decision in two rounds out of three with Gar Fuller, Toronto.

Wearied by his struggle in the semi-final R. L. Rowland of Montreal lost to Clifford Chilcott, brilliant Toronto physical instructor, who easily conquered everything in the bantamweight ranks.

Lack of entries left W. McCready of Regina, in possession of the heavyweight crown which last year was held by Big Hans Lindberg, of Port Arthur, Ont.

SCOTS VS. C.G.E. ON THURSDAY NIGHT

Meet in a League Match—Kickk-off No Later Than 6.15.

A very important soccer league game is scheduled for to-morrow evening between Canadian General (White Challenge Cup holders) and the Caledonians, on King Edward Park. Kick off at 6.15 prompt. Referee, James Hawthorne. Clubs must furnish their own linesman that is associated with the team.

The fans delight to witness the Scots' front rank play combination, more especially Cook, at inside right, being considered the best sharpshooter in local soccer.

Encouraged by their successful cup triumph the other night, the Canadian General are fielding their full quota so as to get into the league running again. It was the Scots that took two valuable league points from them.

All players of both teams are requested to be at the pavilion no later than six o'clock because the referee has received instructions to kick off at 6.15—no later.

ARTICLES ON WAR GUILT PLEASE FORMER KAISER

GENOA, Italy, Aug. 13 (C.P.). — Wilhelm Hohenzollern, the former Emperor of Germany, to-day telegraphed Baron Alberto Lumbroso, thanking him for copies of his articles on origins of the war. The articles recently were published in Giorwale Di Geneva, and favored Germany's disclaimer of the war guilt.

The former Kaiser praised the Baron's "objectiveness and documentation," and declared that the Italian nobleman's conclusions "reveal convincingly tendencies leading to conflagration of the pre-war policy of Russia, France and England."

He said that he hoped proof of German innocence of war guilt would be attained finally.

WANTS TITLE BOUT.

NEW YORK, N.Y., August 13 (C.P.). — William L. "Pa" Stribling and Jefferson Davis Dickson, European fight promoter, arrived from England last night on the liner Paris to confer with Joe Jacobs, manager of Max Schmeling, about a possible fight between Schmeling and W. L. "Young" Stribling in Berlin.

PHILLIPS - LONGERT FINAL BOUT FEATURE CARD IN C.A.B. BILL

Five Titles Likely Be Decided to Nineteen Bouts Carded For To-night.

SPECTACULAR BATTLES.

HAMILTON, Ont., Aug. 13 (C.P.).— Fistic "naturals" are on to-night's Canadian amateur boxing championships program. Of the 19 bouts carded for decision, five at least will bring together aspirants for Dominion honors who have proved they possess every asset qualifying them for the finals. The other bouts bring together boxers who have fought their way to the semi-finals and finals through development of one particular asset—a dynamical attack in some instances and an air-tight defence in others.

In four classes the finals have already been reached, while in the others the semi-finals have been reached. Title-holders in all divisions will be declared and the winners will represent Canada at the British Empire Games.

What should prove one of the best tilts on the program brings together Teddy Phillips, Toronto, and Sammy Longert, University of Toronto, in the final of the 160-pound class. Both men have shown their ability to give and take punishment in their elimination bouts which were among the most exciting of the tournament.

Terrific Hitter.

Last night Phillips gave a masterful exhibition of terrific hitting and clever footwork to secure a unanimous decision over W. F. Chevrier, slugging Ottawa middleweight. The latter was on the verge of a knockout on several occasions.

Longert Knocked out the Thunder Bay champion, Joe Behistok, Port Arthur, in the second round of their engagement. The latter, after two smart victories the previous night, was one of the favorites to annex the crown.

What promises to develop into another hectic struggle is the final between two great lightweights, George Holden, Winnipeg, Manitoba, champion, and Cosmo Canzano, Toronto, Ontario title-holder. The former, one of the most colorful boxers participating in the championship, has shown one of the best defences seen here, plus a terrific wallop in each fist. The Torontonian has a more aggressive style and also packs a hard punch, but he lacks the coolness of the Western Canada boy, who registered a clean-cut triumph last night over the Quebec champion, William Heathfield, Verdun. Canzano beat John Pope, Montreal.

Howard Williams, Kirkland Lake, holder of the Toronto welterweight crown, opposes Joe Dunn, Quebec, in a match that is expected to provide the fans with more than the usual amount of slugging and accompanying excitement. Williams, who is of the cool, hard-hitting type, defeated Chuck Wooley, sturdy St. Thomas entrant, last night, while Dunn outpointed Arthur Adie, of Guelph, in the other semi-final in this class. Tony Pennick, Hamilton, opposes Johnny Rocks, Kirkland Lake.

Light heavyweights will make their first appearance when A. Pitcher, Hamilton, and J. McLeod, of Halifax, clash in the only schedukle match in this class during the tournament.

In the semi-finals of the featherweight division, H. McLeod, Montreal, meets Jimmy Fisher, the hard-hitting local boy, who scored a surprise victory last night over Gordon Gallie, the hard-hitting Montrealer. The other semi-final is an all-Montreal affair. P. Mecteau meeting A. Dunn.

Another Montreal match is that between Harry Gerson and Robert Martin in the semi-finals of the flyweight class. Ross Galloway, St. Thomas, opposes H. G. Wynne, Toronto, in the other bout.

The final of bantamweight division brings together Roy Hamilton, straight hitting youth from Timmins, and J. Keller, a terrific hitter from Montreal.

TESTERS WIN 8-4 DECISION

Armature and Test Department Clash in Final Game of C.G.E. Softball Loop.

PLAY SMART BALL.

The Armature Winders and Test Men clashed last night in the last scheduled game of the C.G.E. Interdepartment Softball League in a fast tussle that resulted in an 8-4 victory for the Testers. This win gives the Test a chance to get into the play-offs as both teams are now tied for third place with 13 points each.

Well placed hits and clever pitching won the game for the Test, Nobbs' pitching being a feature despite the fact that he showed signs of wildness at times. He fanned seven batters.

The deciding sudden-death game will be played to-night on the diamond at the rear of the plant and the winner of this game will meet the Engineers Friday night in the first game of the play-offs. The teams:

Test—Emery, c.; Nobbs, p.; McKeagan, 2b.; Flashford, 1b.; Woodland, s.s.; Holgate, l.f.; Greenlaw, 3b.; Ainsworth, c.f.; Brumby, r.f.

Arm. Winders—Turley, 2b.; Calladine, s.s.; Hambly, c.; Henry, 1b.; Millard, l.f.; Fraser, c.f.; Perry, 3b.; Powell, p.; McGilen, r.f.

Umpires—Asterland and Jones.

DISTRICT NOTES

From Villages and Towns in District

BY CORRESPONDENTS OF THE EXAMINER)

MADOC.

Mr. Lawson Blakely of Lindsay is spending the summer vacation with Billy Sills at Moira Lake, and will spend some time with his brother, Harry Blakely, at his old home near Eldorado.

Miss Jean Whytock has returned from spending a few weeks with friends in Peterborough.

Master Stanley Hawthorne, youngest son of Mr. and Mrs. William Hawthorne, is very ill.

Mrs. Walter Whytock and daughter, Helen, have returned after a visit to Hamilton, Niagara Falls and Toronto.

Misses Mary and Helen Mackintosh of town are visiting friends and acquaintances in Vancouver, B.C.

Master Tommy Ross, only son of Mr. and Mrs. Colin Ross, is much better after his serious illness.

Sunday morning services were held in Trinity United church, Rev J. E. Glover, B.A., B.D., of Smithfield, Ont., in charge owing to the absence on vacation of Rev. G. W. Rivers, B.A., B.D.

In St. Peter's church, in the absence of Rev. T. G. Marshall the morning service was taken by Rev W. T. Brown, West Avenue Presbyterian church, Buffalo, N.Y.

Evening services were withdrawn in both churches. In the Anglican church of St. John the Baptist, there was Holy Communion and sermon in the morning. No evensong services.

Madoc Lawn Bowling Club held a business meeting on Tuesday evening after the evening's play, for the election of a new secretary, owing to the resignation of D. J. Barry.

Mr. George West was unanimously elected. Plans were made and teams organized for weekly games, and an informal tournament during the month of August.

Mrs. Hugh Ross and Mrs. George Price of Orono are spending a few weeks with friends in Madoc, Eldorado and Queensboro.

Mrs. Stanley Thompson, of Fort Worth, Texas, Mrs. Frank Rowe of Ottawa, and Mr. and Mrs. Malcolm Bristol are spending a few days in Peterborough.

Mr. and Mrs. James Tennyson and Mr. and Mrs. Michael Farrel of Toronto spent Sunday and Monday with friends in Madoc and Stirling.

Mr. and Mrs. Basil Wickham and little son of Dayton, Ohio, are visiting at the home of Mr. and Mrs. Robert Wickham.

Mrs. W. T. B. Combie of Montreal is the guest of her mother, Mrs. Breakell.

Miss Alice Armstrong has returned from the Presbyterian Summer school at Glenmohr Summer camp, near Beaverton.

CAVAN

Dr. Edmund Syer, of Hamilton spent a brief vacation with his mother, Mrs. M. Syer, Millbrook, and visited his aunt, Mrs. E. Syer, Cavan.

Miss Jean Kennedy, Bewdley, visited her cousin, Miss Jessie Armstrong for a few days recently.

Miss Isabel King, Peterborough, has been holidaying at Mrs. Lloyd Sutton's.

Ralph Edminson, Lindsay is visiting his aunt and uncle, Mr. and Mrs. Loyd Sutton.

Among those from Cavan Centre who attended the excursion to Orillia on Thursday were: Mrs. Loyd Sutton and the Misses Audrey Keene and Isabel King, Mrs. J. Armstrong, Jack, Jessie and Jean Kennedy, Mr. and Mrs. Leonard McNeil, Messrs. Ray Syer, Fred Hunter, Stanley Theobald, Russel and Clayton Card. and Mrs. A. Byers.

Mrs. Loyd Sutton won first prize in the stout ladies' race. It was a beautiful silver cake basket.

Mrs. Harrison and two sons of Toronto are visiting her mother, Mrs. W. Tinney.

The Rev. J. E. Witham was called to Damascus on Thursday to attend the funeral of a friend on his former circuit. Mrs. Witham and Master Francis accompanied him. They will return on Saturday.

Mr. and Mrs. W. J. Hutchison and Mr. and Mrs. George Hutchison, Peton Civic Holiday.

Mrs. Sisson of Philadelphia, U.S.A., has been her guest for a couple of weeks and will commence the journey to her home on Saturday.

Mrs. David White and son, Elias are in Toronto, having motored up with Mr. and Mrs. Bell, who were their guests over the holiday weekend.

On Friday afternoon Cavan United Church Sunday School held their picnic at Chemong.

There was a good attendance, cars being provided for those having no means of conveyance.

The rain spoiled the programme of sports which is usually so much enjoyed by the children.

Lunch was served in the Pavilion and a social time enjoyed.

Miss Kane of Orono has been engaged as teacher in Whitfield's school for the ensuing year.

Mrs. McNeilly, Mrs. J. M. Knowlson and Mrs. R. J. Matchett, Lindsay motored to Cavan on Thursday and were guests of Mrs. J. G. Matchett and Miss Frances Hunter.

Mr. and Mrs. C. Smith have returned from their honeymoon.

On Sunday evening in Cavan United Church the Rev J. E. Whitham spoke on "Zaccheus, the Publican Who Became a Preacher." The choir sang "Love Lifted Me." Next Sunday his topic will be, "Peter, the Coward Who Won the Victor's Cross."

Mrs. Sisson, who has been visiting her niece, Mrs. Ida Keegan, left on Saturday for her home in Philadelphia, U. S. A.

On Monday evening, August 18th, there will be a meeting of the Bible Society in Cavan United Church. Mr. Millman will be the special speaker.

Mr. and Mrs. Eric McLean, Mount Pleasant, attended church in Cavanville on Sunday evening.

Mrs. David White and son, Elias, returned from Toronto on Saturday evening, where the latter had an operation on his tonsils. His friends will be pleased to know the operation was quite successful.

The Misses Yna Vanderhorn, Mildred, Iva and Olive Smith and Ruth Staples were among those from Cavan Centre who attended the judging competition in Millbrook on Saturday.

Miss Alberta Byers is visiting friends in Detroit.

Mr. and Mrs. George Hutchison, Mr. and Mrs. W. J. Hutchison, Mr. J. Ingram, Mrs. Perry, Mr. and Mrs. Saggett and Miss Jean Saggett and Miss Hill, Peterborough, motored to Cavanville on Sunday and visited Mrs. Ida Keegan.

Threshing has commenced in this locality. Mr. Earl McGill threshed peas in the field and several others are ready if the weather remains favorable. Mr. David White has started his season's work with a fine new threshing machine.

LIFFORD LINE.

Mr. William Ferguson, of Lindsay, called on Mr. D. N. Mills and other friends here on Thursday last.

Mr. Cecil Tims and family, accompanied by Miss Jane Mills, were visitors to Lindsay on Saturday evening.

Laura and Cecil Neals have been holidaying with several relatives and friends here during the past week. Their parents, Mr. and Mrs. Perry Neals, of Peterborough, motored out for them on Sunday.

Mr. David McLean and family, formerly of Oshawa, have settled in the house vacated by Mr. Perry Neals and family on the Eighth line, now owned by Mr. Harry Neals.

Holy Communion was observed at St. Mary's Church, Lifford, on Sunday morning.

Rev. Scott, of Bethany, made several friendly calls in this neighborhood last week.

Mr. and Mrs. Lavergne McKinley motored to Omemee on Sunday and visited the latter's parents.

Mr. and Mrs. Norman Wilson and family, of Sarnia, who are holidaying with his father and brother here, spent Sunday at Yelverton with Mr. and Mrs. George Wilson.

Mr. and Mrs. James Neals visited their daughter, Miss Olive Neals, in Nicholls Hospital, Peterborough, on Sunday and report favorable progress after a serious operation.

Mr. and Mrs. Charles Staples, accompanied by Mrs. O. H. McGill and Miss Mae, visited friends at South Monaghan on Sunday afternoon.

KEENE.

Mrs. Maycock, of Warkworth, has been visiting Mrs. Charles Hunter.

Miss Gwen and Miss Betty Jarvis, of Peterborough, have been holidaying at the home of Mrs. James Wilson. Gwen recited at the Young People's meeting on Friday evening and sang a duet with Nellie Thompson.

Mrs. D. D. Brown, with Betty and Eleanor, returned from a week's visit in Toronto at her mother's.

On Thursday night an unusual visitor tied up at the wharf, the Fusillade, a fast cabin cruiser from Buffalo. Two hours earlier visitors from Long Island, New York, asked permission to pitch their tent beside the bridge. The wharf has become a popular camping ground for tourists, hardly a night passing without one or two tents springing up there, with everything ready for an early start at fishing in the morning.

Miss Ella Foley has been in Montreal for three weeks visiting her sister.

Mr. and Mrs. Percy Skinner motored from St. Catharines on Saturday evening to stay a few days with Mrs. Richard Skinner.

The Misses Irene and Isabel Shortt motored to Toronto on Sunday with their uncle, Mr. Will Shortt, to spend two weeks in the city.

Mr. and Mrs. Lawrence Wallace came for the week-end to visit Mr. and Mrs. T. J. Wallace at Rice Lake.

Mrs. Mary Wood is able to be out again after a minor operation last Monday.

Mr. and Mrs. Walter Redpath, of Toronto, who have been visiting in the neighborhood for two weeks past, left for home on Sunday.

Miss Margaret Rennie and her niece, Norma, visited in Toronto three days last week.

Mr. and Mrs. Robert Nelson, with the Misses Marion, Isabel and Jean, arrived home Saturday evening after a six weeks' trip to the Pacific Coast. The danger of the mountain roads and the scenery of the Yellowstone Park are outstanding in their impressions. Both going and returning, they broke the journey by visits with former Keene friends. In Flint, Michigan, they called on Mr. Stuart Greenley, an acquaintance of Peterborough Collegiate days; at Oxbow, they saw Mrs. Hore, Mrs. Norman Gainor's sister, with her four daughters; Mr. and Mrs. Ernest Manley, of Midale, were next on their route; then Mr. and Mrs. Dennis Corkery, of La Fleche. The former is Mrs. Herb Doris' brother and the latter was Kathleen Fitzgerald, sister of Mr. Joe Fitzgerald. At Shaunavon they saw Mr. and Mrs. Bob Cowie, the latter being a brother of Mr. Henry Cowie and an uncle of Mr. Bob Cowie, of Hiawatha. His wife was formerly Vicey Spiers; Alex. Hastie and his wife, Elva Wood, the five Spiers boys and their parents, Mr. and Mrs. Alex. Spiers; Mr. and Mrs. David Steele, who was Hazel McFee of Keene. On the way home they called at Carberry on Mr. and Mrs. Will Evans, formerly Annie Renwick; on Mr. and Mrs. Will Wood and their daughters, Martha and Jessie, who married two Grahams, brothers; also on Fred Irwin, brother of Clifford and Earl. At Winnipeg they stayed with Mr. Arthur Nelson and called on Mr. and Mrs. Roy Bolin and their four children and Mr. Jack Humphries. At Copper Cliff they saw Mrs. O'Connor, who was Minnie Walsh; also Dr. Billy McCauley, son of a former Methodist minister of Keene and now head of the Copper Cliff hospital, part of the enormous holdings of the International Nickel Company.

HALL'S BRIDGE

Mrs. Hy Shearer, Mrs. Ed. E. Willis and Miss Iris Willis were guests on Friday of Mrs. W. H. Pearson at Bayview.

Mr. and Mrs. Mellville Hall and family have returned from their visit to Glenoaks.

Mr. and Mrs. Peleur and family, and Mr. and Mrs. Cookson and family all of Toronto have rented cottages at Sandy Lake for the season.

Miss Tretheway was a visitor to the village on Saturday.

The Boy Scout Troop 59 of Toronto arrived here on Sunday and are camping on the grounds of the Windsor Hotel. They are staying two weeks.

Miss Iiris Willis was a visitor to Peterborough on Saturday.

Mrs. Willis and Miss Iris Willis were guests of Mr. and Mrs. William John, of Stockdale.

The following guests have registered at Buckhorn Lodge: Mr. and Mrs. Angelo and Mr. Jackson, of New York Mr. and Mrs. A. Waddell and family of Peterborough; Mr. and Mrs. W. S. King, of Peterborough.

At Bayview Inn the following have registered: Mr. and Mrs. Ebling, Cleveland; Mr. and Mrs. Thorpe, Miles, Ohio; Mr. and Mrs. Morris, Miss R. Kelly, Cleveland; Mr. and Mrs. Walker and son, Washington; Mr. and Mrs. Laryhtar and son, Dayton; Mr. and Mrs. Miller and family, Philadelphia; Mr. Clarke, Philadelphia; Mr. and Mrs. Wallace and family, Miss Peggy Warner, Newcastle, Pa.; Mr. and Mrs. M. Atwell, Mr. and Mrs. Sieglert, Dr. and Mrs. Atwell, Washington; Mr. and Mrs. Walter Nugent and daughter, Peterborough; Mr. Thomas Winderwood, Miss Mildred Winderwood, Washington; Mr. Flint, Springfield, Ohio; Mr. and Mrs. Williams, Girard; Judge and Mrs. Cummings, Huston, Pa.; Mr. and Mrs. Clarke, Mr. Purnam, Mr. Dark, Washington; Messrs. Brunke, Toronto; Mr. Tillen, Mr. Tucker, Mrs. and Miss Birkely, Mr. and Mrs. Sutton, Miss P. Smith, Mr. and Mrs. Seamen and family, Mr. and Mrs. Wright and family; Mr. and Mrs. Paxton and family all of Washington; Mr. and Mrs. Pete and family, Denora, Pa.; Mr. and Mrs. Yost, Denora; Mr. Weise, Lenora; Mr. and Mrs. Yarrell and family, Mr. T. Lilley, Mr. W. Williams all of California; Mr. O'Neil, Toronto, Mr. and Mrs. Gerbart and family, and Mr. and Mrs. Hazen and family, of Newcastle, Pa.

TRENT RIVER

Mr. and Mrs. H. E. Robb, Mr. and Mrs. James Breyley and son Robert of Cleveland, Ohio, are at "Luck's Haven" for two weeks.

Mr. George Bryans of Toronto is visiting his friend Mr. Raymond McCann, at "Athlone."

Master Raymond Clancy has returned to Peterborough from spending three weeks with his aunt, Mrs. Jay Bedford.

Mr. Martin McCann of Toronto spent the week-end with his family at "Athlone."

Mr. Ernest Bennett of Ottawa was at "Killarney" over the week-end.

Miss Alice Garneau was a recent visitor with Miss Marie Bedford.

Was Constipated, Bilious, Tired. Now Well, New Woman

Years of Misery Ended by "FRUIT-A-TIVES"

"Was always constipated bilious, tired out of sorts. Since taking 'Fruit-a-tives' feel like new woman, perfect health. Constipation all gone."—Muriel McHendry, Montreal.

Hosts of men and women write years-old constipation and liver trouble ended overnight with "Fruit-a-tives." Biliousness, indigestion, heartburn, gas vanish like magic. Kidney and bladder ills, pain in back fade away quick. Nerves quiet, sound sleep at once. Rheumatism neuralgia, neuritis, sick headaches decamp in hurry. Complexion clears.

Ten of nature's greatest remedies combined in handy tablet. Marvelous discovery by famous Canadian doctor. Speedy results amaze all.

Quit being sick, tired, weak. Get "Fruit-a-tives" from druggist today.

KELLOGG'S Pep Bran Flakes are a splendidly balanced food with milk or cream.

Filled with health-giving whole wheat. With just enough bran to be mildly laxative.

They have the famous flavor of PEP. They're crisper—tastier—*better bran flakes.*

Just the cereal treat for children. And grown-ups too. At all grocers. In the red-and-green package. Made by Kellogg in London, Ontario.

TUXIS CAMP WILL OPEN AUGUST 21

Peterborough Will Be Represented at Annual Training Camp.

Peterborough will be represented at Camp Tuxis which is to be operated at Beau Rivage Island in the St. Lawrence River near Gananoque, August 21, to 30. It is to be a training camp for older boys and leaders under the auspices of the Ontario Boys' Parliament and the Ontario Boys' Work Board of the Religious Education Council.

The purpose of Camp Tuxis is "to so heighten the awareness and enrich the lives of the campers that they will return to their regular relationships feeling about more things and feeling more about things" and "to so assist the campers that they may render more effective leadership to Trail Rangers and Tuxis Boys in their home, church and communities."

Leaders at the camp will be Gordon Lapp, camp director; Rev. John Mackay, representing the United Church; Robert Robertson, Dr. J. C. Mabee, Tom Johnstone and Mel. Jack, Premier of Boys' Parliament.

NATIONAL PROHIBITION CONDEMNED BY WOMAN

UNIVERSITY, Va., Aug. 19.— National prohibition was condemned and its repeal advocated before the Institute of Public Affairs to-day, by a woman, Mrs. Marion Booth Kelly, a member of the New York State Advisory Council of the women's organization for national prohibition reform.

She discussed prohibition either if enforced or unenforced, and declared her disapproval in each instance—if unenforced, she said, because it fed disrespect for law; and if enforced, because it violated the guarantees of the Federal constitution.

CANADA'S HENLEY PRECEDES THE BRITISH EMPIRE GAMES

Oarsmen From Afar Expected to Compete in Championship Events at St. Catharines.

AUGUST 14 TO 16

ST. CATHARINES, Ont., Aug. 13. (By The Canadian Press) — The forty-eighth annual regatta of the Canadian Association of Amateur Oarsmen will open on the Royal Canadian Henley course here on August 14, and continue for the succeeding two days.

This meet for deciding Canadian rowing championships is usually held during the last week in July, but has been set back two weeks because of the British Empire Games which are to be held in Hamilton the week following. The change in dates will permit Canadian crews to compete in the Empire games and giving an opportunity to competitors from outside points in the Empire to enter in the Canadian Henley championship events.

United States clubs are again expected to have entries in the chief events on the card. Last year most of the trophies were brought back to Canada by Canadian clubs.

Present Champions

The various championships are at present held as follows:

Senior single—Jack Guest, Don Rowing Club, Toronto.

Junior single—Gibson Shaw, Argonauts, Toronto.

Senior 140 pound single—J. W. Reed, Argonauts, Toronto.

Senior eight—Argonauts, Toronto

Senior 140 pound eight—Leander Rowing Club, Hamilton.

Junior 150 pound eight—McGill Rowing Club, Montreal.

Junior 140 pound eight—Don Rowing Club, Toronto.

Senior 150 pound eight—Westside Rowing Club, Buffalo.

High School, four—Hamilton Collegiate Institute.

High School eights—Lachine.

Quarter mile dash—John Durnan, Don Rowing Club, Toronto.

Junior 150 pound four with coxswain—Argonauts, Toronto.

Senior 140 pound four—Don R. C., Toronto.

Senior doubles—Richardson and Mackay, Winnipeg, R. C.

Senior four—Penn. Athletic Club, Philadelphia, Pa.

140 pound four (maiden)—McGill Rowing Club, Montreal.

Junior double—Gibson and George Shaw, Argonauts, Toronto.

Junior 150 pound four—Don Rowing Club, Toronto.

Junior four — Brockville Rowing Club.

Association single—E. Bole, Winnipeg, R.C.

Various Events

The 140-pound four (maiden) is for contestants who shall not weigh more than 140 pounds at the waterside and who have never won an open sweep-oared race.

The 140-pound single is for 140-pound scullers who have never won a sculling race.

The 140-pound eight (junior) is a special race for contestants of that weight who have never won a race other than in the 140-pound junior class. The same conditions govern the 150-pound junior four event.

The Association single is open to all duly qualified scullers excepting the winners of similar races in previous regattas of any association. The successful competitors of each regatta shall be entitled to compete in the senior championship race.

A sweep oarsman who has won a junior sweep-oared race, but can row in any senior race provided he can make weight.

A sculler who has won a junior sculling race is not eligible to row in any other junior sculling race, but can row in any senior race providing he makes weight.

The above classes all of which will be rowed again this year do not prevent an oarsman who has won a junior sweep-oarded race from entering a junior sculling race, or viceversa.

All events are to be rowed straightaway and the full Henley distance of one mile 550 yards, with the exception of the quarter mile dash and the high school eight, which is a one mile event.

Rumors of removing the regatta from St. Catharines, which were in circulation a year ago, have been dissipated by the decision of the Government to have the course deepened, the contract for which has been awarded and preliminary work already begun. The contractors promise that the undertaking will be completed before opening day. The matter of a new grandstand will be taken up with the idea of having it ready for next year.

All senior finals will be rowed on Saturday, August 16. The junior finals, including the association single, will be decided on Friday, August 15. Thursday's events will consist of elimination contests in events where heats are required. Senior heats, if necessary, will be rowed late Friday afternoon.

R100 HAS NO FEAR OF NUMBER "13"

Course Expected to be Very Close to Route Coming Over.

NEW RECORD RETURNING.

ST. HUBERT, Que., Aug. 13. (C.P.) Thirteen has no terrors for the R-100, British dirigible which will sail for England to-night after her first trip to Canada. This morning she was all primed for her trip, with her gas bags bulging with a new supply of hydrogen and everything on board spick and span.

While her passenger list had not been announced it is known that one of them will be Jacques N. Cartier, a descendant of Canada's pioneer navigator, who makes in the air the trip his ancestor made along the St. Lawrence and across the Atlantic in 1534.

Conforming to sailing practise a blue peter was flapping in the breeze from a flag pole, indicating the ship was under flying orders.

Will Not Repair Motor

The R-100 will go back without the services of the starboard forward motor. This engine developed a defect on the trip over Ontario and after examination it was decided not to repair it here. As a good tail wind will likely be behind the dirigible officers of the ship thought the motor would not be wanted.

No probable route has been announced.

Unofficially the ship's navigators have said she will likely return over much the same route as she took on her westward trip. The big airship cast off from the mooring mast at ten to-night and daylight will see her far down the St. Lawrence and over the "bumpy" parts which caused her so much trouble on her inward voyage. It was thought she can make her home airport at Cardington in fifty hours, which will easily be a record for crossing the Atlantic in a lighter than air craft.

SURVEYS MADE OF LABOR CONDITIONS

Employment Service Council to Discuss Dominion Situation on Aug. 21.

OTTAWA, Ont., Aug. 13. (C.P.)— Hon. G. D. Robertson, Minister of Labor, announced yesterday the Government is making a quick survey of unemployment conditions in Canada and that the Employment Service Council has been called to meet here on August 21 to consider information which will have been gathered by that time.

After the council has discussed the situation disclosed recommendations will be made for consideration of the government and will form a basis for unemployment relief measures to be submitted to parliament at the special session early next month.

A bank in Basel, Switzerland, is offering prizes totaling $3,860 for plans of a new building, the vaults of which will be alongside and partially below the level of the River Birsig.

BROADCASTING CORPORATION IS GIVING LESSONS ON THE PROPER METHODS OF RIGHT PRONUNCIATION

Announcer in Speaking of Ontario Pronounces Name With Long A.

PUBLISHES REVIEW.

Whether Committee Proposes To Insist on This Method Remains Unknown.

LONDON, Eng., Aug. 1. — (By Thomas T. Champion, Canadian Press Staff Correspondent.) — The British Broadcasting Corporation recently became the self-appointed teacher of its millions of listeners concerning the pronunciation of proper names, and now it publishes from time to time a list of names reviewed by its advisory committee with their correct pronunciation.

Last night the announcer speaking to the radio listeners of the British Isles had a pleasant reference to the presence here of a representative from the Ontario Government's motion picture bureau. The announcers speech like that of Peter, betrayed him as coming not from Galilee but from Oxford. At any rate he called the province Ontario with a long A. It reminded some listeners of the English schoolmasters who used to instruct their public concerning the province of 'Manitobar."

Whether the broadcasting committee proposes to insist this is the proper method of pronouncing Ontario is at present unknown. Anyhow the province had a fine advertisement last night. And this announcer's efforts are nothing to what Canadian newcomers here can do with some English place names.

VERONAL POISONING IS BLAMED FOR DEATH

MONTREAL, Que., Aug. 13.—(CP) —A coroner's jury at St. Jerome, Que., found that Herbert Jacob Ebbelin 36, of Montreal, who was discovered lying dead in an apple orchard at Cote St. Lambert on August 3, died from veronal poisoning.

"We cannot find anybody criminally responsible for Ebbelin's death, as it was not proved whether he was accompanied or not at the time of his death", the verdict read, in part.

Ebbelin, who according to his wife usually carried $500 or more in his pockets, was engaged in German immigration work and was himself a native of Germany. Only a watch and a few cents were found in pockets. His motor car was parked a short distance away from the spot where he was lying.

TARZAN OF THE APES No. 35 (Metropolitan Newspaper Feature Service, Inc.) By Edgar Rice Burroughs

The scene Clayton witnessed there in the twilight depths of the African jungle was burned forever into the Englishman's brain. The giant man before him encircled the lion with his powerful right arm while with his left hand he plunged a knife time and again into the beast's unprotected side.

It was all accomplished quickly. The lion sank lifeless. Then the strange figure that had vanquished it stood erect upon the carcass, and throwing back the wild and handsome head, gave out the fearsome cry that a few minutes earlier had so startled Clayton. Then he gathered up his weapons.

Clayton spoke to the stranger in English, thanking him. The only answer was a steady stare and a shrug of the mighty shoulders. Tarzan drew his knife, deftly carving a dozen strips from the lion's carcass. Then squatting upon his haunches, he proceeded to eat, motioning Clayton to join him.

Clayton could not bring himself to share the uncooked meat his strange host was so apparently relishing. Again he essayed speech with the ape-man, who replied in a strange tongue, like monkeys chattering. Then he arose, motioning Clayton to follow him. Bewildered and confused, Clayton hesitated to do so.

The ape-man, seeing Clayton disinclined to follow, grasped him by the coat, dragging him along for awhile. The Englishman concluded he was a prisoner. Thus they traveled into the impenetrable forest amid wild calls of savage life and falling night. Suddenly there came a faint report—a single shot—then silence.

IN MEMORIAM.

DARRAH.— In loving memory of Elizabeth Jennet Darah, who departed this life August 13, 1929:
She has taken her last journey
In God's beautiful ship called rest.
Away from her world of sorrow,
To a home of eternal rest.

Fond were the ties that are broken
Dear is the one that has gone,
In memory we shall keep her,
As long as the years roll on.
—Ever Remembered By Her Loving Husband and Daughter.

IN MEMORIAM

CRAIG—In loving remembrance of my dear mother who passed away Aug. 13, 1921.

Deep in my heart lies a picture
Of a loved one laid to rest;
In memory's frame I shall keep it
Because she was one of the best.
My lips cannot speak how I loved her
My heart cannot tell what to say;
God only knows how I miss her,
As I struggle along life's rugged way.
When I reach the heavenly gardens,
And see her in full bloom
The flower I loved so dearly,
And thought God picked too soon;
Oh, then I shall know the reason,
Though I know it not today,
Why in her fragrant beauty
God took my flower away.

Sadly missed by her loving daughter Mrs. A. O'Brien, 176 Dupont St. Toronto.

OBITUARY

CHARLES HENRY YOUNG.

The funeral took place on Friday, August 8th, of the late Charles Henry Young of 167 Aylmer Street. Mr. Young was born in the Township of Haldimand on February 16, 1855, his father being John Stinson Young, who was miller for the district surrounding Brighton in the early days of settlement. Deceased followed his father's occupation, first at Brighton and latterly at Norwood, coming to Peterborough seventeen years ago. He was employed by the Quaker Oats Co. and worked there up until his death. He is survived by his widow, Annie Agnes Loomis, and four daughters, all of whom are married: Mrs. J. G. Christie of Toronto, Mrs. E. A. Bull of Toronto, Mrs. P. H. Hewitt of Port Hope, and Mrs. G. H. Cutmore of Peterborough.

He was an ardent Methodist, and for fifteen years was a member of St. James' Church. After the union of the churches he transferred his membership to Knox Church as being nearer to his home. He was a member of Brighton Lodge of the Canadian Order of Oddfellows.

The funeral was conducted by the Rev. S. H. Moyer of Springville, in the absence of the Rev. William Macdonald, pastor of Knox Church, assisted by the Rev. J. Douglas Paterson, rector of All Saints' Church. Interment was made in the family plot in Little Lake Cemetery.

The bearers were: A. E. Prest, A. Pitchford, Mr. Morrison, Geo. Robertson, C. A. Cowell and J. Pakenham.

MRS. MARGARET GOODYEAR.

Mrs. Margaret Eleanore Goodyear passed away at her home, 270 Rubidge Street, in this city, after a brief illness, in her 51st year. Born in Cleveland, Ohio, the deceased had lived here for some time.

She leaves to mourn her loss one son and one daughter, Frank Goodyear and Mrs. Norman Watkins.

The funeral will be held on Thursday afternoon at 2 o'clock from Comstock's Funeral Home to Dawson Cemetery, with Rev. Mr. Weir officiating.

BABY PRISCILLA MAE EDWARDS

The heartfelt sympathy of the family's numerous friends and relatives wil lbe extended to Mr. and Mrs. James Edwards, 420 Chambers street, this city, in the loss of their only and dearly loved daughter, Priscilla Mae at the tender age of ten months, who died early Wednesday morning.

The death of the little child following as it does, a severe and painful hand injury which Mr. Edwards sustained while at work recently, has struck an exceedingly painful blow at the child's mother.

The remains will rest in D. Belleghem and Sons' Funeral Home, 190 Hunter street, until 9 a.m. Thursday next, when the body will be removed to the family residence from which the funeral will take place at 2 p.m. to Little Lake cemetery. Rev. Dr. A. Brown of George street, United Church will officiate.

400 Day Clocks

We have just received another shipment of 400 Day Clocks.

These Clocks will run for 400 days with only one winding.

A very fine appearance, lacquered brass movements with highly polished steel pinions and glass dust-proof covers. These clocks give good satisfaction and keep good time.

Come in and let us show you these very fine clocks.

They can be had with plain dials or colored enamel dial and pendulum. Will make excellent wedding or presentation gifts.

Moderately priced at $15.00, $22.00 and $27.00.

Ask to see the clocks.

WARNE BROS.

FAMOUS BRITISH LAWYERS ARRIVE

(Continued from Page 1)

wives, included such well-known personages as Viscount Dunedin, Senior Lord of Appeal in the Ordinary and Keeper of the Great Seal of the Principality of Scotland; Allen Jowitt, the present British Attorney General; Frederic Maugham, a brother of Somerset Maugham, author and playwright, and a Judge of the High Court; Sir Boyd Merriman, a former Solicitor-General but with a war record from 1914 to 1919 and British D.A.A.G. from 1917 onwards, and M.P. for Rusholme, Manchester.

Sir William Bull, K.C., former M.P. for Hammersmith and prominent Conservative politician and ardent supporter of the Channel tunnel project, is also of the party and expressed himself as "surprised but not dismayed" at the recent refusal of the submissions for the new traffic link by the Committee on Imperial Defence. He is still optimistic. "It will come because it has to come," he declared.

From the Irish Free State comes Mr. Justice Hanna, Judge of the Irish High Courts since 1925. He is a member of both the Irish and English Bars and has several other Irish delegates with him.

Solicitors Represented

Solicitors are well represented, with Sir Roger Gregory, President of the British Law Society at their head. Other distinguished names include Lord Macmillan, already an honorary member of the Canadian and American Bar Association, who served as Assistant Director of Intelligence in the Ministry of Information during the Great War; Sir Malcolm MacNaughten, former Ulster Unionist M.P. for the City and County of Londonerry and British High Court (King's Bench) Judge, and a host of others.

The French delegation is headed by Henri Decugis of Paris, who in addition to being a French advocate of great distinction is a member of the British Bar, having been called to the middle Temple in 1900. He has an interesting record and is a law expert for the League of Nations. One of his conferes, Jean Paul Dumas, also is a British lawyer having been admitted also to the Middle Temple in 1927. He was also an interpreter with the U. S. army in the St. Michel sector during the war, after active service with the French colors. He is the bearer of many decorations.

To have been completely blind since the age of five, yet to have established an excellent reputation at the French Bar is the life's story of Marcel Bloch of Paris, who is an enthusiastic French delegate. He is accompanied by Madame Bloch.

On arrival here the Bar delegates were met by members of the Quebec Bar and taken for an automobile inspection of the ancient capital. They left by special trains for Montreal to attend the special convocation of McGill University for the conferring of honorary degrees in the afternoon and the dinner offered them by the Bar of Montreal in the evening.

R-100 AWAITING

(Continued from Page 1)

heading across the Gulf of St. Lawrence to Cape Race, Newfoundland. Thence out to sea with prevailing winds to her tail to hurry her long flight. The return flight it is expected, will be affected in but 48 hours.

A definite announcemetn as to whether the airship will fly over the Maritime Provinces on her flight to England is expected this afternoon when her navigating officers return from Montreal. Meanwhile the crew are saying good-bye to new found friends.

Rum Runners Using French Islands

There were no declared exports of liquor to the United States last month, according to official figures released here, but the big rum shipments that formerly crossed the international border have been diverted to the French islands of St. Pierre and Miquelon in the Gulf of St. Lawrence. The map shows present location of rum runners.

TRENT WATERWAY IS RESORT FOR BORDER CITIES OF U. S.

(Continued from Page 1)

terms of the beauty of the route as he had seen it in the last few days, of the splendid system of locks, and the unfailing courtesy with which he had met. "I have not a bit of criticism. This trip has been a real pleasure. I am strong for you, and if I offer any suggestions it is only because I think you have a fine thing here and think it should be completed not only in the interests of local enterprise but for the good of the country as a whole."

Million and Quarter Pleasure Boats

There are to-day over a million small craft in the United States, according to Dr. Meyer, and when this year's program of more than a quarter of a million is completed, that country will boast a million and a half pleasure boats.

Many years ago Dr. Meyer had pressed the construction of a military canal to form an inland water route through the eastern states to Florida. It was only to-day that the project was being carried forward, with the assurance of millions of dollars annual revenue from private yachts.

He felt that on the Trent the cost of constructing the new dams and locks which were needed on the Severn division should be partially borne by great power enterprises to whom the power rights should be granted.

Although he believed that the dam-and-lock system was the better one, he pointed out that if the marine railway system were used, the cars must have a length seven-eights that of a hundred-foot boat—approximately 80 feet—and should be able to accommodate a fifteen-foot beam. A car of this kind did not cost more than $15,000, complete with tracks and all equipment.

Yachtsmen avoided marine railways, he declared, because the overhang of the boat from the ends of the car often resulted in keelson leaks, a very serious and expensive proposition.

First Trip by Water

Dr. Meyer has been through this district by motor before, but this is his first trip by water. He has known Canada intimately for over 40 years, having spent four months of each year in this country during that time. He was Professor of Surgery in the University of Buffalo for more than thirty years, and has been for a considerable time connected with big business enterprises. He was one of the group of men who instituted the first mining operations in the Cobalt, Kirkland Lake, and Nipissing regions. He prospected in Northern Ontario and Quebec for many years and is today associated with several Canadian mining and power undertakings.

He sees bargaining as the only sure basis for individual and national prosperity, and believes that the Canadian system of government is "the finest in the world to-day."

The need for government fish hatcheries along the Trent Waterway, Dr. Meyer saw as urgent. He did not feel that the fishing in local waters was as good as it should be in view of the phenomenal conditions which had obtained some years ago. He scored the use of the fine-mesh net.

Taking Motion Pictures

With Dr. Meyer on his present trip are his wife and a party of six. The taking of motion pictures of the dams and locks is one of his objects. The "Riette" left to-day for Healey Falls. Dr. Meyer proposes to do some fishing here before returning to Toronto via Trenton. He will visit the Canadian National Exhibition, which he is anxious to see.

He arrived here from Campbellford on Monday, and will proceed no further north on this cruise, although he has visited other parts of the Trent by motor.

The "Riette," in addition to being 60 feet in length, has a beam of 13 feet 8 inches, is powered by two 250 h.p. Sterling engines, and has a cruising radius of 800 miles, carrying 950 gallons of gasoline at one time. Her crew consists of three men, while Dr. Meyer himself holds expert navigator's papers.

Every modern convenience as well as every possible safety device against fire, weather, collision, and other mishaps, has been provided through Dr. Meyer's extensive experience in power boating and cruising. Hot and cold running water, electric lighting, electric and ice refrigeration, all the latest sanitary and kitchen equipment, luxurious sleeping accommodation, and spacious open and enclosed deck areas, are only a few of the craft's features.

OLD PETERBOROUGH BOY MAY END MOST BRILLIANT PUBLIC CAREER

(Continued from Page 1)

Supreme Court of Saskatchewan in October, 1912, and Chief Justice of the Court of Appeal for Saskatchewan in March, 1918, he was knighted on June 1st, 1916, and elected Chancellor of the University of Saskatchewan in June, 1917.

The news of Sir Frederick's anticipated appointment will doubtless be regarded with particular interest in this city in which he spent his boyhood days, and in which his father, the late Lieut.-Colonel Frederick William Haultain, was pre-eminently earnest in promoting the interests of Peterborough by employing all his talents.

It will be recalled that Sir Frederick's father died at his residence on Brock Street on Saturday morning, December 9th, 1882. The deceased gentleman, at the time of his death, was 61 years of age, having been born at Brussels on November 7th, 1821. He was the third son of Major-General Haultain of the Royal Artillery. At the age of 16 years he entered the Military Academy at Woolwich, and, passing his examinations in a very creditable manner, obtained a Lieutenant's commission in March, 1839. He was made Second Captain in 1884; 1st Captain in 1854, and a Lieutenant-Colonel on April 1st, 1860. His first foreign service was in Halifax. He was also from time to time quartered at Quebec, Montreal, Kingston and Gibraltar. He was for many years Captain-Inspector of the Royal Gun Factories at Woolwich Arsenal. In 1850 he was married in St. George's Church, Montreal, to a daughter of Major-General Gordon of the Royal Engineers.

Twice Member.

Retiring from the army in 1860, the late Colonel Haultain came to Canada and took up residence in Peterborough in September of that year. He was of sterling liberal principals and his merit and ability were so speedily recognized that the very next year he was returned at the general election over a very strong opponent, the late Mr. Conger. There was another general election in 1863, and he was again returned by a majority of 106 over the late Chas. Perry. In 1873 he accepted the office of Registrar of Peterborough, made vacant by the death of Captain Rubidge. He filled the duties of this position, as he did those of every place in life, with conscientious care and great ability. The late Colonel Haultain was an active member and an elder of the Presbyterian Church, and was ever ready to promote all evangelical and religious work. The poor were his especial care, and as chairman of the Hall Trust and in the management of the Protestant Home, the kindly charity of his nature was revealed in all its earnestness.

Sir Frederick Haultain, it is understood, has a brother Wilmot, who occupies a high Government position in Regina. His brother's wife was formerly a Miss Barlee of Peterborough. Sir Frederick is also a cousin of Theodore Arnold Haultain, essayist-litterateur.

TRUCK DRIVER IS SLIGHTLY INJURED

Clayton Hallett Sustains Injuries While Working For Jupp Construction Company

LINDSAY, August 13 (Special to The Examiner).—Clayton Hallett, of Sonya, who is employed by the Jupp Construction Company on the Lindsay-Peterborough Highway, sustained a rather severe accident a few days ago. He was engaged in driving a gravel truck, and while in the act of pulling down the shade to protect his eyes from the sun, he took his hand off the steering wheel. The truck swerved and overturned, with the result that Mr. Hallett sustained some bad body bruises and a bad gash in his arm which required several stitches.

"Y. W." Girls Enjoy First Corn Roast

The Out Door Club of the Y.W.C.A. with Miss D. Sherin in charge had one of the jolliest outings last evening. The trip was made possible through the kindness of the Silverwood Company taking the group in their truck to Chemong. Around a huge bonfire on the shores of Lake Chemong the girls enjoyed the first corn roast of the season and watched the ever changing hues of the glorious sunset and bewitching twilight. A swim, a bonfire supper and happy songs and gay chatter and stunts made the program of the evening. All senior girls of the city are welcome to these Tuesday night outings.

MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

IMPORTANCE OF ADVERTISING

Stressing the importance of advertising and the far-reaching fame of The Examiner, the following little incident came to light in a casual conversation with one of the T. Eaton Company's officials who are at present in this city in connection with the forthcoming opening of the new groceteria.

Requesting a copy of the attractively printed poem entitled "To the Fellow Who'll Take My Place", which was recently distributed with the compliments of the Managing Editor of the Examiner, J. B. Bulmer, superintendent of construction for the Eaton Company said he had seen it while in Sudbury some time ago. He also saw a copy of the poem hanging in an office out at Chemong Rendezvous Pavilion and was so captivated by the sentiments expressed therein, that he registered a desire to possess a copy. His desire has been gratified, and presumably the poem will occupy a place of honor in his Toronto office.

SLIGHT HOLD-UP

No attempt on the tree-sitting record was made at Chemong yesterday due to the extreme coolness of the weather, it is said. The Gemmell-Pulkinghorn-Thorburn combination which sat for four and a half hours on Monday, will try for a longer sit today, according to reports. No other assaults on the new mark have yet been announced.

AH —! !

The Office Hound, recently prominent as an election statistician, is reported to have returned to his old haunts here this morning. He has just decided to enter the newspaper field and expects to make an important announcement in these columns tomorrow.

JERSEYS ARE O. K.

A herd of 59 Jersey cattle received a clean bill of health from the government inspectors here this morning following a five-day test in which no "reactors" were found. Isaac Hetherington of the Golden Jersey Dairy on the Chemong Road is the proud owner of the herd.

INFORMATION

"Will the weather be all right for me to sail my boat tomorrow?"

This was the questioned hurled over the 'phone last night by a youth in Chemong Park at Walter Peters, The Examiner's eminent weather prophet. Mr. Peters' fame as a prognosticator of the elements has evidently gone out, judging from the number of anonymous requests he receives for advance information on the caprices of Dame Nature. Mr. Peters, who is officially a linotype operator, is no idle guesser. His statistics and meteorological equipment make him an authority in very deed.

In reply to the present request, he was able to assure the young sailor that the weather would be fair and warmer and that a good, brisk breeze would be blowing for his dinghy.

GANDHI PARLEYS

(Continued from Page 1)

tions was regarded as extremely significant.

To-day's session was considered vital by the Government as well as by Indian leaders throughout the country though no definite announcement was expected at the close of this session as the Mahatma and his colleagues will foregather again to-morrow.

Sir Tej Bahadur Sapru and M. Jayakar orginated the negotiations for a pacific ending of the civil disobedience campaign nearly a month ago when they obtained permission of the Viceroy for preliminary conferences with the Mahatma in his prison quarters.

Efforts Continue

Not discouraged by their first interview with the "holy one" the two emissaires left Poona for Allahabad, there conferring with the Pandit Motilal and Jawarhala Nehru and recently obtaining from Viceroy Lord Irwin a transfer of the Nehrus from their prison to quarters in the same jail with the Mahatma, so that a general conference could be held.

While there has been a decided lessening of activity by the volunteers during these conferences, enough energy has been displayed to indicate that neither a truce nor an entire cessation of activities has yet resulted.

LEAVES FOR OTTAWA.

TORONTO, Ont., August 13 (C.P.)—Hon. Vincent Massey was reported late last night to have left for Ottawa for a personal conference today with Hon. R. B. Bennett concerning the High Commissionership in London. It was not known whether Mr. Bennett had summoned him or whether Mr. Massey had preferred a request to see the new Prime Minister.

RELIABLE PRINTING
no order too small

ONTARIO PLANS TO REMOVE DEMON DRIVERS FROM ROADS

Canadian Imports From U. S. Decline

WASHINGTON, D.C., Aug. 13. (C.P.)—Exports to Canada from the United States during June were about $20 000,000 less than for the same month last year. Imports were about $8,000,000 less.

The figures—

Exports, 1930: $59,715,152; 1929: $80,483,894.

Imports, 1930: $36,503,217; 1929: $44,315,288.

Canada, usually the best customer of the United States, maintained that status during the month.

PETERBORO FREE OF PARALYSIS

Dr. T. W. H. Young Declares There Are No Infantile Paralysis Cases

NO SCOURGE HERE.

There are no infantile paralysis cases in the City of Peterborough according to a statement issued today by Dr. T. W. H. Young, City Medical Officer of Health.

Dr. Young was most emphatic in scouting reports of an epidemic of anterior poliomyelitis, or infantile paralysis here. He characteried as extremely unfortunate from every angle the confusion which had been aroused in the public mind by press reports throughout the Province that this city was one of those in the grip of the scourge which is alleged to be rampant in several centres of Central Ontario.

The fact that cases have been reported in No. 4 District, of which Dr. N. H. Sutton is the Medical Officer of Health, has led people and press to jump at the conclusion that Peterborough City was included in the alleged epidemic area as well as Peterborough County, according to Dr. Young.

Within the past month there have been only two cases of infantile paralysis in the city. They have both been very mild, the M.O.H. reports, and have both completely recovered in response to the convalescent serum, with no ill effects to the patients. No other cases of a suspicious character are known here.

FEAR NANKING MAY FALL INTO COMMUNIST HANDS

NANKING, China, Aug. 13 (C.P.)—Fears that Nanking, seat of the Nationalist Government, would fall into the hands of Communist bands arose to-day with reports from the countryside saying alleged Reds in peasant garb and armed with rifles had appeared in large numbers 20 miles away. Nanking was virtually defenseless because few soldiers remained here.

New Motoring Law is Based on Law in Certain States of Union.

AFFECTS ACCIDENTS.

PARLIAMENT BUILDINGS, TORONTO, Ont., Aug. 13 (C.P.)—Ontario Government will plan relief for unemployment through a combined effort with Premier Bennett and other Provinces of Canada. According to Hon. G. Howard Ferguson, Prime Minister there will be no special session called of the Ontario Legislature to deal with the situation.

"We are ready to co-operate with Mr. Bennett as soon as he is ready to proceed with the question", said Premier Ferguson.

"Will the Ontario legislature be called to deal with unemployment"? he was asked.

"No," replied Premier Ferguson, "the disposition is to co-ordinate the efforts of everyone—all the provinces —instead of over-lapping our idea is to have a distinctive program on the question and as soon as Mr. Bennett is ready we will co-operate with him."

FLIERS BREAK RECORD IN TEST OF ENDURANCE

LAMBERT ST. LOUIS FIELD, St. Louis, Aug. 13. (C.P.)—The veteran endurance team, Dale Jackson and Forest O'Brine, flew through rain and the threat of a storm to-day to a new world's record for sustained flight. They officially regained the record at 9.52 a.m. (C.S.T.) when they had been up 554 hours and 41 minutes, slightly more than 23 days.

46 MINERS BURIED ALIVE IN B.C. TUNNEL

Three Suspects Sought in Tweed Death

Police Expect Arrest Of Youths May Provide Clue In Mystery Case

Officers Raided Old Barn Near Thomasburg Tuesday Night For Lads Who Smashed Boat, But Trio Escaped in Darkness Through Surrounding Bush.

BODY OF GEORGE WHITE, 23 YEAR OLD SCOTTISH FARM YOUTH FOUND IN 4 FEET OF WATER IN STOCO LAKE

Coroner Dr. W. Mather Has Ordered an Inquest For Tuesday Night—Vast Crowd of Friends Pay Final Tribute to Lad at Funeral Held This Afternoon.

(Examiner Staff Reporter)

TWEED, Aug. 14th.—Grappling with the mystery surrounding the tragic death of George Graham White. Police are working on a theory that three youths who are being sought in connection with the wilful destruction of a boat near Thomasburg may possibly be involved. On their apprehension which is expected hourly, they will at any rate be called upon to account for their movements, between Sunday last and up to Tuesday night. It was on Tuesday night that police raided an old barn near Thomasburg in which the trio had been sleeping. The vagrants were able to out. The vagrants were able to make their escape, aided by the thick bush. It is believed that they afterwards forded the River Moira. The search is still diligently being pursued for them, in conjunction with the inquiries into the tragedy which has stirred the little town of Tweed. White whose fully dressed and decomposed body was recovered from Lake Stoco at the entrance to the Moira River early on Wednesday morning in four feet of water and whose head bore injuries suggestive of foul play, was of a quiet unassuming disposition, a diligent and trustworthy worker and a man as far as can be ascertained without an enemy in the world.

Inquest Tuesday Night

Coroner Dr. W. M. Mather has ordered the inquest to be held in Tweed Council Chamber at 2 p.m. on Tuesday, August 19th. He released the body last night for burial, after a consultation with Dr. A. C. Locke who performed the post mortem yesterday afternoon.

Eloquent evidence of the popularity of the deceased man was afforded by the vast crowd of people who attended the funeral this afternoon, and by the large number of floral offerings which came from whole countryside as a last tribute to deceased's memory.

Murney Robinson, for whom White worked two and a half years, charitably undertook the funeral arrangements. White was regarded as a son at the Robinson home, it is stated, and the news of his death was the cause of deep grief to Mr. Robinson, who completely broke down when viewing the body in the undertaking parlors here yesterday.

White was a member of Bethel United Church, Tweed, and sang in the choir regularly. His three bosom chums, Robert Blackadder, Jack Atkinson and William Lawson, all natives of Scotland, acted as bearers, assisted by Messrs. John Countryman, White's last employer; Frank Foster, Herman Tucker, Sunday School teacher, and Roy Marsh. Rev. J. W. Platt of Thomasburg officiated at a short and touching service, which was held at the Robinson home, and also at the graveside.

Disappeared Sunday Night.

Completing his chores on Sunday morning, White set off from the farm of John Countryman of Stoco, by whom he has been employed for several months. He was attired in his best suit, and was apparently in the highest of good spirits, informing Mrs. Albert Countryman that he would be back for dinner. From that moment until the discovery of the body by two C. N. R. section hands, Phillip Simmons and Amos Clarke, at 7.30 on Wednesday morning, all trace was lost of White, although fourteen-year-old Stanley Courneyea of Tweed declares that he saw the deceased man between 7.30 and 9 o'clock on Sunday evening in the Park near the Pavilion. The boy's father also states that some of his work-mates spoke of having seen White in the vicinity mentioned by his son.

Very Industrious Man

The unanimous opinion of all who knew White is that he was of a very industrious, though quiet and unassuming disposition. He did not make friends readily, neither can it be established that he had one enemy. If it is a case of foul play, what was the motive? This is a question—one of the many in con-

WOMAN SUSPECT IN MURDER CASE DIES IN PRISON

Sarnia Woman Charged With Killing Mother-in-law By Strychnine.

TRIAL SET FOR SEPT. 15.

Cause of Death Uncertain, But May Have Been Fainting Spell.

SARNIA, Ont., Aug. 14 (C.P.). — Mrs. Mary G. Richardson, who was held at the Lambton County Jail for two weeks, charged with the murder of her mother-in-law, Catherine A. Richardson, 73, was found dead in her cell to-day. Cause of the death is uncertain. Jail officials believe she took a fainting spell similar to those which she frequently took. The coroner, Dr. W. D. Logie, has ordered an inquest and a post mortem. He will send her stomach and contents away for analysis.

Arrested July 31.

Mrs. Richardson was arrested July 31, charged with murdering her mother-in-law by administering poison. Police alleged that she gave her mother-in-law strychnine on July 18, causing the aged lady's death. They proved that the accused was the chief beneficiary for the estate of the elderly woman, and that on three occasions she had purchased strychnine from a drug store. Police suspected her of also having something to do with the death of her husband, Clarence J. Richardson, ex-Point Edward Constable, on May 28, 1929, and last Friday exhumed his body and removed several vital organs for analysis.

The accused had been subject to fainting spells, and had three times been given treatment in the Ontario Hospital for the Insane at London. Last Friday she was committed to trial on September 15.

PREMIER SCULLIN TO VISIT CANADA

Will Discuss Tariff Matters With Canadian Government After Conference.

RATHER STAY AT HOME.

MELBOURNE, Australia, Aug. 14. (Canadian Press Cable via Reuters) The Rt. Hon. James Scullin, Prime Minister of Australia, intends to visit Canada after he has attended the Imperial Conference in London, he announced to-day.

Mr. Scullin said his object in visiting the Dominion would be to discuss tariff matters with the Canadian government.

The Prime Minister declared he would much prefer to remain in Australia rather than attend the Imperial Conference, for there was much work to be done here in view of the country's parlous financial condition but he felt it would be an admission of despair to say that Australia's condition was such that it could not afford to allow its prime minister to attend the Imperial Conference.

MINISTER ASKED TO START WORK ON NEW HIGHWAY

City Council Hold Special Meeting to Amend Market By-law.

COMPLETE WATERWAY.

Aldermen Favor Completion of the Trent Canal System.

Definite action was taken last night by the council of the city of Peterborough in regard to the extension of Highways Number 7, east of this city when the aldermen passed a resolution unanimously asking the Hon. G. S. Henry, Minister of Highways to commence work on the Peterborough end of the highway so that work might be found for the unemployed. Copies of the resolution will be forwarded to J. F. Strickland, member for Peterborough City and Persy Peterborough City and Percy borough County.

Want Highway Completed

For some weeks there has been a growing demand in the city of Peterborough that there should be immediate action in regard to the starting of work on this highway. It was promised last fall and last night's motion of the council which was moved by Alderman Cotton and seconded by Alderman Phelan was putting into definite form the opinion of the citizens of Peterborough and county.

A suggestion was also made that a connecting link to the Peterborough-Port Hope highway be built to this new highway by taking into the highway system Lansdowne street from Lake to the Western boundary of the city and then continuing it to Forster's corners on the Port Hope highway.

Amend Market By-law

The special meeting was called to amend the market by-law which would permit cooked and fresh meats to be sold on George street between Hunter and Simcoe streets. In 1904 when the by-law was passed, from Brock street to Charlotte was made

BRITISH RAILWAY STAFFS REDUCED

Unions Dislike Proposals of Wage Cut Set For November.

SUBMIT PLANS.

LONDON, Eng., Aug. 14 (By Thomas T. Champion, C. P. Staff Correspondent). — The British Railway Trades Unions are gravely concerned over the continuous reductions of staff which have taken place throughout the country, nor is the prospect of a 2½ per cent cut in wages, mooted for November, to the liking of the men.

The unions submitted, a year ago, to a 2½ per cent. reduction of wages. This amount was restored to the men in May with the understanding that the action would be reviewed in November. The men consequently are faced with the problem of whether to insist upon retention of the old wage scale which would almost certainly result in further reduction in staff, or to acquiesce in the reimposition of the decrease in order to help stop the diminution in the numbers of those employed.

Clerks Disturbed

The Railway Clerks' Association is disturbed at the staff-combing process proceeding at headquarters and in district offices, where they claim that men who would soon be entitled to superannuation are being asked to antedate their retirement.

"It appears," said one of the Association officials to-day, "that the British Railway system is gradually losing its reputation as an assured form of employment."

It is learned that the new wages program favored by the Unions and involving the wages of more than 1,000,000 of the lowest paid workers from November onwards, includes a minimum adult wage of 50 shillings a week. The National Union of Railwaymen will shortly submit their recommendations to the employers. Among the other things desired are a week's holidays with pay for shopworkers who are without recognized holidays now.

Plans Polar Cruise Under Ice

Sir George Hubert Wilkins, Polar explorer, with the submarine 0-12 which is being remodelled for the Wilkins North Pole undersea expedition. According to present plans, the submarine will be ready next summer, when the expedition is scheduled to start for the northern ice fields. The group shows, LEFT TO RIGHT, Sir Hubert Wilkins; Simon Lake, inventor of the first practical submarine, and Sloan Danehower.

BUTCHER'S DEATH IS BLAMED UPON 17 YEAR OLD LAD

Companion Held, Tells of Seeing Whole Scene Near Onesime.

DAFOUR USED PLANK.

May Prosecute Cartman Who Drove Lads From Spot.

QUEBEC, Que., August 14 (C.P.). —Paul Eugene Dufour, 17-year-old youth of St. Anne de la Pocatiere, was held criminally responsible for the death of Louis Bouchard, a butcher of St. Onesime, Kamouraska, following an inquest by jury held yesterday in the Coroner's Court at St. Onesime. Bouchard was picked up in a dying condition near St. Anne de la Pocatiere last Sunday morning, and before his life ended in a Quebec hospital, the following day, regained enough consciousness to tell how he had been attacked, beaten, and robbed of $150 he carried on him on Saturday night, August 9.

Although Bouchard was too weak to give more details at the time and his assailants were unknown to him, Provincial Police started an immediate investigation at St. Anne de la Pocatiere, which resulted in the arrest of Dufour and a friend of his age, Ludger Labrie.

Tells of Murder.

Labrie, who testified at the inquest yesterday, gave a full account of what he alleged was a premeditated murder, stating that he was a mere witness of the scene and that he saw Dufour knock Bouchard down with a plank. Labrieis to be held in custody pending a decision of the Attorney-General whether he should be prosecuted for failing to prevent Bouchard's death. Dufour, who is held at the Riviere Du Loup Jail, did not appear at the inquest to-day.

Another important witness was a cartman by the name of Leo Deschene, who is supposed to have driven the youths back home after the crime. His testimony brought out the fact that Dufour boasted of the deed he had just committed, but that Descene did not take him seriously.

Deschene, following a recommendation of the jury, is also liable to incur prosecution from the Attorney-General for not having warned the authorities of Dufour's allegations.

RALEIGH, N.C., Aug. 14.—Milton Rodgers, 22, who said he lives near Angier, Johnson county, reported to Wake county officers early this morning that three negroes had stopstoped his automobile near Garner, six miles from here, overpowered him and kidnapped his 17 year old girl companion.

12-Year-Old Child Lands 13-Lb. Muskie

OMEMEE, August 14 (Examiner Correspondence). — Possibly the proudest child in the county was Arthur Jamieson, of Omemee, who on Monday landed a 13-pound muskie on the pond above the mill dam in Omemee. Arthur, who is just 12 years of age, is a real fisherman, and understands the game, as he was alone in the canoe. As he was returning home with his trophy a procession of youngsters followed him the entire length of the way, all of whom were as pleased as the possessor.

AIRLINER HEADS FOR OPEN SEA PAST BELLE ISLE

With Clear Skies and Following Wind R-100 Makes 75 M.P.H.

SIGHTED BY LINER.

Dirigible's Officers Express Belief They Will Make Trip in 55 Hours.

MONTREAL, Que., Aug. 14. (C.P.) The British dirigible R-100 was sighted 45 miles east of Belle Isle by the east bound liner Duchess of Richmond at 12.00 p.m. E.D.S.T.

ON BOARD THE R-100, Aug. 14. Homeward bound, with a strong following wind, clear skies and smiling sunshine, the British dirigible to-day struck a pace of 75 miles per hour.

The big airship's officers expressed belief that they would reach Cardington, England at 3.25 a.m., E.S.T. Saturday, 55 hours after the start.

During the early hours of daylight this morning the R-100 was crossing the open water to the Anticosti Island, which she passed at 5.15 a.m. eastern daylight savin, time. Hours ahead of the tentative schedule plotted here, the British dirigible was flying fast down the St. Lawrence, gradually speeding her engines until she was touching 80 miles an hour as she passed Anticosti.

For the first 540 miles of the flight the ship's average mileage was very close to the 60 mark, far faster than she flew on the east to west flight or on her Ontario cruise. Should weather conditions off Newfoundland and on the Atlantic ocean be at all favorable it appeared that all existing records for trans-Atlantic flying by lighter-than-air ships will be completely smashed.

North of Maritimes.

The route of the ship, as plotted in the control room at the airport here made it appear that the ship would go quite a bit north of the Maritime provinces and make her last landfall either at the Straits of Belle Isle or on Newfoundland. The fact that she passed Anticosti Island on the north indicated that her route would continue to the north unless weather conditions make it advisable to edge down the globe.

"VAG" ASKS FOR JAIL SENTENCE; SAYS "HE NEEDS A REST BADLY"

Norman McConkey Willing to be Martyr Unto Himself But Judge Hands Out Suspended Sentence.

ARRESTED AT DANCE HALL.

An unwilling prisoner being led away to spend time in the Police Station cells is an old story, but what about a fellow who seems determined to go to the "coop," despite all efforts of the Magistrate to facilitate his freedom? A problem such as this perplexed Magistrate O. A. Langley no small degree in Police Court this morning.

Norman McConkey was charged with vagrancy on an information laid by Provincial Constable Summerville—nothing serious, of course. He had merely refused to answer a few questions asked him by Constable Summerville as he was loitering about a dance hall in North Monaghan last night. However, McConkey pleaded guilty, and made it necessary for the Magistrate to impose some sentence or fine. In view of the facts of the case a minimum fine of $1 and costs, amounting to $3.90, were demanded by the bench, with an alternative of three days in jail.

"Are you prepared to pay the fine?" asked the Magistrate.

"No. I think I'll go to the coop," was the prompt reply. "I'll take rest—first rest in a long while. I earn my money too hard. You know it isn't any disgrace to go to jail for something that isn't bad."

Want To Be Martyr.

"I thought that I had given you a chance to get off light, but you seem to want to make a martyr of yourself," said the Magistrate.

"No."

"Are you sure you won't pay?"

"No. I'll go up." This was said cheerily.

"Do you still wish to allow your plea of guilty to stand?"

"Sure. I guess I'll have to plead

Continent Flown Inside 13 Hours

VALLEY STREAM, N.Y., Aug. 14.—Beating by more than two hours the transcontinental air record, Col. and Mrs. Charles A. Lindbergh, took from him last April, Capt. Frank M. Haks flew from Glendale, Calif., to Curtiss Field yesterday in 12 hours, 25 minutes and 3 seconds.

POLICE DISCOVER LICENSE PLATE

Believed Fastened Over Real Number on Perri Death Car.

NO FINGER PRINTS ON GUNS.

HAMILTON, Ont., Aug. 14.—(CP) —What is believed to be the license number of the car in which the gunmen who slew Mrs. Rocco Perri escaped has been secured, police announced today. The number was found on the road at Bay and Markland streets.

The number was given as 9E-477, issued by New York State, and believed to be an Erie County license. The fact that wires were found attached to the plate leads the authorities to believe that the number had been fastened on over the real plate of the death car.

Another hope of the police faded today when the two shot guns used by the slayers were examined. One was found leaning against the wall of the garage and the other on the street nearby. On examination it was discovered that the weapons had been carefully wiped free of fingerprints.

Shaft is Plugged After Gas Blast; Two Found Dead

Rescue Squads Dig Frantically to Save Companions Before They Succumb to Deadly Fumes — One Miner Found Alive Behind Debris.

CAVE-IN OCCURS 300 FEET FROM TUNNEL MOUTH IN BLAKEBURN MINE 50 MILES EAST OF VANCOUVER

Life-saving and Fire-fighting Apparatus Rushed to Scene in Case New Explosion May Take Place—Tragedy Blamed to Methane or Marsh Gas.

PRINCETON, B. C., Aug. 14.—(CP)—Rescue squads are toiling frantically to-day to save the lives of 46 miners entombed in the Blakeburn coal mine, just 50 miles east of Vancouver, B. C. Two workers are known to be dead, following an explosion last evening which blew out one portal of the main tunnel. One miner was released alive when rescuers dug through debris to where the two bodies were found.

The known dead are: Albert Cole, about 21 and Sid Smith, about 38.

Three hundred feet from the mounth of the tunnel, a cave-in has blocked the passage of the rescue gang. Before midnight, the crew had struggled through the wreckage to the point where the cave-in occurred. They released the single survivor so far, and located the bodies of Cole and Smith.

All Work Desperately

Early to-day all available workers of the mine were busy attempting to force a passage through to the trapped men, who comprise virtually the entire afternoon shift. Cause of the explosion is unknown, but the blast is being laid to methane, or marsh gas, a compound of carbon and hydrogen which is highly explosive. It is feared the entombed crew, if not annihilated by the fall of coal from the slopes may succumb to asphyxiation if prompt relief is not fortcoming.

Life-saving apparatus is at hand for immediate use when the debris has been hacked away from the tunnel passageway.

Fire equipment has been rushed to the scene, but as yet there is no indication that it will be needed unless a new explosion ignites inflammable coal gases and causes a conflagratino.

The Balkeburn Mine is located six miles from Coalmont, B.C. on the Kettle Valley line of the Canadian Pacific Railway. It is 360 feet above sea level, and some 200 men are on the mine's payroll.

BLIND CLUES ARE IMPEDING POLICE IN PERRI MURDER

Abandoned License Plates Issued in Niagara Falls Believed Stolen.

OWNER SOUGHT.

New York Police Asked to Probe Theory U. S. Gangsters Involved.

HAMILTON, Ont., Aug. 14.—(CP)—Matters have been complicated for the police by the finding of blind clues since the slaying of Mrs. Perri last night, Inspector of Detectives J. R. Crocker stated this morning. The major discovery has been the finding of two New York auto markers bearing 1930 license 9E-4771.

Niagara Falls License

These plates show every indication of having been hastily removed from a car, as short ends of wire were found attached to the corners. A local newspaper communicated with Buffalo to discover to whom the plates had been issued, and were informed they stood in the name of Isidore la Dictoire, 2512 10th Street, Niagara Falls, New York.

Efforts to trace the owner at that address failed but that there is such a man as La Dictoire has been established and his last address, according to a Buffalo correspondent, was 1967 Niagara Street, Niagara Falls. That was the street address he gave when he made the last payment on his car to General Motors. It was said that he formerly lived in Hamilton and had returned to this city to reside a few months ago.

Owner Is Sought

Local police are now anxious to get in touch with him as they are of the opinion that either his car or his license plates were stolen and used by the slayers to throw the authorities off the trail.

Police have asked New York authorities to investigate the theory that the murder was the work of United States gangsters. The theory is entertained because of the vaunted activities of Rocco Perri in the bootlegging line.

NO RECORD IS FOUND OF MYSTERIOUS PRISONER

Deaf and Dumb Man Held by Peterborough Police Still Known By "John Doe"

No record of the mysterious deaf and dumb prisoner held by the police in Peterborough on a charge of vagrancy can be found by authorities in Finger Print Section Criminal Investigation Branch of the Royal Canadan Mounted Police at Ottawa. A communication to this effect was received this morning at the police station. The finger prints were taken by the police and sent to Ottawa shortly after the deaf and dumb vagrant's arrest.

He continues to be known as "John Doe" and has been taken to the County Jail while the police attempt to identify him and a decision is reached on the question of what is to be done with him. He eats and sleeps well.

Last night station CFRB, Toronto, broadcasted the story of the mysterious prisoner.

Mailed in Bristol, England, 26 years ago, a postcard has just been received by Mrs. F. Rose, two miles from the starting point.

VILLAGE FIRE LOSS $200,000

Over 500 Masson Residents Left Homeless Seek Shelter Any Place.

NEARLY ALL HUNGRY.

MASSON, Que., Aug. 14 (C.P.) — Rendered homeless by the disastrous fire which swept their village Wednesday, destroying more than 40 homes, the parish hall, the town hall, fire station, community hall and many places of business, with a loss estimated at approximately $200,000, more than five hundred residents of Masson, Que., 21 miles from Ottawa on the north-shore Montreal road spent last night on improvised beds in the homes of neighbors, the convent and other buildings which survived the conflagration.

Appeals for assistance for the fire-refugees were made to Ottawa and other points by authorities of the village, but it was impossible for relief to be sent to the place until today, and hundreds without roofs to cover their heads, some of them destitute and nearly all hungry, were obliged to shift for themselves and to accept the hospitality of more fortunate residents of the place.

Hope is Abandoned For Fishing Smack

HALIFAX, N.S., Aug. 14 (C.P.) —A special despatch to The Halifax Chronicle from Grindstone, Magdalen Islands, reports that hope has been abandoned for the fishing schooner "I Wonder Y" and her crew of five men. The schooner has not been reported since the northerly gale of August 8. At that time the "I Wonder Y" was fishing near Brion Island, and is believed to have foundered while running before the storm.

Captain Philip Richard of House Harbor was in command and his crew included Albert Gyr, and Gyr's three sons.

WOMAN SLAIN ON STEPS OF HER HOME

KEEN COMPETITION IN EVIDENCE AS ATHLETES BATTLE FOR TITLES AT SERPENT MOUNDS' REGATTA

Three Ball Games and Acquatic Sports Feature of Popular Program.

LARGE CROWD ATTENDS.

Keene Girls Meet Sixth Line in Close Game—Alderville and Kiwanis Win.

(Examiner Correspondence)

KEENE, Aug. 14.—Perfect August weather brought out the biggest attendance the Serpent Mounds Regatta has had since it became the largest annual event on the north shore of Rice Lake. The committee had worked hard to furnished the attractions which seem most to the taste of this neighborhood. Three ball games were scheduled; soft ball between Keene and Sixth Line girls, baseball between Alderville and Roseneath, and a second game of baseball between Keene and Peterborough's Juvenile Kiwanians, who have just won out in their own city league. Not satisfied with this, Alderville pitted themselves against the Kiwanians for a five-inning game but darkness fell at the end of the third.

Between these events the land and water sports were run off with as great promptness as the committee could manage. E. Marsden and W. Chubb of Alderville carried off honors in all the jumping contests by a wide margin over their opponents. Herb Cardwell of the newly-formed Wallace's Point Canoe Club turned up with surprising regularity for a hand-out from the box of prizes; even in the crab race he seemed to get a lucky break and run an almost straight course.

There were many more water craft in evidence than ever before and it looked as if any Peterborough residents who had ever had any connection with Keene, took advantage of the holiday to renew old acquaintanceship.

The gala day ended in a large dance, held in the Town Hall, Keene at which music was furnished by the Hastings orchestra. The committee in charge is to be congratulated for their zeal in keeping this event up to the high standard they set for themselves at its inception.

Land Sports.

ANTICOSTI ISLAND PASSED BY R-100 MAKING 80 M.P.H.

(Continued from Page 1)

During the night and early morning the accounts of the airship's speed were received here almost incredulously. Casting off from the mooring mast, which by the way, has been fully tried during the past two weeks and found not wanting, at 9.20 p.m. last night the R-100 gave Montrealers an idea of her speed when she glided swiftly across the city at over 60 miles per hour. Three Rivers had a fleeting glimpse of her lights.

Heal Leg Sores and Old Ulcers

No one with a grain of sense is going to keep suffering year after year with an old ulcer or leg sore—constantly inviting serious infection.

Not when Peterson's Ointment can banish that old sore so quickly that it seems nothing short of a miracle.

Robt. Phillips writes: "For 18 yrs. I had an old sore on my ankle. I spent hundreds of dollars on it, suffered everything anyone could and found no relief. I saw your ad and tried Peterson's Ointment and it enabled me to sleep for first time in 7 weeks. I kept on using it and now my leg is sound and well, thanks to you."

For over 30 yrs. Peterson's has wrought rapturous freedom to thousands suffering with old sores, pimples, Eczema, itching skin, piles and rashes—the ingredients are so powerfully healing and soothing that it never fails to bring results you want. One 50c box proves it. All drug stores.

ALGOMA ALMOST FREE AGAIN OF BUSH FIRES

SAULT STE. MARIE, Ont., Aug. 14—(CP)—Algoma is again practically free of bush fires, though a new one yesterday swept over an island at Crystal Lake, northwest of the Soo, completely destroying the timber. Fires back of Garden River and at Batchawan are still smouldering, but are under control.

The village of Strongs, just across the border on the Michigan side, is still safe though a fire eight miles wide has crackled on its outskirts all day, before a west wind. One hundred and fifty men are battling the blaze.

Quebec loomed up and left behind and watchers at the ancient capital reported that the airship's lights were only in view for five minutes before she was gone. St. Anne de la Pocatiere reported her, and Father Point where she was battered by bumpy air conditions on the incoming passage on July 31, was shot over without incident.

From Anticosti came word from Capt. R. M. Booth, in command of the huge air-liner, that his speed had increased to 80 miles per hour, the Captain's bulletins, as on the east to west flight were again couched in terse naval fashion. No mention was made as to how things were going on board for the simple reason that nothing out of the ordinary had happened. The ship was merely speeding onward through the darkness and the dawn towards Blighty.

Weather Reports Sent

At the airport faithful officers sat all night in the control room, receiving dispatches, sending weather reports and plotting the ship's course, the newspaper world, taking the R-100's ability to take care of itself for granted had deserted the place, but one representative of the Canadian Press and one liaison officer remaining throughout the night.

In the huge hangar used for telegraphic communications a few operators dosed over their keys, rousing themselves to send over the wires a brief bulletin that the ship had reported so and so, or that some point had seen her.

The Canadian Press, in following the ship's movements during the night and morning, received splendid co-operation from both the major telegraph companies, the Canadian Pacific and Canadian National. As on the incoming flight the operators at large and small centres kept a brisk look-out and flashed word of the ship's movements to Montreal to be scattered over the globe.

The R-100 in addition to the aeronautical experts brought over from Cardington, took back a number of passengers, most of whom were newspapermen representing various Canadian and British press association.

Group Captain E. W. Steadman also made the trip.

Carries Peonies and Peaches

While Wing Commander R. B. B. Colmore and Captain Booth declined to carry freight, two exceptions were made. A bunch of Canadian peonies, sent by His Excellency the Governor General, Lord Willingdon, to His Majesty the King, are on board, as is also a little basket of Niagara Peninsula peaches for the Prince of Wales. The peaches were flown to Montreal from St. Catharines, Ont. The officers were deluged with requests to carry other products.

The mail bag taken along was but lightly filled. In it was a letter from Hon. R. B. Bennett, Prime Minister of Canada, to Rt. Hon. J. Ramsay MacDonald, Prime Minister of Great Britain; one of the High Commissioner of Great Britain in Canada to the Secretary of State for the Dominions; one from Mayor Camillien Houde of Montreal, to the Lord Mayor of London, and one from the Minister of National Defense, Hon. Donald Sutherland, to Lord Demson, Secretary for Air in the British Cabinet.

EXPECT DECISION TO HELP INDIA

Outcome of Parley With Gandhi in Jail Eagerly Awaited.

MAY AFFECT FUTURE.

BOMBAY, India, Aug. 14 (A.P.)—Out of a remarkable gathering of captives yesterday, held behind the walls of Yeroda prison in Poona, may come decisions of the highest importance to the future of India.

It was a strange meeting, with Mahatma Gandhi, leader of the civil disobedience movement, the central figure. Around him were a woman lieutenant, Mrs. Arojini Naidu, and three men who long have been prominent in Nationalist activities—Pandit Motilal Nehru; his son, Jawarhalal Nehru and Vallabhai Patel. All are serving sentences for acts in connection with the non-co-operation campaign.

What the results will be, no one will predict, but all observers realize that decision of far-reaching effect, one way or the other, may result.

Spain will develop its system of highways instituted at great cost in the last five years.

Rains in Quebec Wash Away Crops

QUEBEC, Que., Aug. 14.—The heaviest crop damage by rainfall recorded for many years is reported to the Provincial Department of Agriculture from the northern districts of the Province. Timiskaming, Abitibi and North St. John were the chief sufferers. The hardest hit are the parishes of Normandin and Albanel in Lake St. John district, where damages to cereals and root crops run as high as eighty per cent.

CAMPBELLFORD VICTORS 5-2 IN HOME GAME

Motor City Suffers First Defeat of Season in Last of O.A.L.A. Games.

TEAMS IN PLAY-OFFS.

Game Was Featured By Hard Checking and Good Combination.

CAMPBELLFORD, August 14 (Examiner Staff Correspondence). — In a game that was featured by good denefnsive work, close covering and severe checking, Oshawa went down to defeat before the Campbellford aggregation with a score of 5-2 in the last of the scheduled games in the Intermediate group of the O.A.L.A. staged at Campbellford last night before a large number of fans.

The game was fast, but Oshawa did not play up to form, having some of their regular men off the field. Campbellford on the other hand was strengthened ov the addition of Jack Cowell, and gave the spectators some fine exhibitions of lacrosse. Both teams did a great deal of work behind the nets. Only four penalties were registered, two against each team, and these were all counted in the last period. Campbellford did some fine combination work, and showed their ability in checking the onrushes of Oshawa, which were severe to say the least of them. Garrison and Perry for the visitors kept the Millers busy, and shot several near goals.

Whitton for Campbellford did a lot of running round and under, and was a sore spot for Oshawa, breaking through their defence and making the situation dangerous for them. Albert Armstrong of Havelock was the referee and handled the game in a satisfactory manner. The line-ups were as follows:

Oshawa — Goal, T. Stokes; point, H. Stephen; over point, W. Luke; 1st defence, J. Hare; 2nd defence, L. Luke; 3rd defence, F. Kunkel; centre, A. Perry; 3rd home, L. Daniels; 2nd home, J. Cardinal; 1st 1st home, H. Luke; outside home, C. Garrison; inside home, H. Cardinal;

MRS. ROCCO PERRI BELIEVED VICTIM OF THUGS' GUNS

Wife of Hamilton 'Bootleg King' Shot on Doorstep of Her Home.

NEIGHBOR SEES KILLERS.

Three Shots Are Fired, Two of Which Entered Body of Dead Woman.

HAMILTON, Aug. 14.—(CP)—Rocco Perri, wealthy citizen of this city, whose name for years has been connected with the liquor business, sat dejecthe believes responsible for three this morning, cursing the wealth he believes responsible for thre brutal slaying of his wife, Bessie Perri, in the back yard of their home shortly before midnight last night.

Been Visiting Friends

Perri and his wife had allighted from their automobile after returning home from a visit to friends when three shots shattered the stillness of the late night air, and Mrs. Perri fell dead on the back doorsteps shot through the heart by deadly pellets from a 12 guage shot gun. The echo of the shots had barely died away when three men were seen to dart around from the yard and won an alley at the rear of the Perri's garage and thence to a waiting motor car which sped down Duke street, along Caroline Street and vanished.

Perri believes the murderers were intent on robbing his wife of the expensive jewelry she wore, but this theory is discounted by the police, who point out no effort was made by the gunmen to rob the woman after she had fallen. Detectives and constables roared about the city during the night and this morning as they worked on the possibility that others engaged in bootlegging activities had planned to put Perri himself "on the spot".

Self styled King of the Bootleggers, Perri told police to-day that his wife and himself had spent last evening at the home of Mike Serge, a cousin who was sentenced to three months' imprisonment last Monday after being apprehended in possession of alcohol in a motor car. The party at the Serge home had played cards during the evening, Perri said, and toward midnight he and his wife started for home.

They had driven the car into the garage and had alighted. Perri stopped to close the garage door while Mrs. Perri walked toward the house when the first shot rang out. Only stray pellets struck the woman who ran toward the back door screaming for help. According to Perri he ran to help his wife and got inside when two more shots were discharged and both struck his wife, and she dropped dead at his feet.

Shotgun Found in Garage

The shotgun, containing two empty shells was found in the garage. As three shots were heard by Perri and others nearby, police believe a revolver was also used. Efforts to trace the purchaser of the gun are being made to-day and, at present, this is the only clue detectives have to work on.

Several citizens heard the shot and Mrs. Perri's agonized screams for help, but only one had a good look at the escaping gunmen and their

NANKING IS LEFT WITHOUT TROOPS

City Terrified as Hordes of Red Bandits Draw Nearer.

BE EASY PREY.

NANKING, China, Aug. 14 (C.P.)—Communist marauders approached this virtually defenseless capital of the Nationalist Government while Red armies continued devastations in the south and rebels drove down from the north.

Weakened by removal of troops to areas menaced by Reds and rebels, Nanking seemed an easy prey should the Communists attack the walled city. An air of uneasiness prevailed among the populace of 400,000 as peasantry turned Red and appeared armed in nearby towns.

CABINET SUBJECT IS IMMIGRATION

Believe Any Action Taken Will Be to Prohibit Europeans.

NO DEFINITE STATEMENT.

OTTAWA, Ont., Aug. 14.—(CP)—Indications are that steps will be taken by the Dominion Government to restrict immigration to Canada. While no official announcement was made at the conclusion at midnight of several sittings of the Cabinet today, it is understood that the matter of immigration was under discussion.

Any action taken, it is believed would be aimed at the restriction of newcomers from European countries so as not to add to the unemployed. It is rumored that the so-called railway agreements respecting immigration will not likely be renewed especially under present provisions. A statement on the subject of immigration may be issued shortly.

Morning, afternoon and night sittings of Cabinet were held yesterday and another meeting is scheduled for tomorrow morning. This meeting will probably be the last before the new ministers depart for their constituencies for nomination day.

NORTHERN POLICE CHIEF SUSPENDED

Claim Shange Failed to Act Against Man Who Attacked Constable.

PROVINCIAL MEN CALLED.

KIRKLAND LAKE, Ont., Aug. 14 (C.P.)—Chief William Shange, head of the Teck Township force, has been suspended by the Police Committee of the Municipal Council pending inquiry into a charge of neglect of duty.

It is charged the Chief was present in the premises of Sam Kalambar when Constables Bird and Hughes went there to arrest the occupant on a charge of assaulting the latter officer, that he took the warrant from his subordinates, telling them he would attend to the matter, and that nothing further was done.

The warrant was subsequently executed by two Provincial Constables and Kalambar will appear Friday to answer the charge.

WOULD SHARE INCOME TAX

REGINA, Sask., Aug. 14.—Canada's provinces will ask the Dominion government to "share up" the Federal income tax, forecast Hon. Howard McConnell, Minister of Municipal Affairs, at the annual convention of the Associated Committee of Secretary-Treasurers of rural municipalities. He looked forward to a conference between Provincial Governments and the Dominion Administration to seek for the Provinces a share of the tax.

A BETTER, BRIGHTER BREAKFAST

The better the breakfast, the brighter the day. Don't fog the brain and clog the body by eating a heavy, indigestible breakfast. Brighten the day by eating Shredded Wheat with milk and go to work with buoyant step and mental alertness. Shredded Wheat with milk makes a complete well-balanced meal containing everything the human body needs for growth and strength. Try it with berries and cream. It's a rare treat.

Ladies' swimming—1, J. Nelson; 2, K. McCarthy.

Girls, under 12, swimming—1, Norma Rennie; 2, Betty Gall.

MARY HALL STARS

The first event at the Regatta was an exciting soft ball game between Keene and Sixth Line girls. The score was 13-1 in favor of Keene. Helen Nelson and Dorothy Gainor showed up well on the Keene team while Mary Hall made a spectacular play for Sixth Line. Louise Donaldson put up a plucky fight in spite of being knocked out by the bat.

Umpires—F. Whalen and A. Frick.

Alderville Wins 10-2.

The second major event of the Serpent Mounds Regatta was a baseball game between Alderville, who are leading in their league across the lake, and Roseneath. The teams seemed fairly evenly matches till the Indians plied in 7 runs in the fifth innings, and Roseneath got only two safe hits off Bigwin.

Connects For Homer

Keene boys returned to baseball after a lapse of three years when they met the Kiwanis Juveniles in the Regatta's third event. The Peterborough boys were out of their class, being much more youthful than their opponents but the Keene bunch were almost entirely without practise. In the first innings the juveniles plied up 7 runs, Young being the lucky lad to get a homer with the bases full. Keene hung on doggedly and got 6 runs in the 5th after two men were out. Again in the seventh Lang surprised himself by almost duplicating Young's feat and connecting for a long drive to the north which was sufficient to bring in two others besides himself! It was too late to make the final score look any better than 14 for the villagers when the Kiwanians had 24 but it furnished plenty of excitement.

Kiwanis Again Victors.

Darkness brought to an abrupt end an exhibition game between Alderville and the Kiwanis Juveniles, after the latter had defeated Keene in the Regatta's second baseball game. The Peterborough team again got away to a good lead of 4 runs, but it looked as if the Indians were going to hold them when the game was called off with the score standing 9-6 in favor of Peterborough.

MRS. ROCCO PERRI

(Continued from Page 1)

car, but he was unable to get the car license number or give an accurate description of the machine's occupants.

It is believed the gunmen secreted themselves in a large car Perri had parked in his garage and waited the couple's return from Serge's. Mary Latika, maid in the Perri home, informed police she had noticed nothing unusual around the garage during the evening. She also declared a large police dog Perri kept on guard in the garage gave no alarm or sign of restlessness that he would have done if anyone had been prowling around the building.

A number of Perri's relatives and friends who had been at his home during his absence verified the maid's statements. These were Mike Perri, a brother of Rocco's; Mike Romeo, Murray Lateka, and several others. They said the first they knew of the presence of gangsters was when they heard the shots and screams of the wounded woman.

Interviewed to-day Perri displayed jewelry, valued at more than $10,000 which his wife wore last night and which he believed the murderers were after. When it was suggested Mrs. Perri was the brains of his organization the bootleg king said, "She was the brains yes. She was responsible for the large fortune we made during the days of the Ontario Temperance Act an dafter."

Mrs. Perri was the common law wife of Rocco. They had been living together since 1913. The murdered woman formerly resided in Toronto where she has a daughter and a sister. She is of Jewish descent, while Perri is of Italian birth.

The pair have figured prominently in several police court episodes here during the last few years. Perri was an occupant of the car containing the alcohol that resulted in the sentencing of Serge. He disclaimed any knowledge of the presence of the liquor in the car and stated emphatically that he was on good terms with Serge and the latter wi'sfe when it was suggested revenge may have been the motive behind the slaying.

HAVELOCK.

CATTLE, GRAIN, PRODUCE

TORONTO LIVESTOCK

TORONTO, August 14. — Receipts of cattle at the Union Stock Yards yesterday morning were 512, 283 calves, 457 hogs, 1,569 sheep and lambs. With 700 stale cattle added, the moderate offering at the stock yards market yesterday hit a very slow trade. Only small lots of butcher steers and a few cows sold up to 11 o'clock.

Medium to good steers brought six to 7¼ cents a pound, and good to choice butcher cows 5 to 6 cents. Prices on the best quality were steady with the week's slight decline, but bids on poorer grades of killers are lower. Calves, in a light offering, were selling firm at 10 to 11 cents a pound for good choice veal and downward to 7 cents for plain.

Grass calves are steady at 5 cents a pound for the bulk. Lamb prices were unsettled up to 11 o'clock, with bids 50 cents a cwt. lower than on Tuesday, at 8½ cents a pound for good ewes and wethers. No sheep sold up to 11 o'clock. Hog prices also are unsettled, with packers bidding 25 cents a cwt. lower than on Tuesday, at 11½ cents f.o.b. and 12½ cents w.o.c. for the bacon grades.

BUFFALO LIVESTOCK

EAST BUFFALO, N.Y., Aug. 14.—(C.P.).—Hogs 1,600; holdovers 100; dependable trade to all interests, mostly steady to strong; medium weight butchers 10-15 higher; bulk desirable, 160-230 lbs. 10.40-10.50; 230-250 lbs. 9.90-10.25; packing sows, 7.60-8.00; pigs largely 9.75.

Cattle 450; steers and yearlings slow; steady at Tuesday's late 25-40 decline; medium to good long yearlings 9.25; common grass 6.50-7.00; heifers 6.00; cows steady; cutter grades 2.25-4.00.

Calves 150; vealers unchanged 12.50 down.

Sheep 700; fat lambs scarce; steady to weak; medium and lower grades fully 25 lower; good to choice natives, 10.00; medium and mixed offerings 7.00-9.00; throwouts 6.00-6.50.

MONTREAL PRODUCE

MONTREAL, Aug. 14. — Further weakness developed on the cash grain market here yesterday and prices for wheat, barley and oats were reduced 3, 2, and 1 cent, respectively. The trade was fair.

A feature of the dairy and produce trade was the stronger feeling that developed for butter, and values were marked up ¼c per pound. Receipts were 568 boxes.

The cheese market was quiet, no improvement being reported in foreign demand. Receipts were 2,442 boxes.

The egg market was about steady, under a fair demand. Receipts were 535 cases.

New locally grown potatoes continued to sell at 65c to 70c per 80-pound bag.

TORONTO PRODUCE

TORONTO, Aug. 14.— The local butter and egg markets showed greater strength yesterday, and dealers were more satisfied with conditions generally. Just a few days ago supplies were hard to move at current prices, and many were afraid that receipts would pile up, but a gradual better tone has changed prospects considerably.

Yesterday small lots of No. 1, Ontario butter were sold at 28½c, the top price formerly enjoyed by large lots of high-scoring quality. Dealers were not finding it too difficult to secure this price for most sales, and some reported 38¾c obtainable for good-sized lots of No. 1 Ontario. No. 2 did not seem to enjoy a very good demand, and most sales were made at 26¾c to 27c, with a few lots changing hands at 27¼c to 27½c, but receipts had to be almost No. 1 to secure the latter prices. Low-scoring No. 2 and No. 3 were poor propositions for any dealer trying to clear them. Brokers were asking 29c to 29¼c for Western butter, and sales were reported at 29c, which was ¼c to ½c higher than prices received for local supplies.

Cream

Churning cream prices were steady at 28c to 29c for specials, 27c to 28c for No. 1, and 24c to 25c for No. 2, f.o.b. country points.

Cheese

The cheese market held firm at 16¾c for new large, 17c for twins and 17¼c for triplets to shippers, while retailers were asked 18½c for new large, 18¾c for twins and 19c for triplets.

Eggs

The demand for eggs was reported as fair, with extras leading in preference, as usual, and bringing the fair price of 31c to 31½c, graded, free cases. Graded firsts were steady at 29c, but seconds were not easy to move, even at 23c. The Montreal market has been showing much greater strength than the local market, and incidentally Eastern Ontario supplies have been going to the Quebec city.

Country shippers were offered steady prices for ungraded eggs, delivered, cases returned, at 29c for extras, 26c for firsts and 21c for seconds. Retailers were offered supplies at 35c to 36c for extras, in cartons, 33c to 34c for extras loose, 31c to 32c for firsts loose, and 25c to 27c for seconds loose.

CHICAGO GRAIN.

CHICAGO, Aug. 14.—Wheat values collapsed as a result of heavy selling here late yesterday and dragged the corn market down along. To a large extent, the increased selling pressure on wheat came from Eastern sources, and was attributed to reports that the Canadian Government would not guarantee bank loans to the Canadian Growers' Pool. These reports had but little apparent effect earlier in the day, but toward the last were made much of in connection with acute weakness shown by wheat prices at Winnipeg.

Prices Drop 2¼c to 2¾c.

Chicago closing quotations on wheat were nervous, 2¼c to 2¾c a bushel lower than Tuesday's finish. Corn closed 2 1-8c to 3c down, oats 1 5-8c. to 2 3-8c. off and provisions showing 15c to 17c drop.

Sharp downturns in Winnipeg wheat prices more than offset all opposing factors in the Chicago market as the day drew to an end. Emphasizing the influence of advices that the Canadian Government has refused to back the Canadian pool financially, were statements circulated that Canadian shippers seemed eager to cut prices to a competitive basis with United States' wheat. Late downturns of Chicago wheat prices were in the face of estimates that export buying of North American wheat to-day totalled 2,000,000 bushels, most of it from the United States. On the other hand, rapid progress of the spring wheat harvest northwest was reported and the main movement of wheat from rural sources on the Canadian Prairies was expected to acquire full headway soon.

WINNIPEG GRAIN.

WINNIPEG, August 14. — Pressure of wheat offerings continued yesterday, and prices at the low points were down about 4 cents a bushel from Tuesday's close. At the close yesterday, values ranged 3¼c to 3⅝c lower. October touched a low of 92⅞c, or about 3 cents better than the low point of the season, reached on July 30.

Selling was led by prominent interests, and became quite general, and, in face of a very indifferent foreign demand and lack of outside buying, the market declined rapidly. Small rallies occurred from time to time, but the come-back was weak.

Trade in cash wheat and coarse grains was featureless, and values followed wheat to lower levels.

REGINA LODGE ENTERTAINS 200 KNIGHTS AND LADIES

REGINA, Sask., Aug. 13.—(CP) — Nearly 200 Knights and their ladies from every Province in the Dominion, attended the dinner and reception here last night held in connection with the 47th annual convention of the Sovereign Great Priory, Knights Templar of Canada. The Regina lodge Wascana Preceptory, were hosts, and the dinner was presided over by Eminent Knight Fred E. Doull, presiding Pre[illegible]

ONTARIO
DEPARTMENT OF PUBLIC HIGHWAYS
MOTOR VEHICLES BRANCH

PUBLIC NOTICE

TO OWNERS AND OPERATORS OF MOTOR VEHICLES

FINANCIAL RESPONSIBILITY LAW

A New Measure for Safety on the Highways comes into effect SEPTEMBER 1st, 1930

THE amendment to The Highway Traffic Act, known as the "Financial Responsibility Law," will come into effect on September 1st. This Law was passed at the last session of the Legislature upon the recommendation of the Honourable Frank E. Hodgins, one of the Justices of the Appellate Division of the Supreme Court of Ontario, who was appointed a Commissioner by His Honour the Lieutenant-Governor-in-Council to investigate certain matters relating to the operation of motor vehicles on the highways. The Law has been endorsed by the Ontario Motor League, the Canadian Manufacturers' Association, the Ontario Associated Boards of Trade and Chambers of Commerce and the Canadian Automobile Underwriters Association.

For the benefit of drivers and owners of motor vehicles, and of the public generally, the following information is published concerning the new law. Necessarily the provisions have been abridged for this purpose. Those who wish complete information are invited to secure a copy of the Act from the Registrar of Motor Vehicles, Parliament Buildings, Toronto.

PURPOSE of the LAW

The purpose of the Financial Responsibility Law is to further encourage safe driving of motor vehicles, in the interest of the public as well as of owners and drivers.

WHAT the LAW will ACCOMPLISH

No motorist is affected by this Law until he brings himself within its provisions. It will not impose any obligation upon those who drive safely and obey The Highway Traffic Act, and who, in case of accident, pay judgments rendered against them for injury done to persons or property. It will penalize . . and under certain circumstances it will remove from the highways . . those who persist in driving recklessly to the danger of themselves and others, or who have failed, or shall fail, to pay judgments against them for injury to persons or property by motor vehicle accident.

HOW the LAW will OPERATE

Upon conviction of an operator of a motor vehicle for any one of the offences named below, his driver's license and all motor vehicle permits issued to him will be suspended until such operator or owner gives proof of his ability to compensate financially those whom he may endanger in the future.

The OFFENCES

Following are the offences named:

(a) reckless driving, if any injury to person or property occurs in connection therewith. Reckless driving is defined in The Highway Traffic Act as "driving a motor vehicle on a highway recklessly or negligently, or at a speed or in a manner dangerous to the public, having regard to all the circumstances."

(b) racing on the highways, which is prohibited by The Highway Traffic Act as follows:—"No person shall drive a motor vehicle upon a highway in race or on a bet or wager."

(c) exceeding the speed limit, if any injury to any person or property occurs in connection therewith.

(d) failing to remain at or return to the scene of an accident and to furnish the names and addresses of driver and owner of vehicle and failing to render all possible assistance, if directly or indirectly a party to the accident, in violation of the provisions of section 40 of The Highway Traffic Act.

(e) driving a motor vehicle on a highway without holding a driver's license as required by The Highway Traffic Act.

(f) any criminal offence involving the use of a motor vehicle, including driving a motor vehicle while intoxicated.

(g) any offence against public safety on highways as may be designated by the Lieutenant-Governor-in-Council.

NON-PAYMENT of JUDGMENTS

If the holder of a driver's license or owner's permit fails to satisfy a judgment rendered against him for damages on account of injury to, or death of, any person, or on account of damage to property in excess of $100, occasioned by a motor vehicle, within 15 days from date of judgment, such license or permit shall be suspended until such judgment is satisfied to the extent of at least $5,000 for injury to, or death of, any one person and, subject to that limit, for each person so injured or killed to the extent of at least $10,000 for injury to, or death of, two or more persons in any one accident, and to the extent of at least $1,000 for damage to property of others resulting from any one accident, and until such person gives proof of his financial responsibility in case of future accident.

OFFENCES OUTSIDE ONTARIO
By Drivers licensed in this Province

For similar offences committed in other Provinces or States of the United States and reported to the Registrar of Motor Vehicles of Ontario under reciprocal arrangements, the Minister of Highways shall suspend the driver's license and owner's permit until that driver or owner has given proof of financial responsibility in the same manner as if the offence had been committed in Ontario.

PROOF of FINANCIAL RESPONSIBILITY
Amounts and How to Give

Proof of financial responsibility shall be given in the following amounts by every driver and in the case of an owner in the same amounts for each motor vehicle registered in his name:—

(a) at least $5,000 for injury to, or death of, any one person and, subject to that limit for each person so injured or killed, at least $10,000 for injury or death of two or more persons in any one accident.

(b) at least $1,000 for damage to property of others resulting from any one accident.

Proof of financial responsibility may be given in any one of the following forms:

(a) The written certificate filed with the Registrar of Motor Vehicles of any authorized insurer that it has issued to the person named a motor vehicle liability policy or policies which at the date of the certificate is in full force and effect.

(b) The bond of a guarantee insurance or surety company licensed in Ontario, or a bond with personal sureties approved as adequate upon application to a judge of the court of the county or district in which the sureties reside.

(c) The certificate of the Treasurer of the Province that the person named has deposited with him a sum of money or securities for money approved by him to the amount or value of $11,000 for each motor vehicle registered in the name of such person.

PUBLIC NOW PROTECTED by INCONTESTABLE INSURANCE

In the event of damage being done by the owner or driver of a motor vehicle to another person or to property of another person, and such owner or driver holds an insurance policy to pay the legal liability of the insured for such damage, and if through misrepresentation upon the application for such policy or in the event of a breach by the insured of any term, provision or condition of the policy which would relieve the insurer from liability, the insurance company must nevertheless under the Safety Responsibility Law, pay the damage to the person injured up to the limits named above, but in such case the insurance company by a provision in their policy may have the right to recover from the person insured the amount or amounts so paid in liquidation of the damages for the injury he has done to the persons or property of others, including interest and costs.

REPORTING of ACCIDENTS

Every person in charge of a motor vehicle who is directly or indirectly involved in an accident, if the accident results in personal injuries or in damage to property apparently exceeding $50, shall report such accident forthwith to the nearest provincial or municipal police officer and shall furnish such information or written statement concerning the accident as may be required by the officer or by the Registrar of Motor Vehicles.

Where such person is physically unable to make a report and there is another occupant of the motor vehicle, such occupant shall make a report.

A police officer receiving a report of an accident shall make all inquiries necessary and send a complete written report to the Registrar of Motor Vehicles.

Any person who fails to report or furnish any information or written statement required shall incur a penalty, and his operator's or driver's license and owner's permit may be suspended or revoked.

RECORDS of INDIVIDUAL DRIVERS

Under the Law, the Registrar of Motor Vehicles shall keep the following records:

A record of all motor vehicle accidents in the Province reported to him.

A record of all convictions.

A record of all drivers' licenses or owners' permits suspended or revoked.

A record of all unsatisfied judgments against persons holding owners' permits or drivers' licenses.

A record of all persons who may be required to show evidence of financial responsibility.

An operating record of every driver or owner who has committed an offence, which record shall show all convictions and unsatisfied judgments.

A FORWARD STEP in SAFETY LEGISLATION

The Financial Responsibility Law is a forward step in the policy of the Government to keep the highways safe for drivers and the general public. Its provisions are mandatory in respect to the suspension of drivers' licenses and motor vehicle permits for offences against The Highway Traffic Act until such time as the owner or driver guarantees his ability to compensate for injuries which he may cause through the operation of a motor vehicle. These provisions may also be applied where injury to persons or property has actually been caused by accident on the highways.

Under the Law drivers who use the highways with care and consideration for others will be classified apart from those who are not so minded. Offenders will be classified according to their records, and appropriate penalties will be attached to each classification.

THURSDAY, AUGUST 14, 1930

THE C.G.E. FLOWER SHOW.

Employees of the Canadian General Electric Company are holding a flower show at the Canadian Legion Hall this week that is worthy of more than casual interest. It has the substantial encouragement of the company and management, but it is actually the outgrowth and flowering of the hobby which a number of the men found they had in common.

For several years their effort has been confined to the growing of gladioli. So many of the employees responded last year that the shop association, the C.G.E. Horticultural Society, organized a gladiolus show and competition, and this year they have branched out on a broader scale and are presenting a full-grown flower show.

Many of the employees take an active interest in this shop endeavor. A. E. Prest was president last year and W. H. Young has succeeded him, with Norman E. Crowe as secretary. The executive and their assistants have put a great deal of work into the show, which should receive generous patronage from the citizens.

The door prizes are a special attraction. The Peterborough Horticultural Society is co-operating in this show, which will likely surprise visitors by the number and quality of the exhibits. The formal opening by Mayor Denne will take place Friday evening.

CITY'S TIMELY PETITION.

As the Hon. Geo. S. Henry has pointed out, the Ontario Department of Highways is creating work by the removal of level crossings. Counties have been urged to carry out at least one such grade separation a year, receiving the Government's assistance of half the cost. By this means immediate employment would be procured if counties could undertake this work now, and the country would receive the benefit of permanent improvements to the highways by the removal of crossings that are dangerous to traffic.

The willingness of the Ontario Government to promote employment projects in the present emergency strengthens the hope that the Minister will rush the construction of the long-promised Peterborough-Marmora-Madoc highway.

During the recent election campaign T. P. Lancaster, M.P.P., announced that the work was to be begun on August 1st.

August is wearing on, and if men are engaged in the construction of this road there has been a strange lack of publicity about it. Being a newspaper man, Mr. Lancaster's assertion and his good faith are not questioned, but he probably is aware of the unemployment of men in his own constituency, and also in this city who would be delighted to hear of the chance of a job near home.

There were no qualifications about some of the pre-election promises of work, and the Peterborough-Marmora highway was one of them. In fact, it received considerable mention last October when the provincial elections were under way.

It is recalled that some engineers with their instruments and chain men were rather fussily engaged along this road as if they were immediate forerunners of construction crews and equipment.

In ordinary times election promises may be soon forgotten by everybody, but this year happens to be an exception, and that is one of the reasons why the sweeping promises were made. Men needed work and they were promised it.

Everybody realizes that road plans cannot be perfected over night. But this time factor does not apply to the Peterborough-Marmora highway.

There are men who are hoping that it will soon afford them a job. It may be safely assumed that unemployed men really want to work.

These are the men who remember the election pledges and who expect their fulfilment.

The City Council's petition last night to the Department of Highways is a further evidence of their attentiveness to the interests of their community.

WORLD WHEAT RIVALRY.

Russia's purchase within the last two months of $40,500,000 worth of agricultural machinery in the United States bodes no good for the wheat producers of the world.

Eighty-five per cent. of the machines are tractors to be used by the Soviet state and collective farms of Russia in the 1931 spring sowing operations. A fleet of ships will be required to transport this record purchase from the United States to Black Sea ports during the fall and winter.

Prior to the war Russia was one of the greatest wheat-exporting countries. In the five crop years 1909 to 1913 she averaged 164,000,000 bushels a year. Since the war her wheat exports have been negligible except in 1925-26 and 1926-27 when they were small.

By introducing modern machinery the Soviet Government is making a determined effort to regain her export grain markets, and this present purchase of machinery is a proof of the comprehensive plans the rulers of Russia have laid out.

If the Russians succeed in rehabilitating their agricultural industry they will be formidable competitors at a time when other countries have largely increased their wheat production.

In recent years wheat acreage has expanded rapidly in the United States, Canada, Argentina and Australia. The area sown in the south-western winter wheat section of the United States increased approximately 4,000,000 acres from 1924 to 1929. During the same period the area in Canada, Argentina and Australia combined increased from 49,000,000 to 59,000,000 acres.

Because of the declining prices during the last two years the United States Government has been advising its farmers to reduce their wheat acreage. This may be practicable if American producers are to limit their harvest to their domestic consumption behind a protective tariff, but it is a policy which Canada cannot copy.

Even omitting the United States as an exporter of wheat, it is apparent that competition in the world markets will continue to be severe, with heavy crops from the Argentine, Canada, Australia and the Balkan countries. At the same time there is an effort being made by Mediterranean countries and Poland to arrange grain trading agreements among themselves, and only old suspicions are threatening to terminate the present negotiations.

The rivalry of Russia will probably not be a serious factor this year, but Canada may regard the future with considerable apprehension if the Soviet program proves successful. Their use of modern machinery by cheap labor at prices controlled by the Soviet dictators, a practical communistic enterprise as it may possibly develop, is a growing menace to Canada's dominant position in the cereal markets of the world.

Piece together the recent news reports and no other conclusion can be arrived at in the old confidence of the decade just passed.

Canada's wheat problem is not merely of to-day nor of this season.

THE BORDER'S NEEDS.

The Hon. Raymond D. Morand, M.P.-elect for Essex East, has taken a natural and progressive step in calling a conference of Border municipal executives to-day with the object of discussing the unemployment situation, co-ordinating public works that may be proceeded with in the near future and learning, from the civic heads, what the Border desires in the way of federal improvements. It is most desirable, the doctor points out, that the latter point be discussed before the forthcoming special session of Parliament. Mr. Bennett is summoning the M.P.'s to Ottawa for the purpose of solving the Canadian unemployment problem. Initiation of a lengthy program of federal building from one coast to the other is, of course, part and parcel of the Prime Minister's plan to provide work for the thousands who need it. He stressed this all through his election campaign.

The Border has long sought certain public works in which the Dominion is interested and the prospects for success are now brighter than they have ever been. It is necessary, however, that we should acquaint our members of Parliament with the definite needs of the community, and necessary also that this information should go to the M.P.'s from an official source, hence the importance of to-day's meeting.—Border Cities (Windsor) Star.

BRITAIN'S TWO MILLION.

Passing of the number of unemployed in Great Britain beyond the 2,000,000 mark has had an effect, both mental and political, greater than the mere increment of a few figures would seem to justify. The explanation is that something symbolic had come to be associated with the round two million. The public has watched the weekly returns of unemployment mounting toward that total, and has come to feel that it could not be reached without causing a great shock. In reality, it is not much more than crossing an imaginary line like the Equator, for, as was clearly explained a few days ago in the House of Commons by the Minister of Labor, it is a mistake to think that there is a standing army, as it were, of two million unemployed in Great Britain in which there is no variation whatever. Miss Bondfield presented some very interesting statistics showing the constant changes within the various classes of unemployed, together with the industries upon which the incidence of unemployment is most marked. For example, the returns reckoned in some 658,000 people who were only temporarily unemployed. There are also marked variations in casual employment. There are something like 300,000 persons who receive from the Insurance Fund what is called a "transitional benefit"—that is, while they are passing from one category to another. Last of all, Miss Bondfield asked her hearers to note that fully 50 per cent. of all the unemployment was in the north-western division of England and in Wales. In other words, it occurs chiefly in coal, metal and textile industries, where the world-wide depression has been most severely felt.

No explanation or mitigation of what has happened can prevent the result from appearing most serious. The Insurance Fund has been entirely bankrupted by the drain put upon it. The Government has recently had to put in $50,000,000 additional in the shape of what is euphemistically called a "loan." There is no chance whatever that it will get the money back with or without interest. In fact, the direct contributions by the Government to the Insurance Fund have been more than doubled since the Labor party came into power. Even before the number of unemployed had quite reached 2,000,000 the Insurance Fund was running behind to the tune of about $2,500,000 a week. These monetary aspects of British unemployment are naturally seized upon by opponents of the Government, to show what is happening to the Exchequer and to the taxpayer in consequence of the entire failure of the Labor Government to redeem its promise to solve the problem of unemployment.

Blame for what has occurred in the past year cannot more rightly be placed upon the shoulders of Prime Minister MacDonald in England than upon those of Mr. Hoover in this country. Neither of them was able to stop or change the irresistible play of economic forces. But, politically speaking, both of them made the mistake of asserting beforehand that they knew how to cure all the people's ills. Mr. Ramsay MacDonald in particular, and his colleagues in the Labor party, made the most specific pledges that they would at once, if put in office, cut down the number of unemployed from the unwieldy total to which the incompetent Conservative Government had allowed it to rise. But the number, instead of being reduced, has been doubled. Say what you will, there is no getting away from the political effect of such a failure. British Tories and Liberals may be depended upon to make the most of it in the next few weeks.—New York Times.

EDITORIAL NOTES AND COMMENT.

If Floyd Gibbons talks any faster, the board of directors can split up his radio speeches three for one.—New York Evening World.

It is quite a relief to realize that we will now be able to tune in on the radio without getting an election speech.—Oshawa Times.

Most of the fish caught by vacationers seem to be of the accordion type, adjustable to the credulity of the listener.—Ohio State Journal.

The Medical Review announces that a European doctor has discovered a new method of curing nervous disorders by treatment through the nose. And that's okay as long as he doesn't make the patients pay in the same way.—Exchange.

The fate of Grover Cleveland Alexander, once a famous baseball pitcher, now released from the game, again proves the uncertainty of a career in athletic sport. Alexander, still a young man, is too old for the occupation in which he has specialized most of his life, and joins the great army of the unemployed. While you're good the crowd will yell for you, but when you begin to slip they yell at you.—Chatham News.

Voice of the People

Letters to be printed in the Voice of the People column must be received at The Examiner Office on the day before it is desired to have

DO PEOPLE APPRECIATE?

To the Editor of The Examiner.
Dear sir:

Since your valuable paper gave to this city such splendid service on Sunday night last when the great English dirigible appeared, I have been wondering if the people of Peterborough really appreciate what The Examiner did for them or do they just take it is a matter of fact and the duty of a newspaper?

I am a traveller and I know what other newspapers do for their readers and seldom have I found in my journeying up and down this Province of Ontario that a city daily would go to such pains in giving something to its readers. In many cases one of its reporters would be told to report the event and its readers the next day would be told about it in the papers news column.

Mr. Editor, you and your staff did much more and although only a visitor in this city I must sincerely thank you and those who were responsible through you for having the whistles blown which wakened me up so that I might see the wonderful sight.

Sincerely yours,
A TRAVELLER.

THE TRENT CANAL.

To the Editor, Examiner.
Dear sir:

I was pleased to note your editorial, calling attention of the Dominion Government to the advisability of completing the "Trent Valley Canal" and your remark that the Hon. Mr. Dunning was in favor of its completion, the writer can vouch for, as I had the pleasure of accompanying the Minister on his trip of inspection, and was privileged to converse with him for at least one hour on the canal's past, and of its importance for the future. The then minister was very guarded in what he said but he did say (in line with The Examiner) that inasmuch as $18,000,000 has been spent it seemed that the only right course was to complete it. We trust that the present government will be in sympathy with this attitude, and it should be urged on the Government the advisability of putting the west end of the canal under construction at once. The Hon. Mr. Dunning intimated that it would cost about $3,000,000, which if spent during the next year, would very materially keep the unemployment situation. Thanking The Examiner for its timely article.

Yours truly,
J. F. LILLICRAP.

A Thought

"Don't brood over the past nor dream of the future, but seize the instant and get your lesson from the hour."

What To-day Means To You.

"LEO."

If August 14th is your birthday, the best hours for you on this date are from 9:30 a.m. to 11 a.m., from 1:30 p.m. to 2:30 p.m. and 9 p.m. to 10:30 p.m. The danger periods are from 5:30 a.m. to 7 a.m. and 4 p.m. to 5:30 p.m.

If you do not take wealth as the only opportunity, you will find many desirable openings presented to you on this date. Favorable experiences. Be careful of promises of strangers! Not so good financially.

The child born on this August 14th will have a magnanimous and an open-handed nature. It will take journeys due to its own enterprise. It will have an eager intellect, shrewd insight, and will have ambitious strivings.

Your good fairies have showered upon you the gifts of charm, of personality, of sweetness of disposition!—all those indefinable, inexplicable assets which are so rare and so much to be envied. You smile your way through the world, knowing that the next stranger you meet will be willing to be your friend. You have the magic touch which causes others to rush in and help you to make your aspirations facts. A large per cent of your good fortune is due to your ability to draw upon the resources (not merely financial) of others. You are grateful, however, for all that is done for you, and try to make adequate returns. You are very modest and never boastful.

You have a philosophical mind and a sympathetic nature. You will gladden many a sad heart, and give many a "down and outer" a new lease on life. You are very fond of children and happy with them. As you grow older you will find those who are much younger than you to be more congenial than those of your own age. You will always tryto keep in step with the times. You will be well served by your inferiors as they will both respect and like you. You never air your superiority to any one. You have a gift of language, and express yourself well in both speech and writing. You will have fluctuating fortunes due to your entire indifference toward the value of money. You show the ability to occupy public or prominent positions.

EMBARRASSING MOMENTS

TEMPLE TOWER

By "SAPPER"

(Continued from yesterday.)

CHAPTER 11

In Which We Meet Two New Allies

I don't pretend for a moment, of course, that there was the slightest excuse to be offered for us. Manifestly the matter was no business of ours. If Mr. Granger chose to barricade his house with iron spike it was his affair, and no one else's. Still I regret to say that there are people in this world awho are as irresistibly drawn to a thick-ear atmosphere as a cat is to a saucer of milk. And Hugh Drummond was one of them, having been born that way.

In that way he differed from me: I only acquired the liking by force of his example. And I am bound to admit that had I been the one to see a red and blue light flashing on Romney Marsh, and realised that such a harmless, even peculiar phenomenon produced terror in the breast of my next-door neighbour, I should not have proceeded farther with the matter.

Wherefore the difference of our mental attitudes during lunch is easily understandable. Mine was principally concerned with our official position in the matter: his was entirely occupied with whether the thing was likely to produce some sport.

"My dear Peter," he said, as the waiter brought the coffee, "we haven't got any official position in the matter. So that's that, and there's no use worrying about it. But it is manifestly the duty of every law-abiding citizen to investigate such a strange pastime as flashing coloured lights on the Marsh. Maybe it is some new method of catching moths: maybe not. Anyway we're darned well going to see."

"And the first move?" I asked.

"Is to call at Spragge's Farm," he answered. "We are not to know that his notice about rooms to let has been withdrawn. We will therefore, on the way back, present ourselves at the door, and you will ask if he can put you up. Say that you're suffering from nervous breakdown due to backing three winners in succession, and demand to see what accommodation he has to offer. Then say you'll let him know. We'll both keep our eyes skinned and perhaps we'll see something."

"Right ho!" I said resignedly. "As long as I'm not expected to stop at the bally place, I'll put up the palaver."

We paid the bill, and left the dining-room. Hugh's car was outside the hotel, a Bentley Sports model: and ten minutes later we had dropped down the hill to Sandgate and were running along by the sea towards Hythe.

"From now on, Peter," he said, "until we get actually to Rye itself, the ground is dead flat. When we get out a bit further you'll see the range of hills away to the right where my house stands."

It was a hot, lzazy afternoon, and the heat haze shimmered over the country which stretched dry and parched on each side of the road. Even the usual breeze which one gets in the locality had died away, and the few cattle we saw were standing listlessly in what shade they could find. The disused red water cistern on Littlestone golf links dropped away behind us, and the Martello Towers ceased as we turned away from the sea after New Romney.

"Dungeness away there to the left," said Hugh briefly. "And Lydd. Now we're on the Marsh proper."

The road was good but narrow, with a deep ditch on each side, and he pointed out the spot to me where a motor charabanc had skidded and overturned one night, pinning the occupants underneath it till they were drowned in six inches of water.

"These grass sides to the road get slippery at times," he explained. "And then you want to watch it."

At length he stopped the car and lit a cigarette.

"Now, Peter," he said, "we approach our destination. That place there in front of us is Rye. Cast your eyes two fingers right and you will see on the hill an imposing red brick edifice. That is the house of Drummond. Straight in front of us you will see a smallish house in a clump of trees: that is Spragge's Farm. One finger to the right of my house, also on the hill, you perceive another house. That is our friend Granger's prison. Now you get the geography of the part that concerns us. And the great point, as you will notice, is that if, as I am tolerably certain, those lights were a warning of some sort, Spragge's Farm is as good a place as any on the Marsh for Granger to see them from."

"Correct," I agreed. "Now what am I really to say to Spragg?"

"Any darned thing you like," he laughed as we started once more. "It's only a preliminary reconnaissance, and we can't expect much luck."

It was fortunate we didn't, because we had none at all. The farm stood about a quarter of a mile from the road, and a rough drive—little more than a stony lane—led up to it. A gate barred the entrance, and leaning over it was a morose looking individual smoking a pipe. He stared at us with scarcely veiled hostility as we pulled up, and made no effort to move.

"This is Spragge's Farm, isn't it?" said Hugh politely.

"It is," grunted the man without removing his pipe from his mouth.

"Do you know if Mr. Spragge is anywhere about?"

"I'm Mr. Spragge. What might you be wanting?"

Hugh's fingers began to drum on the steering wheel, and it wasn't difficult to tell exactly what he was wanting. But to clip a man over the jaw is not conducive to further conversation, and his voice remained studiously mild.

"I was told, Mr. Spragg," he said quietly "that you had a room to let at your farm. My friend here is anxious for a place where he can finish—er—a book undisturbed. If your room is free he would like to see it."

The man removed his pipe, only apparently to enable him to spit with greater ease. Then he stared insolently from one to the other of us.

"You were told wrong," he grunted. "I've no room to let, and if I had I choose who I put up."

"Your choice must be fairly limited I should imagine," remarked Hugh,"if this is a fair sample of your manners. Nice chatty little fellow, aren't you, Mr. Spragg?"

The man straightened himself up, and the veins on his forehead began to stand out like chipcord.

"Look here, you damned dude," he said thickly, "you get out of this before I lose my temper. I speaks how I like and to whom I like. But unless you're out of this pretty quick, I'll pull you out of your car and little Pansy-face beside you as well."

Hugh laughed pleasantly.

"And why should I get out of this, Mr. Spragge? This road is as much mine as yours, and you've no idea what a pretty picture you make leaning against that gate. True, your face leaves much to be desired, and your clothes are deplorable, but the general picture—the tout ensemble—of the Englishman guarding this home, is quite wonderful. Don't you agree, Peter?"

I glanced at him out of the corner of my eye, and saw the old-well remembered look on his face. He was deliberggtely goading the man on, though for what purpose I couldn't quite make out. This man Spragge was a powerful looking brute, and I failed to see any object in starting a rough house. And that was exactly what seemed imminent. With a flood of blasphemy the farmer flung open the gate, and slouched over to the car; and as he came Hugh opened the door and stepped into the road.

"You—— ——" snarled Spragge. "I've warned you once: now you can have it."

I almost laughed: how many men had said words to that effect in days gone by? And with the same result. Spragge shot out a fist like a leg of mutton, which encountered air, and the next instant he was lying flat on his back in the middle of the road, completely knocked out.

"Quick, Peter," said Hugh urgently. "Sling the blighter into the back of the car, and we'll take him to the farm. Heaven forbid, old man," he chuckled as the Bentley spun up the track, "that we should be so grossly inhuman as to leave this poor injured fellow lying in the road. His wife's tender care is essential, and—keep your eyes skinned. We might spot something."

We pulled up at the door, and almost immediately a woman appeared. She was a worthy helpmeet to Mr. Spragg: in fact I have seldom seen a more forbidding looking pair. Tall and gaunt, with a thin saturnine face and bony hands, she looked an even more unpleasant customer than her husband. He was a powerful, foul-tempered brute: she looked the personification of evil.

"What has happened?" she asked harshly.

"Mrs. Spragg, I assume?" remarked Hugh politely. "I regret to state that your husband's jaw has encountered a hard substance, which has temporarily rendered him unconscious. So, my friend and I, at great personal inconvenience, have brought him to the dear old homestead. Shall we bring him in?"

Spragge was already beginning to stir uneasily, so there was no time to be lost if we were to get inside the house.

"I don't understand," she said angrily. "What has happened to the fool?"

"Far be it from me, madam," murmured Hugh, "to cavil at the excellent description of your spouse. But he will doubtless tell you all about it when he is his own bright self again."

We had slung him out of the car and laid him on the grass, and as Hugh spoke I suddenly became aware of a noise that rose and fell regularly. It came from the inside of the house, and at that moment, Hugh evidently heard it too. He grinned faintly, and looked at the woman.

(To be continued)

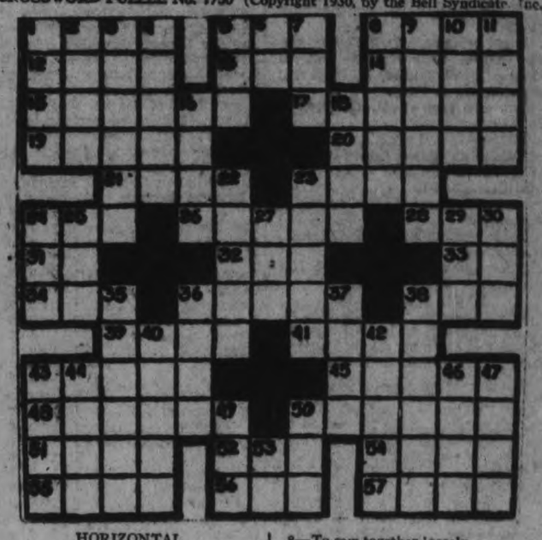
Eczema in Blisters Itched Terribly. Healed by Cuticura.

"When my sister was two years old eczema broke out in blisters all over her head. It was very sore and itched terribly so that she could not sleep. It was so severe that she lost most all of her hair.

"We tried all kinds of remedies but none proved to be successful. We were advised to try Cuticura Soap and Ointment so purchased some. They helped her, and after using one cake of Cuticura Soap and one box of Cuticura Ointment her head was completely healed." (Signed) Miss Angeline MacLean, Jordan Bay, N. S., Oct. 23, 1929.

Soap 25c. Ointment 25 and 50c. Talcum 25c. Sold everywhere. Sample each free. Address Canadian Depot: J. T. Wait Company Limited, Montreal.

CROSSWORD PUZZLE No. 1750 (Copyright 1930, by the Bell Syndicate, Inc.)



HORIZONTAL

1—A wire toothed brush forcurrying horses.
5—False hair.
8—A sudden explosion.
12—Above.
13—Prefix: again.
14—Continent.
15—Negligent.
17—Ado.
19—A herd.
20—Tempered metal.
21—A group of players.
23—A prophet.
24—High card.
26—Weeds.
28—Female pig.
31—Accomplish.
32—A rank: file.
33—Pronoun.
34—Unusual.
36—Mount.
38—Harden.
39—Goddess of discord.
41—Girl's plaything.
43—Unit of weight for gems.
45—Confronts.
48—Evergreen trees with [illegible] leaves and an oily fruit.
50—Worship.
51—Care for.
52—Alone.
54—Regular.
55—Act.
56—Seed covering.
57—A rustic musical pipe.

VERTICAL

1—String.
2—Assert.
3—Distant.
4—Propel.
5—Existed.
6—Within.
7—Idle chatter.
8—To sew together loosely.
9—Plants with alternate and different colored flowers.
10—River in Egypt.
11—A Scotch highlander.
16—Chair. 18—Employs.
22—Markets.
23—Mended.
24—Commotion.
25—Large fish.
27—Fish eggs.
29—Be indebted to.
30—Saturated.
35—Deduce.
36—Situation.
37—Cupola.
38—The part of a garment covering the arm.
40—Ranted.
42—A mechanical device.
43—Frigid.
44—A drug.
46—To corner.
47—Dispatch.
49—To soak in a liquid.
50—Color.
53—Negative.

Into the Bags of Millions Who Travel

Those who know the priceless physical benefits that come from the "dash of ENO in a glass of water morning or night" never think of travelling without a supply of this pleasant-tasting effervescent saline.

ENO helps to overcome the ill-effects of change of food and water and lack of accustomed exercise. ENO keeps the intestinal tract clear of poisonous waste, safely and surely, and thus prevents many of the ills that attack the human body.

Avoid Unsuspected Constipation
ENO Points the Safe and Sure Way.

QUEBEC HAS FOUR PLANS TO AID UNEMPLOYMENT

QUEBEC, Que., Aug. 14. (C.P.)—Four main projects are outlined by Mayor Lavigueu in a letter to Hon. Gideon Robertson, Minister of Labor, as suggestion for relief of unemployment in Quebec City.

The projects are: Transfer of the necessary land from the Canadian National Railways to the city of Quebec on Champlain Market square for new ferry wharves.

Authorization for the Canadian National Railways to build a new passenger station at Parent Square.

Continuation of the St. Charles River development work.

Removal of the Ross rifle factory to nable the city to start work immediately on the construction of its proposed 30,000,000 gallon reservoir, on which, with the dam on Lake St. Charles the city has been authorized to spend $1 400,000.

Railway passenger and freight rates in France are to be increased.

PRICE WITHIN NARROW RANGE

Some Issues Register Small Gains While Quite a Few Stocks Hold Unchanged.

LINDSLEYS UNCHANGED.

TORONTO, Ont., Aug. 14. —(CP)—Trading was carried on at a slow pace on the Standard Stock and Mining exchange here today, and prices were all within a narrow range. The undertone of the market was firm, quite a few stocks holding unchanged and others making small gains.

International Nickel, Noranda and Hudson Bay were all firm, although the latter was off a small amount. Lindsleys were unchanged, with the exception of Falconbridge up 10, at $2.15.

Lake Shore in the higher priced golds, firmed to $22,60 up 35. The others in the group were unchanged while in the lower priced section, Howey was up 2, at 40, and Siscoe 2 at 27. Vipond unchanged. Amulet slipped off 1½ pts. to 52, other miscellaneous stocks showing no ohange. Ajax went up 3 points during the first hour, to sell at $1.88, but at midday was 1 below the previous closing price $1.85. Other oils did little. Chemical Research gaining 10, and Nordon 2, while Home was off 10, after opening 20 lower, and Dalhousie lost 1. Mayland was again unchanged at 50.

ONTARIO PLANS TO BACK BENNETT

Provincial Legislature Will Not Be Called on Unemployment Question.

GENERAL SCHEME.

By Frank Chamberlain.
(Special to The Examiner, Copyright 1930.)

TORONTO, Aug. 16.—A new measure of safeguarding automobile drivers and the general public, to be known as the "Financial Responsibility Law," which is an amendment to the Highway Traffic Act, will come into effect in Ontario on September 1st.

The new law follows the recommendation of the Royal Commission on Automobile Insurance Premium Rates, and is to be rigidly enforced with a view of making an effective contribution to public safety on the highways.

In plain terms, the new regulation will require a certain class of motorist to prove personal financial responsibility either through production of an insurance policy, or by surety bond, or deposit of money or securities, as specified, in order to be permitted to operate a motor vehicle on a public highway.

Those included in this class are mainly motorists convicted of offences such as reckless driving, those held responsible for serious accidents and those failing to satisfy judgments of the court in civil suits for damages arising out of automobile accidents.

Provision is also made in the new safety responsibility law for the suspension of a driver's license and motor vehicle permit in case of conviction for a serious infraction of the motor vehicle laws in any other province or state until proof of future responsibility has been established.

Hon Mr. Justice Frank E. Hodgens, one of the Justices of the Appellate Division of the Supreme Court of Ontario, headed the committee which prepared the new law after a most extensive investigation of the subject of compulsory insurance and highway accident prevention. Sessions of the investigating committee were held at Toronto, Albany, New York City, Springfield, Boston, Hartford, Washington and Baltimore.

A fundamental requirement of any safety responsibility law, it was pointed out by motor league officials to-day, is that all operators of motor vehicles be licensed. The introduction of the safety responsibility law in Ontario will be greatly facilitated by the fact that since 1927, it has been contrary to law for any resident of Ontario to operate a motor vehicle on a public highway without first securing a personal driving license, issued only after examination in the case of new drivers.

Provisions had already been made in the Ontario Highway Traffic Act for the cancellation or suspension of drivers' licenses and motor vehicle permits for certain offences. The new amendments bringing the safety responsibility measure into effect, are in the main extensions and an elaboration of the already existing regulations governing the right to driver, through the holding of a driver's license. Additional causes for taking away of the license are added, and the insurance or financial responsibility feature is introduced as a factor governing restoration of the license in certain cases.

It was pointed out to-day that no motorist is affected by the new law until he brings himself within its provisions. It will not impose any obligation upon those who drive safely and obey the Highway Traffic Act, and who, in case of accident, pay judgments rendered against them for injury done to persons or property. It will penalize —and under certain circumstances it will remove from the highways—those who persist in driving recklessly to the danger of themselves and others, or who have failed, or shall fail, to pay judgments against them for injury to persons or property by motor vehicle accident.

Upon conviction of an operator of a motor vehicle for any one of the offences named below, his driver's license and all motor vehicle permits issued to him will be suspended until he gives proof of his ability to compensate financially those whom he may endanger in the future.

The following are the offences: Reckless driving, racing on the highways, exceeding the speed limit, failing to remain at or return to the scene of an accident, driving a motor vehicle without a driver's license, and driving a motor car while intoxicated.

Proof of financial responsibility shall be given in the following amounts by every driver and in the case of an owner in the same amounts for each motor vehicle registered in his name:

1. At least $5,000 for injury to, or death, or any person and, subject to that limit for each person so injured or killed, at least $10,000 for injury or death of two or more persons in any one accident.

2. At least $1,000 for damage to property or others resulting from any one accident.

Proof of financial responsibility (must be proof) may be given in any one of the following forms:

1. The written certificate filed with the Registrar of Motor Vehicles of any authorized insurer that it has issued to the person named a motor vehicle liability policy or policies which at the same time of the certificate is in full force and effect.

2. The bond of a guarantee insurance or surety company licensed in Ontario, or a bond with personal sureties approved as adequate upon application to a judge of the court of the county or district in which the sureties reside.

3. The certificate of the Treasurer of the Province that the person named has deposited with him a sum of homey or securities for money approved by him to the amount of value of $11,000 for each motor vehicle registered in the name of such person.

The financial responsibility law is felt by motor authorities to be a forward step in the policy of the Ontario Government in keeping its highways safe.

3,000 CHINESE DROWN

PEIPING China, Aug. 14. (A.P.)—Three thousand Chinese are reported to have drowned in the Fu Ghungh-hisien district 40 miles north of Shanhhaikuan, along the Mukden railway, where rains have flooded 1,000 villages, causing great damage and washing out the rail lines.

Montreal to Open $2 Traffic Court

MONTREAL, Que., Aug. 14 (C.P.)—Next week Montreal will inaugurate what is termed the "two-dollar traffic court."

Breakers of minor traffic rules will take their "tickets" received from policemen on duty, to wicket in the Court House, where they will pay two dollars. More serious offenders will be tried before the Recorder's Court as formerly.

It is anticipated the new scheme will relieve the congestion of traffic cases in the Recorder's Court.

CANADIAN DIVIDENDS FARED WELL IN 1930

Eight Months' Total Disbursements Ahead of Like Period of 1929.

(Special to The Examiner, Copyright 1930.)

TORONTO, Aug. 15. — Dividend payments by Canadian corporations for the year to date are holding up well in comparison with 1929 in face of the business depression and consequent lower earnings that are known to have been experienced by numerous industrial concerns. During the years 1929 and 1928, financing through equity issues, or shares, was the heaviest in the history of the Dominion and since the close of the old year a great many companies that financed in this manner started initial distributions that has swelled the total for 1930 and more than made up for those payments passed or decreased. There have also been many dividend increases and, all told, the majority of stockholders of Canadian corporations are faring as well in 1930 as they did in 1929, with a gerat many receiving more liberal treatment.

A compilation of dividends paid each month to the end of August on Canadian securities indicates total disbursements of approximately 127,500,000. against $98,700,000 in the corresponding months of 1929. The estimate is derived from dividend declarations of over 300 organizations, representing all classes of industrial, financial institutions, public utilities and producing mines. If the bonus payments and extras made in the early days of January, 1930, are included, it is found that approximately 10 per cent. of the total number have rewarded their shareholders either with extra or an increase in the annual rate of disbursements. Against this, eight concerns found it advisable to reduce payments to shareholders and 20 went to the extreme of passing or deferring payment.

LIST RECOVERS IN LATE TRADING

Stock Decline is Well Taken Care of During Early Morning Turnover.

FIVE POINT GAINS.

NEW YORK, Aug. 14 (C.P.)—After another effort to depress prices through recent resistence levels, the disorganized mob of bears lost courage and retreated further in to-day's stock market.

Prices were generally reduced 1 to 3 points during the early hours of selling, but stocks were well taken on the declines. Most early losses were substantially more than cancelled, although weak spots continued to stand out here and there.

Such wide moving issues as American Tobacco "B," Allied Chemical, Atchison and Case gained 5 points and more, Case getting more than 20 points above its recent low. Shares recording gains of 2 to 4 points included Radio, Eastman Union Carbide, American Smelting, Public Service of N. J., and Electric Auto Life, while advances of a point or so were numerous in important shares.

Weak features were Republic Steel, breaking more than 4 points to a new low in selling based on disquieting gossip over the dividend, and the International Paper and Power issues, which broke to new bottom levels for the year. The Class "A" dividend has recently been paid from surplus, and bears argued that the drought would adversely effect the company's hydro-electric properties.

A further cut in copper metal prices by some custom smelters from 11 to 10¾ cents, reducing the metal to the lowest prices in more than 20 years, was regarded primarily as an effort to move stocks, but brought some selling of the red metal shares early in the day. Kennecott directors meet for dividend action next week.

Call money again renewed at 2½ per cent, but was available for good supply in the outside market at 2.

POWER COMMISSIONERS NAMED IN NEW YORK STATE

ALBANY, N.Y., Aug. 14 (C.P.). — The body that may set New York's feet in the path of state production of waterpower was preparing to-day to tackle the big task, Governor Roosevelt having named the five men comprising the St. Lawrence Power Development Commission yesterday.

The Governor said that he was confident the commission would approach the problem primarily from the viewpoint of the public interests.

An early meeting of the Commission was promised, and the executive invited the five men to meet him at Ogdensburg August 20 for a two-day inspection trip down the St. Lawrence River to study their problem.

ALGOMA FIRE MENACE OVER

Strong's Village Safe For Present With 200 Fire Fighters on Guard.

FIRE TRAIN DESPATCHED.

SAULT STE. MARIE, Ont., Aug. 14. —(CP)—The forest fire menace in Algoma is over for the moment, according to reports from all over the district today. Several fires at Batchawana Bay, back of the Garden River reserve and at Blind River, which a few days ago worried the forestry branch, are now extinguished except for a few isolated embers which are being watched.

Reports this morning from across the border say that the village of Strongs, 40 miles from the Michigan Soo, in Chippawa County, is safe, through the energy of some 200 fire fighters and a timely change in the weather and wind. The fire, with a frontage of some seven miles, was yesterday bearing down rapidly on the village of 500 inhabitants before a brisk wind.

The timely arrival of a fire train from Marquette late yesterday saved property and equipment of the South Shore Railway and prevented the flames from jumping the tracks. The flames had swept from Deer Foot lodge on the south side of M-28 to the place where it had been checked at Strongs.

The big fire burning in Mackinac County was this morning reported under control after having burned over 3,000 acres in the Emery Martin slashing. This fire was 18 miles off St. Ignace and was one of the most spectacular which has visited Michigan this season.

TORONTO CURB IS UNCHANGED

Brazilian Traction Maintains Position of Strength and Shows Light Gain at Mid-day.

NICKEL ACTIVE.

TORONTO, Ont., Aug. 14 (C.P.).—Toronto stocks moved within a narrow range in the forenoon to-day and, if anything, the trend was lower, but the session was not marked by the large losses of the preceding day. Wall Street was somewhat firmer but the local market was not influenced, staying close to the level of the previous close and selling off fractionally only.

Brazilian Traction maintained its position of strength and, although the advance was slowed down, the stock showed a slight gain by midday. International Nickel was conspicuous for its inactivity, sales in the first couple of hours only running slightly above 100 shares. Canada Bread was holding unchanged at 10, and many of the issues that were weakest on Wednesday were steady to-day. C.P.R. was unchanged at 174, and Smelters 180 bid, 185 asked, against the previous sale of 179.

The oils were irregularly lower but here again the declines were of no consequence. Imperial was down 3-8, British American 1-8, while International Petroleum was up 1-8, and Supertest unchanged, and Home 15 to 2.25.

INDIAN CONFERENCE WILL OPEN MIDDLE OF NOVEMBER

LONDON, Eng., Aug. 14 (By Thos. T. Champion, C.P. Staff Correspondent)—The Indian Round-Table Conference which will attempt to achieve a definition of India's status and future is not expected to assemble before the second week of November, although at least 14 delegates will arrive here three weeks earlier. Among the advance guard will be the noted Maharajah of Patiala, Chancellor of the Chamber of Princes, a man accustomed to conferences.

The total number of delegates will approach one hundred, so St. James' Palace will obviously be crowded. Before the Indian conference opens the delegates will meet the delegates to the Imperial Conference.

4¾-Pound Bass is Caught at Chemong

A small-mouthed black bass weighing 4 pounds 13 ounces was caught this morning by Mrs. George B. Hall of Toronto, in front of Harry Huffman's Cottage, Chemong Lake. The fish measured 20¼ inches and was 15 inches in girth. Mrs. Hall caught it with a hook and worm and it is one of the finest bass yet entered in The Examiner contest.

TICKET SALES ARE SUSPENDED

$200,000 Blue Bonnet Sweepstake Operated By Windsor Labor Council.

HELD NOT LEGAL.

TORONTO, Ont., Aug. 14 (C.P.)—A $200,000 sweepstake on a race to be run at Blue Bonnets race track, Montreal, and being operated by the Windsor Trades and Labor Council for charitable purposes, is a lottery under the Criminal Code, and will be suspended. A deputation of five members of Windsor Trades and Labor Council were thus informed by C. R. Magone of the Attorney-General's Department to-day, when they requested information as to the legality of the lottery. The deputation agreed to suspend further sale of the tickets.

The sweepstake was organized by Windsor Trades and Labor Council, the proceeds to go to the sick and unemployed and other charitable funds of the Labor Council. Tickets had been sold extensively in Ontario as well as to the branches of the American Trades and Labor Council in the States.

Mr. Magone stated that under the Criminal Code, the sweepstake is a lottery and is illegal, members of the deputation said they would likely refund the money already collected.

NEWS-STAND MOVED TO A NEW CORNER

Jack Brownlee Takes Up Position at Corner of Charlotte and George Streets.

Blind Jacks' Newsstand was moved to a new site yesterday afternoon by the firm of Ed. Cooney for the Kiwanis Club. It now rests on the south west corner of George and Charlotte streets and Mr. Brownlee will open again for business as soon as possible.

For some time Blind Jack's sale of newspaper, periodicals and candies has been in a deplorable slump due to the obscure situation of his shop on Charlotte street near the C. N. R. tracks. In fact, he hasn't been making enough money to keep the wolf from the door during the past few months. With his shop in a more prominent location it is hoped by Kiwanis Club, that matters will be remedied.

CRASH NEAR BRIGHTON FATAL TO DETROIT MAN

BRIGHTON, Ont., Aug. 14 (C.P.).—On their way to Ottawa for a visit, Joseph Kailer, 30, of Detroit, Mich., was killed and Theodore Legner, also of Detroit, was badly injured when the automobile which Kailer was driving piled into a ditch near Brighton.

The accident happened when Kailer, in pulling out from the side of the road to pass another automobile, lost control of his car. The car somersaulted into the ditch.

Kailer died by the roadside 15 minutes afterwards. Legner was thrown out of the car and suffered a broken collar bone and severe cuts and bruises.

PARLEY IS HALTED

POONA, India, Aug. 14 (A.P.)—Conferences in Yeroda Jail of civil disobedience leaders were halted for a day after two hours of debate this forenoon when the Mahatma Gandhi asked for assurances of the Government's intentions toward India before committing himself to abandonment of his campaign for independence.

JAMES BOA ADDS FURTHER HONORS TO S HOOT CONQUESTS

Montreal Marksman Wins D.C.R.A. Medal By Winning Service Revolver Championship.

GREAT SINGLE-HAND FEAT.

(By Jack Hambleton, C. P. Staff Writer)

CONNAUGHT RIFLE RANGES, Ottawa, Aug. 14.—Lt. James Boa of Montreal, who yesterday won the MacDonald Brier and Bordon matches at the Dominion of Canada Rifle Association meeting here added the D.C.R.A. gold medal to his laurels by winning the service revolver championship with a score of 315 according to results issued today. By his victory in the revolver match Lt. Boa has performed the greatest single-handed feat ever seen on these ranges, and is an overwhelming favorite for the Governor General's match, blue ribbon of Canadian marksmanship, the first of which will be fired to-day.

L. Appleyard, Toronto, won the silver medal in the same match with a score of 307, and C. Q.M.S., J. W. Sharpe, Montreal was in third place with 304.

Wins Challenge Cup

Victoria Rifles, Montreal, won the challenge cup in the James Boa revolver team match, with 904 points, followed by the Governor General's Foot Guards, Ottawa with 826.

The 48th Highlanders, Toronto, won the team prizes in the MacDonald Brier and Borden matches fired yesterday. In the former, the Highlanders score 373 and in the latter 163.

To-day, the Governor Generals' match, outstanding event of the year, will commence. From three ranges, 200, 500 and 600 yards, competitors will fire before nightfall and only the best ten shots can qualify for the second stage to be shot on Saturday. On that day, the 200 and 900 yard ranges will be fired. To the winner goes the D.C.R.A. gold medal and $200 in cash, as well as the title of Canada's finest rifleman or woman. This year the only woman entered in the match is Mrs. J. N. Down, of Saint John, N.B., who did some remarkable shooting at the Ontario meet in Toronto last week. Mrs. Down has not fired in any match so far, but will start out in the Governor Generals' to-day. She is conceded a very good chance to qualify for the second stage.

In connection with the Governor General's match is the Associate Members' competition, wherein 500 associate members draw a marksman entered in the big contest. Each rifleman, therefore, represents the person drawing his name. Rich cash prizes are awarded to the holder of the marksman entering the second stage and placing high up on the final list. First prize this year is estimated at close to $25,000. The drawing was held last night before a large crowd which packed the administration building.

The schedule for to-day calls also for firing in the Coates' and King's Medal matches. The Coates' is a battalion team competition, with teams of four men who are members of the same unit of His Majesty's forces competing. The match is fired at 500 and 600 yards, ten shots at each range.

His Majesty the King's Medal, formerly the medal for the best shot in the army, is the rich prize in the latter match. All competitors must be actual serving members of any unit of His Majesty's military forces in Canada, including the Royal Canadian Mounted Police.

Weather conditions are very unfavorable for the important matches this morning. The sky is overcast with clouds, and a light rain has been falling for some hours. There is very little wind, however, and what there is of it is blowing directly down the range from the north, the direction where it will cause the least interference.

The first range of the Governor General's was fired at 8.30 o'clock and it is expected the final range will be concluded around three o'clock this afternoon.

Legion Donates Trophy For Five Mile Event

COBOURG, August 14. — The Cobourg Branch of the Canadian Legion has decided to offer a cup as a trophy to the winner of the five-mile road race to be run here in connection with the Cobourg Labor Day sports. This cup will henceforth be put up for competition annually, and the winner will receive a replica of the cup.

The Legion is taking a very helpful interest in arrangements for Labor Day sports, though many events will be principally for citizens of Cobourg. Arrangements are being made for at least five important open events

HORSE KILLED IN RUNAWAY

Becoming Frightened By Roller Coaster, Animal Bolts Down Elm Street.

SLIPS TURNING CORNER.

Detath followed the mad career of a runaway horse belonging to Stock's Bread on Elm Street this morning.

The trouble began when the horse was waiting patiently with the bread delivery rig outside Pepe's grocery store on Elm Street nor far from Park. A little lad came down the sidewalk in a roller-coaster and, it is thought, either ran into the horse's legs or merely frightened it by running very close to it. The horse bolted and ran down Elm Street to Park Street, where it fell while trying to turn the corner. It broke one of its front legs and Constable Deannard and Sergeant Wigg, who were summoned, found it necessary to shoot it.

Joseph Loucks, who was the driver of the rig, was not in it during the runaway. The rig was undamaged, except for a broken shaft. It remained upright.

ENDURANCE MEN FINISH 95 HOURS

Joe and Bob Carter Going Strong in Attempt to Break Outboard Mark.

NO MOTOR TROUBLE.

SOUTH BEACH, August 14. — At seven and one-half minutes past three o'clock this afternoon, Joe and Bob Carter of Peterborough had completed 95 hours' running on their way towards a world's outboard motorboat endurance record at South Beach. They will attempt to beat the existing endurance record, which is 239 hours, and continue to 500 hours.

Joe and Bob last touched land at 7½ minutes after 4 o'clock on Tuesday afternoon. Then then commenced their long grind of endless circles about the two and one-half mile course, and are still going strong.

Taking alternate shifts of six hours each at the steering wheel and sleeping in the boat, both lads are reported to be in excellent shape

The Johnson "32" with which the boat is powered, had functioned perfectly up to press time to-day.

Local Combinations Win Bowling Prizes

A clean sweep of all five prizes were made by local combinations in the Open Doubles Tournament held yesterday at the greens of the Peterborough Lawn Bowling Club. Thirty-six players competed, including bowlers from Port Hope, Midland, Lindsay, Leamington, Lakefield, Campbellford and Cannington.

First prize was won by J. Leonard and C. Seymour, while second place was taken by George Low and George Sorenson. Third prize went to the H. Wood-W. Wood's combination. Fourth and fifth places were held down by George Gimblett and J. Fitzpatrick on the one hand and J. Macdonald and H. Blemaine on the other.

BIG BEAN.

A big catalpa bean was taken from the garden at 470 Alymer Street this morning by Robert Findlay, the gardener. The variety is fairly uncommon north of Lake Ontario, and when grown does not usually reach length of more than fifteen inches. But this one is fully two feet in length, and Mr. Findlay declares it is the longest he has had on the present tree in the three years he has tended it.

The Examiner window on George Street boasts the specimen this evening.

PARALYSIS HITS CALGARY

CALGARY, Alta., Aug. 14. C.P.)—The infantile paralysis situation here took a turn for the worse when three new cases were reported Wednesday. This brings the total to ten cases and three deaths.

OBITUARY

WILLIAM F. BROWN.

The funeral of the late William F. Brown, whose death occurred suddenly on Sunday evening, was held on Tuesday afternoon from the family residence, 191 Dublin Street, this city. Rev. John Riddell, of Millbrook, officiated in the absence of Rev. William Allan of St. Paul's Presbyterian Church, of which church the late Mr. Brown was a member. The interment was in Mount Pleasant Cemetery.

The deep sympathy which was expressed and the large number of the late Mr. Brown's friends and business associates who were present to pay their last respects to the departed, testified to the respect and esteem in which the deceased was held by all who knew him.

In addition to the sorrowing widow and young son, those of the immediate family who were present included the late Mr. Brown's brother, Robert, of Millbrook, his sisters, Mrs. F. Ferguson of Port Perry, and Mrs. (Dr.) Clark of Toronto, and his brother-in-law, Herbert Smith and family.

The many beautiful floral tributes which surrounded the casket included wreaths and sprays from the late Mr. Brown's wife and son, his brother Robert and family, his brother-in-law and family, the Peterborough Cereal Co., the staff of the Peterborough Cereal Co., the Coulter family, and Mr and Mrs. Robert Coulter and family.

FINANCIAL NEWS AND BRIEFS

A SPECIAL SERVICE TO THE EXAMINER

Included in the weak spots for the day were two securities on which earning reports are pending and expected to make an appearance within a few days. Consolidated Smelters was down 16 points following an absence of a few days and the official estimate of earnings for the first six months of 1930 is about due. In spite of higher production in the first six months of the year, Smelters is expected to report decreased earnings for the period, because of the lower prices prevailing for lead, zinc, silver and other metals.

Canada Bread ended its fiscal year on June 30, 1930, and the financial statement is about ready for mailing to the stockholders and will go forward around the end of the current week. This company has had the most severe competition in history to contend with in the past fiscal year, and the ticker appears to be telling the tale of a drop in earnings. A dividend of 75 cents a share is being paid semi-annually on the ordinary shares of no par with the next disbursement due on September 1. In the 1928-1929 the dividend was earned by a substantial margin and shareholders will not have long to wait to know the results for the past year.

Lighter Liquidation

Liquidation on the Toronto Stock Exchange in Wednesday's session did not return to the extent that the increase in total sales would indicate. Total sales for the day were approximately 30,700 shares an increase from 26,431 shares on the preceding day. Omitting International Nickel rights, selling for a few cents, total sales of 23,351 shares on Wednesday compare with 13,312 shares on Tuesday. On the face of it this would appear to indicate a substantial increase in selling but a close analysis of the day's transactions tells a different story. Of the increase of slightly over ten thousand shares, 8,900 shares were provided by Nordon so that the actual increase was approximately 1,100 shares. This can be attributed to broader market rather than to heavy liquidation as there were 56 issues traded on the listed department against 37 on Tuesday. Going further into the matter it is found that only 14 stocks were traded in to the extent of over 100 shares a piece. Thus the bulks of the day's heavy trading was confined to a few securities and the majority of transactions scattered among a wider list of stocks. Once again the local market gave evidence of the improved technical position and the fact that many better class securities have passed from peak to strong hands and are not to be easily dislodged.

Trend Remains Lower

The trend was still lower in early trading on the local market to-day but the decline in the first few hours was not marked by the sharp drops of late trading Wednesday. Before the opening of Wall Street advices were that the rally in late trading yesterday was not expected to last throughout to-day without the list softening on the Toronto market was kept within the same range as that of the previous close. One New York broker described Wednesday's rally as a technical recoil due to short covering and nothing else. Public interest on the speculative side continues at a low ebb and the buying demand that would put the list higher is lacking. On the other hand the shorts are taking advantage of vulnerable spots to ply their operations and the public helps matters by selling. In Toronto the stocks under the most pressure are those about which disturbing gossip is heard and the general body is giving way slightly only in sympathy with Wall Street.

GOOD PROFIT IS AS SURED FOR WAITE-ACKERMAN MINE

Is Building Up Reserves For Turn in Price of Copper.

BACKED BY NORANDA.

TORONTO, Aug. 14.—The Waite-Ackerman-Montgomery is being developed in such a manner as to mark the enterprise as probably the second largest metal mine in the Province of Quebec. Not only this, but the ore being developed is of a grade which will enable profitable operations to be conducted even in face of comparatively low quotations for copper.

A large tonnage of ore being placed in sight has an average of at least 125 pounds of copper to the ton, in addition to which is a substantial amount of zinc to be secured as a by-product.

Waite-Montgomery could operate at present on a profitable basis, but the profit to be realized might not justify the heavy call that such would make upon the ore resources.

The company is in the fortunate position of being well financed and able to pursue development and exploration for a long time without resorting to moderately profitable production.

Preparing for Larger Profit

This policy of building up big ore reserves will place the company in position to launch out into particularly heavy production at such time as the price of copper may advance. A return to normal quotations for copper would add two or three cents per pound to the value of copper, or a rate of $2.50 to $2.75 per ton extra as compared with the current value.

With Noranda already holding over 80 per cent of Waite-Montgomery stock, and with a large part of the remaining stock believed to be in the hands of interests close to Noranda, there is believed to be every probability of the entire mine passing over to Noranda in due time. Through such a deal, the ore reserves entirely owned by Noranda might undergo an increase of upwards of 25 per cent.

Modern Groceteria Opened By Canadian Dept. Stores

CONTRACTORS SET NEW RECORD IN REMODELLING FOR GROCETERIA

Work Only Commenced on C.D.S.L.'s New Department on August 2.

ALL CO-OPERATED

In paying tribute to the whole-hearted co-operation which he has received from the various contractors, J. B. Bulmer, superintendent of construction for the T. Eaton Company informed The Examiner that the opening of the Peterborough Groceteria constitutes a record for their company. The task of remodelling the store and installing fixtures, lights and ice plant, etc., was only commenced on August 2nd, and the speed with which the work has been completed is entirely due to the high-class tradesmen engaged on the contract.

The painting of the department, which goes back from the front entrance to a depth of 108 feet, was in the hands of S. M. Finnie, while the major portion of the carpenter work including the manufacture of cabinets was executed by W. E. Johnson. The plumbing and heating equipment was installed by Adamson and Dobbin, all the aforementioned tradesmen being engaged in business in this city and holding enviable reputations for high class workmanship.

Splendid Lighting.

G. H. Watson, also a local contractor, had charge of the electrical installation, and has completed a job which leaves nothing to be desired in the way of good lighting accommodation. Suspended from strategic points of the ceiling 300 c.p. electric bulbs are in use, each encased in special Holophane, reflectors, which ensures an even distribution of light rays.

Fixtures have been installed by Phillips of Oshawa, while a commodious ice-box supplied by the Ruddy Sales Company of Toronto, also occupies an important place among the up-to-the-minute equipment.

The last word in refrigeration machinery, which is installed to ensure fresh and wholesome supplies of fresh and cooked meats and butter, etc., lies in the basement where it will continue to supply an ample stock of artificial ice for the 'live frost' coils in the meat department. The compressor on this ice plant which alone weighs 2,200 lbs. was supplied and installed by The Canadian Ice Machine Company of Toronto.

The inevitable and indispensable signs connected with the operation of all modern stores, have been artistically executed by Harris and Boddy.

Anyone can have a nice job of

Painting and Decorating

such as was done on the new C.D.S. Groceteria, by giving the contract to

Successful Coaching Class at Roseneath

MOUNT PLEASANT, August 14 (Examiner Correspondence). — A coaching class conducted by Miss E. Hopkins of Lindsay was held in the Women's Institute Hall on Thursday, in preparation for the girls household science judging competition to be held in Millbrook. Miss Hopkins dealt with the three classes—nutrition, house furnishings, and clothing—in turn, explaining to the girls how they were to judge each class. The class commenced at ten a.m. and closed before five. Miss Hopkins conducted similar classes in Cavan, Millbrook, and Bailieboro.

Those who attended the class were Misses Emma Fee, Mabel Eggleston, Sadie Allin, Phoebe and Blanche Langton, Dorothy Morden, Ruth Tully, Mildred Jones, Lillian Stoneham, Helen McLean, Juan Shield and Reta Fee, Mrs. Garnet Shield, Mrs. Harry Jamieson, Mrs. Thomas Graham, Mrs. Norman Fee, Mrs. Eric McLean, Mrs. L. Jamieson, Mrs. C. Johnston, and Mrs. Harry Bland.

Natives of the Netherland East Indies now own 3,250,000 buffaloes which they used as work cattle.

C.D.S. GROCETERIA

Trent River

Mr. Thomas Lloyd of Toronto is spending a week with Mrs. Lloyd at "Isle of View."

Mr. Donald Lloyd of Toronto is at "Isle of View" for a month.

Miss Berna Maynard of Ottawa spent the past week with her aunt, Mrs. Dr. O. C. Watson at "As You Like It."

Miss Helen Garrett of Toronto is a guest with Miss Irene Davidson, at "Sunnyside."

Mrs. Charles Davidson and grandson, Master Davie Pearse of "Sunnyside" are spending a week at Corbyville with the former's sister, Mrs. Sparrow.

Mr. and Mrs. B. Quinn and family of Havelock are at "Rest-a-While."

Mr. A. E. Denny and son of Toronto spent the week-end with Mrs. Denny at "Bon Alexander."

Mr. and Mrs. George Neiss; Mr. and Mrs. Caleb Plant and son of Niles, Ohio, are at "Blair Athol."

Mrs. Helen Savouras and Mrs. Louis Chrones of Pittsburg, Pa., are at "Dew Drop Inn" at Green Point.

Mr. and Mrs. F. W. Bend and family of Niagara Falls are at the Breen cottage.

Miss G. Roseboom of New York is holidaying at "Breeze, Ohio."

Mr. and Mrs. Harold Braunan of Massilon, Ohio; Mr. and Mrs. C. H. Lamb and Mr. and Mrs. B. A. Law of Denison, Ohio, left Wednesday from spending a few days at the Watson cottage on the back channel.

When the district nurse of Ratho, Scotland, showed recently that she had made 2,380 visits in the last 12 months, officials voted to buy her a motorcycle.

NEW GROCETERIA PRESENTS SPIC-AND-SPAN APPEARANCE

Additional Department Situated in the Upper George Street Store.

40 IN ONTARIO

The opening of the Canadian Department Stores new groceteria, which takes place to-morrow morning, may well be described as a splendid gesture of the T. Eaton Company's confidence in the continued and increasing prosperity of this fair city and is incidentally a tribute to the foresight and ability of the General Manager of the local Canadian Department Stores, W. F. Butcher, to whom goes the credit for having persuaded his company to launch their new enterprise here.

Situated in a section of the upper store on George street, formerly used as the "Five cent to a dollar" department and which has undergone complete remodelling and decoration, the groceteria presents a wholesome spic-and-span appearance with its spacious interior decorated in white enamel relieved by panelling effects carried out in a sky blue tint.

Fresh and Cooked Meat Section

Entering the main door off George street, which is flanked by two large and well-lighted show windows, customers will be confronted by a turnstile through which they make their way to the self-service shelves and cabinets, all completely stocked with a fine assortment of groceries, fruits, vegetables, bread, assorted biscuits, tea, canned goods, etc., while in the north west corner of the department will be found the fresh and cooked meats section. Here unique arrangements have been made, without regard to expense, for insuring cool and fresh meat. The famous "Sun Glo" brand butter, manufactured by the T. Eaton Company of Toronto will also be handled at this counter which is equipped with marble slabs and "live frost" refrigerating pipes. Also included in the equipment of this section of the department is an electric mincing machine for the manufacture of hamburger steaks. A feature of the operation of this branch of the Eaton business, is that the meat counters, knives and other utensils are sterilised at the end of each day's business and all shelves receive a thorough cleaning each week.

Entrance to the groceteria is also made from the men's furnishing department, where another turnstile is situated, which makes the only exit available, that which takes one past the cash desk situated at the entrance leading in from the main street.

Store Number Forty.

W. S. Chambers, supervisor of Eaton Groceterias in Ontario, who is here for the opening to-morrow, says that the operation of the Eaton groceteria in this city will bring the total number of groceterias in the Eaton Company's Ontario chain up to forty. H. Wright, group manager of groceterias for Oshawa, Lindsay and Peterborough is also here and has been supervising the disposition of the various lines of groceries, etc. To C. N. Purvis, groceteria buyer, goes the credit for arranging the consignment of goods from Toronto.

The new department will be in charge of R. Little, formerly of the Eaton Groceteria, Niagara Falls, who has had considerable and varied experience in this branch of the business. He will have five assistants when the department is functioning normally although for the opening day on which the general public are cordially invited the staff will be considerably augmented to cope with the large volume of business which is anticipated.

Reliable Carpentering

WAS REQUIRED AND GIVEN BY

W. E. Johnston

who did the carpenter work on the new C.D.S. Groceteria, just being opened.

FIRE THREATENS TINY VILLAGE

Blaze in Forest Near Michigan Soo Has Five-Mile Front

SWEEPS GAME AREA

SAULT STE. MARIE, Ont., Aug 14.—(C.P.).—Driven by a west wind a forest fire with a frontage of from five to ten miles was sweeping down on the village of Strongs, Michigan, with a population of 500, some forty miles from the Michigan-Soo at two o'clock yesterday afternoon. The first is burning in a slash and has already burned over 3,200 square miles in the heart of one of the best big game areas in the upper peninsula. At two o'clock a drizzling rain started to fall, and it is hoped that the precipitation will assume sufficient proportions to save the village.

Havelock

Miss Hildred McMenemy, of Hamilton, who has been visiting her cousins, the Misses Etta and Beatrice Crawford, has returned home. She was accompanied home by Mr. Crawford and Miss Beatrice, motoring.

Miss Lois Crawford, of Toronto, is spending her vacation at her home here.

Mr. and Mrs. Spindler and little son Billie have returned to their home at Mimico Beach after spending a week with Mrs. Spindler's father and sisters, Mr. Crawford and family.

Mr. Harold Buchanan, Mrs. Buchanan and little daughter Vivian, of Toronto, are spending a couple of weeks with Mr. and Mrs. Robert Buchanan.

Mr. and Mrs. W. Muir and children, of Belleville, were week-end visitors with Mr. and Mrs. Ed. Williams.

Mr. and Mrs. M. Wilkie, of Guelph, who have been visiting the latter's parents, Mr. and Mrs. Ed. Williams, left by motor for Bala, where they took a boat for a trip through the Muskoka Lakes. Word has been received by Mrs. Williams that they are having a splendid trip.

Mrs. Harold Scott, of St. Catharines, is a guest this week with Mr. and Mrs. Charles Roberts. Mrs. Scott was formerly May Wiseman, whose father owned and operated a mill on the property south of Mill Lane. She left here twenty-six years ago, but returns occasionally to renew old acquaintances.

Mr. and Mrs. Douglas Brennan and little Marjorie have returned home after spending a few days at Lake Scugog.

Misses Evelyn and Edith Drain have returned home after visiting friends at Peterborough.

Mr. Vandervoort spent the week-end at his home here.

Miss Lehane, of Lindsay, attended the C.P.R. Recreation Club picnic at Orillia on Thursday last.

Mr. and Mrs. J. H. Moore and children are spending their vacation with friends at Peterborough and other points west.

Mr. and Mrs. Bernard Veale spent the week-end with friends in Toronto.

For helping the police to arrest an armed auto bandit, H. North, an airman, has been presented a gold watch by the town of Hockliffe, England.

Richard Hall Limited

Amusement Palaces In Good Condition

SYDNEY, Australia, Aug. 14 (C.P.) —While some citizens are worrying themselves and others with talk of financial stringency, the races, the theatres, and all places of entertainment are largely attended. All the golf clubs are adding to their waiting lists, and the bridge bondage is noticeable through city and suburbs. Several of the large stores have bridge tuition as a special side line. Women who have heard from others that if they wish for social success they "must learn bridge," and from their husbands that if they ask questions of innocence while fingering their cards in doubt they will be socially excommunicated, are feverishly learning or partly learning just what to do in all circumstances. They are meeting at the stores each day in their hundreds, meeting to learn, while in almost all the women's clubs and in scores of other places there are bridge parties every afternoon and evening. One great store has morning and afternoon sessions of bridge beginners at $1 a session. The charge covers morning or afternoon tea. There are in addition two afternoon practice sessions each week, with drilling in the intricacies and and etiquette of the game, at 50 cents a person. These likewise include tea, and being considered "good bargains" will be consistently rushed. Bridge is no longer a game in this city. With many it is an obsession.

German firms are preparing their 1931 Christmas cards which will be shown late in December.

OFFICERS SAY GOOD BYE

OTTAWA, Ont., Aug. 13. —(CP)— "Just saying goodbye, that's all", declared Commander Colmore, director of airship development for the British Government, today when asked for a statement following a call he paid on Hon. R. B. Bennett, prime minister. Commander Colmore and Commander G. H. Scott, Captain of R-100, paid courtesy calls upon the Governor General and the Prime Minister.

CAMPBELLFORD VICTORS 5-2 IN HOME GAME

(Continued from Page 1)

subs., G. Luke, L. Morrison, J. Murray.

Campbellford — Goal, E. Fox; point, H. McArthur; cover point, V. Cochrane; 1st defence, L. Bush; 2nd defence, L. Blake; 3rd defence, J. Cowell; centre, S. Flint; 3rd home, "Buster" Whitton; 2nd home, L. Copperthwaite; 1st home, H. Ingram; outside home, F. Ingram; inside home, L. Jack; subs., O. Hendy, W. Blue, H. Lambert.

Referee—Albert Armstrong, Havelock.

Umpires — Oshawa, goal, Mr. Morrison; time, J. Meagher. Campbellford, goal, C. H. Davidson; time, W. J. Smith.

The first period started with a rush by Campbellford on the visitors' net which was repulsed and returned. Play then became keen and Oshawa drew first blood in the first few minutes of the game when H. Cardinal netted the ball. Flint for Campbellford then got into action, and shot several near goals, but the play was fast and the balls went high. It was left to H. Ingram to even up the count for Campbellford, which he did half way through the period. From then on Oshawa went to the defence and the bell rang on an even count. In this period severe checking was featured by both teams, H. Cardinal and Cowell starring for Oshawa and Campbellford respectively.

Score at the end of the first period —Oshawa, 1; Campbellford, 1. Oshawa, H. Cardinal; Campbellford, H. Ingram.

In the second period it was evident that Campbellford had the edge on the game, although Oshawa put up a strong defence, and made several rushes to get in and score. Two goals were netted in this play, both by Fred Ingram from passes by H. Ingram. Campbellford's combination was far above par. Whitton did his dirty work, and kept the Oshawa squad on their toes, and Flint and Hendy were to the fore, letting no play pass them.

For Oshawa Stephen and W. Luke played a very strong defence and broke up the Campbellford combination on several occasions, and Garrison starred with his rushes.

Score at end of the second period —Oshawa, 1; Campbellford, 3. Goals, Campbellford, F. Ingram 2.

The third period was all Campbellford's. Although Oshawa tried to stage a come back, they were unable to net the ball. Copperthwaite for Campbellford scored a goal after the first few minutes of play, and toward the end of the period Jack netted a second count with a lone rush. Oshawa did some fine checking in this period, and on several occasions crowded the Campbellford net, but all to no avail, while Flint for the Millers played fine lacrosse.

Score at the end of the third period —Oshawa, 1; Campbellford, 5. Goals, Campbellford, Jack 1, Copperthwaite 1.

The last period was marked by the looseness of the play. Campbellford got a little ragged, and allowed Oshawa to make a count when Garrison netted the ball for the visitors. The four penalties of the game were registered in this period, when Cowell and Kinkel were put on the fence at the start, and Ingram and Perry were counted out at the end of the play for loving each other.

Score at the end of the fourth period—Oshawa, 2; Campbellford, 5. Goals, Oshawa, Garrison, 1. Penalties, Oshawa, Kinkle, Perry; Campbellford, Ingram, Cowell.

This game makes the first loss that Oshawa has sustained in the league fixtures, and place Campbellford and Ohawa in the play-offs, which it is expected will take place at the end of this month. All the games in the league have been fast and clean and it is expected that the home to home games for the supremacy will be the best played this year. Campbellford is the only team in the league that has given Oshawa close games and in the play offs the Motor City will surely have a run for their money.

FARM HAND'S BODY IS FOUND IN LAKE

(Continued from Page 1)

nection with the case, which is but a riddle, at present.

The theory that White took his own life is not upheld. He had no worries as far as can be learned and had always seemed happy and contented during his three years' residence in the Tweed district. To put it in the words of Mabel Robinson, for whose brother White worked for two and a half years: "It is either a case of foul play or he slipped into the river off the bridge. I am sure he would not take his own life. He was always very cheerful and was especially so on Saturday night, the last occasion on which my brother saw him alive."

Mrs. Thomas Robinson, who lives on her son Murney's farm, about two miles south of this town on the Belleville road, interviewed by The Examiner, exclaimed in a voice choked with emotion, "We feel it so, because George stayed with us so long. He had been with us up to last November since coming to this country three years ago."

Parents in Scotland

She said, he leaves his parents, Mr. and Mrs. George White in Innellan, Argyleshire, Scotland. He received a high school education in his native land and learned the baker's trade under his father. He also leaves one brother and two sisters.

Mrs. Robinson spoke in highest terms of White's trustworthiness and honesty, adding that he was always very mannerly, clean and respectable. He had no bad habits and his only fault was an occasional spell of "pouting," which never amounted to anything serious or disagreeable.

Ample evidence of the high esteem in which George was held by the Robinson family is afforded by the fact that he is to be buried in their family plot at Thomasburg Cemetery.

"He used to call this place his home," said Mrs. Robinson, gazing around the neat little farm kitchen through tear-dimmed eyes, and she continued: "His grave will be kept so that his parents, if they ever come here to see it, may know their boy had some good friends in Canada."

Mrs. Albert Countryman.

"George, will you be in to dinner." A cheery reply in the affirmative was the response received as he left the house on Sunday morning, Mrs. Countryman informed The Examiner. "I don't know why I asked him that question. I don't usually do so, because he was always prompt at his meals."

"We never had any bother with George," she proceeded. "He was a splendid worker, and we never had to give him orders. He just went right ahead with his work."

He first worked on the Countryman farm November 8, 1929, to the end of March this year, when he went to work for Harry Foster for a period while Foster's son was sick. White retirned to John Countryman's place on July 7th. He left Robinson's, it is understood, merely because he desired a change, and was a frequent visitor at his original place of employment.

Regarding the deceased man's disposition, Mrs. Countryman considered he was quiet and had little to say. He always minded his own business.

She related the events leading up to White's disappearance, stating that when he didn't turn up they supposed he had probably gone north after another job. "So many young fellows go there," she exclaimed.

Hearing no word of White, Mrs. Countryman declares that they became uneasy, and she told John to communicate with Constable Moon, which he did on Tuesday.

"No, I don't see any reason why he should take his own life. We noticed no change in his behaviour, which was always normal."

Mrs. Countryman said she had had her grandson, John Crider, of Pittsburgh, staying with her, and George had told the boy that he was in the habit of bathing every Sunday near the bridge.

Bob Blackadder, a Scotchman and a close friends of White's, said that deceased was a strong swimmer. He declared emphatically in an interview with three press reporters: "I am convinced it is a case of murder."

Mr. Blackadder last saw Whtie alive on Saturday night, when he was at a local picture show in the deceased man's company. He had arranged to see his friend on Sunday evening, but he did not show up.

An interesting theory on which police are working is that involving three youth between the ages of 16 and 20, who are alleged to have been sleeping out in barns in the neighborhood and who made a get-away on Tuesday night when police paid them a surprise visit at Thomasburg after they had allegedly smashed up a boat. Police Chief Moon of Tweed states the men got away in the thick bush and presumably forded the Moira River. He received word Wednesday morning that the three youths had been seen travelling south towards Belleville and accordingly phoned the police of that city, who arrested three suspects later in the day. Chief Moon was called to Belleville in an effort to identify the men and failed to do so.

"I would give a lot to get hold of the three youths who got away from me at Thomasburg," exclaimed the Chief, as I am of the opinion they might possibly be able to shed some light on the present problem.

Thomas Breen, boathouse proprietor, also alleges that three strangers hired a boat from him on Monday at 1.20 p.m. They stated they wished it for an hour, but did not return until 3.20 p.m. The boat had been badly used, said Mr. Breen, and if I saw the three fellows again I would not hire them a skiff on any consideration.

He also alleges that a young visitor, whose name he did not disclose, had seen the skiff hired by these three youths near the bridge. The boat was up out of the water on the rocks, he stated. Breen doesn't know where the strangers came from. They were nondescript individuals and not tourists. Besides the boat they hired a double trolling spoon and bamboo pole.

Phillip Simmons, who was one of the section men to discover the body, said it was lying in about four feet of water in full view. He did not agree with the suggestion that the body may have floated from some other point on the river and did not countenance the theory that the man had been knocked off the bridge by a train. There are no trains at all on Sunday, he said, on this section of the C.N. line, which is just a branch to Kingston.

Did young White take his own life? If so; why? Was he murdered? Where is the motive for murder? Did White stumble from the bridge and receive his facial injuries in the fall? It is a possibility but highly improbable, as the bridge is quite wide and safely constructed.

Presuming it is murder, was the crime committed on the bridge or was the dead body transported by boat or on land and thrown from the bridge in an effort to cover up the traces of the dead and make the death appear accidental? Such angles of the mystery are being relentlessly and efficiently investigated, and new developments may be expected any time.

In a brief interview with The Examiner, Dr. Locke said that from the results of the post mortem, he considered the injuries were caused before drowning took place.

The injuries consisted of four slashes on right cheek, two slashes on forehead, one or two slashes on left cheek and badly lacerated gums which were pierced by the teeth. The face was very badly discolored, being very black. There were no other marks on the body.

Deceased was a husky type of fellow weighing about 160 lbs. and about 5 feet 7 inches in height.

The following citizens are sworn in for jury service:—

W. H. Crary, Thomas Beatty, Aleck Geraldi, Henry Sinclair, Chief Lone Wolf, C. R. Brown, William Grier, S. Rawley and Albert Sherry.

HOME TOWNERS
Tidbits, Interesting and Humorous CAMPBELLFORD

Work on the Queen street landing stage is going ahead fast. The concrete has been laid, and the new steps are beginning to take shape. This work will soon be completed, and will be a most satisfactory asset, as this stage is one that is considerable use by the yachts that travel the river.

Mr. and Mrs. E. H. Grieg and family returned on Tuesday from a trip to the Eastern States, and report a good time. They went by car.

Don't forget Friday. It will be the big night in town. Rotary Street Fair is always a success. Come and bring your friends and the children.

Mr. and Mrs. G. W. Lucy and family have returned from their vacation which they spent at Cobourg.

Mr. and Mrs. Arthur McComb and daughter Audrey have returned to their home at St. Catharines after spending a three weeks' vacation with their parents, Mr. and Mrs. Melvin McComb and other relatives in town and district.

Jack's mother has a rival now!

"Jack always says that his mother is the only one who can make real corned beef and cabbage. Just for fun I'll try my hand at making some," thought Ruth.

She cut up the contents of 1 can of Clark's Corned Beef and heated in double boiler. She then diluted 1 tin of Clark's Oxtail Soup with an equal amount of water, picking out all pieces of bone and then pouring it over the meat.

She cut cooked cabbage through and through, piled it in a mound in centre of hot dish and placed the corned beef in the centre, saving some of the gravy without meat to pour over cabbage.

"Now, if that TASTES as delicious as it looks," thought Ruth, "Jack is going to get a surprise." (P.S. Jack isn't quite convinced yet that his mother didn't make it . . . it was so delicious.)

According to the dictionary the word "good" means "something having excellent qualities" — Clark's Corned Beef is made from the finest ingredients, cooked with expert care, and priced at a reasonable figure.

. . . it must be GOOD!

QUEBEC VILLAGE SWEPT BY FIRE 500 HOMELESS

Area Over Quarter of Mile Square at Masson is Smouldering Ruins

FEW ARTICLES SAVED.

Loss is Heavy Blow on Eve of Establishment of Large Paper Mill.

MASSON, Que., Aug. 14. (C.P.)—Between five and six hundred persons homeless and nearly 50 houses destroyed—Such is an estimate by the Rev. Monsignor Routhier, parish priest of Masson, of the conflagration which swept this little town yesterday.

This well-ordered community on the banks of the Lievre River 21 miles from Ottawa, was bewailing a devastation of a character difficult to describe. An area over quarter of a mile square which yesterday morning housed nearly 100 families, was simply a heap of smouldering embers. Red tongues of flame licking up from piles of charred debris spoke eloquently of the disaster which had befallen Masson and over the whole town hung a pall of acrid smoke.

Guard Belongings

Stupefied by the immensity of the catastrophe, little groups of people stood guard in the adjacent fields over the meagre belongings which they had been able to save, in some cases only a few clothes or a chair or two, in others the entire furnishings of the home, in some cases just one or two sacred pictures wrested from the flames, in others articles of domestic use which could be snatched away before the conflagration destroyed all semblance of a dwelling—such comprised the heaps over which those pathetic knots of sufferers watched devotedly. They voiced no complaint at the devastating blow which had buffeted them, but stood with stolid mien watching the progress of the fire that had robbed them of their homes.

To this rural Quebec municipality, a town which was on the eve of marked development by the establishing there of a large, industrial enterprise—the James MacLaren and Co. paper mill—the conflagration came as a staggering blow, for the magnitude of the destruction indicates that reclaimation of this area will be a long process.

Don Quixote Of 1930 Attired In Blazer

LONDON, Aug. 14.—(C.P.)—But this is 1930, so that there was a gasp of astonishment when a man, wearing a blazer and an open-necked shirt, made an uninvited appearance at Willesden Police Court recently, and, acting as his own herald, introduced himself thus: 'I am a Knight Errant and a Professional Busybody. My mission in life is to bring peace to discontented families. 'I have had many successes—and few failures, but these will not deter me from continuing my mission! I am anxious," he added, 'to offer my services in the case of a girl who has rebelled against her father's authority."

And bundling up his papers, this Don Quixote of 1930 set off to succour his damsel in distress

BOB-LO QUIZ IS BEING PROTESTED

Frank Mitchell Leads the Attack in Border Cities Council.

UNANIMOUS STAND

Windsor, Aug 14—The unjustified interference with the rights of Canadian citizens by United States immigration officers stationed at Amherstburg, who are questioning and even refusing Canadians permission to cross to Bois Blanc Island, locally called "Bob-Lo," which is in Canadian territory, was condemned in a resolution presented to Windsor City Council by Commissioner Frank J. Mitchell last night.

"Back Where They Belong"

The resolution was unanimously approved and brought sharp comment from both Commissioner Mitchell and Commissioner E. Blake Winter.

"This thing has gone far enough," said Mr. Winter. "We should not have tolerated this situation even this long. It is time we sent these foreign officers back where they belong. Here they are on Canadian soil, preventing Canadians from going from one Canadian port to another port in Canada.

"Bois Blanc is a Canadian island, and if a Canadian citizen desires to go there, he should not be obliged to seek permission of the United States. The U.S. immigration officers are in Amherstburg through the sufferance of the Canadian government, and they should respect the consideration they have received.

"End This Situation"

"We hear many complaints about their acts, which seems to indicate that they have entirely too free a hand in telling Canadians what they can do and where they can go. We should act to end this distasteful situation at once," declared Mr. Winter.

Mr. Mitchell's resolution calls upon the Detroit and Windsor Ferry Company, which leases the island, to see that all Canadian citizens are allowed to cross from Amherstburg to the island without interference, and that it be required to continue regular service between the two points in accordance with the charter under which it is operating.

EXPENDITURES TO SHOW INCREASE

Despite Raise Province Will Have Surplus Monteith States.

LANDS REVENUE DROPS.

TORONTO, Ont., Aug. 14 (C.P.).—Expenditure will show a "substantial increase," revenue in some departments will be less, but still the Province of Ontario will finish the present fiscal year with a surplus, Hon. Dr. J. D. Monteith, Provincial Treasurer, said here to-day.

Dr. Monteith issued a statement summarizing in a general way the financial condition of the province at the end of the first half of the 1929-30 fiscal year.

No mention was made in the statement as to the expected revenue from the Ontario Liquor Control Board, which last year yielded eight million dollars. Dr. Monteith said he was unable to give any nidication as to how the Board's business this year compares with its 1929 turnover.

Increases in expenditure, according to the statement, are due to tne new expense of old age pensions. Another major factor, Dr. Monteith says, is the Government's determination to bear its full share of unemployment relief by increasing activity in construction and public works.

He notes a decline in the revenues of the Lands and Forests Department, in the stock transfer and land transfer taxes, and a reduction in the number of motor vehicle permits issued. On the other hand, succession duties and the gasoline tax revenues are up.

Peterboro Golfers Winners At Cobourg

Twenty-five members of the Peterborough Golf Club paid their anaual visit to Cobourg yesterday. The lakeshore links were in excellent order, and after the game the visitors were entertained at dinner:

The third of the Canada's Cup races was held off Charlotte, the port of Rochester, in Lake Ontario, yesterday, between Quest, representing the Royal Canadian Yacht Club of Toronto as challenger, and Thisbe, representing the Rochester Yacht Club, as defender. The series was the best three out of five, and yesterday's victory gives the United States defender the edge. The photo above shows the Thisbe, and Skipper Barrows and his victorious crew.

ALDERVILLE SEES GIANT AIRSHIP

Commander Booth Notified Indian Chief That He Would Pass Over Reserve.

INDIANS PLEASED

The inhabitants of Alderville and Roseneath are considering themselves specially favored in having received advance warning from the commander of the R-100 that the great airship would pass over the Indian Reserve there at about 2 a.m. (E.S.T.) on Monday. R. S. Booth, R.A.F., Captain of the R-100, wrote Chief Norman Marsden of the Indian Reserve that the British dirigible would pass directly over his neighorhood, and named the hour.

True to his word, Squadron Leader Booth appeared in the sky with his giant craft above Alderville and Roseneath on the morning of the 11th. Inhabitants of the villages, hearing the awaited booming sound in the heavens, rushed from their beds to see and welcome the huge ambassador from the Motherland.

The people of the Reserve are loud in their praise of the countesy shown the Chief and his people by Squadron Leader Booth. It is understood that suitable acknowledgments and thanks were forwarded to Montreal.

NO MORE PILES

HEM-ROID, the prescription of Dr. J. S. Leonhardt, is guaranteed to banish any form of Pile misery. It gives quick action even in old, stubborn cases. HEM-ROID succeeds because it heals and strengthens the affected parts and removes blood congestion in the lower bowel—the cause of piles. Only an internal medicine can do this, that's why salves and cutting fail. McDermid & Jury, Bond's Drug Store and druggists everywhere sell HEM-ROID with guarantee that it cost you nothing if it doesn't end all Pile agony.

PRESENTATION MADE TO YOUNG COUPLE

Fairmount Sunday School Honors Mr. and Mrs. C. Seymour.

The home of Mr. and Mrs. James Seymour was the scene of a very happy gathering on Thursday evening. It being the occasion of Fairmount Sunday School visiting their home in a body to present to Carman W. Seymour and his wife a beautiful wicker chair and fernery following their recent marriage.

During the evening G. H. Horton, superintendent of the Fairmount S.S., called the friends together when an address was read by Frederic McIndoo, and the presentation was made by Messrs. Harry McArthur and Harry McBain, after which Mr. Seymour replied briefly referring to the influence of the S.S. on his life and teachers it had been his good fortune to have and who had led him into better knowledge of the Holy Scripture. Their lives also having been to him an incentive to better living.

Rev. Mr. Moir, pastor of the charge, spoke briefly and extended a very hearty welcome to Mrs. Seymour who was a stranger to many at Fairmount.

The committee in charge then extended congratulations and a welcome to Fairmount Sunday School, after which the evening passed quickly with music, instrumental and vocal Mrs. (Rev.) Moir presiding at the piano.

Refreshments of a very generous and also dainty variety was then served. And after joining hands and singing, "Should Auld Acquaintance be Forgot," a very enjoyable evening was brought to a close.

Committee Rescinds Old Bathing Laws

MANCHESTER, Aug. 14.—(By the Canadian Press.)—The Manchester Corporation Baths committee has recommended the abolition of the regulation that any male wishing to take part in any mixed bathing at the public baths must be accompanied by a female.

The Lowestoft Town Council has also formally rescinded a venerable regulation "no male bather should approach within a hundred yards of a female bather." The old English sport of "keeping their distance" will therefore be out of fashion at Lowestoft this summer, says a writer and bathers, male and female, will freely mingle within the formerly prohibited degree. It must have been rather interesting in the past to see a man giving a swimming lesson to his wife, or a father instructing his daughter in that art of Lowestoft—after measuring off 100 yards on a tape measure, presumably he stood at the other end of the safety zone and roared his instructions through a megaphone.

What happened if the female bathers got into difficulties—did would-be male rescuers attempt to lasso them with a 100-yards rope? Or were the overwhelmed maidens allowed to drown in the interests of perfect propriety.

TORNADO SWEEPS CITY OF NAPLES TAKING 4 LIVES

Over 70 Injured as Wall Crashes Down on Early Marketers.

ROME ALARMED.

Populace Invade City Churches Imploring Divine Protection.

NAPLES, Italy, Aug. 14.—(C.P.) — On the eve of celebration of escape from serious damage in last month's earthquake, the section of Naples occupied by the agricultural market today was swept by a tornado which took at least four lives and injured between 70 and 80 persons.

The city was panic-stricken and police and carabineers had trouble in keeping back the crowds from the hospitals where the injured were taken. The storm broke at 6.50 a.m., the early hour, it was believed, keeping the casualty list as low as it was since the market was not yet crowded.

Found Beneath Debris.

The four known dead were found beneath the debris of the wall of the Romeo Aeronautical Works, a section of which, ten feet high and 150 feet long, was knocked down. Policemen and firemen engaged quickly in removing the remainder of the debris in the fear other bodies would be found. Many took shelter from the storm in its shadow and barely escaped when it fell.

From 3.45 a.m. to 4.30 a.m. nearby Rome experienced a terrific storm which knocked off tiles from roofs and carried chairs and tables left on open balconies great distances. Sleep was impossible.

The populace invaded the churches soon after the tornado struck, imploring protection, while the sextons tolled bells furiously as a warning and summons.

Government railway lines of Egypt cover 3,222 miles.

BOMBING PLANE PILOT CONFESSES TO OFFICIALS

MURPHYSBORO, Ills., Aug. 14 — State's Attorney Fletcher Lewis announced yesterday that Paul Montgomery, local aviator, had not only confessed that he piloted the plane from which the Providence, Ky., coal friend was bombed Monday morning, but had named two men who hired him to make the flight. The names of the other two were withheld, pending their arrest.

The makers of 38 washers say "Rinso for safety!"

They know, of course, that Rinso washes clothes whiter, brighter, *safely*. That's why the makers of 38 famous washing machines endorse Rinso!

Even in hardest water, Rinso gives twice as much suds as lightweight, puffed-up soaps. And it's all you need—no bar soaps, chips, powders, softeners.

Great for tub washing. Saves scrubbing and boiling. That saves the clothes! Get the BIG package.

Millions use Rinso—thousands write us letters like this

"Rinso is just marvellous in our water; I never use a softener any more. Rinso *soaks* clothes spotless, doesn't leave a particle of dirt anywhere. I use Rinso's creamy, *lasting* suds for all cleaning. It's great for dishes!" *MRS. A. A. MYERS.*

Guaranteed by the makers of LUX—Lever Brothers Limited, Toronto.

"Use Palmolive twice a day"

urges

Mme. Elin Dahlstrand

foremost beauty specialist of Stockholm

"This fine facial soap keeps the surface of the skin well ventilated. It is bland and neutral. Use it with warm water, for carefut cleansing, then rinse with cold water or ice to prevent relaxation of the skin."

Hamngatan 10, Stockholm

Every skin needs the deep cleansing which only the pure vegetable oils of palm and olives can give. These cosmetic oils have been known for generations as nature's greatest beautifiers.

"HOWEVER successful I am with my beauty treatments, all my efforts would be in vain if my clients did not continue the treatments in their own homes," says Mme. Dahlstrand. "My principle for home treatments is first of all to keep the skin clean, the most vital condition for beauty, and Palmolive Soap is my valuable assistant in the service of beauty."

In all Sweden there is no more important beauty shop than that of Mme. Dahlstrand, of Stockholm, who gives this interview on beauty. Her salon is housed in a magnificent marble palace, and her beauty theory was learned in Paris, centre of the cosmetic arts.

"This fine facial soap," she goes on to say, "keeps the surface of the skin well protected. It is bland and neutral. Use it with warm water, for careful cleansing, then rinse with cold water or ice to prevent relaxation of the skin."

Beware of irritation

So many soaps irritate while they cleanse. They are apt to roughen the texture of the skin and spoil its delicate coloring. Palmolive is a pure vegetable oil soap. Its color, its odor, its very feeling is that of nature's great cosmetic oils. It cleanses safely, beautifies easily.

Mme. Dahlstrand is one of a great international group of beauty specialists who have discovered facts about Palmolive for themselves and who now tell their patrons to use this soap in preference to any other. Today there are over 23,720 such experts. Here is the simple home treatment on which they all agree:

Massage a bland lather of Palmolive Soap and warm water gently into the skin, letting the lather get deep into every tiny pore. Then rinse away soap, dirt, make-up, with warm water, finally with cold, and you'll find your skin is wonderfully soft and smooth.

You will like Palmolive. You will be using it soon for the bath, too, since it costs even less than quite ordinary soaps. Follow Mme. Dahlstrand's advice. Begin this very day.

10c *per cake*

3950

A quart of milk a day per person is desirable for the best of health. You can get your folks to "eat" milk by serving attractive foods calling for plenty of it.

A very pretty shower was held at the home of Mrs. H. Daniel, 14 Rink Street, on Monday in honor of Miss Dorothy Mason's coming wedding.

FASHION SERVICE

Here's a cunning romper for little girls and boys who spend the greater part of their time in play.

It will interest mother, too. So easily laundered! The entire garment cuts all in one piece! Bias binding that may be bought already folded is stitched around the edges. The side seams are then joined, and it is almost finished, excepting for button and button-hole at shoulders.

Style No. 2586 comes in sizes 1, 2, 4 and 6 years.

Pale blue or pale pink shiny finish cotton broadcloth is very pretty for wee girls.

Brother will appear at his best in blue and white candy stripe braodcloth.

Daffodil yellow linen, white pique, pink and white pique print, French blue batiste with tiny white dots and flesh coloured crepe de chine are very lovely suggestions that cost very little to make.

Pattern price 15 cents in stamps or coin (coin preferred). Be sure to fillll in size of pattern.

A Square Tub Gives Ideal Washing Action

The Faultless Electric Washer has a square tub with rounded inside corners. The tub is double, being equipped with a rust-proof copper tub inside and a steel tub outside. The two tubs act on the vacuum bottle principle, keeping water hot inside the washer during the whole washing operation.

The Faultless washes cuffs and collar bands thoroughly clean in a very few minutes. Ordinary soiled clothes come out of the Faultless spotlessly clean in five minutes.

The Faultless does not break buttons. The wringer rolls are of semi-soft rubber. Balloon type.

Grant & Thorpe, the local dealers, will give you a generous allowance for your old washer no matter what kind it is.

Phone 798 for particulars. They will gladly send one to your home on trial. No high pressure salesmanship. If you don't like the machine don't buy it.

Made in a spotless, sunlit factory under ideal conditions

McLAREN'S INVINCIBLE JELLY POWDERS

OLD SONGS

THAT PIECE OF SONG, That old and antique song we heard, last night.

OH, DEM GOLDEN SLIPPERS
(Contributed by Beatrice)

Oh my golden slippers am laid away,
Kaise I don't 'spect to wear 'em till my weddin'-day;
And my long-tailed coat, dat I lov'd so well,
I will wear up in de chariot in de morn;
And my long white robe dat I bought last June,
I's goin' to git changed
Kaise it fits too soon,
And de old grey hoss dat I used to drive,
I will hitch him to de chariot in de morn.

Oh, dem golden slippers,
Oh, dem golden slippers,
Golden slippers I'm gwine to wear, becase de look so neat;
Oh, dem golden slippers,
Oh, dem golden slippers,
Golden slippers Ise gwine to wear
To walk de golden street.

Oh, my ole banjo hangs on de wall,
Kaise it ain't been tuned sine way last fall;
But de darks all say we will hab a good time,
When we rise up in de chariot in de morn.
Dar's ole Brudder Ben, and Sister Luce,
Dey will telegraph de news to Uncle Bacco Juice,
What a great camp meetin' dere will be dat day,
When we ride up in de chariot in de morn.
So, it's good by children, I will have to go
Whar de rain don't fall, or de wind don't blow,
And yer ulster coats, why yer will not need,
When yer ride up in de chariot in de morn;
But yer golden slippers must be nice and clean,
And yer age must be
Just sweet sixteen;
And yer white kid gloves yer will have to wear,
When yer ride up in de chariot in de morn.

THE RHYMING OPTIMIST

By Alice Michaelis

THE WILL

There is a king who lives with every man, though he be potentate or priest or clown; he wanders with the beggar's gypsy van, he dwells in homes of men of high renown. He can reject the bright and shining lure of gold and lands, of lofty place and name to walk with peace and gladly to abjure the sun of glory in the fields of fame. He can renounce all gifts life proffers him, can even turn his face away from love, if love itself should make one shadow dim the dream he dreams, the vision he would prove. Thus every man should take his way, serene and joyous in the role he can fulfill, with knowledge, though his portion may seem mean, he goes companioned by his kingly will.

MAKES CHILDREN BRIGHT ACTIVE—HEALTHY WITH ROSY CHEEKS

Cod Liver Extract, so abundant in sugar-coated McCoy's Cod Liver Extract Tablets, is the quickest and surest way of setting skinny, nervous boys and girls on the right road to wonderful health, attractiveness and happiness.

When children take McCoy's they obtain the full body, bone and mentality building benefit of Cod Liver Extract which doctors prescribe for their own children and which world's greatest medical authorities claim are so essential for health and growth.

McCoy's adds firm flesh, fills out flat chests—bones grow straight and strong, plenty of energy and vitality to resist disease is created.

Your rosy cheeked, bright eyed, well developed kiddies will be a wonderful reflection upon a mother's expert care—such happy and healthy days ahead of them!

One sickly child gained 12 pounds in 7 months.

Get McCoy's Cod Liver Extract Tablets at McDermid & Jury, McDermid's, Bond's, Lynch, and Payne's or any drugstore. 60 tablets. 60 cents.

English Girl Flier Is Crack Reolver Shot

LONDON, Eng. Aug. 14 (C.P.)—Not many people know that Amy Johnson is a good revolver shot and a passable exponent of ju-jitsu. The famous girl flyer who was welcomed here by thousands of admirers and several Cabinet ministers on her return from a solo flight to Australia, did not look like a champion in the art of self-defence. But her looks are deceiving.

When Miss Johnson made up her mind to fly to Australia, she wondered what would happen if she were forced down and had to look after herself until she reached civilization. So she took lessons in ju-jitsu, and improved her shooting by constant practice with a revolver, using bottles and jars as her targets.

Not content with that she learned how to put up her fists and use them to good advantage.

CONSTIPATION IS A HEALTH THIEF

Drive It from Your System with Kellogg's ALL-BRAN

Constipation steals the best out of your life. Robs you of strength, vitality, health itself! And many people do not realize that perpetual fatigue, coated tongues, bad breath, are often signs that constipation is in their system.

You *must* move poisonous wastes out of your system and keep them moving. But there's a right way and a wrong way. Pills, drugs and ordinary cathartics give but temporary relief—and their dose must be constantly increased to be effective.

The great *natural* cleanser is Kellogg's ALL-BRAN. A tasty cereal, which brings you iron for blood building—and, *above all*, corrects constipation. The abundant roughage in ALL-BRAN gently and naturally sweeps out poisonous wastes and impurities.

Physicians recommend ALL-BRAN. It's guaranteed. Two tablespoonfuls daily. Recurring cases—with every meal. Remember that Kellogg's is the original ALL-BRAN—the product that millions have proved effective.

You'll like the nut-like flavor of ALL-BRAN. Eat it in many ways. Delicious with milk or cream—fruits or honey added. Make muffins with it. At all grocers. Served in hotels, restaurants, dining-cars. Made by Kellogg in London, Ontario.

Kellogg's ALL-BRAN
Improved in Texture and Taste

LINDSAY YOUTH HAS SAVED FOUR

Boy of 14 Plays Unofficial Life Guard Along Scugog River.

KEEPS RESCUES SECRET.

LINDSAY, Aug. 14.—Although unknown to practically everyone, and not employed in an official capacity the town of Lindsay seems to have a lifeguard for the Scugog river in the person of Maurice Murphy, 14 year old son of J. J. Murphy, Durham street east.

So far this season, Maurice has saved four people from drowning at various places along the river and, incidentally, by various means.

The last saving was performed on last Monday, Aug. 11. Two little boys were playing in an old boat along the bank in the vicinity of the C.N.R. bridge, just east of the town. Sticking in some weeds the boat was upset and the boys thrown into the water when they attempted to free it.

Dragging them to shore, young Murphy started a fire with the aid of his pocket handkerchief as a substitute for paper, and drying the wet clothing, sent them home with the parents none the wiser.

ASK YOUR FRIENDS

MRS. T. V. HILL
Singhampton, Ontario
"My mother was visiting in Detroit a year ago and she was in very poor health. My sister-in-law got a bottle of Lydia E. Pinkham's Vegetable Compound and it helped her more than anything she had taken. She advised me to take it too and I did. My back used to ache and I suffered so with pain at times that I could not work. I feel like a new woman and can do my housekeeping and work in the store. I will answer letters."—*Mrs. T. V. Hill.*

MRS. WILLIE LAFLEUR
Route 3, Hemmingford, Quebec
"I was nervous. No appetite and all rundown. Most every day I had to lie down for two or three hours. I saw one of the booklets advertising Lydia E. Pinkham's Vegetable Compound so I went to my druggist and bought a bottle. My nerves are lots better and I am now on my feet again doing all my own work around the farm. The Compound has certainly done me good and can help others."—*Mrs. Willie Lafleur.*

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

THE laundering of articles made of colored wash-goods has always been a matter of interest to women. Fortunately the making of fast dyes has progressed so well that there is not the same trouble about colors as there was formerly.

• • • • • • •

But not all dyes are waterproof or sunfast. Unless a person buys goods and articles made from goods that are guaranteed to wash without running and to keep their colors unchanged when exposed to sunlight, she still has to use precaution when laundering them and to find out for herself whether or not they fade.

• • • • • • •

The first washing of material not so guaranteed is of primary importance. Try out a small piece, and do your own investigating so, without putting the whole amount of goods into the washtubs.

• • • • • • •

Give the small piece an ordinary laundering, rubbing it rather hard, using a bit more soap than usual. Dry it out of the sun—you should use this precaution always! If the sample launders without a change, you can know that the textile is proof against damage by laundering.

• • • • • • •

If it is a garment that has to be washed and ironed, take some small part as the belt, a ripped-off pocket or clippings from a seam, and use for the laundry try-out.

• • • • • • •

Be sure the main material and the trimming also are subjected to the same treatment.

• • • • • • •

Special care should be taken when laundering any dress or garment for the first time. Do it very cautiously. Beware of using too hot water.

• • • • • • •

Some textiles will run if boiling, or nearly boiling water that will wash without any trouble whatsoever, in luke warm water.

• • • • • • •

Also use a mild soap, one of the white soaps, not yellow, or some preparation of soap that comes flaked, or in small bits. Put a small amount in the wate, and have it entirely dissolved before immersing the garment.

• • • • • • •

Rinse in water that is of like temperature as the first wash-water. Some women always add a little salt to the water in which colored materials are first washed, in order to set the color.

• • • • • • •

The hanging of colored materials on the line is another matter of importance. See that each portion of a garment having a contrasting color does not dry against another, and that the drip of water from a strong color falls clear of the other goods.

• • • • • • •

Usually such strong tones are found in trimming of collar and cuffs. It is easy to hang the garment so that these parts are down lower than others.

• • • • • • •

Iron colored goods before it needs sprinkling. Sometimes one color lying damp against another after sprinkling will discolor another, whereas if the garment was laundered without having to be dampened no discoloration would occur. If it has to be dampened lay a piece of plain white goods between folds where a strong color would come against a contrasting one.

• • • • • • •

Steam will occasionally make colors run that have stood every previous test. Iron some inconspicious part first. If the steam makes the colors run, it will be necessary to iron the article dry, or to put a slightly dampened cloth over the dry garment and hurriedly press over it, quickly taking it off and completing the ironing without this cloth.

The first competitor to arrive at Les Sables d'Olonne in the fifth day of the round-France bicycle race this year was given a shower of kisses by local girls.

While imprisonments for criminal offenses in England are the lowest on record, those for civil processes are the highest since the World war.

TWO QUALITIES—RED LABEL & ORANGE PEKOE

That Body of Yours

By James W. Barton, M.D.

A LITTLE KNOWLEDGE SAVES A LIFE.

Three boy scouts were playing near a river when one of them fell in. Instead of running for help and thus losing valuable time they secured a large branch drove a couple of nails in at such an angle as to improvise a hook, and were able to fish their companion out of water.

He was unconscious, but despite the fact that there was no scout master or leader, present they persevered with the Schafer method of resuscitation for a number of minutes until the boy revived and was later able to go home.

Naturally their parents and townsfolk were proud of them and their act was suitably recognized.

And yet this act of resuscitation which can be learned in one or two minutes is still unknown to thousands of people. They may still have in their minds rolling the victim over a barrel to get the water out of his lungs, then one helper works his arms upwards and downwards to force air into his lungs whilst letting him lie on his back, with another helper trying to hold his tongue out so that it will not fall back and shut out the air, and still another helper or two rubbing his hands and feet to promote circulation.

By the Schafer method, and I speak of it every year, one person can do the entire work of resuscitation.

The patient—apparently drowned, and the method applies to a victim of electric shock, or suffocation—is first placed face downwards on the ground.

Place yourself astride or on one side of the patient's body, in a kneeling position, facing his head. Placing your hands flat on the small of his back, the thumbs nearly touching and the fingers spread out on each side of the body over the lowest ribs, lean forward, and steadily allow the weight of your body to fall over on them, and so produce a firm downward pressure, which must not be violent.

(By this means the air, and water, if there be any, is driven out of the patient's lungs.)

Immediately thereafter, swing backward releasing the pressure but without lifting the hands from the patient's body. Repeat this forward and backward movement (pressure and relaxation of pressure) every four or five seconds.

Keep this up for hours if necessary, if there are others to relieve you from time to time.

During this time others can apply heat to extremeties, or rub the hands and feet to promote warmth.

This is acknowledged to be the most efficient method of resuscitation. This little bit of knowledge may save a life as it did when used by these twelve to fourteen year old boy scouts.

CANADIANS URGED TO BUY HOME MADE PRODUCTS

MONTREAL, Que., Aug. 14 (C.P.).—In view of existing unemployment, the Canadian people are urged to buy Canadian manufactured goods and products when available, in a resolution adopted yesterday at the annual convention of the Native Sons of Canada. Another resolution suggested that married women whose husbands are earning adequate means for the maintenance of their families should be urged to relinquish their positions pending readjustment of the present conditions.

Mr. and Mrs. James Isbister, of Innerkip, Ontario, after twenty years' absence, are visiting friends and relatives in Peterborough and Selwyn.

• • •

Mrs. E. Kelsey, of Lakefield, left this morning for a short stay at her home in Port Colborne.

• • •

Dr. M. G. Brick and sons John and Paul Brick have returned to Windsor after visiting the former's mother, Mrs. Margaret Brick, Murray Street.

• • •

Mrs. S. Gaskin and daughters Alraretta and Wilhemmine, of Englewood, New Jersey, and Mrs. Thistlethwaite, of Toronto, are guests of their sister, Mrs. S. Matchett, 173 Hunter Street East.

• • •

Mr. and Mrs. John Pirie, Clifford and Bobbie, of Romaine Street, left this morning on a motor trip to Kapuskasing, Northern Ontario, where they will spend their vacation with the former's mother and sister, Mrs. Pirie and Mrs. A. Husband.

• • •

Mr. and Mrs. B. Krom and daughter Alice, accompanied by Miss Catherine Sweetman, left this morning on a motor trip through Montreal, New York, and New Jersey.

• • •

Miss Mary Brick returned yesterday with her father, Dr. M. G. Brick, to her home in Windsor, after visiting her cousin, Miss Patricia Duffus 526 Murray Street.

• • •

Mrs. Elizabeth Driver, of Toronto, who has been visiting her niece, Mrs. Charles Curtis, Aylmer Street, returned to her home in Toronto to-day.

• • •

The Misses Eva and Pearl Bullen, of Detroit, who have been visiting their sisters, Mrs. Herb. McCannan and Mrs. Charles Curtis, returned home to-day.

• • •

Mr. and Mrs. S. C. Warne have returned home after spending the past two months in England and on the Continent.

• • •

Mr. and Mrs. G. J. Andrews, of Sylvanie, Ohio, are visiting at the home of the latter's cousin, Mrs. E. Butler, Otonabee.

• • •

The following are registered at the Y.W.C.A. Camp at Inglestane, Stoney Lake: Misses E. Kirkwood, C. Sangster, E. Hollinger, M. Hollinger, I. Hollinger, Jean McInnis, Mattie Wallace, A. Carrol, I. Carter, M. Cook, L. Cook, F. Sutton, D. Tyler, B. Wheeler, M. Hyney of Toronto, Miss C. Mitchell and Miss M. Middlemiss of Hamilton, Miss Wightman, Miss B. Dyall, Guelph, Miss R. McKibbon, Woodrous, Miss H. Macdonald, Miss H. Wright, Campbellford, Miss E. Thonlinson, Miss E. Brown, Miss D. Adlam, M. Cooper, E. Beileghem, I. Thompson, M. Fife, V. Strong, D. Strong, H. Twesley, all of Peterborough.

• • •

A very pretty shower was held at the home of Mrs. H. Daniel, 14 Rink Street, on Monday in honor of Miss Dorothy Mason's coming wedding.

FASHION SERVICE

Here's a cunning romper for little girls and boys who spend the greater part of their time in play.

It will interest mother, too. So easily laundered! The entire garment cuts all in one piece! Bias binding that may be bought already folded is stitched around the edges. The side seams are then joined, and it is almost finished, excepting for button and button-hole at shoulders.

Style No. 2586 comes in sizes 1, 2, 4 and 6 years.

Pale blue or pale pink shiny finish cotton broadcloth is very pretty for wee girls.

Brother will appear at his best in blue and white candy stripe broadcloth.

Daffodil yellow linen, white pique, pink and white pique print, French blue batiste with tiny white dots and flesh coloured crepe de chine are very lovely suggestions that cost very little to make.

Pattern price 15 cents in stamps or coin (coin preferred). Be sure to fillI in size of pattern.

A Square Tub Gives Ideal Washing Action

The Faultless Electric Washer has a square tub with rounded inside corners. The tub is double, being equipped with a rust-proof copper tub inside and a steel tub outside. The two tubs act on the vacuum bottle principle, keeping water hot inside the washer during the whole washing operation.

The Faultless washes cuffs and collar bands thoroughly clean in a very few minutes. Ordinary soiled clothes come out of the Faultless spotlessly clean in five minutes.

The Faultless does not break buttons. The wringer rolls are of semi-soft rubber. Balloon type.

Grant & Thorpe, the local dealers, will give you a generous allowance for your old washer no matter what kind it is.

Phone 798 for particulars. They will gladly send one to your home on trial. No high pressure salesmanship. If you don't like the machine don't buy it.

Made in a spotless, sunlit factory under ideal conditions

McLAREN'S INVINCIBLE JELLY POWDERS

OLD SONGS

THAT PIECE OF SONG,
That old and antique song we heard, last night.

OH, DEM GOLDEN SLIPPERS
(Contributed by Beatrice)

Oh my golden slippers am laid away,
Kaise I don't 'spect to wear 'em
till my weddin'-day;
And my long-tailed coat, dat I
lov'd so well,
I will wear up in de chariot in de
morn;
And my long white robe dat I
bought last June,
I's goin' to git changed
Kaise it fits too soon,
And de old grey hoss dat I used
to drive,
I will hitch him to de chariot in de
morn.

Oh, dem golden slippers,
Oh, dem golden slippers,
Golden slippers I'm gwine to wear,
becase de look so neat;
Oh, dem golden slippers,
Oh, dem golden slippers,
Golden slippers Ise gwine to wear
To walk de golden street.

Oh, my ole banjo hangs on de wall,
Kaise it ain't been tuned sine way
last fall;
But de darks all say we will hab a
good time,
When we rise up in de chariot in de
morn.
Dar's ole Brudder Ben, and Sister
Luce,
Dey will telegraph de news to Uncle
Bacco Juice,
What a great camp meetin' dere will
be dat day,
When we ride up in de chariot in de
morn.
So, it's good by children, I will have
to go
Whar de rain don't fall, or de wind
don't blow,
And yer uister coats, why yer will
not need,
When yer ride up in de chariot in
de morn;
But yer golden slippers must be
nice and clean,
And yer age must be
Just sweet sixteen;
And yer white kid gloves yer will
have to wear,
When yer ride up in de chariot in
de morn.

THE RHYMING OPTIMIST

By Alice Michaelis

THE WILL

There is a king who lives with every man,
though he be potentate or
priest or clown; he wanders with the
beggar's gypsy van, he dwells in
homes of men of high renown. He
can reject the bright and shining
lure of gold and lands, of lofty place
and name to walk with peace and
gladly to abjure the sun of glory in
the fields of fame. He can renounce
all gifts life proffers him, can even
turn his face away from love, if love
itself should make one shadow dim
the dream he dreams, the vision he
would prove. Thus every man should
take his way, serene and joyous in
the role he can fulfill, with knowledge, though his portion may seem
mean, he goes companioned by his
kingly will.

MAKES CHILDREN BRIGHT ACTIVE—HEALTHY WITH ROSY CHEEKS

Cod Liver Extract, so abundant in sugar-coated McCoy's Cod Liver Extract Tablets, is the quickest and surest way of setting skinny, nervous boys and girls on the right road to wonderful health, attractiveness and happiness.

When children take McCoy's they obtain the full body, bone and mentality building benefit of Cod Liver Extract which doctors prescribe for their own children and which world's greatest medical authorities claim are so essential for health and growth.

McCoy's adds firm flesh, fills out flat chests—bones grow straight and strong, plenty of energy and vitality to resist disease is created.

Your rosy cheeked, bright eyed, well developed kiddies will be a wonderful reflection upon a mother's expert care—such happy and healthy days ahead of them!

One sickly child gained 12 pounds in 7 months.

Get McCoy's Cod Liver Extract Tablets at McDermid & Jury, McDermid's, Bond's, Lynch and Payne's or any drugstore. 60 tablets. 60 cents.

English Girl Flier Is Crack Reolver Shot

LONDON, Eng. Aug. 14 (C.P.)—Not many people know that Amy Johnson is a good revolver shot and a passable exponent of ju-jitsu. The famous girl flyer who was welcomed here by thousands of admirers and several Cabinet ministers on her return from a solo flight to Australia, did not look like a champion in the art of self-defence. But her looks are deceiving.

When Miss Johnson made up her mind to fly to Australia, she wondered what would happen if she were forced down and had to look after herself until she reached civilization. So she took lessons in ju-jitsu, and improved her shooting by constant practice with a revolver, using bottles and jars as her targets.

Not content with that she learned how to put up her fists and use them to good advantage.

CONSTIPATION IS A HEALTH THIEF

Drive It from Your System with Kellogg's ALL-BRAN

Constipation steals the best out of your life. Robs you of strength, vitality, health itself! And many people do not realize that perpetual fatigue, coated tongues, bad breath, are often signs that constipation is in their system.

You *must* move poisonous wastes out of your system and keep them moving. But there's a right way and a wrong way. Pills, drugs and ordinary cathartics give but temporary relief—and their dose must be constantly increased to be effective.

The great *natural* cleanser is Kellogg's ALL-BRAN. A tasty cereal, which brings you iron for blood building—and, *above all*, corrects constipation. The abundant roughage in ALL-BRAN gently and naturally sweeps out poisonous wastes and impurities.

Physicians recommend ALL-BRAN. It's guaranteed. Two tablespoonfuls daily. Recurring cases—with every meal. Remember that Kellogg's is the original ALL-BRAN — the product that millions have proved effective.

You'll like the nut-like flavor of ALL-BRAN. Eat it in many ways. Delicious with milk or cream—fruits or honey added. Make muffins with it. At all grocers. Served in hotels, restaurants, dining-cars. Made by Kellogg in London, Ontario.

Kellogg's ALL-BRAN
Improved in Texture and Taste

LINDSAY YOUTH HAS SAVED FOUR

Boy of 14 Plays Unofficial Life Guard Along Scugog River.

KEEPS RESCUES SECRET.

LINDSAY, Aug. 14.—Although unknown to practically everyone, and not employed in an official capacity the town of Lindsay seems to have a lifeguard for the Scugog river in the person of Maurice Murphy, 14 year old son of J. J. Murphy, Durham street east.

So far this season, Maurice has saved four people from drowning at various places along the river and, incidentally, by various means.

The last saving was performed on last Monday, Aug. 11. Two little boys were playing in an old boat along the bank in the vicinity of the C.N.R. bridge, just east of the town. Sticking in some weeds the boat was upset and the boys thrown into the water when they attempted to free it.

Dragging them to shore, young Murphy started a fire with the aid of his pocket handkerchief as a substitute for paper, and drying the wet clothing, sent them home with the parents none the wiser.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

THE laundering of articles made of colored wash-goods has always been a matter of interest to women. Fortunately the making of fast dyes has progressed so well that there is not the same trouble about colors as there was formerly.

• • • • • • •

But not all dyes are waterproof or sunfast. Unless a person buys goods and articles made from goods that are guaranteed to wash without running and to keep their colors unchanged when exposed to sunlight, she still has to use precaution when laundering them and to find out for herself whether or not they fade.

• • • • • • •

The first washing of material not so guaranteed is of primary importance. Try out a small piece, and do your own investigating so, without putting the whole amount of goods into the washtubs.

• • • • • • •

Give the small piece an ordinary laundering, rubbing it rather hard, using a bit more soap than usual. Dry it out of the sun—you should use this precaution always! If the sample launders without a change, you can know that the textile is proof against damage by laundering.

• • • • • • •

If it is a garment that has to be washed and ironed, take some small part as the belt, a ripped-off pocket or clippings from a seam, and use for the laundry try-out.

• • • • • • •

Be sure the main material and the trimming also are subjected to the same treatment.

• • • • • • •

Special care should be taken when laundering any dress or garment for the first time. Do it very cautiously. Beware of using too hot water.

• • • • • • •

Some textiles will run if boiling, or nearly boiling water that will wash without any trouble whatsoever, in luke warm water.

• • • • • • •

Also use a mild soap, one of the white soaps, not yellow, or some preparation of soap that comes baked, or in small bits. Put a small amount in the water and have it entirely dissolved before immersing the garment.

• • • • • • •

Rinse in water that is of like temperature as the first wash-water. Some women always add a little salt to the water in which colored materials are first washed, in order to set the color.

• • • • • • •

The hanging of colored materials on the line is another matter of importance. See that each portion of a garment having a contrasting color does not dry against another, and that the drip of water from a strong color falls clear of the other goods.

• • • • • • •

Usually such strong tones are found in trimming of collar and cuffs. It is easy to hang the garment so that these parts are down lower than others.

• • • • • • •

Iron colored goods before it needs sprinkling. Sometimes one color lying damp against another after sprinkling will discolor another, whereas if the garment was laundered without having to be dampened no discoloration would occur. If it has to be dampened lay a piece of plain white goods between folds where a strong color would come against a contrasting one.

• • • • • • •

Steam will occasionally make colors run that have stood every previous test. Iron some inconspicious part first. If the steam makes the colors run, it will be necessary to iron the article dry, or to put a slightly dampened cloth over the dry garment and hurriedly press over it, quickly taking it off and completing the ironing without this cloth.

The first competitor to arrive at Les Sables d'Olonne in the fifth day of the round-France bicycle race this year was given a shower of kisses by local girls.

While imprisonments for criminal offenses in England are the lowest on record, those for civil processes are the highest since the World war.

That Body of Yours

By James W. Barton, M.D.

A LITTLE KNOWLEDGE SAVES A LIFE.

Three boy scouts were playing near a river when one of them fell in. Instead of running for help and thus losing valuable time they secured a large branch drove a couple of nails in at such an angle as to improvise a hook, and were able to fish their companion out of water.

He was unconscious, but despite the fact that there was no scout master or leader, present they persevered with the Schafer method of resuscitation for a number of minutes until the boy revived and was later able to go home.

Naturally their parents and townsfolk were proud of them and their act was suitably recognized.

And yet this act of resuscitation which can be learned in one or two minutes is still unknown to thousands of people. They may still have in their minds rolling the victim over a barrel to get the water out of his lungs, then one helper works his arms upwards and downwards to force air into his lungs whilst letting him lie on his back, with another helper trying to hold his tongue out so that it will not fall back and shut out the air, and still another helper or two rubbing his hands and feet to promote circulation.

By the Schafer method, and I speak of it every year, one person can do the entire work of resuscitation.

The patient—apparently drowned, and the method applies to a victim of electric shock, or suffocation—is first placed face downwards on the ground.

Place yourself astride or on one side of the patient's body, in a kneeling position, facing his head. Placing your hands flat on the small of his back, the thumbs nearly touching and the fingers spread out on each side of the body over the lowest ribs, lean forward, and steadily allow the weight of your body to fall over on them, and so produce a firm downward pressure, which must not be violent.

(By this means the air, and water, if there be any, is driven out of the patient's lungs.)

Immediately thereafter, swing backward releasing the pressure but without lifting the hands from the patient's body. Repeat this forward and backward movement (pressure and relaxation of pressure) every four or five seconds.

Keep this up for hours if necessary, if there are others to relieve you from time to time.

During this time others can apply heat to extremeties, or rub the hands and feet to promote warmth.

This is acknowledged to be the most efficient method of resuscitation. This little bit of knowledge may save a life as it did when used by these twelve to fourteen year old boy scouts.

CANADIANS URGED TO BUY HOME MADE PRODUCTS

MONTREAL, Que., Aug. 14 (C.P.).—In view of existing unemployment, the Canadian people are urged to buy Canadian manufactured goods and products when available, in a resolution adopted yesterday at the annual convention of the Native Sons of Canada. Another resolution suggested that married women whose husbands are earning adequate means for the maintenance of their families should be urged to relinquish their positions pending readjustment of the present conditions.

Grocers Stage Late Rally To Win 7-5 Decision

SMART FIELDING IS FEATURE OF SOFTBALL TILT

Harrisons Tie Count in Sixth and Defeat Westclox in Next Two Frames.

PITCHERS' DUEL.

Foley Provides Feature Catch of Fray By Taking Playford's Long Fly Near Net.

Going into the sixth inning four runs down Harrison's shoved over four runs in that frame to tie it up and then punched out a 7-5 win over Westclox in the next two innings.

The game was a smart affair and kept the fans on their toes all the way. Smart fielding and good pitching featured the struggle.

Montgomery and Darling hooked up in a pitcher's duel, the former getting the best of the argument by virtue of superior support. Darling struck out three and walked one, while Montgomery walked three and had no strikeouts.

The feature catch of the fray went to Foley, when he took Playford's long foul fly right near the screen. Vinette also had a hard catch.

Westclox Open Scoring.

The Westclox grabbed the first two runs of the game in the third. Bob Kitchen got a life on Calladine's error. He scored a minute later on Darling's triple. Dorrington went out, Parsons to Smith. Foley was safe on Smith's error, Darling counting. Goodson singled to center, Foley pulling up at second. Dobson took White's foul fly, and Curry filed out to Vinette.

The Clockmakers got two more in the fourth. Fowler opened by flying out to third. Russ Kitchen's fly was taken by Montgomery. Bob Kitchen cut a single to right. Darling was safe when Willshaw tried to get Kitchen at second and failed. Dorrington was safe when Willshaw threw low to first, R. Kitchen scoring. Calladine lost Foley's roller and the bases were filled. Darling scored when Parsons let Goodson's grounder get by. White fouled to Dobson.

The Clockmakers got their last run in the fifth on a single by Curry and a double by Fowler.

Harrison's counted one in the fourth when Calladine hit a home run.

The Storemen got four more in the sixth. Lebarr was safe on Fowler's miss. Montgomery singled to left. Smith bunted one to Darling and when the pitcher fumbled the bases were loaded. With a double play in sight, Russ Kitchen lost Calladine's drive, Lebarr counting. Parsons hit to Darling and Montgomery was out at the plate. Vinette filed out to Goodson, Smith scoring after the catch. Willshaw struck out but White missed the third strike, Calladine counting. Parsons scored on a wild pitch. Playford ended the inning by flying out to Curry, who made a nice catch.

One more for Harrison's was registered in the seventh when Dobson singled to left, advanced to second on an overthrow and scored on Smith's hit to left, Goodson making a bad peg to the plate.

The final run was scored in the eighth. Willshaw walked and was sacrificed to second by Playford, scoring on Dobson's hit.

Box score:

Westclox:	AB	R	H	PO	A	E
Dorrington, 3b	5	0	0	4	2	1
Foley, lf	3	0	0	3	0	0
Goodson, cf	4	0	1	3	0	0

OFFICIAL ENTRIES FOR BRITISH EMPIRE GAMES

Some idea of the manner in which the members of the British Commonwealth of Nations, known as the British Empire, have entered into the spirit of Empire Games is to be gained from the following summary of sports each nation or dependency is competing in:—

England—Athletics, boxing, wrestling, swimming, rowing, lawn bowling.
Scotland—Athletics, boxing, swimming, lawn bowling.
Wales—Athletics, swimming, lawn bowling.
Ireland—Athletics, lawn bowling.
Australia—Athletics, swimming, rowing, boxing, and possibly lawn bowling.
New Zealand—Athletics, swimming, wrestling, rowing, lawn bowling.
South Africa—Athletics, swimming, boxing, lawn bowling.
Newfoundland—Athletics, boxing.
Bermuda—Athletics, swimming.
British Guiana—Athletics, swimming, rowing.
Canada—Athletics, rowing, swimming, boxing, wrestling, lawn bowling.

LEAFS DEFEAT SKEETERS 11-2

Orioles and Montreal Royals Continue to Advance on Leading Redwings.

HAUSER ADDS TO HOMERS.

The bats of the Baltimore Orioles and the Montreal Royals are singing a song of base hits that is anything but musical to the ears of the Rochester Redwings.

The chase is still a hind one with emphasis, but the Orioles yesterday batted out their second straight victory over the Buffalo Bisons, 10 to 5. As Rochester dropped a night decision to the Newark Bears, 2 to 3, the second place Orioles climbed a game closer to the top and Montreal pulled one lap closer in third place by belting Reading into subjection, 16 to 9. It was Montreal's sixth victory.

Toronto Maple Leafs made in unanimous for all but Rochester in the first division by trimming Jersey City, 11 to 2 in a night game as Gibson held the Skeeters to four hits. Toronto, in fourth place, is well within striking distance of Montreal.

Joe Hauser again was the hero of the Baltimore attack on the Bisons, two of his four hits going for home runs that lifted his total for the season to 52. A free swinging rally that brought five runs in the eighth and six in the ninth gave Montreal a win over Reading. Urbanski got four hits.

Thomas pitched fine ball enabling Newark to beat the league leaders. Tex Carleton held the Bears to 7 hits but could not get enough hits for the two runs needed to tie and win.

Softball Notes.

Sugar Bowl and Belmonts meet tonight at Central School grounds in the second game of the playoff series. Belmonts have to win tonight's battle to stay in. A loss tonight gives the Sugar Bowl the first half championship.

Sugar Bowl are out to make it two in a row, and will send Forsythe right back at the Clubmen with Simmons and Duggan in reserve. Belmonts will use either Galbraith or Delahaye.

The game will start at 6.30 sharp.

Friday night will bring Westclox and Harrison's together, and if last night's game was any criterion of Friday's night's fixture a record crowd should be on deck.

CHICAGO CUBS BADLY BEATEN

Brooklyn Hammers Five Bruin Hurlers in Staggering Batting Assault.

GIANTS WIN IN 10TH.

As long as the Brooklyn Robins can keep on slugging the ball, the collapse of their pennant hopes, which has been rumored every time they have lost more than one or two games in a row, seems unlikely. Supporters of their rivals, principally the Chicago Cubs, were beginning to celebrate the Brooklyn downfall, after the Robins had lost five straight games and had dropped the opener of the current "crucial" series as Chicago won its sixth straight.

But the Robin slugging reappeared yesterday and showed that there still is plenty of life in the flatbush team. A game behind and apparently headed for a worse position, the Robins overcame all their weaknesses by the sheer power of their bats and once more placed themselves in a virtual tie for the lead. To-day the Cub margin is only two points instead of the hoped-for two games as the result of the 15 to 5 beating inflicted by Brooklyn yesterday.

In contrast to Tuesday's overtime game, Brooklyn went out yesterday early in the game and assaulted Guy Bush for enough runs to win in the first three innings. Bush fell before the booming Brooklyn bats in the third frame, which saw the Robins pile up a 5-0 lead. Four successors were only so many victims as the Robins hammered out 18 hits for 24 bases. The Cubs made 16 blows, one of them Hack Wilson's fourth home run, but with little effect.

While the warfare of the Titans was going on, the New York Giants were having about as much difficulty in their attempt to stay on the heels of the leaders. The Giants had to come from behind in the ninth and score two runs to tie the Cincinnati Reds in the opener of their series. And it took a homer by Fred Lindstrom with Critz on base in the tenth to give them a 7 to 6 victory. As rain at St. Louis kept the Cards and Boston idle, the victory enabled the Giants to pick up a half-game lost through Tuesday's idleness. The same rain benefitted the Pittsburgh Pirates, who gave away four runs to the Phillies in the first inning, then came from behind to win their fourth straight 8 to 4.

SIX TITLES ARE WON BY ONTARIO MITT SLINGERS

Newly Crowned Champions to Represent Canada in British Empire Games.

STARTING SATURDAY.

Bouts Under Auspices of C.A.B.A. Productive of Keen Competition.

HAMILTON, Ont., Aug. 14. (By The Canadian Press).—Emerging at the top of their divisions after a fistic hurricane of three nights' duration, eight boxing champions were crowned here last night at the concluding session of the Canadian amateur championships that were productive of exceptionally keen competition. So numerous were the entrants of outstanding ability that the old axiom of "only the fittest shall survive" truly describes the progress through the tournament of the new title-holders who will be further honored here next week when they represent the Dominion at the British Empire boxing matches.

There is little doubt but what the new monarch of Canadian amateur boxing will make a good showing against competitors from other parts of the commonwealth. All possess the necessary combination of hard hitting and cleverness that is needed in the making of champions, and will be no surprise to critics, who have followed their progress if this splendid band of athletes capture the boxing laurels for Canada next week.

Six For Ontario

Ontario, represented in the championships by the largest number of contestants, won six of the titles, while the province of Quebec with 12 entrants secured two amateur crowns.

William Skimming, Silverthorne A. C. Toronto, won the heavyweight class without donning a glove. This occurred when the other competitor, Al Pitcher, Hamilton, withdrew from the heavier division, after winning the light heavyweight title by beating the elongated Jim McLeod, Dalhousie University, Halifax.

The middleweight final did not produce the battle expected. This was because the finalists, Teddy Phillips, Premier A. C. Toronto, and Sammy Lougert, University of Toronto, had too much respect for the dynamite each packed in his right mitt. They opened up in the final round and the large crowd cheered them to the echo as they stood toe and toe and slugged it out. Phillips, a superior boxer and straighter puncher, was awarded the decision by a narrow margin.

Manitoba barely missed securing a title when debonair Georgie Holden, Winnipeg, one of the greatest stylists in Canadian boxing, and one of the hardest hitters in the lightweight ranks, lost to Cosmo Ganzano, Toronto. The Manitoba champion showed better defensive ability and was the harder hitter, frequently rocking the Toronto Italian with straight lefts to the head and setting him back on his feet with jarring rights to the body, Canzano's best asset was a round arm swing to the face that Holden generally blocked. The fans showtheir dislike over the decision by loudly razzing every official that stepped into the ring after the bout.

Best in Featherweight

Paul Mecteau, representing the National A. A. of Montreal, proved much the best in the featherweight class and stamped himself one of the brainiest boxers in the tournament by completely outboxing two strong opponents last night. In the semi-final he defeated a slugger from Quebec, Andy Dunn, while in the final he made Jimmy Fisher of Hamilton miss frequently and had the local red head on the verge of a knockout as the bout ended.

Another Montrealer John Kellar, won the bantam weight title by cleverly outboxing the slugging Roy Hamilton from Timmins, while Ross Golloway, St. Thomas took the flyweight crown by outpointing Lefty Gwynne, Toronto in the semi-final and Harry Gerson, Montreal, Quebec champion in the final.

Howard Williams, Kirkland Lake defeated two sturdy hitters to add the Canadian welterweight championship to his Ontario crown. In the semi-final he outfought Joe Dunn, one of the smartest boxers in the Quebec City contingent. In the final he outboxed and outslugged the hard hitting Tony Pennick, Hamilton.

18TH VICTORY FOR EARNSHAW

Three American League Leaders Fail to Produce Any Change in Standings.

3RD STRAIGHT FOR MACKS.

The three American League leaders failed to produce any change in their standing, Philadelphia, Washington and New York all coming out ahead of their Western rivals. The champion Athletics made it three straight over Cleveland by a 7 to 2 score as George Earnshaw won his 18th victory of the year. Roxie Lawson, rookie right hander, made a good battle of it until an error spoiled his major league debut.

Washington's Senators piled up an early lead of five runs on their old mate, Garland Braxton, then kept the Chicago White Sox from turning their 14 hits into runs to win by a 7 to 4 count. The New York Yankees put on a similar performance, scoring enough runs in the first five frames to offset a sudden weakness of the part of George Pipgras and defeat Detroit, 10 to 8. The Tigers got to Pipgras in the sixth, to score six of their runs, but Lou McEvoy, fourth Yankee pitcher, finally stopped them short of a tie. Detroit also used four pitchers.

WIN EXPECTED BY GIRL RACER

Betty Carstairs Plans In Her Last Attempt to Take Trophy.

BOATS ARE GROOMED

WINDSOR, Aug. 14.—Miss Betty Carstairs, the English girl who has twice failed to regain the Harmsworth trophy, symbolic of the world's speedboat honors, is coming back this summer to the Gold Cup races on the Detroit River, more determined than ever to take the trophy back to England.

Faster Than Ever

This word was brought to Windsor yesterday by Captain Campbell Marshall, manager for Miss Carstairs, and noted racer in his own rights.

Miss Estelle IV and Miss Estelle V, the boats which will be used this year in the contest with Gar Wood and his Miss America boats, are said to be faster than ever, and Miss Carstairs counts on making her supreme effort to regain the trophy for England at the races this year.

J. Lee Barrett, secretary of the Yachtsmen's Association of America, and Captain Marshall were guests at the weekly luncheon of the Windsor Rotary Club yesterday, and after the meeting discussed the coming races with several members of the club.

Her Last Attempt

Miss Carstairs has stated that this will be her last year to compete for the trophy unless she wins, and Captain Marshall said she was quite determined in her views on the subject, but Mr. Barrett said that he believed she might try again next year, whether she wins or not.

Captain Marshall lost his passports in a fire recently at Gravenhurst, Ont., where Miss Carstairs is making her headquarters for testing her boats, and while he was in Windsor, Mr. Barrett was assisting him in obtaining new passports or suitable copies so that he could enter Detroit without trouble.

The passports were issued to-day by A. R. Stone, British Vice-Consul, Detroit.

STEVENS TO BE OPPOSED

CRANBROOK, B.C., Aug. 13. (C.P.) Opposition to Hon. H. H. Stevens, Minister of Trade and Commerce in the by-election in East Kootenay, appeared yesterday. William Robson, dismissed from the Provincial Labor Bureau on Monday, has announced he will oppose Mr. Stevens at the by-election as an Independent Labor candidate.

THISBE GETS STRANGLEHOLD ON CUP BY VANQUISHING QUEST

Defending Craft Takes Lead at Start and is Never Headed.

OVER CALM SEA.

ROCHESTER, N.Y., Aug. 14 (C.P.)—With but one more victory necessary to clinch possession of the Canada's Cup, William P. Barrows' Thisbe to-day faced the test of a windward and leeward course for the coveted emblem of fresh water sailing yacht supremacy.

So far both the eight-metre crafts have had an opportunity of showing their wares in light and heavy weather, yesterday's contest going to the American defender by a margin of nearly two minutes in a five-knot breeze that freshened to a twelve-knot wind before the first round of the triangular course off Summerville was completed.

Thisbe won two of the three starts in good style, being forced out of the second race when a main spreader broke three minutes after the starting gun, cracking the mast.

A victory to-day will keep the coveted Canada's Cup in the possession of the Rochester Yacht Club, which has successfully defended the trophy twice in succession, winning in 1903, 1905, and 1907.

Germany plans to increase its present government contribution of $103,550,000 to the unemployment insurance fund.

The Law Society of England has drawn a measure which they wish to be made a law, compelling every attorney to join the society.

Clear eyed, tense with the thrill of sport, they seek its cooling flavour

THEY RIDE WITH VIGOR . . . they work with vigor . . . they play with vigor. Sportsmen all . . . lean . . . sun-tanned . . . active . . . they find refreshing vigor in the taste of "Canada Dry." Like the game well played, it has stimulation . . . like the quality of sport itself, it has basic excellence.

The very foundation of "Canada Dry" is "Liquid Ginger"—which is made from selected Jamaica ginger root by a special process. This process is exclusively controlled by us and, unlike any other method, retains for "Canada Dry" all of the original aroma, flavour and natural essence of the ginger root. This is the reason for the basic excellence of this fine old ginger ale.

It comes in convenient cartons of six or twelve bottles. Order "Canada Dry" today.

Kiwanis Evens Series With Belleville Moose

Juniors Win By 10-4

Local Kiwanis Team Hit in Pinches to Win the Second Game of Playdowns.

GOOD HURLING.

Winner of Series to Meet Toronto in the Next O.B.A.A. Round.

BELLEVILLE, Ont., Aug. 14 (Special to The Examiner).—Peterborough Kiwanis handed Belleville Juntor Moose a 10—4 trimming at the Agricultural Park yesterday afternoon and knotted the series with the local kids, making a third game necessary which will be played at Deloro on Saturday afternoon.

The Petes had all the better of the argument yesterday, although the score is not exactly an indication of the play, as they scored five of their runs in the last inning. The Moose made a vain attempt to pull the game out of the fire, but their efforts were nullified by Cripps' masterful pitching.

Both teams played smart ball throughout, and the spectators were not at all disappointed with the afternoon's entertainment. The Belleville team was lamentably weak in the pinches while the Petes clouted the apple fore and aft where hits meant runs. The locals left the runways populated several times when a timely wallop would have meant a lead for them.

Manager Jack Deannard of the Kiwanis sent Wood to the mound, and he pitched effective ball until the sixth when he weakened and Cripps was sent in to relieve him. It was a move in the right direction, as the latter had the Moose eating out of his hand for the remained of the route.

Fourteen Struck Out

Woods struck out seven men, walked four and allowed but five hits. Cripps, who went to the mound when his predecessor showed signs of weakening, fanned the same number but the Moose were able to nick him for only three hits. Manager Walter Gerow of the Moose despatched Young to the hillock and he was not up to his form of previous games and was touched freely, the Kiwanis piling up eleven hits while he sent seven back to the bench via the strike-out route. Young was inclined to be erratic at times and issued five passes. While he was not effective on the slab he accounted for all of Belleville's runs with two nice hits. McKinnon, however, was the big hitter of the afternoon, lining out three well-placed singles. Sproats was the big noise with the willow for the Petes, pounding out three hits, while Dallin and McCullough each had two.

Mott supplied the fielding feature with a nice running catch in the fourth, while a double play by the Belleville team brought the fans to their feet. The Petes opened by getting a run in the first inning when Whatley walked. Foley was safe on Morgan's error and Sproates singled, counting Whatley. McKinnon led off in the Belleville half by doubling but he was left stranded on second.

The Kiwanis gained a two-run lead in the second when Wood singled and counted on a passed ball.

The Moose, however, retaliated in their half of the third when McKinnon walked, Barriage singled and Young promptly drove out a long liner to centre field, scoring both of his teammates.

Although they had a nice opportunity to increase their margin with the bases full in the fifth the Kiwanis squashed the menace. The visitors were not to be denied and in the sixth Foley singled, Sproat doubled while Saunders' terrific blow to center field sent both runners scampering over. McCullough came through with a single and Saunders sounded the tochin for another counter.

The locals tried hard in the seventh and McKinnon after singling, scored on Young's hit to center. The Kiwanis put the issue beyond doubt in the ninth by counting five runs. Hits by Dallin, Foley and Sproat figured prominently in the scoring while Booth and Morgan made misplays after two were down which assisted the Kiwanis materially. McKinnon singled and went home on a sacrifice fly in the ninth and Cripps forced the next two men out, to end the ball game.

Summary

Bases on balls—Wood 4, Cripps 2, Young 5. Two base hits—Sproat, Saunders, McKinnon, Young. Passed balls—Darrach. Wild pitches—Young 1. Struck out—By Young 7, by Woods 7, by Cripps 7. Left on bases—Belleville 11, Peterborough 8. Stolen bases—Watley 2, Dallin 2, Sproat, McKinnon 5, Barriage, Young, Mott.

Boxing Champions.

HAMILTON, Ont., Aug. 14. —(By the Canadian Press.)—New Canadian champions crowned at the final session of the Canadian amateur boxing championships here and who will represent Canada at the British Empire matches next week are as follows:

Heavyweight— William Skimming, Silverthorne A. C., Toronto.

Light heavyweight — Al Pitcher, Polytechnic AC., Hamilton.

Middleweight—Teddy Phillips, Premier A.C., Toronto.

Welterweight — Howard Williams, Kirkland Lake.

Lightweight—Cosmo Canzano, Central Y.M.C.A., Toronto.

Featherweight—Paul Mecteau, National A.A., Montreal.

Bantamweight— John Keler, Montreal.

Flyweight — Ross Galloway, St. Thomas.

O.A.L.A. WILL DECIDE DOES BRAMPTON WIN

Excelsiors Outscore Oshawa But Winning Goal is Subject to Dispute.

OSHAWA, Aug. 14—The Ontario Senior A lacrosse championship is very much undecided. In fact, it is so undecided that right now neither team has been awarded the championship, and yet no announcement has been made as to whether or not there will be a third game on Saturday in Toronto. The whole matter will be threshed out at a special emergency executive meeting of the powers that be in the O.A.L.A. this evening, in Toronto.

The question hinges upon the legality of a goal scored by Brampton right at the end of the first five minutes of overtime at the Motor City Stadium last night. The goal was registered just as the gong sounded to change ends, and there is a nice little point involved as to whether the ball reached the net before the gong sounded or just afterward. Upon that decision hangs the awarding of the championship to Brampton.

McKELVEY LIKELY RETURN TO SQUAD

Queen's University To Be Strong Contender For Football Honors This Year.

KINGSTON, Aug. 15 (Special to The Examiner).—Queen's University team, known as the Tri-color, will again be a strong contender for college football honors. Definite announcement is made that "Gib" McKelvey, star half-back of the days when the Tri-color marched to four straight championships, and who was barred because of the four-year rule, will return to the gridiron and will likely be the flying wing, taking the place of "Bubs" Britton. McKelvey has been working hard every day during the rugby season for the past three years and is likely to be in fit shape for the coming season. It is believed that Harry "Red" Batstone, coach of the team, will not get into action this Fall. Batstone is in fine physical shape and is playing baseball all Summer, but it is believed that he will stay on the sidelines this Fall. There are many who are urging the sorrel-topped back-field start to get into the moleskins again and appear on the back division for the Tri-color.

CHAPMAN'S DEMOTION CAUSES DISCUSSION

Varied Opinions Expressed Over Dropping of Captain of Cricket XI.

LONDON, August 14. — The dropping of A. P. F. Chapman, who captained the English cricket eleven so successfully in Australia in 1928-1929, from the English test team by the Selection Committee evoked a chorus of varied comment from yesterday's press here.

P. F. Warner, writing in the Morning Post, says nobody will feel more sympathy with Chapman than the selectors themselves, but remarks that sentiment cannot enter into the choice of the English eleven and the individual cannot be considered.

"Under Wyatt we can rely on sound, steady generalship,' says Mr. Warner.

The Daily Herald believes that the overthrow of Chapman at this time after he had won the first match of the tests in England this summer appears perilously like an exhibition of hysteria. "The change," says the Herald writer, "is unwise, unfortunate, and deplorable."

A. E. R. Gilligan, of the News-Chronicle, also believes a last-minute change of captains unwise. Trevor Wignall, writing in the Daily Express, terms the change an "extraordinary and highly sensational decision which may be justified by the result, but just now looks entirely foolish."

Chapman himself was interviewed by the Daily Mail and he said: "I am frankly at a loss to understand why I have been dropped. If the real reason is that England's batting needs strengthening, I might, perhaps, be excused for indulging in a rueful smile, though a smile of any kind is just now farthest from my thoughts. But with all my heart I wish Wyatt and the team success."

GAME SLATED FOR SATURDAY

Bailieboro and Alderville to Meet in Initial Game of Northumberland Play-offs.

MUCH INTEREST.

BAILIEBORO, Aug. 14.—(Examiner Correspondence).—The initial game in the play-offs between Bailieboro and Alderville Indians, in the Northumberland League, is scheduled to be played on the local ball diamond on Saturday afternoon.

Much interest has been created throughout the community since the local team has gained second place in the Northumberland League and especially since last week's game when the boys took the first game from Hastings, that the Hastings nine have lost this season.

Bailieboro team showed such excellent form when they trounced the visitors from the east, last week, that it is thought by the fans of the village that the local boys can now win the Sam Clark Trophy.

Yield Below Average.

Threshing is now general throughout the district. The grain this season is yielding considerable below the average in the major portion of crops.

Wheat is running from twenty to thirty bushels per acre. Alsike from three to six bushels per acre. Peas from fifteen to twenty bushels per acre.

Oats and barley are an average crop and promise to yield in many cases even better than last season's crop.

ENGLISH ATHLETES ARRIVE IN CANADA

Sixty-three Aspirants to Compete in Empire Games at Hamilton on Saturday.

MONTREAL, Que., Aug. 14. (By The Canadian Press)— Sixty-four English athletes, sixty-three of whom will compete at Hamilton on Saturday, arrived this morning on the Canadian Pacific liner Duchess of Atholl. The sixty-fourth, who will not be able to compete, was Rothwell, who had the misfortune to tear a cartilage in his knee during a practise wrestle when he fell off the mat. He was quite cheerful when he landed and humorously suggested that the plaster cast in which the injured leg was enclosed by Dr. R. D. Owens liner surgeon, could be used for autographs. The party, which included boxers, wrestlers and the track team from Great Britain left for Hamilton at 9.45 a.m., daylight saving time.

Lord Burghley, Olympic hurdles champion, who is entered in the 220 and 440 yard events, arrived with the party. He told reporters that he was feeling very fit and looking forward to the meet.

PREPARE SHAMROCK FOR YACHT TESTS

Workmen Stripping Outfit to Meet American Cup Defender on September 13.

NEW LONDON, Conn., Aug. 14.—(CP)—The task of preparing the Shamrock V, Sir Thomas Lipton's newest challenger for the America's cup, began today at the Electric boat work yards. She is the fifth challenger the doughty Sir Tom has sent across the Atlantic in quest of a trophy won by the yacht America in 1851. Originally the cup cost 100 guineas. Today, if it were not for the "Old Mug's" glamorous history, no cautious pawnbroker would loan $50 on it. Yet four or five millions will have been spent this year because of it when Sir Thomas sails away in the fall, victorious or numbering his fifth defeat.

Although she was beset by head winds throughout her voyage of approximately 4,000 miles, the Shamrock dropped anchor here last evening after a 26-day land-to-land passage between England and the United States. Her time was a day better than that of the Shamrock IV, the challenger which was defeated by Resolute and Charles Francis Adams, present secretary of the navy, ten years ago.

All superfluous fittings must be stripped from the Shamrock V before she is ready to cross the starting line off New Port R. I. Sept. 13, against a defender yet to be selected from four American candidates. Those fittings include living accommodations used by the crew on their trans-Atlantic voyage.

Sir Thomas is expected to arrive in New York on a liner next Saturday. His private yacht, the Erin, will steam there to meet him and bring him here. He is reported to have rented a cottage just outside of New London.

Boat yard officials estimate that they will have the Challenger ready for the water again in a week or ten days. While she is out, her underbody will be cleaned and polished to reduce a minimum resistance to the water. Shamrock V is wood planked. Whirlwind is the only American candidate wooden planked. Enterprise, Weetamoe and Yankee all are plated in bronze.

HIS EYE ON BALL'S EYE

More than 400 marksmen from all over Canada are in camp at Ottawa shooting for the right to represent Canada at the Empire meet at Bisley next year. Most of 1930's Bisley team which did so well at Bisley this years, are among those competing. C. S. M. "Bill" Hawkins, C. S. M. George Emslie, and Lieut. Desmond Burke, who have represented Canada for many years, are expected to come through as usual, although surprises are always in order. The Connaught Rangers are in great shape for this year's shoot, and it is hoped that weather conditions will hold out favorably, since the matches are expected to be closer than ever. The Western provinces, particularly Manitoba and Alberta, have sent a very strong contingent and it would occasion little surprise if they took quite a few of the twenty places on the Bisley team. Early in the year, it was thought that shooting would find a place on the British Empire Games at Hamilton, and it was a disappointment to many marksmen that it was not included owing to lack of facilities. This is to be regretted; as shooting is becoming more and more popular as a sport throughout Canada. As a sport, it has even more fascination than golf, although it requires a great deal more skill and experience. Among those present at Ottawa is Mrs. Neal Dow, who accompanied the Bisley team to England this year and did some remarkably fine shooting, being eclipsed only by the phenomenal win of the King's Prize by Miss Marjorie Foster. Each year finds more and more women taking part in the matches, and they are certainly giving the men a great run for their money.

ARMATURE WINDERS ELIMINATE TESTERS

Victors Cop Place in Play-offs of C.G.E. Inter-department Softball League.

The Armature Winders advanced to a place in the play-offs of the C.G.E. Inter-department Softball league last night, when they won a nip-and-tuck battle from the Test men by the score of 7—3, to eliminate the latter from the race.

The game was a fast fixture from start to finish with both teams playing airtight ball., and each secured a double play. Nobles, on the mound for the Testers, had difficulty keeping the ball down and as a result passed two both of whom managed to score. He struck out four.

Powell twirled for the winners and showed fine control, fanning three, and kept the hits well scattered. Perry at second and Hambly catching, were the outstanding performers for the winners.

The teams:

Test.—Emery, c; Woodland, ss; McKeagan, 2b; Glassford, 1b; Nobbs, p; Greenlaw, 3b; Harmer, cf; Hadlock, lf; Holgate, rf.

Arm. Winding—Powell, p; Calladine, ss; Hambly, c; Perry, 2b; Frost, 3b; Henry, 1b; Millard, lf; Reader, rf; Fraser, cf; McGillen, rf.

Umpires—Osterland and Gora.

CAMPBELLFORD MIDDLE SCHOOL RESULTS

CAMPBELLFORD, Aug. 14. — (By Examiner Staff Correspondent.) — The result of the Middle school, Campbellford High school this year shows that that institution has again maintained the high standing that is part of its tradition. Out of the whole body, over eighty-five per cent of the students passed.

The school which not only caters to the town of Campbellford, but to the county as a whole, has a staff of eight experienced teachers with E. H. Grieg as principal. This year, Miss M. Dickson, B.A., has been added to the staff and will bring to the students her knowledge as a specialist in English and History.

The special scholarships show the following results:

Medal for highest standing in the Third Form—Grant Meiklejohn.

Bemersyde Chapter Scholarship in English—Ferne Weatherill.

A. L. Riendeau Scholarship in Latin and French—Ruby Townsend.

Literary Society Scholarships—

History—Franklin Linton.

Mathematics—Ronald Richardson.

In the following results the standing of the pupils is signified as follows:

First Class Honors, (75 to 100)—I.
Second Class Honors (66 to 74)—II.
Third Class Honors (60 to 65)—III.
Pass (50 to 59)—C.

Mr. Ollie Baskin has moved into the Rahal's house on Peterborough road, Miss Olive Stephenson taking possession of the home vacated by Mr. Baskin on Queen street.

MUFFETS

Joy! for Breakfast

CHILDREN take Muffets eagerly even on hot days when they "don't want any breakfast". The delicious, natural flavour of the whole wheat tempts them. Its food value satisfies them ... makes them ready for a day at work or play.

Serve with berries or fruit, fresh or cooked, or just with cream. A fine cereal dish for everybody on hot days. Get a package and see.

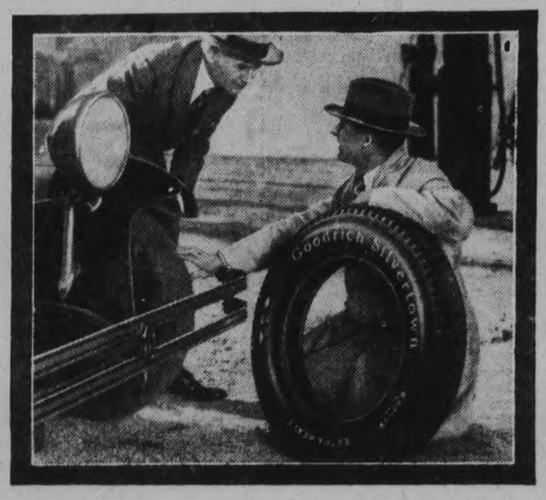
IRRADIATED with the sunshine vitamin D, which assists in building strong, straight bones . . sound teeth.

MUFFETS
A product of The Quaker Oats Company

1201

The county is building a cement bridge over the Ouse River on Elm street. Work has been suspended for the past few days waiting for material, but will be resumed this week.

Do as we did . . .
it pays to get Tire FACTS



There are 7* reasons why we sell Silvertowns

THE PRODUCT ITSELF
1 Made of stretch-matched cords, water-cured for toughness . . . a proven tread designed for traction and long wear.

REPUTATION
2 Goodrich Silvertowns are backed by the reputation of one of the industry's oldest and largest tire manufacturers.

SERVICE
3 Years of experience and unsurpassed research facilities developed the outstanding Goodrich Silvertown Tire. Naturally, this tire attracted a high-class Dealer Service Organization.

PERFORMANCE
4 Goodrich Silvertowns have proven their performance under all kinds of driving conditions.

MILEAGE
5 Mileage facts, proven by actual road service, are influencing more and more people every day to standardize on Goodrich Silvertown Tires.

VALUE
6 Thousands of motorists driving cars similar to your own state that no other tire gives you a better mile per dollar value.

DEPENDABILITY
*7 The quality of Goodrich Silvertowns . . . the reputation of the manufacturer . . . the service and performance . . . mileage records . . . all these combine to give you DEPENDABILITY in Goodrich Silvertown Tires.

The Goodrich Silvertown made in standard and extra heavy sizes.

One of them is
Dependability*

WE stand back of the Goodrich Silvertown as the most dependable tire on the market, giving most for the money—bar none!

And behind every Silvertown sale stands the broadest guarantee—backed by the total resources of one of the oldest and largest tire companies in the world.

And no wonder . . Thorough grueling tire tests — more strenuous than you or we would ever give a tire—have indisputably proved that Silvertowns stand up under every condition and give thousands of extra miles of trouble-free service.

The famous Goodrich "water-cure" process toughens Goodrich tires *clear* through!

And Goodrich Dealer Service adds *extra* miles to tire life. Come in and see us. We will prove it to you.

NEW ANTI-TUBERCULAR VACCINATION LAUDED

OSLO, Norway, Aug. 14 (C.B. Cable) During discussion at the International Tuberculosis Conference which is meeting here, Dr. E. A. Watson, Canada's representative, to-day commented on the efficacy of Dr. Leon Calmette's anti-tubercular vaccination. Dr. Watson stated he had been able to obtain lesions of tuberculosis during experiments on animals conducted with strains of the Calmotte culture.

Dr. Watson, who is taking a prominent part in the conference, is director of research in the health of animals laboratory at Wrightville, Que., which is conducted by the Federal Department of Agriculture. He represents the Canadian Tuberculosis Association and the Dominion in general at the Oslo conference.

Log of the R-100

Thursday.
4.15 a.m.—Passed Anticosti Island.

ALDERMAN REVIEWS CASE OF GALT CHIEF

GALT, Ont., Aug. 14 (C.P.).—The case for the complainants against Chief of Police Boyd and a fellow-officer which was recently rejected by a Board of Enquiry here, was reviewed last night before a large meeting of citizens by Alderman J. M. Willard and J. H. Brewer, who sponsored the charges against the officers. The acquittal of the officers by the board was not fair, claimed Alderman Willard, who criticized the administration of Chief Boyd, who resigned after the probe.

TARZAN OF THE APES No. 36 (Metropolitan Newspaper Feature Service, Inc.) By Edgar Rice Burroughs

In the cabin by the beach two thoroughly terrified women crouched. The negress sobbed hysterically. The white girl, dry-eyed, was torn by fears and forebodings. They heard the almost incessant roars from the savage jungle. And now there came the sound of a heavy body brushing against the cabin's side!

Silence—then she distinctly heard an animal outside, sniffling at the door. A gentle scratching—the beast was trying to force an entrance. Now, silhouetted against the moonlit sky beyond, Jane saw the head of a huge lioness, its gleaming eyes fastened upon her in intent ferocity.

For twenty minutes the huge brute alternately sniffed and tore at the door. Then she launched her great weight against the timeworn window lattice. They saw a portion of it give away. Esmeralda fainted. The horrified prisoner within beheld one great paw....then its head thrust within the room.

Slowly the powerful neck and shoulders spread the bars apart.... The girl rose as in a trance, seeking with ever increasing terror some loophole of escape.... Suddenly her hand, tight pressed against her boson, felt the outline of Clayton's revolver. Quickly she leveled it....and pulled the trigger.

Thursday, Aug. 14. Supply your own containers. 3d-38-2548

"VAG" ASKS FOR JAIL SENTENCE

(Continued from Page 1)

guilty. I didn't tell the officer my name."

"Well, I'm not going to let you make a martyr of yourself," the Magistrate decided after consideration. "I'll let you go on suspended sentence."

"What's that?" the prisoner asked dubiously, but when it was explained by a lawyer he smiled

"That's alright with me."

Bore No Hard Feelings.

It was evident that he bore no hard feelings against anyone when he left the room. Passing the constable who made his arrest he patted him on the back and shouted a parting, "Be good—I'll know you the next time," much to the merriment of the spectators and the displeasure of court officials.

Charges Withdrawn.

Charges against a Douro man who, it was alleged, obtained a quantity of food from a Douro boarding house fraudulently, were withdrawn on the request of the informant, who was required to pay the costs.

The case of Fred Imming was once more adjourned until next Wednesday.

Great Britain entertained 500,000 foreigners last year.

Moer than 8,500 motorcycles have been registered in Russia.

Copenhagen, Denmark, has a building boom.

MAIN STREET TOPICS

Jabs and Jottings as Picked Up by an Examiner Reporter

COMIN'

Tomorrow, on the editorial page of The Examiner, the "Office Hound" will take possession of a new column. Readers in search of something new might do worse than keep an eye peeled for the "Office Hound" tomorrow, it is reported.

INSPIRATION?

The Junior Regatta at Chemong delayed the tree-sitting attempt there for yet another day. Whether or not any added virtue is to be gained from prolonged periods among the branches, is not known, but the fact is that each member of the Chemong tree-sitting trio succeeded in sailing off with a substantial share of the regatta prizes.

NO MORE "GYP."

No more Examiner reporters will have their fortunes told for $1.11, because George street's gypsies are no more.

Closed the night The Examiner's story appeared, the gypsy-fortune-telling establishment just south of Charlotte street, reopened again for a few days. Now the signs have been taken down, the drapes removed, and the door locked—it would seem, permanently. Whether or not the Romany custom was impaired by the alleged power of the press, is unknown .... But they have folded their tents like the Arabs, and as silently stolen away.

Perhaps they will seek other worlds to conquer.

SEA FEVER

A miniature regatta was held at the George street wharf this morning by a group of small boys with toy sailing ships. All sizes of model craft were present, and all sorts of rigging. Taking no chances with errant breezes, the boys had their little ships connected with the shore by quite prenomenal lengths of string. The breeze was good and the white sails and trim hulls made an attractive sight on the black waters. It was remarked that here was a splendid chance for some youthful organizing genius to form a model yacht club.

MINISTER ASKED

(Continued from Page 1)

a restricted area and fresh or cooked meats were not allowed to be sold as the shops then did not have the proper refrigeration plants. Since then the by-law has been amended several times allowing meat shops to be established on all except between Hunter and Simcoe.

Applications were made by W. F. Huycke and B. E. Park for the vacant city solicitorship.

The resignation of Judge Wearing from the position of the City solicitor was received.

Completion of the Trent Canal was discussed by the council and a motion was carried unanimously whereby Premier Bennett and the Hon. R. J. Manion, Minister of Railways and Canals will be asked to complete the canal as an unemployment measure. It was pointed out that the sum of $22,000,000 has already been spent on the canal and that $3,000,000 would complete it.

Senator Robertson, Minister of Labor wrote the council asking that information be supplied him as to the unemployed in the city and to what extent it is expected to be increased during the coming winter.

On motion of Aldermen Cotton and Phelan the township of South Monaghan will be invited to join the County of Peterborough. Mayor Denne pointed out that the residents of that township did their marketing and buying in this city and Peterborough was the logical county for that municipality to be in.

The sum of $85 offered by James Brown for the old brick house at the end of Simcoe street was accepted on motion of Cotton and Phelan.

Mayor Denne reported that the city had a most successful conference with the Minister of Health and other officials in regards the sewage disposal plant.

Those present were Mayor Denne, Aldermen Phelan, Cotton, Stocker, Holland, McIntyre, Macdonald McNab and Tuggey.

IN MEMORIAM

COX.—In loving memory of W. Kenneth Cox, who passed away August 14, 1929.
A bud that the Heavenly Gardener gave to us,
A pure and lovely child,
He gave him in our keeping
To cherish undefiled.
But just as it was opening
To the glory of the day,
Down came the Heavenly Gardener
And took our flower away.
—Lovingly remembered by Father, Mother, Brothers and Sister.

District Churches

ROSENEATH UNITED CHURCH

ROSENEATH, Aug. 13 (Examiner Correspondence). — An extra large congregation attended service in the United Church on Sunday evening, when Rev. R. W. Paton, B.A., delivered an excellent sermon. Taking his text from Ezra 3, verses 2 and 6, the speaker commenced his sermon by saying: In the opening chapter of this book we have an account of the return of the exiled Jew, from Babylon to Jerusalem. When they returned, after spending many years in exile, Jerusalem was a vastly different city. Their homes were destroyed, the market place broken down, the city walls demolished, and the temple razed to the ground. But they came back with the determination they would rebuild their city and restore it to its former position. When the exiled Jews returned to their city, now in ruins, they might have proposed rebuilding their homes or the market place or the city walls. We have no record of any such proposal. But we do know that someone said: Let us first of all, establish the altar of God. Let us put first things first.

There is a kind of building in which we are all participating, namely, the building up of character. For such building, God has made us personally responsible. Each day, by our very thinking, by our habits and by the choice we make, we are building up the important structure. How vastly important we should begin with the altar of God, making Jesus Christ the chief and corner-stone of this edifice. What a great lesson we can learn from these ancient Hebrew people who began to rebuild to their city by establishing the altar of God.

We can learn a second lesson from this incident—Build your altar until you can build your temple. The Hebrew exile, realizing they would be unable to finish the building of their temple for some time, began by building their altar.

Here we have a parable of life. In every great life, there are lofty hopes and high ideals which cannot be realized immediately, and very often are never fully realized.

The successful life is one where greater objective are always being attempted. Robert Browning said, "A man's reach should exceed his grasp, or what's a heaven for?"

Great men did not refuse to do anything, merely because they could not immediately rise to heights of fame. They never despise the day of small things. But often we hear men say, "I would like to serve the church or Sunday school if I only had the ability." No one has ever heard of a mother refusing to sing to her babe because she hadn't a perfectly trained voice, and when we have learned to love Jesus Christ with a sense of personal devotion we shall not refuse to serve, even although we cannot serve in a spectacular way. "Build your altar, until you can build your temple."

A third lesson emerges from this story. Keep the vision of the temple before you, all the time. This is what the Hebrew people did, as they were rebuilding their homes, and market place and city walls, they were thinking about the temple and planning for it.

It is like that with those who follow Christ. We struggle on in a world of sin, but we remember the gracious promise of Christ, of a temple not made with hands, the house of many mansions. This vision inspires and encourages us. We must keep the eye of our faith fixed upon Jesus Christ, the captain of our salvation, our guide and pilot, and if we do so, regardless of all dangers and difficulties, we shall reach the haven of rest in safety, the temple not made with hands. Keep the vision of the temple before you, all the time.

Service next Sabbath morning in the United Church at 11 a.m. Sunday school, 10 a.m.

DIED

GORDON.—Clement Gordon, age 81 years; residence 120 Lock street, died at 1.30 o'clock this morning. Funeral announcement later.

MINIATURE GOLF COURSE

You Will Get a Thrill Out of This New

Is the old game getting tiresome? Losing the "kick" in your golf? Fellow, what you need is a few rounds on the latest thing in skill-testers . . . our new Mite-Tee Green Golf Course. Say, you never saw such hazards! And lucky shots . . . well, why not come around to-day or to-night . . . maybe you'll be the one to break the course record!

Driving Too

Hit 'em hard . . . drive 'em straight! Boy, it's the thrill of the big fairway. Every kind of hazard and a target to drive at on our new unique Driving Range. Swing your pet clubs or ours, and all business cares vanish.

QUEST LEADING AT HALF WAY MARK

Farm Hand's Death Remains a Mystery

MAN'S FRIENDS DO NOT BELIEVE SUICIDE THEORY

Two Days Have Now Elapsed Since Recovery of Body From Moira River.

NO RAILWAY TRAFFIC.

Three Youths Still Missing Not Believed Connected With Case.

TWEED, August 15 (Examiner Staff Correspondent). — Over two days have elapsed since the recovery from the Moira River of the partly decomposed remains of George Graham White, twenty-three year-old Scottish farm hand, who had been missing from the home of his employer since Sunday morning last. Despite considerable activity on the part of Provincial Police Sergeant H. Storey of Belleville and Provincial Constable Fred Hill of Madoc, working in conjunction with Chief of Police W. S. Moon of Tweed, the circumstances attending White's death are still shrouded in complete mystery.

No Traffic on Sunday.

Accidental death, whilst a possibility, is not upheld. The Canadian National Railway Company's trestle bridge spanning the river, and near where the body was found in about four feet of water, is so constructed as to provide safe passage for pedestrians. That White was not struck by a train is also a safe assumption, presuming that death did take place on Sunday last, which in Coroner Dr Mather's opinion was the case, as the bridge is not used for traffic on Sundays.

Police and close friends of the deceased man strongly suspect foul play, although all attempts to establish a motive have so far proved abortive. The man had not an enemy in the world, it has been said.

The suicide theory has also been scouted, but is not countenanced by any of the dead man's intimate friends, who state emphatically that he was of a cheerful, though quiet, disposition and had no personal worries or troubles of which they were aware. He was a man who made new friends—who minded his own business. His reputation as a worker was very high.

Still Seeking Youths

Police are still seeking the whereabouts of three young men between the ages of 16-20 who are alleged to have smashed a boat at Thomasburg on Tuesday last, and who it was at first thought, may have been able to shed light on the mystery of White's death.

Police Chief Moon in conversation with The Examiner this morning, states he is not so confident now that there is any connection between the two affairs, thought he does not deny the possibility that there may be.

Dad's Love for Son Prompts Long Hike

MONTREAL, Que., Aug. 15.—(CP)—A father's love for his boy, James McInch, Jr., 15, who ran away from his home in Hamilton on July 21, was demonstrated when the parent having no money to pay his railway fare hiked to Montreal to look after his son.

DESPAIR GROWS FOR 46 MINERS HELD IN TUNNEL

Fears Upheld When Over 30 Rescuers Are Prostrated.

FUMES DEADLY.

Two-thirds of Shaft Cleared But Hardest Stretch is Still Plugged.

PRINCETON, B.C., August 15 (C.P.). — Despair hangs like a pall to-day over the stricken mining town of Coalmont, B.C., a few miles away. Down in the depths of the Blakeburn Coal Mine, in the gas-filled confinement of a caved-in shaft, 46 miners are trapped. Rescue crews, dog-tired from a day and a half of effort to pierce through to the interior, are still toiling—but almost hopelessly.

Slender Hope Held.

Mothers and children, sisters and sweethearts of the locked-in miners hold but a slender hope for the safety of their loved ones. They know that the poisoned air of the mine-shaft has prostrated more than 30 of the rescuers. They realize that in the dark interior of the coal-slopes the air is far less pure. They wait for the report that the trapped men have been reached—but they cannot believe that they will be brought out alive. Eighteen of the buried men are married — one has a wife and seven youngsters.

Equipped with masks and the latest safety devices, the rescue crews have struggled along two-thirds of the mine's 3,500-foot shaft. But the last portion is the hardest task. Relief workers are being rushed in for short shifts, but in the close air of the coal passages, worker after worker is hurried back to the pithead semi-conscious.

The entombed miners are believed to be nearly 1,800 feet down a 20-degrees slope, starting more than 1,500 feet from the entrance of the haulage tunnel.

Police Search for Three Suspects at Tweed

Police are now looking for three immigrant youths in connection with the slaying of Geo. White, 22-year-old Scottish farm hand, whose body was found floating in the Moira River, near Tweed, Ont. Here are shown: (1) J. Countryman, who employed Geo. White on his farm near Tweed, and who states the boy was a good worker and had no enemies that he knew of. (2) Railway bridge near Tweed, a short distance south of which the body of the boy farm hand was found. (3) Stanley Courneyea, aged 14, of Tweed, who states he saw White on Sunday evening just prior to the slaying, and (4) Chief Lone Wolf (left) and Chief of Police Wallace Moon, who chased immigrant suspects during search.

POLICE CONDUCT DILIGENT SEARCH IN PERRI SLAYING

No Arrests and Nothing New is Information Given Out By Inspector of Detectives.

SHELL BOX FOUND.

Owner of Auto Licenses Makes Voluntary Statement to Falls Police.

HAMILTON, Ont., Aug. 15. (C.P.)—Police to-day were still conducting a diligent investigation that would bring justice to the slayers of Mrs. Bessie Perri, shot to death in the garage at the Perri home Wednesday night, where she and her husband had driven from a visit to friends.

"No arrests, nothing new" was the laconic comment of Inspector of Detectives J. R. Crocker, who hurried to his desk from a vacation trip when the murder of the self-styled 'Bootleg King's' wife was made known.

It is learned, however, that police are attaching much importance to the empty shells from the double-barreled shotguns that brought about a woman's death. Three volleys were fired. Both barrels of one gun having been discharged and a single barrel of the other. A close check-up is being made on the sale of the shells, for it is thought altogether likely they may have been purchased in this city, markings that may further identify them are being

PREMIER OPENS BAR CONFERENCE; MEET IN TORONTO

Premier Ferguson Extends Welcome of Province to Members of the Bar.

UNIQUE GATHERING.

Sir William Mulock, Aged Chief Justice of Ontario, Also Extends a Welcome.

TORONTO, Ont., Aug. 15 (C.P.)—With Lords of Appeal and Judge of the British Judiciary, members of the legal profession of the British Isles, United States and France, and with more than 800 judges and lawyers of the Dominion present, the fifteenth annual meeting of the Canadian Bar Association opened this morning. The session was initiated by Premier R. B. Bennett, President of the association. The Prime Minister, after a few brief words of greeting called upon Premier G. Howard Ferguson of Ontario to extend a welcome to the visitors.

Unique Gathering

"It is indeed a great pleasure," Mr. Ferguson said, "as Premier of this Province to extend a cordial welcome. This gathering is not only important but I am inclined to think somewhat unique. Certainly this country has never before had three members of the Judicial Committee of the Privy Council sitting on the same platform in Canada." Continuing, Mr. Ferguson humorously complimented the delegates on their judgment in coming to Toronto. "One can scarcely overestimate the importance and far-reaching effect, the great benefit that comes from contacts of this nature from the exchange of views and from the intermingling not only between ourselves but with our distinguished visitors from other countries."

He was delighted to welcome the delegates to Ontario, he declared. The high standard of the judiciary in Canada, Premier Ferguson said, was due to following the splendid lead set by the judiciary of the "Old Country."

A welcome was extended by Hon. W. H. Price, the Provincial Attorney General, on behalf of the Bar of Ontario.

Tribute to Sir William Mulock

Response to the addresses of welcome came from Premier Bennett. Speaking briefly as President of the Association, the Prime Minister, in his remarks, proceeded to extend a special welcome to the visiting guests. "On behalf of the Canadian Bar Association," Premier Bennett said, "I thank you cordially for your welcome. We are deeply appreciative of the spirit in which you have welcomed us." The Prime Minister had a reference for the next speaker, Sir William Mulock, aged Chief Justice of Ontario, "as the oldest in point of years but the youngest in spirit."

The overwhelming view of the

WESTERN FOREST FIRES ARE WORSE

Blazes in Northern Saskatchewan Get Beyond Human Control.

NEW FIRES STARTED.

PRINCE ALBERT, Sask., Aug. 15 ((C.P.).—Winds, under scorching rays of a burning sun, have fanned flames of many of the score of forest fires raging in Northern Saskatchewan's timber stands beyond all possibility of human control, and rain was looked upon as the only hope to stem the advance of the destructive red demon.

Radio despatches added another blaze to the already lengthy list when they told of an extensive outbreak at Munn Lake, thirty miles east of Lac La Ronge. Flames lifted to the tree-tops by the torrid west wind reached through an extensive timber area and leaped White Moose Lake. The draft created by the roaring inferno, coupled with the driving breeze, is spreading "spot fires" throughout the timber area adjoining the main blaze, and valiant fighters in the sizzling heat are forced to divert their attention from the main outbreak to these smaller blazes.

BRIDE TAKES LIFE

TORONTO, Aug. 15.—Placing a small phial to her lips as she stood before her husband in their room, Mrs. Ina Mitchell, a bride of only three months, drank a quantity of sulphate of nicotine and died a few minutes later.

NOT NORMAN W. McCONKEEY

In the Police Court news in yesterday's Examiner an item appeared referring to a charge laid against Norman McConkey for vagrancy. This had no reference to Norman W. McConkey, 392 Brock street, engaged in the milk business in Peterborough.

FOUR MEN SHOT DURING QUARREL AT CARD GAME

Two Victims in Revere, Mass., Melee in Critical Condition.

COMB BOSTON UNDERWORLD

Wounded Men Refuse to Tell Who Shot Them or How They Got in Hospital.

REVERE, Mass., Aug. 15 (C.P.)—The haunts of Greater Boston's gamblers were being searched to-day for an explanation of the shooting of four men in a back room of the Revere Veterans' Associates' Building shortly after midnight.

The victims, two of whom are in a critical condition at the Chelsea Memorial Hospital, refused to shed any light on the case. Suspects taken in during the early morning hours were released without having helped the police any in their search.

The victims were, Mogris Lerner of Malden, Goffi Campbell of Boston, Joseph Donovan of East Boston, and Mike Goldstein of Revere. Lerner and Campbell were in critical condition with bullet wounds in their abdomen.

Bloodstains on Floor

The little back room in which the shooting occurred was strewn with playing cards, bloodstains covered the floor, the walls were filled with bullet holes, and a billiard table had been cut and its guard rail hacked off. The glass in a front door had been smashed by the men, evidently in their haste to escape.

Campbell was found lying at the roadside about three miles from the Associates' Building with two bullet wounds in his abdomen. The other three victims were taken to the hospital in a manner as mysterious as the shooting itself.

Canadian Boat Has 28 Seconds Lead

ROCHESTER, N. Y., August 15 (C.P.). — The Canadian challenger Quest was leading the Thisbe by 28 seconds at the half-way mark of the 21-mile course in the deciding race to-day for the Canada's Cup.

CENTRAL SQUAD WINS FOOTBALL LEAGUE HONORS

Game Features Annual Picnic of City Playgrounds Held in King Edward Park.

350 CHILDREN ATTEND.

No Accidents Reported in Any of City Playgrounds During Past Season.

By the score of 3-1, Central School Playground yesterday won the championship of the City Playgrounds Association Football League from King Edward. The game featured the annual picnic of the City Playgrounds, held at King Edward Park, and marking the close of the supervised playground season here.

The final count in this contest fairly indicates the superiority of the Central boys over their south-end rivals. The King Edward boys, however, drew first blood when Todd dribbled through the entire Central team early in the game to score the only goal for his side. Shortly after this, George Downer, clever centre forward for Central, took a pass from Harirs, trapped the ball neatly, and drove in a hard shot to tie the count.

The second half opened at a merry clip with both teams trying hard to break the deadlock, but it was downer who again slipped a fast one between the posts, for his second counter of the day. King Edward retaliated with several fierce attacks on the Central citadel but the north-end backs, F. Downer and Whatman, proved too strong, while Murney in the Central goal was entire master of the situation at all times.

With only four minutes of play left, "Scotty" Brown dribbled down the right side, centred the ball to Downer, and the diminutive forward again put a well placed shot between the posts for the final tally.

Downer Stars

For the winners, Downer starred on the forward line with Brown and Harris. Whatman and F. Downer at full back presented a strong defence, while Murney in goal was a veritable stone wall.

For King Edward, Todd in goal saved what looked like sure counters on many occasions, showing rare judgment in handling the ball. McGovarin, at full back, was a whole team in himself and his kicking showed to great advantage throughout the tussle.

The teams follow. Central—Murney, G. Downer, What man, Lustic, Brown, Harris, Thomas, F. Downer, F. Lustic, Abraham, Sedgwick.

King Edward—A. Todd, Frost, Mc-

(Turn to Page 5, Please)

EMPIRE GAMES WILL OPEN WITH GRAND PARADE

Eleven Counties of British Empire Will Take Part in Colorful Parade.

EVENT START SATURDAY.

English Team of Athletes is One of Last To Arrive at Hamilton.

HAMILTON, Ont., Aug. 15.—(CP)—Eleven countries of the Empire will be represented in the colorful parade that will mark the formal opening of the British Empire games, at the Civic Stadium to-morrow at 2:30 o'clock trumpets will signal the entry of the athletes, and the various groups, each with its distinguishing flag will parade in the following order: Newfoundland, Bermuda, British Guiana, Australia, New Zealand, South Africa, Wales, Ireland, Scotland, England and Canada.

Following the opening festivities, will come the first competitions — that of track and field events, within the stadium. In the evening the swimming competitions will be begun.

Housed In School

The Prince of Wales school, where all competitors are housed adjoins the stadium. Individual cots are provided in the large rooms used for sleeping quarters while in the halls, rows of wash basins mean a "hanny wash-up". A specially constructed kitchen and dining room has been put into operation and nothing has been spared for the comfort and convenience of the athletes during their week's stay.

The English contingent of athletes was among the last to arrive. Ninety-seven strong, they took up their quarters in the Prince of Wales school last night. Prominent among them was Lord David Burghley, who was given a great reception as eager onlookers at the stadium recognized the titled hurdler. Sir James Leigh-Wood, chairman of the British council, who arrived in advance of the English party, issued a statement expressing his appreciation for the complete arrangements that awaited them. He was enthusiastic over the games and believes they will be a marked success.

NOVA SCOTIA MAY CUT BEER PRICES

Gov't Considering Matter After Protest From Labor Organizations.

NEW LAW ON AUG. 18.

HALIFAX, N.S., Aug. 15. (C.P.)—"The Government has asked the Liquor Commission to take the matter of beer prices seriously into consideration and see if it is possible to make a reduction in the prices as published" Premier Gordon S. Harrington announced yesterday.

"It may be taken for granted" he added "that the lowest prices consistent with the successful administration of the stores will be set."

The Government Control Act goes into force in Nova Scotia on August 18. In a recent price list the Liquor Commission set the price of beer at twenty cents a pint bottle. Labor organizations went on record with a declaration that the quoted figure was too high.

CITY OF PETERBOROUGH IS PICTURED AS KAWARTHA'S YACHTING CENTRE

Power Boat Owners Should Organize Claims Irving Smith.

PLEASED WITH WATERWAY.

Enthusiastic about the Trent Waterway and the "ideal conditions" which prevailed throughout the route, Irving Smith of Montreal, Commodore of the Iroquois Yacht Club of Lachine, docked here yesterday with his 40-foot cruiser, 'Carmina" Mr. Smith, whose club is the largest organization exclusively for power-boat owners in Canada, saw the City of Peterborough as the yachting centre of the Kawartha region and an ideal location for a possible yacht club in the near future.

The task of inducing the Dominion government to undertake the much-needed completion of the Severn Division, and the work of attracting yachtsmen from other centres and taking care of them when they arrived here, could be materially advanced by the formation of a group of enthusiastic local power-boat owners into a properly registered yacht club here, Mr. Smith felt.

He praised the courtesy and efficiency of lockmen and harbormasters on the Trent and voiced his admiration for the work being done by the Trent Waterway Association and other organizations here. He promised to take back "glowing reports" to his fellow yachtsmen in Montreal.

Spend Summer in Waters

"Why more boats don't use the

(Turn to page 16, please.)

Deputy Chancellor

Fire Chief George Gimblett, who has just been informed of his appointment as Deputy Grand Chancellor of the newly formed District Number 9 of Grand Lodge Knights of Pythias. The new district embracing the whole of Central Ontario was formerly under the jurisdiction of District 6, Toronto. Chief Gimblett has for the past two years been Chancellor Commander of Marathon Lodge 39, Peterborough. He has been a member of the Order since 1911, in which year he joined Hamilton Red Cross Lodge. He still holds membership in Red Cross Lodge, and has a dual membership in Marathon Lodge in this city.

WORK TO START ON NEW HIGHWAY

T. P. Lancaster, M.P.P., Has Received Assurance From Minister of Highways.

PLANS REGISTERED.

That immediate action may be expected on the comppletion of King's Highway No. 7 east of this city, is the announcement contained in a letter from T. P. Lancaster, M.P.P. for Peterborough county, received this morning by the Peterborough Chamber of Commerce.

Mr. Lancaster's letter says:

"I am in receipt of a letter from Hon. Geo. S. Henry stating that the plans for the extension of No. 7 Highway are now in the Registry offices, and taht he expects that at least two contracts will be let in that portion of the road in Peterborough at once."

It will be recalled that the Minister of Highways conveyed through Mr. Lancaster last month the assurance that work on the new highway would commence on August 1. This highway passes directly through Mr. Lancaster's riding. He made its immediate completion one of the principal planks in his election platform last fall and his interest in bringing the matter to fruition is regarded as having been very marked.

FARMERS WHO DO NOT SUCCEED PRACTIS OLD-FAS HIONED METHODS

Progressive Farmer is Making a Success of Things To-day, Says Dr. Christie.

ADDRESS KIWANIANS.

"An erroneous idea" was the way in which current talk of the supposed dire straits of the Canadian farmer was characterized by Dr. G. I. Christie, president of the Ontario Agricultural College at Guelph, speaking at the Kiwanis Club luncheon to-day.

Those farmers in this country who were not succeeding to-day were not succeeding simply because of mistaken ideas and old-fashioned methods of operation, according to Dr Christie. He cited the case of an old but progressive farmer in Waterloo County, who had told him recently that he was experiencing "the best year in a lifetime of farming." This farmer had, by years of work and persistent staying with the strain, bred from two cows what had been seleted as the best herd of milking Shorthorn cows on the continent, possessing the duality of milk and beef together with the ability to transfer the characteristics to their calves.

Yet, Dr. Christie pointed out, many cows of this prize herd were being taken to the United States.

People Begin To Believe.

"Why? Simply because we have

Two Faithful Dogs Guard Dead Master

BRANTFORD, Ont., Aug. 15 (C.P.).—Henry Hyatt Recluse was found dead near the pump at his shack on the 9th Concession, Charlotteville, at an early hour this morning. His two dogs, curled up by the body, sprang into action when investigators approached and declined to admit the right of Coroner Dr. English to touch the remains. Two brothers are reported to live in Tillsonburg, and an effort has been made to reach them.

OVER 1,000 MARRIED MEN WORKLESS IN OTTAWA

OTTAWA, Ont., August 15 (C.P.).—There are between 1,000 and 1,500 married men out of work in the capital with the prospect that 3,500 will be jobless next winter, the Board of Control was informed by C. S. Ford, Social Service Commissioner for the city. Owing to many single men being transients, he made no estimate of the number of unmarried men without work.

The Control Board immediately ordered a report drawn up to show civic improvements that might be undertaken during the fall and winter months to alleviate the situation.

NEW C.P.R. LINER SEEKING RECORD

Empress of Japan Making First Run From Yokohama to Vancouver.

TRIP OF 4,814 MILES.

Seeking to lower the seven-year-old record for steamship crossing of the Pacific, the Canadian Pacific liner Empress of Japan sailed yesterday for Vancouver, B.C., on her first voyage between these ports. The Empress of Japan must arrive before 11.53 a.m. (Pacific Standard Time) Aug. 22 to shatter the mark made by the Empress of Canada also of the Canadian Pacific Line. In June 1923, the Empress of Canada sailed from Yokohama to Vancouver in 8 days 10 hours and 53 minutes, averaging 20.6 knots for the 4,814 land miles comprising the great circle route.

The National Union of Railwaymen, of Britain, will ask for increased wages for lower paid workers.

HERTZOG CLAIMS RIGHT TO SECEDE TO BE STRESSED

South African Premier Will Insist on Country's Independent Status.

AT IMPERIAL CONFERENCE.

People Ready to Co-operate More Than Ever With Britain and Dominions.

FUNCHAL, Madeira, Aug. 15.—(C. P. Cable.)—"I consider that, so far as South Africa is concerned, a paramount issue at the Imperial Conference will be recogition of the independence of the Union," declared the Prime Minister of the Union of South Africa, when he landed here to-day en route to Geneva.

"Under no condition," Premier Hertzog warned, "can I admit of uncertainty regarding South Africa's independent status. When the report of the last Imperial Conference, granting an independent status to our Dominion comes up for confirmation, it must be made clear that the right of South Africa to secede from the Empire is to be maintained.

"But, always subject to their national independence being recognized, I am sure the people of South Africa are prepared to co-operate more and more in a cordial manner with Britain and the other Dominions."

Referring to economic questions, Premier Hertzog said: "I understand the present British Government wishes to discard the principle of giving preference to Dominion products. The policy of the Union Government, however, is to give tariff preference to some of britain's manufactures, provided that Britain extends similar preference to our products.

"If the British Government decided definitely to drop the principle of preference, it would undoubtedly be necessar, to change the tariff policy of South Africa, and the other Dominions would presumbly find the same necessity."

MAY CUT DOWN RACE TRACK TAX

Step Considered By Province Due to Fall Off in Patronage.

BEFORE FALL MEETS.

TORONTO, Aug. 14.—(CP)— Reduction in taxation imposed on race track associations before the Fall meetings is being considered by the Ontario Government, it was announced today by Hon. Dr. J. D. Monteith, Provincial Treasurer.

In view of the falling off in revenue of the race tracks and the decrease in public patronage, the Government is at present considering means of reducing the taxation for this year, Mr. Monteith said. Representations have been made from time to time by racing officials who complained that due to the lack of public patronage the Government tax was a hardship.

The Government collects five per cent of the parimutuels wagers, and it is believed the $5,000 daily license fee will be reduced.

Cholera Hits City; Population Leaves

TEHERAN, Persia, Aug. 15. — Reports from Kandahar say the entire population has evacuated the city because of a cholera epidemic which is raging in Afghanistan.

The disease is said to be spreading daily in Kabul the Capital.

POLICE CONNECT OLD DOPE RING IN PERRI MURDER

Former Detective Sees Link With Gang Broken Up in Toronto.

CLUES FOLLOWED UP.

TORONTO, Aug. 15.—Was Mrs. Rocco Perri, murdered in Hamilton Wednesday, the victim of a Toronto dope ring which she may have been connected or into whose affairs she incidentally stumbled?

This theory was suggested last night by a former detective prominently identified with the case when the dope ring was broken up and which, he believes, may have some connection with the murder. Hamilton police, it was stated, were following up the clue suggested.

Discovery of a large cache of dope and ammunition in a house on Dundas Street West, on June 20, 1929, the arrest of four Italians, and the unexpected entry of Mrs. Perri while the place was being raided, all point it is held, to the possibility of a connected link between the Hamilton murder and the Toronto underworld.

Three of the Italians arrested at the time were given terms in the penitentiary. One of them jumped $10,000 bail and is still at large. Another is in prison, and the other two have served their terms and are now at liberty.

Mrs. Perri, when the case came before the Supreme Court of Ontario, was mentioned as being connected with the dope ring, but nothing was proven against here. It was shown, however, that she was directly in touch with the Italians implicated.

The finding of the discarded American markers at first gave the crime an international aspect, but Inspector of Detectives Joseph Crocker stated last night that investigation had established these markers were stolen three days ago from a wrecked car which had been abandoned in a local garage for several weeks.

Italian Clears Himself

Communications with American police today at Buffalo and Niagara Falls disclosed that the markers in question—GE-4771—were issued early this year to Leadore la Dictoire of 1967 Niagara Street, Niagara Falls, N. Y. He is an Itallan, and formerly resided in Hamilton. He left here two years ago.

La Dictoire was questioned by American authorities yesterday afternoon, Inspector Crocker stated, and he cleared himself of any connection with the case.

Germany expects a larger wheat crop than a year ago.

BISHOPS APPROVE BIRTH CONTROL; OPPOSE DIVORCE

Method in Avoiding Parenthood Must Be Decided on Christian Principles.

MUCH BITTER OPPOSITION.

Armaments Denounced as Menace to World Peace—306 Bishops Attend.

LONDON, Eng., Aug. 15. (C.P.)—The stamp of Episcopal approval was placed to-day upon birth control.

One of 70 resolutions passed by the Lambeth Conference of Anglican Bishops, which has set for five weeks under the chairmanship of the Archbishop of Canterbury, declared:

"Where there is a clearly felt moral obligation to limit or avoid parenthood, the method must be decided on Christian principles.

"The primary and obvious method is complete abstinence from interference as far as may be necessary in a life of discipline and self-control.

"Nevertheless in those cases where there is such a clearly felt moral obligation to limit or avoid parenthood, and where there is morally sound reason for avoiding abstinence the conference agrees that other methods may be used, provided this is done in the light of the same Christian principles.

"The conference records its strong condemnation of any methods of conception control from motives of selfishness, luxury or more convenience."

Bitter Opposition

The resolution, one of 70 passed by the conference, was obtained only over bitter opposition of the high church prelates, and those from the overseas branches of the church. It was understood it was passed finally by a vote of 193 to 67.

While thus approving birth control the conference condemned divorce and declared:

"The conference, while passing no judgment on the practice of regional or national churches within our communion, recommends that marriage of one whose former partner is still living should not be celebrated according to the rite of the church."

In an encylical summarizing the results of the five weeks' deliberations it said in addition, "Empires have perished before now because the dry rot of laxity and corruption in home life set in." The Bishops' treatment of marriage and divorce, it was said, was considered to re-affirm the principle and standard of marriage as a "lifelong and indissoluble union for better or for worse of one man with one woman to the exclusion of all others on either side."

The encyclical letter, which contains 70,000 words, comments, "We are aware of the extent to which the very thought of God seems to be passing away from the minds and hearts of many even in nominally Christian nations."

Armaments Denounced

Other subjects enveloped in the conference report were the growing tendency toward Christian unity throughout the world, denunciation of armaments as a danger to peace, affirmation of exclusion of anyone from worship on account of color race, and a humanisation of religion with a "new emphasis upon the appeal to the mind as well as the heart."

Among the 306 Bishops from all the world sitting in the conference were 60 from the United States. The findings of the conference are not mandatory, but of course will have great weight with various church authorities who must sanction them to make them effective.

POOL CONFERENCE BEING CONTINUED

Pools Favor Paying 80 Cents Per Bushel on 1930 Wheat, Banks 60-70 Cents.

FINANCING ARRANGED.

WINNIPEG, Man., Aug. 15 (C.P.).—Wheat pool executive officers, representing Manitoba, Saskatchewan and Alberta, continued their conference with officials of the Canadian Co-operative Wheat Pool, the central selling agency of the prairie co-operatives, discussing plans for financing the 1930 crop yesterday.

Agreement must be reached on the initial payment to be made on the 1930 crop. The pools, it is reported, are desirous of paying 80 cents per bushel on the 1930 yield of wheat, while the banks are said to favor a payment between 60 and 70 cents a bushel. While there has been disagreement on this point, there is no hesitation on the part of the banks in financing the co-operatives.

U. S. Reports on Case

WASHINGTON, Aug. 15—The State Department has transmitted to the Canadian Government a report from the State of Vermont regarding the recent reported arrest and imprisonment there of Laurent Pontbriand, a Canadian citizen of St. Hyacinthe, Quebec.

PILES
PAIN STOPS LIKE A FLASH!
'Piles for months. Nothing helped. Then 'Soothe-Salva' ended itching, pain in 1 minute. Piles soon gone." E. C. Arley. Instant relief. Piles vanish. Avoids knife. All druggists.

56 Years Old

President Herbert Hoover of the United States was the recipient of many expressions of good wishes on Aug. 10, on the occasion of his 56th birthday.

OSHAWA MAN IS KILLED IN CRASH OUTSIDE COBOURG

Charles Kiser Dies Instantly as Car Skids and Upsets on Turn.

DRIVER NOT HELD.

Four Others Injured in Second Smash at Same Time 300 Yards Away.

COBOURG, Aug. 15.—One dead and four injured was the toll of two accidents which occurred within 300 yards of each other just within the Cobourg town limits at 6.30 o'clock last night. In the first accident Charles Kiser, 45, 379 Mitchell Avenue, Oshawa, was instantly killed, his head being crushed and practically severed when the car driven by W. D. Pebbles, real estate agent, 137 Colborne street, Oshawa, skidded at the sharp turn from the highway in the town's westerly limits. It plunged into the bordering ditch and turned over. Neither Pebbles nor James Bowler, 361 Verdun Road, Oshawa, a passenger in the car, were injured.

In the second accident, which occurred before the victim of the first accident could be removed from the overturned car, Mr. and Mrs. P. G. McGuire, 342 Pine Avenue, Chicago, and Thomas Nesbitt and C. E. Price, Quebec City, were injured. The mishap is ascribed by provincial police to Price's car, bearing a Quebec license, being crashed head-on by the Chicago car driven by McGuire. McGuire suffered bad gashes about the face, requiring several stitches, Mrs. McGuire suffered severe bruises.

A coroner's jury was empanelled by Dr. G. M. Ferris, and after viewing the body of Kiser adjourned to Friday night, September 5.

The unfortunate Oshawa man was being driven to view a farm a few miles east of Cobourg. W. D. Pebbles, Oshawa realtor, who was driving, declared that he applied the brakes at the turn. They locked and the car skidded on the greasy pavement and turned over in the ditch. He was questioned by J. C. Ruse, chief constable of Cobourg, but no charge was laid.

The accident was investigated by Provincial Constables W. Carey and A. Kidd, who had the body removed to local undertaking parlors.

Thomas Nesbitt, formerly of Toronto, but employed by C. E. Price, 145 Grand Alley Avenue, Quebec, was riding in his employer's coupe. He was badly shaken up in the accident and was taken to the Cobourg Hospital for observation.

It is stated that both drivers were proceeding at a moderate rate of speed. Some fault in the steering mechanism of the McGuire car is believed responsible for the accident.

MARTIN COMMITTED FOR TRIAL.

WINDSOR, Ont., Aug. 15 (C.P.).—Joseph Martin was committed for trial yesterday on a charge of murdering Clarence Bulman, 20, of Windsor, at Amherstburg on August 3. Bulman was stabbed following a fight over Martin's sister, Rhea. Frank Holdaway was remanded on the same charge. He is to appear in Windsor Police Court next Wednesday, where he will be given a preliminary hearing.

In New Cabinet

Hon. Alfred Duranleau, Minister of Marine in the new Dominion Cabinet. He was elected for Chambly-Vercheres.

AUTOPSY GIVES NO DEATH HINTS

Doctors Await Analysis of Vital Organs in Sarnia Woman's Death.

TOOK FAINTING SPELLS

SARNIA, Ont., Aug. 14. (C.P.)—An autopsy performed to-day failed to disclose the cause of death in the case of Mrs. Mary G. Richardson, 29, who died in Lambton County jail in connection with the death of Mrs. Catharine Richardson, her 73-year-old mother-in-law.

The vital organs of the young woman were removed and sent to Toronto for analysis in an effort to determine the cause of her sudden death. A week will probably elapse before the result of the examination may be known.

Doctors present at the post-mortem examination to-day would offer no suggestion as to the cause of death. The accused woman was subject to fainting spells but whether she died in one of these or in some manner obtaind poison, is is hoped the analysis will decide.

The result of the analysis the dead woman's husband, C. Clarence J. Richardson has not yet been made known. The former Point Edward Policeman's body was exhumed when suspicion was aroused after Mrs. Henry Richardson's arrest. He died suddenly in May, 1929.

POTATO CROP MAY FAIL

WELLAND, Aug. 15.—Late tomatoes, and potatoes will be a partial failure in this district, according to R. L. Fleming, district agricultural representative, owing to the severe heat and drought. Fruits will also be affected, he said.

French Minister Lands in Ireland

M. Alphand, first French Minister Plenipotentiary and Envoy Extraordinary to the Irish Free State, arriving in Dublin from the S.S. Hibernian.

STREET LIGHTING TO COST $30,000

Kingston Protests Increase in Hydro Rates For Lighting.

INCREASE $10,000.

KINGSTON, Aug. 15.—The cost of street lighting for the city promises to be a lively subject for debate by the Public Utilities Commission. For many years Kingston has paid a lump sum of $20,000 for street lighting, but the Ontario Hydro Commission states that this amount was too low and that, commencing the first of next year, the city would be charged a fixed rate for each lamp.

These new rates have been received by the local commission and on instructions given Manager C. C. Folger, the latter is making a study of the new rates. The new rates will oblige the city to pay $30,000 a year for street lighting, an increase of $10,000 over the old rate.

25 PER CENT. BUILDERS WORKLESS

TORONTO, Ont., Aug. 14. (C.P.)—Five percent of the skilled workers in the building trades here are unemployed according to an estimate to be presented to-day at the Civic Unemployment Conference by John Gillanders, rPesident of the Building Trades Council. No estimate could be made of the number of unskilled workers unemployed said Mr. Gillanders, President of the Build- that the ratio here was generally higher.

MADOC SOCIETY ENJOYS MEETING

Guests of Queensboro United Church Women's Missionary Society.

JOLLY EVENING

MADOC, Aug. 15 (Examiner Correspondence) — The Women's Missionary Society of Queensboro United Church held an open meeting at the Church and entertained the members from the W.M.S. of Hazzard, Eldorado, Cooper and Madoc.

The guests were received by Mrs. O. Rorke the president and other Queensboro members. The Rev. Mr. Leavison as chairman conducted the devotional exercises reading part of the sixteenth chapter of St. John.

Hazzard W.M.S. gave a series of old and familiar hymns sung as duets by Mrs. P. Harris and Miss Alma Keene. Each number was followed by note of author and comment by Mesdames E. Burnside, Gunn, Howard and G. Harris. Mrs. Harris reminded the members of the Sectional Rally which is being held in Bethel on September 30th.

Eldorado W.M.S. provided two excellent readings, one by Mrs. A. Empey, "Marilee interprets Malachi" and "Her good intentions," by Mrs. F. Cormerford; the first stressing Christian stewardship and the second the fatal ease with which one excuse follows another when it means regular attendance at the W.M.S. meetings.

Cooper W.M.S. gave a beautiful little prayer-poem on Consecration by Mrs. E. Moore and a duet by Mesdames Wyatt and Irwin, "For the Lord is my Shepherd."

Madoc was represented by a reading from Edgar Guest's, "You can't live your own life," given by Mrs. J. B. Hough and a paper on a Canadian pioneer and missionary, Donald Smith, Lord Strathcona by Mrs. T. L. Nickle.

Miss Freda Sager, of Queensboro gave a pretty solo, "Just a little help from you," and Mrs. Leavison a thoughtful paper on Hindu worship. Miss Thompson of Queensboro gave a sketch on the first foreign missionary Jonah in her usual graceful and interesting manner and Mrs. George Love representing the Anglican W.A. gave a missionary message from the Anglican Guild.

The hostesses served an enjoyable tea and a pleasant tea and social hour was enjoyed. A vote of thanks was tendered to the Queensboro hostesses by Mrs. W. Teemelly of Hazzards and Mrs. S. S. Ashly of Madoc.

CHURCH SOCIAL ON ZION GROUNDS

Good Crowd Turns Out Despite Unfavorable Weather—Splendid Program.

PETHERICK'S CORNERS, Aug. 15.—(Examiner Correspondence). — The weatherman proved somewhat unkind to the Zion church social on Tuesday evening and provided unseasonably cool weather. Nevertheless, a good crowd turned out and enjoyed the evening's entertainment, under the shelter of John Simpson's towering pines. The proceeds at the gate were over $180 while the various booths did a good business with the exception of the ice cream parlor.

Northumberland Regiment Band provided a musical program which numbered among many old favorites as well as several snappy new numbers.

The return engagement of the English Line and Petherick's tie game proved somewhat of a flop. The Line were minus L. Fry, Potts and Maycock of the team which did so well on that occasion and they failed to support Maybee especially in the fatal fourth when the locals sent twenty-one men to bat for seventeen runs. G. Kerr scored three runs in this spasm with every man scoring twice except Meiklejohn and D. Kerr.

The locals were fairly strong defensively until the sixth when with the game safely won they permitted a few field errors which let the Line run in nine counters.

Buster Whitton with four runs in five times to bat was the heavy scorer for the Line. Shillinglaw and Stollery each scored three, Hampton and Diamond two each. Craighead failed to reach first.

While errors accounted for a few of the locals many runs, heavy clouting was the main factor. In the previous game only two or three of the Petherick's team could solve Maybee's delivery but on Tuesday evening every member of the team connected safely on three or more occasions. Petherick had a perfect average at bat with six hits and five runs and turned in a perfect fielding card as well. G. Kerr collected five hits and as many runs. F. Fry, Watson and Anderson each had five hits and four runs while Owens, D. Kerr and R. Fry got three counters each. Meiklejohn accounted for two runs, having four hits. Many extra base hits were secured to swell the total.

Line up:

Petherick's—R. Fry, p; Owens, c; G. Kerr, 1b; Anderson, 2b; Watson, 3b; Meiklejohn, ss; D. Kerr, lf; Petherick, cf; F. Fry, rf.

English Line—Maybee, p; Whiton, c; Shillinglaw, 1b; Hampton, 2b; Craighead, 3b; Diamond, ss; Stephens, lf; Billen, cf; Stollery, rf.

Petherick's									475(17)0x—33
English Line									132 0 29—17

Umpires—Eagleson, Irwin, Fry.

Bad Indigestion and Constipation Disappear Quick

"FRUIT-A-TIVES" Now Her Only Doctor

"Suffered terribly with indigestion and constipation, couldn't eat. A friend advised 'Fruit-a-tives' and was soon fine and well. They are my doctor when ill."—Leonie Paradis, Mount Carmel, P.Q.

Letters from thousands say chronic constipation and liver troubles ended overnight with "Fruit-a-tives." Sour stomach, biliousness, heartburn, gas, bloating vanish like magic. Bladder and kidney ills, pains in back go in 24 hours. Nerves quiet, sound sleep at once. Rheumatism, neuralgia, neuritis, sick headaches disappear in a jiffy. Complexion clears quick.

Famous Canadian doctor's discovery. Ten of natures greatest remedies combined in handy little tablet. Amazing quick results.

Get "Fruit-a-tives" from druggist today. Feel great tomorrow.

GUARANTEED RELIEF FOR ASTHMA

"I want every Asthma sufferer in this district to try my treatment entirely at my risk. Go to your druggist and get a bottle of my Asthmador and should it fail to give instant relief the druggist will cheerfully refund your money without any question whatever." This was the standing offer made by Dr. Schiffmann which was accepted by thousands and thousands of sufferers—and this generous offer holds good to-day.

No matter how violent the attack, how obstinate the case, or what else has failed, Asthmador or Asthmador Cigarettes will give instant relief, usually in 10 seconds, but always within 15 minutes. Hundreds of unsolicited testimonials abundantly prove what Dr. Schiffmann's remedy has done, and we know it will do the same for others. So certain is it that Asthmador will produce instant relief and will be found thoroughly satisfactory in every way, that your druggist is authorized to refund your money if you should happen to be the one case in thousands that is not relieved by the use of Asthmador.

BURNS FATAL.

NIAGARA FALLS, Ont., Aug. 15.—(C.P.).—James Hyland, 41, of Chippawa, died to-day of burns sustained when he touched a 40,000 volt transmission wire.

AGED RESIDENT FRACTURES HIP

J. Johnston of Young's Point, Falls Down Flight of Steps.

TAKEN TO HOSPITAL.

Descending a flight of steps in the dark on Tuesday night, J. Johnson, aged resident of Young's Point, slipped, sustaining a fractured hip. He was attended by Dr. J. R. Fraser of Lakefield, who ordered the injured man's removal to Nicholls Hospital. He is now under the care of Dr. A. Moir, and is view of the fact that Mr. Johnson is seventy-seven years of age, and that he was not in the best of health prior to his unfortunate fall, his condition is regarded as serious.

FLOWER SHOW OPENS TO-NIGHT

Legion Hall All Dressed Up For the Occasion—To Be Fine Event.

A blaze of blossom, which took possession of the Canadian Legion Hall last night and which will continue to-night and through to-morrow, marks the Flower Show of the Horticultural Section of the C.G.E. Social and Athletic Association. The formal opening of the Show is scheduled to take place at 7 o'clock to-night when Mayor Denne, C. A. Salmonsen of the C.G.E., and James Abraham of the Legion will officiate. To-morrow the exhibition will open at 1 a.m. and continue all evening.

Thousands of gorgeous blooms were being put into place in the Hall last night. A riot of color and perfume characterized the masses of gladioli, asters, chrysanthemums, coreopses, dahlias, delphiniums, pinks, cosmos, roses, zinnias, petunias, sweet peas, sunflowers, snapdragons, phlox, mignonette, verbenas, pansies, begonias, fuschias, geraniums, and other flowers which covered the tables and stands. Ferns and cacti were also present to lend their green restfulness and novelty to the occasion.

The gladioli, of course, predominate. Of the 52 prizes offered, 14 go to gladioli alone.

The judging of the displays will take place throughout to-day and the results will be announced to-night. George Baldwin, F.H.R.S., is the judge of the Show. Mr. Baldwin is a prominent horticulturist, member of the Ontario Horticultural Society, and has been the flower judge at the Peterborough Industrial Exhibition for several years.

In addition to the C.G.E. horticulturists, the Peterborough Horticultural Society and the Legion Carnival are associated in the venture, the purpose of which is to create interest in flowers here, to stimulate concern for a more beautiful city, and to assist the Veterans in raising relief funds.

It is announced that the draw for the door prizes, one of the features of the carnival aspect of the show, will take place to-morrow evening at 9 o'clock.

OBITUARY

TIMOTHY COUGHLIN

Timothy Coughlin of this city passed away last evening, in St. Joseph's Hospital after an illness of some weeks. Mr. Coughlin was born in Douro eighty-seven years ago and was predeceased by his wife (Mary Shaughnessy) in 1913. He is survived by his family Mrs. W. J. Torpey of New Westminster, B. C., Alphonse of St. Lima, Alberta, Nora, Genevieve and Richard of this city, one sister, Mrs. John Moher of East City.

Three brothers, John of Douro, Daniel of New York City, Michael of Woodsocket, N. D.

Funeral will be held on Aug. 16 at 10 o'clock from his late residence, 88 Morrow street to Sacred Heart church with interment in St. Peter's cemetery.

Efforts to pass a law for a compulsory wheat pool in Australia has been defeated.

Teacher "Skinny" Nervous, Gains Pep 14 Lbs. in 3 Weeks

ST. AURELIE, P.Q.—"Was nervous, exhausted. So skinny, was embarrassed," says Miss Alphonsine Fortier, teacher. "Tried Ironized Yeast. Gained 14 lbs. in 3 weeks. Now healthy and happy."

Teachers, lawyers, doctors, nurses, mothers, ministers all write of gains of 5 to 15 lbs. in 3 weeks with new Ironized Yeast. Blemished skin clears. "Nerves," constipation, indigestion go overnight. New pep.

Ironized Yeast is two great tonics in one. Weight-building brewer's Yeast plus strengthening, blood-enriching Iron. Many times more effective than unmedicated yeast. Results in half the time.

Don't be "skinny," weak, nervous, in danger of serious ills. Take these pleasant little tablets. No yeasty taste; no gas. If not delighted with quick gains, manufacturer refunds money. Get Ironized Yeast from druggist today. Feel great tomorrow. New pounds quick.

NANKING TROOPS RETAKE TSINAN

Northern Army Fleeing Northward Leaving Supplies and Ammunition.

CHANGCHOW MAY FALL.

HANKOW, China, Aug. 15.—(AP)—An official Nationalist Government Communique to-day said that Nanking troops this morning recaptured Tsinan important North China city. The Northern Army was reported fleeing northward and leaving behind large quantities of ammunition and supplies.

The communique added that on the Lunghai front Marshal Feng Yu Hsiang's left wing was badly defeated early today and that the capture of Changchow and Kaifeng was expected shortly.

The most popular foreign films shown in interior China are American.

QUEST WINS BY SLIM MARGIN

United States' Yacht Thisbe Defeated in Neck-and-Neck Finish.

THROUGH HARD SAILING.

ROCHESTER, N.Y., Aug. 15. (C.P.) The Canadian challenger Quest won by the slim margin of eight seconds yesterday from the United States yacht Thisbe in a neck and neck finish, making it two each in the fourth race of series for the Canada's cup.

The eight meter yachts encountered many brands of weather yesterday, sailing the first half of the race with an eight mile wind out of the southeast and later running into a dead calm. The wind freshened toward the finish and it was then that the cup contenders showed some of the prettiest work seen in a race for the historic trophy.

Starting for home on the last leg the defender Thisbe was near four minutes behind Skipper Gooderham's craft. The lead changed several times on the last lap on the 18-mile windward and leeward course off Summerville and it was not until the yachts were within five hundred yards of the finish that Quest gained an advantage over the Rochester Yacht Club entry.

A half mile from the finish Quest was just off Thisbe's stern. Gooderham managed to steal the air from Skipper Barrows' boat and when they both made a port tack for the line, the challenger had the vantage point. Both boats moved as if fastentogether and then Quest slipped away from the defender.

A wild demonstration by the largest gallery of the series marked the thrilling victory of the Canadian challenger.

TRAIN KILLS TWO.

WALKERTON, Ont., August 15 (C.P.)—Injured when their motor car was struck by a Canadian National Railways train at Mildmay, Joseph Hesch, member of the Mildmay village council, and George Helm of Walkerton, died in hospital, late yesterday. Helm who was district representative of the Massey-Harris Company, leaves a family of seven children.

TORONTO LIVESTOCK

TORONTO, Aug. 15.—Receipts of cattle at the Union stockyards yesterday were: 10, 15 calves, 38 hogs, 68 sheep and lambs. Two hundred stale cattle, mostly common butcher steers and stockers were in the offering. Trade was dull, with only a few cattle sold up to 11 o'clock.

Six fair quality butcher steers sold at 6 cents a pound, and a few choice baby beeves at 11½ cents. Butcher cows sold from 4 to 5 cents a pound. Prospects are that the bulk of the stockers and common killers will be held over. The closing market for calves was steady at 7 to 11 cents a pound for veals and five cents a pound for grass calves.

Good lambs sold at 8½ cents a pound, with common downward to six cents, which is $1.50 a cwt. down for the week. No sheep were offered today. The hog prices were unsettled up to 11 o'clock, with packers bidding 11¼ cents f.o.b. and 12¼ cents w.o.c. for bacons, which is 75 cents a cwt. lower for the week's trading.

Quotations:

Heavy beef steers	$ 6.50 to $7.50
Butcher steers, choice	7.00 7.50
do., fair to good	6.50 7.00

do. butchers, 75c per hog discount.	
do. f.o.b. price $1 cwt. under w.o.c.	
do. trucked in, 25 cwt. under w.o.c.	

MONTREAL PRODUCE.

MONTREAL, Aug. 15.—Butter advanced, cheese declined and other lines held steady on the Montreal dairy and produce markets yesterday.

Butter advanced approximately ½c at 28¾c to 29c a pound for Eastern Townships No. 1 pasteurized creamery. Local dealers predicted that prices will become higher before the close of the week. To retailers solids were 30c and prints 31c a pound.

Ontario cheese was quoted at 16c to 16 1-8c and Quebecs at 15 3-8c to 15 1-2c a pound. Conditions were said to be unsatisfactory, with little sign of a change. The egg market ruled steady, quotations to retailers ranging from 29c for fresh seconds to a high of 43c a dozen for special brands. The potato market was quoted at 65c to 70c per 80-lb. bag for locally grown new stock. Poultry was unchanged.

TORONTO PRODUCE

TORONTO, Aug. 15—Prices for butter, as far as shippers were concerned, were somewhat better yesterday, as sales were made locally at 28½c to 28¾c for Ontario No. 1, and 27c to 27¼c for No. 2. Dealers cleamed a good demand at these prices and looked for a fair market for the balance of the week. Prices to retailers were about steady at 32c for No. 1, and 30c to 31c for No. 2.

Butter consumption has maintained a steady tone lately, which was probably due to the few days of cool weather, but some dealers seemed to think that a better trend would rule for some time. Even the great increase in Dominion storage holdings this year, over last year, did not alter their views, as they believe that less butter will be brought in during the fall and winter. They also point out that consumption this year is greater than at the same time last year.

The consumption of eggs also appeared to be stimulated by the cool weather and dealers reported active trading at 31c to 31½c for extras, 29c for firsts, and 23c to 24c for seconds, graded, free cases. Country shippers were quoted 29c for extras, 26c for firsts and 21c for seconds, ungraded, delivered, cases returned.

CHICAGO, Aug. 15.—Reassurances that banks will finance the 1930 movement of Canadian wheat and that Provincial Government guarantees are probable did much to lift wheat prices yesterday. Persistent reports of unseasonable weather in Europe hampering the wheat harvest there counted also as a stimulus to upturns in wheat values. Besides, export business yesterday in North American wheat was of more liberal volume than of late—1,000,000 bushels—mainly wheat from the United States, with Liverpool quotations 18c above Chicago—the widest difference so far this season.

Chicago's closing prices on wheat were firm, ⅞c to 1¼c a bushel higher than Wednesday's finish. Corn closed unchanged to ¾c lower; oats ¼c to ¾c up, and provisions unchanged to 5c down.

Corn rallied, chiefly as a result of wheat strength, but the reports of rainfalls scattered over many States checked enthusiasm so far as most corn buyers were concerned.

WINNIPEG GRAIN.

WINNIPEG, August 15. — Indifferent trading featured yesterday's session of the Winnipeg wheat market here, but prices were steadier and all futures closed with fractional gains. An opening advance brought quite heavy selling, the source of which was difficult to trace, and the prices receded, but a few buying orders, credited to shorts, brought the values back.

Lack of overnight export trade and continuation of hot, dry weather in the Western wheat belt had little bearing on the market yesterday. "Short" jumped into the market on a rumor that the United States Government soon would issue a drought report.

There was an improved demand for ash wheat, but offerings continued light and the volume of business done was meagre.

Coarse grains trade was dull, though values ranged slightly higher.

Futures:

FRIDAY, AUGUST 15, 1930

"MEL" ROBINSON'S FINE JOB.

The British Empire games, which open at Hamilton Saturday afternoon, have a special attraction for Peterborough because of the fact that a former Peterborough boy, Melville M. ("Bobby") Robinson is the secretary of the committee which has had charge of all the plans and arrangements for this athletic assembly.

The representative contestants from nearly all parts of the Empire are now in Hamilton and ready, according to reports, for the preliminary heats of the first day's program Saturday afternoon. The importance of this tourney, which will continue all next week, has received the highest recognition in the Empire, and its significance will receive further emphasis from the presence of the Governor-General, Viscount Willingdon, Premier Bennett, Premier Ferguson and E. W. Beatty, K.C., who will assist in the opening ceremonial prior to the first events Saturday.

A very large share of the praise for the success of these games, which seems positively assured down to the last detail, is given "Mel" Robinson. He has been working tirelessly on this job for the most of a year, and he has had all the necessary experience to qualify him for the task to which he has devoted himself so energetically.

Hamilton is proud of Mr. Robinson, but not prouder than his old friends in Peterborough. The son of Wm. G. Robinson, "Bobby" grew up here during his school days, then betook himself to Toronto and newspaper work, and eventually to the position of sports editor of the Hamilton Spectator, which he held with distinction for years.

Here's hoping that not the slightest hitch will develop during these British Empire games, but that they will be so successful, both as athletic contests and also as a new bond of imperial good-will and understanding, that they will receive in Hamilton a solid and permanent foundation.

CROSS CURRENTS IN THE THEATRE.

When signing his first film contract a few days ago, George Bernard Shaw dolefully remarked: "The poor old theatre is done for I am afraid. All my plays will be made into talkies before long. The theatre may survive as a place where people are taught to act. Apart from that, there will be nothing but talkies soon."

And Toronto "Saturday Night" refers resentfully to an announcement by Famous Players Canadian Corporation that no drama or musical comedy shall be permitted to play in its theatres from coast to coast.

"This bars the higher forms of theatrical entertainments from all towns and cities in Canada save Toronto and Montreal," the Toronto weekly explains.

"The blow has for months been expected by those familiar with theatrical affairs. During their last visit to Canada the D'Oyly Carte Opera Company was warned that it need not plan to come back. Similar warnings were given during the past season to the Stratford-upon-Avon Players, presenting the finest productions of Shakespeare current in the world to-day; to Sir John Martin Harvey and to Maurice Colbourne, who had in two seasons established a vogue for the comedies of Shaw in parts of Canada where they had not been previously seen.

"The reason for this disaster is that the forces which control the theatre business in North America have invested so much money in the expensive machinery required for that rather monotonous form of entertainment known as the "talkies," that they have resolved to compel the public to accept it or nothing else. Some of the persons who promoted "talkies" as a financial enterprise, are utterly devoid of taste, intellect, and fair play, and anything artistic or charming is naturally hateful in their eyes. The only recreation they know is framing schemes to "gyp" each other.

"They have gone about their game in open defiance of the laws forbidding combines in restraint of trade; but the monopoly they have acquired can be smashed if influential citizens in all Canadian centres will organize to induce municipalities to refuse licenses to theatres which deliberately bar legitimate attractions."

Meanwhile the news columns bear the piquant information that Mary Pickford is returning to the theatre in the season just ahead of us, and other screen stars who will also desert the films are Colleen Moore, Vilma Banky and Rod La Rocque.

Discussing these counter-currents, the New York Times comments as follows:

"The chance for their stage success must be greater than the possibility of even the greatest of theatrical talents in the movies. For every playgoer who will want to follow a favorite's progress on the screen there must be a hundred movie fans to pursue their idols into the purlieus of Broadway."

A VISITOR'S ADVICE.

The appreciation of the Trent waterway expressed by Dr. E. J. Meyer, commodore of the Buffalo Yacht Club, in an interview with The Examiner is the latest and one of the strongest recommendations for the completion of the canal which we have heard this season.

It expresses convictions which have been held for years by citizens of Peterborough and of this district. The completion of the Trent Canal is one of the principal objectives of the Trent Waterway Development Association, which by the way meets at Bobcaygeon next month.

But the local spirit of confidence and faith has had a struggle to keep burning even with the reflected fire of the men who in the past believed in the advantages of the canal and visualized its potential importance to this broad section of Ontario. Too many citizens have been apathetic, when they were not unblushing scoffers. They wouldn't even give the canal the benefit of the doubt that has persisted while the Severn reach was uncompleted and vessels had to be content with the expedient of a marine railway.

However, if many of our own citizens are indifferent about the canal and refuse to see any good in it, visitors like Dr. Meyer eloquently supply our domestic deficiency.

The most confirmed doubter must at least admit that the commodore of the Buffalo Yacht Club is a reliable witness when he speaks to us of the possibilities of the Trent waterway as an attraction to the increasing number of cruisers in all the port cities of the Great Lakes. And the substance of his counsel is this statement: "The completion of the Severn division of the Trent Canal is the best investment your Government could make."

As an attraction for tourists, and especially as an artery of transportation, which should be given a thorough test, the building of the Severn lock should be undertaken by the Government. The towns along the route of the canal were virtually promised by Hon. Mr. Dunning last fall that the work would be provided for.

Another consideration is the present day trend of many persons to turn back to the pleasures of boating, the pleasures and also the safety and comparative exclusiveness.

The highways are everywhere lined with automobiles to-day, with continuous tolls of life and serious injury. This condition is literally driving more persons every year to buy water craft for the quiet and comfort their cars used to give them.

The Conservative Government is not pledged to the completion of the Trent Canal, but the Hon. Dr. Manion, Minister of Railways and Canals, will surely see the need and possibilities of the canal which were pointed out to Hon. Mr. Dunning at every stop on his tour.

And this is not a Peterborough concern alone. It applies to all the towns and villages along the waterway. All they are asking is an obviously sensible step. Spend another three million dollars to complete the work in which the country has already invested eighteen millions.

Don't leave us in the position of self-reproach in which we find ourselves when such visitors as Dr. Meyer tell us very kindly and indirectly that we are blind to our opportunities.

THE CHANGES OF POLITICS.

The rapid changes of politics are once more revealed in the fact that of the members of the Meighen post-war administration only one, the Hon. Hugh Guthrie, now remains in Parliament and claims a place in the Bennett Ministry. Since 1921, when Mr. Meighen went out of office, Sir Edward Kemp, Sir James Lougheed and the Hon. J. D. Reid, three of his Ministers, have passed away. Sir George Foster, the Hon. P. E. Blondin, the Hon. J. A. Calder and the Hon. Gideon D. Robertson have gone to the Senate. The Rt. Hon. Mr. Meighen retired to private life, from which he has not since emerged. The Rt. Hon. C. J. Doherty went to the Bench, from which he has since retired; Sir Henry Drayton became chief commissioner of the Ontario Liquor Commission; Hon. S. F. Tolmie became Premier of British Columbia, while the Hon. F. B. McCurdy, the Hon. E. K. Spinney and the Hon. R. W. Wigmore retired to private life.

Even more surprising is it to find in a compilation prepared by the Canadian Press, that only four of the original members of the Mackenzie King administration remained in it at the close of that gentleman's regime. These four "originals" are Hon. Ernest Lapointe, Minister of Justice, Senator Raoul Dandurand, Minister without Portfolio, and Government leader in the Senate; Hon. Charles Stewart, Minister of the Interior; and Hon. W. R. Motherwell, Minister of Agriculture.

Mr. Lapointe entered Mr. King's first Cabinet as Minister of Marine and Fisheries, and became Minister of Justice in 1924. With the exception of the three months' break in 1926, when the Shadow Government of Right Hon. Arthur Meighen was in power, both Mr. Motherwell and Mr. Stewart have held the same portfolios continuously.

In point of long association with Premier King, Hon. P. J. A. Cardin ranks next. He had been Minister of Marine and Fisheries since 1924. Hon. Lucien Cannon was appointed Solicitor-General in 1924, but did not obtain Cabinet rank until 1925, when he was made a privy councillor. Of the rest of the retiring Ministers, most had been in the Government since 1926. It was in that year that Hon. C. A. Dunning left his post as Premier of Saskatchewan to become Minister of Railways and Canals, and eventually Minister of Finance.

Hon. J. C. Elliott then entered the Government as Minister of Labor, and later in the year became Minister of Public Works; Hon. Dr. J. H. King, Minister of Pensions and National Health; Hon. Peter Veniot, Postmaster-General; Hon. W. D. Euler, Minister of National Revenue; Hon. Fernand Rinfret, Secretary of State; Hon. James Malcolm, Minister of Trade and Commerce; Hon. Peter Heenan, Minister of Labor, and Hon. J. L. Ralston, Minister of National Defence. All entered the Government in 1926, as well as Hon. Robert Forke, now a Senator, who then became Minister of Immigration.

The remainder of the retiring Ministers entered office in the course of the past year. Hon. T. A. Crerar, who became Minister of Railways and Canals last fall, had already served as a member of the Union Government of 1917. Hon. Cyrus Macmillan, Minister of Fisheries, and Hon. W. F. Kay, Minister without Portfolio, were chosen two months ago, and Hon. Ian Mackenzie, Minister of Immigration and Colonization, entered the Government scarcely a month ago. He fared better than the other two new Ministers, however, for he has a seat in the House of Commons.

Three distinguished members of Premier King's first Cabinet are now dead. Sir Lomer Gouin, Right Hon. W. S. Fielding, and Hon. James A. Robb have passed to their rewards. Sir Lomer and Mr. Fielding had resigned, owing to ill-health, but Mr. Robb died in office. —Brockville Recorder and Times.

EDITORIAL NOTES AND COMMENT.

With men, as with automobiles, knocking is an indication of lack of power.—Petrolia Advertiser-Topic.

Nowadays a young girl isn't much help to mother until she can play a better game of bridge.—Brandon Sun.

One reason why we stopped playing golf was because we could never lose the ball in a shady place.—Dallas News.

The tourist trade in Canada last year amounted to $299,180,000. It certainly pays to have visitors.—Chatham News.

With these midget golf courses, we expect an announcement that some one has made a hole in ½.—New York Evening Post.

People across the border are of the opinion that the Hawley-Smoot tariff bill doesn't miss a thing. It even puts a tax on their minds to read it.—Guelph Mercury.

Sir Oliver Lodge, the eminent spiritualist, suggests that the United States should police the world, but first, as the Toronto Mail and Empire points out, the great Republic would have to learn how to police Chicago and Detroit.—Exchange.

We had an idea the weather would improve when the politicians got out of the way.—Stratford Beacon-Herald.

The Office Hound

Over a midnight lunch of puns and coffee we idly pursued an errant idea the other night with that old reprobate, the Office Hound. Out of the mist of cigarette smoke and general persiflage came the present column, which it is our intention to continue daily till death or a general election do us part....If you like it....Or if you don't—that is, if you don't like it to such an extent that you're willing to say it in print that you don't like it.

O—H

Some of you might transfer your allegiance from The Voice of the People to The Office Hound. Send us your literary efforts. We won't burn 'em.

O—H

And in saying "column" we mean "colyum". Just one of those nice distinctions over which politicians split hairs—and heads.

O—H

The readers of the Sault Daily Star must suffer a certain amount of confusion when they open their papers o' nights. For example, what struck them in the face on Tuesday night was this remarkable combination: "FIVE BUSH FIRES; FALL FAIR OPENS."

O—H

The comment on that one is, of course: "That ought to burn 'em up for fair."

O—H

All of which comes from the quaint old custom of combining two stories in plastering the streamer across the front page....On Monday night the intelligence was: "WHEAT PRICES DROP; AFGHANS REPULSED."

O—H

Even an Afghan will repluse on an occasion like that.

O—H

Local youths, it would seem, are sitting in trees to break some record or other. Refraining from the remark that breaking branches might be more apt and more beneficial, we break into song thusly....

O—H

WHEEZE.

(With apologies to Joyce Kilmer of "Trees")

I think that I shall never be
Endurance-sitting in a tree.

A tree whose roots are deeply due
Into the realm of worm and bug;

A tree that looks at me all day
And wonders how I got that way;

Whose bark in prehistoric times
Felt cave-men carve their silly rimes;

Within whose branches monkeys ranted
When Darwin's dope was took for granted.

It takes smart guys for lines like these,
But any sap can sit in trees.

O—H

Hunting around for a suitable limerick to fill a running inch of space (right here....X marks the spot), we glanced with hopeful eye on our friend Dead Beat who had just breezed in with a story about corn (ear, not foot). Dead Beat suggested "Louise" as a rime-word. The best rime-word in the English language, he says. Have you a better? Or how many rimes can you get for Louise?....Try it!

O—H

"COLLEGE HEAD LOST IN ROCKIES"—Headline in Border Cities Star.

O—H

Which just goes to show that even a collitch man may lose it in a rocky situation.

O—H

..."SWORE IN CABINET", says The Examiner over a portrait.

O—H

honors conferred on him. He was
Who wouldn't?

—Andre.

A Thought

SUCCESSFUL MEN

Study the life of a man who has become an outstanding success and you will find that he began by doing the little things well—and never broke the habit.—Kalends.

TEMPLE TOWER

By CAPTAIN DRUMMOND

(Continued from yesterday.)

"How nice it is to have a little peaceful nap in the afternoon," he murmured. "But you should never take in a lodger that snores, Mrs. Spragge."

"Get out of this," came a thick voice from behind us. Spragge, who had come to, had raised himself on his elbow, and was glaring vindictively.

"Splendid," cried Hugh. "Our own bright boy again. A little arnica applied by mother, and the face will be as good as new. But tell me, who is the human fog-horn within?"

"Look here, mister," cried the woman shrilly, "you be off. This farm ain't no business of yours, and I'll thank you to get into your car and clear out."

"The ingratitude of woman," said Hugh resignedly. "After all I've done for poor Mr. Spragge too. Well, Peter, never shall it be said that we stayed where we weren't wanted. We'll go. But do tell little Ferdinand when he wakes that he ought not to sleep on his back."

He swung the car round, and as we went down the drive I glanced back. The man had scrambled to his feet, and was standing by his wife. And the two of them stood there motionless watching us, until we turned out of the drive into the main road.

"Not much out of that, Peter, I'm afraid," said Hugh. "All that we have established is that the Spragges are a very unsavoury pair, and that they have a man who snores staying in the house. But whether the man who snores is the red and blue light merchant, or whether it is any of them, Heaven alone knows. And as far as I can see there is only one way to find out."

"Which is?" I asked.

"To go there by night," he answered. "That's when the activity is likely to occur. And I've somehow or other got a hunch that our musical sleeper is going to turn out to be very much in the picture. Let's go back to the house now, so that you can dump your kit; then we'll have dinner at the Dolphin in Rye, and do a bit of night work after. Jove! Peter, I'm beginning to feel quite young again."

"You'll be younger before you've finished," I said resignedly. "They tell me a few months in prison is a wonderful rejuvenator."

But he only grinned; in an affair of this sort he was beyond hope.

"Prison be blowed, old boy. We may be a pair of thugs, but we are young men from the Christian Association compared to this comic bunch. Besides we can always retire from the contest if we want to."

At that it was my turn to grin: a lion can retire from its skill if it wants to. At any rate time would show: up to date beyond putting Mr. Spragge to sleep we were blameless.

The Bentley swung to the left as we came to Rye, and we took the circular road around the hill on which the town is built.

'Up that cobbled road to the right, Peter," said Hugh when we had gone halfway round, "is the Dolphin Inn. A famed resort for smugglers in the old days, and an extraordinarily good pub now. On your left is the road to Hastings, but we go straight on up to the higher ground."

We crossed the railway line, and another three miles brought us toHugh's house, where I dropped my baggage. As he said, the view over the Marsh was wonderful: it lay spread out in front of us like an aeroplane photograph.

"If you look through the telescope," he remarked, "you'll see it is focussed on Spragge's Farm."

I adjusted the eyepiece and found that I could make out every detail of the house. Almost could I see the handle on the front door so powerful was the instrument. But though I kept my eye glued to it for fully five minutes I saw no sign of life. The place was deserted: presumably Mr. Spragge was dealing with the arnica, and the mysterious sleeper still snored.

"When you're ready, Peter," he said, after he had had a look himself, "we might stroll along past friend Granger's place. I'd like you to cast an eye on his preparations."

I was ready, and so we once more took the road. A short ten minutes' walk brought us to our destination, and assuredly Hugh had not exaggerated when he called it a prison. The wall was about ten feet high, and coustituted a fairly formidable obstacle in itself. But what made it practically impassable was the arrangement of steel spikes on the top. They faced in all directions: and each one was about two feet long. There was no gap anywhere: they continued over the massive wooden gates that formed the entrance. And by standing away from the wall Icould see the top story of the house inside: every window was guarded with iron bars as Hugh had said.

"The gentleman certainly seems to resent intrusion," I remarked, and even as I spoke a small two-seater went past us and stopped outside the gates. A young man was driving it, and by his side was an extremely pretty girl. For a time they sat in the car looking somewhat dubiously at the prospect confronting them: then they both turned round and looked at us. And after a moment or two the man got out and came over to us.

He was a cheerful looking youngster with a snub nose and freckles, and when he spoke he had a perfectly charming smile.

"Excuse me," he said, "but is either of you Mr. Granger?"

"Not guilty," remarked Hugh. "The gentleman you're after is inside the fortifications."

"I say," he went on a bit awkwardly, "you'll understand I don't want to be rude, or any tripe of that sort, but what kind of a bird is he?"

"Why do you ask?" said Hugh.

"Well—er—the lady with me has taken on a secretarial job with Mr. Granger. And dash it all this bally place looks like an inebriates' home."

"It's not that as far as I know," said Hugh. "But frankly I shouldn't call it the sort of household that I'd like a girl I knew to go to."

"You hear that, Pat," he sung out. "This gentleman thinks the show is a dud."

The girl out got of the car and came and joined us. Though usually of an unobservant nature, I noticed that there was a ring on her engagement finger, and with the acumen of Sherlock Holmes I arrived at what turned out to be the correct solution.

"Can't help that, Freckles," she said calmly, "Dud or no dud I've had fifty of the best out of the old bean and that's that."

"You could send the money back," he said doubtfully.

"Easily, little bright-eyes," she laughed, "if I had it to send. Unfortunately all that remains is twelve shillings and fourpence halfpenny."

"That's a bit of a snag," he admitted. "But look here, Pat, I don't like the smell of this place at all."

"Nor do I," she agreed frankly. "But what can I do?"

"Can you tell me anything about this gentleman, sir?"

He turned again to Hugh with a worried look on his face.

"Practically nothing, I'm afraid," said Hugh. "He came here some years ago, and had all these affairs erected round the house. He calls nowhere and sees no one, and the only other occupants of the house are a man and his wife."

"There is a woman there then, that's good."

The youngster looked vaguely relieved.

"But may I ask exactly how you came to hear of this job?" said Hugh to the girl.

"Quite easily," she smiled. "I had my name down at a bureau in London for secretarial work. Ten days ago I went in to find if anything was doing, and the woman who runs it offered me this. It might have been anybody else, only I happened to be the first. And the terms were so very good that Ijumped at it. Five pounds a week, and fifty on account."

"Ten days ago," said Hugh thoughtfully, glancing at me, and it was clear what he was thinking. If this girl had only heard of it then the offer must have been made before the appearance of the lights on the Marsh.

"Have you any idea what your work is to be?" went on Hugh.

"Not the slightest," she answered. "Presumably an ordinary secretarial job."

Once again Hugh glanced at me: then he lit a cigarette.

"Well, as I told this gentleman," he remarked, "it's not the sort of house I'd choose for a rest cure. But I may be wrong: I've never been inside myself. Only there is one thing you ought to know."

And then very briefly he told her about the mysterious signals from Spragge's Farm. She listened in silence, but the result was a foregone conclusion. Her mind was made up, though Freckles did his best to dissuade her.

"Can's you possibly chuck it, Pat?" he said earnestly.

"How can I, you mut?" laughed the girl. "I tell you I've spent the fifty quid."

"And I'm overdrawn," he muttered. "Hell!"

"Look here," began Hugh and I simultaneously.

The girl gave us both a delicious smile.

"Sweet of you both," she said. "I know just what you were going to say. But I couldn't dream of it. After all this old bird can't eat me. I shall be all right, Tom: don't you worry."

"But I do worry," answered the youth. "So would anybody who saw what sort of a house it was."

'Go and press the bell, my pet," she said firmly. "It's little Patricia for the shore. Go on, you ass: we can't stand here in the road all day."

He went over reluctantly and did as he was told, and suddenly Hugh spoke.

"Look here, Miss——?"

"Verney," said the girl.

'Mine is Drummond: and this is Peter Darrell. What I was going to say was this. My house is the next one to his—about half a mile away towards Rye. Now everything may be quite O.K., but in case—only in case, mind you—it isn't, it will help you to know that we're near at hand. So one or other of us will make a point of being here between two and three each day. Of course it's quite on the cards that you'll be able to take a walk in fact if I were you I'd insist on it. Then if anything crops up you can come and tell us. But if by any chance he keeps you inside or makes you stop in the garden, and you want to get at us, just write a note, put it in an envelope with half a brick inside and bung it over the wall. You can spot the place—close by the gate, and we'll be here to get it."

(To be continued)

EMBARRASSING MOMENTS

Voice of the People

Letters to be printed in the Voice of the People column must be received at The Examiner Office on the day before it is desired to have

MOTOR CAR RESPONSIBILITY

The Editor, The Examiner:

Dear Sir,—Perusal of the Provincial Government's advert. in your issue of last evening, leaves the reader with the impression that the motor car insurance companies will receive greatly increased business. But up to the present no adverts. have appeared with reduced insurance rates based on the likely increase in insurance policies which will be issued. Is this a case of the provincial government feathering the insurance men's nest?

Pleasure Car Owner.

BARGAINING.

To the Editor of The Examiner.

Sir,—The Times is of all the British and American journals discussing the new phase of Empire trade founded on "bargaining" (Mr. Bennett's idea) by far the most penetrating and efficient. Adopting the new idea as perforce it must, since the simple "preference" idea offered by the London Conference was rejected at our election, The Times proceeds to show by a very simple, concrete instance what "bargaining" really means as distinguished from "preferences." Argentina sells to Britain three times as much as it sells to the U.S.A., but buys much more largely from the latter. Here, as The Times suggests, is the "bargainer's" chance to compel Argentina to buy more from Britain Once Britain and Argentina have struck the necessary basis of bargaining, where will Canada be? Canada is not in as "cheap" a position as Argentina to supply foodstuffs to Britain. Hence the "bargain" will be made by and go to Argentina since The Times says Britain can so advantageously make it. There being no reason to foster Empire trade more than any other (as Mr. Bennett said about Pittsburgh iron) we will see Britain drifting away from us as our great foodstuff customer since such a "bargain" with Argentina would be greatly to Britain's advantage. When we rejected the "preferences" of Empire in favor of "bargaining" (quite a different thing), we appear to have made a serious mistake.

J. H. BURNHAM.

What To-day Means To You.

If August 15th is your birthday, the best hours for you on this date are from 7 a.m. to 8:15 a.m., from noon to 1 p.m. and 7:30 p.m. to 8:30 p.m. The danger periods are from 10 a.m. to 11:40 a.m., from 3 p.m. to 4:30 p.m.

Astrological indications on this date will make you feel as though life was a glory and that you could live victoriously on bread and cheese. You will be able to see good, nobility and kindness in those about you. You will experience ecstatic moods of the soul, and if you be an artist or writer you may try to reproduce your feelings by brush or word.

The child born on this August 15th will be active and lethargic by turns, and highly emotional. It will have an inquiring mind and an agreeable disposition, and will seldom worry. Its dangers will be readily kindled and easily appeased. Influence of mother paramount.

You are a calm, restful being, who prefers to be a looker-on in life. You do not want too much activity, nor do you always want to be surrounded by people. Work and duties permitting, you enjoy to lose and dream, and it reposes you to do nothing in particular. You like to read serene, peaceful stories that do not arouse your complex emotions. You will never wear yourself out physically or mentally because you do things slowly and easily. You do not worry as a rule, so you are saved from the sins of both hurry and apprehension. As long as everything satisfies you, you do not care about the criticism of the rest of the world. You are indifferent to other people's opinions, and you do not try to force yours on any one else.

There is a certain amount of originality in thought and action in your case. You are a clear thinker, and you get correct mental impressions. You are very good humored as a rule, but you can be very stubborn and warm-tempered. You are not a nagger yourself, and you will not stand being the victim of one. Although you are reserved, you have a great desire for affection from others, and you are slightly jealous in your friendships. Your home instincts are very strongly marked, and you would make a very fond and unselfish parent. You would be inclined to spoil and humor your children—you would become their slave.

ROUND LAKE

Miss Hazel Ackney, former teacher at Rush Point School has accepted a position as teacher at Scugog Island. She will be succeeded here by Miss Bertina Beavis of Norwood. Miss Merle Montgomery of Norwood will succeed Miss Josie Anderson at Round Lake school. Miss Anderson has accepted a position at Cordova Mines, replacing Miss H. Thompson who has taken a position at Marmora. Miss Janet Tait of Castleton will be the new teacher at McGill school.

Mr. Jos. McCutcheon of Smith Falls, is spending a week with his parents, Mr. and Mrs. James McCutcheon.

Mr. Percy Rimmell of Toronto, and a number of friends, are camping at McCutcheon's landing. In all there are five tents there.

Mr. and Mrs. Oscar Hicks, the Misses Thirza and eVra, of Trenton are camping at McCutcheon's landing. Mr. Chas. Taylor of oTronto is a guest of Mr. and Mrs. Hicks.

Mr. and Mrs. Mittlestedt and daughter Berniece of Niagara Falls, N.Y., who have been visiting Mr. and Mrs. J. McCutcheon, have returned home.

Miss Marjory Stevens of Toronto is a guest of Miss Katie McCutcheon.

Miss Janet Wright and Mr. Gilbert Wright, Mr. and Mrs. Jos. Deitchmann and the Misses Lewis, spent Thursday last at Oak Lake.

Messrs. Gerald and Charlie Hyman and Mr. T. Neckar, Cleveland, Ohio. Mr. and Mrs. Gordon Rosenplet of Trenton, Miss Marjorie Hart of Smithfield, Ont., are visitors with Mr. and Mrs. Ross Hart, at Hart's shore.

LIST HIGHER AT NEW YORK

Important Shares Show Light Gains Following Decline of Early Morning.

LOSSES REGAINED.

NEW YORK, N. Y., Aug. 15.—(CP)—The Bear forces again trod on each others toes in today's Stock Market, and for the third successive day became disorganized and sent stocks moderately higher as they withdrew their short positions.

The market sold off about 1 to 5 points in spots during the morning but important shares held about steady, and before midday most of the losses were regained, while a long list of issues sold up 1 to 2, with a few making wide gains. The tobacco issues were strong, American Tobacco 'B" shooting up more than 20. Shares making advances of about 2 to 3 points included U. S. Steel, American Can, Eastman Kodak, National Biscuit, Public Service of N. J. ,Dupont, Johns Manville, Air Reduction, and one of yesterday's weak features, Republic Steel, common, The International Paper and Power issues, which were acutely weak yesterday, firmed up after publicaton of the statement showing a June quarter deficit of $1,300,000 after dividends. It was learned at the offices of the company that the drought had not affected its Hydro Electric properties. Warner Bros. sold off 4 points after announcement of the issue of rights, then rallied. Chrysler was steady to firm, in response to its June quarter report, showing the dividend practically earned and cash position further strengthened.

AIRLINER'S CREW SAIL ON STEAMER

MONTREAL, Que., Aug. 15 (C.P.). — Nine members of the westbound crew of the R-100 sailed for England at daybreak this morning on the Canadian Pacific liner Duchess of Atholl. Glad to be on their way home, the crew members were somewhat disconsolate at having to revert to the older mode of trans-Atlantic travel after making their first crossing by air.

George Alley, lighter than air technical expert who preceded the airship in order to assist in making arrangements for her arrival here, will no sooner reach England than he will set sail again. His next voyage will be to India, where he will make arrangements at Karachi for the visit to be paid there by R-101, big sister of Canada's recent visitor.

The crew members who boarded the Duchess of Atholl late last night are Riggers F. Williams, J. Flatters, L. Cutts, C. H. Rumsey and Engineers E. J. Stupple, D. Elliott, R. Ball, J. Sturgeon and H. Milward.

FINANCIAL NEWS AND BRIEFS

A SPECIAL SERVICE TO THE EXAMINER

CANADIAN INDUSTRIAL ALCOHOL.

The much adjourned annual general meeting of the stockholders of the Canadian Industrial Alcohol company will take place this afternoon, almost a year after the close of the fiscal period in September, 1929. Litigation over the executorship of Sir Mortimier Davis' estate made necessary the postponement of the annual gathering and delayed the meeting until this late date. However, shareholders attending will find an advantage in that the New York has almost been completed with officials in a position to give information as to the result being experienced for the 1929-1930 period which ends next month. In the 1928-1929 year earnings were equal to $1.89 a share on the combined class "A" and "B" stock outstanding but early in the current period sales dropped off and directors decided to pass the dividend on both classes of stock. Since October last, sales are understood to have been satisfactory with earnings less than sales volume would indicate, due to low prices for alcohol products.

Those who sold the ordinary shares of the Canada Bread company anticipating that no action would be taken with respect to the dividend were fooled as the directors have declared the regular semi-annual disbursement of 37½ cents a share payable September 1, to stock holders of record August 15. The annual financial statement is in the hands of the printers to-day and officials hope that it will be ready to forward to stockholders this evening. In the meantime it can be said that earnings were not up to those of the previous year but are considered satisfactory by the management in view of general conditions in the Dominion and the much keener competition the company had to contend with in this period closed June 30, 1930. Earnings were sufficient to meet bond interest, dividends on the first and second preferred issues and the disbursements of 75 cents on the ordinary shares and permit of an addition to surplus.

Nickel Figures.

The question as to whether International Nickel would earn the dividend in the second quarter is settled to-day by publication of profit and loss figures for the period. Earnings for the second of the year fell short by five cents of the disbursement but the profit of 30 cents in the first quarter together with the 20 cents earned in the second was sufficient to meet the dividend of 50 cents for the first six months. It was well-known that nickel would not earn as much in the 2nd quarter as in the first three months of 1930 and the corresponding period of 1929 and the street was well prepared for the exhibit. The selling off of the stock in New York and Toronto to-day can be attributed to weakness in London where the shares were quoted 20 1-8 to 2½ before the opening of the exchange on this continent. It is said unofficially on the street that sales of nickel have improved in the third quarter of the year and the current period should be a better one than that immediately preceeding. Attention is being drawn by the Toronto stock exchange that those who take up the new shares for cash under the offering of rights will be entitled to the dividend of 25 cents, payable September 30, to shareholdders of record September 2. The rights expire at the end of the month and in the official letter advising shareholders of details it was said the certificates would be issued as soon after as possible and dated so that those paying cash in full would be credited with the dividend.

NICKEL PROFITS SHOW REDUCTION

Net Earnings For First Half of 1930 Equal 50 Cents Per Share.

CURRENT ASSETS DOWN.

TORONTO, Ont., Aug. 15.. (C.P.) Net earnings of International Nickel for the first half of 1930 were officially announced last night as having equalled 50 cents per share, after allowing for preferred dividend. They stood at $7,883,874.23 as against $11,-238,176 for the first half of 1929, a drop of $3,354,301.84.

The proportion of earnings incurred during the second quarter of the year was given as 20 cents per share, a drop of 10 cents from the first period of 1930. First quarter earnings were $4,616,144.13 as against $3,-267,730.10 for the quarter ending June 30, a drop of $348,414.03. Dividend requirements were thus not earned during the second quarter.

The dividend rate was barely covered during the first two quarters. The more stringent days through which the company has passed are reflected in reduced administration and general expenses which for the first quarter of the year stood at $447,271.38 as against $385,968.20 for the June quarter, a reduction of $61,303.10. At the same time there was a slight increase in the reserves set aside for depreciation and depletion.

Inventory valuation shows only a moderate increase. At the end of 1929, inventories were placed at $17,-109,312.18 while at the end of June this had grown by only $521,059.98 to a total of $17,630,372.16. Proportion of copper to nickel in these totals is not indicated, although a recent unofficial statement was to the effect there had been no recent increase in copper in store.

Current assets are down from over $42,700,000 to slightly under $32,000,-000 the largest single item being a drop of over $10,000,000 in call and time loans. There has been a $7,-000,000 in property valuation during the six months total assets standing at $179,557,664 as against $181,-946,699 at the end of last year. Current liabilities have also been reduced from more than $10,500,000 at the end of 1929 to cover $7,600,000 at the end of June.

C.P.R. STOCKS SET NEW MARKS

Minor Losses Displayed in Many Issues During Light Trading at Toronto.

BRAZILIAN WEAKENS.

TORONTO, Ont., Aug. 15. (C.P.)—While there was no price improvement to speak of on the Toronto Stock Exchange in the forenoon to-day the market appeared to steady down and losses were all small. Selling was not heavy and the volume light and the list appeared to be marking time waiting further developments.

C.P.R. old and new were lower and set new marks for the year and since 1927, but the current level was above the extreme low, touched in New York on Thursday.

International Nickel was down fractionally on publication of the quarterly report for the second period of 1930 with earnings of 20 cents or 5 cents below the dividend. This had been discounted beforehand by the markets on this continent but Nickel was quoted 21 1-8 to 21⅛ in London before the opening on the American continent and the market was brought in line here.

Brazilian traction, after displaying strength all week, weakened to sell off 7-8 to 34 3-8. Smelters came out at 180 for a gain of a point and Canadian General electric was up 1 to 360.

British American oil touched a new low for the year below 16 and Imperial was down slightly and the others unchanged.

DESPAIR GROWS FOR 46 MINERS

(Continued from Page 1)

Gas Helmets Sent.

VICTORIA, B.C., Aug. 15 (C.P.).—Having mobilized all the mine-rescue resources of the British Columbia Government to give aid in the efforts of workers to reach the imprisoned miners in the Blakeburn mine at Coalmont, Hon. W. A. McKenzie, Minister of Mines, left Victoria today for the scene of the accident.

All day long the Minister kept in touch with his officials and the mine management at Coalmont. He instructed Inspector F. Strachan from Fernie to proceed to the scene with additional gas helmets, augmenting the equipment already sent from Merriop and Princeton.

Reports of a formal inquest into the death of two men whose bodies have been recovered indicated that the fatalities had resulted from "afterdamp"—a treacherous gaseous condition, following an explosion. The statement left little hope for the afternoon shift, of whom only one escaped—John Parchelle, who was released by the rescue crews near the mine entry. C. A. Smith, 40, and Albert Cole, 19, are the two men whose bodies have been removed from the shaft.

PETROL SHARES ARE TAKEN UP

Action Accounts For Renewed Strength in Oil Issue During Past Week.

COMPANY EXPANDING.

TORONTO, Aug. 15. (Special to Examiner.)—The strength in Petrol Oil and Gas one of the few active spots on the mining market during the last few weeks, it more or less explained by the report going the rounds to-day that a group of three well-known brokerage houses have taken an option on 500,000 shares of the newly created additional capital. The funds received from this deal, it is understood, will be used for expansion of the company's activity and aggressive development of its acreage.

Besides some 88, acres in the Dover field on which two wells have been producing for several years, Petrol Oil holds under lease about 44,000 acres in the Six Nations Indian reserve near Brantford. Under arrangement with Dominion Natural Gas, the company plans to sell the output of many wells in this section, 23 having already been completed with only one failure. Ajax Oil has sub let 7,500 acres of this ground and has several wells completed. It is expected this deal will also constitute a source of revenue to Petrol in the near future.

The use of natural gas has been expanding rapidly throughout the whole continent. Consumers in Chicago are using gas for both heating and lighting purposes which is piped from Texas, and several ambitious enterprises in this direction are under way in Western Canada. It is intimated on the street that should sufficient gas be developed in the Brantford field it might even be piped to Toronto, and that the local company has already shown its willingness to consider such a plan.

It is reported that shares of Hurionian Mining and Finance company, successor to Hurionan belt in Canada, will shortly be listed on the Standard Stock and Mining exchange. An official report, detailing with the company'sposition and telling of position and telling of recent developments is understood to be in the course of preparation and should go forward to shareholders in the course of the next few weeks.

Amulet directors are meeting in Montreal to consider and pass the annual report of the company for the year ended June 30, 1930. Amulets mill was in operation for several months prior to the end of the fiscal year, so that information contained should be of considerable interest to shareholders. Sometime ago officials stated funds must be borrowed to carry the company through the preliminary milling stage, but it is understood these were arranged in a way that makes it comparatively easy to carry on.

The Daily Mail, London, offers a solution for the much feared world gold shortage problem that is of interest to International Nickel. Under the caption, "why not platinum sovereigns", the situation regard to both silver and gold is surveyed, and the suggestion made that platinum be utilized for coinage purposes. Nickel has been for some years of the leading producers of platinum metals and from now on will have even greater quantities of these precious commodities to dispose of.

RAY WILSON BE DEPORTED FROM U. S.

SYRACUSE, N.Y., August 15 (Special to The Examiner). — Harry Hayes alias Ray Wilson, a native of Peterborough, Ont., who has been serving a term in Auburn Prison for grand larceny, will be escorted to the Canadian border when he is paroled on Saturday by Inspectors Ray P. Travis and Curtis D. Tuttle, of the Syracuse immigration office. He will be deported from Buffalo. Hayes was convicted in Buffalo in March, 1928, and was sentenced to serve from two and one-half to five years.

WHEAT POOL.

WINNIPEG. Man., Aug. 15 (C.P.).—Denial that the wheat pools of the Western Provinces would confine their business to the marketing of wheat alone, and refuse to handle the 1930 crop of coarse grains was made here yesterday. The pools have always handled coarse grains, along with the wheat marketing, and this system will be followed again this season, according to a report from pool offices here this afternoon.

ATTEMPTS SUICIDE.

STRATHROY, Ont., August 15 (C.P.). — Walter Mullinger, aged 22, a young Englishman, is in a critical condition in Strathroy Hospital as a result, it is claimed, of gashing his throat three times last night.

The windpipe of the young man was severed and he lost considerable blood before being discovered in the orchard by M. Muldon, by whom he was employed.

CENTRAL SCHOOL WINS HONORS IN PLAYGROUND SOCCER LEAGUE

(Continued from page 1.)

Govarin, Mackness, Ridley, Mowry, F. Todd, H. Castle, Jamieson, Gordon, Giardino.

The referee was F. Dyer.

Sport Tournaments

Following the football game, horseshoe and checker tournaments were held, in both of which contests King Edward carried off the honors. Cliff Castle was master of both the singles and the doubles of the horseshoe affair, while in the checkers tournament Gordon defeated Browne, two games out of three.

Three hundred and fifty children were present at the picnic, which was termed a splendid success, despite the light shower which fell in the middle of the afternoon. The distribution of ice cream and soft drinks to all the children provided a busy half hour for the supervisers.

Cresta, emblematic of the City Playgrounds Championships, were presented to the Central Girls' Softball team, the King Edward Senior and Junior Softball teams, and the Central Boys' Football team. Badges were presented to the runners-up.

This event marks the close of the playground season. Great credit for the splendid work accomplished is being given the Board of Education, which makes the undertaking possible; to James Abraham, who is in charge of the work, and to the young supervisers: Miss Clara Patterson, Miss Ruth Sutton, Howard Macdonald, and Alexander Rogow. It is significant that after eight years of this playgrounds work, the authorities can point with pride to the fact that not a single mishap of any consequence has occurred in all this time. The value of the work in keeping the children of the streets during the hot summer months cannot be overestimated.

OIL TRADING FEATURE ON MINE MARKET

But Balance of List Registers Minor Losses at Noon Hour Session.

PETROL UNCHANGED.

Falconbridge, Sudbury Basin and Pend Oreille Sustain Light Declines.

TORONTO, Ont., Aug. 15. (C.P.)—Oils were a relatively strong group on the mining market during the early period to-day, but the balance of the list displayed a predominance of losses at noon. Trading was light, however, and most changes were confined to a few points.

Ajax oil, whose Oklahoma City well should be completed shortly was up 12 to $1.95 and Home oil, which has suffered under some heavy selling for several weeks, regained 10 to $2.40, Petrol Oil and Gas, reported to have closed a deal with prominent houses involving an option on half the recently created capital addition, held unchanged at 54.

The report of International nickel for the first six months showed dividend disbursements just covered, and bore out forecasts regarding reduced earnings in the second quarter. The stock softened, dropping 75 to $21.50. Noranda was also down a half to $2.75.

Falconbridge and Sudbury Basin sustained minor losses and Pend Oreille was off 5 to $1. Amulet recovered a point to 53. Directors of the latter company are meeting in Montreal today to pass on the annual report which will be issued over the week-end.

Golds were a mixed group with the lower-priced issues showing the most firmness. Howey and Kirkland Lake gold moved up a point each to 41 and 59, respectively, and Sylvanite gained 4 to 44. Lake Shore was off 50 to $22.30, Wright-Hargreaves 5 to $1.75 and Siscoe 3 to 25.

HAMILTON MAN GETS 13 'BULLS'

Sergt. J. E. Freeborn Wins the Silver Medal at Connaught Ranges.

SEVEN WERE TIED.

OTTAWA, Ont., Aug. 16 (C.P.).—Shooting thirteen straight bull's eyes, Sergt. J. E. Freeborn of Hamilton, Ont., to-day won the Dominion of Canada Rifle Association silver medal, awarded annually to the marksman leading in the first stage of the Governor-General's match at the D.R.A. prize meet. Major T. Spittal, Montreal, made twelve bull's eyes in today's shoot-off, but dropped his thirteenth for an "inner," counting only four as compared to five for each perfect shot.

When the first stage of the all-important Governor-General's match ended yesterday, seven men were tied with an aggregate score of 103 for first place. They were: Major Spittal, Sgt. H. U. Burton, Calgary; Capt. T. Steele, Guelph, Ont.; S.-M. E. B. Read, Esquimalt, B.C.; Sgt. W. Davidson, Winnipeg; Lt. D. Warsick, Winnipeg, and Sgt. Freeborn.

Shortly before noon to-day, all seven went out to the range to settle the question of individual supremacy. The shoot early developed into a battle between Sgt. Freeborn and Major Spittal, and firing shot for shot, a steady series of bull's eyes were marked up. Major Spittal fired his 13th round. The marker was red, indicating an inner. Taking plenty of time, Sgt. Freeborn fired. A white square went up from the pitts. It was a bull's eye.

GIANT DIRIGIBLE NEARING ENGLAND

Weather is Unfavorable in England and Over Atlantic.

HALF WAY THIS MORNING.

CARDINGTON, Eng., Aug. 15 (C.P.)—With all in readiness at the airship base here for the return of the British dirigible R-100 from its Atlantic flight, weather conditions here this evening became extremely bad with a south-westerly gale and heavy rain about the mooring tower.

The Air Ministry's report of air conditions over the Atlantic also was not particularly favorable. It read: "A depression in mid-Atlantic is moving east northeast, and is expected to grow deeper. The weather is generally unsettled. The winds are from a westerly point south of latitude 50 degrees, but more variable to the north."

ON BOARD THE AIRSHIP R-100, Aug. 15 (A.P.)—The giant British dirigible R-100 passed the half-way mark on its homeward flight from Canada during the early hours of this morning."

During the 1,500 miles the ship had already flown, no untoward incident had marred the voyage. Just after sunset last night officers were forced to manoeuvre the ship in such a way as to dodge a storm area which, for a moment, appeared threatening. The great ship was brought down to an altitude of 1,000 feet and passed beyond reach of great blanks of clouds which surged forward in her direction.

Rain fell for a while, but caused no inconvenience. The passage so far had been tranquil.

Meteorological experts on board have turned quite grumpy over the fact that only one brand of weather has been experienced on the way over.

CENTRAL STATES SEEK ASSISTANCE

Terse Stories of Drought Disaster Related to Governors' Conference.

THOUSANDS HUNGRY.

WASHINGTON, Aug. 15 (A.P.) — Terse stories of drought disaster were told before President Hoover's conference of Governors. The following are some of the telegrams for aid sent to the agricultural agents:—

Bolivar County, Mississippi—"Feed for 10,000 mules needed. Local resources exhausted. Human suffering already seen. Hundreds of families going from place to place hungry and ill clad."

Carroll County, Mississippi.— "No water. Livestock cannot last much longer. Conditions serious."

Morehouse County, Louisiana. — "Distressing situation; 3,200 families will be furnished feed and food by banks and merchants on monthly basis."

Webster County, Louisiana.—"Urgent need of good supplies for 32,000 human beings."

Columbia County, Arkansas. — "Local authorities will be unable to make further advances. The 2,500 families will be without food. One million dollars will be needed."

HENLEY RESULTS

HENLEY REGATTA, Port Dalhousie, Ont., Aug. 15 (C.P.)—Result of the first events are as follows:—

140-pound Junior Singles.—1, J. Reed, Argonauts; 2, A. Carnegie, Detroit; 3, D. Kirk, Dons; 4, D. Graham, Hamilton. Time 8.33 4-5.

Ryan of Argo and Winer of Wyandotte did not start.

Reed won by a length and a half.

Junior Fours, Final

1.—Detroit.
2.—Dons.
3.—Hamilton Leanders.

Time 7.41 2/5.

Argonauts having scratched left the race to three contestants. It was close for a mile, Dons taking a slight lead but rowed off the course, Detroit passing them. From this point it was a procession.

Detroit won by six lengths, Leanders being that far behind Dons.

Junior Eights;

1—Buffalo East Side.
2—Detroit.
3—Lachine.
4—Argonauts.

Time 7.51 2-5.

West side and Lachine on the inside courses got away bow to bow ahead of the others but could not shake off Detroit. At the mile Argos had pulled up somewhat. On the last 300 yards all shells were lapping. Lachine faltered here, West Side taking the lead, Detroit taking second place.

Junior Singles

1—D. Crane, Princeton University.
2—J. Reed, Argos.

Time 8.52.

A. Dean of Argonauts and E. Konrad of Buffalo West Side did not start.

LORD BIRKENHEAD IMPROVES

LONDON, England, Aug. 15 (C.P.)—A bulletin issued this afternoon said that a blood transfusion resorted to for Lord Birkenhead, who is seriously ill with bronchial pneumonia has had a beneficial effect.

As a result of the transfusion, the bulletin said, there was a slight increase in the patient's general strength. The statement added that Lork Birkenhead's chest condition remained satisfactory.

PREMIER OPENS

(Continued from Page 1)

Judiciary and Bar in Canada is for the maintenance of the Judicial Committee of the Privy Council, Sir William Mulock told the association, in welcoming the delegates on behalf of the Canadian judiciary. "That tribunal is held in the highest esteem by all Canada," he declared, and he thought that the good work of its members is everywhere acknowledged in the Dominion.

Welcoming the delegates of that State, Sir William said the constitution was modelled after that of Canada, and it was his hope that the same blessings of liberty and justice would be seen in Ireland as are seen in Canada as a result.

The Chief Justice said that France and England once settled their disputes by war, but now they use the ways of justice and he wished to welcome the delegates from Paris with the statement that they shared a high judicial tradition with England and Canada.

Hon. Edward A. Armstrong of Princeton, N. J., brought the greetings of the American Bar Association, and recalled its meetings in Montreal in 1913. Immediately preceding the function of the Canadian group. Since that time, our intimate connection has always been maintained, he added.

For the Irish Free State delegation, Hon. R. Justice Hanna spoke. This was the first occasion, His Lordship declared, that the Irish Free State, as such, was represented through its judiciary and members of the legal profession at a gathering of the Canadian Bar Association, he referred to the friendship between Ireland and France "which after centuries is still unbroken. The two countries fought side by side on the fields of Flanders.

"There are many ties between Ireland and Canada", he declared. "In the first place, His Lordship proceeded, many member of the legal profession in Canada were of Irish birth and Irish extraction and many like myself come from Ulster". The constitution of the Irish Free State, too, he declared, was similar to that of Canada.

Touching upon bi-lingualism, Mr. Justice Hanna said he had heard and read much about the two languages in Canada. In the Irish Free State, he stated, an effort was being made "to restore the National language—the Irish language", in 1932, His Lordship proceeded, a knowledge of the Irish language would be essential for admission to the bar of the Irish Free State, statutes of the Irish Free State were being printed in English and Irish on opposite pages in the same volume he declared.

FOG DEFEATS ENDURANCE TEST

Carter Brothers Are Forced to Quit Outboard Motor Endurance.

OUT 61 HOURS.

SOUTH BEACH, Aug. 15.—Fog beat the Carter brothers in their third attempt at a world's outboard motorboat endurance record at 5.30 o'clock this morning. With 61 hours and 23½ minutes running time behind them they piled their boat up on the east shore of Clear Lake when a blanket of fog made it impossible to see more than a few feet ahead of the craft.

Although Joe and Bob Carter have been attempting to break the world's endurance record which was set at 239 hours by an American driver at Cleveland three weeks ago, they have succeeded in setting a Canadian record with the mark of 61 hours and 23½ minutes.

They will start again on Monday morning in a fourth attempt to make the world's record.

The attempt which ended in failure this morning was begun at 7½ minutes after 4 o'clock Tuesday afternoon. The motor functioned perfectly throughout. At 1 o'clock this morning the fog began to settle on the lake and by 5 o'clock it was so heavy that watchers on shore were unable to see the lights on the buoys which were but 50 yards from the South Beach front. The task of refueling the endurance boat while it was on the move in the fog became almost impossible as it was very difficult to find it.

Motor Not Damaged

The endurance craft wandered far off the north end of the course shortly after 5 o'clock but was brought back again. It finally piled up in Fiddler's Bay. The motor was not damaged.

On Monday the Carters will simultaneously attempt to set up a speed record for 6 hours running and one for 12 hours running as well as the endurance record. The existing 12-hour record is 21.75 miles per hour set by James Oates on the same course. D'Arcy Carter, who is managing the present endurance test, told The Examiner this afternoon that their boat ran 12 hours yesterday at a speed of more than 30 miles per hour. The motor has been consuming 60 gallons of gasoline and 10 gallons of oil a day.

FARMERS WHO DO NOT SUCCEED

(Continued from Page 1)

been having a lot of talk to the effect that the farmer was ruined, that the farm could not pay, and that agriculture was on the down-grade. When you have this sort of stuff common in every-day conversation, people are going to begin to believe — and then agriculture will really begin to go down."

Boys on the farms to-day were asking the question: "What are we going to do?" What were they going to do? Dr. Christie demanded. Continue on the farm? Go in for industrial or business training? Or enter a profession? "They cannot all be farmers." he admitted.

"But," Dr. Christie was very emphatic to say, "the boys on the farms, those who have real ability and who know farming, must be kept on the farms. And they must be provided with the proper training to enable them to meet modern conditions."

Dr. Christie declared that he was an optimist, not in word only, but because he was constantly on the farms of Ontario and knew conditions as they were.

New Day Dawning.

There was a "new day" in agriculture, he asserted, and it was time that we ceased "farming the farmer instead of farming the farm." His grandfather had carried on his cattle-buying in a leisurely and limited manner with his neighbors—he had "dealt with conditions as he found them"—but Dr. Christie's brother, who was running the same farm to-day, had to use other methods in his cattle purchasing. His methods brought him in contact with the cities, the big business men, the bankers and the railways.

Towns had grown up around a general store which had been established, not for the benefit of the tradesman, but because the need for such an institution was urgent. The store had been the centre for the surrounding district and the storekeeper had known all the people intimately. In our industrial cities and towns to-day, according to Dr. Christie, many tradesmen were making no effort to maintain that contact with the farmer. They spoke of doing things on a "business basis."

"And it doesn't work to-day any more than it did thirty years ago," Dr. Christie maintained. He congratulated Peterborough for having preserved the unity between city and county and having kept in the city an atmosphere in which the farmer would be happy to do his business.

Dr. Christie is spending the summer in Kawartha region while recuperating from a serious illness, stated John Nelson, who introduced the speaker. He was an Ontario boy, born in Dundas County, whose twenty-five years in the United States had won him a place there high in agricultural circles. After having been honored by several U. S. universities and by the Government, Dr. Christie had returned to become President of the O.A.C.

Appreciation of Dr. Christie's address was voiced for the Kiwanis Club by John Marshall. Among the guests present was the president of the Kiwanis Club of Hamilton, who brought greetings from Kiwanians there.

POLICE CONDUCT

(Continued from Page 1)

studied, as well as the origin of the guns that the slayers fired from within the Perri garage.

Voluntary Statement

Further attention was likewise, being directed to the two automobile licenses, bearing New York state numbers, which have come into possession of the police. It is generally believed that markers were stolen and used on the car in which the murderers made their escape. Ownership of them has been established, and Isador La Dictoire, of Niagara Falls, N.Y., in whose name they were issued, appeared voluntarily yesterday before the police of that city and explained that his car had been wrecked near Hamilton two months ago, and that since that time the damaged car had been stored in a garage. When the tags disappeared from the auto is not positively known. They were picked up five blocks from the Perri home and each bore a piece of wire that probably had been used to fasten them over other licenses.

It was reported to-day that police had found the box from which the shells had been taken, and hoped this would lead to further identification of the purchaser.

OBITUARY

CHARLES CHAMBO.

The death of Charles Chambo, 457 Parnell street, occurred in the city this morning. His age was 77 years.

Coming here from Saginaw City, he had resided in Peterborough for 54 years. Surviving are his wife, three daughters, Mrs. George Panter, Mrs. A. Hamilton, both of this city; Mrs. Charles Kelmen of Toronto and two sons, George in the United States and Frank at home.

The funeral will be held from the residence of his daughter, Mrs. George Panter, 5 Frank street, to Little Lake cemetery at 2 o'clock tomorrow afternoon. Rev. J. D. Paterson of All Saints' Church, will conduct the services.

Shipments from Shanghai, China, to the United States in the first six months of this year were valued at $24,111,000.

GRAFTON'S

KIDDIES'

NEW BRUNSWICK'S MINISTER COMES OF STURDIEST STOCK

Dr. Murray MacLaren Has Distinguished Record of Past Achievement.

SERVED OVERSEAS

BLACK'S HARBOR, N. B., Aug. 15.—In the foreground stands Hon. Dr. Murray MacLaren, Minister of Pensions and National Health in the Bennett Cabinet. What of the background, and what of the years that preceded the elevation of the member for St. John to the high position of New Brunswick's representative in the council of the new Government?

Back of MacLaren are forests of pine and spruce; tall ships and the seven seas, lumbermen and craftsmen who produced and fashioned the peerless clippers that made New Brunswick famous in the maritime marts of the world. Back of MacLaren are merchant princes, pioneers in lumbering and shipping.

Back of him, too, is a record of achievement in medicine and surgery, a record established by an able father and a worthy son.

With the trees and the ships and the healers, there are soldiers, too; for MacLarens marched in the ranks of the millions who fought in the Great War.

Of Maritime Stock.

Murray MacLaren was born in the village of Richibucto, Kent County, N. B., April 30, 1861, son of Dr. Laurence MacLaren and Jane Murray Jardine, both Scottish Canadians.

Dr. Laurence MacLaren was a native of Charlottetown, P. E. I., and a graduate of Edinburgh University. His wife was a Jardine from Richibucto. Dr. Laurence practiced medicine and surgery at Richibucto, and when the present Minister of Pensions and Health was three years old, the family moved to St. John, N. B., where Dr. Laurence built up an extensive practice.

Hon. Dr. Murray MacLaren was educated at the old St. John Grammar School and at the University of New Brunswick, where he took his B.A. degree. At Edinburgh University he graduated M.D., C.M., and afterwards pursued post-graduate studies at Vienna and at a London hospital. He holds an honorary LL.D. from the University of New Brunswick. His other titles include: M.R.C.S., F.A.C.S

In Dr. MacLaren, after practising in a London (Eng.) hospital, opened an office in St. John where he soon became recognized as an outstanding physician and surgeon. He later specialized in the latter branch and is at present senior consulting surgeon to the St. John General Hospital. He was president of the Canadian Medical Society in 1914.

Active in the militia from early manhood, the Minister of Pensions and Health was at one time assistant surgeon of the 62nd Fusiliers which went overseas as the 26th Batalion. In 1900, he raised No. 8 Bearer Company and No. 8 Field Ambulance.

Military Experience.

Hon. Dr. MacLaren volunteered for active service on the outbreak of war and after serving at Valcartier went to England and then to France.

He was deputy-director of medical services for the Canadian army until just before the armistice, when he became commander of the Granville Canadian special hospital. Previously, he had been commandant of a hospital at Etaples.

He was adviser and delegate for Canada on the inter-allied permanent committee on disabled soldiers. He was also connected with the Ministry of Pensions, England, and Inter-Allied Council of Surgeons.

For service to his country, Hon. Dr. MacLaren holds the 1914-15 Star, General Service, Victory and Long Service medals. He also is a commander of the Order of Avis, Portugal.

He is a member of the Union Club, St. John; Rideau and Country Clubs, Ottawa; University Club, Montreal. He was president of the Dominion Council, St. John Ambulance Association, 1924-26, and has given a great deal of time and effort to the Red Cross.

Public-spirited, Hon. Dr. MacLaren donated $30,000 to the fund for the erection of the new provincial museum of natural history, now being built on Douglas Ave., St. John. This building will house the priceless collection of Indian relics now stored in the St. John museum. The construction cost is borne equally by the Province of New Brunswick and by private subscription.

A keen student, the new Minister has made regular periodic visits to the European medical centres.

His chief recreations are golf and fishing.

Hon. Dr. MacLaren is an elder of the Presbyterian Church of St. John and St. Stephen, at St. John.

The Minister's Family.

He was married on September 6th, 1888, to Olivia Mary, daughter of the late John W. Nicholson of St. John. His father-in-law was engaged in shipping and was also a commission merchant. Mrs. MacLaren was overseas during the war and was a visitor for the Red Cross to hospitals for soldiers.

Hon. Dr. MacLaren and Mrs. MacLaren have four children: Nicholson Ian Murray MacLaren, vice-president for Canada of the Rochester and Pittsburg Coal and Iron Co., Toronto; Elspeth Eleanor Talbot, wife of Dr. George Hooper, noted surgeon, Ottawa; Margaret Jardine Laurence MacLaren, M.A. (McGill), at home; David Alastair Murray MacLaren, student in England, a graduate of R.M.C., Kingston.

MARMORA

Mr. James Meehan of Detroit is spending holidays at his home here.

Mrs. George Wilkes visited Peterborough on Tuesday.

Mr. Joseph Shannon had the misfortune to lose a valuable horse on Tuesday.

Mrs. G. Hunter of Toronto is visiting relatives in town.

Mr. William Phillips, who has been sick all summer, is improved in health and able to be outdoors again.

Mrs. R. Christie left on Monday for Toronto where she will spend a few months.

DISTRICT NOTES from Villages and Towns in District

(BY CORRESPONDENTS OF THE EXAMINER)

MARMORA

Miss Almira McKenzie of Sydney, Nova Scotia, is visiting her parents, Mr. and Mrs. Albert McKenzie, at Deloro.

Mr. T. F. Mitchell and son of Toronto spent Tuesday and Wednesday in town.

Dr. A. T. Embury, M.P. elect, was in town on Tuesday.

Capt. Rustin of the Children's Shelter, Belleville, was in town on Wednesday.

Mr. William Pritchard of Toronto is visiting his brother, Mr. T. Pritchard.

Mr. and Mrs. Bernard Hughes of Toronto are visiting the former's mother, Mrs. W. Hughes at Crowe Lake.

TWEED

Mrs. John Houston, of Belleville, and Mrs. Martin, are visiting Mrs. Dr. Bowlby.

Mrs. Lesley McGowan, of North Bay is visiting his parents.

Mrs. H. Wager and children, of Gananoque are visiting Mrs. E. Wagar.

Mr. and Mrs. Ernest Bushnell spent Saturday with Dr. C. H. and Mrs. Laidley in Lindsay.

Mrs. J. J. Magee visited her sister, Mrs. Junkin in Lindsay last week.

Bull Dog Drummond Back In New Serial Story Appearing Daily In The Examiner

The Examiner began publication of a new serial—a return of Bulldog Drummond, by Sapper, on Monday.

This story is entitled "Temple Tower" and the fact that the Petersens do not appear in it does not detract of the interest, for Sapper has brought the tale off brilliantly once more.

Bulldog Drummond, on the scent of fresh adventure, decides to investigate the activities of his secretive neighbor Granger. Inquisitiveness draws him into the most amazing adventures of his life and eventually brings him to death-grips with a hunch-backed stranger compared to whom Carl Petersen was a little turtle dove.

Drummond cuts his own splendid record and goes through a succession of thoroughly enjoyable, thrilling "shockers" that keeps the readers keyed up to the end.

There is a liberal instalment of "Temple Tower" in every edition. If you neglected to start reading it at first call at The Examiner office and the necessary papers will be furnished you.

Five of Leading British Lawyers on Visit to Canada

The party of eminent English jurists en route from England to Canada to attend meeting of the Canadian Bar Association in Toronto have been delayed by an Atlantic storm, according to a dispatch. Five prominent members of the party, which includes leading lights of the British bar, are shown in the photographs reproduced above: (1) Sir Boyd Merriman, K.C. (2) Rt. Hon. Sir John Simon. (3) Rt. Hon. Lord Macmillan. (4) Rt. Hon. Sir William Bull, Bart, and (5) Sir William Jowitt, K.C., M.P.—Photograph of Sir John Simon copyright by Hay Wrighton, London.

Hespeler's Sea Flea Racing Alderman

One of the outstanding features of the sea flea meet at Swastika Beach, Puslinch Lake, recently, was the driving of Ald. William Marriott of Hespeler, Ont., who not only won the local race in the three straight heats from younger men, but stepped on up into the open competition of Class "C" and finished fifth in a good field of high-class and experienced drivers Up and around Pulinch Lake Ald. Marriott is affectionately known as "Ol' Bill." He drives a real racing sea flea outfit, and is not only a superb rough water driver, but is not afraid to plow right into the turmoil of a big field. His work at the starts drew cheers every time he came up for the flag.

HOPE TO COMPLETE SEVERN DIVISION

Understood Necessary Steps Will Be Taken With the New Dominion Government.

Hopes for the completion of the Severn Division of the Trent Waterway are running high, due to promises from Federal members-elect, whose constituencies border on the waterway, that immediate pressure to that end will be brought to bear upon the new Dominion government.

A letter was received to-day by Frank G. Stinson, Manager of the Trent Waterway Association, here, from J. T. Simpson of Barrie, member-elect for North Simcoe, which assured the association of Mr. Simpson's entire sympathy with the project and his intention to use his influence in its behalf.

The letter read:

"I have your letter with copy of the annual report for 1928 of the Trent Waterway Association enclosed.

"I am much interested in the completion of this public utility and will do all I can toward this end.

Yours truly,

(Sgd.) J. T. Simpson.

Member-elect for North Simcoe."

HARBOR CONTRACT LET.

SAINT JOHN, N.B.—The Saint John Drydock Company Limited, has been awarded a contract for the dredging of Saint John harbor at a cost of about a million dollars. The work will take a couple of years to complete and will employ a large number of men.

Champion Scullers of World-Wide Fame

The trio pictured above are all champion scullers of world-wide fame. On the left Joe Wright, winner of the Diamond Sculls in 1928; in the centre Bob Pearce of Australia, the Olympic champion of 1928; and Jack Guest, the Diamond Sculls winner of 1930.

GANDHI WRITES TO LORD IRWIN

Explains His Position Regarding Civil Resistance Campaign.

CONTENTS KEPT SECRET.

POONA, India, Aug. 15 (C.P.).—Mahatma Gandhi and his congress fellow-prisoners in Yeroda Jail have written a letter explaining their position regarding the civil resistance campaign which to-day was forwarded to Viceroy Lord Irwin.

The letter was directed especially to Sir Tej Bahadur Sapru and Mr. Jakakar, the moderates, who instituted peace overtures among the Gandhi volunteers, and who have been meeting with the Mahatma for a few days in his prison quarters.

No hint of the contents of the letter was given by the conference participants.

Voice of the People

Letters to be printed in the Voice of the People column must be received at The Examiner Office on the day before it is desired to have

MOTOR'S GREAT HELP

To the Editor, Examiner.

Dear Sir:

May I use your columns to express a note of appreciation for the ready assistance given Police by the Canadian Johnson Motor Company of this city on the occasion of the drowning of Chester Crowe on August 7. Through Manager Hugh Campbell, outboard motors were unhesitatingly placed at the disposal of the police by the Canadian Johnson Motor Company to aid in the search for the body shortly after the tragedy and the work was greatly facilitated.

On several former occasions the Provincial Police enjoyed similar co-operation from this company.

Provincial Police Constable H. Thompson.

Farmer Fights Grim Battle With Leopard

South African Man is Exhausted by Long Struggle for Life.

SPRINGBOK, Cape of Good Hope, Aug. 14 (C.P.)—A fight to the death between a man and a leopard is described by farmers coming here from Nigramoep, about fifty miles away.

A farmer named Van Zyl, accompanied by three colored men and ten dogs, set out on an expedition to find a mule which had strayed. They had just arrived at a defile between two rocks when suddenly a huge leopard emerged and sprang at Van Zyl. The attack was so swift and unexpected that the colored men and the dogs took flight immediately.

Van Zyl fired one shot, but the bullet only grazed the leopard and enfuriated it the more. The man failed to escape by dodging around the rock; the leopard was too quick for him. Van Zyl made desperate attempts to reload his gun, at the same time fighting off the leopard with terrific blows from the butt.

Then it was a hand-to-hand struggle in which the man's hand and leg were torn open, and he almost fainted from loss of blood. In a moment of good luck he was able to slip another cartridge into the gun, and his fumbling fingers soon found the trigger. The second shot, fired at close quarters, entered the leopard's mouth and shattered its head.

Van Zyl sank to the ground in an exhausted condition. He was practically unconscious when he was later discovered by an old colored man. Carried to the hospital, his wounds were treated and he is reported to be progressing favorably.

CANADA HAS STRONG ENTRY FOR BIG SWIM

Martha Norelius, Ruth Tower and Ethel Hertle Among the Favored Women.

TORONTO, Ont., Aug. 15 (By The Canadian Press)—Added to Canada's native swimming stars, the Dominion, for this year's world championship marathon, has acquired half a dozen additional threats for the title by naturalization and immigration.

As usual, the 10-mile and 15-mile classics for professional long distance laurels are to be fought out under the sponsorship of the Canadian National Exhibition. This is All-Canada year at the Exhibition and the men's and women's marathons, in keeping with the general atmosphere, are entirely under C.N.E. control. The Exhibition is also contributing the $25,000 in cash which will go to the winners.

On Aug. 22, the mermaids will do a 10-mile dash for the feminine supremacy of the globe in these matters. On Aug. 27, there is the 15-mile open event and the world's title. Entries do not close till August 16.

Under the circumstances, a Canadian win would be most timely. Among the fair swimmers, the current titleholder, Martha Norelius is, by her marriage to the Canadian oarsman, Joe Wright, Jr., and will, if she swims which is indefinite, be entered as a Canadian. This country, then, took the feminine honors by marriage.

Olive Gatterdam, Seattle schoolgirl who came within a few yards of taking the title from Ethel Hertle in 1928 has now adopted the Dominion as her home. Last year, she did not rank in the money and is, therefore, redoubling her training efforts for this race.

In 1928, the red-headed Ruth Tower of Denver, an unknown among marine stars, landed in third place after a great performance. In 1929, she moved up one place and stuck right to the heels of the great Norelius all the way to finish second. In the meantime, she, too, had turned Canadian. She is now Mrs. G. H. Corsan, Jr., of Toronto. Never having failed to place among the prize winners, she hopes to progress to the pinnacle this trip and left for the Muskoko Lakes weeks ago to devote herself entirely to training.

Then, the Dominion has a somewhat spectacular unknown who is apt to come through and stage a surprise. She is the 18-year-old Joan Foord of Toronto. In November 1928, she came, alone and intent on making her own career, from London, England. In August of last year, two weeks before the race, she was holidaying at Georgian Bay. She made the discovery that she was a natural distance swimmer and after urging, entered the race With only a few days training and no coach, she did 8½ miles and was in 9th place when she stopped.

DOMINION POWER BOUGHT BY HYDRO

Purchase Includes Entire Assets, Franchises and Rights.

COST $21,000,000.

TORONTO, Ont., Aug. 14 (C.P.)—The Hydro-Electric Power Commission of Ontario to-day completed the purchase of the entire assets, including the franchises and rights, of the Dominion Power and Transmission Company, Limited, and its subsidiaries, for the sum of twenty-one million dollars, as announced some months ago.

The twenty-one million is paid in bonds of the Hydro-Electric Commission, guaranteed by the Province of Ontario, in $6,000,000 par five per cent bonds and $13,000,000 par 4½ per cent 40-year bonds.

In the purchase of the Dominion Power and Transmission Company, with head office in Hamilton, Ont., the Commission also acquires eleven subsidiary companies. The Commission also takes over a number of power contracts for the supply of power to municipalities and to large power users as well as to numerous small industries scattered throughout the territory served—roughly, extending from Port Colborne to Brantford and Oakville.

Dictaphones which may be concealed in ash trays have appeared in Europe.

Westerner in Cabinet

Hon. Thomas G. Murphy, member for Neepawa, Man., who has been taken into the Bennett Cabinet as Minister of the Interior and Superintendent-General of Indian Affairs.

S. AFRICAN TEAM STRONG AT GAMES

Davies is Threat to Lord Burhley—Legg May Give Williams Keen Competition.

CAPE TOWN, South Africa, Aug. 13 (By The Canadian Press)—South Africa is expecting many triumphs for the members of the Springbok team which is competing at the British Empire Games in Hamilton, Canada, August 16-23. It is described as the finest all-round team that has ever represented this country in international competition.

Officially ranked as the most brilliant athlete in the Springbok team, H. Q. Davies is expected to give Lord Burghley a stiff race for the hurdle championships. Writing in the Cape Town Argus just before his departure Mr. Davies, said, "The brilliance of the Canadian athletes at the 1928 Olympiad was astonishing." Percy Williams particularly came in for his highest praise. To challenge Williams' speed South Africa sends W. B. Legg and J. H. Viljoen, both of whom have done the 100 yards in 9 4-5 seconds. Viljoen is also a hurdler of note, and his best mark for the high jump is 6 feet 2 5-8 inches.

Davies is confident that H. B. Hart's appearance in the Decathlon will mean a South African victory. The Decathlon is the only all-round competition open to an athlete. It consists of the standard 10 events, every one of which must be run by the competitor, and for each of which he receives certain points, computed on the basis of the Olympic record. Hart's shot putt is just under the 47 feet mark and in throwing the discus he has improved to 130 feet.

W. B. Legg is acknowledged as South Africa's fastest sprinter. He was clocked at 9 4-5 seconds twice over the hundred yards distance in the South African championships. W. Gerhardt is another sprinter who is credited with doing the 200 metres in 21 2-5 seconds. The half-miler is J. Chandler, who is expected to cover the distance in less than 1 minute and 54 seconds. An inexperienced but promising young runner, W. Walters, may be the surprise of the team. South Africans are hoping that he will prove to be another Percy Williams.

At the Theatres

AT THE CAPITOL

NORMA SHEARER IN "THE DIVORCEE."

When Norma Shearer made her initial appearance in the silent movies, she did ingenue roles—young girl effects, with innocent atmospheres. Now, she specializes in daring portrayals and does them extraordinary well. The only flaw in her presentation, perhaps, is her choice of wearing apparel. Some of her clothes are peculiar, to say the least, and seem to obscure, rather than enhance, her undoubted good looks.

"The Divorcee' is a fine title, and the picture is quite fascinating. It is modern in every way. One tiny scene affords a highlight and an index to the text. It is the bit where the wife, departing for her daily work with a portfolio of sketches under her arm, informs her husband that she has copied his example and then tells him she will see him later.

Proponents of the single standard in morals have in "The Divorcee" an excellent exposition of its working out in real life. Whether it affords a pleasant picture or not, depends on the mental attitude of the onlooker. But it is a very brilliant and up-to-date talkie, with plenty of rapid action and swift-moving tempo and the star who dominates it is a splendid emotional actress—one of the best.

—Jeanette.

AT THE REGENT

"THE SQUALL."

Here is a tempestuous and very interesting talkie. It has a siren of a type that is distinctly different to the usual one. Nubi, the gipsy, dominates the picture with her youth and beauty and passion. Apparently, like Undine of the old story, unpossessed of a soul, she works her will on the various masculine actors in the talkie and she has a wonderful time before her master, with a whip, comes to claim her.

An element of "mother" interest has been introduced to put Alice Joyce in the central place. The lovely music of Dvorak's "Songs My Mother Taught me" form the theme motif of "The Squall." But all of Alice Joyce's undoubted charm is powerless against the lure of the dark-skinned gipsy girl who comes in the night into the peaceful Hungarian household and sets it by the ears.

In turn, Peter, the servant, Joseph, the master of the house, and Paul, the son, succumb to the gipsy's wiles.

In this picture is the inimitable Za Su Pitts, with her languishing manner, her elfish face and the tired voice that matches her personality so well.

It is an intriguing tale and unusual in treatment and characterization.

—Jeanette.

PLANE STAYS ALOFT 46 HOURS OVER RECORD

ST. LOUIS, Aug. 15.—The endurance monoplane Greater St. Louis, piloted by Dale Jackson and Forest O'Brine had been in the air 598 hours at 5.11 a.m. (E.S.T.) to-day, more than 44 hours longer than the previous record for sustained flight.

WELL-KNOWN LINDSAY COUPLE CELEBRATE 50TH WEDDING DAY

Mr. and Mrs. A. M. Paton Spend Happy Occasion With Family And Friends.

MOVING PICTURES TAKEN

LINDSAY, Ont., Aug. 15. — To be able to mark the 50th anniversary of one's wedding is given to but few and possibly that number will get smaller as the years go on and to celebrate it in the charming surroundings enjoyed for that event by Mr. and Mrs. A. M. Paton, at their home, 35 Mill Street, Tuesday afternoon, is given to still fewer. The grounds at the front of the house lent themselves most effectively to the needs of this pleasant function, the bright sun made a spot of warmth on a rather cool day as the many friends of the bride and groom of fifty years ago gathered to voice their congratulations and help celebrate a most auspicious occasion.

Chairs were grouped about the lawn and the bride and groom were placed at a lawn swing banked on either side with golden colored flowers. Prominent in the centre of the area was a bride's cake on a separate table, pieces of which were distributed to the guests, who partook of a delicious supper, served by members of the family and close friends of Mr. and Mrs. Paton. The reception lasted from four to seven o'clock and in that time a large number of friends, not only from the town but also from the surrounding country came to join with the family in celebrating this event.

Born in Peterborough.

Mr. and Mrs. A. M. Paton have resided in Lindsay for the past thirty-seven years. Mrs. Paton, whose maiden name was Ella E. Waite, was born in Peterborough, and Alexander M. Paton was born in Cobourg. They were married in Port Hope on August 12th, 1880, by the Rev. Mr. Clealand.

On Tuesday this happily-married couple received over a hundred guests and relatives from far and near, the event being recorded in moving pictures and photographs taken by Mr. Fred Roy, of Peterborough. The table was effectively decorated and the refreshments daintily served. The event is of interest not only to Lindsay but also to many residents in Peterborough, Harwood and Hastings, where Mrs. Paton formerly lived.

Family Present.

The immediate members of the family who were all present for this occasion were: Mr. and Mrs. D. W. Paton, of Toronto; Mr. and Mrs. N. McConnell, Lindsay; Mr. and Mrs. H. E. Paton, Wood River, Illinois; Mr. C. H. Paton, Toronto; Mr. H. Scott Paton and Mr. and Mrs. J. E. Hill, New York City. Their eight grandchildren were also present, providing much life and color to the pretty setting on the lawn.

Other relatives were: Miss Alexia Paton, Lindsay; Mrs. W. K. Harstone, Grimsby; Mrs. J. S. Huntoon, Ontario, Calif.; Mrs. J. L. White, Los Angeles; Mr. and Mrs. G. H. Waite, Orillia; Miss Dorothy Harstone, Toronto; and Mr. and Mrs. W. J. Waite, of Lindsay.

Among the out-of-town guests were Dr. and Mrs. J. W. MacMillan, Toronto; Mr. and Mrs. R. M. Glover, Peterborough; Mrs. Geo. Henderson, Holyoke, Mass.; Rev. and Mrs. D. A. Thompson, Hastings; Messrs. John and William Whitelaw and Miss Jessie Whitelaw, Cobourg; Miss Marion MacDonald, Cobourg; Mr. and Mrs. L. Kennedy, Toronto; Mrs. W. Tafts, Toronto; Miss Mary Stewart, Toronto; Miss Mary Stewart, Toronto; Mrs. J. R. Stratton, of Toronto; Mrs. E. Cavanagh, Peterborough; Mr. and Mrs. Fred Roy, Peterborough; Mr. and Mrs. W. Green, Peterborough; Mrs. Alex. Jackson, Toronto; Mrs. W. McLennan, Toronto; Mrs. McCreery, Toronto; Mrs. W. S. Scott and Miss Lenore Scott, Toronto; Mr. and Mrs. T. Glover, Peterborough; Mrs. Gilpin, Orillia; Mrs. Walker, Toronto; Mr. Andrew Tudhope, Orillia; Mrs. S. G. Hartshorn, Chemong; Mrs. Moore, of Montreal, and Miss Jessie Glover of Rochester, N.Y.

Many friends from the town of Lindsay also called and offered their congratulations, showing the high esteem in which Mr. and Mrs. Paton are held in their own community.

Mr. and Mrs. Paton were the recipients of many charming gifts, including a generous purse of gold, and congratulations were received from all corners of the globe.—From Lindsay Post.

To Fly Atlantic

J. Erroll Boyd, co-pilot of the Bellanca monoplane Columbia on the round trip, New York to Bermuda, plans a solo flight from New York to London as soon as weather permits. He intends to demonstrate a new simplified system of navigation and expects to cover the 3,000 miles within 30 hours.

HOME TOWNERS

Tidbits, Interesting and Humorous CAMPBELLFORD

At the eleven o'clock service at Christ church (Anglican) on Sunday, the Rev. Canon Skey, rector of St. Anne's church, Toronto, will be the special preacher. Holy Communion will be administered at 8 a.m. and at the evening service the rector, the Rev. N. Clark Wallace will occupy the pulpit. At St. Andrew's Presbyterian church morning and evening service will be as usual with the Rev. Dr. W. J. Mark as the preacher. At St. John's United church the preacher for the day will be the Rev. A. E. Jones of Trenton, Ont. The Baptist church will feature only a morning service, with Sunday School at 10.30 a.m. At the morning service at St. Andrew's Presbyterian church, Burnbrae, the Rev. Donald A. McKenzie will take for his sermon subject "What Happens After Death?" On the Seymour United Church circuit, Mr. Clayton Burr will preach at Tabernacle at 1 a.m., Zion at 3 p.m., and Stephens at 7.30 p.m.

Mid week services include the prayer service at St. Andrew's Presbyterian church on Wednesday at 7.45, and the mid week meeting at the Baptist church on Thursday at 8 o'clock. At St. Andrews' church, Burnbrae, the Mission Band will meet at the home of Mr. Robert Miller on Thursday at 3 p.m.

The county cheese for the C.N.E. this year is being prepared by Mr. Fred Peister of Codrington.

Preparations are being made by the Band of the Northumberland Regiment and the Campbellford Branch of the Canadian Legion No. 103 to stage a garden party on the grounds of the Armouries in the near future. A good program will be arranged for this event. The proceeds will be used to purchase new uniforms for the members of the band.

The line up of the Campbellford lacrosse team was deprived of the ability and skill of one of their players in their game against Oshawa on Wednesday when L. Blake was unable to be on the field. Mr. Blake underwent an operation for tonsils on Tuesday, having them removed, but it is hoped that he will be with the team in the play offs.

Major W. F. B. Belford of Codrington was a visitor to town on Friday.

After spending two weeks' holiday with Miss E. Bedford and other friends, Mr. and Mrs. Brayford have returned to their home at Oshawa.

Mrs. A. J. Thompson and two sons, Jack and Billie of Bloomfield, are spending this week with the former's parents, Mr. and Mrs. J. M. Battisby. Mr. Thompson is expected to join his family this week and then they will go on their holiday trip.

Motor bus competition has caused the closing recently of 26 railway stations of one road in England for lack of fares.

SPEAKER GIVES SPLENDID TALK

British and Foreign Bible Society Held Meeting in United Church.

AT ROSENEATH.

ROSENEATH, Aug. 15. (Examiner Correspondence).—The British and Foreign Bible Society meeting was held in the United Church on Tuesday. Owing to the busy season the attendance was not large but those who were present heard an excellent address by Mr. Millman, representative for the Upper Canada Bible Society.

Rev. R. W. Paton, B.A., was chairman and read the scripture lesson, John 15, after which reports were given by Mrs. C. W. Varcoe of the United Church and Mrs. Lottie Nichol re presented St. James Anglican church. The officers for the year were appointed as follows:

President—Archie Campbell.
Secretary—Mrs. Lily Turner.
Treasurer—Mrs. Lottie Nichol.

Collectors were selected but left for the oficers to interview on account of these ladies being absent, namely, Bessie Turner, Doris Mouncey, Elva Sandercock and Gladys Blodgett.

In Mr. Millman's talk to the audience he mentioned the need of keeping the Society alert and said "If the work of the Bible Society stops or lags then the whole world stagnates, because it loves that knowledge of God which alone brings to men the energizing power that carries human life to the heights. We shall resolve first that we ourselves shall read it with more constant application and then resolve that, so far as in us lies, no man or woman under God's heaven, hungering and thirsting for this Word of Life shall go without it if it is in our power to bestow.

This being the 126th year of the British and Foreign Bible Society has to its credit twelve new translations: The list of versions now reaches a total of 630 and the output during the year was over twelve million volumes.

Mr. Millman spoke briefly on Mission work in foreign lands and saying wherever the missionary goes the Bible Society follows to give the written Word, to give fixity to the message, it not only continues and completes the message of the missionary; it is a great Missionary Society itself.

In conclusion, whatever be the response to the Bible and none can calculate the spiritual results of the work it does, the countries of the world to-day lie open for its distribution and with the exception of Russia, there is now little or no organized opposition to its circulation.

Amidst the waves of revolution, insurrection and social commotion that are passing over many peoples to say nothing of the waves of trade depression and unemployment that seems to have swept the world, the Bible and its principles are needed to-day.

On behalf of the congregations, Rev. Paton thanked the speaker for his splendid talk in bringing new thoughts to his people and showing how greatly the Bible Society is appreciated for their work.

The meeting closed by singing a hymn and prayer by the pastor.

SCHOOL REPORTS

OMEMEE HIGH SCHOOL.

BLUE FOR FLYING.

LONDON, Aug. 15.—(CP).—Members of the Oxford University Air Squadron, which is in camp for its annual training at the Royal Air Force aerodrome, Manston, near Margate, are considering a campaign to secure the awarding of a blue for flying. Four of them are rowing Blues Women undergraduates are extremely annoyed because the Air Ministry has refused to allow them to join the squadron. Many of them have applied, and argue that even if they were not allowed to fight in the air, they could at least be test and "ferry" pilots, flying the fighting planes from the factories to the war area.

The increase last year in the number of automobiles in the world was 3,092,826.

ANNUAL PICNIC AT MILLBROOK HUGE SUCCESS

"Grandmothers' Day" Observed By Members of Women's Institute.

GOOD PROGRAM.

Society Plans to Replace Flag Pole on Town Hall Square.

MILLBROOK, Aug. 15 (Examiner Correspondence)—The annual picnic outing, usually known as "Grandmothers' Day," under the auspices of the Women's Institute, was held at the home of Mrs. J. L. Byam, Bank street, on Wednesday, August 13, at 2:30 p.m. with a large attendance of members and visitors, the grandmothers of the community being well represented, and the enjoyable event, which is always looked forward to with interest and enthusiasm, being with marked success in every detail.

The warm sunshine, the large, well-kept, and beautifully-situated grounds, the warm welcome extended by the hostess, and the officers in charge, and the thorough preparation beforehand by the various committees, all contributed greatly to the enjoyment of the out-of-doors gathering.

The president, Mrs. T. G. Harkness, took the chair for the business session, and among the guests of honor was the East Durham W.I. District President, Mrs. T. A. Skitch, of Baillieboro, who gave an inspiring address.

Following the reading of the minutes by the secretary, Mrs. W. H. Armstrong, was a discussion of a number of items including the purchase of a new flag-pole for the Town Hall square to replace the one destroyed in a heavy windstorm two or more years ago. On motion it was decided to proceed with the community improvement, provided the expense involved did not exceed one hundred and fifty dollars. The Institute has a large and handsome flag ready for use when the new pole is in place.

Sanitary improvements at the Town Hall were also discussed and a committee appointed to look after this matter. At the call of the president a number of members volunteered for the quilting which the Institute has in contemplation, and which will be held at the home of Mrs. W. H. Armstrong, Fourth Line, Cavan, on Friday, August 22, when it is hoped the three quilts for which materials are now on hand, will be completed. A committee to serve lunch the day of the quilting was also appointed.

The invitation foy the local branch of the Women's Institute to attend Saint Thomas' Anglican Church, when Rev. W. P. A. Roberts, rector in charge, will preach specially to the organization, was accepted, and Sunday, August 24, at 7:30 p.m. set for the occasion. The members will gather in the Sunday School hall by 7:15 and enter the church in a body.

An appeal from Rev. Arthur Pickering, representing the Canadian National Institute for the Blind, for financial assistance was presented by the president, and on motion the sum of ten dollars was voted to this worthy cause.

A committee to look after a booth, under W.I. auspices, at the Rural School Fair on September 8, was appointed, the members being: Mrs. Harkness,, Mrs. W. H. Armstrong, Mrs. T. H. Aiken, and Mrs. R. J. McKnight. The committee appointed to be responsible for the program at the September meeting was: Miss Mina Gibson, Mrs. Wesley Brown, and Miss Martha Lunn.

The secretary read a letter from Mr. Putnam regarding reports to be sent in time for the annual provincial convention in November, and the matter of appointing delegates was left over until the September meeting.

Mrs. T. A. Skitch opened her address by suggesting the change that has come over Institute activities in recent years, a widening of vision and program being very noticeable, from the earlier days when cooking demonstrations and an exchange of recipes were the marked features of the monthly programs. The district president, however, felt that W.I. members generally are still much interested in the matter of cookery, and not only gave a pickle recipe she could personally recommend, but succeeded in persuading several others to give in detail seasonable recipes they had tried out, and found satisfactory.

A discussion on the respective merits of granite ware, or aluminum ware, for culinary purposes was also introduced by Mrs. Skitch, provoking a lively participation by those interested, which included practically everyone present, many helpful hints being obtained.

Proceeding then to the subject of her address, "Worthwhile Life Purposes," Mrs. Skitch advanced many very constructive ideas capable of being profitably worked out in the everyday lives of her listeners. To live in the very fullest sense, to measure life by its usefulness, not by its years, to cultivate the ability to use and enjoy one's environment, to realize that wealth is not always a source of happiness and that real riches includes the well-developed capacity to enjoy what one has, converting posessions into good deeds that may be taken into the life to come, and that it is not wise to have one's body housed in a mansion, and the soul in a dugout, were some of the suggestions given with force and detail leaving an impression not soon to be forgotten.

Rooms to be added to each life, making it rich in resource and beauty were: (a) reading; (b) music; (c) out of doors, "Read Nature, for Nature is a friend of truth;" (d) sentiment, or love; (e) children, "who make a world of care and trouble and pay for it all as they pass along;" (f) work, "from labor health, from health, contentment springs"; (g) religion, "which is best understood when most practiced."

The sports' program followed the business session, the winners of the races being: Children's race, 1 Yvonne Papineau; 2 Shirley Needing; 3 Helen Thexton.

Girls under 12: 1 Dorothy Cathcart; 2 Wilma Armstrong; 3 Lulu Young.

Boys under 10, 1 Donald Pritchard; 2 Leslie Sage; 3 Ross Lunn.

Three-legged race, 1 Ida Lunn and Vera Armstrong; 2 Lazelle Lunn and Evelyn Young.

Thread and needle race, 1 Mrs. Howard Lunn and Mrs. P. Stinson; 2 Misses Aileen Armstrong and M. Gibson.

A 'bean guessing' contest specially for grandmothers provided amusement and interest, Mrs. L. H. Morton winning first place; Mrs. W. Mullen second, and Mrs. Elmer and Mrs. W. Husk tieing for third place, the latter winning the prize when a second guess was allowed.

The local president, Mrs. Harkness, followed her usual custom of donating a special prize for the "slow walk" race, limited to the grandmothers, giving a fine linen towel to the winner, which on Wednesday proved to be Mrs. C. W. Richards, who kept most nearly within the three minutes allowed for the contest.

The "nail driving" contest had plenty of entrants, and developed quite a bit of ability in handling a hammer and driving a four-inch nail into a log, interest becoming quite keen as one after another was eliminated until Mrs. G. W. Sayles and Mrs. Edgar Fallis completed the competition in the order mentioned.

The supper tables were laid on the lawn at the north side of the house, and were attractive with summer flowers, and an abundance of good and the grandmothers being given the places of honor, and many of the other guests having to wait for a second table, before all were accommodated. Generous servings of ice-cream finished off a delightful meal, this item appealing especially to the boys and girls present, when their turn came for a place at the supper tables.

The hostess, the speaker, and all others concerned in providing the enjoyable outing, were warmly thanked before the gathering broke up, and the guests left for their several homes. The committees in charge of the picnic meeting were:

Program, Mrs. C. C. Garside, Mrs. J. McKnight, and Mrs. W. West.

Sports, Mrs. S. Pritchard, Mrs. Allie Fallis, Miss Margaret Whyte.

Tables and dishes etc., Mrs. H. J. Armstrong, Miss E. J. Grandy, and Mrs. L. Bristow.

Supper, Mrs. W. Hilton and Mrs. R. J. McKnight.

South African Women To Serve On Juries

Passing of New Franchise Act Automatically Gives Right to Sit on Cases.

LONDON, Aug. 15 (C.P.) — A recent despatch from Johannesburg, South Africa, indicates that women now given the voting franchise throughout the Union, have also the right to sit upon juries in that country.

The despatch reads: Without any alteration to the existing law, women will henceforth be entitled or obliged to serve on juries. This statement was made today by a Johannesburg man, whose official duties bring him in close contact with the summoning of juries. In view of the passing of the new Franchise Act, he said, the provisions of the criminal procedure code are naturally extended to cover both sexes. Though the matter may not acquire any practical importance till women are actually placed on the voters' roll, it is reasonable to assume that they will be liable for duty, like the men, from the moment their names are actually recorded.

The Criminal Procedure and Evidence Act limits jurors to "every person who is a registered parliamentary voter in the Union", with certain age and property qualifications. A legal authority points out that the word person is used, and the list of exceptions does not mention women. The only evidence to show that men alone were meant is in clause 165, which says, in its English version, "a jury of nine men." On the other hand, the Dutch version talks of "oon jury van nogen lodon," which means a jury of nine members.

Lord Buxton as Governor-General signed the law in English and the version in that language is authoritative, but even this is not conclusive evidence in the view of many lawyers, because the Court, when elucidating a doubtful point, often refers to the alternative wording, and more important still, because the Interpretation Act passed by the Union Parliament in 1910 to deal with disputed statements such as this, says: "In every law, unless the contrary intention appears, words importing masculine gender shall include females."

MARMORA SOCIETY ENTERTAINS MADOC

Pleasing Social Afternoon Held at Home of Mrs. C. A. Bleekers, Crowe Lake.

MARMORA, Aug. 15 (Examiner Correspondence)—Marmora Women's Institute members entertained the members of the Madoc Institute at a very pleasing social afternoon held at the summer cottage of Mrs. C. A. Bleeckers at Crowe Lake, on Tuesday.

Mrs. H. W. Sabine, the local president was in the chair for the initial program of the meeting and after the roll call, "A Canadian lady of note" had been given, called upon Mrs. C. Whytock, the Madoc president to take charge of the program as furnished by the Madoc Branch. The roll call for Madoc was "My maiden name" and Mrs. T. L. Nickle gave an acceptable reading, Women's work, spiritual and moral health by Dr. Margaret Patterson.

The Rev. Arthur Pickering, of Toronto gave an address on the care of the eyes. He spoke of many cases of blindness caused through carelessness and drew attention to the work of the Canadian National Institution for the Blind.

He urged mothers to see that scissers, and other sharp instruments were kept out of the reach of the younger children. The proper lighting of schools was also stressed by the speaker who himself, being blind, was most impressive throughout his address.

Mrs. E. C. Prentice of Marmora and Mrs. N. Bronson, of Madoc won the vehicle contest, and consolation prizes were awarded to Mrs. T. Warren and Mrs. W. Stewart of Madoc.

The Madoc Branch goes to Ryistone for the next meeting. Mesdames W. A. Anderson, F. H. Howard and E. C. Prentice will be responsible for the program.

A dainty lunch was served at the conclusion of the afternoon.

SOCIETY PLANS ANNUAL DINNER

St. John's Church W. A., Ida, Meets at Home of the Misses Moore.

PRIZES AWARDED.

(Examiner Correspondence)

CAVAN, Aug. 15.—On Wednesday afternoon the W. A. of St. John's Church, Ida, met at the home of the Misses Maude and Blanche Moore "Cherry Hill Farm", Eighth Line, Cavan. There were thirteen ladies present. Miss Vivian Lough opened the meeting with the Scripture Reading. The president, Miss Annie Sisson read prayers.

In the absence of the secretary, Mrs. Robert McCamus, this position was filled by Mrs. H. Seeney. Among business discussed was "Arrangements for the dinner annually served at the Rural School Fair at Ida in September". The re-decorating of the church was also under discussion, as was the matter of wiring the church for Hydro.

Mrs. George Sisson assisted the Misses Moore in serving lunch and a social time was enjoyed. A collection of $1.20 was taken at the tea hour.

This money, taken as collections, at the regular meetings, forms a special fund for buying flowers for the sick.

Mrs. Seeney's guest, Miss Seaton of Riverside, California was present.

Awarded Prizes

Congratulations are being offered to Mr. Archie Matchett, president of the Junior Farmer's Association of Cavan, who has been successful in winning a prize in the Farm Account Book Competition. The prize entitles him to a two weeks short course at Guelph. The following was the standing of the contestants—1st, John Moon; 2nd, Archie Matchett; 3rd, George McKnight; 4th, Percy Wilson and Arnold Brown, a tie.

As John Moon won first prize a year ago, the prize of a two weeks short course at Guelph goes to Archie Matchett.

OBITUARY

MRS. ANNIE QUINLAN.

TWEED, Aug. 15.—(Examiner Correspondence.)— The death occurred on Monday, August 11, of Mrs. Annie Quinlan, one of the oldest and most highly respected residents of Tweed.

The funeral was held on Wednesday morning at nine o'clock, the Requiem mass being celebrated by the Rev. Father O'Riordan in St. Carthaga church.

4 SHADES OF TONE ...BRILLIANT - BRIGHT - MELLOW - DEEP with PHILCO TONE-CONTROL

It was the sensation of the recent national Radio Show at Atlantic City. It is on every tongue when radio is discussed—It has raised radio reception to new levels of enjoyment—It gives new glamour to radio programs everywhere—It is bringing the people by thousands into the dealers' stores to operate this latest marvel of radio—Philco Tone-Control.

Philco Tone-Control

Having done everything possible for pure, undistorted tone, for high selectivity, for power and distance, and volume and super-performance, Philco has sought and achieved improvement of all tone on the air, from any broadcasting station, from any program.

Now, you can control the tone you receive; adjust it to your ear and your taste; bring in the formerly harsh station with mellow sound, and improve the quality of any program, so that each is reproduced with the matchless, pure undistorted tone, which is "Philco."

For brass band music, turn Philco Tone-Control to "bright" and the band marches right into the room with you. For a speech from Ottawa, turn it to "brilliant," and meet a great man face-to-face with such realism of speech as you never even dreamed of; for dance music leave it at "brilliant" and you're in the ball-room with the boys. Again, turn Tone-Control to "mellow" or "deep" and you can cut down interference noises and make radio reception enjoyable for the first time in noisy neighborhoods.

On every Philco Radio and Radio-Phonograph, Philco Tone-Control is built-into all the new Philco Screen Grid and Screen Grid Plus models. The Screen Grid Plus—super-powered radio—also has Automatic Volume Control which counteracts fading and enables you not only to get but to hold and enjoy out-of-town programs. Screen Grid Plus models also have a built-in aerial.

A New Station Recording Dial on which you can permanently log favorite stations is included in all models. See and hear the new Philco Consoles, Lowboys, Highboys and Radio-Phonographs at your dealer's. Operate the tone-control knob yourself. See how simple it is—but how wonderfully it improves reception. Prices range from $145.00 to $290.00 (Radio-Phonograph) less tubes. Easy terms when you decide to buy.

PHILCO PRODUCTS LIMITED OF CANADA, TORONTO

Philco Highboy

Now 9 tube Screen Grid Plus Chassis in an exquisite cabinet; equipped with Philco Tone-Control and automatic volume control. Price (less tubes) $210.

Also—A Marvellous Battery Set

For the first time in radio history rural dwellers can now have a set equal in every respect to the best electric sets. New tubes just perfected for battery operation make this Philco set a marvel for distance, selectivity and sensitivity. Battery consumption reduced to a point hitherto undreamed of—beautiful furniture models with Tone-Control—wonderful values.

BALANCED-UNIT RADIO

Licensed by Canadian Radio Patents Limited

Philco Radio Phonograph

New 9 tube Screen Grid Plus combined with electric Phonograph; Tone Control of both radio Programs and records. Automatic Volume Control, built in aerial; new, sensational tone-arm pick-up. Price (less tubes) $290.00.

You can be dainty, *always* . . . with this deodorizing sanitary protection

YOU feel truly immaculate, dainty, well dressed, when Kotex is your sanitary protection. For one thing, it deodorizes. Then, too, it is shaped so as to be inconspicuous under the close-fitting frocks so popular today.

And Kotex is so soft

The softness and lasting comfort of Kotex are so important. Kotex absorbs so completely because of the unusual substance of which it is made . . . Cellucotton (not cotton) absorbent wadding. This is a cellulose substance which Canada's leading hospitals now use.

Then, too, it is easily and quickly disposed of. Buy a box and try it for yourself. The Kotex Company of Canada, Limited, Toronto, Ont.

INCONSPICUOUS...

1—Kotex is specially shaped to fit inconspicuously under dainty summer frocks.

2—*Deodorizes,* safely, thoroughly, by a special process.

3—*Kotex filler* is far lighter and cooler than cotton, yet absorbs 5 times as much.

4—*Disposable,* instantly, completely.

• • •

The Good Samaritan Class of Mark street United Church entertained this week at the home of Mrs. A. J. Throop, in honor of Miss Jean Thorne a bride-elect of the month. The evening took the form of a Treasure Hunt shower, when the bride-elect was instructed to hunt through the house for hidden gifts of linen. Each guest read a verse giving a hit as to the location of a hidden gift. The evening was spent in playing games and contests, with a reading by Mrs. Jaynes of Cobourg. A dainty lunch was served later.

• • •

Mrs. J. Reid of Murray street was called to Port Hope last evening owing to the illness of her niece, Mrs. W. Hutton.

• • •

The many friends of Mrs. Nathan Fine of 197 Rink Street will be pleased to learn that she has returned home and is progressing satisfactorily after her recent operation in Nicholls Hospital.

• • •

Miss Agnes Weir of 546 Murray Street was hostess this week at a shower held in honor of Miss Marie Sullivan, who is entering St. Joseph's Hospital as a nurse-in-training. Many pretty gifts were received by the guest of honor. The evening was spent in games and music, followed by the service of dainty refreshments. Those present were Mrs. Powell, Mrs. Leo Sullivan, Mrs. Weir, Mrs. Grady, the Misses Mary Powell, Mary Boyle, Mary Carr, Violet Gilmour, Clara Grisdale, Edith McNamee, Helen Blanchard, Margaret Loucks, Leona Sullivan, Margaret Currie, Effie Dale.

• • •

Mrs. T. J. Best and daughter Marion, Gilmour Street, left on Wednesday for Seattle, Washington, called there owing to the serious illness of Mrs. Best's sister, Mrs. E. Moreland.

• • •

Miss Sybil Sharpe, who is a student at St. Margaret's School, Kirkfield, secured honor standing in five subjects out of seven passed successfully by her in the recent Matriculation examinations conducted in connection with the school.

• • •

Mr. and Mrs. B. Ingles and daughter Shirley, and Mrs. B. Lomas, all of Toronto, are guests of Mrs. E. Scott, 114 Maria Street.

• • •

Mr. and Mrs. S. W. Stanley and Mrs. M. Heard, of Toronto, are spending a few days with Mr. and Mrs. Bert Heard, George Street.

• • •

Miss Cora Mowry, Charlotte Street, and her sister, Mrs. Walter Briegel, of Montreal, entertained on Wednesday at luncheon in honor of Mrs. Harold Huff of Pittsburgh, Pa., and Mrs. Arthur Deyell of Toronto, both of whom are summering at Idyl Wyld. Covers were laid for twelve. After luncheon, the guests were entertained at bridge by Mrs. Chalmers Nicholls of Pittsburgh and Mrs. W. M. Piester of Shrevesport, La., at the home of their parents, Alderman and Mrs. Stocker, Gilmour Street. Prizes for cards were won by Mrs. Huff and Mrs. Fred Hooper.

• • •

Mr. and Mrs. Basil Robbins of Queen Street and Mr. and Mrs. Andrew Sinclair of Montreal were visitors to Lakefield this week.

• • •

Mrs. P. Scott of Fort William was a visitor recently at the home of Mr. and Mrs. A. Reid, Chamberlain street.

FASHION SERVICE

It's so summery and smart and easy to make!

A quaint pretty sleeveless frock with bertha cape collar for the important age of 6, 8, 10 and 12 years is sketched in Style No. 3062 in printed dimity in gay red and white coloring. The capelet collar is of crisp white organdie. It takes but 1¾ yards of 39-inch material with ½ yard of 32-inch contrasting for the 8-year size.

The skirt is top-stitched with two rows of machine stitching to the moulded bodice.

Pique in blue with white dots with white collar and blue grosgrain ribbon tie is very attractive and sturdy as well.

Daffodil yellow cotton shantung with self-fabric collar piped in brown at edge is very smart. Repeat the brown for the tie and to join the skirt to the bodice.

French blue linen, nile green printed sheer lawn, pale blue dotted swiss and pink pique are attractive combinations made for a very small sum.

Just Between Us Women

A daily chat with Examiner neighbors conducted by Anne Wilcox

AN Oriental gentleman well-versed in the English language said to a group of people recently that he cared very little about words.

• • • • • • •

They could be so manipulated, he said, that when spoken or written they could convey impressions purporting to convey the intended meaning but which really had little absolute significance.

• • • • • • •

He followed this up by saying it was the meaning behind the words that was important and the spirit of intention. That is, the truth lay more in the mind than in the words, and in the kindly or unkindly way in which they came from the heart.

• • • • • • •

It might be well for families to realize this. So many heated arguments arise from the mere words that are spoken and the spirit behind the words is not appreciated.

• • • • • • •

If there is any place in the world where persons should have faith that kindness is in the heart of those who speak, it is in a family. The bonds of love are wrought and hold faster than is sometimes appreciated to-day.

• • • • • • •

Back of words, the spirit of love must be clung to, and if it is, there is not any haste to credit or harbor any hard feelings when words may sound hard or ungracious.

• • • • • • •

Frequently an impatience is voiced when words are usual and ordinary. This impatience may have nothing whatever to do with what is being said, nor spring from any annoyance with the person addressed.

• • • • • • •

Very often some inanimate object is the cause, as, for example, when one hits his foot against a projecting rocker, just as the person starts to answer or ask a question, or make some comment on what has been a subject or conversation.

• • • • • • •

If the person addressed is ready to get annoyed, here is an opportunity.

• • • • • • •

Many a quarrel has had no more justification for beginning than an impatient tone of voice falling on ears quick to take offense.

• • • • • • •

It would be well for the speaker to say "Excuse me", or "I'm sorry," when an inanimate object or some passing thought of annoyance that had nothing to do with a present conversation, was the reason for an impatient or annoyed tone of voice or expletive that could be taken as a personal affront.

• • • • • • •

It is well also for persons, especially members of a family to be very slow to take offense, however words may sound, until they absolutely know that the spirit behind the words was disagreeable.

• • • • • • •

When gracious words can have a double significance, take the kindly ideas as the one intended. Let a possible ungracious meaning pass unnoticed. Take it for granted that family love and understanding are too deep-rooted for anything but a temporary irritation to have given the disagreeable inflection.

• • • • • • •

Bank on the right spirit being back of the words or the tone of voice.

That Body of Yours

By James W. Barton, M.D.

CURING DISEASE BY RADIO.

You have been reading with interest of the experiments at University of Pittsburgh and at General Electric Laboratories at Schenectady, N. Y., whereby certain lengths have been shown to destroy harmful organisms in plants and animals.

The idea is to create such a heat within the tissues that the organisms are destroyed with no damage to the tissues.

You will remember that paralysis, that has defied the skill and knowledge of physicians since the dawn of history, has been cured in many cases by infecting the individual with the organisms of malaria.

After the malaria had run its course for some time, being kept within bounds by quinine, the patient was then cured of his malaria, and in a number of instances his paralysis was cured also.

It was the success of this malaria treatment, which was felt to be due to the heat the body manufactured to fight off the malaria infection that gave the idea of the value of radio waves against all organisms.

It is likely that it will be a little while yet before everything is perfected so that this may be tried on human beings.

However, what I want to talk about is this heating of the body that takes place when any infection enters. The temperature immediately goes up, because that is Nature's method of fighting off the trouble. And Nature provides heat in the proportion in which it is needed.

This is the reason that it is a mistake when you find you have a rise in temperature to immediately use drugs or other means to reduce that temperature.

I know that it seems like the natural or proper thing to do because with a normal temperature you have a feeling of safety, a feeling that all must be right if your temperature is normal.

The proper thing is to go to bed and remain there until the temperature is normal, using no drugs whatever until your doctor sees you.

If he finds the temperature running about 101° F. to 102° F., he may not give you any drug to reduce the temperature, but give you a purgative to free the blood of any poisons that arepreventing it doing its best work. If the temperature goes real high he will then try to control it.

Remember, then, that heat is your body's best friend, its best fighter and best defender.

Omemee

OMEMEE, Aug. 15 (Examiner Correspondence)—The August meeting of the Women's Missionary Society of Trinity United Church was held in the Sunday School room on Thursday afternoon with an attendance of twenty-seven ladies. After a short business session the scripture lesson from Psalm xcvi., was read by Mrs. S. D. Vaughan, followed by an excellent prayer by Mrs. D. R. Clare, of Norham. The devotional leaflet entitled, "Be of Good Cheer," was read by Mrs. J. Eggleson, after which Miss Margaret Werry rendered a pleasing vocal solo. The study period was devoted to "An hour with the Hymns" in which several ladies took part and not only was it an enlightenment but an hour well spent. Mrs. Blanchard extended a welcome to the visitors present after which a social half-hour was enjoyed with Mrs. I. H. Fee, Mrs. G. Overholt and Mrs. W. Connell as hostesses.

Young Man (not ill-pleased): "Look, there's your dear friend the B.B.C. announcer being transmitted on a long wave length."

A BEDTIME STORY

By Howard R. Garis

UNCLE WIGGILY AND THE CRYING SCHOOL.

Uncle Wiggily was very fond of going to the Hollow Stump School where the Lady Mouse Teacher taught the classes of animal children. Not that the old rabbit gentleman recited any lessons to Miss Mouse. No, indeed! He was long past the age of going to school.

"But I am not too old to learn," Uncle Wiggily said many a time with a funny little twinkle of his pink nose. "One is never too old to learn and even after one is through going to school he is still able to learn something. I certainly like the Lady Mouse Teacher and the Holly Stump where she teaches."

For that reason Mr. Longears often used to visit the school where the animal boys and girls learned the many things which are useful for puppy dogs, pussy cats, squirrels, rabbits and cute little pigs to learn. Often Uncle Wiggily would listen to the children recite or he would watch while Miss Mouse played the tin pan cheese piano for them to sing. And at times Uncle Wiggily might tell a little story for the children.

So one fine morning Uncle Wiggily came sliding down the stair banister railing in his hollow stump bungalow and landed on the floor with a bump, which made Nurse Jane Fuzzy Wuzzy squeak:

"What's your hurry?"

"I'm going to school!" said Uncle Wiggily.

"Nonsense! This is vacation!" chuckled the muskrat lady housekeeper, for well she knew why Uncle Wiggily went to school when there was any.

"That's so!" exclaimed Mr. Longears. "I'd forgotten that this was vacation. There isn't any regular school now and Miss Mouse has no summer classes. Well, I think I'll take a hop past the Hollow Stump School anyhow to see how it looks."

So a little later the rabbit gentleman, taking his pink, twinkling nose with him, hopped past the Hollow Stump School, which was now closed for the summer.

"How sad and lonesome it looks!" murmured the rabbit gentleman as he stopped, hopping in front of the big, hollow stump which had windows and doors and a chimney and everything a school should have.

"It makes me sad," went on Uncle Wiggily. "How different the school looks when the animal boys and girls are not running around it playing lollypop tag and ice-cream cops and robbers. So lonesome! But I must not get to feeling this way. I must be more jolly. I will just take a hop around the closed school and then I'll go have an adventure to give me an appetite for my lunch."

Giving another look at the closed door of the Holly Stump School, which would not open until September, Mr. Longears started to hop around to look at it from all sides, though he knew the place almost as well as he knew his own hollow stump bungalow.

But all of a sudden ... having reached the back of the school came to a stop and looked and looked again at some of the windows. Then the jolly old rabbit gentleman rubbed his eyes and twinkled his pink nose and looked a third time.

"I wonder," he said softly. "I wonder if I can believe what I see? Why, bless my rubber boots, the school seems to be crying! Yes, really, there are a lot of tears on those windows as surely as my name is Mr. Longears! And yet how can it be? A crying school? I never heard of such a thing!"

Nor did you, I venture to say, nor did I and I never would have believed it if Uncle Wiggily had not told me. And yet there stood the old rabbit gentleman looking at the school windows and down the glass panes water was running like great tear drops.

"The Hollow Stump School is crying!" murmured Uncle Wiggily. "Yes, the windows are crying real tears, as if they were eyes, and I know why. The school is lonesome for the animal boys and girls. It misses them so much on this long vacation that it is weeping. I must go tell the Lady Mouse Teacher about this! It will surprise her!"

Giving one more look at the crying school Uncle Wiggily hopped off to find the Lady Mouse Teacher. He knew where she was spending her vacation on the shore of the Duck Pond Ocean, not far away.

Over the fields and through the woods hopped the rabbit gentleman until he came to the Old Tree Hotel, where the Lady Mouse was resting so she would be strong enough to teach school again in September.

"Oh, Lady Mouse!" cried Uncle Wiggily when he saw her on the porch. "What do you think? I have a wonderful surprise for you!"

"A surprise? How nice!" squeaked Miss Mouse. "What is it?"

"I'm afraid you will not think it very nice," said Uncle Wiggily solemn like and sad. "But the Hollow Stump School is crying because it is so lonesome for you and the children."

"The school crying! Nonsense! How funny!" laughed Miss Mouse.

THE RHYMING OPTIMIST

By Alice Michaelis

THE OLD ROMANCES

Where are they now, the old romances of calmer days than these, the joys that flowered to brilliant dances and tinkling melodies? Too soon the world has lost its ardor for sweet and simple things, and with each age man toils the harder to race with time's swift wings. Too soon he has forsaken pleasure in Nature's fair domain to barter life for golden treasure, to hoard his golden gain. Where are they now, the mirth and singing that passed when Earth was young, yet leave their tuneful echoes ringing in every nation's tongue? They sleep, until man's soul be shaken from out this dream of greed, when once again they will awaken, return to fill his need. They will come back, the old romances as fresh as wind and dew, returning over time's expanses to make life bloom anew.

Marmora

MARMORA, Aug. 15 (Examiner Correspondence)—Marmora Council No 279, C.O.C.F., met at the home of Mrs. H. Gillen on Tuesday evening for the regular meeting.

Sympathetic reference was made in the recent death of Mrs. S. Osborne. Mrs. M. F. Doupe was elected to the office of Past Councillor left vacant through the death of Mrs. Osborne.

At the conclusion of business a dainty lunch was served by the hostess.

"Listen to them Crackle!"

YOUNG and old—everybody likes the delicious crispness of Kellogg's Rice Krispies. These toasted rice bubbles actually crackle out loud in milk or cream.

And what a flavor! What tempting goodness in every spoonful. Fine for you! Nourishing rice in easy-to-digest form.

Serve Rice Krispies for breakfast, for lunch. Extra delicious with fruits or honey added. Ideal for nursery suppers. Children *love* milk with Rice Krispies.

Use Rice Krispies in candies in place of nutmeats. Make macaroons. Sprinkle into soups. There never was a handier cereal.

Order from your grocer. Oven-fresh in the red-and-green package with the inner-seal wax-tite wrapper. Served by hotels, restaurants. Made by Kellogg in London, Ontario.

Kellogg's RICE KRISPIES

Crescents Take Lead in E.P.L. Play-Offs

MASTERSON BREAKS UP RALLY IN 8TH FRAME AND CRESCENTS WALK OFF WITH 7-3 DECISION

Victors Lead Generals All Through Game Both at Bat and in Field.

INFIELDERS GOOD.

Ash Makes Spectacular Catch in Second By Copping Masterson's Long Fly.

Crescents took the lead in the East Peterborough League finals at Exhibition Park last evening by scoring a well-deserved victory over Canadian Generals by 7 to 3. Casey Masterson had the Generals running behind all through the contest but his work in the eighth when he fanned two batters with the runways crowded, and the opposition making a big effort to break things up, was the feature of a game in which there were many thrills.

Crescents have now won two games and Canadian Generals have one victory. The next contest will be played Monday evening when the Generals must win to stay in the race. A third win for Crescents will give them the championship, while a Canadian General victory will make another game on Wednesday evening necessary.

Crescents won last night's game all the way. They hit with more effect and were steady in the field. In the ninth with darkness setting in, the southenders were in the midst of another scoring bee when the game was called. After two were out F. Jones, Heard, Lebarr and Joe Jones singled in a row.

The infielders were going great guns with all hands helping the cause, Fred Hickey doing an extra bit in the first when he took a hard drive down first from L. Hollingsworth and doubled Rose.

Utronki, who was the pitching selection for the Generals could not get here for the game and Jack Crary, who filled in, went along well until the fatal sixth when he was given a rough passage and hit for four runs.

Ash made a spectacular catch in the second inning by copping off Masterson's long fly.

How They Scored.

Crescents got the jump on the Electrics in the second. With Hickey a strikeout victim. Crary walked Collins. Masterson's fly into middle was muffed by Beavis after a run, putting two on, and a pass to Fred Jones loaded the bags. Heard resumed his hitting of the last game by clouting a nice single into right to score Collins. With runners leading off second and third, Lebarr shot a hot grounder at Red Hollingsworth who fumbled, allowing Masterson to score easily, and Freddy Jones also got home. The rally ended when J. Jones flew out to Harmer and Sweetman to Beavis.

Generals Score Two.

In their half of the frame, Generals put two runs across after two were down. Beavis came through with a triple and scored when Heard threw high to Hickey on Johnston's grounder. Harmer also tripled to Fred Jones, the outfielder having difficulty in picking up the ball, and Johnston scored. Crary ended it by grounding out to Sweetman.

Crescents' big sixth frame was sufficient to win the battle. Collins led off with a triple to right and Masterson was hit by a pitched ball. Fred Jones outguessed the Generals' infield playing in, by looping a hit back of the line to score both Collins and Masterson. Heard flew out to Harmer but Lebarr singled through right infield. Joe Jones duplicated the hit—a pair of nice singles. Sweetman slapped one to the box and Crary caught Fred Jones at the plate. Walt Crary upset things further by slashing a single across second out to Beavis to score Lebarr and J. Jones. Hickey fanned.

Generals could get back only one tally. Swanston was thrown out by Heard. Ash was safe when Crary fielding a ball toward first, fumbled and then threw wide. Ash made second and scored on a single to right by Beavis.

The box score:

Crescents:	AB	R	H	PO	AE	
J. Jones, cf	5	1	1	1	0	0
Sweetman, ss	4	0	0	3	3	0
Crary, 2b	5	0	2	0	4	1

6TH STRAIGHT FOR ORIOLES

Baltimore Three and One-half Games Back of Rochester in International Scramble.

WIN FOR RED WINGS.

With Joe Hauser well on his way to a home run record, the Baltimore Orioles are setting a pace that threatens to lower the Rochester Redwings' standard from the top of the International League.

Hauser blasted out home runs 53 and 54 yesterday and almost single-handed gave the Orioles a 7 to 4 triumph over the Buffalo Bisons. It was the sixth straight triumph for the Orioles, but still left them three and one-half games back of Rochester, as the Redwins also won, defeating Newark 9-4. Not only did Hauser boost his home run mark to within six of the minor league record made by Tony Lazzeri while a member of the Salt Lake club of the Pacific Coast League, but he chose the right time to deliver the last circuit drive of the game and No. 54 came in the ninth with two mates on base and the score tied at four all.

At Newark Ira Faulkner of the Bears and Ira Smith, ace of the Rochester hurling staff, hooked up in a neat pitching duel for six innings, but Faulkner weakened in the seventh and before Newark retired the side six runs had crossed the plate. The victory gave the Redwings two out of three of the current series.

The Reading Keys entered the ranks of the night baseball clubs but lost their first artificial light game to the Montreal Royals, 13 to 10. The victory gave the Royals a clean sweep of the series. Four Reading pitchers failed to stop the Canadians as Urbanski led the Royals' attack with five hits, including two singles, a pair of doubles, and a home run.

BELLEVILLE NATIONALS WIN.

BELLEVILLE, Aug. 15.— Belleville Nationals won the first game in the championship series of the Bay of Quinte Ladies' League, when they disposed of the Ciacos in a hard-fought game, 11-10. Molly Gray pitched for the winners and Vera Ibey was on the mound for the Ciacos. The attendance was the largest at any game this season. The Ciacos lost an opportunity to tie up the game in the last inning, when Ida Thompson got a home run, but the next three batters went out. W. Gerow and V. Weir umpired.

Italy now has nearly 81,000 motorcycles.

In a fire recently a Chester, England, 700 chickens were roasted alive.

FERRELL COPS 20TH VICTORY

Pitches Cleveland Club to 15-0 Triumph Over Philadelphia Athletics.

BREAKS LOSING STREAK.

NEW YORK, Aug. 15 (C.P.)—Wes Ferrell, Earl Whitehill and Eddie Durham provided the features of the American League's day. Ferrell won his 20th victory of the season as Cleveland came back from five straight defeats to pound out a 15 to 0 triumph over the Philadelphia Athletics. It also was the first game the Indians have won in Philadelphia this season. Ferrell gave seven hits while his mates collected 20, reaching their peak in the fifth when they tallied six times.

Whitehill won his tenth successive game, setting a major league record for the season as he beat the New York Yankees 5 to 1, on a seven-hit and eleven-strikout pitching performance. Elias Funk's triple with the bases full in the fifth gave the Tigers most of their runs. Durham, pitching in a lesser cause, turned in the best hurling job of the day. He shut out the St. Louis Brown with four singles and without a free trip to first to give Boston a 3 to 0 victory.

Washington's Senators used three hurlers in their final clash with Chicago and obtained the best results of them all so far as the standings were concerned, although they had something of a struggle to win a 5 to 4 decision. As New York and Philadelphia both lost, the Senators gained a full game on their only important rivals, placing themselves eight games behind the league leaders and two ahead of the Yankees.

RAMONA GRATTAN LEADS AT PICTON

Close Heats and Neck-and-neck Finishes Feature of Popular Race Program.

PICTON, August 15. — Close heats, with neck-and-neck finishes, featured yesterday's races' program at Picton Fair. In the 2.22 class an extra heat was necessary to decide the winner of first money. The only horses in this last heat were Baron Lullwater and Sheila, the former winning by a length to take first place. Third position went to Furie Mildred and fourth to Dr. Byron. In the 2.12 class Ramona Grattan won first money; Lady Isobel second, Jack Abbe third, and Joe McGregor fourth. Purses in each race, $250.

2.22 Class.

JUNIOR GAME AT DELORO SATURDAY

Kiwanis and Belleville Clash in Third Game of O.B.A.A. Playdown Series.

Deloro baseball fans will be entertained to a nice dish of the summer pastime to-morrow (Saturday) afternoon when the local Kiwanis juniors and the Belleville Moose clash in the third and deciding game of the first round of O.B.A.A. junior play-downs. Both teams have countered one win each and fans can expect to witness some good ball, both on the offense and defense.

MALONE HOLDS ROBIN BATTERS

And Cubs Take 5-1 Decision in Second Game of Brooklyn Series.

FOUR TEAMS IDLE.

Unless to-day's final clash of the "decisive" series between Brooklyn and Chicago finally brings something like a decision, it looks as if their race for the National League pennant might continue indefinitely, or at least until they meet again in September despite the big margin they hold over the Robins in their season's play the Cubs have not been able to get far ahead in the three games of their current series.

Chicago has won two clashes and went one full game ahead yesterday as Pat Malone pitched a fine game for a 5 to 1 Cub triumph. But still the big advantage for the Bruins is that the difference is in the losing column where Brooklyn is two games to the bad. The future schedules show little possibility of a "break" for either team.

The Cubs held in check to some degree through the second game, were completely superior yesterday as Malone stopped the thunder of Brooklyn's big bats. They went out ahead in the very first inning and did all their scoring in the first three to win without much difficulty. Bill Clark, Brooklyn's southpaw ace, lasted less than two innings and Clise Dudley could not check the Cub slugging until the damage had been done. Malone, his speedball working at its best clip, gave the Robins only three hits in the first six innings, and had a shut-out in hand until two were out in the ninth, when a Cub let up and let the only run across the plate.

With four teams kept idle by rain and wet grounds, the National League as a whole made no more progress toward a decision yesterday than its two leaders have in their struggle. The St. Louis Cardinals and Boston Braves divided a close double-header that was principally notable for the appearance of some of the league's older pitchers. Socks Seibold lost a tough struggle in the first game as the Cards put on a two-run rally in the ninth to win 4 to 3, although outhit 11-9. In the second old Tom Zachary outlasted Burleigh Grimes and held St. Louis to six hits while the Braves pulled out a 3 to 2 triumph. The Card winning streak went to six games before it was broken in the second game.

Talkies have become so popular in Calcutta, India, that only one silent picture theatre remains.

Private railways of Egypt are suffering greatly from motor transportation competition.

TWENTY-FOUR RINKS TAKE PART IN STIRLING BOWLING TOURNEY

Representatives From Kingston Deseronto Play in Annual Event.

PRIZES AWARDZED.

STIRLING, Aug. 15.—The open bowling tournament held by the Stirling Men's Bowling Club Wednesday was a success in every way. The day was ideal, the bowlers were ideal and the prizes were well worth winning. Twenty-four rinks, took part, with two representing Stirling and the others from Kingston, Deseronto, Cobourg, Belleville, Tweed, Madoc, Deloro, Norwood, Hastings and Campbellford. Many spectators witnessed the event. The local rinks were not fortunate in entering the winning column. T. W. Solmes' rink won two games and lost one, with a plus of 24, while bad luck tagged Whitty's rink throughout, as it failed to score a win, but had a plus of 14. The rinks of R. A. Elliott, Deloro, and J. Taman, of Deseronto, fought it out in the finals for the main prize, wool bed covers. The latter rink won by the score of 4 to 2, while Elliott's team received the second prizes of leather bowling bags. J. M. Elliott's rink, of Kingston, won the third prize of Wedgewood plates. Only four ends were played in the semi-final and the final contests. G. Mitchell's rink from Cobourg captured the motor rugs, the prize for the rink winning two games and obtaining the highest plus score. Mr. Gunstone's rink, of Norwood, received the vases for winning one game with the highest plus. Several of the games were keen and the visiting bowlers returned to their homes well pleased with their day's outing, even though they failed to take home any "booty."

WHEAT POOL TO HANDLE COARSE GRAIN MARKETING

Although no definite report has as yet been received from the three-cornered parley at Ottawa, comprising the wheat pool officials, government and bankers, it is rumored that the result may be that the pool will be forced to raise its own funds for marketing. Marketing circles in the west anticipate a generous gesture on part of the banks. Some reports concerning decisions of conference have been conflicting. The photographs above show: (1) A. J. McPhail, president of the Canadian Wheat Pool. (2) Wheat pool elevator at Fort William, the largest in the world, with a capacity of 7,000,000 bushels, and (3) E. B. Ramsay, of Winnipeg, general manager of the pool.

LAWN BOWLING

Seven teams from Port Hope, Cobourg and district will take part in the regular Friday night program at the local bowling greens to-night. These regular weekly features have become very popular this season with the bowlers of the city and each Friday night sees the links fairly crowded with the players of Sir Francis Drake's pastime.

The following is the draw of the first round of doubles of the Peterborough Lawn Bowling Club, to be played on Monday and Tuesday next:

Monday.

Johnson and McCabe vs. Sexsmith and A. Brown.

Cairns and Hooper vs. French and Northrope.

N. Routley and D. Smith vs. Fox and Econs.

F. Brown and Williamson vs. R. Coleman and McCracken.

Harrison and E. Hickey vs. Bacon and Nicholls.

Penrose and Loftus vs. H. Wood and W. Hepburn.

Anderson and Wainman vs. Fletcher and J. E. Smith.

McNabb and Bennyworth vs. McLeish and Hall.

G. Coleman and Almas vs. Oke and Shannon.

Barton and Rutherford vs. Fulford and Henry.

Gillies and Rogow vs. G. Coleman, Jr. and Goodfellow.

Gimblett and B .A. Benson vs. R.J. Martin and Spencer.

Disney and T. A. McDonald vs. Dr. Allan and Dr. Long.

Tuesday.

E. Coleman and W. J. Johnston vs. H. Clegg and Breckenridge.

Braund and Cowan vs. Wall and Kirkwood.

C. Seymour and McPherson vs. W. E. Taylor and Sparling.

Chenhall and Dobson vs. Hutchinson and C. Taylor.

H. Coleman and G. Taylor vs. Sorenson and Wemp.

F. Skinner and S. A. Archibald vs. H. R. Martin and Woodward.

J. Skkinner and Freil vs. Sedgwick and Biddle.

Sloane and Borland vs. Donaldson and J. Benson.

Cullen and Roach vs. Tully and Milburn.

H. Wood and Florence vs. Ringer and C. Butcher.

Pratt and Turner vs. Glover and Richardson.

East and Meagher vs. Downey and Sackville.

Nelson Routly and Lush vs. A. Grant and B. Hickey.

SOX WANT HAUSER

WASHINGTON, Aug. 15. (A.P.)—An offer by Charles Comiskey, owner of the Chicago White Sox, to purchase Joe Hauser, slugging first baseman of the Baltimore International League team for $75,000 cash was announced here to-day by Lee Barber secretary of the Chicago team.

BOWLRITES GAIN PLAY-OFF PLACE IN CITY LEAGUE

Len Forsythe Holds Clubmen Tight Until the Seventh Frame.

SIX ERRORS IN GAME.

Weese's Work at Second Base One of Highlights of Game —Final Count 7-6.

By defeating the Belmonts 7-6 last night Sugar Bowl gained the right to enter the finals of the City Softball League. The game was a sparkling exhibition, only six errors being registered by both aggregations.

The Bowlrites sent Forsythe right back at the Clubmen and up until the seventh, when he developed a wild streak, he held the Clubmen in check. He was relieved in the seventh by Duggan. With the base filled Duggan emptied them by two wild pitches and a fielder's choice.

Nobbs started for the Belmonts but taken out in the fourth in favor of Delahaye, who breezed along nicely till the end of the game.

Bud Weese's all-around good work at second base was one of the highlights of the game. Weese accepted seven chances without a slip, two of them in the ninth real beauties.

Fred Batten at second for the Clubmen had seven chances out of eight, and turned in an excellent card.

The Game.

Sugar Bowl collected one in the opening frame. Maudsley led off with a triple and scored on Dormer's single. Dormer was thrown out attempting to steal second. Batten took Dallin's roller and threw him out. Gillespie doubled to centre, but Batten threw out Forsyth.

The Bowlrites registered another in the third. H. Dormer walked as did Dallin. Gillespie grounded out to Frick. Forsythe singled to right, scoring Dormer. Dallin was caught off third by Haskill, and the catcher threw G. Dormer out at first on his bunt.

H. Dormer led off the fifth by fouling out to Haskill. Batten tossed out Dallin. Gillespie doubled to centre and scored when Batten mussed up Forsythe's grounder. Forsyth was trapped between third and second and was tagged out by Board.

Belmont got their first runs in the seventh. Scates opened the frame by walking, as did Board and Galbraith to fill the bases. Delahaye walked to force Scates home. Forsyth was replaced by Duggan. Batten rolled to Duggan, who elected to get him at first, Board registering. Galbraith scored on a wild pitch, as did Delahaye. Frick went out, Bradshaw to Maudsley. Munro ended the frame by striking out.

Sugar Bowl took the lead in their half of the seventh. Maudsley singled to start. He was sacrificed to second by H. Dormer and scored ahead of Dallin, when he hit a homer.

Belmont tied it up in their half of the eighth. Holyman was safe on Connor's error when the catcher lost the third strike and threw wild to first. He stole second while Haskill was striking out. He advanced to third while Weese was throwing out Scates and scored when Dallin threw wild after picking up an overthrow. Board was thrown out by Duggan.

Sugar Bowl got two in their half of the eighth. G. Dormer started the inning with a triple and Weese walked. Bradshaw lined to Holyman. Connors hit to Holyman, who fumbled, Dormer scoring. Maudsley grounded out to Batten, Weese scoring out the out. H. Dormer flied out to Frick.

Belmont could only shove one across in the ninth. Galbraith got his second hit of the night to start. He stole second and went to third while Weese was throwing out Delahaye. Batten lined to Maudsley, who got him at first. Galbraith scoring. Frick ended the fray by grounding to Weese.

Box score:

Belmonts:	AB	R	H	PO	A	E
Delahaye, 3b, p	3	1	0	0	2	0
Batten, 2b	5	0	0	2	5	1
Frick, 1b	4	0	1	11	0	0
Munro, rf	3	0	0	2	0	0
Holyman, ss	4	1	0	2	1	1
Haskill, c	4	0	0	4	3	0

Sugar Bowl	10101022x—7	11	4

HIGHWAYS AND BYWAYS IN THE SPORTS WORLD

BOOSTS AND KNOCKS For EVERYONE

Third Baseman Heard of the Cresents is leading the East Peterborough League swatters with a mark of .438 for four games. He has had seven safeties and lost another single when last night's game was called in the ninth.

* * * * * * *

His side kick Bill Sweetman, is the leading infielder with a perfect fielding average on seventeen fielding chances.

* * * * * * *

Shiner Johnston leads all others in the loop in the close escapes from receiving tickets to the bench from the umpires. But you have to hand it to the veteran who never stops trying, and it is players of the Johnston type who help to make a baseball league successful.

* * * * * * *

First Baseman Ash is doing his part to keep the Generals in there, his work being extra good last night. Likewise Fred Hickey is having a good season at the first corner for the Crescents.

* * * * * * *

Canadian Generals missed Utronki, who was on the road and unable to get back to town for the contest. Jack Crary, who was effective against Crescents on Monday, did not get the support accorded Masterson in the pinches.

* * * * * * *

Next Monday's game promises to attract a monster crowd when Hardill will attempt to win the championship for the Crescents. There appears to be a few silly persons who are quite sure the series is a matter of gate receipts.

* * * * * * *

Oskies of Hamilton, with Carl Wood, former local heaver, on the mound, are leading in the city championship series.

* * * * * * *

Crary has the sign on Hickey, having fanned the first baseman five times in a row and seven times in ten trips to the plate. In his first time up Hickey singled to score a run.

* * * * * * *

Will one of the surprises of the series be the reappearance of Ray Rose on the mound? The second sacker has been warming up regularly, and Generals may use him in a situation where something new might get results.

* * * * * * *

Kiwanis travel to Deloro to-morrow afternoon to meet Belleville in the third and final game of the series. Given an even break the locals should win.

HAMILTON TEAM IS WINNER OF GORDON TROPHY

Prize Awarded to Highest Team in First Stage of Governor-General's Match.

CITY OF OTTAWA MATCH.

Major F. W. Sutton Scores Possible 100 to to Win the Transvaal Cup.

CONNAUGHT RIFLE RANGES, Ottawa, Aug. 15 (C.P.)—Royal Hamilton Light Infantry won the Gordon Highlanders' Trophy awarded to the highest team in the first stage of the Governor General's match at Dominion of Canada Rifle Association prize meet yesterday, according to results issued to-day. The Hamilton squad scored 801, two more than Victoria Rifles, Montreal, who were second. Argyle and Sutherland Highlanders, Hamilton, took third place with 793, and Governor General's Foot Guards, Ottawa, fourth, with 789.

Major F. W. Sutton, Toronto, scored 100 to win the Transvaal Cup and medal open to officers, non-commissioned officers and men who served in South Africa on the Canadian staff, or in any of the Canadian contingents or corps during the Boer War. The prize is awarded to the high scorer in the Governor General's match, first stage, who is eligible under the above conditions.

Governor General's Foot Guards won the General Sir Arthur Currie Trophy awarded to the team scoring the highest aggregate in the King's Medal match. G.G.F.G. scored 435, with Argyle and Sutherland Highlanders, Hamilton, in second place with 330.

With the first stage of the Governor General's match fired Thursday a comparatively easy day faced the marksmen as they went to the firing points this morning. At 8.30 a.m., the first stage of the City of Ottawa team match was fired, and this competition will probably be completed by early afternoon.

City of Ottawa Match

The City of Ottawa match is fired at 300 and 900 yards, ten shots at each range. It is open to all members of the D.R.A. and is a team and individual match. A challenge cup and gold medal is awarded by the Corporation of the City of Ottawa, with $724.00 added by the D.R.A.

The Life Members' match will be fired this afternoon at the 1,000 yard range. First prize is the D.R.A. silver medal and $20 cash. Total cash prizes amount to $625. Preceding this match, a 'sweepstake will be fired, also at 1,000 yards.

Late to-day the London Merchants' Cup, a team competition, is scheduled. The match is open to teams of eight members of any affiliated provincial association, and is fired at 800 and 900 yards, ten shots at each range.

Soggy weather faced the sharpshooters early to-day and there was a slight drizzle of rain. However, the subdued light may prove even better for shooting than brilliant sunshine, and some high scores are expected.

5TH RACE WILL BE HELD TO-DAY

Yachts Will Race 21 Miles Over Triangular Course For Coveted Cup To-day.

WON TWO EACH.

ROCHESTER, N.Y., Aug. 15. (A.P.) A triangular course of 21 miles faced the contenders in the series of the coveted Canada's cup, which will go to the eight-meter yacht winning to-day's race.

The series was evened yesterday when the challenging Royal Canadian Yacht Club's Quest clipped across the finish line 28 seconds ahead of William P. Barrows' Thisbe. Both yachts have won two races and in all contests have made a remarkably equal showing in seaworthiness and handling.

In a fair breeze both boats expect to demonstrate their good points. Quest has shown a slight superiority in running free, while the Rochester Yacht Club defender has appeared to have a slight edge on the reach and beat of a triangular course.

Yesterday's thrilling finish provided spectators with the best show of the four races and a much larger crowd is expected to witness the race which will decide the possession of the Canada's cup, which has reposed in possession of the Rochester club for 29 years.

If the Quest succeeds in lifting the trophy it will be Canada's first successful attempt in four tries. The Rochester club won the cup in 1903 and successfully defended it in 1905 and 1907. Gentle to moderate winds and a cloudy day was predicted for the race, which will start at noon, D.S.T. with a five and a half hour time limit.

CAN. GENERAL WHACK SCOTS LEAGUE GAME

Cook Opened Scoring For Scots —Before Interval Burgess Got Equalizer.

C.G.E. 4, CALEYS 1.

B. McMaster Scored Two Counters, While Ward Put Through His Own Goal.

The four goal to one decision over the Caledonians by the Canadian General gave them two valuable points in the local soccer league, last evening when a good crowd turned out to witness the contestants on King Edward Park. This win puts the C. G. E. back in the running again.

First Half

Owing to the late start, both captains agreed to play thirty five minutes each way, instead of the full ninety. Choice of goals made no difference because there was no sun to cause any inconvenience. The C. G. E. visits to the Scots' goal always proved interesting. McMaster travelled into the flag corner repeatedly to draw out the defence to him and finished with a risin shot that hit the cross-bar. Exchanges were confined to the mid-field for a while, with the half-backs feeding their forwards with accurate passes along the ground up the field. Gore, at outside left, for the Scots made many nice openings into the C. G. E. territory where his mates tried their utmost to connect with first timers. On a tackle, Cook beat three men nicely, to leave Graham in possession in front of goal, who forced Daynes custodian, to stretch himself to save his charge. The next visit saw Cook miss the cross-bar with a lightning drive from twenty yards out. Keeping up the pressure, the Scots harassed the opposition inside the goal area. A little hesitation enabled Cook to slam a hot drive in below the bar that beat Daynes all the way. A goal down gave the C. G. E. an incentive to put more pep into the attack, but Ward and Company allowed no score inside the goal area. Trying to force the issue, Stannard, at center half, landed a long drive from touch into the far corner of the upright. Ward jumped up in the air with two outstretched arms to counter-act the play. Just before the interval, the C. G. E. hammered the Scots into their own corner to gain unsuccessful flag kicks. A surprise shot from the wing by Darling, a minute to go, left Burgess the opportunity to get the equalizer. Caledonians 1, Canadian General 1.

Half Time

On resuming, the C. G. E. took up the attack in real earnest. Mitchell making a great effort to score with a long drive that the Scot's goal keeper touched over for a fruitless corner. Then the Scots custodian had a busy time in between the sticks as the C. G .E. peppered shot after shot at him. Quick as a flash, Cook had the opposition in a quandry when he outwitted them as he travelled in toward goal. A few fouls were awarded against them which caused Daynes to come into the lime-light with spectacular clearances. All of a sudden the Electric boys tore into the Scots vicinity. Burgess slamming a hot drive along the ground which Ward failed to clear as B. McMaster tapped the ball back into goal when a Scot full back did "mac Siccar". Five minutes later, B. McMaster emphasized the verdict with a left footer for number three at ten yard range. Before the conclusion of the tussle, the referee awarded a goal when the Scots goal-keeper threw the ball out into play. He declared that Ward had put the ball through in throwing out. Canadian General 4. Caledonians 1.

Goal scorers—C. G. E., B. McMaster, 2, Burgess and Ward through his own goal. Caledonians, Cook.

C. G. E.—J. Daynes, goal; J. Chambers and W. Rankin, full backs; Mitchell, J. Stannard and W. Robb, halves; A. Burgess, J. McMaster, B. McMaster, S. Keill and H. Darling, forwards.

Caledonians—J. Ward, goal; J. Pottie and A. Bogie, full backs; J. Houston, J. Emmery and D. Best, halves; W. McCracken, J. Cook, J. Watkins, D. Graham and J. Gore, forwards.

Referee—James Hawthorne.

This round to be played on or before Monday, August 25.

Memoirs of Old Kingston Baseball Team Reived

KINGSTON, August 15 (Special to The Examiner). — With the death of David J. Dick, a retired shoe merchant, and who was one of the earliest of baseball players in this city, interest has been revived in regard to the St. Lawrence Baseball Club, which flourished here in the late sixties and seventies of the last century. The club was famed throughout Ontario for its success as a baseball outfit. But it finally succumbed to the Maple Leafs of Guelph. Dick, at that time, was a clever pitcher. When the club was formed the first suggestion was to call the team the "Heavy Hitters," but Thomas Parkin, now a resident of Gananoque, and aged 83 years, suggested that the club should be called the St. Lawrence, after the river running through Kingston. This was agreed to. The only members of that splendid organization who are living at present are: Thomas Parkin, Gananoque; John R. Renton, Winnipeg; Dr. Jarvis, California; and Patrick Nolan, who usually filled the bill of umpire. R. J. Eilbeck, afterwards Sheriff Eilbeck of the Yukon, was one of the managers of this famous aggregation.

SCOTS VS. PACKERS SATURDAY AFTERNOON

League Game Scheduled For King Edward Park at Three O'clock.

Saturday's soccer bill is a league game between the top-notchers, Canadian Packing and the Caledonians, on King Edward Park. Kick off at three o'clock. Referee Alexander McKinley. The Scots have lost a number of their players who have found new quarters in the Province but they will trot out a good eleven to make the Packers travel all the way.

A few changes in the C. P. C. line up are made and the team reads thus: C. Griffin, goal; F. Wade and A. Downer, full backs; J. Cross, J. Buchan and A. Bromley, halves; N. Downer, D. Whitely, R. Preston, A. Beggs and T. Foster, forwards. Reserves, W. Rickard and W. Grant.

Softball Notes.

Westclox and Harrison's tonight at Central School grounds, with the former needing a victory to stay in the series. Harrison's won the first game and if they take to-night's game they will be second half winners.

If Westclox can punch out a win tonight another game will be necessary. The Clockmakers are out to grab the game and will send Darling in for mound duty. Montgomery or Parsons will toss them in for the Storemen.

The game will start at 6.30 sharp.

CRICKET

The Peterborough Cricket Club and the C.G.E. Cricket Club will meet in a return game at the Oval to-morrow afternoon, game to commence at 2 o'clock sharp. Players of both teams are asked to be on hand by 1.30. All members of the Peterborough Cricket Club please turn out for this game.

DISTRICT NOTES
from Villages and Towns in District
(BY CORRESPONDENTS OF THE EXAMINER)

CORDOVA MINES

Miss Hilda Thompson, teacher of the junior room, has resigned her position on the school staff, having accepted a position on the Marmora Public School staff. She will be replaced here by Miss Josephine Anderson of Round Lake. Miss McIntosh of Southampton, will resume her duties as teacher of the senior room in the coming term.

Mr. Geo. Wiggins of Niagara Falls is spending a week with his brother, Mr. Robert Wiggins.

Miss Elsie Wannamaker of Round Lake settlement, was a visitor recently at the home of Mrs. R. Wiggins.

Mr. Chas. Fhermbaugh of Kitchener, spent a few days last week, at the home of John E. Maloney.

Miss Jean McCurdy of Rochester, N.Y., spent a few days recently with her parents, Mr. and Mrs. James Mc-Curdey.

Miss Edith Hay, of Belleville, spent the past week with her mother, Mrs. B. Hay.

Mrs. Robert Fhermbaugh and her daughter, Kathleen, of Kitchener, spent a few days last week, with her brother, Mr. Louis Meyers.

Quite a number from here attended the ball game at Havelock on Friday last, when Rockdale and Havelock played an exhibition game. The Havelock boys defeated the visitors by a score of 8-4.

Mrs. Fred Bowen spent the past week in Campbellford, the guest of her sister, Mrs. Wm. Dunk.

Miss Winnifred Spencer of Havelock spent a few days recently at the Methodist parsonage, the guest of her brother, Rev. Ralph Spencer.

Mr. Harry Barrons of Clarkesville, Penn., is spending a week's holidays with his mother, Mrs. D. Barrons.

The young people of Cordova Mines gave a dance in the Community Hall on Friday last, which was very largely attended. Mr. McGregor and his son Neil, furnished music for round and square dancing, and a fine time was enjoyed by all present. This dance has become a weekly affair with the young people. Each gentleman attending subscribes a small sum, to pay expenses, and dancing continues until about twelve-thirty. A few friends from Havelock and Marmora are always to be seen at these dances.

MOUNT PLEASANT

Mr. and Mrs. Chas. Johnston and family of Toronto spent a few days with Mrs. Johnston's sister, Mrs. L. Jamieson.

Messrs. Herman and Gordon McLean of Toronto spent the week-end with their brother, Mr. Eric McLean and Mrs. McLean.

Mrs. J. Fowler returned to her home in Peterborough on Friday after spending the past month with her sister, Miss Lena Finley.

Mr. Wm. Elliott of Unionville spent the week-end with his daughter, Mrs. E. McLean.

Mr. and Mrs. Reginald Tate of Peterborough called on friends here on Friday.

Miss Geraldine Brown, of Cavan spent a few days with her aunt, Mrs. L. Jamieson.

Miss Helen McLean of Toronto is holidaying with Mr. and Mrs. Ira Lowe.

Mr. and Mrs. Bruce Scott of Smith called on friends here on Saturday evening.

Mr. and Mrs. Ira Lowe and Miss Helen McLean attended the regatta at Bewdley on Wednesday.

Mr. and Mrs. T. C. Morden were visitors to Peterborough on Saturday.

Mrs. T. W. Downer and the Misses Alma Downer, Laurine Best, Grace Best and Mr. Harvey Downer, attended the excursion to Orillia on Thursday.

Mr. Wm. Kestle of Guelph spent a few days holidaying in the village.

Miss M. Thorn spent the past week at the home of Mr. and Mrs. John Handley.

Mr. and Mrs. Herb. Parker and daughter Helen of Emily spent Sunday with friends in the village.

Mr. and Mrs. R. Munro and two children from Toronto spent the week-end with Mr. and Mrs. Eric McLean.

Mr. and Mrs. Wm. Shield of Peterborough spent Monday at the home of their daughter, Mrs. James Fee.

Friends of Norman Faulkner will be sorry to learn of his accident on Monday while returning from Omemee, his car turning turtle north of the village. His injuries will necessitate his remaining in bed for the next few weeks.

Miss Dorothy Morden passed successfully her lower school departmental examinations.

Miss Grace Best, also was successful in passing her examinations.

Miss M. Thorn is visiting with Miss Lena Finley this week.

Mr. H. Hope and son Charles and Miss Beatrice of London, spent a few days with friends in the village.

Miss Olive Fife of Emily spent the week-end with her friend, Miss Alma Downer.

Mr. and Mrs. Bruce Scott, Mr. and Mrs. Ira Lowe and the Misses Helen McLean and May King were visitors to the Kent Garden, Port Perry and also visited friends at Pleasant Point on Sunday.

EAST EMILY.

Mr. and Mrs. Lewis Windrim, of Lindsay, spent Sunday visiting with Mr. and Mrs. Sayward Switzer.

Miss Bertha Fee of Toronto, spent the last week visiting with her cousin, Miss Freda Moncrief.

Mr. and Mrs. Henry Sherin of Los Angeles, Cal., spent last Thursday the guests of the former's nephew, Mr. and Mrs. Milton Sherin.

Mr. and Mrs. K. A. Murray and baby of Cobourg, spent the week-end with the latters parents, Mr. and Mrs. Wm. Kerr.

The Misses Eleanor and Dorothy Sherin spent last week visiting with Miss Effie Boyd of Peterborough.

Mr. and Mrs. Walter Moncrief motored to Brighton on Sunday and were the guests of Mr. and Mrs. Stanley Sluggett.

Mr. and Mrs. T. H. Ruth of Peterborough, spent Sunday the guests of Mr. and Mrs. Milton Sherin.

Mrs. S. Ward of Peterborough and her mother, Mrs. Gardiner, of Norwood, spent Monday visiting with Mr. and Mrs. M. Ruth.

Mrs. Samuel Fee spent Sunday visiting with Mr. and Mrs. Stanley Sluggett of Brighton.

Mr. and Mrs. Cook and daughter of Cleveland, Ohio, spent the past week visiting with the latter's aunt, Mr. and Mrs. Wm. Kerr.

Mr. and Mrs. Bert Davis and children of Cooburg, spent Sunday visiting relatives in East Emily.

Mr. and Mrs. F. Sedgwick spent last week visiting with Mr. and Mrs. Thos. Wood before leaving by motor for their home in the west.

The many friends of Mr. Norman Faulkner are sorry to learn he happened with what might have been a serious accident last Monday night while driving from Omemee to Mt. pleasant. He ran off the end of a culvert near Mt. Pleasant and he is confined to his room suffering from serious cuts and bruises. Norman's many friends hope for a speedy recovery.

The Misses Marion Storey and Gladys Smith spent a few days last week the guest of their friend, Miss Doris Parker of Bobcaygeon.

Mrs. Bennett of Lindsay, called at the home of Mr. and Mrs. Sayward Switzer on Sunday.

Mr. Roy Fee has returned to Detroit after spending his vacation with his mother, Mrs. Samuel Fee.

HALLS BRIDGE.

Mr. and Mrs. H. Steele and Miss Mabel Steele and Mr. and Mrs. C. W. Fatt of Toronto were guests of Mr. and Mrs. Hy Shearer for the week end.

Mr. Harry Ross of Peterborough was the guest of Mr. and Mrs. Wallace Shearer for the week end.

Miss Leona Shearer is the guest of her aunt, Mrs. William Shearer at Lakehurst.

Miss Pluard, who has been spending her vacation with her parents, Mr. and Mrs. Fred Pluard has returned to her hospital in Rochester.

Miss Iris Willis, who has been spending her vacation with her parents, Dr. and Mrs. Ed. E. Willis, returned to the hospital of St. John the Divine at Toronto on Tuesday.

Mrs. Joseph Walker was hostess at a Pink Tea on Tuesday afternoon in aid of the funds of the Lakehurst Girls' Starlight Band. The tea was served on the lawn and a large number of guests attended.

BELMONT LAKE.

Miss Marion McConnell of Toronto, is spending her vacation with her friend, Miss Florence Taylor of Toronto at her summer home, Belmont Lake.

Mr. Webb and son Gordon of Toronto, and Master Billie Godward, also of Toronto, are camping at Breckenridge's shore, Belmont Lake.

Mrs. J. Johnstone and two children, of Toronto, are visiting Mrs. Johnstones sister, Mrs. John King, at Belmontee.

Mr. and Mrs. Hider of Toronto, are guests at Belmontee.

Miss Mildred Reynolds of Trenton, has returned home, after visiting her friend, Miss Isabel Breckenridge, for the past two weeks.

Mr. Fred Perry of Toronto, spent two weeks recently, the guest of Mr. and Mrs. Frank Breckenridge.

Miss Muriel Breckenridge is spending a week in Peterborough, the guest of her sister, Miss Mabel Breckenridge.

Mrs. Frank Breckenridge left on Monday for a trip to Noranda, Que., where she will visit her brother, Mr. Frank Dafoe and family. She will also visit friends at Timmins and Cobalt. She was accompanied by Mr. and Mrs. Geo. Smith, and Mrs. Bruce Longmuir.

Mr. Harry Barrens of Clarkesville, is spending a week's vacation with his mother, Mrs. Chas. Barrens.

MADOC

Mrs. Stanley Thompson, who has been visiting her parents, Mr. and Mrs. M. Bristol and Mrs. A. Thompson and other Madoc friends, left on Wednesday for her home in Fort Worth, Texas.

Mrs. Frank Rowe of Ottawa is visiting her parents, Mr. and Mrs. Malcolm Bristol in Madoc.

Mr. and Mrs. S. S. Ashley of Madoc and Mr. Ashley's two sisters, Mrs. A. Corrigal of Stirling and Mrs. Herrity of Kerrobert, Saskatchewan, spent Sunday at the Thousand Islands.

Miss Jennie Aylesworth of Toronto is the guest of Mrs. D. Brown, in Madoc.

Madoc Lawn Bowlers' Club were represented at the tournament at Belleville on Monday last by a mixed team consisting of Mr. and Mrs. C. G. Moon and Mr. and Mrs. Hugh Kellar. These report a splendid day's sport and a most enjoyable time.

Night Time Terror
of the Highways
Lights that Glare

The greatest menace to night driving is the car with only one headlight, or headlights that glare.

A driver meeting a "one-eyed" car cannot tell whether it is the left or right headlight which is burning. Therefore he is unable to judge the distance required for clearance in passing. Often a crash results or one driver is forced into the ditch.

When lights glare, drivers in the opposite direction are blinded. They cannot see the side of the road or the traffic ahead of them. The law provides a fine for defective lights and the Night Traffic Patrol is vigilant.

Any garage will quickly adjust your headlights so they will not glare. You can do it yourself by following the directions which the Department of Highways will send you free.

WESTBYE WINS BRADBURN CUP IN CANOE SAILING

Jim McFarlane Captures For Second Time J. H. Hughes Cup.

CHEMONG JUNIOR REGATTA.

Nancy Hopwood and Drake Jopling Win Strickland Silver Trophies.

Winners of the silver trophies donated this season by J. F. Strickland, M.P.P., to the girl and boy of sixteen years or under coming in first place in single canoe events in connection with the Junior Regatta, held at Chemong Park on Wednesday afternoon, were Nancy Hopwood and Drake Jopling. Betty Hopwood and Eric Westbye came in second place in these contests.

Two senior events scheduled for the large regatta last week and left over until the Junior Regatta, were the Canoe Sailing race for the W. H. Bradburn Trophy and the Men's Single Canoe race for the J. K. Hughes Cup. The Bradburn Trophy went to Eric Westbye, with 'Pete' Gordon in second place, while Mr. Hughes' cup was captured for the second time by Jim McFarlane, with Ted Hiland second. A third win of this trophy will give ownership to the lucky competitor, if Jim McFarlane happens to gain it next season.

For most points gained in girl's and boy's contests, silver cups were presented to Jean McFarlane and Douglas McPherson.

Most Successful Event

The Junior Regatta was one of the most successful events of its type held in the Park for several seasons. The number of entrants was exceptionally large. Eighteen juniors were entered in one contest alone, and several of them had to be run in separate sections. The contests were staged in front of J. K. Hughes' cottage, with Dr. A. W. McPherson as the chairman, assisted by an energetic group of workers that included Roy Dixon, J. K. Hughes, Alex Darling, W. J. Thompson, Gordon Matthews, Fred Hills, J. A. McClenaghan, Graham Eastwood.

The land races run off after the water sports were in charge of Dr. G. R. Scott and F. L. Roy. Small prizes were given to the winners.

Gentlemen who dispensed the free ice cream cones and chocolate bars did a rushing business, running out of coupons on several occasions, so great was the demand for their ware.

The weather was ideal and the Regatta proved a most successful and entertaining event.

Prize List

Contests and prize-winners were as follows: Boys' single canoe (12 years and under) (1st prize, paddle) R. Pulkinghorn, (second prize, soft ball) Douglas McPherson.

Girls' single canoe (twelve years and under): (first, paddle) Jean McFarlane (second, bathing cap) Mary McPherson.

Girls' single canoe (sixteen years and under): (first, silver trophy donated by J. F. Strickland, M.P.P.) Nancy Hopwood (second, paddle) Betty Hopwood.
